Chapter 3121 Sister Nian: Just check the fingerprints on the monitoring line

Even though his friends around him were persuading him, Jiang Tianzhi was still blushing with anger from this idiot, and gasping for a long time, he choked out a harsh word.

"If I were a thief, I would be hit by a car and die as soon as I go out!"

"alright."

At this moment, Bao Jingxing suddenly interrupted the quarrel between the two sides, stood in the middle, pushed down his glasses, and said impatiently, "Shall I book a studio for you, and you stand there to argue?"

He opened his mouth, and the audience was silent.

Jiang Tianzhi also put away his anger, and stopped aggrieved.

Li Lei also shut up, not daring to provoke the other party any more.

Seeing that everyone was quiet, Bao Jingxing said in front of everyone in the laboratory: "The current situation is that someone secretly moved Master Cheng's computer while you were helping to tidy up the laboratory, and even copied the information on the computer. important data."

"And this person unplugged the monitor before doing these things!"

He picked up the network cable and asked, "Have any of you ever seen someone touch this?"

People in the laboratory look at me, and I look at you.

For a long time, no one stood up.

No one saw it!

The sticky sweat in He Wang's palms was very uncomfortable, and his heart was pounding, but after a long silence, he found that no one stood up, which relieved a little bit of tension.

Seeing that no one stood up, Bao Jingxing rubbed the space between his eyebrows, turned around and asked the girl cleverly, "Miss Qiao, can you find out that person?"

He Wang suddenly looked at the girl who had found a place to sit down since entering the door. The girl was sitting on the edge of the laboratory table, and raised her eyes casually: "Exclusion method, let someone check the fingerprint on the network cable."

"What do you mean?" Bao Jingxing didn't understand what she meant at first.

Ye Wangchuan explained for Qiao Nian unhurriedly: "It's very simple. Since this monitoring is in Master Cheng's laboratory, under normal circumstances only people in Master Cheng's laboratory can access it, and the fingerprints of these people are excluded. , the remaining person is the one who unplugged the monitor."

Bo Jingxing suddenly realized, and immediately called someone to prepare to check the fingerprints.

It is really easy for the Nine Institutes to check how many fingerprints.

It is estimated that it will be found within a few minutes.

Before the others reacted, He Wang watched the foreign affairs people come in, the expression on his face changed again and again, and finally he couldn't bear the pressure.

When everyone was still thinking about the 'elimination method' proposed by Qiao Nian, he suddenly raised his hand and stood out from the crowd.

"Deputy director, I touched that monitoring line."

He said so.

Others looked at him one after another.

Even Jiang Tianzhi, who was so angry before, forgot the previous episode and looked at it with surprised eyes.

Under heavy pressure, He Wang met Bao Jingxing's suspicious gaze, gritted his teeth, and explained embarrassingly; "When I was tidying up the metal material in the closet, I saw a layer of dust on it, so I wiped it with something, and it happened that the line was hanging on it. There, I touched it with my hand, I took it away, there should be my fingerprints on it..."

He immediately emphasized again: "But I'm not a thief, I didn't unplug it!"

Bo Jingxing didn't say anything immediately, but just stared at him carefully.

Of course He Wang knew that his reason was not particularly good, but in desperation, this was already the most reasonable explanation he could come up with.

He stood there stiffly, lowered his eyes again, as if resigned to his fate: "If, if you don't believe it, I can't help it."

Chapter 3122 Unexpectedly, the U disk is not on him

"I have been in the Nine Institute for seven or eight years, and I have never done anything to be sorry for the Nine Institute. This time it was an accident, and I don't know how to explain it."

When Yu Wenhao heard this, he couldn't help stepping forward to intercede for him: "Deputy Director, since Senior Brother He came forward and admitted that he touched it before the fingerprints were checked, it should have nothing to do with him."

"Tsk, how do you know that he isn't afraid of finding out his fingerprints at the end?" Qiao Nian asked calmly.

Yu Wenhao couldn't answer for a while, his fair face was flushed, he clenched his hands into fists, and squeezed out a sentence: "In short, I don't believe that there are ghosts in the Nine Institutes!"

What he said was powerful, as if it was a big deal!

Qiao Nian didn't take it seriously, and stretched out his hand to pull off his peaked cap. His narrow eyes were dark, and he glanced at him: "That means you are still a younger brother."

As she spoke, she stood up, walked to Bao Jingxing's side, and said concisely: "There is another way to find out the ghost."

"Miss Qiao, please tell me." Bo Jingxing was very polite.

Qiao Nian didn't answer immediately, but looked at Master Cheng through the crowd: "Has the data on your computer been copied?"

"Well, that person copied it once." Master Cheng said.

"Okay." Qiao Nian responded, turned his head and continued to say to Bao Jingxing: "Since that person has copied it, there is always something there. Just ask everyone to take out what they have on their bodies and have a look. Who has the USB drive? Most suspect!"

Bo Jingxing's eyes lit up: "It makes sense."

He didn't talk nonsense, and immediately asked someone to bring some boxes, and asked Li Lei and others to put the things they brought with them in the boxes.

Jiang Tianzhi, Li Lei and others looked at each other, originally they were not very willing.

It's just that this incident involves the theft of computer data that has become a major event. They understand the seriousness and queue up to put things.

Nine institutes are not allowed to carry lighters and other flammable and explosive things. Most people only bring mobile phones, keys, small snacks and small books for work.

He Wang also consciously stood among the crowd. When it was his turn, Qiao Nian paid attention to the expression on his face.

Surprisingly, He Wang looked very calm, but relaxed as if he was relieved, even a little... proud!

Sure enough.

He has nothing in his pocket except the keys!

Seeing that he didn't bring anything other than the keys, Yu Wenhao frowned and looked in Qiao Nian's direction.

Before he had time to think deeply, he felt another sharp gaze falling on him.

He looked over with that gaze, and immediately saw that the teacher he had met would respectfully call him Young Master Ye.

He was instinctively afraid, so he looked away.

After He Wang passed, it was Li Lei and his party.

The two people in front are fine, and they have either keys or small books in their pockets.

Soon it was Li Lei's turn. When he was fumbling for his bag, a black object fell from the side, rolled on the ground, and landed directly at his feet.

"what?"

Li Lei himself was in a daze, and squatted down to pick it up.

Qiao Nian stopped him directly: "Don't touch it."

Li Lei's whole body stiffened subconsciously, and he was distracted when someone behind him saw something rolling at his feet and exclaimed, "U disk?!"

U disk?

Li Lei himself was fooled!

He took a closer look, and the thing that fell on his feet was only five centimeters in size, pure black, what is it if it is not a USB flash drive?

At that time, his face was pale, his mind was blank, he looked at the people around him in horror and waved his hands to explain: "It's not me, it's not me..."

But the U disk fell out of his pocket.

More than a dozen pairs of eyes saw it.

This time it can be considered conclusive evidence!

Chapter 3123 Sister Nian slaps her in the face, crackling!

All the friends around him took a step back in disgust, and kept away from him.

Jiang Tianzhi frowned when he saw the USB flash drive dropped from Li Lei, but he restrained himself from talking nonsense before things became clear.

He Wang has the best relationship with Li Lei, but at this time he broke the balance, looked at Li Lei with a surprised expression, and spoke first: "Li Lei, why is the U disk on your body?"

"No, it's not me!" Li Lei himself was sweating profusely.

He has never touched Master Cheng's computer, let alone a USB flash drive.

He doesn't even know how this USB flash drive got on him...

"It's really not me."

"You guys trust me."

Li Lei was in a hurry and kept explaining.

"not me."

But he didn't know how to explain the accident other than the pale "it's not me".

Bo Jingxing didn't expect that the USB flash drive fell from Li Lei's body in the end. He was also a little surprised and looked in Qiao Nian's direction.

He remembered that the inner ghost mentioned by Brother Qiao seemed to be He Wang, how could he become Li Lei?

Bo Jingxing was extremely hesitant.

On the one hand, he has 100% confidence in Qiao Nian's ability, so he trusts her judgment, otherwise he wouldn't cooperate with the "catch the turtle in the urn" setup.

On the one hand, he did see with his own eyes that the USB flash drive fell out of Li Lei. According to Qiao Nian, whoever owns the USB flash drive is the most suspicious...

Ye Wangchuan folded his hands on his chest, leisurely and lazy, as if he was not in a hurry at all, he tilted his head and asked the girl: "Do you want me to help?"

"..."

As soon as Qiao Nian made eye contact with him, he knew that he wanted to be with her again!

He is really poisonous!

She simply ignored someone, and went straight to He Wang: "I'll give you one last chance, it's still too late for you to admit it."

When He saw her walking in front of him, he felt guilty for no reason at all, but when he saw the girl again, he seemed to have full confidence.

He was even more uncertain, and his heart was beating fast.

Extremely nervous.

He Wang's expression became stiff.

He wanted to put on an indifferent smile but couldn't, but the corners of his mouth twitched again, looking nondescript: "Miss Qiao, did you make a mistake? I don't have a USB flash drive. The USB flash drive didn't come from me, it was It fell from Li Lei."

Li Lei was stunned when he heard the words, and immediately reacted greatly: "What do you mean?! It's not me!"

He Wanglin interrupted him: "Miss Qiao said, whoever is the most suspicious of the U disk is there. So it's not me who doubts you, she just said so."

Li Lei hadn't had time to speak yet.

Qiao Nian's thick black eyelashes drooped, and she smiled dryly: "Okay, I understand what you mean."

"What do you mean..." He Wang was upset for no reason, always feeling flustered and hopeless, and didn't understand how he was being targeted by her.

Qiao Nian walked up to Li Lei with his hands in his pockets, bent down to pick up the USB flash drive on the ground, and walked towards Ye Wangchuan under everyone's gaze.

When He Wang passed by, she said softly, "When you handed the USB flash drive to someone else, there shouldn't be a chance to wear gloves, right?"

He Wang thought of something, his whole body was shocked, and he looked at her in horror.

Qiao Nian had already tossed the USB flash drive to someone, and casually explained to everyone: "Since this USB flash drive belongs to Li Lei, there won't be any third person's fingerprints on it besides mine and Li Lei's... If the fingerprint of a third person is found on it, why do you guess that person's fingerprint is on it?"

She finished.

Looking at He Wang who was trembling all over again, he said slowly: "If there is your fingerprint on this USB flash drive, and your fingerprint on the monitoring line...Can this be explained by coincidence?"

Chapter 3124 He Wang finally admitted

He Wang's face was pale, his eyes flickered: "That's, that's because..."

"Because of what?" Qiao Nian folded her hands on her chest, taking the time to look at him, her tone was very soothing, even a little careless.

However, this wanton madness trapped him like a densely woven net, and He Wang found it difficult to breathe, and his complexion became worse and worse: "Because...because..."

He couldn't explain it.

Because he was the one who did it!

He is the ghost!

Everyone in the laboratory was stunned by the results before them, including the original 'suspect' Li Lei.

Li Lei turned his head to look at the man who clenched his fists and couldn't explain clearly with an expression of disbelief on his face, and said in a shrill voice, "You put the USB drive in my bag? Why? Aren't we friends?"

He Wang was shocked, as if his sensitive nerves were stimulated by these words, he finally lowered his head and began to sneer, and then his laughter became louder and louder, he slowly raised his head, his whole expression became ferocious and distorted, and he looked around the laboratory viciously everyone.

"Friend? I don't want to be friends with you idiot!"

"You spoke for me before..." Li Lei still remembered the past.

He just started talking.

He Wang reacted violently: "I just want to use you!"

Li Lei gradually calmed down from his anger and shock at the beginning. Looking at He Wang who was hysterical again, it was rare for him to remain silent.

He Wang has gone crazy.

Everyone can see that He Wang is a lunatic now.

He didn't want to argue with the lunatic about right and wrong.

Seeing that Li Lei didn't speak, He Wang sneered again: "However, those words you said were quite soothing, and they touched my heart."

He didn't look at Li Lei, but turned to look at Master Cheng in the crowd, his eyes were full of resentment, and his face was gloomy and terrifying: "Master Cheng, do you remember that I once looked for you?"

Master Cheng frowned slightly: "You looked for me?"

"Hehe." He Wang said viciously, "I finally successfully published my article in the World Physics Journal three years ago. Even foreign experts praised my article! you."

"You just finished the experiment and came out of the laboratory. Facing the article I handed you, you took a look at it. It took less than... ten minutes, right? You returned the magazine to me Say 'it's ok' and walk away."

"It took me six years to complete that paper, and you denied my six years of hard work in ten minutes! I thought you would give me a favor after reading the magazine, at least give me a chance to enter your laboratory, but You are so arrogant, you can still send me away with one sentence."

Master Cheng seemed to recall what happened three years ago in his distorted resentment, and then looked at He Wang with strange eyes, as if there was an unspeakable secret.

Qiao Nian noticed that Master Cheng couldn't speak, so he just spoke for him.

"What you wrote is good, but it's all based on theory, without any possibility of practical operation."

"Why don't I have the possibility to actually operate it? I wrote the operation method on it, what do you know!" He Wang turned his head abruptly, and said sternly.

Qiao Nian let go of the hands around his chest, raised his eyelids slightly, and his narrow, dark eyes were so clear-headed.

"I have read your article, and all the experimental steps above are based on theoretical success before proceeding to the next step. You are also a member of the Nine Institutes, and you should have been exposed to practical operations..."

Chapter 3125 Bo Jingxing, how long do you plan to watch the excitement?

"No matter how precise the theory is, it is necessary to draw conclusions through practical operations, and the experimental process is often not so perfect, and no one can achieve 100% precision! And every step of yours requires 100% precision, and it is doomed to only It may be a grand vision, and perhaps the further improvement of technology in the future can realize the experiment of your idea, at least the current science and technology cannot realize your idea."

"Master Cheng didn't answer you directly, that's why he didn't want to hurt your self-confidence."

"As an elder and a forerunner, he hopes that you can go further on this road, but what you understand is that he looks down on you."

Qiao Nian's tone of voice was very steady, he didn't raise his voice to sharp accusations, nor did he sigh with regret.

She just analyzed the matter to He Wang on a case-by-case basis.

As for whether He Wang would listen or not, it was out of her consideration.

He Wang reacted greatly: "Impossible! Why doesn't he want to hit me! Who are you lying to? Do you think I'm only three years old? Do you think I'll be moved to tears because of your few words, kneel on the ground and follow me?" You confess your mistakes? You are dreaming!"

Qiao Nian raised her eyebrows, neither salty nor bland: "Oh."

He Wang punched the cotton, feeling the loss and pain of exhausting all his strength but not causing any harm to the opponent.

His uncomfortable face was ferocious, and he transferred the resentment of these years to Qiao Nian, unwilling to listen to the truth Qiao Nian said, and only wanted to accept the 'truth' he had accepted.

"You just grew up in a honey pot, and you have an unusual background?"

"You have had a good time since you were a child. Do you understand my pain from the first place in the province in the college entrance examination to being selected from the Hongzhi class, and entering the Ninth Institute with ideals but being ignored for nine years?"

"I'm afraid you are like those young masters in Beijing. You have everything since you were a child. What do you know about the pain of a person like me who wants to do an experiment but has no funds?"

Qiao Nian was not irritated by him, but said in a low voice: "I only rely on myself for what I want to do, and never expect others to sympathize with me."

He Wang was stimulated by her 'sympathy' and 'charity' to the point where he had little self-esteem left. He immediately looked at her beautiful face mockingly, and was about to spit out evil words.

"you..."

"Bo Jingxing, how long do you plan to watch the excitement?"

Ye Wangchuan walked up to the girl, stood side by side, and hooked the girl's shoulders. He still spoke in a spring-like tone, but the majesty of a superior was revealed in his laziness.

"I don't want to see Ms. Qiao ***** him off clearly." After being named, Bao Jingxing stood up with a smile and said.

"Oh." Ye Wangchuan glanced at him sideways: "Do you want to see the sunrise in Continent F?"

F continent's sunrise?

That place doesn't need money or strength, it's terrible!

Bo Jingxing's smile froze on his lips, and the next second he touched his earlobe, very sensible and did not talk nonsense and worked.

He called the guards from the No. 9 Institute, pointed to He Wang and said, "Privately, I have to find out who gave the contents copied from the USB flash drive to him. Take him down."

The guard looked cold and serious, and quickly controlled He Wang, without giving him a chance to struggle and fight back, he covered his mouth and dragged him away.

Only then did Bo Jingxing look around at the other people in the laboratory and said, "The Nine Institutes have always respected you, but there is one thing I want everyone to understand. Any data here is related to the honor of the country. I respect every scientific researcher. At the same time, as a deputy institute Chief, I must maintain the authority of the Nine Institutes."

Chapter 3126 He seems to be isolated

"Master Cheng's experiment is a first-class secret project, and I don't allow anyone to destroy the results of stealing from the Nine Institutes."

"It's not about respect!"

It is true that He Wang is from the Nine Institutes.

He has always respected those who dedicate their precious lives to scientific and technological research.

But people like He Wang who privately disclose secrets to outsiders because of their own dissatisfaction, disregarding everyone's efforts and the overall situation, such people are not worthy of respect.

Bo Jingxing made it clear to everyone how to deal with He Wang: "When I find out who is behind him, I will hand him over to the police and go through legal procedures to make him bear the consequences."

He explained the ins and outs of the matter, including what he considered, to everyone, and most other people in the laboratory could understand the results of this process.

Only Li Lei was hit hard this time.

Before he left, he walked up to Jiang Tianzhi, took a deep breath, and apologized to the other party: "Senior brother Jiang, I hope you don't take those **** things I said before. I'm sorry!"

Jiang Tianzhi was originally a northerner, with five big and three rough.

Although he is a meticulous worker in experiments, his personality in real life is still rough and straightforward like a northerner.

What Li Lei did before was too much, and he was indeed very angry.

At this moment, the other party stood in front of him and sincerely apologized to him.

Jiang Tianzhi suddenly felt that he was not so angry, so he reached out and patted Li Lei on the shoulder, and said, "Okay, the matter is over, and we will communicate more in the future."

Li Lei looked up at him, a little embarrassed: "What I said before..."

Jiang Tianzhi was nothing serious, and he admitted generously: "I don't like that kid Yu Wenhao, and I'm a little bit bitter. He's lucky. But everyone knows the nature of the Nine Institutes. It's normal for me to feel a little uncomfortable. I didn't think about it. I want to become the kind of person He Wang is."

He was so frank, Li Lei felt even more embarrassed, and this time he was more sincere: "I'm sorry, but I'm actually jealous of him, so that's why..."

Jiang Tianzhi didn't let him finish speaking, his tower-like height was a head taller than Li Lei, and his strong arms grabbed his shoulders and dragged him out.

"Let's go and go."

...

Soon only Master Cheng was left in the laboratory.

Li Lei and Jiang Tianzhi had a secret conversation before they left. They didn't want outsiders to hear it and cause unnecessary trouble to others, so their voices were not loud.

Yu Wenhao didn't hear the conversation between the two of them.

Ye Fanchuan heard something.

He glanced at the young man standing beside Master Cheng, recalled his previous performance, his pupils dimmed, and walked over: "Master Cheng, can we have a private chat?"

Master Cheng is discussing with Bao Jingxing about the next solution, and whether to make an internal announcement about He Wang.

Suddenly, I saw a handsome man walking in front of me and inviting me to go out and talk alone.

He thought there was something important, so he turned to Bao Jingxing and said, "Then I'll go out first."

"good."

Bo Jingxing cooperatively moved out of the way, with a very respectful attitude.

Master Cheng went out with Ye Wangchuan.

In the blink of an eye, there were only three people left in the laboratory.

Bo Jingxing ignored Yu Wenhao, turned to Qiao Nian and asked her why she was sure that He Wang was the ghost...

Yu Wenhao stood there alone at a loss, neither approaching nor leaving, but seemed to be isolated.

But this time he found it all by himself, he was too embarrassed to join Qiao Nian and Bao Jingxing again.

Chapter 3127 Delusion: Let me declare first, I am not protecting my shortcomings

Outside.

Ye Wangchuan went straight to the point: "Master Cheng, that Yu Wenhao is not suitable for key training."

Master Cheng was stunned for a full minute before regaining his senses, and looked up at him in surprise: "Didn't you say that Jiu Suo is looking at strength? Personal character is not the scope of Jiu Suo's consideration."

"I did say that." Ye Wangchuan said calmly, "Character is indeed not the standard for a person to be cultivated by the Ninth Institute, but if a person does not even have the basic ability to judge right from wrong, he is not worthy of our focus on training. "

Master Cheng squinted at him: "Are you doing it for... Qiao Nian?"

Yu Wenhao's two performances disappointed even his teacher, but Master Cheng still wanted to ask the reason.

"one of the reasons."

Ye Wangchuan had an elusive mist in his eyes, a rare admission of his own selfishness.

Master Cheng didn't expect him to admit it so frankly, he didn't wrinkle slightly, but didn't know how to answer: "You..."

Ye Wangchuan has performed very well since he took over the Institute at the age of 20. He is sophisticated and calm in situations, and abruptly leads the Institute to today's achievements step by step.

Even an elder like him has to admire his ability!

Master Cheng really never thought that he would also have a day when he would be so obsessed...

Ye Wangchuan still didn't know that he had been labeled as 'sexy, stupid', so he said unhurriedly: "Niannian is not the main reason, the main reason is what I told you... the Nine Institutes don't look at character Cultivate a person, but grandma doesn't want to spend a lot of time, energy and money to cultivate a talent who can't distinguish between right and wrong! I gave him a chance, but the results he showed disappointed me."

"I don't want a second He Wang to appear in the Jiusong Institute in the future..."

Master Cheng himself fell silent: "He Wang...I really didn't expect it to turn out like this."

Ye Wangchuan did not have his sensibility, and said bluntly: "I am a businessman, and I only look at the pros and cons. Yu Wenhao is not suitable for the key training of the Ninth Institute. Except for his personal talent, he is not up to standard in other aspects. At least he is not qualified here... "

He is the biggest person in power behind the Nine Institutes.

Master Cheng understands that Ye Wangchuan is willing to call himself out and explain so much to himself, which is already showing great respect for himself.

He recalled Yu Wenhao's performance in the past two days and couldn't speak for him: "...I will think about it again."

"Okay." Ye Wangchuan didn't force him.

Master Cheng actually agreed with his statement in his heart, but he didn't accept the result so quickly for the time being, so he raised his eyes and changed the subject: "By the way, when will you and Niannian return to Independent Island?"

Ye Wangchuan relaxed his shoulders: "Hurry up."

Master Cheng gave a 'hmm', with a smile in his eyes: "It's thanks to her this time, and it was also thanks to her last time... Hey, I, an old man, owe her a lot of favors before I know it."

"Remember to tell me before you leave, I will treat the girl to a meal in advance."

Master Cheng patted him on the back, and said very seriously: "And what Yu Wenhao said today, don't let her worry about it."

"She is not a stingy person." Ye Wangchuan's meaning was very clear, not to prevent Master Cheng from cultivating Yu Wenhao, after all, it is hard to find a good seedling.

It's just that Wen Hao himself didn't realize that he lost the opportunity to be trained by Master Cheng and Jiu Institute this time, and he may not go further than Jiang Tianzhi and others in the future.

Of course if he has outstanding strength.

Ye Wangchuan couldn't have thought about suppressing such a small role as him.

PS:

Master Wang: Let me declare first that I did not defend myself.

Master Cheng: ...I understand everything, don't explain.

Chapter 3128 He almost forgot Qiao Nian's age

So Yu Wenhao just lost the privilege and attention given to him by Master Cheng this time. How far he can go in the future depends on his own good fortune.

Master Cheng also understood this, so he asked Ye Wangchuan to apologize to Qiao Nian on his behalf.

"Anyway, he was the one I chose in the first place. I feel bad for Nian Nian being troubled by this behavior twice in a row."

Master Cheng looked at him full of apology: "You should convey the apology to her for me."

"good."

Ye Wangchuan saw that he persisted, and did not embarrass Master Cheng.

Master Cheng finally relaxed and said, "Let's go, we should go in."

**

Meanwhile, in the lab.

Bo Jingxing went to the side to answer the phone and came back, saying to Qiao Nian, "He Wang has fully explained."

Qiao Nian looked slightly surprised: "So fast?"

Bao Jingxing sneered as usual: "This kid is very cowardly. Not long after he was taken away, he couldn't hold on anymore, and his psychological defense collapsed. When the people under him asked him a little, he said everything. After he explained, he only asked one question That's how the institute plans to deal with him?"

Qiao Nian saw the sneering expression on Bao Jingxing's face, and lowered his eyelids slightly. These people are always like this, they don't think about the consequences before they do something, and they don't know the fear until they are arrested. It's a pity it's too late!

She was more concerned about this: "What does He Wang say?"

Bao Jingxing raised his eyes to look at her, and after a short consideration, he said in a straightforward manner: "He said that foreign forces contacted him and asked him to steal the secrets of the Nine Institutes very early. Put the money in."

"At the beginning, he just had a mentality of revenge. He felt that the Nine Institutes were sorry for him. Later, as the other party gave more and more money, he also began to steal some of the content requested by the other party. This includes the secret that Master Cheng has been studying for these years. Item - Tsar."

"He Wang said that when he copied the data from Master Cheng's computer into the USB flash drive, he also packaged and sent the data to an email address as requested by the other party."

Bao Jingxing was afraid even after thinking about it, rubbed his fingertips between his brows, and fortunately said to Qiao Nian: "Fortunately, this time you and Master Wang made two preparations early!"

"Otherwise the czar's data leaked out, I don't know what to do..."

Qiao Nian directly ignored his last sentence, but noticed the details. Her white and green fingers tapped on the marble table top of the laboratory table, her eyes narrowed: "...Give me a copy of that email address."

"What do you want that for?"

Bo Jingxing had just finished asking, when he looked up and saw the girl's fair and resolute face, he immediately continued, "I'll make a copy for you."

"Thanks." Qiao Nian didn't say much, took his mobile phone and prepared to leave.

Bo Jingxing was about to leave when he saw her, and immediately stopped her: "Miss Qiao, that He Wang..."

Qiao Nian stopped, but didn't look back, and said in a rather casual tone: "That's the business of your nine institutes, you can arrange it yourself."

Bo Jingxing was taken aback for a moment, and then realized that Qiao Nian was not from their nine institutes.

He himself looked at the back of the girl walking out of the laboratory without looking back, and he couldn't help shaking his head and smiling dumbly: "It's really... I can't help but rely on the habit."

Qiao Nian is too strong, and she handles things quickly and decisively. No wonder Qin Si always likes to ask her opinion when encountering things.

He didn't even consciously contract this problem!

Almost forgot that the other party was only a sophomore.

...

Qiao Nian happened to meet Master Cheng and Ye Wangchuan who came in together at the door.

Chapter 3129 Sister Nian sees through Lu Zhi's handwriting at a glance

Ye Wangchuan saw that she was going to leave, so he stopped: "Aren't you going to stay for a while?"

Qiao Nian tilted her head, "Aren't you going to eat at noon?"

Ye Wangchuan hit his forehead: "Sorry, I almost forgot that we had a lunch appointment with Uncle Jiang at noon."

"En." Qiao Nian didn't say anything, just looked at the time and reminded him: "It's almost twelve o'clock, we should go there."

Ye Wangchuan said goodbye to Master Cheng: "Then Master Cheng, I won't accompany you in the old age."

Master Cheng looked at the two of them with eyes full of smiles, and waved his hands in a warm spring breeze to urge them: "Go, go, I will go back by myself, and I will take care of you."

Ye Wangchuan went in first to get the car keys and mobile phone, saw that there was still a missed call from Jiang Zongjin ten minutes ago, walked out quickly, and said to the girl, "Let's go."

Outside.

Ye Wangchuan drove the car over first, and on the way to the parking lot, he hurriedly called his future father-in-law back, briefly explained the situation, and then said that he would rush over immediately and asked them to wait another twenty minutes.

Jiang Zongjin had a good relationship with him, but he wasn't angry because he was late. He just told him to drive slowly on the road and pay attention to safety, and other things were not important.

Ye Wangchuan hung up the phone with a warm heart, took off the Bluetooth headset of Cochlear, parked the car on the side of the road, rolled down the window and said to the waiting **** the side of the road: "Nian Nian, get in the car."

Qiao Nian opened the passenger car door and sat up, fastened her seat belt, and closed the door smoothly.

"Let's go." The man's voice was low and sweet.

"Um."

As soon as she sat down, the phone buzzed and vibrated.

Qiao Nian took out her mobile phone, glanced down, and saw that Bao Jingxing had sent the email to herself.

She squinted her eyes halfway, and it didn't take long to retrieve the registered IP address of this mailbox. It was indeed outside the country, but it was not in an illegal area, but in M state.

"Oh, it's interesting." Qiao Nian looked at the address found on his mobile phone, and couldn't help but chuckle in a low voice.

Ye Wangchuan was concentrating on driving, and didn't notice that she was playing with her mobile phone all the way until she spoke suddenly, and took time out of her busy schedule to look at her: "What's wrong?"

"Found something that surprised me."

There happened to be a traffic light ahead, they happened to run into a red light, the car stopped slowly, Qiao Nian handed him the phone to look at.

"He Wang confessed that he also copied a copy of the data on Master Cheng's computer and sent it to this mailbox. I checked the registration address of this mailbox, and it is in M State."

The red light at this intersection is only 20 seconds away.

In a blink of an eye, the green light turned on.

The car behind was honking desperately to urge them to hurry up.

Ye Wangchuan stepped on the gas pedal, and the car passed through the intersection. With his hands on the steering wheel, he couldn't see any emotional fluctuations, and he didn't seem to be angry at the sound of the horn just now.

"You don't think it's Lu Zhi?"

"No, this address doesn't mean anything." Qiao Nian took back the phone with deep eyes: "If this email was registered in an illegal area, I might suspect that he was framed. But it happened that M Zhou, very cleverly written by Lu Zhi."

Lu Zhi is a smart man.

He is not only a smart man but also a top businessman. What a businessman is best at is to maximize his own interests and confuse his opponents.

In these aspects, Lu Zhi has always been a leader.

Qiao Nian knew him well, and knew that from the early days of Tianchen to the present, many old foxes who had lived in the shopping mall couldn't play him.

Being played around by him, he didn't even know who his opponent was when he was annexed in the end.

Chapter 3130 Mr. Lu found out that Mr. Wang moved the data

Borrowing strength is one of Lu Zhi's favorite methods.

For example, the IP address found out this time is in M state.

He wanted Ye Wangchuan to be led by the IP address of this email to suspect the hidden family far away in Continent M.

The more Qiao Nian thought about it, the more irritable he became. He frowned and said, "Let's see first. As long as he doesn't mess around, I can pretend he didn't know."

Ye Wangchuan knew her relationship with Lu Zhi, nodded: "Yeah."

**

On the other side, in the suite of the State Guest Hotel on Chang'an Street.

Lu Zhi has already sent the received email to Tianchen's scientific research team for confirmation.

"Boss."

Jian Jin broke in from the outside at this time, looking anxious.

"The person we contacted has lost contact."

Lu Zhi raised his eyes, crossed his hands on the desk, and said unhurriedly: "Jiu is not a vegetarian, he should have been exposed."

When Jian Jin heard this, she became a little impatient: "Then what should we do?"

"What's the rush?" Lu Zhi disagreed: "There's nothing he can ask, and everything he knows is what I want him to know!"

He never met He Wang face to face, even if he asked He Wang to come to the hotel to look for him last time, Lu Zhi arranged for a substitute to convey his meaning through a high-tech headset.

So He Wang never saw him from the beginning to the end!

And He Wang didn't even know his identity and who he sold it to!

There are only two things that He Wang can explain, an overseas account and an email.

Both of these are traps he has arranged long ago.

Ye Wangchuan wanted to start with these two things, but he would only find out about the hidden family.

When he selected He Wang's chess piece, he had already planned to sacrifice this chess piece. He Wang's biggest role was to complete the work of stealing the Tsar's blueprint.

As for He Wang's fate, it was not in his consideration.

People are responsible for their own choices.

He never forced He Wang to do these things for him, it was He Wang who could not withstand the temptation of money.

"Just in case Qiao finds out." Jian Jin mentioned Qiao Nian's name at this moment, but she still felt uncomfortable: "Are we hiding it from her?"

Lu Zhi pushed the wheelchair and came out from behind the desk, his face was pale and tired but his handsome demeanor remained undiminished: "You want to tell her?"

Jian Jin took a deep look at him: "I think so."

She likes someone, but she doesn't want to betray her friend.

Lu Zhi was not angry. He looked away lightly and said, "When we get the Tsar's data, you can tell her if you want to tell her."

Jian Jin raised her head abruptly, wanting to say that she didn't mean that.

She clearly meant that they would not want the Tsar's blueprint otherwise, why did he insist on this thing?

Lu Zhi was talking to her when the computer beeped twice.

He looked back.

Then he operated the wheelchair back to the computer with his hands, and opened the email that Tianchen sent back to him.

—[Mr. Lu, this blueprint should be fake. A lot of the data on it has been tampered with. We tried to build a model with the content in the email. Every time we went a third of the way, the model destroyed itself. There is no way we can proceed to the next step!]

"Ye Wangchuan moved the data." After reading the content of the email, Lu Zhi tightened his mouth, and his eyes were rarely angry.

"What?" Jian Jin was extremely surprised.

Lu Zhi suppressed his anger: "He knew that I had planted people inside the Ninth Institute, and he has been standing still to lure me into the bait, just to catch the lurking ghost before our operation. He is smart enough to play me Round and round."
