

## Madam's 2641

Chapter 2641 Our Privy Council does not accept Orientals, especially people from country Z

After explaining to Qiao Nian, he turned to introduce to the hidden family: "This is Qiao Nian, the future heir of our First Research Institute."

Feng Yu said this deliberately to increase his chips for Qiao Nian.

Sure enough.

The two members of the Privy Council around Eagle Hook-nosed cast strange glances at Qiao Nian, which seemed to pay more attention than the previous indifference.

It's just that the old man in the middle of them was still sitting there with an expressionless face, and he didn't say hello to Qiao Nian. He interrupted Feng Yu's introduction bluntly, and said directly to the girl, "I'm looking for a girl today. You are here to tell you about the information, you are from country Z, you are not from the Independent Continent?"

This is a rather rude question!

Qiao Nian could feel his strong contempt and dissatisfaction from the tone of his speech and his eyes.

Tsk~

"Ah, no."

Leonard's face turned black, and he looked at her up and down: "You are the descendant of the Ji family, how can you not be from the Independent Continent?"

Zhou Zhou knew Qiao Nian's temper and looked over worriedly.

The girl really stretched out her hand and pressed down on her cap, her red lips slightly parted, and she said casually, "You are not from the Independent Continent, didn't you come to the Independent Continent too?"

Leonard's complexion was another layer of success.

This attitude... Does she know who she is talking to?

Qiao Nian has always been the person who's "what are you, what kind of face do you give me", looked at him impatiently and said, "What are you looking for from me?"

She didn't want to waste time, she said succinctly: "If you have something to say, I'm still busy."

Feng Yu's back was cold and sweaty. She could not wait to go up and hold this little ancestor, she was too irritating.

When did the people in the Privy Council suffer from this kind of neglect, his eagle nose was so angry that his face turned green, because of the people present, he took out the documents and threw them on the coffee table and said, "Our Privy Council does not accept Orientals, especially people from the East. People from country Z."

The Privy Council is extremely repulsive of oriental faces, or in other words, they despise short oriental people in their bones.

Leonard tried to calmly tell her, but his tone still revealed his superior mentality: "I will give you a way, if you really want to enter the Privy Council, you can fill in a new document, the premise is that you have Z. If you change your nationality to an independent continent, we reluctantly set a precedent for you."

This is also a compromise solution that all parties came up with after an emergency meeting after they received the information from Qiao Nian yesterday.

The Ji family has a very tough attitude this time and will not change people.

They are going to push Qiao Nian into the Privy Council.

But Qiao Nian is from country Z, and the Privy Council will never allow a low-level race like her to enter the core institution. This is an insult to their hidden family and will lower their grades...

"This is already the result after we made concessions. There is no room for manoeuvre. You should think carefully about it yourself."

He took it for granted: "It takes about half a month for you to change your nationality. I will give you ten days. You can find someone to change your nationality, send another application, and we will re-examine your qualifications."

He clenched his chin, motioned the girl to pick up the documents on the table, and said in a low voice, "This is your application form, take it back and take a good look, it contains our requirements for you."

Qiao Nian has been standing sideways with a very playful expression.

"I will stay in Independence Island during this time and finish your business. You can come to me if you have any questions. My hotel room number is..." He hadn't finished.

Chapter 2642 Sister Nian threw the documents into the trash in front of him

The girl probably couldn't listen anymore, so she interrupted him: "No need."

He suddenly shut up, staring at the girl's face with extreme displeasure, and seemed very unhappy that Qiao Nian interrupted him so unruly.

Qiao Nian walked in front of him, bent down to pick up the folder, walked to the trash can under the watchful eyes of him and the other two members of the Privy Council, released his hand, and threw the folder directly into the trash can.

Then the girl turned around again, put her hands in her pockets, and looked at the three people sitting on the sofa: "I won't enter the Privy Council anymore."

She said she was about to leave the office.

When did the eagle-nosed old man experience such a situation? He stood up abruptly and stopped the girl who was leaving: "Do you know that the Privy Council is not a place where you can enter if you want, this is a once-in-a-lifetime opportunity, you don't cherish it ..."

The girl stopped before she walked out the door, but didn't bother to look back.

"Have you ever heard an old saying in country Z, there are people outside people, and there are days outside the sky."

"The Privy Council has been in the well too long."

"You are not the only institution in this world."

Every word of hers has a light tone, lazy and not strong.

But every word poked into the hearts of the three of them, causing them to change their faces and unable to calm down for a long time.

The girl left in a blink of an eye, leaving only the Privy Council and Zhou Zhou in the office.

Xu Yi had been standing in the corner, indifferent to what was happening in front of him, and there was no surprise on his handsome face, as if he knew that Qiao Nian would definitely reject the Privy Council.

Xue Zhu was more excited than him, but it was the kind of excitement that Qiao Nian was so excited that she opened her mouth slightly.

Among the few people present, only Feng Yu raised his hand to cover his eyes, with a splitting headache, not knowing how to clean up the mess.

"That, Mr. Lei." He reluctantly spoke, trying to save Qiao Nian.

After all, the Privy Council is not easy to mess with.

He only spoke, and the hooked-nosed old man probably reacted, his face became extremely ugly, stood up, and said coldly: "Since she doesn't want to enter the Privy Council, we will not force it, farewell!"

The other two got up, and one of them probably wanted to say something.

Leonard was in a fit of anger and said to them angrily: "Let's go!"

Feng Yu saw the three of them leaving the research institute in a hurry, and he didn't go out to send them away. When the people left, he turned around and said to Shi Fu, "Did you already know?"

Shi Fu picked up his thermos cup and left: "I wouldn't agree to their request."

Research knows no borders.

Scientists have national borders.

The Privy Council discriminates against Orientals like this. If he is Qiao Nian, he will not change his identity in order to enter the Privy Council.

This is character.

"I'm leaving, I'm going back to do the experiment." Shi Fu calmly walked out.

Feng Yu looked at him and left like this, muttering speechlessly: "It was you who strongly urged others to enter the Privy Council, and you were the first to accept the result when you turned around and broke up, I really don't know what you are thinking about every day. "

Zhou Zhou walked over and said, "Dean, what should we do next? Do we still care?"

Feng Yu looked at her, and finally gave up: "That's it, I don't want to go against her will."

Besides, this time the Privy Council is too arrogant, and his words show a superior attitude, which makes Feng Yu extremely dissatisfied, so he does not plan to mediate.

As far as the Privy Council can accept it, it can be accepted, and if it cannot be accepted, forget it!

Chapter 2643 Lei Lao, our purpose is not to break up with her!

Outside the First Research Institute.

The three of them just went out.

One of the middle-aged men with ordinary short hair and short hair slowed down and said to the hooked-nosed old man who was with him in disapproval: "Lao Lei, did you speak too impulsive, we are here to discuss with her whether to force you or not She has to do as we ask, and now there is a falling out, we can't go back and do business!"

Hook-nosed was angry, stopped to look at him sharply: "What do you mean?"

"You didn't see her attitude towards us, there's no respect for her."

The middle-aged man was at a loss for words, thinking that wasn't you the first to provoke others?

Leonard doesn't care about his previous attitude, he just cares about Qiao Nian's attitude, he snorted, and said, "She made it clear that she doesn't take us seriously, so maybe our Privy Council has to hurry up and beg her to fail!"

The ordinary-looking middle-aged man couldn't argue with him. He put his hand on his temple and said helplessly to him, "Lao Lei, don't forget, what is the result of the Privy Council's consultation on this new recruitment..."

The Privy Council asked them to come here this time to help Qiao Nian complete the preliminary procedures, not to make people stop entering the Privy Council.

This is not the purpose of their special trip this time.

"I've seen her profile." The middle-aged man continued: "She is a malleable talent and is very suitable for entering the Privy Council. We need to cultivate fresh blood."

Hook-nosed said extremely unhappily: "The Privy Council has never accepted Orientals. I have already made a concession to let her change to an independent continent. This request is not difficult to achieve, but she refused without saying a word, and even sent us Throw her application form in the trash..." It's unbearable!

"Lao Xue's meaning..." The middle-aged man was not of a faction with him, so he dared to argue with him.

As soon as the middle-aged man took out the name of Lao Xue, the leader of the conservative faction, the hook-nosed old man's eyes sank, and he said gloomily: "Don't talk about him, if you are not satisfied, you can talk to him yourself. She discussed it, I won't serve you!"

"In short, I will not agree to a person from country Z entering the Privy Council, even if she has the blood of the Ji family."

"I didn't know before that she insisted that she would not change her independent state. Now that things have developed to this point, I will discuss with the elders. She doesn't want to enter the Privy Council, and the Privy Council may not want her!"

After he finished speaking, he walked out angrily.

The middle-aged man watched him leave, and had no choice but to walk one step behind him. By the way, he hurriedly called the leader of his faction, Mr. Xue, and reported the situation to the other party.

\*

Waiting for Leonard and his group to return to the outside of the hotel where they were staying, they were about to take the elevator up.

Suddenly a voice stopped him.

"Are you Lei Lao?"

Leonard looked back and saw the young woman walking towards him, with bright eyes and white teeth, looking very polite.

He narrowed his eyes and asked the people around him, "Who is she?"

A total of three people came to the Privy Council this time, one is a conservative, one is a radical of Leonard, and the other is a neutral.

Compared with the other two factions, the neutral faction has been arguing all day long.

Although        does not look particularly outstanding, it is also a considerable force in the Privy Council.

The man looked at Ji Ziyin who came over, and said with a constant expression, "It seems to be the one recommended by the queen...Miss Ji?"

Chapter 2644 Qiao Nian rejected the Privy Council?

"The Queen recommends someone?"

Leonard narrowed his eyes slightly and looked at the woman who came over.

Ji Ziyin quickly walked up to the two of them, and respectfully took out her business card and handed it over: "Hello, Mr. Lei, I'm Ji Ziyin, this is my business card."

The hooked-nosed old man calmly reached out to take it, his attitude towards her was not too eager: "How did you find this place?"

Ji Ziyin knew the identity of the other party and did not dare to hide it: "I heard from Lord Shadow that you are coming to Independent Island to do business, so I have been waiting outside the First Research Institute."

"I originally wanted to go in to visit, but I didn't go in to disturb the two of you because of my inconvenience."

After she explained vaguely, she looked up at the hooked-nosed old man, carefully observed his expression, and said cautiously, "Elder Lei, have you done your business?"

She knew that the people from the Privy Council would go to the research institute to find Qiao Nian today, so she was anxiously waiting outside for someone to come out.

She didn't even think about breaking into the First Research Institute.

But the First Research Institute is not anyone who wants to enter.

Especially for someone like her who was kicked out of the First Research Institute, it is even harder to get in!

Ji Ziyin's eyes flickered, nervously observing the reaction of the two, the hand hanging by her side clenched unconsciously, and clenched it into a fist.

"Huh, people say that they will not enter the Privy Council." She probably mentioned the pain point of the hooked-nosed old man, and he almost sneered out of his mouth.

Fortunately, the person beside him grabbed him: "Old Lei, be careful with your words and deeds."

"..." Leonard reacted suddenly, his expression even more ugly.

The man turned his head and said to Ji Ziyin, "Miss Ji, we have received your business card. We are going to go to rest now, so we will not accompany you."

Ji Ziyin was still in shock, but her mouth responded quickly: "Okay, okay, I won't disturb the two of you."

She looked at Reynard and said with insight: "Lao Lei, I grew up in Independence Island. If you want to visit Independence Island, I can be the tour guide for the two of you. In addition, the hotel has me here. You can contact me if you need anything, and my business card has a phone number on it."

After she finished speaking, she politely stepped aside to clear the way, and pressed the elevator button for the two of them, looking like she was willing to help them.

The elevator came soon.

The two entered the elevator under her gaze. After a while, the elevator door closed, and the numbers on the left side of the elevator began to rise continuously.

Ji Ziyin put away the mask on her face at the moment when the elevator closed, the corners of her mouth were slightly restrained, and she was a little unbelievably low: "She refused to enter the Privy Council?"

There are people in this world who would refuse the olive branch thrown by the Privy Council. Qiao Nian is too crazy.

Does she know what is behind the Privy Council!

Ji Ziyin's blood surged at this moment, her heartbeat was thumping, and she almost jumped out of her throat.

On the one hand, she did not dare to believe that Qiao Nian would reject the Privy Council, and on the other hand, she resented that Qiao Nian dared to reject the Privy Council...

This mixed feeling of surprise and resentment lingered in her heart, almost tearing her soul in half.

Compared with jealousy, Ji Ziyin still has the upper hand in her fortunate emotions.

She quickly picked up her mood, took out her phone, turned around and walked out: "Lord Shadow, I saw Lao Lei and the others."

"No, I only saw two people."

"Elder Lei said... Qiao Nian refused to enter the Privy Council."

She lowered her voice and tried her best to suppress her joy: "I don't know what the situation is, they should have broken down..."

Chapter 2645 Slap in the face! We only recognize the direct line of the Ji family!

In the elevator.

The hook-nosed old man put away the business card Ji Ziyin gave him.

just arrived at the place, he walked out of the elevator with a blank face, took out the key card and prepared to go back to the room.

Those who were with him stopped him.

"Lao Lei, the result of the consultation in the Privy Council is Qiao Nian, not Ji Ziyin, don't confuse it."

"..."

Leonard had already opened the door. Hearing this, he turned around and looked at the person who reminded him. He felt unhappy for a while: "I know the decision of the Privy Council, you don't need to remind me."

"That's good." The man was a neutral, so he didn't want to quarrel with him, he smiled and opened the door.

Leonard looked at the other party and walked in with ease, and his heart became more and more uncomfortable. He looked at the opposite room and said coldly: "Don't forget, everyone made this decision because they didn't know she was from the East at the time. , or from country Z."

He frowned: "Since she is unwilling to change her nationality, everyone will definitely reconsider her suitability to enter the Privy Council again!"

The man in the opposite room was a little surprised by his reaction, but after listening to his words, he nodded calmly: "As long as it is the decision of the Privy Council, I have no opinion."

Leonard felt powerless as he punched the cotton.

He didn't want to offend the neutrals, so he suppressed his displeasure, entered his room, and slammed the door shut.

After returning to the hotel room.

He connected the computer to the Internet non-stop, then contacted the Privy Council, and told the Privy Council all his experiences at the First Research Institute today.

In the end, he said in a very unhappy tone: "Our Privy Council has never had a precedent for absorbing Orientals. She is unwilling to change to an independent continent. I mean to change!"

"I've seen her, she's too crazy, this kind of personality is not suitable for the Privy Council, and we don't need such a personality in the Privy Council."

"She doesn't even have basic rules, and she doesn't respect the Privy Council. I really don't understand what the reason is for her, just because she is Ji's family?"

"If it's for this, the Ji family is not alone! Isn't there a ready-made candidate?"

He was playing a video of the meeting. The other end of the video was facing the meeting room of the Privy Council headquarters. There were more than a dozen people sitting in the meeting room.

The hooked-nosed old man was very angry, and he did not hide his temper, and finished angrily.

Wait for him to finish.

The silver-haired old man in the video said lightly, "Who are the ready-made candidates you said? Is it Ji Ziyin?"

Leonard frowned, his eagle eyes sank slightly: "I just said that there is more than one person in the Ji family."

"Um."

The silver-haired old man answered lightly: "The Privy Council only recognizes the direct line of the Ji family. As for those side branches that cannot be beaten by eight poles, we do not recognize them."

His words instantly silenced Leonard.

But Qiao Nian's attitude still stimulated his nerves: "But she is not willing to change to an independent continent for the Privy Council! Do we want an oriental face to enter the Privy Council, or someone with the blood of the Z country?"

He really couldn't accept an Oriental into the Privy Council.

The Privy Council is such a noble place, how can the inferior blood bring them down.

The silver-haired old man narrowed his eyes, and said almost without any emotional fluctuations: "Don't forget, I also have half of the oriental blood that you despise."

Leonard seemed to be extremely afraid of him, his whole body froze, and he immediately smoothed out: "You know I don't mean that."

Chapter 2646 What you said, we will vote

"If you talk about this matter, we will hold a meeting to decide." The silver-haired old man said calmly without dwelling on the small details.

"If more than half of the people at the meeting agree, then the Privy Council will choose her according to the rules, regardless of whether she changes to an independent state."

"What if more than half of the people at the meeting disagree?" Leonard said immediately.

The silver-haired old man looked at him and said very calmly: "If more than half of the people vote against it, then the Privy Council will choose another person."

He just wanted to mention the person proposed by the Queen.

When the words came to his mouth, he swallowed them silently.

Forget it, it's useless to say so much now, it's better to wait for the voting results to come out!

As long as it's not that Qiao Nian, the vacated position is not the one who will become the Queen's choice as they discussed before.

So he doesn't have to fight against the old man Xue Conglin at this time.

Reynard turned off the video conference on the computer, and the triangle eye that pulled down became more and more sinister, and turned to contact the neutral people.

The Privy Council has always been a voting system. Once a major matter needs to be decided, it is a three-way vote.

At such times, the attitude of the neutralists is particularly important.

Reynard is confident to convince the neutrals to stand here this time!

He did what he said, and made a phone call: "Hey, it's me, help me transfer the line to Jacob."

\*

at the same time.

Xu Yi was about to find Qiao Nian when he received a strange call on the way.

When he saw the string of familiar and unfamiliar numbers, he felt annoyed for a while, and went to the corner to pick it up: "Didn't I tell you not to call me while I'm working?"

"Master, I'm here to deliver you something, and I'll wait for you outside." The voice on the other end of the phone was gentle and gentle, and it was obvious that he was old, and he was very respectful to him.

Xu Yi frowned, endured, and said, "Where are you?"

The man reported a location outside the First Research Institute.

Xu Yi became more and more upset, turned around and walked out: "Stand there and don't move, I'll come out right away."

He hung up the phone, thought for a while, then lowered his head and sent a WeChat message to the girl saying that he had encountered some personal affairs and would come later.

The girl's avatar is as simple as ever, just a plain white background image.

After Xu Yi's message was sent, there was no reply from the other side.

He knew that Qiao Nian might be busy and didn't have time to look at the phone, so he pursed his lips, put the phone back in his pocket, and walked outside quickly.

...

Outside.

A low-key black Passaco was parked outside, the driver didn't get off the car, and an old woman with silver hair stood beside the car.

The old woman was dressed in plain clothes, her hair was meticulously combed, and she was very clean and tidy.

With a box in her hand, she has been standing quietly under the camphor tree waiting for the people inside to come out.

Less than five minutes.

Xu Yi came out of it and walked towards her.

The old woman showed obvious joy on her face, suppressed the joy in her heart, and stood still as he said, waiting for him to come.

Xu Yi walked over in three or two steps and saw her, she was not ruthless after all, but there was no extra expression on Qingjun's face: "Didn't I tell you not to come to the research institute to find me?"

"I brought you something for your father." The old woman raised her head, her eyes full of tenderness.

"Isn't it your birthday today?" She handed over what she brought: "This is a birthday present from your father."

Chapter 2647 Master, your father wants you to go back

Xu Yi didn't reach out, just watched her hand him the gift, pursed her lips, and said indifferently, "No, I don't have a father."

The old woman seemed to know that he would say this, so she didn't force him, she slowly put down the gift in her hand, and whispered: "Your father hopes you can go back..."

Xu Yi full of mockery: "He wants to recognize me before he is born, right?"

"Young master, don't say that." The old woman didn't know how to comfort him, so she thought about it and said, "It will also be good for your own development if you go back. You have stayed here and suffered a lot. As long as you go back..."

Before she could finish speaking, Xu Yi closed her eyes to block the haze under her eyes, and a line was drawn at the corner of her mouth to interrupt her: "I won't go back."

The old woman hesitated.

He put his hands in his pockets and continued coldly: "Go back and tell him, I don't need him to find someone to teach me, and I don't need his cheap customs... I just want him not to disturb my life! I'm living well now, My mom and I would be better off without him!"

"Master..."

Xu Yi didn't want to entangle with her at the entrance of the institute: "I'm leaving, you go back."

The old woman looked helpless and wanted to persuade him, but she didn't know where to start.

She had to say to the young man who had grown up in front of her: "Okay, I'll take the gift away. But young master, the teacher your father arranged for you has to continue to teach you, don't resist him too much, or your mother will I know who got the teacher for you."

Xu Yi looked at her coldly.

The old woman couldn't bear to do this, but she couldn't change the status quo: "Your father will not allow you to drive away the teacher. If you want to protect your mother from being stimulated, please bear with it..."

"I see." Xu Yi waved his hand, motioning her to leave.

The old woman put the gift she brought back into the car, opened the door and got in the car.

Xu Yi saw her getting in the car and watched her fasten her seat belt, then turned around and walked into the research institute.

He walked back but didn't see the driver in the car turning back and whispering to the old woman: "Butler Lai, why do you think the young master doesn't want to recognize his ancestors and return to his ancestry!"

"Okay, don't say a few words." The old woman obviously knew some inside stories, and she felt distressed when she saw the thin back of the young man, and whispered in a low voice: "He has suffered a lot with his mother since he was a child, and he should be unwilling to go back. of."

The driver still did not understand the reason why Xu Yi was unwilling to recognize his father.

The old woman was obviously in a low mood, she raised her hand and told him, "Let's go."

She has to go back to report to Quentin, and also to report on the progress of the young master's study during this period...

The day before yesterday, the teacher told him about the power distribution of the hidden family, and I don't know how much the young master listened to.

The old woman stopped staying: "Young master doesn't like us disturbing his life, let's go."

The driver didn't dare to ask any more questions, turned the car around, and drove the car slowly away from the entrance of the institute.

Because they drive a Passat, not many people noticed them, and the black car was low-key as if it had never appeared before, and no one cared.

On the other side of the road, the man in the driver's seat on a silver Phaeton rolled down the window and watched the black car pass him...

He opened the door and got out of the car, leaned diagonally against the side of the car, lowered his head slightly and sent a message to the first person on his WeChat list.

The sun slanted on him, framing his broad shoulders and slender neck. The azure shirt was appropriately calm and noble on him, like a landscape painting.

The third stunning color in Beijing.

Yeliang River.

Chapter 2648 Is the hidden family so worthless these days?

In the first research institute.

Xu Yi just went back.

Qiao Nian was really doing an experiment. He was wearing goggles and looked at the reactor in front of him without squinting, but he didn't notice him coming in.

Xu Yi felt relieved and calmed down when he saw this scene.

He took off his coat and put on a lab coat, walked over and asked, "Are you doing the third experiment?"

"Yeah." The girl didn't lift her head, her eyes were firmly on the reactor, not wanting to miss any reaction changes.

Xu Yi didn't bother her anymore, just stood there quietly and waited for the data to come out with her.

after an hour.

The reactor stopped.

Qiao Nian held a pen in his hand and recorded the experimental data stroke by stroke.

Her fair profile face is well-defined, and the jawline is extremely smooth, which is the kind of good-looking that will make people stunning at a glance.

Coupled with her focused and serious expression, her black eyelashes drooped down, and she was too sparse and cold.

Qiao Nian wrote down all the response data, then took the laptop and went back to the computer to enter the data he got.

She has been in the laboratory day and night recently, and there is already a lot of experimental data on the computer.

Qiao Nian wrote the latest data, hit the Enter key, and the computer took a few minutes to pop up a 3D modeling.

The lines of the 3D modeling at the moment are still very simple, with only a few strokes, but the outline of the structure can already be seen.

Xu Yi stared at the modeling model rotating at a constant speed on the screen in surprise, and a frenzy burst out in his cold eyes.

Semiconductor missile?

He has never seen a missile of this construction.

Qiao Nian saw the increasingly clearer model diagram on the computer, she got up and went to the water dispenser to get a glass of water, turned back, took advantage of the rest time, picked up the phone, and lowered her head to verify the password lock on the screen...

She turned on her phone and saw at a glance the WeChat message Ye Wuchuan sent her half an hour ago.

Qiao Nian just clicked on the WeChat message.

is someone's avatar.

She scrolled down and quickly saw the latest one.

[Y: Does your colleague surnamed Xu know someone from a hidden family? ]

Qiao Nian had just finished a complex nuclear reactor experiment, her mind was chaotic and she couldn't figure it out. She suddenly saw such a WeChat message, and she paused for half a minute before she remembered which colleague surnamed Xu beside her.

[QN: ? ? ? ]

She casually returned three question marks to Ye Wuchuan.

The second came back.

[Y: I met someone from the Hidden Family outside the institute looking for him. The two seem to know each other very well, so I'm asking you. ]

Qiao Nian looked up after reading the news on WeChat, and asked directly, "Do you know anyone from the Hidden Family?"

Xu Yi was still studying the missile model on her computer. Hearing this, he looked over in surprise, and immediately felt a little embarrassed: "How do you know?"

"I heard people say that I saw you have contact with them." Qiao Nian asked him in a very ordinary tone, like chatting between friends, nothing special.

Xu Yi's tense raised shoulders slowly lowered, smiled bitterly, and looked at her: "I told you about my life experience."

Qiao Nian thought for a while, and then he remembered what he had said about the illegitimate child, and hummed.

Xu Yi pursed his lips: "The person over there has come to me, he is a member of the hidden family."

Qiao Nian was a little surprised but not surprised.

The last time Xu Yi told her about Ji Ziyin, she had guessed that Xu Yi's father might be a member of the hidden family, but she didn't expect that his life experience could really be related to the hidden family.

Qiao Nian suddenly had a sense of sight that the hidden family seemed to be everywhere.

These days, is the hidden family so worthless?

#### Chapter 2649 Xu Yi's father is really a member of a hidden family

Xu Yi wanted to put his hand into the white coat, but gave up halfway, and had nowhere to put it on his side: "I don't know what his identity is in the hidden family, I haven't asked, I only know that he sent me to my side. Those people often mentioned to me the power distribution of the hidden family and some news that I hadn't heard of outside..."

Qiao Nian saw a cluster of flames hidden under his cold eyes, so he nodded and asked no more: "Well, I see."

Xu Yi saw that she turned around naturally and was about to continue the next experiment. He had an indescribable feeling in his heart, and couldn't help asking the girl who turned his back to him: "You, don't you ask me?"

Qiao Nian took a clean test tube, turned around, and asked rhetorically, "What are you asking?"

Xu Yi watched her busy preparing for the experiment, but she didn't know how to speak for a while.

He walked over and helped to clean up the reactor that had not been cleaned up before, pursed his lips, and his hair fell down his brow: "Don't ask me, who are they? Have they asked me about you? What is their purpose?"

Qiao Niangang put the test tube on the test tube rack. Hearing this, he tilted his head and smiled dumbly: "You said that they came to you and asked me what I was doing?"

Xu Yi frowned: "Of course it's because of you..."

She has a great reputation in the hidden family.

He had heard from those people that she had a head-to-head confrontation with the Queen in the M country and then retreated.

She is a different kind in the eyes of the Hidden Family, and they all want to know her.

Qiao Nian interrupted him: "Even if they want to ask about me, I'm not worried."

Xu Yi looked at her, moved his lips, and didn't ask why.

"Because I don't think you will tell them." Qiao Nian saw what he wanted to ask, smiled and said uninhibitedly.

She believed that Xu Yi would not betray herself.

Of course, even if Xu Yi betrayed her, she would still be able to protect herself.

This is confidence.

Xu Yi stopped talking, picked up the notepad on the marble table, and said calmly, "Next, do you want to experiment with parts?"

Qiao Nian saw that he had figured it out by himself, so he didn't continue the topic, and instead gave him the calculation formula of the parts experiment on Jiqing's USB flash drive: "Hey, that's it."

"Let me take a look." Xu Yi took the scratch paper and went to the side to study.

Qiao Nian ignored him, and refocused on the things he was busy with.

\*

On the other hand, Feng Yu received news from Martin that the Privy Council would vote on Qiao Nian's recruitment.

He rushed to the office in a hurry, and wanted to call Qiao Nian as soon as possible, and called someone over to discuss it first.

Who knew that before he made this call, he received a call from Ye Wuchuan outside.

He hurried out to pick up someone.

Assistant was very surprised when Feng Yu personally received a young man to the office, and quickly went to make two cups of scented tea.

"You go out first." Feng Yu raised his hand and motioned him to go out.

"Yes, Dean." The assistant glanced at the man who came alone, and went out silently, and by the way, he helped them close the door.

When the office was quiet and only the two of them were left, Feng Yu took the lead and couldn't sit still, moved his \*\*\*\* and asked him, "Why did you come to me? Is it related to Nian Nian?"

It has been almost half a year since Ye Wuchuan came to the Independent Continent. He never returned to the First Research Institute once, and he controlled the distance exactly and was unwilling to be associated with the research institute.

Chapter 2650 There are still people in the Privy Council!

Feng Yu did not expect that he would take the initiative to find him.

He's not stupid, how could he not be able to turn around, he didn't know that Ye Wangchuan's weakness was a \*\*\*\* horse.

Only Qiao Nian can make him give up the principle.

He frowned and guessed again: "You came here for the Privy Council? You heard that too?"

Ye Wangchuan gracefully picked up the tea set, gently brushed the tea foam on it with a cover bowl, took a breath, took a sip of tea, then raised his eyes, raised his eyebrows and asked him, "This year's new tea?"

Feng Yu:...

He was very calm, and boasted with a slight smile: "It tastes good."

Feng Yu couldn't sit still, and skipped this topic directly: "Don't tell me about tea, if you like this tea, I'll turn back and give you all the tea leaves in the office!"

His neck was about to reach Ye Wuchuan's face, and he asked anxiously, "Do you have a solution?"

Ye Wuchuan leaned back calmly, distanced himself from him, and then said slowly: "I checked the current composition of the Privy Council, there are 16 conservatives, 15 radicals, and neutrals. There are 10 people ... the centrists don't seem like a lot, but they're the ones who decide every decision in the Privy Council."

"I know what you said." Feng Yu was very anxious, and immediately asked him: "You also know that they plan to vote to decide whether Nian Nian can enter?"

Ye Wangchuan nodded slightly: "I just found out."

Feng Yu let out a sigh of relief, stood up in annoyance, walked around in front of him, then stopped and said, "Ji Ziyin has the Queen's power over there, and she came to look for Leonard again... the radicals. Both sides will definitely get the quota for Niannian."

"Neutralists... I have only one Martin here, and he is willing to stand on this side, but one person is obviously not enough!"

Feng Yu and Martin have been in a relationship for more than ten years, and the two are best friends.

Before Feng Yu could speak, Martin directly said that he would vote for Qiao Nian.

"Martin is just a fringe member of the neutral faction. Although he can vote, the neutral faction only listens to the arrangements of Archbishop Quentin of the church."

"Quentin... It is said that he hates Orientals."

Feng Yu said to him: "I told Ji Huang about this, and he said that he could contact Quentin, but the result cannot be guaranteed."

The reason why neutrals are neutrals is that they are as slippery as loach.

These people and families are almost a very unique existence of the hidden family.

They belong to the hidden family and also join the Privy Council, but they do not regard the Queen as their leader.

They are more willing to obey the arrangement of the archbishop.

These people have mastered a lot of wealth and power, and even the Queen has always wanted to win over them.

There is only the existence of the archbishop, and the queen spent decades only making them appear to belong to the hidden family, not leaving the family.

"The Queen will definitely take this opportunity to win over the neutrals and completely block Nian Nian's way into the Privy Council!" Feng Yu rubbed her hands together, upset.

Ye Wangchuan of course knew this, and only said: "I have two members of my own in the Privy Council, who are from the neutral faction."

Feng Yu was originally full of anger, but when he heard this, he was like a ghost: "You still have someone in the Privy Council?!"

This...

The heart of the hidden family is the Privy Council.

He successfully inserted his own people into the heart of the hidden family?

This wrist...

Feng Yu looked at the young face of the man and was shocked: "You...?"

When the words reached his lips, he didn't know what to say.
