

Madam's 2881

Chapter 2881 Is Ji Jiajia F state qualified to challenge?

Everyone looked at her.

Her fair face was calm, and she didn't seem to have any emotions, but she didn't have the previous joking smile in her eyes.

instead raised his eyebrows.

The black eyes with extreme indifference stared at Ji Hongyuan and the others, his voice was low and hoarse: "I want to add Continent F."

"What?" Ji Hongyuan didn't react.

Qiao Nian pulled the corners of his mouth and smiled frivolously: "Is the Ji family and the forces of F continent enough to fight against the hidden family you say?"

**

Jinan kept a hand when he came back. During this time, the old house was specially blocked and no one was allowed to come and go.

Ji Ziyin couldn't find out what was going on inside.

She waited anxiously at her residence for a long time, but Ji's old house was like an airtight wall and couldn't hear any wind at all.

Leonard and Ji Shaw were with her.

Ji Xiao is simply not qualified to participate in the consultation between the elders here.

He saw the anxiety and anger that flashed on the young woman's face from time to time, put down the teacup, and comforted: "Ziyin, would you like to come and sit for a while."

"I'll ask someone to make you a cup of tea." Ji Xiao regarded this place as his own and asked Ji Ziyin, "Do you want tea or coffee?"

Ji Ziyin walked back and sat down: "Coffee bar."

She is used to drinking coffee.

Not interested in tea.

But Ji Lingfeng liked to drink tea in the past, and she has studied tea ceremony culture in order to meet Ji Lingfeng's preferences.

Now she doesn't have to please Ji Lingfeng, she can naturally be her true self.

Ji Xiao went to find a servant to make coffee for her.

Leonard looked at her fidgety look, raised his eyelids slightly, and reached for the cup: "You don't think they dare to offend the Hidden Family, do you?"

Ji Ziyin lowered her head slightly: "Qiao Nian is back."

"Huh?" Leonard glanced at her.

Ji Ziyin stared straight at her right leg that looked no different from ordinary people, her fingers were slightly cold, and she said softly, unaware, "She is not a character who sits and waits."

"..." Leonard retracted his gaze on her.

He couldn't deny it either.

Ji Ziyin suddenly raised her head again, staring at him: "Lao Lei, didn't you tell me that Ji Lingfeng and Jinan are both dead?"

The queen can still leave hidden dangers.

Ji Ziyin began to wonder if the forces she had taken refuge with could stir up the situation as in the legend.

Reynard put the cup back: "What do you mean?"

Ji Ziyin bit her lip: "I just didn't expect Ji Nan to come back and bring Qiao Nian back, which exceeded our expectations..."

Leonard interrupted her: "Don't forget your identity!"

She is just a pawn.

Ji Ziyin immediately understood what the other party wanted to say, and the sense of humiliation immediately surged from the bottom of her heart, through her limbs and bones.

She sat on the sofa and stopped breathing for half a second.

Soon Ji Ziyin weighed the pros and cons: "I'm sorry, Mr. Lei."

Leonard still didn't give her much face, and said coldly, "Yeah."

didn't even glance in her direction.

Ji Ziyin was a little hesitant to sit there.

Fortunately, Ji Xiao came back at this time, and brought freshly brewed coffee, and didn't realize the subtle atmosphere between the two.

brought the coffee to Ji Ziyin: "Ziyin, your coffee."

"Thank you." Ji Ziyin eased her embarrassment by drinking coffee.

At this moment, out of the corner of her eye, she saw the phone light up.

Ji Ziyin put down the coffee cup first, picked up the phone on the table and looked down.

was a text message from Ji Hongyuan, saying that he was coming to her.

Chapter 2882 The last experiment in the U disk

Ji Ziyin breathed a sigh of relief, put down the phone and said to the hook-nosed old man as if nothing happened: "Uncle Six said he was on his way here, it seems that there is a result from the Ji family."

...

after an hour.

Ji Hongyuan hurried to her residence.

He brought a result, but it was not what Ji Ziyin wanted.

She felt cold all over her body, pinched the palm of her hand, and asked sharply, "How could they go back on their word, they clearly promised me to take over Ji Lingfeng's seat. How could they say no?"

Leonard also looked ashen, stood up suddenly, looked down at Ji Hongyuan, and narrowed his fierce eyes slightly: "Who did it?"

Ji Hongyuan under his cannibalistic gaze, his aura was half short, his back was hunched, and he said with an embarrassed expression, "It's Qiao Nian."

Leonard was slightly surprised, but not too unexpected.

He sullenly walked away to make a phone call.

Ji Ziyin knew at a glance that he was going to report the incident here to Her Majesty the Queen who was far away in Continent M.

She was upset, and she was not in the mood to care about how Leonard was going to explain to the Queen. She only felt like there was a big mountain on her body, and no matter how hard she tried, she couldn't shake it.

This kind of oppression belongs to Qiao Nian.

made her unable to breathe.

"I won't give up." Ji Ziyin faced Ji Hongyuan with desperate ferocity in her eyes.

Ji Hongyuan was stunned: "What are you going to do?"

Ji Ziyin's face was expressionless and did not answer his question.

But she knew very well in her heart that her use value for the Empress was only to control the Ji family. If she failed, the Empress and the Hidden Family would abandon her forever.

Ji Ziyin pinched the palm of her hand and closed her eyes to feel the weakness of her right leg...

Her face was gradually twisted and hideous, she squeezed the palm of her hand, and said in a cold tone, "Anyway, I won't give up."

**

Next day.

Qiao Nian received a message from Leonard and asked her to go out to meet.

"Snort."

Qiao Nian knew what he wanted to do, his eyes were slightly cold, he deleted the text message on his phone and set Leonard's number on the blacklist.

After a brief wash, she took her bag and went to the First Research Institute.

Qiao Nian spent the whole morning soaking in the laboratory.

She hadn't done experiments for a long time, and she was a little sloppy at the beginning, but as she began to adapt to the experimental environment.

Qiao Nian's subordinates are doing experiments faster and faster.

There are a total of fifteen experiments left in the Seasonal U disk.

She has completed 14 experiments with Xu Yi.

There was only one last experiment left, and Qiao Nian did not intend to bring Xu Yi.

Because she studied the experiment.

If nothing else, this experiment is the key reason why Ji Qing was assassinated by those people at a young age!

If Xu Yi gets involved, he will also be in danger.

She never likes to trouble others!

Especially this kind of thing.

Qiao Nian has long been used to facing danger alone, and this time he also doesn't plan to implicate irrelevant people into danger.

She didn't make much progress in the morning, but only roughly constructed the outline of a model of the reactor, and there were still many details that needed to be perfected.

She took a photo of the reactor model with her mobile phone and saved it, and noticed the WeChat mark on the upper left.

Qiao Nian opened the WeChat column.

As expected, Ye Wuchuan sent her a new message.

Y: [Are you awake? 】

Qiao Nian raised his eyebrows, and immediately sat down on the experimental bench, with one leg on the ground and the other leg hanging in the air, sitting in a dangling posture and focused on returning to him.

Chapter 2883 Since this person is very important to you, I will help you see

QN: [picture.jpg]

Qiao Nian sent the photo he just took, and told him that he didn't get up with practical actions.

There is typing soon.

She hasn't put down her phone yet.

The news of Ye Wangchuan came again.

Y: [I checked a little. 】

Y: [Tianchen didn't use any of the boats and speedboats under his name that day, but there is one thing that people have to pay attention to. 】

Qiao Nian's fingertips paused on the phone screen for a long time, before returning to him calmly after a long time: [Which point? 】

Y: [Lu Zhi secretly summoned several well-known doctors in the illegal zone, saying that it was to treat his leg disease. 】

Y: [His leg disease is not a day or two. If the doctors in the illegal zone are useful, he will not go to the M-Country Pharmacy Association for a period of time every year. So this reason does not hold. 】

Qiao Nian was still reading the WeChat message he sent.

Ye Wangchuan's phone number has come in.

She sat up straight and answered the phone: "Hello."

Ye Wangchuan's voice came from F continent: "So Lu Zhi's reason for seeking a doctor can never be for himself. At this juncture, his reason for doing this is worth looking into."

Qiao Nian already had the answer in his heart, so he lowered his eyes and said, "I'll ask Jane."

"..." Ye Wangchuan knew that she and Lu Zhi had fallen out: "I still have people in the illegal zone. Should I let people in and check it out? It just takes more time."

"With Lu Zhi's vigilance, he won't let unfamiliar people approach his residence." Qiao Nian knew the other person's character very well.

She has already thought about it: "I will find out if I ask Jane."

She was a little irritable.

Because she couldn't understand what Lu Zhi was thinking.

Qiao Nian took the mobile phone and looked at it for a long time before moving. He found Jane's number in the address book and dialed it.

...

illegal zone.

Tianchen Building.

A woman with a black tube top in a suit was leading a group of people to get on the elevator. While waiting for the elevator to get off, her cell phone suddenly rang.

Jian Yan took out her mobile phone from her pocket and looked down at the caller number.

Immediately, her expression changed slightly, she stopped, and skillfully instructed the people under her: "You go first."

Jian Yan is second only to Lu Zhi in Tianchen.

Those people are all aware of her wrist and ability, and they didn't dare to ask why, they all responded and passed by her.

Jian Yan and others disappeared.

She looked around and found a corner to answer the phone.

The girl's casual voice came from the phone.

Jian Yan hasn't contacted her for a long time, and when she hears her voice again, her heart warms.

Hearing Qiao Nian asking her a question, she looked embarrassed again.

"Joe, you know his character. His temper has gotten worse recently, and even I can't persuade him sometimes..."

"I also heard a little bit of wind."

"It's just that I really don't know the inside story."

Lu Zhi hasn't come to Tianchen headquarters for a long time. He basically stayed at home, and she was not allowed to visit, and even let a third person deliver things.

So Jane has not been to the place where Lu Zhi lived for a long time.

She thought for a while and said, "Well, I'll go check it out later. If I see someone you're looking for, I'll tell you."

Qiao Nian knew this was very difficult for her: "Thank you."

Jian Yan smiled: "You fell out with him, not with me. I know it's his fault that you fell out. Since this person is very important to you, I will help you see."

Chapter 2884 I have more important things to do now

Jian Yan hung up Qiao Nian's phone, and without saying a word, called her assistant: "Tell Mr. Fitbit that I have an urgent matter, and talk to him about the T coin transaction another day."

The assistant said in surprise: "Jian assistant, Mr. Fitbit and his team are waiting for you in the conference room. Are you sure you want to change the time?"

The hottest transactions right now belong to the digital currency sector.

Tianchen has always followed the torrent of the times.

Lu Zhi has long been eyeing T coin.

He has been working with the T Coin team to promote the development and trading of T Coins for the past two years... Once the cooperation is successful, Tianchen will take it to the next level.

Jian Yan has already left: "I have more important things to do!"

Assistant didn't dare to ask more: "Okay, okay. I'll go tell Mr. Fitbit and the team right away, and I'll reply to you as soon as there is news."

"Hmm." Jian Yan raised her eyelids slightly, and saw the car that had not left at the entrance of the company, and beckoned the driver to stop.

She has an ordinary appearance but has a unique temperament. The temperament on her body is very similar to that of Qiao Nian, but she is not as loose as Qiao Nian, and she is more capable of being a strong woman.

Jian Yan leaned into the car after the driver opened the car door, and said to the assistant on the other end of the phone, "Don't worry, they can only cooperate with us."

Assistant stunned: "Ah, okay."

Jian Yan hung up the phone, put the phone aside, fastened her seat belt, tilted her head and said, "Go to Linyuan."

The place where Lu Zhi lived was called Lin Yuan.

This is a forbidden land that belongs to the illegal zone.

As long as people who don't want to die rarely go there, they all know that it is Lu Zhi's territory.

However, only a few people know where Lu Zhi lives in Linyuan.

She is one of them.

The driver immediately stepped on the accelerator and drove in the direction she said.

Jian Yan turned on the air conditioner in the car to reduce the temperature inside, squinted her eyes, and reached out to pick up the phone she just dropped.

Assistant has already sent a text message.

[Jian help, Mr. Fitbit said that the date can be changed, he and the team will stay in the hotel and wait for you to make an appointment before you have time.]

Jian Yan's expression was calm and calm, and she was not surprised by the message from the assistant.

Virtual currency is not a 'big cake' that someone and a team can eat. They need to use their influence behind the scenes to expand transactions and **** them...

Fitbit and his team are smart people.

They know who has the say in this deal.

Jian Yan raised her eyebrows, edited the message and asked her assistant to arrange a hotel for Phoebe and others. Then she paused with her fingertips and slid across the screen of her phone to find Lu Zhi's contact information to call.

"Sorry, the user you dialed is off."

“...”

Jian Yan put down her phone, raised her eyes to see the intersection ahead, and said to the driver in a low voice, "Just park your car on the side of the road, I'll drive over by myself."

"Yes."

The driver found a place to park the car, unfastened his seat belt, and said to Jane as if he was used to it, "Then Jane, I'll go back first."

The exact location of Lu Zhi's residence is Tianchen's secret.

The driver always drove the car near Linyuan and got off, and the rest of Lu Jianna would drive over by herself.

Jian Yan also got off from the co-pilot, went around to the main driver's seat, rolled down the window and said to the driver outside, "Someone will come to pick you up immediately, just go back with that person."

Chapter 2885 Mr. Lu, we tried our best

"Okay, Jane." The driver nodded.

"Yeah." Jane rolled up the window again.

The car window gradually covered her face.

The red Ferrari quickly disappeared from the driver's sight...

**

A pure white villa stands quietly in the most mysterious place in the illegal zone.

A variety of flowers and plants are planted outside the villa.

Especially many orchids.

Orchids stretch their branches and leaves freely in the sun, and decorate the villa with white and beautiful, pure and do not belong to an illegal area.

In the villa at the moment.

Several of the most famous wandering doctors in the illegal zone were either forced or threatened to come here to treat a person.

Basically, they will only move within the scope prescribed by Lu Zhi, and they dare not walk around, let alone look around at will.

Mainly everything in the villa is high tech.

A lot of technology has not even been announced outside, there are only unimaginable technology, no technology that is not in this villa.

Surveillance is everywhere here.

Once they have outrageous behavior, they will be caught by the ubiquitous surveillance immediately, and in the next second, an inconspicuous robot may be able to kill their lives on the spot...

This is what Lu Zhi said in front of them when he called them over.

Therefore, these few Doctor You Fang have been cautiously moving within the range that he allows these days, and did not dare to take half a step beyond the thunderous pool.

But the patient never woke up.

These doctors You Fang were no longer willing to provoke people like Lu Zhi, and they had to communicate with him every day.

Today, it's the mustache's turn to report the patient's condition to Lu Zhi.

He walked out of the patient's bedroom in a strong spirit, and on the balcony on the second floor saw a man leaning against the floor-to-ceiling windows of the living room, staring at him in a trance.

He got off the elevator, stood three steps away from the man, and stood nervously, swallowing his saliva: "Mr. Lu, the patient... The patient's body indicators tend to return to normal. His lung inflammation is also under the control of drugs. Gradually stabilized, physical signs are better, and there is a possibility of waking up."

Lu Zhi turned the wheelchair to confront him face to face: "When will he wake up?"

"This..." When the mustache touched his cold eyes, he lowered his head in fright, and said with a big tongue: "This, we can't guarantee it."

"When the patient wakes up depends on his personal physical condition, his desire to survive, etc., and there are some uncertain factors in it. For example, if his lung infection index recurs in the middle, and he has a fever again, then Time... If he recovers well and he has a strong desire to survive, he may be able to open his eyes and wake up today."

He was afraid of Lu Zhi, but he didn't dare to lie in front of Lu Zhi either.

After all, telling the truth is most likely to make Lu Zhi angry.

If you lied...

Lu Zhi might kill him right away.

Moustache's voice gradually weakened: "So, so we can't guarantee this. We can only try to stabilize the patient's various physical indicators and hope that he will wake up as soon as possible."

Lu Zhi peeked at himself when he saw him talking. But he raised his eyes slightly, and lightly tapped the armrest of the wheelchair with his cold white knuckles: "I'll give you five days, and you'll give me this result? I don't know when I'll wake up? Huh?"

Moustache was so frightened that he broke out into a cold sweat: "Mr. Lu, we tried our best. The patient's previous condition was really not optimistic, not to mention many soft tissue bruises all over the body, and several broken bones on the body. Moreover, the internal organs were damaged to varying degrees. ..."

Chapter 2886 Who asked you to come to me? her?

"...In this case, it is a medical miracle that the patient can save his life! We really tried our best to wake the patient up."

"Hey, a medical miracle?" Lu Zhi repeated these four words, slightly lowering his eyelids to cover the emotions in his pupils.

Mustache just wanted to say: "Yeah, this is medicine..."

He looked at him like a blade: "Do you know what a genius doctor is? You dare to tell me about medical miracles even at your level!"

Moustache's face was flushed red.

But he was facing Lu Zhi.

Even if he had the guts of a bear and a leopard, he would not dare to throw his hand away in front of Lu Zhi.

Moustache could only hold his breath and stood there in embarrassment: "Mr. Lu, we are already the top doctors in the illegal zone. I don't know what kind of person you are talking about, but I still have some medical skills. my self-confidence..."

"Zhong first-class, and the one on the black market."

"..."

Mustache raised his eyes.

He saw Lu Zhi sitting in the wheelchair with a blank expression, and immediately lowered his head depressed.

Fine.

These two people, none of them can afford to offend.

The first-rate Zhong Zhong is the president of the Pharmacy Association. There is not a single medical student who has not heard of Zhong Lao's reputation!

Lu Zhi said that another genius doctor on the black market was not as famous as Zhongliu.

But they themselves are wandering doctors in the illegal zone.

They know better that in addition to the world-renowned famous doctors, many genius doctors hidden in the dark are the real medical legends.

There are not many such legends.

The genius doctor on the black market counts as one.

He really couldn't compare to these two.

When Lu Zhizheng was talking, he saw the phone light up again, with Jian Yan's name flashing on it.

He looked at it and didn't mean to pick it up.

The light on the screen brightened for ten seconds and then dimmed.

at this time.

He saw that he had another unread WeChat message.

Lu Zhi picked up the phone and slid the screen lock to enter.

—— 【Jane: Are you at home? I will be right over. 】

Lu Zhi looked at it for a few seconds, then called back the phone.

The second is connected.

"Hey."

Jian Ni could hear the noise of the car on the other end, and it should be answering his call with the car's bluetooth.

"Boss Lu, are you at home? I'll come to you right away, I'm on my way."

Lu Zhi held the mobile phone in his cold white hand, his eyes were deep, and he said in a low voice, "Who asked you to come to me?"

"Forehead....."

Jian Yan was a little embarrassed and didn't answer him.

She changed the subject: "I'll come to see you, haven't you come to the company for a long time? I want to tell you about T coins."

Lu Zhi guessed the answer from her flickering answer, the corners of his mouth raised a slight arc, and fell like a meteor: "If she wants to know, let herself come to me."

"..." Jane stepped on the brakes and the car almost hit the seat belt.

She didn't want to care either. She took the phone and set the Bluetooth mode to public release. She couldn't help but emphasize her tone and said angrily: "Boss. I ask you! Do you have a little emotional intelligence? Do you think she will come to her because of her character?" You? Do you really want to be happy with your relationship to the point where it's too much?"

After getting too angry, Jane tried to calm down and said, "Besides, Joe didn't look for me. I just went over to see you, nothing else. I can't care about you anymore?"

Lu Zhi was silent for a long time.

Jian Yan almost thought he had hung up. She took out her phone and saw that Lu Zhi hadn't hung up on her yet.

Chapter 2887 Let's rush over first and tell you on the way

"You?" Jian Yan was still wondering if she was talking too much.

Lu Zhi whispered: "If she wants to know something, let her come to me. If she doesn't find me in person, then I won't tell her anything!"

are you crazy!

Jian Yan almost fainted.

Her eyelids jumped, just about to speak.

The busy tone has already sounded.

She took out her phone and looked.

This time, Lu Zhi hung up.

She couldn't lift it up in one breath, it only hurt her brain.

The corners of Jian Yan's mouth twitched for a moment, then she patted the steering wheel forcefully while sitting in the driver's seat, and sent a message to Qiao Nian angrily.

"I went to Lu Zhi, but he wouldn't let me in."

"I think his reaction is mostly tricky. The person you are looking for is likely to be in his house. But you also know his villa, he won't let me in, and I can't force it in to help you see."

"I guess the man is in his hands."

**

The next day.

Qiao got up and saw the message sent by Jane.

She saw the line of Jian Dai in the green dialog box [I guess that person is in his hands], her eyes darkened, but she was not so worried about Ji Lingfeng's safety.

She thanked Jane.

Then I contacted Guan Yan, who happened to be at the Hongmeng headquarters in the illegal zone recently, and asked her to check the situation of Lu Zhi's residence.

"sun, you want to check him? His territory is not easy to enter. If I don't go in, I can't find anything useful."

"You check first. If necessary, go in or put an aircraft in to see the situation." Qiao Nian walked to the sink, picked up the toothpaste and squeezed it out.

"Remember not to attack his computer system."

She said calmly: "You can't decipher that system, and that system has a special anti-virus function. Once attacked by hackers, it will immediately counteract and destroy the other party's computer with a Trojan program."

"So awesome?" Guan Yan said unexpectedly.

Qiao Nian looked at the girl's cold eyes in the mirror, raised his hand and pressed his eyebrows, staggering his eyes: "Well, that's a system I made a few years ago. I can't decipher it myself, so it's best not to try to control his. Computer to monitor the inside of the villa..."

"This is very important to me, you help me find out as soon as possible."

Guan Yan said: "Okay, I'll think of other ways."

After Qiao Nian told her, he hung up the phone, put the phone on the edge of the marble table, and washed his face and brushed his teeth first.

She got this done and walked out of it.

The girl picked up the peaked cap on the table and put it on her head, went back to the bed and picked up the shoulder bag, and went out to the research institute.

...

She stayed at the institute until three o'clock in the afternoon.

Seven hours later, Qiao Nian just finished sorting out the specific process of the last experiment in the USB flash drive left by Ji Qing.

There was a knocking sound outside the laboratory glass window.

Qiao Nian looked up and saw Feng Yu was waiting for her outside.

She simply packed the things in her hands, then got up, walked out slowly, and walked to Feng Yu: "President, are you looking for me for something?"

Feng Yu saw her, lowered his eyebrows and anxiety and said to her, "This is not the place to talk, you come with me."

Qiao Nian looked at him in a hurry, and it seemed that she couldn't stay in the laboratory any longer, so she simply went back to get her bag, and then caught up with Feng Yu's direction.

*

Feng Yu did not go back to the office, but took Qiao Nian directly from the First Research Institute.

His car was parked on the side of the road.

Feng Yu took the initiative to walk over to open the car door, and said in a hurry: "Let's rush over first, and I'll tell you the specific situation on the way."

Chapter 2888 Sister Nian: I just went to see what she wants to do

Qiao Nian got into the car without saying a word.

Feng Yu turned and got on the other side. He said sternly: "Go to Qiangwei Road, the branch of the Ji family."

*

The air-conditioning in the car is open enough.

Qiao Nian only wore short sleeves when he went out, and his elbows were exposed. After sitting for a long time, it was inevitable that his arms would get cold.

She turned her head to look at Feng Yu: "Do you mind opening the window?"

Feng Yu noticed her thin clothes, rubbed her brows, leaned forward and said to the driver, "Turn off the air conditioner in the car."

"Yes, the wind is old." The driver took time out with one hand to turn off the car air conditioner, and opened the front window to let the outside heat in.

The temperature inside the car is slowly rising, at least it's not as cold as a refrigerator anymore.

Qiao Nian stretched back, tilted his head to Feng Yu's side, and his dark eyes were half-open and half-closed: "You won't come to me if you are in a hurry. What happened to the branch of the Ji family?"

Feng Yu told her everything she knew.

Qiao Nian was still leaning on her seat at first, but following Feng Yu's words, she slowly restrained her sloppiness and began to sit upright.

Feng Yu's voice fell.

Her voice was a little hoarse: "How many people died in the Ji family?"

Feng Yu looked up at her.

The dark eyes of the girl were filled with violence, cold and dry.

He sighed: "The news I got, at least thirty people. I don't know how many people."

There was a tragic fire incident on Rose Road this morning.

Most of the people at the branch of the Qiangwei branch of the Ji family died, and the goods and gunpowder that were stored in the branch were robbed.

Although Feng Yu is in the First Research Institute, he is better informed than the major forces.

He immediately checked the background of the forces involved.

Surprisingly, the forces involved this time were only members of a small group of gray organizations in the Independent Continent.

This organization is not too large in Independence.

In the Independent Continent 3, 6, 9 and other classifications, this organization can only barely get a middle tail, and it can't compare to the power of the Chamber of Commerce Alliance and the Hacker Alliance.

This organization dares to leapfrog to provoke the Ji family, which is really incredible.

Qiao Nian was silent for a moment: "Where's Ji Ziyin? Where is she?"

Feng Yu quickly looked up at her: "She? She should go over before us."

After all, when he received the news, he would come to the research institute to find Qiao Nian, and then took Qiao Nian to the place of the accident...

If Ji Ziyin was faster, he should have reached the place of the accident before them.

"Huh." Qiao Nian twitched the corners of his mouth, and the violence in his eyes almost rushed out, and the end of his eyes were dyed a little red: "30 human lives have become a tool to play with people's hearts in their eyes. Sigh!"

Nie Qingru forget it.

A ruthless person who can even sacrifice her own daughter, it is not surprising that she does not take the more than 30 lives of the Ji family to heart.

What about Ji Ziyin?

Ji Ziyin grew up in Ji's family, enjoying the superior life that Ji Lingfeng brought her, and receiving the best education provided by Ji's family since she was a child... Even if she broke up with Ji's family in the end, Ji's family did not feel sorry for her.

She also followed Nie Qingru as a tiger?

Qiao Nian really can't figure it out!

She couldn't figure out how Ji Ziyin could be so ungrateful and shameless!

What she wanted, how could Feng Yu not understand? He couldn't comment on Ji Ziyin's actions, but said, "Don't be angry, let's go and see."

"Well." The corner of Qiao Nian's mouth twitched into a cold arc, and the end of his eyes were extremely low: "I also want to see what she wants to do."

Chapter 2889 Ji Family suffered heavy casualties

Jijia Qiangwei Branch Hall.

Everyone was overwhelmed by the sudden incident in the morning. The fourth elder, the second elder, and many other prestigious people from the Ji family came.

They looked at the devastated hall and the children of the Ji family who were constantly being carried out, their faces flushed with anger, and their eyes were bloodshot.

The fourth elder slammed his fist on the table, and everything on the table bounced: "Who gave them the guts?! Did they eat the guts of bears and leopards?!"

The Ji family has never suffered such a loss for nearly a hundred years since the first generation of family owners dominated the Independent Continent.

At this moment, no one in the Ji family feels bad.

Even the second elder who supported Ji Ziyin as the patriarch before had eyes full of anger, the corners of his mouth pulled down, and he walked inside without saying a word.

"How many people have we died?" he asked, pulling a person in charge of rescuing the wounded.

The man saw that it was him, his eyes panicked for a moment, and he didn't know where to put his hands and feet: "Second, Second Elder."

"Yeah." The second elder said with a sullen face and reluctantly replied, with a calm tone and asked again: "How many people have we died this time?"

The man calmed down a little and said with a sad expression, "Elder Hui Er, 36 people have been sacrificed in the branch this time."

...

The Ji family and his party behind him gnashed their teeth and cursed like they were in a pot.

"36 people? Why so many?"

"Those scumbags!"

"Several elders, we must find them and make them pay the price! These brothers cannot be sacrificed in vain!"

The second elder listened to the buzzing quarrel, as if a stick was beating on his brain, and his brain ached from the noise.

He opened his eyes forcefully and stared straight at the man with his brain hurting. The smell of rust came out of his throat: "3, 36?"

The man quickly peeked at him and lowered his head again: "Yes, none of the brothers in the branch retreated to protect the entrance of the hall. They attacked suddenly again, and we were not prepared... In the end, the casualties on our side were particularly heavy, almost over Half of the brothers died to protect Tangkou..."

The whole hall was as quiet as if a needle was falling.

No one spoke.

Everyone fell silent subconsciously.

At this time, even anger seems so out of place.

Second Elder sternly closed his eyes. After a few seconds, he opened his eyes and turned to ask the people behind him, "Do you think they are just speaking to Qiangwei?"

Fourth Elder and others were speechless.

They are not stupid people, of course they understand that the people behind this attack are not just for a rose branch, there must be other purposes.

The second elder simply picked it out and said, "They are just looking at the whereabouts of the patriarch now..."

Ji Lingfeng's whereabouts are unknown, and his life and death are unknown.

The Ji family is also headless and has no leader.

So the Ji family is the weakest at this time, anyone can step on both feet!

at this time.

There was a noise outside.

A few elders looked at the source of the sound, and saw Ji Ziyin hurried over with people, and a few people behind her were pushed into it.

"Throw them on the ground."

Ji Ziyin walked up to several elders and ordered the people under her to push the person she caught to the ground.

Those people were covering their mouths one by one, sweating profusely, their hands and feet **** with five flowers, and there was no room for struggle at all, they looked like dogs wagging their tails and begging for mercy.

Chapter 2890 Ji Ziyin's purpose is about to come out

Everyone watched as they were pushed to the very center, struggling and begging for mercy on the ground.

"Miss Ji, please, please let me go."

"Miss Ji, please spare your life."

"Miss Ji..."

Ji Ziyin didn't pay any attention, stepped on them, walked up to a few virtuous elders with a smile, and said softly, "Elders, I also heard about Tangkou, and I will find someone to check it right away. ."

She immediately turned her head to look at the people who were rolling on the ground and begging for mercy, her eyes quickly flashed a trace of contempt, and she turned to the elders and said, "I have already caught the culprit."

"They are the people of the East Pole Organization."

The second elder, the fourth elder and the others looked at the men rolling on the ground and frowned, their faces hard to hide their anger.

Ji Ziyin caught the anger in their eyes, and said in a decent manner: "I'll hand them over to you, and the elders can do what they want."

She came out in this problem-solving pose.

Many people under Ji's family didn't know the inside story, and looked at her with gratitude, as if Ji Ziyin had avenged the brothers who died in the branch.

It's just that these little tricks can't fool a few old rivers and lakes.

The second and fourth elders could see anger and resentment in each other's eyes, but they tacitly pressed the anger in their hearts.

Behind Ji Ziyin is a hidden family.

Leonard, one of the three giants of the Privy Council, is still in the Independent State.

There is even a shadow of that one behind her.

They all saw that this 'raid' was just a pretense, and Ji Ziyin kept 'catching people'...

What else are they unclear about.

—This is an opportunity for Ji Ziyin to establish prestige and influence in the family by the forces behind Ji Ziyin!

"You said that these people attacked the Qiangwei branch? Created chaos?"

The second elder was more optimistic about her at first.

After experiencing this, he has completely seen Ji Ziyin's cold heart, but because he can't offend the people behind her, he has to pretend that he doesn't understand.

Ji Ziyin didn't care what they thought, nodded slightly, and said solemnly: "I have investigated, and it is they who attacked the hall this time. I only caught a few main culprits, and they were run away by their organization's mind. "

The second elder sneered in the bottom of his heart: It was such a coincidence that the mind that caused the trouble just "run away", she caught a few scumbags and came over.

Ji Ziyin saw that he didn't speak, and apologized humbly: "Sorry, Second Elder, I accidentally let him go."

Second Elder just thought she looked disgusting.

But the person in front of him 'caught someone' and came back, but he accidentally let the leader go. If he blamed him, it would appear that he was too impersonal.

He had no choice but to pat the woman's shoulder lightly: "You've done a good job."

Ji Ziyin raised her eyes and seemed to hesitate to speak: "Second elder, in fact, I think... these people dare to come to the branch hall to make trouble or it has something to do with the life and death of the patriarch. I think you and a few elders can consider it. Find a replacement for the time being. It doesn't mean that the patriarch must be replaced by that person. At least the Ji family must have someone who can hold on to the situation. Otherwise, I am afraid that other forces in the Independent Continent will be ready to move, and maybe the same thing as today will happen. thing....."

The smile of the second elder froze on his face, and his sharp eyes almost penetrated her heart!
