

## Madam's 3421

Chapter 3421: Patriarch, isn't this too risky?

"In the Ji family, there is only one person who is truly qualified to lead the entire family—Qiao Nian. She is of an orthodox background and a true direct bloodline. In this regard, Ji Nan is not as good as her."

Xie Yun's eyelids twitched heavily, forcing herself not to get angry, she picked up the teacup and drank half a cup of tea, to suppress the anger in her heart a little.

But she still couldn't control her cold face.

She really didn't expect Ji Lingfeng to expose his scars for everyone to see for Qiao Nian to mention his life experience in public.

Who doesn't know that Emperor Ji was born as an illegitimate child!

It's just that in these years, no one dared to mention the word "illegitimate child" in front of him, but he himself mentioned it in public today!

Xie Yun took a deep breath, trying to calm down her chaotic heartbeat, but uncontrollably raised her eyes to look at the man sitting at the top.

Juyitang is completely blown up at the moment, everyone is discussing what he just said.

Only he sat in the center of the storm, as if preparing everything, just waiting for the final result in his way.

As for the process... Even if he is smashed to pieces, he is not afraid!

Xie Yun suddenly felt that she didn't understand this man.

In other words, they have lived together for decades, and she has never understood the man in front of her.

The Second Elder finally recovered from the shock, with complicated eyes: "The patriarch means...do you want Qiao Nian to be the successor?"

"No." Ji Lingfeng interrupted him: "That's not what I meant."

The second elder frowned: "That's..."

Ji Lingfeng brushed his palm across the table in front of him, even if he was seriously ill, sitting there was a deterrent!

In front of everyone, he stated the purpose of today: "I am not in good health, I am afraid I don't have the energy to train a successor by hand. So the purpose of calling everyone here today is to discuss with you and let her take over directly. Ji family."

"..."

His sentence is undoubtedly dropping a bomb in the flat ground.

Including the second elder and the fourth elder.

Everyone is fooled!

Before these people were still afraid of his presence, they basically lowered their voices and talked carefully.

At this moment, everyone was stunned, so that they couldn't control the volume of their voices so well when they were emotional.

"What?! Let a yellow-haired girl directly become our patriarch? This is inappropriate!"

"Yeah, what does she know? Can she manage Ji's family?"

"That's right! Even if she has something to do with the First Research Institute. But apart from her talent in weapon research, she has nothing to do with managing a big family! Is the patriarch crazy? How could he directly hand over the Ji family to a small family?" Girl."

He was in charge of the Ji family at the age of twenty.

This can be said to be unheard of in the Independent State, even appalling!

The Ji family suffered setbacks one after another because of Ji Ziyin's incident. During this period of time, their popularity in Independent Continent has declined a lot. Even the middle forces such as the Chamber of Commerce Alliance and the Hacker Alliance dare to stare at the Ji family for calculations... At this critical moment, there are wolves before and tigers behind. Ji Lingfeng suddenly proposed that it would be too risky for Qiao Nian to directly take over the Ji family.

At least a few elders disagreed.

The fifth elder's face sank, and the teacup in his hand was placed heavily on the table, denying this decision without thinking.

"No! This is against the rules. What's more, she is not a member of our family, and she hasn't even entered the genealogy. How can she bypass the many assessments and directly take over the family?"

Even the fourth elder pondered, frowned and looked at Ji Lingfeng and said, "Patriarch, is this too risky?"

Chapter 3422: Emperor Ji really wants to leave everything to Sister Nian

The hall master and others are not qualified to intervene in this level of conversation, but most of them are on the side of the elders, and they do not approve of Ji Lingfeng's decision.

Ji Lingfeng didn't care about these objections at all. Against the pressure, he leaned back, his eyes sharp and strong: "I've made up my mind!"

That is not negotiable!

The fifth elder didn't expect that he would change so much when he came back this time. He immediately slapped the table and stood up, shaking his hands and said: "In this case, the patriarch can make the decision alone. I'm not feeling well, so I'm leaving first."

Among the elders of Ji's family, he was the only one with a straight temper, so he turned around immediately and said he was about to leave.

The second elder and the fourth elder twitched their eyebrows, feeling that something was about to happen, and reflexively looked at the man sitting at the top.

Sure enough, Ji Lingfeng glanced at the door leisurely: "He Lin, please sit down, Fifth Elder."

"Yes, Patriarch."

The person who had been standing behind him as a shadow put his hand in his mouth and whistled. Dozens of men in black with weapons suddenly appeared at the door, pointing their guns at everyone in Juyi Hall.

In addition, there should be snipers arranged in the distance.

Long-range infrared light spots also appeared on the foreheads of several main elders and hall masters, all aimed at the temples.

As long as Ji Lingfeng gives an order, they all have to fold here!

He Lin walked up to the Fifth Elder at this time, bowed very politely and said, "Fifth Elder, please take a seat."

The Fifth Elder, who was pointed at by dozens of guns, froze for a short time, then returned to his seat with a sullen face, without saying a word, and pulled the chair with a 'Zi La' sound.

But these noises are not as shocking as the hands that suddenly appeared at the door.

Under everyone's panicked gaze, Ji Lingfeng crossed his hands on the table, still in that negotiable tone: "I called you here today to discuss this matter. Since the matter has not been discussed, even if anyone feels unwell Be patient for the time being, if you really can't bear it, I have arranged for a doctor next door to examine you on the spot."

Everyone present lost their temper.

Under the current situation, even if Ji Lingfeng said that he arranged funeral services for them next door, they would not be surprised.

Ji Lingfeng scanned the audience, extremely forceful: "Then... shall we continue discussing the topic just now?"

Someone quietly took out a mobile phone under the table, trying to get in touch with the outside world.

But these people immediately discovered that the only mobile phone they were allowed to bring in did not have a signal. Apart from the arrangement of these armed men, the patriarch should have cut off the signal outside.

The situation before them was already obvious.

Today, whether they want to or not, they have to sit here and discuss the matter raised by the patriarch to reach a result.

And there was only one result—Ji's family read to Qiao.

"Patriarch, is this how you become the patriarch?" The fifth elder had a dark face, and the elder said in a cold voice: "Even if you have a favorite candidate, at least everyone can discuss it. Our purpose is also for the family Well, it's not for outsiders."

These words are not insignificant.

Ji Lingfeng has been the head of the Ji family all these years, except for the matter of supporting Ji Ziyin, he is basically relatively gentle, treating these elders and seniors with respect for their opinions.

I am willing to ask them for their opinions when encountering some big things.

Ji Lingfeng's method this time was really beyond their expectations, which is why the fifth elder was so angry.

Chapter 3423: Ji's family is crazy

He thought that Ji Lingfeng would think about it anyway.

Who knows, just looked at Ji Lingfeng's indifferent eyes, and a soft voice came from his ear: "Don't you know? Ji's family is always crazy."

\*\*

"How's it going? Did you get the message?"

"What, disconnected?"

"Why can't I get in touch?"

...

People outside the Independent Continent who were paying close attention to this internal meeting of Ji's family all found that all the eyeliners they had finally found were disconnected.

Ji's house is like an iron bucket, not even a drop of water can seep into it.

This situation undoubtedly makes those who are ready to find out Ji Lingfeng's physical condition extremely anxious.

Even Simon of the Chamber of Commerce Alliance, who has always been calm, couldn't help his eyes covered with a layer of haze. He turned back and said, "What's going on with Ji's family?! What does he want to do? If he just doesn't want people outside Knowing his physical condition, he can simply not show up as before. Why did he block the news after showing up, he can't keep detaining the elders of the family and won't let him go?"

They are cooperating with the second elder of the Ji family this time.

In fact, it's not considered cooperation, it's just friendship in private.

The Second Elder promised to reveal some news to them. In return, the Chamber of Commerce Alliance will naturally stand on the Second Elder's side.

Simon thought that he could get first-hand information this time, but who knew that even the highly respected second elder of the Ji family lost contact.

He is so irritable, he really can't figure out what Ji Lingfeng wants to do.

There's always someone in his office.

The man was sitting on the sofa with his back to him, and there was a cup of afternoon tea in front of him. The elegant ceramic cup contained black tea, which was very elegant.

Compared to the others who were pacing anxiously there, that person was extremely calm from beginning to end.

"Ji Lingfeng is not an easy person to mess with."

He came to a conclusion leisurely, and Simon suddenly walked up to him: "What do you mean?"

"Jihuang didn't call for nothing." The man smiled, still with the previous attitude: "Since he blocked the news, it means that either he is taking the opportunity to clean up the restless little fish and shrimps in Ji's house recently, or it is... more serious than this. important things."

"Is there something more important than cleaning up the inside of Ji's house? What is it?" Simon didn't quite understand.

The biggest problem of the Ji family now is not that the people below are beginning to disobey and each have their own ideas.

Of course this is a good thing for foreign forces like them.

At least if the Ji family is not united, they can take the opportunity to reap some benefits, and weaken the strength of the Ji family, so they have a chance to rise.

"Just wait and see." The man said something.

Simon stared at him fiercely for a while, but he didn't let go of what was going on, probably because he really didn't know.

Simon had no choice but to pull his tie, and moved his eyes impatiently.

"Just wait."

\*\*

Beijing City.

In the blink of an eye, it was the day of Zhou Zheng's final trial.

Because Mr. Ye had already greeted him, the trial went smoothly, and there were no reporters outside to disturb him.

Zhou Zheng's final judgment came out, and it was still the original judgment, 20 years.

Qiao Nian watched him being escorted onto the transfer vehicle and transferred to the prison.

In order to prevent accidents on the road, Ye Wangchuan also asked Gu San to watch over the prison the whole time, until it was confirmed that Zhou Zheng would be taken into prison.

Gu Sancai came back from Beijing Prison, and brought back the news that Zhou Zheng had been imprisoned.

Qiao Nian has been absent-minded since she came back from watching the trial in the morning, and she just said 'huh' when she heard the words, holding the phone in her hand all the time, her eyes lowered, not knowing what she was thinking.

Chapter 3424 Sister Nian is used to handing her back to Master Wang

Ye Wangchuan came over at this moment: "What are you thinking?"

Qiao Nian crossed his legs slightly, playing with the lighter in his hand, as if upset: "What time is our flight?"

"Three o'clock in the afternoon." Ye Wangchuan sat down beside her and handed her water: "Are you worried about Independent Island..."

Qiao Nian took the water from his hand with downcast eyes, without denying it: "There has been no news from Ji's family since yesterday, and it is said that Ji Lingfeng has not let anyone go until now. Start wandering outside the old house, and sooner or later you will rush in."

Ji Lingfeng used to be one-sided in the Ji family, and almost no one dared to oppose him.

But now it is different.

Ji Lingfeng was seriously injured and disappeared for more than half a year, and his physical condition was still unclear.

Under this situation, many people have crooked thoughts and always want to give it a go. Some of the stronger ones are not so obedient to the family.

It can be said that the current situation is not so optimistic for Ji Lingfeng and even the whole Ji family.

"Where's Ji Nan?" Seeing that she hadn't drunk from the glass, Ye Wangchuan rolled up her sleeves and asked, under the smooth black cuff buttons, the phalanges were slender, and the nails were neatly trimmed, shiny and beautiful.

Qiao Nian followed his hand to look more, then looked up, and met his pair of deep black eyes, in addition to the depth like the vast starry sky, there was also something reassuring.

She was suddenly less irritable.

Qiao Nian shook off the lid of the lighter, clicked it, and pursed his lips: "He can't get in either."

"Ji's house has been tightly sealed by Ji Lingfeng's people. If people outside want to get in, they can only force their way in! Even Ji Nan can't get in."

This is what makes her feel wrong the most.

It's fine if outsiders can't get in.

Ji Nan couldn't get in for no reason.

But the fact is that Ji Lingfeng even blocked Ji Nan from going in, so she had to think deeply about what was going on inside.

Qiao Nian has always been a person who doesn't like to be entangled.

Thinking of this, she simply slapped the lighter on the table, and raised her eyes to meet the man's constricted eyes: "Advance the flight time, I'll leave right away."

There are no flights from Beijing to Independence Island.

They needed to use the Ye family's plane in the past.

Private airlines need to communicate with the control tower in advance about the route, weather, etc. It is not so simple to fly.

Ye Wangchuan didn't say much, got up and picked up his mobile phone, and said, "Wait for me here, I'll go and confirm the time."

"Yeah." Qiao Nian raised his hand and pulled off his peaked cap. He wanted to say thank you, but when he got to the point of speaking, he felt that it would be too unfamiliar for them to talk about it.

She didn't say anything.

Ye Wangchuan watched her lips move, but he didn't say thank you to him. The corners of his mouth curled up, and he was in a good mood. He reached out and touched the girl's peaked cap: "Don't worry, I'll let them as soon as possible."

Qiao Nian is not used to being touched on the top of her head. The main reason is that this action is not suitable for her, and it always makes her feel a strange sense of resistance.

However, Ye Wangchuan's big hand landed on the top of her head and rubbed it lightly, she didn't feel too disgusted, as if she was used to the breath of him around.

This habit seemed ridiculous to her before, but now she doesn't feel it anymore, as if she feels relieved to leave her back to him.

\*

Half an hour later.

Qiao Nian and his party appeared at the terminal of Beijing International Airport.

Master Cheng still needs people.

Gu San did not follow this time.

Qin Si, as an idler with nothing to do, was arranged by Gu San to accompany him. Besides Qin Si, Bao Jingxing also accompanied him.

Chapter 3425 Departure to Independent Continent

But Bo Jingxing mainly went to Independence Island to deal with a matter related to the Nine Institutes, so he happened to catch the plane with the wind.

Qiao Nian walked in a hurry this time.

When Mr. Ye and the others received the news, she had already arrived at the airport.

Mr. Ye rushed over at this time and couldn't make it to the airport, so he had to call her and tell her to be careful in everything, take care of herself and so on.

Qiao Nian has always been impatient, but when facing elders who care about her, she is always more tolerant than ordinary people.

"Ok, I know."

"good."

"Well, I'll send you a message."

"Okay, don't worry."

Qin Si swayed left and right next to Ye Wangchuan, seeing the girl in front of him answering the phone, couldn't help muttering beside Ye Wangchuan.

"Sister Qiao is also obedient at this time. Lord Wang, when do you think you can get the treatment of your old man? It seems that every time you call Sister Qiao, she doesn't have the patience."

Ye Wangchuan was pulling a 20-inch suitcase, paused slightly, and cast a sideways glance at him: "Very free?"

Obviously just a random question.

Qin Si touched the back of his neck and immediately avoided: "I'll go ahead to buy water."

Bo Jingxing came over at this moment, and said with a smile, "What are you scaring him for?"

"Well, I got poked in a sore spot." He answered quite directly.

Bo Jingxing squinted at him.

Ye Wangchuan put on a long autumn single windbreaker, casually put on jeans and riding boots, the zipper was pulled to the top, revealing a beautiful neck.

He is 1.85 meters tall. This figure looks good in a sack, not to mention a windbreaker + riding boots.

He seldom tried this style before, but wearing it today not only looks a little more restrained and majestic, but also looks much younger.

At least it looks like a couple's outfit with the black sweater Qiao Nian is wearing.

Bo Jingxing is an old fox, he didn't hide the joke in his eyes, he patted him on the shoulder with his hand: "Master Wang, don't accept old age."

"Hehe." Ye Wangchuan squeezed the hand on his shoulder with two fingers, and smiled: "You also want to go to F continent to accompany Moxi to mine?"

Bo Jingxing was scalded as expected, he did the same movement as Qin Si, touched the back of his neck which was chilling, and walked away quickly: "I'll go and see why Qin Si hasn't come here yet."

\*

Qiao Nian had already finished making the phone call, just in time to see Bao Jingxing walking away in a hurry.

She slowed down and walked side by side with the people behind: "Where did they go?"

Ye Wangchuan raised his thin lips: "Tummy trouble."

"Um?"

Two people having stomach problems at the same time?

Qiao Nian hadn't recovered from Qin Si's and Bao Jingxing's collective upset when she heard someone asking her, "What did the old man say?"

She regained her senses, raised her hand and pulled down the zipper of the collar of the sweater, and said casually: "It's nothing, just let me take care of myself and tell him if I have something to say."

Ye Wangchuan said: "Don't pay attention to him, he just likes to chatter."

Qiao Nian looked at him instead, paused, and said with a good temper: "I think it's pretty good."

Ye Wangchuan fixedly looked at the corners of her slightly raised mouth, the warm smile in her dark eyes was not fake, it was completely different from her usual surly, rebellious and rebellious smile.

He couldn't help but stop.

Qiao Nian's smile just flashed by, and didn't stay on the corner of his lips all the time, as if he was not used to being stared at like this.

She pulled up the collar of the sweater, rubbed her face, and strode forward: "Let's go, we are in a hurry."

Chapter 3426 Well, then I will fulfill you

Forty minutes later.

A plane departs from Beijing and flies into the sky.

Go to Independence Island.

The plane slowly disappeared in the clouds, only the traces of birds flying across the sky...

\*\*

Ji's family.

After a night of confrontation.

Most of the people in Juyi Hall could barely hold on. They looked extremely tired after not sleeping all night, and several of them had thick dark circles under their eyes.

But this matter involves the candidate for the future patriarch, the second elder and the others are unwilling to compromise like this, even if they are sleepy and tired, they have no intention of letting go and signing the document given by Ji Lingfeng.

Compared to the second elder, he just didn't sign.

The fifth elder was even more obvious, and he didn't look good all night.

The two sides have been so stalemate.

They didn't sleep.

Ji Lingfeng also stayed up all night, so he stayed here with them.

Time passed by one minute and one second.

Ji Lingfeng's mature and steady face didn't show a trace of fatigue, as if he was the only one here who wasn't tired.

"How about it, have you thought about it?"

Several hall masters who are loyal to Ji Lingfeng and Ji's direct lineage have already signed their names and stamped their fingerprints on the document.

These people were taken by He Lin to settle next door.

Although I can't leave right away, at least I can get a room to rest, so I don't have to continue staring at Juyi Hall.

The other people were not so lucky, they could only sit here, and Ji Lingfeng hadn't prepared a meal or a sip of water for them since noon yesterday.

Everyone is just sitting here.

The older elders were already hungry, their eyes were dim, and they were reluctant to bow their heads.

The Fifth Elder is one of them.

He has a strong personality and would rather bend than bend. He is very dissatisfied with Ji Lingfeng's tough way of forcing them to agree.

So when Ji Lingfeng asked them again, he snorted coldly and said: "Since the patriarch is targeting us with snipers, why didn't he just order to shoot. This way we don't need our consent, you can make the decision alone! "

As soon as he said this.

The second elder who was sitting not far from him yelled inwardly.

Sure enough.

Ji Lingfeng didn't have the slightest emotion on his face, his deep pupils were calm, and he turned to look at him: "You think so?"

The Fifth Elder didn't realize that the danger was approaching, so he still confronted him with a cold face and said unceremoniously: "Did I say something wrong?"

"You are right." Ji Lingfeng nodded, as if he had communicated with him, raised his hand and called He Lin: "Five elders."

What he said was as simple as eating and drinking.

All the people present changed their faces.

The Fifth Elder himself stared wide-eyed in disbelief, his nose twitched, and he patted the table to stand up, his face livid.

"you!"

The others rushed to put out the fire.

"Okay, okay, fifth elder, don't make trouble with the patriarch."

"That's right, please don't say a few words."

"Fifth elder, the patriarch is joking with you. Sit down quickly."

People who were also in Juyitang talked about persuasion.

They knew in their hearts that they were not only trying to persuade the Fifth Elder not to commit suicide, but also because they were afraid that the Fifth Elder's behavior would completely anger Ji Lingfeng and intensify the immediate conflict.

"Who told you that I was joking?" After all, Ji Lingfeng is a man who has been the head of the Ji family for decades, and he will never be led by the nose.

When everyone was trying to persuade the Fifth Elder not to be a demon, his cold words were like a slap in the face of everyone.

The faces of the Second Elder and the Fourth Elder were not very good-looking.

Chapter 3427 Uncle is crazy

Ji Lingfeng didn't look at them, his eyelids lowered, and his tone was low: "He Lin, do you want me to say it a second time?!"

He Lin closed his eyes, knowing that the patriarch had made up his mind, he no longer hesitated, and made a downward gesture to the people outside.

"Hmph!" The Fifth Elder didn't take it seriously when Ji Lingfeng threatened him, and didn't even hide, letting the red high-beam ray aim at his brain.

He even pointed at his temple, and angrily challenged Ji Lingfeng: "If the patriarch wants to fight, let them come here, don't attack your hands and feet! I am an old bone, from the old patriarch to now, I am afraid of everything, I am not afraid die!"

"good."

Ji Lingfeng had just finished speaking.

Only the dull sound of a silenced gun was heard.

A small red flower bloomed from the fifth elder's temple, and he collapsed backwards in disbelief.

It all happened so fast.

Not even any warning.

Most people still hold that Ji Lingfeng wants to intimidate them, at most they will shoot at the Fifth Elder as a warning, and they won't really have a fatal mentality.

The warm blood splashed on the faces and bodies of the people around him, and these people suddenly came back to their senses, and all looked at the man sitting in the first place in shock.

Ji Lingfeng still maintained the sitting posture of yesterday, with no change in the expression on his face, and said to them very coldly: "My time is limited."

The second elder watched helplessly as the person he had worked with for decades fell in front of him. He couldn't recover for a long time, shaking from his shoulders to his fingertips. He looked at Ji Lingfeng in disbelief and said, "Patriarch, are you crazy?! You Do this. Ji's family will be seriously injured, and then it will not be in Independent Continent..."

The Ji family has grown from Ji Wu Falcon, and has been the only one in Independent Continent for so long, surpassing any force in Independent Continent.

So every patriarch of the Ji family is called Ji Huang.

What is 'Emperor'.

is the emperor of Independent Continent.

Ji Lingfeng wants Qiao Nian to inherit the family even at the expense of weakening the Ji family, he is really crazy! Totally insane!

"I can't give her a complete Ji's house, but a clean Ji's house is fine."

"..."

The second elder inhaled the cold air, from his throat to his heart and lungs, his fingertips were still shaking, except for the initial incredible shock. At this moment, he calmed down a little, and the words Ji Lingfeng said, "Ji's family originally Just crazy'.

He suddenly thought of the old patriarch.

The old patriarch is also this kind of person. He just obeys his own will in doing things, and never pays attention to rules and ethics.

The direct descendants of the Ji family... are indeed lunatics.

The blood of the Ji family's direct lineage is full of crazy blood.

Ji Lingfeng didn't give them too much time to think about it. His eagle eyes looked around everyone's faces and passed over everyone with a very peaceful tone.

"who is the next?"

"..."

To say that these hall masters and elders still wanted to spend time with him before, but now no one dares to have this kind of thought anymore. It seems that an invisible knife is hanging above everyone's head, and they don't know when the knife above their heads will fall. , Let them lie on the ground like the five elders.

"Patriarch..." A hall master couldn't stand the atmosphere, raised his hand tremblingly, and swallowed under everyone's gaze: "I sign."

Ji Lingfeng winked.

He Lin immediately sent the pen and ink pad and placed them in front of the man.

The man quickly signed and stamped his fingerprints, and He Lin led him to the next room to rest.

Ji Lingfeng ignored them, and looked at the other people in Juyi Hall again.

"What about you? Do you want me to roll your names one by one?"

Chapter 3428 Xie Yun: I have no objection

Juyi Hall was dead silent.

No one dared to say anything.

Who the \*\*\*\* dares to go against Ji Lingfeng!

The second elder, the fourth elder, and the rest of the hall masters who did not sign the hall saw two men in black coming in outside, and dragged the fifth elder out directly, leaving a wide and long bloodstain on the ground.

They were terrified just looking at it.

Ji Lingfeng spoke again at this moment: "My patience is limited."

Simple sentence.

The eyelids of everyone in Juyi Hall jumped, purely frightened.

Fortunately, the second elder had seen the world, so he calmed down in a short time, and stood up to meet Ji Lingfeng's murderous gaze: "Patriarch, can we have some time to discuss?"

Ji Lingfeng half-closed his eyes, neither agreeing nor disagreeing.

The second elder remained calm under his genuine gaze, and said with reason: "We didn't intend to agree to Qiao Nian taking over Ji's family before, but now that we want to consider it, you should at least give us some time to discuss it seriously. Is it possible?"

Ji Lingfeng was still not moved: "Time is limited, Second Elder."

The second elder knew that it would not be so easy to persuade him, so he threw out his trump card, looked at him and said earnestly: "Patriarch, you don't want to read Qiao an incomplete Ji family! We only need a little time to discuss..."

Ji Lingfeng's hawk-like gaze scanned his face.

The second elder stood there motionless, fearing that if he made a mistake in a small detail, he would end up like the fifth elder.

Fortunately, his last sentence really moved Ji Lingfeng.

Ji Lingfeng looked away when he was almost unable to bear it, and stood up: "I'll give you an hour."

One hour...

The knives hanging above everyone's heads couldn't fall down temporarily, and everyone secretly breathed a sigh of relief.

Ji Lingfeng stayed with them all night + one morning, his complexion was extremely bad, and there was no blood from his face to his lips.

He was rather stiff, without showing the slightest discomfort.

Just when it was time to take the medicine, I told the people staying in Juyi Hall: "I'll come back in an hour, I hope you will think about it by then."

Everyone is thankful that Ji Lingfeng is willing to give this hour of breathing time.

Only Xie Yun looked in his direction unobtrusively, saw his frown frowning in pain, and silently looked away.

...

Ji Lingfeng went out.

The strong sense of compulsion that had been hanging above the Juyi Hall finally disappeared.

The second elder seized the time and immediately looked at the only person who could change the status quo: "Madam, the patriarch wants to hand over the Ji family to Qiao Nian. What do you think?"

He is a smart man, and he knows how to find Xie Yun.

After all, according to the rules, the Ji family should be handed over to Ji Lingfeng's only son Ji Nan to inherit in the future. Ji Lingfeng suddenly wanted to give the entire Ji family to Qiao Nian, which undoubtedly touched Ji Nan's cake.

With Xie Yun's skill, it is impossible to agree easily.

As long as Xie Yun is willing to come forward to help them delay time, with Xie Yun and Ji Lingfeng's husband and wife friendship for decades, it is absolutely impossible for the patriarch to "deal with" as he did with the fifth elder.

His purpose is to drag.

Drag until the people who stayed outside can't wait to break in, so the situation can be reversed in two levels! They can also hold the initiative.

The second elder's face was tense and his tone was anxious.

Xie Yun sat in her seat, drank a cup of tea in a leisurely manner, and answered unexpectedly, "I have no objection."

The second elder was taken aback, he was dumbfounded.

Xie Yun doesn't object, doesn't that mean he agrees?

Chapter 3429 The situation is not optimistic

She agreed with Ji Lingfeng to leave everything in the Ji family to Qiao Nian?

The second elder opened his mouth, looked at the graceful lady in front of him, and couldn't make a sound for a long time. This is too ridiculous!

Xie Yun is Ji Nan's only seedling, didn't she fight for her son?

But no matter what he tried to persuade, Xie Yun remained indifferent, as if she knew what Ji Lingfeng wanted to do from the very beginning, and stood on the same line with Ji Lingfeng.

The second elder persuaded him until he was powerless, so he simply gave up on her and could only go to a few other elders to discuss it.

Xie Yun has a special status.

Except for a few elders of Juyi Hall, the rest of the head of the hall did not dare to join her. Everyone was discussing ways, but they pushed her out.

Xie Yun didn't care about being isolated, she looked in the direction Ji Lingfeng had just left, rubbed her fingertips against the rim of the cup, and sighed.

She had consulted Mr. Zhong about the medicine before, and counting the time, he should have gone to take the medicine.

The medicine...

Xie Yun gritted her teeth and forced herself not to think about it.

\*

An hour flies by.

Everyone in Juyi Hall thought that Ji Lingfeng would come back on time, and continued the topic just now and asked them to sign.

They still haven't made up their minds to sign, so they are uneasy, for fear that that murderous man will appear at the door again.

However, half an hour passed.

There is still no sign of Ji Lingfeng at the door.

Juyi Hall also changed from deathly quiet to noisy.

"Didn't you say an hour? Why hasn't the patriarch come here yet?"

"I don't know, is there something wrong with my birth?"

"Outside..."

Someone lowered his voice and mentioned the words outside.

Xie Yun didn't even bother to lift her eyelids, but her heart was in a mess, and she was worried that He Lin would not come over and take her to find someone.

She has been with this man for decades, and she knows very well how dangerous this time is.

Ji Lingfeng used the excuse of a meeting to call these people to the old house, if he failed to convince these people this time as planned.

Then when these people are freed, it is very likely to bite back.

The Ji family may not only be able to be the master of the direct line. Are there fewer stories that have replaced it in the long river of time?

If these people find that Ji Lingfeng's body has reached its limit, they will definitely procrastinate at all costs until Ji Lingfeng runs out of energy and lights die.

At that time... No one can say what the Ji family will look like!

Xie Yun completely ignored the voices of discussion in Juyi Hall, her face turned pale, and she clenched her hands fiercely, the veins on the back of her hands were bulging.

No one noticed her at first.

But the second elder is a careful person.

He saw that Ji Lingfeng hadn't appeared for a long time, and felt that something was wrong, and when he thought of Xie Yun, he subconsciously looked this way.

At a glance, Xie Yun's hand clenched into a fist unconsciously.

He twitched his eyebrows, as if he had guessed something, and immediately moved his eyes away, pursed his lips tightly, and had a vague guess in his heart.

\*\*

The outside of the old house is also imminent.

The people brought by several halls haven't seen their hall master come out for a long time, and they have lost their composure.

The person from the third entrance in the south stood up first, glanced at the other entrances, and said with a straight face: "Our hall master has not come out for a day and a night, who wants to go in with me?"

"Isn't that bad?" People in the northern hall are still more afraid of their own family, and dare not break into the old house at will.

The bearded man who spoke first did not have so many taboos, and said coldly: "Hmph! You don't dare, we can't control that much."

Chapter 3430 Come, who shoots at me

"We are all brothers who have gone through life and death. The hall master has helped me many times. I don't care who the patriarch of the Ji family is, I only recognize our hall master! The hall master has been in for so long and hasn't come out. Anyone with eyes knows that something is wrong. Son, I have to go in to check and confirm the safety of the hall master even if I try my best today."

The halls in the north are mainly branches of the Ji family, which are more traditional and have more rules for promotion.

South halls are not so particular. Everyone eats according to their ability, and whoever is good will climb up.

This also led to Nanfang Tangkou's ability to handle affairs and high efficiency, but these people are not so loyal and more self-arrogant.

If nothing happened to Ji Lingfeng before, these people would never dare to be presumptuous.

But Ji Lingfeng disappeared for half a year because of an accident, and several elders helped to deal with family affairs with unjustified names, and each had their own little calculations. As a result, several lobby entrances in the south have long been less obedient, and they are gradually getting out of Ji's control.

This is also the first person from the southern hall to stand up and say that he will forcefully break into the old house.

Just when the others were silent and secretly thinking.

A royal blue sports car whistled through the crowd and stopped outside the old house, with the windows down, revealing a handsome and young face.

Not Ji Nan who?

He took off the car keys and got out of the car.

He came alone, his aura was not weak, he glanced at the people at the entrances of the lobby, twitched the corners of his mouth, and looked coldly: "Everyone, what are you trying to do?"

The audience was silent.

The man who was yelling to break in to make sure his boss was safe was also dazed. He didn't expect that Ji Nan would run over at this juncture, and even blocked the gate with a car.

"Nan Shao."

Ji Nan wrapped his fingers around the keychain, and without talking nonsense with them, he leaned against the car: "You can go in if you want."

He made a shooting gesture with one hand to his head: "Come on, whoever shoots at me, you can go in."

Several principal persons in charge looked at each other in blank dismay, all frightened.

Who the \*\*\*\* would dare!

Ji Nan is Ji Lingfeng's only son.

Whoever fired this shot meant that he would face crazy revenge from Ji Lingfeng and Xie Yun in the future.

They wanted to break in to find out the situation.

It doesn't mean they want to report to Lord Yan.

The man froze for a moment, his face twitched, and he put on a smile that was uglier than crying: "Young Master Nan, aren't you embarrassing us?"

"Don't dare?" Ji Nan looked directly at him.

"..." The man's expression changed, he was a little annoyed and didn't dare to do anything, the corners of his mouth pulled down and he couldn't smile anymore.

Ji Nan looked like Qiao Nian when he got angry, he didn't want to quarrel with him, he looked away calmly, and stopped looking at anyone: "Then wait here with me!"

Independence Island was windy at the end of September, and the weather was not that good.

At least yesterday was cloudless, but today it looks like it's going to rain. In this kind of weather where the clouds are extremely low, people will always be inexplicably irritable, especially at this moment.

Several people at the hall looked at Ji Nan who was standing in front of them, feeling panicked, angry and annoyed, but at the moment, no one could think of a way out.

Ji Nan just pretended not to see the vicious eyes of these people.

He knew very well in his heart that even if he got in the way, he wouldn't be able to drag it out for long.

These people won't stop going in because of him.

The longer the time, the more suspicious they become, and the stronger their desire to break in.

But he can only gamble!

Bet your life!

Bet that I can drag it inside and the dust settles.
