

## Madam's 2891

Chapter 2891 Sister Nian: Then kill the chicken and show it to the monkey!

Ji Ziyin closed her eyes and said softly, "I'm just a suggestion. If you elders think that what I said is wrong, don't take it to heart."

"I'm just worried that the same thing will happen again. After all... There are still so many forces in the shadows of the Independent Continent, in case..." She didn't go on.

Several elders who could hear clearly changed their faces and looked at her with sullen expressions.

Only those who do not understand will think that Ji Ziyin is worrying about the family, and those who do understand that she is a clear threat!

The second elder, the fourth elder and the others were so angry that they had to re-examine her 'suggestion'.

for nothing else.

Before Ji Nan came back, they promised Ji Nan to wait and see if they could wait for the news of the patriarch.

But now the hidden family behind Ji Ziyin is pressing hard, and they can even do such a thing. They have to worry that other forces will follow suit...

Time passes by every minute and every second.

Several elders had already wavered in this sense of persecution.

Someone is discussing in a low voice.

Someone looked awkward.

Ji Ziyin raised the corners of her mouth slightly, watching this scene, she felt that she was already winning, and she was about to succeed.

Just then, a voice sounded outside the door that would make her dream of nightmares.

"Tsk, I saw so many people outside and thought you had solved everything."

Everyone looked towards the door.

The onlookers in the Rose branch subconsciously made a way out so that the girls could pass by.

Qiao Nian pulled off his peaked cap and walked out of the crowd, walked to the most central position, and squinted at the people brought by Ji Ziyin.

She stopped, slightly nodded her chin to the side, the corners of her mouth curled into a rather dangling arc, her eyes were slightly cold: "In the end, this is your sincerity?"

Ji Ziyin couldn't help pinching her palms when she saw her, and her face was calm, she said softly, "At least I did what I could for the Ji family."

"What about you?" She didn't give Qiao Nian a chance to speak, and laughed lightly, "You came here to ridicule me?"

Qiao Nian looked at her unwillingness to reach the Yellow River, didn't bother to quarrel with her, walked past her and went straight to the Ji family elders.

made a phone call in front of several people: "Call twenty people over."

Mo Dong was doing errands outside. When he received a call from Qiao Nian, he walked in the direction of his sports car by the side of the road without a word: "Miss Qiao, is twenty people enough? I'll bring a few more people there."

He pressed the lock of the car and opened the door, and then he remembered: "By the way, Miss Qiao, what do you want someone to do? Fight?"

He thought of the scene of Qiao Nian fighting with people, and he always felt a chill all over his body, and it was impossible to think about it.

Qiao Nian is not the kind of character who will fight with people.

Mo Dong got in the car: "Did something happen to Miss Qiao?"

The voice of the \*\*\*\* the other end of the phone was indifferent to anger and anger, and her tone was always casual: "Anyway, I will send you the address, and you will bring someone here first."

Mo Dong started the car and stopped asking: "Okay."

...

Qiao Nian sent him the address.

Then he dragged a chair behind the elders and sat down, turning his cap back, revealing an overly provocative face.

faced her eyes full of doubts.

She said casually, "Aren't you worried that someone will rob Ji's house while he's alive and dead?"

"Then kill the chicken and show it to the monkey."

Qiao Nian's eyes were very cold, and he didn't look at Ji Ziyin, but he looked at her every word: "Just to let those people see, whether the Ji family can provoke anyone! If they want to provoke, they must give I pay the price!"

Chapter 2892 Qiao Nian, are you going too far

In May, the weather in Independence is getting warmer.

But today is an exception.

The sky has been gloomy since noon, as if it was going to rain, and now the clouds outside are overwhelming, the mighty dark clouds cover the sky, and the light is extremely dim.

Mo Dong quickly brought twenty people from Yaomen to Qiangwei Road, the branch of Ji's house.

The members of Ji's family saw a few jeeps that did not belong here parked outside the door. They all looked alert and looked at Mo Dong and his party vigilantly.

Mo Dong had a scar running through his entire face, and his whole body was full of \*\*\*\* domineering spirit rolled out of the pile of dead people.

He ignored those peeking at him, and hurried all the way in to find Qiao Nian.

In the entrance of the branch hall.

Ever since Qiao Nian dragged a chair to sit in the middle, everyone was overwhelmed by her aura.

Ji Ziyin, Fourth Elder, Second Elder and others hardly spoke.

The audience was silent.

No one can figure out what she wants to do.

It wasn't until Mo Dong arrived that the silence inside was broken.

"Miss Qiao." Mo Dong didn't look at the dozens of people inside, and went straight to the girl.

Qiao Nian raised his eyebrows, seeing him, he greeted Mo Dong with a calm expression: "Are you here?"

Mo Dong noticed a few people \*\*\*\* by Wuhuada at his feet, nunuzui asked her: "Miss Qiao, who are these people?"

"People from East Pole." Qiao Nian changed his posture and got up to stand up.

Mo Dong frowned: "The East Pole Organization?"

Independence Continent has no shortage of organizations of three religions and nine streams.

Mo Dong has dealt with these people all the year round, so of course he knows the nature of the East Pole organization very well.

Looking at the mess at the entrance of the branch hall, he immediately guessed one or two things, his eyes turned cold instantly, and he said with a grin: "Oh, when will such small fish and shrimps dare to come out to be presumptuous? I think they don't want to live anymore." ."

"Miss Qiao, we've brought all of our people here. Tell me, what do you want to do with it?" Mo Dong's style of doing things has always been rough.

Talking and doing things are also straightforward.

Not as particular as Moxie.

If it were Moxi who came today, he would probably have to say hello to the elders of the Ji family to save face. He didn't even glance at the elders, he made it clear that he only listened to Qiao Nian's order!

Qiao Nian's eyelids drooped, covering the blood in his eyes: "She said that the head of the East Pole Organization 'run away'. More than 30 people died in Ji's family, we can't let him just run away, right?"

Only then did Mo Dong follow the person she said.

He saw Ji Ziyin in the crowd at a glance.

He only felt familiar, but he didn't have a deep impression, so he turned to the girl and said, "Okay, arrest people, right? There is no one we can't find in this independent island. I'll send someone to find them right away."

As he spoke, he called a few people to come in, and simply ordered them to find them.

After arranging the matter of finding someone, he turned around and asked Qiao Nian again: "I have sent someone to look for it, and they should be found out soon. Miss Qiao, is there anything else you want me to do?"

"And one more thing."

Qiao Nian went back and kicked over the chair in front of Ji Ziyin, and stood in front of her, but was talking to Mo Dong: "Tell someone to go to the old lair of the East Pole Organization. I'm going to take

their lair today! Let those people from Independent Island Look, who dares to be tricked by others to move Ji's family!"

Ji Ziyin was originally overwhelmed by her momentum, but when she heard this, she suddenly raised her head, her heart beating loudly: "Qiao Nian, are you going too far!"

As soon as this word came out.

Everyone at the branch hall looked at her in unison.

Chapter 2893 It turned out that she did not act according to the original plan

Ji Ziyin could feel that everyone looked at her less friendly.

She had no choice but to bite the bullet and said: "There are rules in the Independent Continent, and people who have nothing to do with it will never be hurt."

"Tch." The girl sneered first, as if what she said was ridiculous.

Then ignored her.

Qiao Nian looked around at the Ji family elders at the entrance of the branch hall, suppressed the blood in his eyes, and asked them in a flat tone, "What about you? Do you think the same as her?"

this

The fourth elder and the second elder looked at each other.

It is rare for the two to agree on the same thing.

"People from the Ji family can't die in vain." The second elder looked down.

The Fourth Elder also clenched his hands into fists, suppressing his painful heart: "I also think the same way, the members of Ji's family must die without knowing it."

"Oh." Qiao Nian glanced at him, and slowly looked away, without any joy or anger on his face, he said calmly to Mo Dong: "Just do as I say."

"yes."

Before Mo Dong left, he brushed past Ji Ziyin, and by the way, gave her a meaningful look.

Ji Ziyin was bumped into her shoulder by him, she almost couldn't stand still, when she managed to gain a firm foothold, her chest heaved, she suppressed her breath and said to everyone: "I'm going to the bathroom."

\*\*

A secluded corner at the branch entrance.

Ji Ziyin took out her mobile phone and made a call.

There were seven or eight rings on the other end before they were picked up slowly.

"What's the matter with you? Has the matter been settled? The people of Ji's family should look at you with admiration." Leonard always asked her arrogantly.

He seemed to be sure that the elders of the Ji family would compromise with Ji Ziyin, and he was even in the mood to hold up his red wine glass and said with a smile: "Did they regard you as the savior and beg

you to take over the position of patriarch quickly. After all, the Ji family can wait Terrible! If they wait any longer, it's not as simple as an accident in one branch. There will be accidents in other branches in the future."

Ji Ziyin heard him talk here, her expression became more and more ugly, and she couldn't help interrupting him: "Mr. Lei, things didn't develop as we had imagined before."

Leonard said: "What do you mean? Those old Ji family members still refuse to let go? Impossible"

Ji Ziyin told him what happened here.

Leonard took a breath, put the red wine glass back in his hand, and was not in the mood to drink anymore, and said angrily, "Didn't I ask you to hand over the head of the East Pole Organization? Why did you let him go on your own initiative?" !"

This incident was all planned by him behind the scenes.

To put it bluntly, the East Pole Organization is a knife in Leonard's hand!

As one of the three giants of the Privy Council, it is of course impossible for him not to have his own influence in the Independent Continent.

The East Pole Organization is the force he has cultivated in Independent Continent for many years.

This time, he did not hesitate to sacrifice one of his own cards to give Ji Ziyin a chance to establish his prestige, but who would have thought that she would mess it up.

Ji Ziyin also knew that she didn't do what they said before, so she bit her lips and said, "What I think is that the East Pole Organization can still be used anyway, so it's kind of a waste to just destroy it for nothing. Besides, I also think about your training. It's not easy being alone"

Leonard smiled on the surface: "Huh, I think you want to take the opportunity to sell well and take my influence under your command, right?!"

She let him go as a favor.

Isn't that person very grateful to her.

Did she come and go again and again become her 'person'?

Chapter 2894 Just in time, come and help me see

"Short-sightedness!" Leonard gritted his teeth and turned around the room angrily: "I could have settled this matter by sacrificing a few people, but it turned out that you had to sacrifice the entire Independent Continent's trump card because of your cleverness. You really want to It's not that the Queen still wants to use you, I don't need that Qiao Nian to do it, I'll take care of you today!"

Ji Ziyin's face was dulled by what he said.

The main reason is that I am the one who is wronged, so I can only let him scold.

She waited until Leonard had finished scolding, then pursed her lips and said, "Old Lei, something has already happened. If I did something wrong, I will personally apologize to you afterwards. But what should we do now if she catches that person, that person bit me out. I will never be the head of the Ji family again, and this will also destroy the queen's plan. "

"Do you still know that it will destroy the Queen's plan?" Leonard wanted to strangle her to death.

"" Ji Ziyin didn't say a word when she was scolded, her attitude was very submissive.

Leonard seemed to have seen through her small plan after she saw through her obedient appearance, suppressed his anger, and said coldly: "Don't use the queen to pressure me. I won't wipe your \*\*\*\* for what you have done! If he bites out You come here, you are a waste of chess. You know the consequences of waste of chess, so you should think about how to solve it yourself!"

Ji Ziyin didn't expect him to have such an attitude, her heart beat faster, and she just wanted to ask him nervously.

There was the sound of hanging up the phone.

Leonard hung up the phone.

Ji Ziyin took out the phone and looked at it.

Sure enough, the display on the other end has been hung up.

She pursed her lips, her lips turned pale, her face was even paler, the panic and uneasiness in her heart spread infinitely

Not daring to waste time, she gritted her teeth and dialed the phone she didn't want to make: "Hello."

\*\*

at the same time.

In an old castle manor in M state.

A man dressed in black walked quickly outside a luxurious lounge, and pushed open the gorgeous and heavy door in front of him.

What catches the eye is the large living room with pure medieval decoration style. The crystal lamps on the six-meter-high roof are gorgeous and grand enough.

The light from the outside shines in, and the crystal lamps on the ceiling reflect a fascinating and mysterious luster.

Shadow walked in without looking sideways, stood in front of the woman wearing a large spinning hat, folded his hands, and said very respectfully: "Queen, I have something to report to you."

"You came just in time." Nie Qingru looked in a good mood today, saw him coming in, and waved to him: "Come and help me take a look."

Shadow walked over in a muffled voice, and saw several open brocade boxes on the table. Inside the brocade boxes were a complete set of precious gemstone jewelry.

The jewelry in each square box is of great value, and many of them are handed down jewelry that cannot be found outside.

Nie Qingru picked up a string of ruby necklaces and looked at them under the light. She tilted her head and asked him, "What do you think of this? Does it look good?"

Shadow didn't study the woman's jewelry, and after a quick glance, he lowered his head respectfully: "It looks good."

Nie Qingru raised the corners of her mouth, and with a rare smile on her face, she put the ruby necklace back into the box and put it away, saying, "You think it looks good, so let's take this."

Shadow stepped forward and closed the other boxes for her silently.

Nie Qingru transferred the brocade box containing the ruby necklace and put it aside, then returned to her usual high indifference, and asked him: "You just said you have something to do with me, what's the matter?"

Chapter 2895 I am having a hard time, I will definitely bite you out

Shadow neatly arranged all the boxes on the table, then returned to the original position, and lowered his head again.

As if the previous warm relationship did not exist.

He repeated what he heard from Ji Ziyin to Nie Qingru verbatim, then quickly raised his head to peek at her, then lowered his head: "She has too many small movements, which will only affect our plan. I don't even want to help her anymore! Empress, shall we continue to wipe her ass?"

Nie Qingru seemed to be a different person when he talked about business, with no emotion at all, and only extreme coldness in his eyes.

"Hmph, she's just a clown."

She looked at the shadow, and walked to the other side: "She still has no access to our plan, so she can hold some people's attention."

"You go to contact that person and tell him not to bite anyone who shouldn't be bitten. Otherwise, the hidden family and I will not let him go! If he still has someone he cares about in this world, he will keep his mouth shut." It is one of the methods she often uses.

Shadow is used to it and said: "Yes."

"Wait a minute." Nie Qingru called him to stop.

Shadow immediately stood in front of her again, bowing his head respectfully: "Queen, do you have any orders?"

"It's Qixing's birthday in a few days. You bring him the gift I picked out." Nie Qingru smiled lightly at the corners of her eyes: "Tell him, just say that I'm busy and don't have time to see him. Let him Don't cause trouble, go find him when I'm done, and give him a make-up birthday."

Venus.

Dawn Star.

Nie Qingru got the name herself.

Shadow took the things she handed over respectfully: "I will pass the things on to Young Master Nie."

Nie Qingru waved her hand: "Go out."

Shadow knew what she had experienced, and didn't criticize her behavior too much, turned around and went out, closing the door for her by the way.

Nie Qingru watched him close the door from the outside, turned around and walked back to the original position, and picked up the handset on the table. Dial a number and go out, eyebrows and eyes mocking: "M country is about to hold an election? You haven't done what I told you yet?"

I don't know what to say on the other side.

Her eyebrows and eyes were lowered, and her expression was extremely impatient: "I have limited patience. If you can't handle it, I will ask someone to do it for you. Don't delay my plan!"

The last sentence.

Warn the other party brightly.

\*\*

On the other side, Lang Ke hid in a dark alley, covered his head with a hoodie, tried to cover his face and walked into a public phone booth on the side of the road.

He used the only coin left on his body to call Ji Ziyin.

The other end is quick to pick up.

She said anxiously: "Where are you? Why did you call me? You didn't hide at this time and ran outside."

With dark eyes, he roared loudly: "Don't \*\*\*\* talk nonsense with me! Let me ask you, didn't you tell me to let me go? Why, Ji Ziyin, you don't mean anything! Now everyone outside is arresting me, You are not afraid that I will be caught, and I will bite you out."

Ji Ziyin tried to appease him: "I didn't expect an accident either."

"Don't \*\*\*\* talk nonsense, just say what to do now?" Lang Ke held the microphone with a grumpy face: "I can tell you, I am not feeling well, and we all should not think about it!"

He is threatening Ji Ziyin.

At this time, the phone he was talking on suddenly cut off.

Lang Ke thought Ji Ziyin hung up his phone, the veins on his forehead popped up, and he was about to throw the receiver angrily: "Damn it!"

Chapter 2896 That Qiao Nian is her granddaughter!

A man's deep voice came from the receiver: "Are you the head of the East Pole Organization?"

The background sound is extremely quiet.

There was no noise from Ji Ziyin at all.

The two of them could tell that they were not in the same place.

He immediately realized that the other party had intercepted the call through hacking, and not many people could do this.

Langke immediately reacted: "Hidden, the hidden family?"

Shadow didn't talk nonsense with him, and conveyed Nie Qingru's words to the other party concisely.

After hearing what Nie Qingru said, Langke felt his legs go limp, and he couldn't stand up anymore. He had to rely on his hands on the glass of the phone booth to force himself to stand still.

"Why does Her Majesty help Ji Ziyin like this?" He asked Shadow unwillingly.

Shadow didn't answer him: "It's not your business."

Probably his fate has been decided by the big shot.

Lang Ke also lost his fear: "Qiao Niancai is her own granddaughter, she would rather help an outsider than her own granddaughter? It's ridiculous."

Shadow warned: "Watch your words!"

Lanke grinned desperately, opened his mouth and was about to say something, when he saw a Buick parked on the street out of the corner of his eye.

The person who wanted to arrest him came over.

His heart constricted suddenly, and his pupils narrowed slightly.

In a panic.

He gritted his teeth and yelled at the man on the receiver: "She killed her daughter and hurt her granddaughter... She is a complete lunatic! One day she will regret what she did today, and the people she has hurt will seek her life! "

After shouting violently with facial muscles trembling, Nete threw the phone back.

Just at this time.

The man with a scar on his face walked outside the telephone hall where he was, raised his hand, and tapped the glass of the telephone booth with the back of his hand. Looks very easy to talk: "Lanke?"

Lang Ke was still immersed in the threat of Nie Qingru conveyed to him by the shadow, raised his eyes to see him, was a little surprised, opened the door from the inside, and said hoarsely: "Aren't you from Ji's family?"

Mo Dong snorted, and immediately made way sideways: "Please, come with me."

Lang Ke pursed his lips, resigned himself to his fate and walked out.

When he passed by Mo Dong, he suddenly remembered something, stopped, looked at Mo Dong's face, and stared carefully for a long time: "Are you from Yaomen?"

"... Is there a problem?" Mo Dong raised his eyebrows and looked at him.

But Lang Ke stared at his uncontrollable trembling whole body and laughed: "No problem, no problem! Yaomen also got involved. I said she will regret it one day! The direct line of the Ji family is so perverted, she insists on provoking it, This is good. Hahaha..."

she?

regret?

Mo Dong was confused and thought he was talking about Ji Ziyin going to provoke Qiao Nian for nothing, so he glanced at him and didn't take it seriously: "Let's go, don't waste everyone's time."

Lan Ke cooperated after laughing, and he walked ahead cooperatively without Mo Dong tying him up.

Mo Dong pushed him into the car, closed the door behind his back, and went around to the front to call the girl back: "Hello, Miss Qiao."

He walked to the driver's seat and opened the door: "I found someone."

Lonco curled up in the back row and remained motionless since he got in the car.

"I'll take him back right now." After Mo Dong got into the car, he fastened his seat belt, and then glanced at the man in the back row through the rearview mirror.

He frowned, lowered his voice and read to Qiao: "I don't think his mind is normal, he seems to be stimulated..."

Chapter 2897 You are not from the Ji family

At the same time, at the branch entrance of Ji's house on Qiangwei Road.

The girl put the phone to her ear and said casually, "You can talk about it when you come back first."

Mo Dong didn't say any more: "Okay, I'll take him back right away."

Qiao Nian hung up the phone and walked back.

Just in time, Ji Ziyin who just sneaked out also came in from the outside.

She didn't look very well, and she was holding the phone tightly in her right hand. It seemed that she had just gone outside to make a call.

Qiao Nian was looking at her.

Ji Ziyin also happened to raise her eyes.

The eyes of the two meet in mid-air.

Qiao Nian raised his brows, but still hasn't responded.

Ji Ziyin quickly looked away as if she had a guilty conscience, and walked back to the elders as if nothing had happened.

"Someone from the Chamber of Commerce Alliance and the Hacker Alliance have come to me to inquire about the branch office! I see that the news is spreading more and more widely. Instead of pursuing responsibility here, we should do the aftermath first, so as not to let other forces see us as a joke. ."

She popped up to deal with the aftermath.

Several elders turned to look at her.

Among them, the four elders frowned, and said not so friendly: "Are you talking about the aftermath at this time, are you making us pretend that nothing happened?"

Ji Ziyin curled up her fist and explained with an embarrassed expression on her face, "Fourth Elder, I didn't mean that."

"What I mean is that we don't have to pursue it to the end. Independent Continent has never implicated this organization. Since we have caught a few people, let's deal with them to outside forces. The rest, we You can discuss it slowly..."

"..."

It is not that the Second Elder, Fourth Elder and others have not thought about the method she proposed before.

It's just that now they are aroused by Qiao Nian, and no one wants to see the thirty or so people at the entrance of Ji's branch hall disappear for nothing.

Even the second elder who supported her before could not help frowning when she heard Ji Ziyin say this in a light tone.

The second elder said: "Is this how you deal with it?"

Ji Ziyin opened her mouth subconsciously: "I..."

Qiao Nian had already come from behind at this time, and said in his usual lazy and out of tune tone: "If they want to ask, let them ask me."

Looking back, Ji Ziyin saw the girl's ostentatious face, suppressed the gloom in her eyes, and said with a smirk: "You are joking. You are not from our Ji family, and you can't even ask if you want to." to you."

Seeing Ji Ziyin, Qiao Nian seemed to have forgotten that she had been expelled from the family a long time ago, so she only looked at her mockingly, and didn't play tricks with her.

Turning his head and walking in front of several elders, he lowered his eyes and said in a deep voice, "Langke has been found."

The elders of Ji's family were terrified.

"So fast?"

"Are you sure you found him?"

"What about others?"

Qiao Nian heard their chirping noises, so his head ached, so he picked a question and answered: "They are on their way back."

So fast?

She thought about it, and before the elders could speak, she said, "I'll be there in about half an hour."

The elders of the Ji family didn't expect her to act so swiftly and swiftly. She said she would arrest someone, but she had already found the culprit.

The second elder looked at her fixedly: "What are you going to do? We will listen to you."

When Ji Ziyin heard this, a \*\*\*\* smell rose from his throat, and he pinched his palms hard to maintain his superficial calmness by relying on the pain.

But the trembling muscles of her cheeks betrayed her heart.

She is extremely restless at the moment!

Chapter 2898 Your sister is about to flip the table

Obviously this is an opportunity created for her by the Queen and the Hermit Family, but now Qiao Nian has established prestige in Ji's family!

Ji Ziyin's heart is bleeding when she thinks that she has spent so much effort to make a wedding dress for someone else.

She had a mouthful of old blood stagnated in her chest, but she didn't dare to burst out.

With so many Ji family members at the branch hall, none of them paid attention to her.

Everyone's eyes fell on Qiao Nian who was standing in the middle of the crowd, as if he had a backbone.

The girl didn't seem to like the feeling of being stared at by so many pairs of eyes. She stretched out her hand and turned the peaked cap to cover the blood in her eyes: "Me? According to what I want, I will pay for it with blood! Listening to me means offending some people." people and power."

The second elder and the fourth elder looked at each other.

They have expressed their attitude before.

Now they still have the same attitude: "We don't want to offend some people, but people from the Ji family can't die in vain!"

Qiao Nian took out the phone, lowered his eyelids, and made a call: "It's time to act."

\*\*

Independence Island, cloudy.

The sky seemed to be about to rain, and the dark clouds became thicker and lowered, as if you could touch the clouds with your hands.

Mo Dong's men kicked open the door of the East Pole organization's lair.

The people inside are still playing Pai Gow in underground casinos, and those who are hugging women are all in a state of drunkenness and dreaming.

Until someone notices the intruder from the outside.

They were still talking loudly, hanging ears and asking here: "Who are you, do you know where this is? Dare to come here."

Yaomen has always been clean and beautiful in its work.

The capable burly man took out his gun and put it on the forehead of the man who was walking over with a beer bottle: "Looking for death? Huh?"

The man was so frightened that the wine bottle in his hand fell to the ground.

Following the sound of the wine bottle smashing, everyone in the East Pole Organization noticed the movement here. When they saw dozens of black holes aimed at the inside, the underground lair could hear the sound of needles falling quietly...

The man whose forehead was the first to be pressed against the muzzle of the gun trembled with his legs, and asked with cold sweat on his back: "Brother, what does this mean?"

They are not a particularly powerful force in the Independent Continent, and they are no match for the big alliances such as the Chamber of Commerce Alliance and the Hacker Alliance.

It has more cards than many of the forces below.

They really don't understand who made such a big noise to move them, aren't they afraid that they will retaliate afterwards?

The big man didn't bother to talk to him, and reported the situation to the person in the headset, then raised his hand and ordered: "Take away their lair! Take all these people away."

The old lair? !

Those in the East Pole Organization panicked.

Few people in Independent Continent play like this!

Isn't this flipping the table?

They were all panicked, but they couldn't figure out who they had offended recently.

Among them, a few angry people wanted to take the opportunity to grab their guns and resist, but the countless dense infrared rays aimed at their temples in the dark made them give up resistance in an instant.

There are snipers outside.

As long as one of them moves around, I'm afraid they will explain it here every minute today.

These people are desperadoes, but they are not fools.

The disparity between the enemy and ourselves is so great.

No one wants to give away a head for nothing.

The members of the East Pole Organization were lined up in a row, dejected, and escorted out...

...

Outside.

Many people in Independent Continent have heard the news.

This time it was not the news that Ji Ziyin sent.

It was Qiao Nian who asked Feng Yu to let her speak.

A few cars were parked on the side of the street in the block outside the East Pole Organization's lair. Without exception, these cars all had their windows rolled up tightly, and no one dared to show their faces.

## Chapter 2899 Your life is not worthy of payment

The surrounding air is extremely chilling.

In one of the cars, the middle-aged man with blonde hair and blue eyes saw a row of people from the East Pole Organization being escorted out, took a deep breath, and said to the driver: "Let's go, go back."

"President, haven't you watched it?" The driver said in surprise through the front rearview mirror just after seeing someone coming out.

Simon has nothing to say at this moment: "I won't watch it."

Qiao Nian had already shown them the result.

Just like what she wanted to do, I'm afraid that no force in Independent Continent would dare to be encouraged to take action against Ji's family after this time.

She is using an East Pole organization to show all the forces in the independent continent that are ready to move in the dark, including their chamber of commerce alliance!

As a 'monkey' who has been warned, he is really not in the mood to continue watching.

Simon raised his hand and pressed his temple, and said in a low voice, "Go back first."

\*\*

The entrance of the Qiangwei Branch Hall.

Mo Dong has already brought someone back.

"Get in!"

Ji Ziyin saw the man being pushed in, she didn't dare to let out a nervous atmosphere, and quickly lowered her head, completely refusing to give the man a chance to make eye contact with her.

In fact, she worried too much.

Since being pushed all the way in by Mo Dong, Lang Ke has never looked at her. The whole time, he looked like a dead pig not afraid of boiling water, with his head held high, and he staggered in without saying a word.

When he saw the people from the East Pole Organization who were \*\*\*\* on the ground, his eyes became a little emotional.

"Boss."

"Boss, help me."

Those limp and struggling people on the ground saw Lan Ke coming in, regained their strength, and struggled to crawl towards him.

Lang Ke was only moved for a moment, and soon returned to calm, without looking at his own people crawling on the ground, he raised his head: "I do things alone. I did the branch of Ji's house, and I robbed the goods! What are you going to do? I will die, and you can kill or cut whatever you want!"

"Tsk." Qiao Nian walked up to him, raised her lips and looked at him: "Can you carry it?"

Lanke noticed her too young face, and there was a surprised and half-smile expression on her face: "Are you Ji Qing's daughter?"

It was the first time Qiao Nian heard Ji Qing's name from an outsider, the end of her eyes raised slightly, but her expression was a little cold: "Oh, you know her?"

"Tsk tsk. Recognized? Can't talk about it." A sneer appeared on Lang Ke's thin face, and he stared at her again, and said with emotion: "It's so pitiful."

A child who lost his mother early, is treated like an enemy by the lunatic grandmother... Isn't it pitiful?

Thinking about this, he felt that he was just going to die, and a person like Qiao Nian who didn't even know how to hate anyone was much more pitiful than him!

Lan Ke said with a sympathetic expression: "In short, I did what happened to the Ji family. Don't you want to find me? Come on, kill me."

Qiao Nian's eyes were clouded by dark clouds, and in the boundless darkness, facing the man's provocation, she only said indifferently: "Your life is not worth the lives of thirty members of Ji's family."

"...What do you mean?" Lang Ke is not a vegetarian, and he immediately felt the chilling spirit on the girl.

Qiao Nian just stared at him, and raised the corner of his mouth: "The other people from the East Pole Organization will come to you soon. You will know what I mean when you join them."

Lanke's face turned pale on the spot if he was struck by lightning.

He looked at the girl who was under 20 in disbelief, and he never thought that the other party would have such a trick.

Chapter 2900 Sister Nian: I will investigate this matter to the end!

The little gangsters on the fringes of the organization he specially led this time were thinking that these people would take the blame anyway, and they were reluctant to bring the real power of the East Pole organization.

Who knew...she didn't talk about martial arts!

Lonco blushed: "Independence Island is not involved in organizations."

Qiao Nian didn't take it seriously, and turned to the elders of the Ji family and said, "Take him back first, let him think about it."

Then she looked at Langke again, and said casually: "I'll give you three days to think about it. If you still don't plan to tell the person behind it, then I will treat it as you. You said that one person does things and one person is responsible, and I will Complete you."

"..." He didn't want such a result!

Netac still wants to struggle.

Mo Dong's eyes were quick to give him a knee, and he ordered his subordinates to cooperate with Ji's family to cover his mouth and drag him down like a sack.

Qiao Nian saw that the affairs here are almost done.

She looked at the time, walked up to Ji Ziyin, put her hands in her pockets, and there was a frivolity in her brows and eyes: "I will investigate this matter to the end! You can do it yourself."

Ji Ziyin's crippled right leg felt a sharp pain in the flesh, her eyes were resentful and uneasy: "Qiao Nian, this matter has nothing to do with me!"

Qiao Nian glanced at her, and saw that Ji Ziyin was guilty of not daring to meet her eyes, so she twitched the corners of her mouth, her eyes were quite cold: "It's up to you whether you get involved or not, I will check it myself, if you want. If you are found, you will not be able to escape."

Qiao Nian ignored her after finishing speaking.

Turn around and walk up to Mo Dong, and say to Mo Dong: "Let's go, let's go back."

"Okay." Mo Dong is used to the rough man, he doesn't care about the dozens of Ji's family members at the entrance of the branch hall, the second elder, the fourth elder, Ji Ziyin and others.

"let's go!"

"Yes, Brother Dong."

He turned around and called his own people, and the group swaggered and left behind the girl.

Several elders of the Ji family watched them get into the car, and there was a roaring siren outside and the sound of tires rubbing against the ground to leave...

The Second Elder guessed that Qiao Nian had left, so he discussed with the Fourth Elder and others: "What should we do next?"

The fourth elder looked at his eyes and nose, and said very coldly: "Didn't Qiao Nian hand over the man to us? Let's interrogate! I don't believe there is a mouth that cannot be pried open."

The Second Elder gave him a meaningful look and said, "Have you thought about it?"

Everyone is a thousand-year-old fox. Who has not understood after living to this age?

The Fourth Elder answered him calmly: "You haven't thought about it yet?"

The Second Elder was embarrassed for a moment, but he didn't answer.

Of course he thought about it too.

The two are playing charades.

Ji Ziyin hesitated and walked over, frowning slightly, looking worried, walked up to the two of them and said politely: "You two elders, are you really going to listen to her and deal with people from the East Pole Organization? This precedent has been passed. The patriarch is still unclear about where to go, and we rashly offend other forces at this time, in case those people unite to rebel against the Ji family... what will we do then?"

"Although her method can temporarily deter some people, it is difficult to guarantee that other forces will be dissatisfied with us in private!"

She speaks eloquently, and by looking at her expression, she thinks about her family and worries about Ji's family. She really doesn't want things to get serious.

But the attitude of several elders of the Ji family towards her changed 180°.

The second elder had eaten with her in the box of the Tianshui Club before, but this time he changed his attitude and refused to help her at all.
