

Madam's 3111

Chapter 3111 There are too many suspects, and the identity of the ghost is not clear for the time being

【Yan Baben's dad: My dad originally wanted to return these things, but the man insisted that he was your friend, this is a gift for the elders. He doesn't know how to deal with it anymore, let me ask if you want to give the things to you. 】

Jiang Zongnan This is the most appropriate way to deal with it.

Jiang Li also agreed to leave it to Qiao Nian to decide.

Qiao Nian frowned, and edited the message with her white fingertips: [Put it there first, don't give it to grandpa. 】

Jiang Li is very obedient, and he didn't ask why he couldn't give Mr. Jiang an emoji of "OK" in seconds.

Qiao Nian didn't care about this for the time being.

...

Because she didn't drink tea, Bo Jingxing made Ye Wangchuan's tea alone, and put a cup of white water for Qiao Nian.

Seeing the girl replying to the message, he tactfully put down the water and walked away.

Bo Jingxing gave Ye Wangchuan the brewed tea, and immediately raised his chin slightly, and asked him, "Why are you here together?"

"I want to have dinner with Mr. Jiang at noon."

Bo Jingxing showed a clear look: "Oh, no wonder."

"The bait has been sprinkled for so long, and the fish still hasn't moved?"

Ye Wangchuan used the tea lid to push away the froth on it, watched the tea leaves rising and falling in the scalding boiling water, raised his eyes, and opened his mouth casually.

"He is more calm than I thought."

Bo Jingxing smiled when he heard this, went around and sat down next to him, and mocked: "You're wrong, the fact is just the opposite."

"Huh?" Ye Wangchuan replied lazily.

Bao Jingxing said: "Since the bait was sprinkled last night, the fish pond should not be too lively, all kinds of monsters and monsters have appeared. There are so many suspects that I can't figure out who is the inner ghost! "

He has eyeliner to keep an eye on the movements inside the Nine Institutes at any time, and no small movements can escape his eyes.

Jiang Tianzhi had a conflict with Yu Wenhao last night, and he got the news immediately.

At first, he suspected that Jiang Tianzhi was an inner ghost.

But the series of sudden conflicts this morning made him unsure again. It seems that Li Lei behind him is also suspected, but He Wang is not so suspicious.

Li Lei just asked several people to go to the cleaning site where the experimental residues were disposed of to find broken glass...

He couldn't be sure for a while whether there might be an inner ghost hidden among the few people who followed him.

Bo Jingxing briefly told Ye Wangchuan all the big and small things that happened in the past nine days. The more he talked, the more he frowned.

After roughly finishing his speech, he raised his eyes and asked Ye Wangchuan: "Master Wang, who do you think is the most suspect?"

Ye Wangchuan didn't give him a clear answer, he leaned back, with his long legs resting casually on the coffee table: "I don't know, just take a look."

"It's not as if you didn't say what you said." Bao Jingxing said so, with a relaxed look on his face.

After all, Ye Fanchuan said so, he is not so anxious to find out the inner ghost, as long as he waits, the inner ghost will show his feet sooner or later.

Just at this time.

There was a knock on his office door.

Bo Jingxing heard it: "Who is looking for me at this time?"

He got up and walked over to open the door, then turned to see the men and women in the office.

His office is not big, at least there is no hiding place.

Bo Jingxing reckoned that even if there was a hiding place, there was a high probability that the two giant Buddhas would not cooperate with him to hide.

He wanted to understand this, and simply opened the door.

"It's you?"

Bo Jingxing did not expect that the knock on the door happened to be one of the few people he had mentioned.

He saw the people standing outside, thought briefly, and made way sideways: "...Come in first."

Chapter 3112 He came here to tell Bao Jingxing to be careful

"Well, okay." The person at the door came in timidly.

As soon as Qiao Nian finished replying to the message, he just raised his head and saw the man who followed Bao Jingxing.

The man was wearing Jiusuo's clothes, and he looked well-rounded. From the outside, he looked like a very ordinary person, but his eyes were very restless.

Qiao Nian happened to meet his eyes.

The man was taken aback for a moment, then looked away guiltily, lowered his head slightly, and pretended to be nonchalant.

"Deputy Director, I didn't bother you, did I?"

Bo Jingxing just returned to the previous position and sat down, and raised his hand indifferently: "It's okay, they are all from our own."

"Yeah." He Wang looked at the man sitting on the sofa, his expression a little swaying.

Ye Fanchuan seldom comes to the Ninth Institute, even if he comes occasionally, he stays with people of Master Cheng's level.

It is difficult for ordinary members of the Nine Institutes to get in touch with him.

He Wang has been in the Nine Institute for seven or eight years, today is the first time he met Ye Wangchuan.

As for Qiao Nian, based on her unique aura and flamboyant appearance, He Wang was sure that the young girl in front of her was not from their ninth institute.

So he maintained a high level of vigilance against the man and woman in Bo Jingxing's office, and stood there cautiously for a while, thinking about leaving.

"Deputy Director, I think I'm still..."

"Did you come to me for something?"

At the same time, Bao Jingxing happened to ask him.

He Wang was blocked, and looked at Bao Jingxing dumbfounded.

Bo Jingxing saw that he was standing nervously, pushed down the gold-rimmed glasses on the bridge of his nose with his slender fingers, smiled with his lips curled up, and said, "Just tell me, they are all my friends."

"..." He Wang raised his head, and then looked at the men and women sitting at the two ends. Because of his affection, it's hard to shirk away, not to mention that he really had something urgent to find Bao Jingxing.

So He Wang gritted his teeth: "Deputy Director, I want to report something to you."

Bo Jingxing opened the drawer, took out a new bag of tea from it, and prepared it for Qiao Nian to take before they left, without raising his eyebrows: "Say."

He Wang calmed down: "This morning, everyone was discussing the explosion in Master Cheng's laboratory last night, and Li Lei and Jiang Tianzhi even had a dispute over it. Then Li Lei took everyone to the residue cleaning place to see the explosion sound from yesterday night. The laboratory debris from the late laboratory cleaning..."

The more he spoke, the weaker his voice was, mainly because he felt a stern gaze falling on him, as if examining him, which made him extremely uncomfortable all over his body.

He Wang could sense that the gaze that made him dread came from the girl in the corner, but he didn't know why the other party was staring at him.

"And then?" Bao Jingxing also looked up at him at this time.

He Wang forced himself to calm down, clenched his fists, and continued: "I think his behavior is a bit inappropriate, so I came here to talk to the deputy director."

"Are you afraid that he will reveal Master's experiment?" Bao Jingxing said suddenly.

"..." He Wang was startled, and suddenly looked up at him.

Fortunately, Bao Jingxing looked very peaceful on his face, and he didn't doubt his appearance, it seemed that he just asked casually out of interest.

He Wang's tense back relaxed, his eyelids drooped, and he answered very honestly: "I think the experiment done by Master Cheng must be very important, so...you should be careful."

"Um."

Bo Jingxing didn't think there was a loophole in his words, so he took out the tea leaves he had collected from the drawer and put them on the coffee table.

Chapter 3113 Do you have his information? Let me see

Looked up at him, and said calmly: "Don't worry, Master Cheng's experimental data is all in the computer, and outsiders can't know the experimental content through the experimental residue."

He Wang's eyes flickered slightly, and he immediately showed a relieved expression, his ears were red, and he stood there in embarrassment: "Deputy Director, I..."

Bo Jingxing raised his eyes and saw that he was touching his nose in embarrassment, and realized that he was embarrassed, so he smiled and waved at her; "It's okay, it's a good thing you are vigilant."

"Call~"

He Wang heaved a sigh of relief, bowed to Bao Jingxing and said, "The deputy director, I'm going out first."

Bo Jingxing beckoned to him with a warm spring breeze: "Go."

Before he left, He Wang calmly glanced at a man and a woman in the office.

The girl is still acting like a fool, she seems not interested in the episode just now.

As for that man...

He Wang was born with a sense of fear, so he didn't dare to look more, and he didn't notice the other party's reaction.

As if he was afraid of being discovered, he immediately looked away, turned around and left Bao Jingxing's office without looking back. After going out, he closed the door for the three of them very considerably.

Bo Jingxing waited for him to go out, got up and handed the tea to Ye Wangchuan, and said with a smile: "Bo Zheng asked me to forward it to you."

Ye Wangchuan took the tea pot and played with it in his hands, his dark eyes were cold, and he couldn't see any emotion: "Who was that person just now?"

"Who?" Bao Jingxing reacted immediately, and suddenly realized: "He. He is one of the few people I mentioned to you, He Wang."

"He has been in the Ninth Institute for almost ten years." Bo Jingxing struggled to find an adjective, but it was rare that he only had a few words in his mind: "A very ordinary person."

He Wang is indeed very ordinary.

Back then, he entered the Ninth Institute as the provincial number one scholar through various selections, but he has never been able to make any achievements, and he was lost in the crowd.

"Although there are many city champions and provincial champions selected every year, the Nine Institutes are the research institutions with the highest honors in the country after all. What do you say? Everyone here is a top talent from all over the world. How can I not be particularly talented? High test scores at school are useless here..."

"This He Wang belongs to a person with average talent. He works very hard and is very popular. But none of the best nine laboratories in the nine institutes wanted him, so he can only be an external researcher. Tsk, quite It's a pity~"

Bo Jingxing, as the deputy director of the Ninth Institute, knew very well how many of these people who were selected by the Ninth Institute every year were like He Wang.

Ye Wangchuan didn't lift his eyelashes, and said calmly: "The Jiusuo never forces anyone, if he feels uncomfortable, he can leave at any time."

Bo Jingxing was stunned for a moment, he didn't expect him to answer himself seriously, so he smiled and said, "I'm just talking."

He said this, and the expression on his face gradually became serious: "Every experiment of the Nine Institutes involves countless human and social resources. We must not just take risks for someone!"

Qiao Nian listened to them talking for a while, then suddenly interjected, and said to Bao Jingxing, "Do you have any information about him? Let me see."

"Well..."

Qiao Nian never cared about other people's business, but suddenly making this request made Bao Jingxing stunned for half a second.

The girl looked softly: "Is it inconvenient?"

She originally thought that this involved personal information within the Ninth Institute, and was just about to say that it was inconvenient.

Bo Jingxing came back to his senses: "No."

Chapter 3114 Young Master Bo was hit critically, doesn't that mean he has a girlfriend?

"Wait a minute." He got up and went to the cabinet to search for He Wang's file bag, and quickly found He Wang's file bag from a pile of files.

Bo Jingxing took out the brown paper bag, walked over, and handed the file bag to Qiao Nian: "This is it."

Qiao Nian reached out to take it, opened the white thread wrapped around the file bag, and pulled out the documents inside.

He Wang, as Bo Jingxing said, was nothing special after entering the Ninth Institute. He also organized and participated in several experiments, but all ended in failure.

He is more interested in things on paper, and has made some achievements in writing papers, which have been published in world-class journals.

Qiao Nian pulled out his paper published in the World Physics Journal, and only glanced at it lightly, frowning just looking at the direction of the title.

"Light Speed Limit and Quantum Superposition State?"

He Wang talked eloquently in this paper, and various references to the literature of the great physics gods were discussed in the paper.

After a cursory look, she found that these theories of He Wang looked bluffing on the surface, but the possibility of actually realizing it was extremely low, so low that it was almost negligible!

Just reading this paper, she understood why Bo Jingxing said that it was impossible for the Nine Institutes to devote resources to He Wang's research.

Because He Wang's research didn't mention whether it was worthwhile, it was impractical in the first place.

Bao Jingxing saw that she was flipping through He Wang's information with a serious expression, and touched her earlobe. He didn't dare to disturb her, so he walked to the side of the sofa, and said softly to the lazy and expensive man, "Why did Miss Qiao suddenly mention to He Wang? Interested?"

"I'm also very interested in him." Ye Wangchuan said unexpectedly.

Bo Jingxing immediately turned his head to look at him: "You doubt He Wang?"

Ye Wangchuan bent down and put the tea back, noncommittal: "Huh?"

"Him? Impossible!"

Bao Jingxing still didn't think that He Wang was suspicious, and he frowned, and said, "He came over and told me that Li Lei took people to see the residue cleaned up by the master's laboratory. This is also an expression of concern for the Nine Institute...you What's wrong with his behavior? Hey, I think it's okay, it's quite normal. After all, he doesn't know that we have eyeliner, and he already knew what happened in the morning."

Ye Wangchuan didn't answer him directly, but looked far away and landed on the girl: "I believe in God Qiao's sixth sense."

Bo Jing moved his lips, his expression almost collapsed.

...Show affection, right?

He laughed back angrily, somewhat understanding what Qin Si often complained to him.

He is standing there at the moment like a peerless villain, obviously he is just an ordinary single dog, someone with his condition would even be envied as a diamond bachelor...

But at this moment, he received 10,000 critical hits because he was single!

Isn't it just having a girlfriend?

Bo Jingxing said "haha" twice, shut his mouth in a self-defeating manner, and didn't bother to ask him why he doubted He Wang...

**

Not long after He Wang left Bo Jingxing's office, he ran into Li Lei head-on.

Li Lei saw him and greeted him enthusiastically: "Where did you go just now? I was looking for you."

As he spoke, he glanced in the direction He Wang was walking towards, before he had time to think about it.

He Wang stood in front of him, and suddenly said, "You want something from me?"

Sure enough, Li Lei didn't look inside, scratched his head, hesitated for a long time and said: "It's nothing serious... Like this, Yu Wenhao said that Master Cheng asked us to help clean up the laboratory, and Jiang Tianzhi is also here... I don't want to be gossiped, so I want to call You go with me."

Chapter 3115 The fish is hooked

"Master Cheng wants to tidy up the laboratory?"

He Wang's heart skipped a beat, feeling a little too sudden.

Li Lei said disapprovingly: "It seems that it was caused by the explosion in the laboratory last night. It is said that some medicines in the laboratory were also damaged. The foreign affairs staff couldn't check these, so they asked a few people from the Ninth Institute to help clean up. "

He Wang still said very cautiously: "But didn't Master Cheng prevent people from entering his laboratory before?"

"Hi! There are so many people this time!" Li Lei said, "This time Yu Wenhao called more than a dozen people. With so many people, even if someone wants to do something, he has no chance."

He Wang was still skeptical, after all, the timing was too coincidental.

Who knew that Li Lei went on to say: "I think the master probably didn't do any confidential experiments. The glass cover might not have been damaged by an explosion. Who knows that he is an old man. Many physical experiments instinctively cause explosive reactions." , I think about it later, maybe we think too much..."

He Wang pursed the corners of his mouth tightly and did not express his opinion.

At this moment, Li Lei looked him up and down, and his warm attitude gradually cooled down: "Are you going or not? It doesn't matter if it's inconvenient for you, and I won't make things difficult for you."

Jiang Tianzhi is older than them in the nine institutes.

Although He Wang is an old man, compared to Jiang Tianzhi, who was able to enter the team of masters, his status in the Ninth Institute is extremely low.

It's normal for He Wang not to want to offend anyone.

Li Lei himself has a little strength, otherwise he would not dare to argue with Jiang Tianzhi.

When he talked to He Wang, he couldn't help showing a little arrogance.

Shame pen!

He Wang sneered in his heart, aroused with fierce revenge, but he didn't pay much attention to the strangeness of this matter: "Then... well, I'll go with you."

"I knew you would accompany me!" Li Lei immediately went over and grabbed his neck, and said with a smile, "Let's go quickly."

"good."

He Wang raised his leg and followed him towards the laboratory.

**

When they arrived, many people had already arrived.

The people He Wang scanned around briefly were not only those who gathered together to discuss in the morning, but also a few unfamiliar faces, who seemed to be seconded from other laboratories.

He originally had doubts.

Seeing that there were many people coming, he felt relieved and walked into the laboratory with Li Lei.

Master Cheng's laboratory is very large, with a dedicated experimental area, and there are several closets for experimental supplies on the left wall.

The glass is full of various experimental materials and rare chemicals.

He Wang looked at the grand laboratory and the dazzling array of high-tech experimental equipment. There was no smile in his dark eyes, and he was cold and cold. He followed Li Lei to greet everyone.

Li Lei knew a lot of people. After greeting each of them, he walked up to Jiang Tianzhi. He snorted, turned around and left when he didn't see him.

He Wang who was by his side explained to Jiang Tianzhi kindly: "He is too young, Senior Brother Jiang, don't bother with him."

Jiang Tianzhi raised his eyelids leisurely, saw that it was him, and nodded reluctantly: "I didn't take it seriously."

He Wang has a very high EQ: "Thank you, Brother Jiang."

Jiang Tianzhi replied with a dull "hmm" again.

At the same time, Yu Wenhao came over.

Jiang Tianzhi immediately focused on Yu Wenhao, completely ignoring the existence of He Wang, his face was still clouded, and he seemed extremely at odds with Yu Wenhao.

He Wang was used to this kind of neglect, so he twitched the corner of his mouth in a self-deprecating manner, and went to find Li Lei's group of people very interestingly.

Chapter 3116 The monitoring is not broken, someone destroyed the network cable

Yu Wenhao simply assigned the area to everyone, and everyone got busy.

The laboratory quickly split into three factions.

One group is Li Lei and his friends.

One group is the old man in the laboratory headed by Jiang Tianzhi.

There is another faction that has a closer relationship with Yu Wenhao.

These three groups of people do not interfere with each other, they are busy working in their respective areas, and almost no one pays attention to each other.

Only He Wang is a kind person.

He has a good relationship with these three people, so whether it is Yu Wenhao, Jiang Tianzhi, or Li Lei, he will be asked to help from time to time.

He Wang looks inconspicuous, but he actually seems to be the busiest person in the laboratory.

*

"Do you really think that the ghost is He Wang?" Bo Jingxing was still watching the surveillance in the laboratory.

In the monitoring screen, He Wang is hard-working, able to get along with everyone, very ordinary and honest.

Qiao Nian stood with him with his hands behind his back, narrowed his eyes slightly, and raised his head slightly to look at the surveillance above. He didn't talk much, but his aura was strong.

"It's him."

"..."

Bo Jingxing looked at the monitoring screen again after hearing the words.

He Wang's every move was exposed to surveillance, and he didn't look like a suspect no matter what.

This operation needs to be coordinated by Master Cheng.

So Master Cheng is also here.

Although he was surprised that Qiao Nian would stare at He Wang, his delicate face still looked calm, more calm than Bao Jingxing: "Let's see and talk."

"Yes." Bo Jingxing responded.

Ye Wangchuan and Qiao Nian jointly set up the game. As one of the traders, he is as calm as Qiao Nian at the moment, and he is almost certain of He Wang's identity.

Time passed by one minute and one second.

Seeing that two hours have passed.

Master Cheng is getting old, and his physical strength is a little weak, and his legs are weak when standing.

Ye Wangchuan noticed the exhaustion on his face, and asked someone to bring him a chair.

Master Cheng has a gentle face. He just said his thanks and is going to sit down and rest for a while, waiting for the fish to take the bait...

at this time.

The monitor in the monitoring room suddenly went black.

"...what happened?!"

Bo Jingxing reacted the fastest, and immediately moved forward to operate the mouse.

He checked and found nothing wrong, immediately frowned, turned around, and was about to ask Ye Wangchuan and Master Cheng to come and have a look.

Who knew that the girl leaning on the side stretched out her hand and stopped him: "Let me see."

Bo Jingxing's mind was full of surveillance interruptions, and he subconsciously wanted to let the people inside the Ninth Institute see and touch the girl's pretty face.

He suddenly reacted.

Bo Jingxing immediately made room for Qiao to read: "Okay, you come."

The monitoring of the nine institutes is all connected to the Internet.

He only saw the girl operating the computer casually, and soon a series of code characters appeared on it.

Not long after.

Bo Jingxing felt that only a few seconds had passed.

The test results have appeared on the computer.

He himself is proficient in English, and he recognized the professional terms on the screen at a glance: "Not connected to the Internet?"

"kindness."

Qiao Nian was not surprised when he saw the results displayed on the computer screen. He let go of the mouse and looked back at Bao Jingxing: "The monitor is not broken, but someone over there broke the network cable."

She even guessed how the other party destroyed the network cable.

"He wouldn't be stupid enough to damage the network cable, that would be too obvious."

Qiao Nian raised his lips, and said confidently: "So he should have taken the opportunity to unplug the network cable. In this way, even if someone accidentally discovers his small movements, he can explain that he accidentally touched it while cleaning!"

Chapter 3117 Is he a roundworm in his stomach? how do you know everything

Bo Jingxing took a deep breath and was about to leave immediately: "I'll go over and have a look."

Ye Wangchuan stretched out his hand to stop him.

"No hurry."

"Idiot?!"

Bo Jingxing didn't understand why he was not in a hurry, it was related to the safety of the 'tsar'.

Ye Wangchuan saw his impatience, patted him on the shoulder, and said calmly: "Master Cheng and I have already swapped the data in the computer."

"Eh..." How could he not know?

Bo Jingxing instinctively looked in the direction of Master Cheng.

Master Cheng was as calm and unhurried as Ye Wangchuan, and nodded to him, which proved the man's statement.

The anxious expression on Bao Jingxing's face eased a little, and then he remembered something, and immediately said: "No, even if the data has been changed, we don't arrest people now, or let him run away if we don't keep them."

"I said there is no rush."

Ye Wangchuan seems to have a kind of calming power in his body, as if with him, everything is under control.

"Let the fish bite the bait first, and then we can catch the current one after he eats a little more 'bait'. Otherwise, even if you reel in the line immediately, the hook that comes up may be an empty hook. This is common sense in fishing."

Bo Jingxing was considered a scheming person, but after hearing his 'fishing' theory, he couldn't help but push his glasses down.

Ye Wangchuan ignored him at all, turned his head lazily, and said to the **** the side: "You say yes, God Qiao."

"..."

"That's what you planned too, right?" Ye Wangchuan seemed to see through her thoughts.

"..." Qiao Nian had been called God Qiao many times before.

Every time he yelled that, Qiao Nian always felt that the string in his head was tense.

She pursed the corner of her lower lip, looked into his eyes for a second, and realized that he had noticed her thoughts.

Moreover, he guessed her plan 100%, absolutely.

Qiao Nian couldn't help feeling anxious, suspecting that he was a roundworm in his stomach, how could he know everything!

But because he brought the topic to himself, Qiao Nian felt the eyes of Bao Jingxing and Master Cheng on her.

She had no choice but to lift her peaked cap, coughed dryly, "Wait another half an hour."

**

Half an hour later.

Qiao Nian put away the phone, stood up and said to Bao Jingxing, "Let's go, let's go there."

Even though Bao Jingxing didn't know how she and Ye Wangchuan planned to find out the ghost, he still followed with hesitation.

Ye Wangchuan helped Master Cheng up, and asked with concern: "Can you persist in old age?"

Master Cheng sat for a while and had almost rested. Hearing this, he immediately patted the back of his hand and smiled: "I'm fine, don't worry about my old bone."

Ye Wangchuan was very polite, helped him stand up, and then said to him dignifiedly and thoughtfully: "We will go there too."

"good."

Master Cheng walked out the door with him, and when he looked up, he saw that the girl who went out first was actually waiting for them to come out in the corridor.

Seeing them following up, Qiao Nian didn't say much. He just looked at Master Xia Cheng with concern.

She looked away, and then said to Bao Jingxing, "Let's go."

...

At this moment, the laboratory cleaning work has come to an end.

Yu Wenhao collectively registered the unusable materials that everyone checked out, recorded them one by one, and then called the foreign affairs staff to come over and deal with them uniformly.

The nine institutes have a clear division of labor. When the foreign affairs personnel come over, they specially bring carts to transport all the cleaned up waste.

Seeing that things are over.

Chapter 3118 Ms. Qiao is also a friend of Master Cheng

He Wang was the first to speak: "Senior Brother Jiang, Brother Yu, since there is no need for help, I will go back first."

Yu Wenhao was talking to someone about the cracked partition in the experimental area. Hearing this, he turned and looked at him: "Huh?"

He Wang looked at the time on his watch, raised his head, and asked him sincerely: "Is there anything else Junior Brother Yu needs our help with? If not, I'll leave first."

Yu Wenhao saw that the person who spoke was He Wang, so he immediately talked to his friends, and then walked up to him: "Senior Brother He is leaving?"

"I have an unfinished thesis, and I want to go back and continue writing the thesis." He Wang answered seamlessly.

Yu Wenhao is not easy to keep him.

At this time, Li Lei brought his group of people around.

Seeing He Wang's proposal to leave, he also echoed, "Yes, do you have anything else we can help you with? If not, we'll leave first."

Yu Wenhao thought for a moment, but didn't force it to stay: "It's gone for the time being, and I can finish the rest with my colleagues."

He Wang couldn't wait to say: "Okay then, let's go first."

He looked anxious to leave.

Yu Wenhao only thought that he was in a hurry to go back to get his research paper, and stood there and nodded in a daze: "Okay."

"let's go."

Before he left, He Wang did not forget to call Li Lei to be with him.

Li Lei took his group of people along with He Wang, a group of people preparing to leave Master Cheng's laboratory.

With the light of the door getting closer.

He Wang's heart was beating fast, his palms were clenched with sweat, and the sticky sweat was hidden under his clothes, which also hid his pounding heart.

Soon.

He's leaving here soon.

As long as he leaves the laboratory smoothly, he is successful!

He Wang could no longer hear the sound in his ears, and his soul seemed to have been stripped from his body. When he was approaching the door, he even stepped in front of Li Lei, and took the initiative to pull the door: "Let me come!"

Li Lei was taken aback by his sudden move, and hadn't had time to react.

He Wang has already opened the door, ready to step out with a smile on his face.

But he met the girl's cold gaze head-on, as if the ice water in the middle of winter was pouring down from the top of his head when he was at the peak of excitement.

He Wang suddenly felt cold from head to toe!

"Where are you going in a hurry?" The girl's voice was loose and carefree.

He Wang didn't dare to look at her directly, he took a step back in shock, and realized that he had overreacted, so he held back the beating of his heart with a livid face: "..."

Li Lei was beside him, seeing him retreat.

Unknown, she looked at Qiao Nian: "Who is she? Do you know her?"

He Wang shook his head, looked in Qiao Nian's direction, and immediately looked away guiltily, not daring to make any eye contact with the girl.

He always felt that this person was a bit enchanting.

From the time he saw this girl in Bo Jingxing's office today, He Wang had this strong sixth sense that he couldn't provoke her.

But he didn't expect to be blocked by the other party.

"she is my friend."

Fortunately, Bao Jingxing, who was two steps behind, came over at this time.

Bo Jingxing's explanation can also be regarded as giving Qiao Nian a reasonable identity, facing the expression of Li Lei and others who still don't understand.

Bo Jingxing pushed the gold-rimmed glasses frame underneath, and said with a smile: "Miss Qiao is also a friend of Master Cheng."

"Is she a friend of Master Cheng?"

"So young?"

"Uh, did I make a mistake?"

Li Lei and others began to discuss.

The main thing is that Qiao Nian looks too young, younger than anyone in the Nine Institutes!

Chapter 3119 Sister Nian and Master Wang cooperate to find out the ghost

At this time, Yu Wenhao and others also gathered around when they heard the movement at the door.

When Yu Wenhao saw the girl in the crowd, his pupils trembled, showing a surprised and fearful expression: "Joe, Qiao Nian."

"You know her?" Li Lei turned around.

Yu Wenhao calmed down a little, and looked at the person blocking the door with complicated eyes: "I went to find her with the teacher, she is the teacher's... friend."

He didn't know if his position was right.

Master Cheng and the girl in front of him are indeed both teachers and friends, and they are a little more friends, everyone's status is very equal.

Even Yu Wenhao said that, but everyone in the laboratory looked at Qiao Nian's too young and beautiful face, and was speechless.

Really... such a young friend? !

They were wondering about this, Master Cheng and Ye Wangchuan arrived later.

He Wang was able to maintain his composure at first, but when he saw Master Cheng appearing, his eyes still wandered, and he panicked for a moment.

This moment was keenly captured by the girl.

She pursed her lips, moved sideways to let Master Cheng come over, and said coldly: "Your site, please check if you have lost anything."

"good."

Master Cheng was also unambiguous, and went straight in and walked in the direction of the computer.

Seeing Master Cheng and Ye Wangchuan coming, Yu Wenhao kept up with his teacher and asked all the way: "Teacher, what happened?"

"I'll see if I lost anything in my computer." Master Cheng said unhurriedly.

Yu Wenhao stopped: "Throwing something?"

He saw the serious face of the master, followed up again, and said, "Impossible, right? We are all busy sorting out materials in the laboratory, and no one touches the computer."

Master Cheng ignored him, and was already sitting on a chair and leaning over to turn on the computer.

Yu Wenhao stood aside, at a loss, and didn't know whether he should step forward to help.

At the same time, he finally turned his head around and realized that Master Cheng's sudden return to check the computer might be someone's idea.

He immediately looked back in the direction of the girl.

Yu Wenhao felt a little uncomfortable. He turned his head and suppressed the grievance of being suspected. He lowered his voice and said to the old man in Tsing Yi: "Teacher, it is impossible for someone to steal things here. Everyone is from the Ninth Institute. How could such a thing be done?" ..."

Yu Wenhao knew that Qiao Nian knew those big shots in Independent Continent, so he should be a very powerful person, otherwise he wouldn't be valued by his teacher.

But he was still very angry at the girl's behavior of 'stimulating dissension' in the Nine Institutes!

In his opinion.

Whether it is Li Lei or Jiang Tianzhi, these people are all from the Nine Institutes.

How could there be thieves inside the Nine Institutes?

He hasn't finished yet.

Master Cheng has called up the encrypted file in the F drive, and clicked on the setting that he left on purpose to check whether the data has been copied.

Sure enough, I saw that the number of copies displayed above is 1.

That is to say.

Someone copied this document.

He dedicated his whole life to Jiusuo, more than anyone else, he could not tolerate the fact that Jiusuo was a ghost.

Cheng Dashi's expression darkened, he immediately walked up to Qiao Nian and Ye Wangchuan, and said, "Someone has touched my computer."

"Yes." Ye Wangchuan was not surprised, and gave Bao Jingxing a look: "Go and check the surveillance."

"Understand."

Bo Jingxing had long understood what inspection and monitoring were for, so he walked towards the place where the monitoring was installed in the laboratory without saying a word.

At this time, He Wang's palms were already drenched with sticky cold sweat, and the cold sweat drenched his skin. He only felt that his whole body was lacking in coolness, so he had no choice but to force himself to calm down...

Chapter 3120 I'm not feeling well at this time, it's too late

Li Lei came over to give him a hand at this time: "What are they doing? Why do they need to watch the surveillance? What's wrong with the surveillance? Could it be that someone really stole something?"

He Wang was so upset that he was in no mood to talk to him: "I don't know."

Li Lei glanced at him strangely: "Are you okay? Why is your face so ugly?"

He Wang touched his face, afraid of being noticed by the people around him, he forced a smile, but the smile was too perfunctory: "Maybe I didn't have a good rest last night, and I'm tired now."

"Are you feeling unwell?" Li Lei still remembered that he had spoken for himself before, and kindly said, "I'll help you talk to Cheng Dashi, let you go back and rest first..."

As he said that, he was going to find Master Cheng.

He Wang grabbed him with a serious expression, "No, no need."

"Aren't you feeling unwell?" Li Lei was confused by him.

"I'm fine."

He Wang felt that some people around him were looking at them, and felt even more uneasy, not wanting to draw more attention.

"I'm just a little tired, but I can hold on."

"you sure?"

He Wang let go of his hand: "I'm sure."

Seeing him nodding his head, Li Lei felt that he was a little strange today, but he didn't think about it too much, only thinking that he didn't want to trouble him, so he didn't insist anymore.

It happened that someone next to him was talking to him.

Li Lei turned his head and went to talk to his friends.

Seeing that he finally stopped pestering him to question him, He Wang breathed a sigh of relief. Before he could relax, he saw Bao Jingxing come back with a network cable, walked up to the girl who made him feel very uncomfortable, and said with a smile: "Joe Miss, you are right."

"kindness?"

Bo Jingxing waved the network cable in his hand in front of her, and said meaningfully: "Someone really unplugged the network cable secretly."

"Someone unplugged the network cable? Why?"

"There are really internal thieves in the Nine Institutes?"

"Impossible? Who did it? Who wants to steal from the lab?"

Bo Jingxing stayed in the Ninth Institute all year round.

Although he is young, he may be very capable. Almost everyone in the Nine Institutes knows him.

Bo Jingxing said that someone secretly unplugged the monitoring line of the laboratory, that is, someone secretly activated the monitoring...

After all, even he said so, there is no need to run away from this matter.

When everyone was most panicked, Li Lei suddenly seemed to think of something, and suddenly pointed in the direction of Jiang Tianzhi in the corner, and said loudly: "You activated the surveillance?"

He said this suddenly, and everyone in the laboratory fell silent, looking at the tall, rugged-looking man in the corner in unison.

Jiang Tianzhi finally came to his senses, frowned, and said coldly, "Are you sick?"

But Li Lei seemed to recognize him, pointed at him and said repeatedly: "Among us, you are the most suspicious! You were jealous of Yu Wenhao being reused by Master Cheng, and you took him to participate in that confidential project, but you were not taken, so you are dissatisfied... "

Jiang Tianzhi didn't want to start a conflict with him at first, but the more Li Lei said, the more outrageous it became.

His complexion darkened, and he interrupted the other party's words in a serious voice: "You said I stole something, do you have evidence?! If you can't come up with evidence, you must apologize to me today."

"...Do you dare to say that you are not jealous of Yu Wenhao?" Of course Li Lei couldn't prove it, he only knew how to mess around.

Jiang Tianzhi was so angry that he wanted to rush up and smash his mouth, but his friends stopped him and tried to persuade him.

"Forget it, calm down, don't argue with him, who in the Nine Institutes doesn't know that he is a fool, what do you know like him."

"That's right, ignore him."
