

Madam's 4601

Chapter 4601 Sister Nian is here waiting for them

Three minutes later.

Nie Qingru hung up the phone with a livid face, turned around and said to Ying Ying and the others: "Let me go."

"Empress, are you alright?" Shadow had expected this result, but looked at her a little uncomfortable, afraid that she would be disappointed.

Nie Qingru took a deep breath, pinched her fingernails, tried to calm down and said, "We personally escorted them to the pier and ensured that they boarded the boat safely before leaving."

Old Xue nodded slightly: "That's the only way."

They 'robbed' IPA's truck in the front foot, and the IPA in the back foot came to the door with evidence to ask for an explanation... How can there be such a coincidence in the world.

All coincidences are designed.

Now they have fallen into a trap designed by others. In order to protect themselves, they must ensure the safety of this group of people, otherwise they will become the first objects of suspicion.

IPA is not such a powerful organization.

But standing behind them is the international police.

Everything related to the police, of course, is the best not to offend.

People who have reached their current status will inevitably step on the gray line of business at hand, and rashly offend IPA, which will cause a lot of trouble in the future.

Nie Qingru raised her hand and waved it forward, motioning for the shadow to release him.

She tried to control her ferocious expression with a cold face, and said with a sneer, "Isn't that wicked person waiting for me here? If I don't personally send these people to the pier, who knows if there will be an 'accident' on their way..."

Old Xue was afraid that she would lose her basic judgment because of Zhai Xicheng, seeing that she still knew the priorities of the matter, he bowed slightly and said something respectful.

"The queen is wise."

Immediately afterwards, Mr. Xue comforted her gently.

"It's not far from the pier, it's half past eight, we still have time to hurry up."

"Um."

Nie Qingru thought the same way, so she arranged for her own people to take over the IPA staff's place to drive, and then found a car to take these people with her.

They are in a hurry.

The big truck was followed by an off-road vehicle and a jeep, and the place where the wheels rolled raised sand and dust, and they rushed all the way to the dock.

Fortunately, Nie Qingru was able to make a decision in time.

Wait for them to rush to the pier and find the handover personnel of the IPA at the pier.

Hand over people and goods to them when they are about to leave.

One of the fat-headed men in charge of the handover ran over quickly to stop them.

"Empress."

"Please wait a moment."

Nie Qingru and Xue Lao had to stop and wait for him to come over to see what he was going to do.

The fat-headed man trotted over in three steps and two steps at a time. After running in front of the two of them, he propped his hands on his knees for a while, then pushed his glasses and said to the two of them.

"That... Queen, Mr. Xue. The goods in it are wrong."

"What?"

The old man in the blue shirt hadn't realized it yet, so he subconsciously asked.

The fat-headed man had an embarrassed expression on his face, looking at the two of them with suspicious eyes, and pretended not to doubt it.

"I mean the quantity of goods inside is wrong. Among them, the boxes of antique calligraphy and paintings that Kevin secretly took from major museums are missing."

Nie Qingru's eyelids twitched: "Do you suspect that we took it?"

The fat-headed man immediately said slickly: "I didn't say that."

"But now the goods are out of order, and a box of valuable antique calligraphy and paintings is missing. I, a small staff member, can't bear the responsibility. Why don't you two stay and find out the whereabouts of the box of calligraphy and paintings before leaving?"

Nie Qingru's face turned livid: "I'm in a hurry!"

Chapter 4602 The dumb eats coptis, the old witch suffers a lot

The fat-headed man nodded, with an understanding expression, and turned sideways to make way for the two of them: "Those two go to work first, I will report to the higher-ups, and I will notify you of the results later."

"..."

It's not obvious that you left. If you leave, you will steal something and run away.

Nie Qingru was about to be driven mad by the sudden situation in front of her. She gritted her teeth with a distorted face and said, "We didn't take your things. Unless your things were not in the car in the first place, it is impossible for them to disappear."

"You said that."

The fat-headed man is not happy anymore.

"We were going to hand over the goods to the headquarters today, so how could we not take them away at once. No one knows that you, the empress, will hijack the car. How could it be possible to realize the premeditated plan?"

Nie Qingru gritted her teeth: "You don't know, someone will know!"

"Who knows." The fat-headed man said, you can say whatever you want.

Old Xue gently tugged Nie Qingru's sleeve, and calmly shook his head at her, telling her not to have another conflict with the IPA people here.

They were obviously counted by Qiao Nian again.

Qiao Nian didn't know how they knew they were ambush there, and deliberately arranged for the IPA people to deliver the goods, so that they could intercept the wrong person.

Then she calculated that it would be impossible for them to let the IPA staff go by themselves in the future. Just in case, most of them would personally **** these people to the pier.

Even calculated the time, knowing that they might ask their own people to drive in a hurry...

In this way, the right time, place and people are in harmony, and the handover personnel at the IPA wharf will definitely doubt them when they find that a box of antique calligraphy and paintings is missing.

All the evidence was against them, they couldn't tell.

Nie Qingru briefly calmed down when she was pulled violently by Mr. Xue.

She struggled to catch her breath.

"How much is the box of calligraphy and painting?"

"This... Those calligraphy and paintings all come from collections and museums all over the world, and the minimum estimate starts at 10 digits."

"..."

Nie Qingru gushed old blood into her throat again, her eyes turned black with anger, she held on to hold on, and looked at the person blocking the way expressionlessly.

"We are in a hurry right now, so we really can't stay and look for that batch of goods with you. But we did not take that batch of goods, and I am willing to cooperate with you in the follow-up search. In addition, I will personally promise that if you fail to find that batch in the end goods, I will compensate the IPA at the market price."

When the fat-headed man heard the compensation, he immediately took the initiative to bow deeply to Nie Qingru, and smiled when he looked up.

"You understand the righteousness, thank you for all the staff on behalf of IPA's handover and escort!"

"..." Nie Qingru couldn't even squeeze out a smirk, the corners of her mouth twitched several times, leaving only a grinning face.

Her temples were throbbing violently, she turned around and said to the old man in green shirt beside her, "Let's go."

...

The two left the pier and joined Shadow and the others.

The shadow met Nie Qingru and saw Nie Qingru's complexion was extremely dark, as if he had been greatly stimulated by the spirit: "Queen, are you okay?"

He raised his eyes and asked the old man in green shirt beside him: "Old Xue, what happened? Didn't we return the people and goods to them? Are they still embarrassing you and the queen?"

The IPA is too rampant and does not give face.

Who knew that the old man in green shirt shook his head: "We were tricked by Qiao Nian."

Shadow: "What do you mean?"

The old man in the blue shirt was about to explain.

Nie Qingru picked up her mobile phone and walked aside, saying to the two, "I'll make a call."

Chapter 4603 She is not from the island, but also my blood

Old Xue looked at her cold back, and briefly told the worried shadow about the unexpected situation inside.

Then he said: "We have suffered from being dumb this time, and we haven't been able to explain it, and we can't explain it clearly. If we can't find that batch of goods later, the Queen will need to compensate the IPA for a large sum."

He probably said the number.

Shadow suddenly looked at Nie Qingru's back, his heart tightened, and he didn't know what to say for a while.

The queen's personal financial situation is not good.

In the good old days, the relatives of the Nie family often caused troubles, and from time to time she needed her to clean up the mess.

Some messes not only need her old man's face, but also need to spend a lot of money.

Therefore, there are many kinds of rare treasures in the queen's private treasury. When it comes to cash flow, they are not rich.

The directors of Smith Bank are still staring at them, and several people are watching them at any time, trying to catch the Queen's fault, so as to remove the Queen's chairman position...

This money... It can be said that hitting their waists is as uncomfortable as choking seven inches.

"After all, the information provided by those people is still wrong. Otherwise, we will not be fooled, and we will be hit by IPA precisely."

Old Xue sighed.

Shadow hesitated to speak, but it was hard to tell him about the island.

They can mess with the IPA, but they can't mess with the island.

There are rules on the island.

Partners are not allowed to divulge their information.

Otherwise, the cooperation will be terminated immediately, and they will be held accountable in the future.

Shadow clenched his fists, and turned his head to look at the person who was calling. His heart was suffering, and thousands of emotions were surging, but he could only stand here and watch helplessly.

...

"What we stopped was not the vehicle transporting the West City, and there was no Qiao Nian on it, but the IPA transport vehicle..."

"The information you gave me is all wrong!"

"I don't want to argue with you about responsibility. The matter has reached this point. It is necessary to remind you. I believe in the strength of the island, but that evil obstacle is not easy to mess with. If you continue to be unclear about the monitoring, I don't expect You can help me save people!"

The voice of Ying Ten came from the other end, and it was rare that it was not as tough and domineering as before: "This time we made a mistake, and it will never happen again in the future."

"You come to the square first, we are already here ready."

"Also, can you tell me more about what happened this morning?"

Nie Qingru told how they waited there in the morning.

How to intercept the vehicle according to the command of the hacker on the island, and how to find out that the other party is not from David at all, but from IPA...

Nie Qingru briefly skipped over how Qiao Nianyuan put them together thousands of miles away in the end.

"I said earlier that she is not an ordinary person. Even if she is not from your island, she is still of my blood. It is not so easy to deal with."

Ying Ten did not respond to her directly, but said: "You come to the square to meet us first, and we will talk about the rest later."

Nie Qingru took off her phone to check the time. It was already close to 9 o'clock, and there was only one hour left before the execution show that was announced to start at 10 o'clock.

She knew she couldn't waste any more time, so she said something to Ying Shi, hung up the phone, turned around and went back, called Ying Ying, Mr. Xue and others to rush to the square.

**

the other side.

Ying Ten also hung up the phone and walked towards the brothers in charge of peripheral monitoring.

He steps behind the hacker.

"Call out the monitoring at that intersection."

Chapter 4604 The monitoring problem is only discovered now

"now?"

The hacker didn't know what happened to Nie Qingru and the others, so he turned around and saw Yingshi's serious expression and asked him to call out the surveillance.

He didn't dare to delay, and operated the mouse to find out the surveillance cameras at the intersection they hacked into before, and let Ying Ten see it.

"This is it, Captain."

Inside the video screen.

The road was quiet, as if there was nothing special.

Ying Ten said again: "You find out the surveillance in the morning, that is, the surveillance where the three trucks appeared."

"Okay." The hacker immediately operated again, flying his hands on the keyboard, and quickly found the monitoring memory screen in the morning through technical means, called up that screen and clicked on it for Ying Ten to see.

"Play in multiples of 2."

"yes."

The playback speed of the screen on the screen is accelerated, but you can still clearly see how the three cars appeared and what happened behind them.

Until Ying Shi said something.

"Rewind the video to the node where the car appeared."

"Uh, okay."

The hacker operated the computer again and returned the video to the original place again.

This time the film ten requirements.

"Slow down, play four times slower."

"..."

This was so fast and slow that the hackers were completely confused. They didn't know what their captain was going to do.

This video looks fine.

But what they learn on the island is to obey orders.

So even though he didn't understand what Ying Ten was doing, he still obeyed the order personally, and slowed down according to Ying Ten's request.

Now they discovered the clues inside.

"pause."

"yes."

Not to mention the movie ten, the hacker also noticed the subtle difference, and double-clicked the mouse to pause the screen.

"Go back."

"yes."

The hacker returned the video again, and played that scene repeatedly three times.

Both of them saw the clipping deviation of that moment.

Before the three cars appeared, the surveillance images they saw seemed to be motionless until one second before the three cars appeared.

The monitoring screen seems to have been switched.

The same picture shows traces of grafting.

It's like the Vcr (video) that has been played for them before, and then suddenly cuts to the live broadcast, and the screen will have flickering traces.

But such traces are difficult to capture.

With good technology, it will not even be noticed by the naked eye.

The hackers didn't notice the flash, but when they played it at a slow multiple afterwards, the 0.01 second was amplified.

He caught this scene belatedly and realized that he was being tricked.

"No, it's not possible."

He couldn't believe what he saw with his eyes. He immediately put his hands on the keyboard and typed at a very fast speed. The monitoring on the screen was immediately replaced by various dazzling codes. The green codes covered the screen, and the fast forward superior.

The hacker did not dare to relax his nerves, and hacked into the background of the intersection monitoring in the nearby area for the second time.

He remembered the first time it was clearly successful.

His background command shows that 100% of the monitoring authority has been taken over. How can there be a grafting screen in the playback monitoring?

Hackers are full of doubts and desperately hacking, wanting to prove their abilities.

Finally, the progress bar for him to take over the background command appeared on the computer again.

The hacker turned his head and said confidently to Ying Shi beside him: "As long as this password takes over the background again, we will know whether there is something wrong with my intrusion."

The voice just fell.

The computer screen suddenly beeped.

Ying Ten immediately looked at the computer with a high level of nervousness: "What's going on?"

Chapter 4605 Sister Nian: Get lost

"I don't know, no, it's not possible." The hacker on the island was also dumbfounded, operating in a hurry, trying to turn off the alarm.

"Didi!"

The alarm sounded louder and louder.

The computer screen is still glowing red.

Red means danger.

Most people will concentrate and become highly nervous when they see red, let alone the red light suddenly appearing from their computer.

Immediately attracts people around.

After a while of fuss, the hacker not only did not turn off the strange sound of the computer, but he seemed to have been deprived of the right to use the computer.

He entered several commands, but nothing came of it. There was no feedback from the computer at all, and the codes on it ran wildly.

"how so."

"impossible."

He is also one of the best hackers on the island.

Otherwise, they are not eligible to join the Shadow Ten team.

The scene at the moment made him completely lose his mind. He left the keyboard with both hands, and stared blankly at the computer that didn't listen to commands at all.

"How can it be."

A hacker's weapon is his computer.

It's like a soldier's weapon is his own gun.

He never thought that the right to operate the computer could be seized by someone in his own hands.

The hacker remembered that he had lost like this once before.

That time, shortly after he was selected on the island, he competed with Miss Elena on the island, but Miss Elena took control of the backstage.

The hacker's expression turned green, white, and red, like an overturned palette, unable to accept the reality in front of him for a long time.

It's nothing to lose to Miss Elena.

Miss Elena is the leader of the younger generation on the island.

But he was outside the island, so what happened to his inexplicable loss?

at this time.

Yingshi's deep voice came from beside him.

"coming."

The hacker cheered up and looked at the computer screen.

I saw in front of them.

The computer screen is like a tablet.

They clearly saw someone operating on the opposite side and entered a series of words.

"Who are you?"

"Captain." The hacker looked anxiously at the string of English words that popped up on the computer screen, raised his head, and looked up at the young man beside him.

Yingshi looked at the screen without squinting, and soon saw that there was another sentence appearing on the screen while typing again.

"It doesn't matter who you are. If you want to leave Continent F alive, don't get involved. Otherwise, I won't care who is behind you. You all have to stay here."

The hacker has never seen such an arrogant person, and opened his mouth: "Does she know who we are, dare to speak like that."

Tsk, don't let them leave?

I haven't encountered such a thing on the island.

Ying Ten had a dignified face, only looked at the computer screen and said softly: "She can see us, turn off the computer's camera."

"?"

The hacker didn't respond.

Ying Shiyao Jishou quickly found a piece of paper and poured water on it and pasted it on the front camera of the computer, covering the camera of the computer in the most primitive way.

The people over there seem to be sitting opposite them.

A string of words quickly appeared on the screen.

"hehe."

"interesting."

"Then I will give you another piece of advice."

The hacker raised his vigilance subconsciously, still thinking about what the advice is, let them leave here or other warnings.

Who knew that the computer suddenly enlarged a word.

-"roll".

Simple and rude.

It was different from the earnest negotiation he imagined.

The other party is more irritable and impatient than them, crazier and more arrogant than them, doing things to the extreme!

Chapter 4606 They are here

Immediately afterwards, before they could react.

The hacker sees his computer self-destruct itself.

His face turned green immediately.

Every hacker's computer is their lifeblood, and there are a lot of information and programmed software programs in it.

If the computer is gone, all their previous data will be lost, and it will take more effort and time to get it back.

"No..."

He didn't finish his saving words.

Just a crunch.

A series of sparks burst out from the computer keyboard.

Immediately afterwards there was the sound of crackling and scorching.

Then the black computer spontaneously ignited under everyone's noses.

Shadow Ten reacted quickly and immediately ordered others.

"Take water to put out the fire."

"yes."

Someone picked up mineral water and poured it on the computer, only to hear a hiss, the open flame went out, and a burst of black smoke came out.

The hacker dared to approach and quickly removed the data board inside, and the next second he fell down and sat down on the seat, looking up and talking to Ying Shi.

"Captain, the motherboard is burned."

He was holding a burnt data board in his hand, and his face was stained with burnt black dust. He looked extremely embarrassed, and he didn't have the confidence he had before.

Dejectedly admitted.

"You're right, we were tricked."

"Yesterday, I couldn't hack into the background of the intersection monitoring at all. They gave me wrong information, which made me mistakenly think that I had hacked into the background..."

The hacker had difficulty speaking every word.

Lose to someone outside the island.

It was like a slap in the face to make him unable to accept his failure.

"I'm incompetent." The hacker lowered his head, unable to raise his head.

Ying Ten took a deep breath, stabilized his mind from this series of changes, put his hand on his shoulder and patted him silently twice.

Said with a serious face.

"stand up."

"We still have tasks to complete!"

The hacker raised his head and looked at him blankly.

Ying Shi looked at him blankly with his hands behind his back, with a kind of calming power: "Just because you haven't won against them, doesn't mean our entire team has lost."

"Our goal is to rescue the hostages smoothly. The episodes in the middle are harmless. As long as the final result is good, we have not failed."

"My team is not allowed to fail!"

He said so.

The people around him quickly regained their composure from the previous setbacks, including the hacker who was beaten so badly that his eyes became firm again.

Shadow Ten found someone to find him a new computer, and then said to him: "Continue to stay at your position and obey my orders."

"Yes, Captain." The hacker cheered up and spoke loudly.

at the same time.

It's nine o'clock.

Many people have come to the square, and more people have come over one after another, all of whom have come to watch the execution show of David, the diamond tycoon, who was executed publicly for the first time in these years.

There are a lot of people here.

Everyone was noisy, but they all followed the rules of Continent F.

Look and see.

Speaking belongs to speaking.

Everyone is in an orderly area where they can move, and no one crosses the yellow line and runs to the middle of the square.

Another few minutes passed.

A motorcade rolls in through the gravel.

A bright red flag was planted in front of the convoy, and the red flag was fluttering in the wind. Everyone in the place where the convoy passed stayed away and voluntarily gave way to a road that could allow the convoy to pass.

Ying Ten saw the black snake totem on the flag, his eyes sank slightly, his expression calmed down, and he said to the people around him: "They are here."

Chapter 4607 sun is not in it

The people he brought all looked towards the focus of the crowd's attention, only seeing the solemn row of convoys that were incompatible with the lively atmosphere around them.

The air around the place where the convoy passes decreases in temperature.

Obviously no one showed up, but it gave people a kind of **** aura that had been tempered a lot.

The people he brought from the island fell silent.

One of the men with a square face spat in a low voice: "When will there be such a person in F continent?"

The convoy drove to the middle of the square.

Among them, a dark-skinned woman in a vest jumped out of the big jeep headed by the leader. The woman had neat dreadlocks and her facial features were not outstanding, but she had a style that can only be found in F continent.

As soon as the man came down, the men who watched the excitement in the square began to cry.

"Shh~"

Whistle.

"Spring Thunder!"

"Spring Thunder Spring Thunder."

Cheers.

Everywhere is the sound of the crowd shouting.

The woman who got out of the car was no nonsense. She took out a gun from her waist and shot it at the sky.

With the gunshot of 'bang'.

She aimed her gun and circled around, coldly warning the onlookers.

"Which little **** called my mother's name again, and my mother shot him dead."

"Ugh!"

The crowd burst into cheers and applause. They seemed to like Chun Lei's rough approach and were not angry at all.

Chunlei ignored the group of booers.

Following the monkeys and others on the jeep behind, they all got down.

The noisy voices in the square gradually quieted down, and everyone was staring at their next actions intently.

Soon Chun Lei pulled a man out of the car. The man was staggering and pulled out of the car with his head covered. Because he couldn't see, he stumbled and almost fell to the ground.

Fortunately, Chunlei didn't let go of his hand, and dragged him to stand still, before pulling off his hood with a gun in front of everyone.

To the handover who came over to perform the execution show.

"Come, check the goods."

The handover staff glanced at the person, and immediately smiled: "No need to test, we just go through a process, where can we test David's goods."

"We will execute whoever you send here. The identity of this person is not important to us, do you think so?"

Chunlei tilted his head and glanced at him, quite satisfied: "It's pretty good."

The man immediately smiled, then bowed his head respectfully.

Chunlei took the gun away and pushed the man to him: "Take it, tie him up. We'll start working when the time comes!"

"OK."

The handover person made a gesture.

Soon, two people came over and restrained Zhai Xicheng as he walked towards the execution ground in the square, and quickly tied him to the pillar.

The handover person didn't even look at Zhai Xicheng, and politely asked Chunlei for his opinion.

"Need to hang someone up?"

Chunlei glanced at the sky, the sky was covered with dark clouds, it could be seen that the weather was not good, and there would be thunder and rain later.

She withdrew her gaze and said to the handover person, "No need."

"OK."

The handover personnel went to prepare according to her instructions.

Chunlei, Houzi and the others walked aside to find a place and prepared to stay here.

...

In the crowd.

Looking around with a Chinese character face, he didn't see any young girls, turned his head and asked himself the captain: "Captain, is the sun you mentioned among these people?"

Ying Ten also looked around, but when he didn't see the person in the photo, he shook his head: "Not here."

The face of the Chinese character was a little worried: "It's strange, she is not the leader of these people? Why are these people the only ones? Where did she go?"

Chapter 4608 The old hag finally met Zhai Xicheng

Yingshi said expressionlessly, "I don't know."

The Chinese-character face was a little uneasy: "If you can't find the sun, will there be an accident?"

They originally planned to start the operation after confirming the location of everyone, but now they lack the location of the most important person, which always makes people extremely disturbed.

Ying Ten also understood this truth, and pressed his arms down, signaling the people around him to keep a low profile.

"Let's have a look first."

"Yes, Captain."

Everyone obeyed his order, pressed the headset on the cochlea, lowered the peaked cap, and minimized their presence in the crowd.

Ying Ten walked behind the hacker by himself, looked at the hacker who switched to another computer and restarted it, lowered his eyes, and looked down at him.

"You find a way to find the location of sun."

The hacker raised his head in surprise: "Captain, do you mean that I can hack into the network around here?"

Before the captain did not allow him to invade the network roughly, he was worried that he would startle the snake, so why did he change his mind in a short time.

Ying Ten didn't hide it: "Sun already knows about our existence. Since that's the case, there's no need to hide it because everyone is a clear card."

"You find a way to hack into the network. As long as the speed is fast and you can find people, it doesn't matter if you alarm them, just let it go!"

"Yes, Captain."

The hacker rubbed his hands together and grinned.

"What I am best at is not tampering with the background, but viral intrusion. I couldn't let go of my hands and feet to do it before. It really suffocated me!"

The other party is a computer expert.

Masters always like to compete with masters.

He has long wanted to let go of his hands and feet and have a fight with the other party to see who is more powerful, instead of being afraid to say anything when someone smashes his computer like a grandson.

Ying Ten walked over and held his left shoulder, reminding him in a deep voice: "She is not easy to deal with, you should be more serious."

The hacker put on the earphones for himself, made an OK gesture, his hands started to soar on the keyboard, his whole body was poured into the new computer, and his eyes burst out with hot light.

Anyone with a discerning eye can see that he wants to compete with Sun, the legendary uncrowned king of hackers outside the island, in the field of virus invasion...

"Find her location and call me."

Ying Shi patted his shoulder lightly twice, and then went to do other things.

...

Today is indeed not a good weather.

Not to mention the dark clouds in the sky, the wind is blowing.

The wind blew the low clouds in the sky and ran forward, and the cold air was raging. The red flag planted in the center of the square became more colorful under the dark sky.

The totem black Teng Snake on the top blends with the red of the flag, and the Teng Snake majestically stands above as if it has eyes, watching the crowd below.

Nie Qingru and the others saw this scene when they came.

A man with a hood was tied to a stake in the center of the square. The man's hands were hung above him. When the wind blew past, his clothes were messy and shabby, and a corner was rolled up, revealing his bony body.

"Qiao Nian!"

Just seeing this scene, Nie Qingru's eyes were filled with red threads, he clenched his fists tightly, and almost rushed out with energy and blood all over his body.

Fortunately, Shadow and Mr. Xue teamed up to stop him.

both reminded her.

"Queen, don't be impulsive."

"Queen, you can't go there."

Nie Qingru looked at the man hanging in the center of the square from a distance, bit his silver teeth, his hands trembled slightly, and the blood vessels on his neck bulged.

"She's capable of killing me."

"She dare not."

"She didn't dare to look for me, so she took Xicheng for surgery!"

"Is she still human?"

"This evil obstacle!"

Chapter 4609 I am not calm when it happens to me

The same thing happened to Xu Yi and Shen Qingfeng before. After she heard about it, she just said to Shadow lightly, 'It's not dead yet'.

Now that Zhai Xicheng has not reached the moment of life and death, she can't control her emotions and gnashes her teeth and scolds Qiao Nian for implicating a third person.

Even Mr. Xue and Ying Ying couldn't answer her question, they could only keep silent.

The identity of Mr. Xue is here, after a short silence.

He let go of Nie Qingru's hand and said, "Queen, our purpose is to save people, not to argue about who is right and who is wrong."

"I know." Nie Qingru took a deep breath and tried to calm down, but her complexion was extremely bad, and she said she knew, but she couldn't hide the look in her eyes that wanted to kill someone alone.

No matter what she thinks in her heart, Mr. Xue finished speaking on her own.

"This is Continent F, their territory. Since Qiao Nian asked us to come, she must be nearby."

"This time I tried my best to overcome everyone's opposition and come to save people with you. I hope you can control your emotions and don't let everyone's efforts go to waste."

Nie Qing is so smart that he can hear the meaning behind his words.

Even though she was so angry that she wanted to go out and let Qiao Nian get out, she still forcibly suppressed the murderous urge in her blood. Forced a smile: "Don't worry."

Seeing Xue Laosan's two words, the shadow made the queen calm down again, heaved a sigh of relief, and turned her body sideways to get out of the way ahead.

Nie Qingruo really calmed down a lot, stopped looking at the people hanging in the center of the square, turned around and asked Shadow: "Where are Ying Ten and them?"

Shadow opened his mouth and replied: "I contacted them before I came, and they should come to find us soon."

The voice just fell.

He saw someone walking through the front left.

Shadow pointed in that direction, motioning Nie Qingru to look.

"coming."

"There is the queen."

Nie Qingru looked in the direction of his finger, and sure enough, he saw Ying Shi who had changed his disguise and was walking towards them steadily.

The bodyguards of the Hidden Family had been defeated by Ying Shi before, and they knew how arrogant these people were, so they watched Ying Shi come over.

The bodyguards made a commotion, their eyes showing defensive emotions.

...

The Shadow Ten had tall legs and long legs, and they walked up to them in just a few steps. He directly said to Nie Qingru, the leader: "Our people are over there, follow me."

His attitude and tone are not good.

Shadow deliberately said something, raised his hand and remembered the dispute last night, put it down silently, and said softly: "Queen, it is important to save people."

Nie Qing doesn't know that saving people is the most important thing, but since she asked for help, she has been getting angry everywhere, and no one takes herself seriously.

Even so, she still had to swallow her anger in order to save someone, and followed with a livid face.

She took the lead to follow.

Xue Lao and the others followed behind her, and Ying Shi also followed.

Shadow Ten quickly led them to an inconspicuous corner.

Nie Qingru looked around and saw the sweaty man squatting there at a glance. The man was sitting cross-legged on the ground with a laptop on his lap.

It was the hacker they saw in the battalion commander yesterday.

When Ying Shi came over, he asked.

"Did you find the location?"

The frantic hacker took the time to raise his head, without noticing Nie Qingru and the others: "I just hacked into the nearby network, and the hacker hacked into my computer. They should have been waiting for me there."

"She can also use viruses. We threw viruses at each other and are deciphering each other's viruses. Whoever will soon be able to master the Internet."

Chapter 4610 needs at least half an hour

Ying Ten asked: "Sun?"

"Not like."

The hacker kept typing out various codes on the keyboard with both hands busy, and he had to answer him.

"Sun's style is domineering. This person is a master, but he doesn't have that domineering style. Instead, he's a bit... playful."

"..."

Shadow Ten fell silent.

If you are not a computer expert, it is really difficult to understand what he said about everyone's different styles.

Where does the style of the code come from.

However, when it comes to the top level masters in this field, everyone's codes have their own unique style.

Miss Elena is confident and calm.

sun is domineering and powerful.

Now this person is neither... the kind who seems to deliberately play cat and mouse games with him, who likes to go around in circles.

Ying Ten didn't care about these things, and asked him concisely.

"How long will it take you to determine the location of the sun?"

"this..."

The hacker is distracted for a moment.

Just a short moment.

Two letters popped up on the computer screen.

KO!

The hacker's face changed slightly, as if he didn't expect that he would suddenly change the speed and solve the virus he threw in the past if he was distracted for less than a second.

Anti-hack his computer and throw it out for him to mock.

He immediately lowered his head to check his computer, and found that the other party only invaded his computer, and did not destroy his computer data disk as before.

Didn't even detonate the virus that had been dropped on his computer in the first place.

It seems that the other party is just playing with him, playing a 'marathon' game.

Now the game is won.

The other party just told him to win or lose, and didn't take the opportunity to do anything to him.

After the hacker was stunned for a short time, his fair face suddenly flushed red, wanting to be greatly humiliated, and immediately wanted to compete with the other party again.

"Captain, give me another half an hour."

He put his hands on the keyboard again, and followed Yingshi Guarantee without looking back.

"Give me another half an hour, I will definitely beat her and get the network here! Then we will find someone through the network..."

Shadow Ten had a panoramic view of the scene just now, and seeing how his subordinates refused to admit defeat and wanted to come again, he knew that even if he was given another half an hour, it would be difficult for them to find Qiao Nian's location...

Nie Qingru could also see clearly, but her complexion was not very good-looking.

"This is the strength of your island?"

"Ms. Nie."

"I'm looking for you to cooperate because I value your ability!" Nie Qingru interrupted him with an emphasis: "If your ability is only that, why should I be polite?"

Shadow Ten's expression became embarrassing.

But Nie Qingru's words are like a knife blade in front of him, and they are the facts at the moment.

"I paid a lot of money to find you. If you only play this kind of children's tricks, I don't need you."

Ying Ten said, "Give us another 20 minutes."

Nie Qingru narrowed her eyes, but did not respond immediately.

Ying Ten took out his mobile phone to show them the time, and then said: "The execution show starts at ten o'clock, and it's half past nine, give me another twenty minutes. If our people don't decipher the network here in these twenty minutes, Let's start plan B."

Nie Qingru discussed Plan B with him, and knew what Plan B was referring to. He let go and said, "Then wait another 20 minutes."

Time passed by every minute, and every second was a long torment for Nie Qingru and others who were waiting in the square.

On the other side of the square, in a secluded corner that is also rarely visited by people, Guan Yan is looking at the computer screen, with an opened can of Coke on hand...
