

Madam's 3471

Chapter 3471 Sister Nian's aura is fully open

The Second Elder and the others were originally prepared to compromise, but then they heard a noise outside, and then knew that someone had been sent to the hospital.

A few old foxes changed their attitude.

When He Lin went to them again after dealing with the sealing matter, the second elders and the others changed their ashen expressions and insisted that there was a misunderstanding.

But Ji Lingfeng is still in the operating room of the hospital.

Of course He Lin couldn't let them explain to Ji Lingfeng face to face.

In this way, the scene reached a deadlock.

Second elders and the others were not in a hurry, sitting on the red sandalwood chair in Juyi hall, drinking tea while urging He Lin to report to Ji Lingfeng.

He Linming knew that these people were deliberately making things difficult, and it was very likely that he had already found that the patriarch was unwell and went to the hospital, but there was nothing he could do about them.

After a brief stalemate.

He Lin is preparing to move out of the family rules and force these elders to face up to the betrayal of Santangkou's alliance with outsiders.

Just at this time.

Someone trotted in from outside and whispered in his ear about Qiao Nian and Ji Nan's coming.

"What?" He Lin was surprised and delighted, and seeing the Second Elder and the others suddenly became more confident: "I'll go to the door right away."

As he spoke, he left everyone in the room and ran out.

The Second Elder vaguely felt that things might be developing in a direction he was unwilling to face.

Someone already said it first: "Who is coming? Could it be the patriarch? The patriarch is back from the hospital?"

"Not the Patriarch."

The second elder hasn't figured it out yet, but he knows in his heart that Ji Lingfeng's actions all show that he is seriously ill, and it is unlikely to be Ji Lingfeng.

"That is?"

Everyone is looking at him.

The Second Elder collected himself, frowned, and said with uncertainty, "Maybe it's Nan Shao."

"oh."

The elders calmed down. The contempt on the corners of their eyes and brows showed that these old foxes didn't take Ji Nan seriously at all.

It is true that Ji Nan has not formally followed Ji Lingfeng to intervene in family affairs in recent years. It is obviously absurd to want to take over Ji's family and suppress them temporarily.

Even if Xie Yun was included, they might not pay attention.

There was only one person they were afraid of from the beginning to the end—Ji Lingfeng.

It is also the direct line of the Ji family.

However, just when several people thought it was Ji Nan who came, there were messy footsteps outside, and it sounded like there was more than one person.

The Second Elder and the others held their breaths and waited for Ji Nan to appear.

Among the few people who came into view was Ji Nan, who was indeed followed by He Lin who just left them and ran out.

But these are not the point.

Who can tell them why - Qiao Nian is here? !

Second Elder's physical instinct drove him to stand up from his seat. Before Qiao Nian could speak, he lost half his momentum.

"you..."

The girl brushed past him, walked straight to the place where Ji Lingfeng often sat, and sat down, her idle demeanor remained the same, but her eyes were as sharp as knives on him.

"I heard that the second elder wants to guarantee those people in the third hall?"

The muscles on the face of the second elder tensed, and he subconsciously opened his mouth to argue: "We don't have enough evidence to prove that those people betrayed the family..."

Qiao Nian was too lazy to talk nonsense with him, so he threw the lighter in his hand on the table and made a thud, and looked up at him: "What guarantee are you going to take, with your mouth?"

The Second Elder was rendered speechless by her aggressive manner, so he could only bite the bullet and answer: "How do you want me to guarantee?"

Chapter 3472 Sister Nian: Then pay a deposit first

Qiao Nian didn't talk nonsense and called people: "He Lin, do you have a knife on you?"

"have."

Qiao Nian's aura was too strong at the moment, He Lin subconsciously took out a self-defense knife from his waist and put it on the table, and stepped aside consciously.

Qiao Nian leaned back and raised her eyes to signal the second elder and the others who were stubborn with her, and said concisely: "Then chop off a finger as a deposit first."

"What?"

"She wants us to chop hands?"

"Did I hear wrong?"

There was a lot of noise in the hall of Juyi Hall, the Second Elder only felt his ears buzzing, and his brain seemed to be boiling in boiling water.

He stood in front of the table and looked at the knife thrown on the table in disbelief.

The blade of He Lin's self-defense knife is extremely sharp, as long as he picks it up with a little force, he can cut off his little finger.

But how could he possibly cut off his finger?

The second elder tried his best to calm down, but his tight fingertips revealed his inner anxiety: "Miss Qiao, are you kidding me?"

Qiao Nian met him with dark and deep eyes, silent and indifferent: "Then are you kidding me?"

The second elder was vaguely oppressed by her momentum and did not speak.

The other elders were not so polite.

"Why do you let the second elder chop your hand to guarantee? You are not counted as Ji's family, this is an internal matter of our family, and it is not up to outsiders to intervene!"

"That's right. A yellow-haired girl who has not even grown hair is here to teach us how to do things."

"We want to see the Patriarch!"

Qiao Nian heard the bluffing voice in his ear, and couldn't help but think of the red lights in the emergency room of the hospital that hadn't dimmed.

Ji Lingfeng is still in the rescue.

They do have the energy to jump up and down here.

Qiao Nian didn't know why, but a surly look appeared in Qiao Nian's eyes, and the anger that he had restrained originally burst into flames.

She picked out her disturbed ear, glanced at the elder who made the most noise, and said in a negotiable tone, "Why don't you chop hands for the second elder?"

The elder who was aggrieved and yelled to see Ji Lingfeng was dumbfounded. He didn't know how the fire burned him, so he said a few words: "Why should I listen to you. What are you?"

"You're asking the right question." Qiao Nian went straight up, and looked at him with gloomy eyebrows: "Is the identity of the direct line of the Ji family enough?"

Everyone in the room fell silent.

Jinan opened his mouth, but stopped talking.

He Lin was a little agitated, clenched his fists tightly, and the corners of his eyes were red, but he held it back.

The second elder and the others looked at her with surprise on their faces, as if they didn't expect the girl to admit the blood and identity flowing on her body.

After a brief silence, they muttered again: "You have the blood of the direct line, but you didn't want to come back at the beginning. Now your name is not on the genealogy, what kind of Ji family are you?"

The big family recognizes the genealogy but not the person.

They were sure that Qiao Nian was not included in the family tree, so he couldn't meddle in the family's affairs.

But if Qiao Nian played her cards according to common sense, she would not be Qiao Nian.

She didn't intend to get entangled with them on the matter of identity at all. She looked around the whole room with her eyes wildly: "Aren't you trying to guarantee that the people at Santangkou didn't join forces with outsiders to betray the family? I'll give you a choice now, or deal with it." They, or deal with you."

"I can say it, I can do it!"

"You choose yourself."

It's crazy.

Crazy beyond bounds!

But her personal aura is too strong.

She stood there, no one would think that what she said today was a joke.

Chapter 3473 You are getting old, don't touch it for now

The second elder can feel the suffocating oppression that he hasn't felt for a long time.

That was the oppressive feeling of the overlord who led them to expand the territory in Independent Continent, the aura that belonged exclusively to the Ji family.

He suddenly fell silent: "There is no second way?"

Qiao Nian glanced at him: "Yes."

The second elder subconsciously waited for her to finish.

Sure enough, she saw the girl move her chin, motioning him to look at He Lin's knife on the table.

"One finger."

"..."

"I want you old."

The muscles on the Second Elder's face were tense and trembling, and there was anger in his eyes that he hadn't seen for a long time and... timidity that he didn't want to admit.

"What if I don't want to? You also have nothing to do with us."

He still wanted to struggle to the death.

Qiao Nian seemed to have expected him to say this, raised her hand and lowered the brim of her hat to cover her eyes, and replied casually: "You know I've never been strict with rules. As you said just now, I didn't enter the genealogy. It's not your Ji family. Then I'm nosy today!"

"I'm a nosy person who wants to kill these elders of Ji's family here today, and no one should blame me. After all... I have done it at the Gulf Pier. If there are too many lice, I am not afraid of being bitten. What do you think? The second elder."

The Second Elder was completely wilted now.

He was silent for a while, and said in a timely manner: "I listen to Miss Qiao. You can deal with those people in Santangkou as you want, and I support it unconditionally."

He rebelled so quickly that he didn't even react to the elders who followed him.

"Second Elder?"

Second Elder is a well-known hard-working and tough man. They thought that a yellow-haired girl with a red mouth and white teeth would be so threatening, and he would have to get angry no matter what.

However, they didn't expect the second elder's reaction to be completely out of their expectation.

This attitude.

I just can't afford it.

The second elder ignored them, as if he didn't hear the people he brought calling him, and asked the girl very interestingly: "Or what else do you need me to do?"

Qiao Nian likes to chat with smart people, it's easy and convenient.

Today she was murdered.

If they continue to disagree, she doesn't mind killing a chicken for the monkey to see, and let He Lin screw someone out to chop their hands.

It's just that the other party knows more about current affairs than she imagined.

She turned around and picked up the lighter that had been thrown on the table, rubbing the cold material of the lighter with her fingertips, raised the corners of her mouth, and looked at the second elder again.

"Your boss will call all the rest of the people, and then you and my brother will 'handle' those people at Santangkou for others to see."

"As for the third hall... I will let someone take it over. You are old and old, so don't touch it for the time being."

What she meant was that the Second Elder should cooperate with Ji Nanliwei. At the same time, she also wanted to win over the forces of Santangkou in the south, and not allow the Second Elder to get involved.

This request is not too much.

The Second Elder gritted his teeth: "I see."

The other elders who followed were obviously aggrieved and did not understand why he agreed to such humiliating conditions.

Qiao Nian glanced at him, she didn't know what she was thinking, her eyes were drooping, she tapped the lighter in her hand, the Youlan flame burst out and then went out, she played with it a few times, as if she was tired of putting the lighter into her pocket inside.

Then he said to the second elder and the others with a blank face: "I have limited patience. If you are smart enough, don't play tricks with me."

"It's impossible for me to eat Ji's family in one go, but it's okay to clean up a few people."

Chapter 3474 You didn't see that she came for real

The second elder felt bitter in his heart, but he still had to show his attitude on the face: "I know, so don't worry."

Qiao Nian still had to go to the hospital. He took out his mobile phone and checked, but there was no call or message. It can be seen that Ji Lingfeng is not out of danger for the time being.

She called He Lin out and explained to him what to do next.

...

She left.

There was an uproar in Juyi Hall.

"Second Elder, why did you just..." Someone couldn't hold back their temper.

The Second Elder tried his best to restrain his temper when facing Qiao Nian, but he was not so good-tempered towards them, so he turned around and said, "Don't you see that she has murderous intentions?"

The Ji family is nothing.

His status as an elder who has turned eighteen corners is nothing.

He knew very well in his heart that if he hadn't cooperated so much just now, Qiao Nian would find someone to hold his little finger off first.

Ji Hongyuan is an example.

Qiao Nian might not kill him directly, but there are many ways to kill people, killing him is the most stupid one.

He wanted to take advantage of the patriarch's illness to raise his status further, but the premise was that he had to be blessed to enjoy this honor.

Qiao Nian had someone send those people from Santangkou.

But he forgot that he had also been to the Bay Wharf Masons and the gang so far have not been seen.

Qiao Nian is not only backed by Continent F, but also the First Research Institute.

The most terrible thing is that behind her is that brilliant boss who cannot be underestimated in Independent Continent.

The Second Elder thought about this clearly, but his temples were still throbbing.

He planned for a few days, and he paid a lot for delaying the patriarch's knowledge of the wharf. In the end, he didn't get anything and had to make wedding dresses for others.

It is a lie to say that he is not blocked.

He has a severe blockage in his chest now.

But he is a smart man, he knows who can play tricks in front of him, and whoever is better to be honest.

So he adjusted his mood briefly and said to Ji Nan: "Nan Shao, after I call the rest of the elders and the people in the hall, you just need to cooperate with me."

"I see." Ji Nan could see that he didn't take himself seriously at all, and had completely different attitudes towards himself and Qiao Nian.

He was afraid of Qiao Nian.

To himself... it seems very contemptuous.

The kind of dismissive contempt.

Ji Nan is very clear that he chose not to touch the family affairs at the beginning, and he will face these in the future, but he never thought that when he faced these things, Ji Lingfeng fell down due to illness, and these people in the clan stepped on him and his mother wantonly... He suddenly regretted the decision he made when he was young and frivolous.

Like today.

If Qiao Nian hadn't come forward, maybe he couldn't suppress the Second Elder now.

These people might turn into a deadly knife and stab into his father's chest face to face, but his son just watched from the sidelines, unable to do anything!

During this period of time, this deep sense of powerlessness was everywhere, and Ji Nan began to seriously reflect on his choice...

*

"Miss Qiao, aren't you here to wait for Nan Shao to deal with it before leaving?" He Lin looked at her cautiously.

The girl leaned against the wall outside, with her legs propped up, quite casually: "What am I doing here, you really want me to take over Ji's house?"

"But..."

He Lin opened his mouth, looking at the girl with too much information in his eyes.

Everyone hopes that Miss Qiao will take over Ji's family.

Qiao Nian was irritated by him for no reason, stood up straight and looked at him again: "I never said that I want Ji's family."

Chapter 3475 He is not out of danger yet

"If it wasn't for..." She paused and didn't get entangled in this matter: "I don't care about these **** things at all. Whether the Ji family dies or lives has nothing to do with me. I never wanted to inherit A family like this. What else does the Ji family have besides a puddle of mud?"

The dirty secrets of the previous generation.

And Ji Qing's death.

Everyone is talking about what kind of place Ji's family is. There is no family affection or truth here, only eternal interests.

It's like Ji Lingfeng has worked hard for the Ji family for decades, what do you get in the end?

If it weren't for these people not knowing his specific physical condition, I'm afraid that the hospital where he is currently is overcrowded, and many people want him to die.

Even among these people are people from the Ji family.

F continent is also chaotic.

But whether it is State F or the illegal area, everyone is chaotic on the surface, and they don't engage in those small tricks behind the scenes.

If you are strong, you can do it, if you are weak, just shut up.

There are not so many conspiracies and tricks, and I don't like to talk about feelings.

Like Tianchen and Hongmeng.

She and Lu Zhi have known each other for so many years, Tianchen is Tianchen, and Hongmeng is Hongmeng. When interests conflict, they each rely on their own abilities.

No one said to come out and talk about the friendship of many years to the other party.

But Independent Continent is different.

The Ji family is different from the Hermit family.

These people are full of kinship and blood...but in their bones they are more ruthless and ruthless than those desperadoes in the illegal area and F continent.

She is used to direct communication, and it is okay to deal with it occasionally.

Let her deal with these people every day, so forget it.

She still wants to live a few more years.

What's more, there is still Ji Qing between them. Based on this alone, it is impossible for her to want Ji's family.

Qiao Nian pursed her lips, and said calmly: "I will help you stabilize the situation during this time. If you have anything urgent, you can call."

"I see." He Lin was still a little regretful, and also had a feeling that it was expected.

Qiao Nian rubbed his eyebrows, and said softly: "If you really want to train a successor, you might as well train Ji Nan. It's just that he doesn't have black powder technology, and he has a good brain. Black powder is not a big problem, you need You can cooperate with the First Research Institute or get the goods from me. You haven't used these things before, but you just use them to show your strength, so what if the patriarch will do it?"

He Lin looked up at her in surprise: "Miss Qiao..."

Of course he knew this, but he didn't expect that Qiao Nian also knew the twists and turns of Ji's family.

"Okay." Qiao Nian had told him enough, and didn't want to continue talking to him, so she pulled up the collar of the sweater to cover her chin: "I'll go first, and I'll leave this to you."

He Lin opened his mouth to keep her, but after thinking about it for a while, he didn't do the hypocritical routine on the scene, and said to the girl: "I'll send you off."

Qiao Nian waved his hand, holding the mobile phone in one hand and playing with it with his head down, without raising his head: "My car is outside, let's go directly."

He Lin looked at her thin back, she was not reliable in the traditional sense, but she was inexplicably reassuring.

He Lin knew that there were Qiao Nian and Xie Yun at the hospital, so he didn't worry about that, and turned around to help Ji Nan.

...

A black off-road vehicle was parked on the road outside.

Qiao Nian walked over and opened the passenger door, got in the car, fastened her seat belt, and asked the man familiarly.

"Is he still out of danger?"

"Under the operation." Ye Wangchuan looked at the weather outside, closed the car window, turned on the air conditioner in the car for her, raised his eyes and said picturesquely: "Mr. Zhong is already here, with him here, Ji Huang should be able to escape Danger."

Chapter 3476: Everyone knows that Ji Lingfeng is poisoned

Qiao Nian nestled in the seat, unable to see any emotion, said in a muffled voice: "You don't know his condition, it's poison."

Even if Ji Lingfeng can get out of danger this time, he won't live long.

Ye Wangchuan saw her lack of interest, stretched out his hand to rub the top of her head before retracting it, and chuckled lightly: "You don't care about life or death?"

"?" Qiao Nian lazily raised his eyelids and glanced, but said stiffly, "I didn't say I cared about him."

If she didn't care about Ji Lingfeng's life, why did she have to wade into the muddy water of Ji's house again and again.

Ye Wangchuan didn't expose her, turned the car key with his slender fingers and drove back to the hospital.

"With Elder Zhong here, Mo Dong has found a few people with RH blood who are willing to donate blood. No one knows what will happen in the future, but Ji Huang will be fine this time."

...

Qiao Nian when they returned to the hospital.

Ji Lingfeng's surgery is over, and he was just pushed to the intensive care unit.

Xie Yun's eyes were still red, seeing Qiao Nian and Ye Wangchuan coming back, she wiped the moisture from the corners of her eyes with the back of her hand, trying to make herself look better.

"Nian Nian, they said the operation was a success, thank you this time."

"kindness."

Qiao Nian responded, and asked her with no emotion in the pitch-black ink, "Did Mr. Zhong tell you everything?"

Xie Yun suddenly raised her head, a little surprised: "You know?"

Qiao Nian nodded along with her, and readily admitted: "I also heard from Mr. Zhong at the beginning. He called me and said that you were asking him for a medicine. It happened that another person was also asking him for this specific medicine. I asked about the condition of his patient. Mr. Zhong told me that the patient was poisoned... that's all I know."

Xie Yun was taciturn from the beginning to the end. When Qiao Nian finished speaking, she forced the corners of her mouth to maintain a dignified smile.

But she just learned about Ji Lingfeng's poisoning from Zhongliu just now.

This incident hit her hard.

She originally thought that Ji Lingfeng was just suffering from an old injury caused by a sea accident, and taking special medicine was also an expedient measure.

She knew that Ji Lingfeng was not in good health, but she never thought that his health had reached this point!

Xie Yun's throat rolled: "It's Nie Qingru."

She shouldn't have mentioned this person in front of Qiao Nian.

But Xie Yun couldn't control her anger and pain. After a brief restraint, she raised her head and met the girl's eyes.

"Ling Feng has been in charge of Ji's family all these years, and no one has been able to tamper with his diet. There is only one possibility, which is the poison left over from his childhood. There is only one person who can do these things—his nominal mother at that time. "

Qiao Nian knew who poisoned him without Xie Yun saying it, but the shock was still there when another person said it again in front of her.

Ji Lingfeng was brought back to his family by Ji Wu Falcon when he was 9 years old.

That is to say.

Nie Qingru was so mad that he poisoned a 9-year-old child, intending to slowly torture the child to death.

Later, she stopped taking the medicine for unknown reasons.

Ji Lingfeng survived by luck.

It wasn't until she was seriously injured in a sneak attack on the high seas for her trip to M state that the toxins in her body were uncontrollably exposed, threatening Ji Lingfeng's life.

Qiao Nian didn't say anything about it or didn't care about it: "I see."

Xie Yun closed her eyes, suppressed the sharp distress at the nerve endings and the urge to settle accounts with Nie Qingru, squeezed her fingers, and finally calmed down.

When she looked at the girl's beautiful eyebrows and eyes again, she realized that she was too excited just now, so she pursed her lips: "Don't take what I just said at ease."

Chapter 3477: Those who treat you well and those who miss you dead are relatives

She didn't want Qiao Nian to confront Nie Qingru, but when she learned the truth, her blood surged and she really wanted to find someone to confide in.

Qiao Nian replied, "Yes."

Xie Yun couldn't laugh anymore, she twitched her lips and gave up, rummaged through her bag and found a document and handed it to Qiao Nian.

"this is for you."

"what?"

Qiao Nian took the thing she handed over from her hand, glanced down and was stunned.

Xie Yun saw her seldom dazed, and finally smiled: "Your uncle left this to you."

When she talked about Ji Lingfeng, her smile faded a little bit, but she still tried her best to raise the corners of her mouth, let Qiao Nian take the document, and said, "He suddenly vomited blood in the study. At that time, He Lin and I rushed in. He Lin was busy calling Che and the doctor came over, and I happened to see this document on his desk."

In Qiao Nian's hand was a signed and sealed will.

Ji Lingfeng transferred 80% of his property to her name.

Of course, Xie Yun has seen this document, but she is very appreciative: "I took it away because I was afraid that he would fall down. He Lin and I can't hold back those old guys in Juyitang. If those people see this The will may not be able to fall into your hands. I think it is his wish, so I put it away for him, just as you are here, I will hand it over to you, and I don't feel relieved if I leave it here. "

Qiao Nian pursed her lips, as if she wanted to return the document to her: "I..."

"Don't give it to me." Xie Yun knew what she wanted to do, she put her hand against it, and said in a low voice: "I know you are not short of money, and I didn't want to use this to get in touch with you. At least twenty or so Young couple, he is dying, I can't let him close his eyes."

After Xie Yun forced the thing to her, without giving Qiao Nian a chance to refuse, she let go of her hand and raised her eyes to smile at her, calmly saying, "I'll go see him."

As he spoke, he gathered up the shawl on his shoulders, trimmed his hair, and walked towards Ji Lingfeng's ward to make himself look noble and calm as always.

Wait until she disappears.

Ye Wangchuan, who was standing behind the girl, patted her on the shoulder and said, "What are you thinking about?"

Qiao Nian felt the touch on his shoulder, and he came back to his senses for a while. His beautiful face had a complicated expression. He gripped the thin and heavy paper in his hand, and twitched the corner of his mouth: "I was thinking that some people are thinking of you. Die, some people try their best to treat you well."

And these two kinds of people happen to be the same kind of people—people who are related to her by blood!

Ye Wangchuan curled up the corners of his lips, his eyes were deep and sharp: "Want to save Emperor Ji?"

Qiao Nian turned around and slapped the will in his arms with no expression on his face, still in the same aggressive manner: "If you don't save it, it has nothing to do with me!"

Said and walked out without looking back.

Ye Wangchuan didn't catch up either, he held the will that Qiao Nian threw in his arms between his fingers, and with a quick glance, he knew how much Ji Lingfeng wanted to make up for her.

Eighty percent of Ji Lingfeng's private property is in this will, which is still stamped and signed, and notarized by a lawyer.

With this will, even if Ji Lingfeng dies suddenly in the future, Qiao Nian has not had time to take over Ji's family according to his will.

You can also rely on these industries to rise into a dazzling upstart in Independent Continent. In less than ten years, you may not be worse than Ji's family.

Ji Lingfeng means to empty out Ji's family and give Qiao a way out.

Ye Fanchuan folded and put away the things Qiao Nian threw to him, so that she wouldn't find them later when she wanted them. At this time, Nan Tianyi came to look for him.

Ye Fanchuan left with him first.

Chapter 3478: What, Ji Lingfeng is dead?

Outside.

Qiao Nian didn't go very far, he just left the hospital to get some air.

What she said to Ye Wangchuan was decisive, saying that Ji Lingfeng, life and death had nothing to do with her... After she got quiet outside, Qiao Nian couldn't control how Xie Yun mentioned Ji Lingfeng, and that **** the will.

The girl lowered her head slightly, leaning lazily against the wall, lowering her head and playing with a lighter, faint blue flames sprang out from time to time, looking a little lazy with nothing to do.

The news of Ji Lingfeng's hospitalization was not hidden for long.

The main reason is that Ji Lingfeng is different this time from any previous ones. It's not like he can get up in a few days and pretend to be fine.

According to Zhong Liuliu, if he can regain consciousness within 48 hours, he is considered to have a strong desire to survive.

In this way, Xie Yun and Nan Tianyi discussed it and decided not to hide the news of Ji Lingfeng's hospitalization. Of course, there is a prerequisite - that is, not to disclose how bad Ji Lingfeng's physical condition is!

They negotiated over there and released the news soon.

The major forces in Independent Continent have to come forward to visit.

Less than half an hour after the news was released, many luxury cars came outside the hospital where Ji Lingfeng was hospitalized.

Qiao Nian was shrouded in shadow, the sunlight and the shadow from the corner of the wall just covered her figure, and few people noticed that she was in the corner.

She could see the Hacker Union, the First Research Institute, the Arbitration Council... All forces, big and small, had sent people.

The luxury cars parked outside the hospital are not just expensive on the surface.

Different from any other place outside, the cars of these forces in Independent Continent are all modified armored special cars, and their safety performance is excellent.

She was about to take another breath before going back.

In the blink of an eye, another black Rolls Royce stopped at the entrance of the hospital.

Compared with those who hurried to the hospital as soon as they got off the car, the blond middle-aged man who got out of the car was much more relaxed.

He was about to go in, led by the people Xie Yun sent to lead the way, when he noticed a bright orchid flame from a lighter in the corner out of the corner of his eye.

Simon paused and looked over subconsciously.

I immediately recognized the bored girl leaning against the wall who seemed to be about to leave.

He stopped and called out, "Miss Qiao."

Qiao Nian was slowly putting the lighter back, when he turned around and saw a person standing a few steps away from him.

She squinted her eyes, as if she was thinking about it, and it took a second for her eyes to focus on Simon's face: "What's the matter?"

Simon could clearly feel her pause for a second, it was a kind of...unrecognizable memory.

Qiao Nian didn't recognize him.

At least he didn't recognize who he was the first time.

This kind of cognition made him feel indescribable. He almost failed to maintain the good social manners he had always maintained. The corner of his lips smiled stiffly, and he looked at the girl firmly and said, "Miss Qiao made a lot of noise at the bay pier. , I take the liberty to ask, do you mean to take over the Ji family?"

The girl was still wearing the black peaked cap with the brim pressed down very low. From his angle, he could only see the girl's red lips that were raised suddenly, which was quite flamboyant and sharp.

The other party didn't even look up at him, but just put the lighter back into his pocket, and stood in front of him with his hands in his pockets, showing no intention of coming over from a distance.

"how?"

"?"

Qiao Nian looked at him contemptuously: "Ji Lingfeng is dead?"

They are all thinking about dividing up Ji's family.

Chapter 3479: Miss Nian made a decision

No matter how dull Simon is, he can still feel a little displeasure from the other party's tone, thinking that he was unlucky to hit the gun today.

Qiao Nian seemed to be in a bad mood for some reason.

But this topic was brought up by him first, so there is no reason for him not to talk.

Simon had no choice but to bite the bullet, and explained awkwardly while the people sent by Xie Yun were still staring at him: "I didn't mean that, I was just curious..."

"Then you should be less curious." Qiao Nian didn't give him face this time, and said in a flat tone: "Xiao Ming's grandma lived to be eighty years old because she was never curious about things that had nothing to do with her."

Simon's complexion changed. After all, he had gotten to where he is today in Independence Continent. His family background is not low, so it doesn't feel good to be slapped in the face in public.

But he knows better than anyone else in Independent Continent how difficult the girl in front of him is.

This is someone who dares to provoke even the Hermit Family, and he is not so hot that he thinks that the other party dare not touch a small chamber of commerce alliance.

So even at this moment, Qiao Nian stomped his face on the ground and rubbed him, he endured it forcefully, and smoothed things over for himself: "Yes, I've been taught."

"Then I won't bother Miss Qiao, I'll go to see Emperor Ji first."

"..."

Qiao Nian didn't raise his eyelids this time, as if he didn't hear him.

Simon's face became even more ugly. Enduring the humiliation, he turned around and strode into the hospital.

Ji's family, who were in charge of leading him, also hurriedly followed.

Only Qiao Nian was left alone.

She originally planned to go up after she came out to get some air, but now she was discouraged by Simon, and she was likely to meet other people who came to visit the hospital when she went up now.

She doesn't want to deal with these occasions.

...

Qiao Nian returned to Ye Wangchuan's car, opened the co-pilot's door and sat on it, then closed the door.

The space in the car was narrow, so she had to bend her long legs, bowed her head in discomfort and sent a text message to Xie Yun and Nan Tianyi telling them that she would not go up.

Then he didn't wait for Xie Yun to return to her.

Qiao Nian found Feng Yu's phone number and called it.

The phone rang a dozen times.

Feng Yu only picked it up, and the voice seemed to be from outside: "Nian Nian, do you need me? I'm now..."

Qiao Nian didn't wait for him to finish, and explained the purpose of coming concisely: "I may offend many people, let the First Research Institute issue a statement to disassociate myself first."

"?"

Feng Yu obviously didn't react at the first moment, paused, and quickly said: "Wait for me."

Qiao Nian heard someone talking to him on the other end, and he could also hear Shi Fu's voice.

Immediately after Feng Yu walked out, the noise on the other end of the phone became much quieter, it seemed that she had found a quiet place to talk to her.

"What are you talking about? What do you mean that you will offend a lot of people recently? What do you want to do."

Qiao Nian briefly told him about the situation of Ji's family. He didn't mention Ji Lingfeng's poisoning. He only said that Ji Lingfeng's condition was not good, and that Zhong Liuliu was also in the hospital.

Feng Yu is a smart person, how could he not understand what she meant.

"So you want to stand up for Ji's family?"

"no."

Qiao Nian could still see cars coming outside the hospital through the car window.

"I'm standing in for Ji Nan."

"..."

Feng Yu almost laughed angrily at her.

What does it mean to stand up for Ji Nan? She clearly wants to protect Ji Lingfeng's side.

"Do you know how bad the situation of Ji's family is now, how many pairs of eyes in Independence Island are staring at this big cake and preparing to divide it up."

Chapter 3480 Sister Nian was expelled from the First Research Institute?

Qiao Nian jumped out at this time to protect the cake and not allow anyone to move.

This is someone who offended the entire Independent Continent.

She said to herself on the phone, 'I will offend a lot of people recently', which is really a modest statement.

She directly said that she was going to single out the entire Independent Continent alone!

The key This is still not the point.

Feng Yu suppressed the tone that was so angry with her: "The inside of Ji's family is also in chaos. Even if you want to protect them, they may not accept your favor. Maybe they will add trouble to you later, why bother..."

Feng Yu didn't say what was in his heart: why should you meddle in other people's business.

But Qiao Nian seldom changes his mind when he has made a decision: "Those people have nothing to do with me. They are the best obedient ones. If they don't, I don't mind letting them learn to be obedient."

"But..."

"Dean, I'm serious this time."

Feng Yu heard the girl's calm and firm voice, and knew that she had thought clearly.

"Hey!" Feng Yu could only sigh: "You really shouldn't be involved in this muddy water."

Qiao Nian's thick eyelashes covered her eyes: "Over there at the First Research Institute..."

Feng Yu knew what Qiao Nian's decision meant, and she didn't want to separate herself from her, and wanted to protect her.

But he is not just Feng Yu, he is also responsible for many people in the First Research Institute.

He shook his head: "Just do as you say."

"good."

Feng Yu still couldn't hold back: "But you can tell me when you need help. I am your half-teacher, no matter what, if there is anything, I can't be blamed for protecting me!"

Qiao Nian raised the corners of her mouth, and a trace of warmth flowed through her heart.

"good."

*

What Qiao Nian decides to do is never procrastinating.

She made an agreement with Feng Yu the day before.

Waiting for the announcement from the first research the next day.

Although Feng Yu gave an internal notice this time, many people in Independent Continent were surprised when the notice was spread.

You must know that Feng Yu spent a lot of effort to make Qiao Nian his successor.

Now Qiao Nian is relying on his strength to prove that Feng Yu didn't miss him at the beginning, so why did Feng Yu suddenly distance himself from Qiao Nian again?

Many people in the First Research Institute went to find Feng Yu's theory.

But this time Feng Yu was extremely tough, and he didn't see anyone, including when Shi Fu went to find him, and he found reasons to avoid it.

This approach also brought the discussion on Qiao Nian within the First Research Institute to a peak—

"What does the dean mean this time? He finally figured out how to prevent outsiders from accepting the institute? But he was obviously very optimistic about Qiao Nian before."

"I heard that Team Leader Zhou and the vice president have both gone to the dean, but the dean hasn't seen him alone. I guess he is determined not to change his mind."

"What the **** is Qiao Nian doing? Why did the dean suddenly drive her out of the First Research Institute?"

"Ghost knows, she is used to doing whatever she wants. Not long ago, she went to Continent M to participate in some weapon exhibition with Beijing City. The dean might be angry about this."

"That's what you said."

"Now I have seen some."

...

Wherever Xue Zhu went now, he could hear Qiao Nian's name being mentioned in a low voice.

As if waiting to see Qiao Nian's downfall.

She grabbed the palm of her hand hard, and walked quickly all the way, lest she didn't control her temper and rushed up to give those eight women a slap.

When she finally rushed into the laboratory, she slammed the door hard to shut out those unpleasant voices.
