

Madam's 3481

Chapter 3481: Which word in that email said to expel Qiao Nian?

Everyone in the laboratory heard the sound of her closing the door forcefully.

Cao Yanhua and Han Cheng put down the test tubes in their hands and looked at her.

Xu Yi also raised her head and glanced at Xue Zhu who rushed in angrily. Qingjun's face showed no emotion, and her cold eyes seemed to know what Xue Zhu was angry with. She lowered her thick eyelashes and focused on the experiment in her hand again.

Shen Qingfeng is used to taking care of others, seeing Xue Zhu blushing with anger, he was the first to ask her: "What's wrong? Why are you so angry."

Xue Zhu slapped the experiment report on the table to show Shi Fu, feeling uncomfortable: "It's not those people outside."

Seeing that other people were looking at her, she endured it, and still defended Qiao Nian: "They're all talking about Qiao Nian's dismissal! One by one, it's very ugly, as if Qiao Nian was fired, they can enter the experiment room!"

She knew that those people outside were jealous of Qiao Nian as a person from a non-independent continent, not to mention that he was able to enter the research institute smoothly, and was also valued by Feng Yu and Shi Fu.

Now Qiao Nian looks unlucky...

These people couldn't hide their jealous faces, and began to watch the fun there with eccentricity.

Xue Zhu sat down on the stool and really couldn't figure it out: "You said why the dean fired Qiao Nian, I really don't understand..."

Shen Qingfeng and the others stopped talking.

Don't say that Xue Zhu doesn't understand.

They don't understand either!

Judging from their understanding of the dean over the past year, the dean has great expectations for Qiao Nian. Will he hand over the first research institute to Qiao Nian in the future, or will he be half begging and half begging .

It is impossible to fire Qiao Nian.

But like those people outside, they also received internal emails from the institute.

Feng Yu wrote very clearly in the email that Qiao Nian has nothing to do with the First Research Institute.

Han Cheng comforted her: "Don't think too much, there is still a turning point. Aren't Team Leader Zhou and the vice president looking for the dean? They will find out when they have a good talk with the dean."

"But didn't the dean miss them?" Xue Zhu's voice became weaker and weaker.

Now even Han Cheng didn't know how to comfort her.

Because he didn't know what the dean and Qiao Nian were doing, and why there was such a sudden disturbance.

In the entire laboratory, only Xu Yi focused on his own affairs. Even Xue Zhu noticed him, pursed his lips, and opened his mouth to say something.

They were squeezed out by the entire research institute at the time, and they were even nicknamed the 'death team' in private.

It was all thanks to Qiao Nian that he took them step by step to where they are today, becoming the nominal team member of the vice president.

How does she think Xu Yi is not in a hurry?

"Xu Yi, don't you care about sister Nian?"

Xue Zhu is actually a little older than Qiao Nian, but Qiao Nian usually has too much personal aura, so she would occasionally unconsciously call other people Sister Nian.

Xu Yi shook the test tube in his hand, the lights of the laboratory reflected on him, he became more and more indifferent and aloof, without raising his eyelids: "The dean didn't say to fire her."

Neither salty nor light tone.

is calmer than everyone else.

Xue Zhu was taken aback for a moment, forgetting to refute for a while.

Xu Yi waited for the reagents in the test tube to finish the chemical reaction, and wrote down the data in the notebook before looking into her eyes: "Which word in the email sent by the dean said that she will not be a member of the First Research Institute in the future?"

Xue Zhu was taken aback for another moment, thinking about it for a while, and bit her lip uncertainly: "It seems that I didn't say it."

—But that email was meant to dissociate.

Chapter 3482: Ji's situation is more difficult than imagined

Xu Yi didn't want to entangle with her about these things. She turned on the faucet to rinse the test tube, and said lightly, "Since I didn't say anything, it's just a word game. Wait and see."

Xue Zhu saw that he was devoting himself to the next set of data collection, and her restless heart became more stable for no reason.

She didn't know if Xu Yi was right or not. After hesitating, she went to the cabinet to find the mobile phone to edit the message and sent Qiao Nian a tentative WeChat message.

- 【are you OK. 】

After sending the WeChat message.

There was no movement from Qiao Nian for a long time.

Xue Zhu couldn't sit still, so she found an excuse and ran out to see if the dean came back.

*

Actually, Qiao Nian was so busy these two days that she didn't touch the ground, she didn't have time to care about the silly gossip in the First Research Institute.

Since she decided to help the Ji family through the most difficult time, she had to take action.

Yaomen has a certain deterrent power in Independent Continent, and she can indeed ask Ye Wangchuan for help... But the incident at the Gulf Wharf is a low-probability event after all, it is impossible to stabilize the internal chaos of the Ji family by relying on this alone, and it is not It may make other people give up on Ji's idea.

Ji Lingfeng has been hospitalized for the past two days, and most forces have sent people to the hospital to visit.

Xie Yun and Nan Tianyi discussed and announced the news of Ji Lingfeng's hospitalization, and agreed to these people's visits, but after careful consideration, they were kept out of the ward on the grounds that 'Ji Lingfeng just finished the operation and it's not suitable for too much work'.

This approach looks unassailable.

But it also made many people realize that Ji Lingfeng's physical condition was very bad.

Some people who had been intimidated by Qiao Nian's tough tactics at the Gulf Wharf began to use their brains again.

Recently, many forces have begun to contact privately with a few halls in the south that are not under control.

Fortunately, Qiao Nian forced the Second Elder and others to deal with Santangkou and others who betrayed the family in public before, which can be regarded as a wake-up call to the disobedient Tangkou in the south.

Those people listened to persuasion anyway, and did not dare to form alliances with outside forces easily.

Qiao Nian knew that these deterrents would not be able to hold down the Ji family for a long time, but only temporarily prevented them from acting rashly.

Given the chance, they will bite themselves hard from the inside.

So she went to Ji Nan and Xie Yun to find out the real situation of Xia Ji's family.

Forget about Ji Nan.

He doesn't know much.

Xie Yun actually knew a little more than Ji Nan, and told Qiao Nian about who could use it, who was disobedient, and who was an old fritter...

Qiao Nian's brain exploded after listening to it, and he rubbed his bumpy temples vigorously. His eyes were bloodshot after two days of rest, and he was cold and dry.

"So now few people in Ji's family are obedient?"

"...You are right to understand it this way."

Xie Yun watched Qiao Nian running around for them to deal with the series of trivial matters caused by Ji Lingfeng's sudden hospitalization for the past two or three days, and looked at her tired expression, feeling a little guilty.

"Nian Nian, why don't you go back to sleep first. Anyway, these things can't be rushed, when Ling Feng wakes up..." She couldn't continue talking.

Not to mention that Ji Lingfeng still doesn't know when he will wake up.

Even if Ji Lingfeng wakes up immediately, he can't do anything with his current physical condition, even getting out of bed is difficult.

Qiao Nian himself knew this, and waved his hand at Xie Yun: "I'm fine."

She just didn't have a good rest, her mind was buzzing, just in time Qiao Nian remembered something that Ji Nan had inadvertently mentioned.

Chapter 3483: that doesn't put you at risk

She raised her eyelids, there was still a touch of blood in her eyes, and she was calm and arrogant: "You said there is an event going on in Independent Island?"

Ji Nan has learned a lot from the second elder in the past few days. Hearing this, a little trouble appeared on Qingjun's face: "Well, it's a small game of treasure hunting, and all the forces with a little bit of reputation in Independent Continent will participate."

"This year it will be held in the Mingshui Mansion. It is said that this time the hidden diamond is a 21-carat diamond, which has a bit of historical origin and is expensive."

In the past, the Ji family always won the first place in activities that all the forces in the Independent Continent participated in, which is also a disguised proof that the Ji family is the only one in the Independent Continent.

Ji Lingfeng is still unconscious in the hospital this year, so it's hard to say.

"I briefly discussed with the second elder, and we will not participate this year." Ji Nan didn't want her to worry, and tried his best to look relaxed: "Absent once in a while, it shouldn't affect much."

He said it easily, but in fact he knew very well in his heart how much the impact of not going this time would be.

The Ji family's absence from such group activities at this moment is tantamount to telling others that Ji Lingfeng's illness has caused the Ji family's strength to decline.

But if he forcefully finds someone to participate, but fails to get the gems in the end, he will also be slapped in the face!

After all, Ji's family used to get things, but this year they couldn't get them... The result is the same embarrassment.

He had a good discussion with the second elder and others. There were two embarrassing options, and they reluctantly chose the less embarrassing option—absence.

Qiao Nian clasped her fingers on the table, knocked on it one after another, and said after a while, "I'll go."

"?" Ji Nan frowned immediately, and immediately objected: "No!"

Qiao Nian glanced at him.

Ji Nan thought that she didn't know the rules of this game, and immediately said: "The rules of this game only look at the result, not the process. You don't need to be responsible for any accidents among the participants! There were no accidents in Ji's family before, that is Others are afraid of the influence of Ji's family. This time it's different...it's too risky for you to go!"

Qiao Nian himself is easy to provoke villains.

Those people usually don't have a chance to make a move. If Qiao Nian goes to participate in this game on behalf of Ji's family, and there is an accident in the middle...it's hard to say.

Ji Nan would not allow her to go no matter what.

"I've already discussed it with the Second Elder and the others. Don't worry about it. If it doesn't work, I will find someone in the family again, but that person is definitely not you."

Even Xie Yun disagreed with Qiao Nian taking the risk: "Ji Nan is right. Nian Nian you don't want to go, this is really too dangerous."

Mingshui Manor is closed during the game.

They can see what's going on inside through ubiquitous monitoring, but they have no way to intervene in the first place to prevent accidents from happening.

The Ji family needs a chance to prove their strength, but definitely not this time!

Qiao Nian had already stood up with her legs up, her brows and eyes were dry, and she didn't listen at first glance: "I've made a decision."

Ji Nan's eyes widened, and he clenched his fists tightly: "Qiao Nian! Don't make trouble."

He seldom calls girls by their names directly, and when he is serious, he calls SUN at most.

This is the first time Ji Nan has called someone by name.

The girl just raised her hand and pulled down the neckline of the sweater, raised the neckline high to cover her white jaw line, and stared at Ji Nan with clear and transparent black eyes.

"Can the Ji family afford to wait?"

"..."

Ji Nan turned pale, turned his head to one side, and said in a hoarse voice, "That's not a risk for you!"

Otherwise, when his father wakes up and finds out, he has to get up from the hospital bed and beat him to death~!

Chapter 3484: Sister Nian: Then decide first

Qiao Nian didn't accept this at all: "Since there is no better way, let's make this decision for now."

Jinan's forehead was bulging with blue veins, and he was about to say something with his fists clenched.

The girl stood up extremely quickly, took the bag and walked to him, raised her hand and patted him on the shoulder: "Let's go."

Then Qiao Nian didn't wait for his reaction, turned to Xie Yun who was beside her and said, "Aunt Xie, I still have something to do, let's go first."

Xie Yun looked at her son, then at Qiao Nian who was unmoved, her eyebrows jumped, and she responded lovingly.

The girl turned and left Ji Nan's apartment without hesitation.

'Crack—'

Ji Nan heard the sound of the door being locked, walked to the sofa and sat down irritably, buried his head in his knees and scratched his hair vigorously.

His neatly trimmed short hair was fluffed and messed up by him. The always gentle and handsome Ji Dashao raised his head, bloodshot eyes were faintly visible in his eyes, and his gaze was firmly fixed on his mother.

"Mom, why didn't you persuade her just now."

"You persuaded, persuaded to come down?"

Xie Yun rolled her eyes at him angrily, very angry.

But at least it is her own son. She knew that Jin Nan was venting his anger out of desperation, so she tolerated it, bent down to pick up the bag on the sofa, and glanced at Ji Nan who was sitting on the sofa scratching his head and cheeks: "It is difficult to change what Niannian decides, instead of trying to convince her, you should think about how to ensure her safety."

"Mom, what do you mean..." Ji Nan gradually calmed down in her soft voice, and looked at her with those eyes.

How did she give birth to a stupid boy!

Xie Yun went over and flicked him on the forehead, and seeing Ji Nan frowned in pain, she put away her hands contentedly, and said condescendingly: "Nian Nian represented Ji's family in participating in the game this time, does it solve the urgent needs of those old men?" ?"

"...yes."

Xie Yun saw that he wasn't too stupid, nodded and continued: "Nian Nian solves their urgent needs, don't you know how to use this as a condition to get those old men to show some 'sincerity'?"

"..."

Ji Nan is not stupid, he has already started to think along this line of thought.

Xie Yun briefly told him about the joints inside.

"It's not the first time these old men have participated in this activity. Independent Island holds a treasure hunting activity every two years. They know more tricks than you!"

Ji Nan understood: "You want me to use Nian Nian's willingness to represent Ji's family to participate in the treasure hunt to talk to them?"

Xie Yun smiled without saying a word, just looked at him quietly.

"What you have to do is not to complain about yourself here, but to protect your sister as your father expects. Niannian has done a lot for us. If we can't even do anything for her, what are we talking about as a family? Say something and hope she is well."

Xie Yun's voice was very calm, without accusations or resentment.

is to calmly reason with him.

"Ji Nan, I don't blame you for your reluctance to contact Ji's business."

"You were young at that time, and you were not interested in family affairs. I allowed you to pursue your hobbies. After all, your life is only a few decades. If you can find something you love, mom is happy for you!"

Xie Yun's voice changed: "But it's different now."

"You have also seen the chaotic situation of Ji's family. Since your father vomited blood and fell into a coma, no one under Ji's family obeyed you, and those elders even ignored you because of their seniority... You don't have to care about these things. But you are an adult, through these days it should be seen that just because you back down does not mean that others will let you go."

Chapter 3485 Don't worry, there are me and the vice president here

"If you want to protect the people around you and the important things, you must learn to be independent and strong like Nian Nian."

"No one can always protect you. You are a brother and a man. You need to stand up and protect her. Instead of letting her stand up and become a knife to open the way for you every time!"

Xie Yun never said these words to Ji Nan.

She said a lot today, and she didn't know how much her son could listen to.

Xie Yun didn't force him to grow up overnight, so she brushed the curly hair next to her ear to break the heavy atmosphere in the apartment.

"I remember that Mingshui Mansion is your Aunt Xiaoxiao's house. It happened to be free in the afternoon. I went to find her to have afternoon tea and inquire about the progress."

Xie Yun stopped for a while before leaving, and turned to look at Ji Nan on the sofa without turning her head: "Over there at Ji's house..."

Ji Nan covered his eyes with his hands, and his eyes were cold and firm: "I asked my second uncle to come over."

Xie Yun raised the corners of her mouth, gratified that he had grown up, and sighed that he was forced to grow up. She shook her head and stepped on high heels to ask the actual owner of Mingshui Mansion.

In addition, after she went out, she called Xie Tingyun and asked about the rumors she had heard from the outside about the first institute cutting off relations with Qiao Nian.

See if there is anything you can do to help.

*

Qiao Nian didn't know that after she left, Xie Yun seized the opportunity to educate Ji Nan and make him take responsibility as soon as possible.

She left Jinan's apartment, and before she got in the car, she received a call from Zhou Zhou.

Actually, since she came to look for Ji Nan in the morning, the cell phone in her pocket has not stopped, it has been buzzing and vibrating.

It's just that she didn't show it in the apartment.

At this moment, Zhou Zhou was calling a series of calls, so she had no choice but to get in the car, close the door, and pick up the phone with thin white fingers: "Speak."

She answered the phone but fell silent.

Qiao Nian opened the car window to breathe.

The driver just in front was asking her where she was going.

Qiao Nian gave an address, and the driver turned around and drove to the place she said.

The October wind blowing on her face was indescribably wet and cold. Fortunately, when she went out, Ye Wangchuan forced her to change into a thicker sweater, but the sweater was not a problem, because the wind was blowing, and when the wind was blowing, the cold wind still poured into the bones inside.

"Why don't you talk?"

"If you don't speak, I'll hang up."

She said with her arms resting on the edge of the car window, she didn't mean to hang up, she was just bluffing.

Someone just wants to be fooled.

Sure enough, Zhou Zhou, who had been silent all this time, immediately said in a muffled voice: "Don't hang up. I asked the dean, but he didn't know why he refused to let go this time, and he refused to tell me why I sent that email. Sun, Tell me honestly, did you agree with him in private? What you are going to do is very dangerous, and you asked the dean to send that email because you were afraid of implicating the First Research Institute?"

Qiao Nian raised her eyebrows, and had to admit that a woman's sixth sense is not covered up, and her guess is very accurate, but she didn't admit it: "No."

Zhou Zhou wasn't sure if she lied to him or not, but Qiao Nian never lied.

Since Qiao Nian said no, it would be too stupid for her to continue to be like Qiong Yao and insist on being admitted.

She took a deep breath, as if she had figured it out, and said to the **** the other end of the phone, "Don't worry. I discussed it with the deputy dean. The dean will not let go this time. We will continue to look for him next time until he lets go." During this period of time, you should stay at home and wait for news from us."

Chapter 3486: If you really don't care, you won't meddle in these nosy things

As soon as the email came out today, she also heard the gossip about Qiao Nian in the First Research Institute.

She is not a new bird like Xue Zhu.

When hearing those people's irresponsible remarks, Xue Zhu was not impulsive, but she was also very angry.

Those people speak too badly.

Some people even found out what happened to Xie Xinyao back then, saying that it was wrong for Xie Xinyao to be expelled from the No. 1 Research Institute at that time, and it was all because of Qiao Nian's frame and exclusion of her.

She ha ha ha ha!

Xie Xinyao was expelled from the First Research Institute at the time and did it purely by herself, and had half a dime relationship with Sun!

Besides, Xie Xinyao was not only kicked out of the First Research Institute, but even Xie's family sent her abroad overnight, so she didn't even dare to return to Independent Island.

Is this not enough to explain the good deeds Xie Xinyao has done?

It's just that she can't use a loudspeaker to argue with people every day in the research institute. It's meaningless. Human prejudice is like a mountain.

Even the most perfect people can find fault as long as they see people with prejudice.

Besides, she knew that Qiao Nian didn't care what these people thought!

"OK."

When Zhou Zhou heard the girl's casual voice, his heartbeat calmed down a lot.

"Be careful yourself."

She always felt that Qiao Nian's expulsion from the First Research Institute had something to do with the recent storm in Ji's family, but she was a researcher.

The First Research Institute has an extraordinary status in Independent Continent, but it is different from other forces.

They don't have thugs and weapons supported by major family forces. They rely more on their brains and research results that are at the forefront of the world.

All forces want to gain benefits from them, so naturally they should be regarded as honored guests and respectful to them at ordinary times.

It can involve these real power struggles, and there is very little they can do.

Zhou Zhou: "Anyway, be careful yourself."

*

Qiao Nian left Jinan's apartment and went to the hospital first.

Zhong Yiliu is in full charge of Ji Lingfeng's body.

Qiao Nian went directly to the second floor.

The entire first floor here is guarded by the staff of Ji's family, and only a few people can go in and visit.

Qiao Nian is one of the few people.

Ding-

Elevator doors open.

The girl pressed down her peaked cap, put her hands in her pockets and walked straight to the ward area where Ji Lingfeng was.

He Lin's people are everywhere here.

He Lin had already told them to let Qiao Nian go without asking.

So when those tall and burly bodyguards saw the girl coming in, they just lowered their heads slightly to make way for the girl to pass without saying a word of unnecessary nonsense.

This makes the scene look weird.

Qiao Nian walked outside the ward but didn't go in to see him. Instead, he stood in the corridor and sent a message to Zhong Liuliu.

After a while, a little old man came out of it.

Seeing her coming, he looked her up and down, and said angrily, "Aren't you going in to have a look?"

Seeing him coming out, Qiao Nian put the phone back into his pocket without stretching out his hand, with a lazy attitude: "No. I'll just come and ask, how is he?"

"I woke up once in the morning, for about ten minutes. I just opened my eyes, and my consciousness hasn't recovered much. It will take some time to really wake up."

Zhong Liuliu kept talking and shooting the machine gun.

"I said you obviously cared about him, why didn't you go into the ward to have a look, anyway, he didn't wake up, even if you went in to have a look, he wouldn't know. If you hadn't called me over in advance, he would have died that day, and he wouldn't have died if he didn't die." It's good now. You're already like this, and you're still stubborn, acting like you don't care about his life! If you really don't care, you'll meddle in these nosy things!"

Chapter 3487: If you know the poisoner still has a chance

Zhong Zhongliu didn't want her to get involved in this mess of Independence Island, but Qiao Nian jumped into it headlong and pretended to be in charge of it to the end.

"How does that Young Master Ye care about you? If Lu Zhi..."

He stopped in the middle of speaking.

The remaining half is obvious.

Today Qiao Nian's person will be replaced by Lu Zhi, and Lu Zhi will never let her get involved.

Qiao Nian was touched by the edge of the lighter with his fingertips again, and almost wanted to take it out, but inadvertently touched the corner of the candy wrapper.

She took out two candies from her pocket, threw one to Zhong Liulu, then tore open the wrapper pocket of the candy in her hand and threw it into her mouth.

This is a watermelon-flavored fruit candy.

The taste is sweet.

Just suppressing the sharp buzzing of her nerves, the blood in Qiao Nian's eyes faded a lot, and she looked just a little sleepy.

"Eat a candy first."

Zhong Zhongliu had already caught what Qiao Nian threw to him, and also saw the extra candy in his palm, he didn't realize it for a while: "When did you eat this thing?"

He remembered her pockets full of little pills.

Qiao Nian casually: "Recently."

Seeing Zhong Liulu looking at her with strange eyes, he continued: "Someone gave it to me."

Zhong Liulu knows who gave it to him no matter how stupid he is.

Did he shut up, put the candy away, and said instead: "You know the situation of Emperor Ji, as we said before, he is poisoned, and his blood is full of poison. Only with the current medical level Live for another year and a half at most."

"What about your level?" The girl looked at him with clear eyes.

Zhong Yiliu straightened his back for no reason: "If he cooperates with me, he can live for two or three years. If he doesn't cooperate...act like I didn't say anything."

One year vs. three years... not much difference.

Qiao Nian frowned, and remembered how the toxins in Ji Lingfeng's body overturned. It was the time when he was injured when he went out to sea, and his body's immunity was weak, which made it impossible to suppress the toxins in his body, which caused a series of consequences.

Poison exists by itself.

But if Ji Lingfeng hadn't insisted on going to sea that time, he might not have noticed the toxins in his body for ten or eight years.

Qiao Nian became irritable for no reason, and looked at Zhong Liuliu with dark eyes: "Is there any other way?"

"You still said that you don't care about his life or death." Zhong Liuliu said, frowning again, and said slowly: "It's not impossible, there is another way, but that way is equivalent to nothing."

"Do you know about snake venom?"

"Um?"

"There are hundreds of poisonous snakes in the world, and each snake venom corresponds to a different inhibitor. Similarly, the poison on his body is the same as that of a poisonous snake. If I can get the antidote or original poison of this poison, I will An antidote can be found."

It is best to have an antidote.

But many poisons in the world have no corresponding antidote at all, so it is necessary to research an antidote.

The Pharmacy Association is best at this.

Zhong Liuliu himself is also a top master in this field.

He is sure that with the original poison, he can develop a targeted inhibitor in a short period of time, and prescribe the right medicine, not to mention detoxification, at least it can make Ji Lingfeng live a few more years.

"Do you know who gave this poison? If you know, you can find that person. If she is willing to give the antidote or the original poison, the patient will still have a chance to live for ten or eight years or even longer..."

Qiao Nian looked at Zhong Liuliu, but didn't answer the question directly, and rubbed his brows, looking extremely irritable.

Zhong Zhongliu looked at her as if she knew who the poisoner was, but instead of asking further, he asked: "The person is inside, you've come here, just take a look."

Chapter 3488 A gentleman who claims to be from M state is looking for you

Qiao Nian stood at the door of the ward for a long time, then went in and took a look at the people lying in the ward.

Ji Lingfeng wears a ventilator on his nose and mouth to cover half of his face. He closes his eyes tightly, and stubble appears on his chin. He can't see the arrogance and calmness when he first met him. He looks weak and decadent like another person.

Qiao Nian looked at the hospital gown he was wearing and the skinny arm with only a few bones left, but he didn't know what he was thinking.

She stayed at the door of the ward for a minute or two before going out and saying to Zhong Liuliu, "I'm leaving."

Zhong Liuliu was still discussing the follow-up treatment with Ji Lingfeng's other chief surgeon. Seeing Qiao Nian coming out so quickly, he asked, "You won't stay for a while?"

Qiao Nian turned her wrist, raised her peaked cap and pulled off her peaked cap, her brows and eyes were calm: "There's nothing to be fooled about."

Zhong Liuliu didn't know what to say about her, so he waved at her: "Let's go, hurry up...so I won't get a headache when I see you!"

The attending doctor who was with him looked curiously at the girl not far away.

Girls really look young.

He didn't know how a master-level figure like Zhong Liuliu, who lived in seclusion all the year round, would know such a young friend.

And from the conversation between the two, it can be seen that Qiao Nian has a good relationship with Zhong Liuliu.

Zhong Zhongliu let her go, Qiao Nian waved him uprightly, turned around and walked from the ward to the elevator entrance, and left the hospital without looking back after entering the elevator.

Zhong Liuliu looked at the girl's stubborn back, shook his head, and sighed in a low voice: "...too emotional is easy to suffer, why doesn't she listen!"

The attending doctor vaguely heard him muttering, but couldn't hear clearly, so he said, "Old Zhong, what did you just say?"

Zhong Liuliu had put away the regret on his face, and said to him indifferently: "It's nothing. Let's go to the office to discuss it. I'll take a look at the inspection report you mentioned."

"good."

The attending doctor walks ahead.

Zhong Liuliu followed his pace and walked side by side towards the office next door.

*

Simon's residence.

A black phantom slowly parked in front of the European-style villa.

The nanny at home immediately opened the door for the people in the car and reported to him in a low voice.

"Mr. Simon, there are guests at home."

"Um?"

Simon got out of the car, and the trousers of the suit naturally fell to his ankles, which made him look extraordinary.

"Who's coming?"

"A gentleman who claims to be from M state, very young."

Naturally, the nanny took the briefcase he handed over, and carefully followed him one step away, keeping this distance in a very regular manner.

Simon's sharp eyes flashed darkly, he raised his hand and pulled off the tie at the neckline, and strode towards the house.

He is a person who pays attention to the quality of life and is extremely good at enjoying life.

So while everyone in Independent Continent is keeping a low profile, his car is still a not-so-low-key Rolls-Royce Phantom.

His residence is naturally in this unabashedly luxurious style.

The large European-style mansion shows the luxurious taste of the owner everywhere, and the crystal chandelier hangs high to reflect the colorful light spots.

The villa has the most advanced constant temperature system, the temperature is controlled all year round, no matter spring, summer, autumn or winter, it will always be the most comfortable temperature when you come back from the outside.

Simon stepped into the house, and by the way, he also tore off the tie that was tied around his neck, and handed it to a servant who bowed his head to greet him, and let them all go out.

The servants in the villa all went out to avoid the conversation inside.

Simon made sure there were no outsiders in the house.

He walked up to the young man who had been waiting for him on the reception sofa for a long time, frowned, and said in a blunt tone, "Why are you here again?"

Chapter 3489 These people really want to take advantage of the opportunity to miss sister

"Tsk~ President Simon is too ruthless!"

The young man is still relatively restrained in his words and deeds in front of people. Seeing that Simon cleared the scene, only the two of them were left in the villa. He raised his legs and put them on the coffee table unscrupulously. His long legs wrapped in short boots were flamboyant and slender.

"I've come to find you something."

Simon squinted his eyes to see that he was as chic as if he was in his own home, his eyes were dark, and he went around him to get a glass of water: "What's the matter."

"About Qiao Nian." The young man said calmly.

Simon shook his hand holding the water glass, and almost missed it. His heart was by no means as calm as it seemed on the surface, and he looked directly at the man: "What do you want to do?"

"Don't be so nervous." The young man smiled.

Seeing that his smile did not ease the tension between the two parties, he shrugged indifferently and reminded Simon: "We didn't agree to cooperate, I came to you just to cooperate."

"..."

Simon is not a kid, and he didn't talk to him.

He continued to say indifferently: "Now the opportunity has come. I got the latest news that Qiao Nian will represent Ji's family to participate in the Independent State Treasure Hunt~"

Simon only felt an invisible big hand grabbing his neck, and his voice was difficult: "You mean you want me to attack her in the Treasure Hunting Conference?"

The young man glanced at him as if to say he wasn't stupid.

Simon's face sank, he put the water glass heavily on the coffee table, and immediately sneered: "I promised to cooperate with you, but it doesn't mean I'm a fool."

"Cooperation is an agreement based on the efforts of both parties. Why should I unilaterally take the risk to help you get rid of Qiao Nian?"

"You should know better than me what it means to move her! The Union of Chambers of Commerce can't afford the anger and revenge from Yaomen and F Continent."

He was also so angry that he spoke so badly, and he almost broke his face with the other party.

The young man gave him a gesture of calming down, and the corners of his mouth never let go, as if he expected him to react like this.

"I'm not betraying my partner yet."

"Then what do you mean?"

Simon didn't buy it!

The young man folded his legs and tilted his head to look at him: "I released the news that Qiao Nian has the complete design of the Tsar in his hand. Guess how many people in Independent Continent don't want to take this opportunity to get the design of the Tsar."

"..."

"If a single person who wants her life will be retaliated by State F, then everyone will participate. Will David in State F blow up Independent Continent for her?"

The young man spoke very casually, as if he was chatting with him about daily chores, his tone did not fluctuate, and was flat.

However, all the words he said caused a storm here in Simon.

Simon can be regarded as a generation of heroes, otherwise he would not be able to lead the Chamber of Commerce Alliance from a low-level small league to its current status.

He thinks he is decisive, daring to think and act.

It wasn't until this moment that he realized that he was just an ordinary person.

The man in front of him looks more like a lunatic.

The poisonous snake lurking in the dark, sinister and vicious, unscrupulous!

But he had to admit that the method proposed by the other party was very good, and it was the only way to save himself and get rid of Qiao Nian.

D.

No matter how many and complicated the forces behind Qiao Nian are, if everyone joins in and starts a hunt that day.

Neither the First Research Institute nor David, the weapons dealer, nor the Ji family, nor Yaomen could be held accountable.

This is the only way to solve Qiao Nian.

Just too mean!

Chapter 3490 Right or wrong is left to the winner

The young man seemed to see his hesitation, and said with a mocking smile: "Right or wrong is for the winner to write. If you miss this time, even if you wait another year, you may not be able to meet the right opportunity."

"Sun is not such an active person!"

sun.

Behind it is the illegal area Hongmeng and f state David.

Feng Yu of the First Research Institute is now saying that she has separated from her. If something happens to her, the old man may not be as serious as he said.

And the Ji family...

Even if Ji Lingfeng is ill, there are still Ji Nan and Xie Yun, behind Xie Yun are Xie Tingyun, Nan Tianyi and others...

These connections form a natural network.

Even if Qiao Nian doesn't rely on Yaomen, her own network alone is enough to guarantee her safety in Independent Continent.

Simon's hesitant expression gradually began to waver.

Because he knew very well that the man was right.

This is the only chance they can touch Qiao Nian. If they miss this opportunity, even if they can touch Qiao Nian, the Chamber of Commerce Alliance will have to pay a heavy price.

Since this is the case, the best opportunity is in front of him, so why should he hesitate!

*

Qiao Nian didn't know that the news that she was going to participate in the event on behalf of Ji's family hadn't spread widely yet, and someone was already eyeing this opportunity and wanted to get rid of her in one fell swoop.

She has been running back and forth for Ji Lingfeng's affairs in the past two days. When she got home, she took a shower, turned off her phone, and took a good night's sleep.

During the period, Qin Si wanted to wake her up for dinner, but Ye Wangchuan stopped her.

Qiao Nian was not disturbed, and fell into a dark sleep.

I didn't wake up until eight o'clock the next morning.

It was already dawn outside.

After she got up, her mind was still groggy, so she went to take a cold shower again, and she was much more awake now.

After she came out of the bathroom, she went to find her mobile phone, took it to the table to charge it, and turned it on by the way.

The mobile phone was placed in the corner by her, she pulled out the chair and sat down boldly, then picked up the glass and took a glass of water to drink.

After sleeping all night, his dry throat was moistened, Qiao Nian's frowning brows relaxed, and he turned on the computer and inserted Ji Qing's USB flash drive into it.

The file in the USB flash drive pops up on the computer screen.

Qiao Nian clicked on the last file, saw the various calculation formulas on it, and then thought of several core arguments discussed with Master Cheng before.

She searched the Internet for relevant literature, but unfortunately these are all high-tech technologies, and there are too few things that can be found on the Internet.

She pondered for a while, and then took a pen to write calculations on paper, but still encountered a bottleneck, and she couldn't figure out what the program that stuck her was doing.

According to her calculations, it is not a conventional procedure, but a reverse procedure.

It's like you don't care what system is installed on a computer, but there is a self-destruct program installed in the middle.

So what is the significance of this computer?

But there is a complete set of programs on Ji Qing's USB flash drive, as if... the anti-program in the middle is a bug that she accidentally wrote wrong and forgot to cross out.

But Qiao Nian knew that it was impossible for Ji Qing to make such a mistake.

Everything in this USB flash drive that she carefully hid is a complete body that has been deduced without any flaws.

All the preceding documents are correct.

It doesn't make sense that the last file she encrypted can still go wrong.

It is still such a major, visible error.

Since the existence of this anti-program is not wrong, it means that she herself has not understood the meaning of it.
