

A Man Like None Other Novel

Chapter 2509

The realm of heaven and man.

The vast mountains, towering old trees, and dense forests!

And under a thick tree, a figure lay quietly and motionless, as if dead!

A wild wolf approached slowly, looked at the figure vigilantly, and then looked around. After confirming that no one was in ambush, it walked up to the figure and sniffed it lightly!

Then the wild wolf lightly touched the figure with its paws, and found that the figure was motionless, so the wolf was relieved, and opened its mouth bloody, and was about to bite it down!

But just as the wild wolf opened its mouth to bite down, suddenly an arrow feather shot over!

Whoosh...

The arrow feathers pierced into the wolf's body in an instant, and the injured wolf howled, gave up on the person in front of him, and turned his head to run!

But five or six people rushed over from not far away, all with weapons, and surrounded the wild wolves!

The wild wolf was injured and was quickly killed by these five or six people!

After killing the wild wolf, several people walked up to the figure!

After looking at the figure lying on the ground, a girl among them exclaimed, "Brother David..."

This girl is Yun'er, whom David rescued in the Heaven-Human Realm not long ago!

Today she went out hunting with Ali and a few young people in the village, but she didn't want to save David!

At this time, David's face was extremely pale, his eyes were closed tightly, and the breath on his body was extremely weak, as if he could die at any time!

And beside David, the God King Bow was lying quietly. When David was sucked into the black hole, the God King Bow hadn't had time to put it into the storage ring!

"How could this person be so seriously injured? The breath on his body is very weak, as if all the energy in his body has been drained!"

Ali frowned tightly as he looked at David.

To know David's strength, Ali has seen it with his own eyes. Such a powerful person has suffered such serious injuries. Could it be that there are other masters around here?

Ali became vigilant at this time. They lived in this area of Dashi Village and lived by hunting and gathering herbs. They had never met anyone with particularly strong strength, but now David's strength has been severely injured. , It can be seen that the opponent's strength is stronger!

Now that such a master suddenly appeared around the village, Ali had to be vigilant, if this person had plans for Dashi Village, then their village would be destroyed!

"Take the corpse of the wild wolf quickly, we will leave here immediately..."

Ali quickly gave the order!

Soon, several people lifted the wolf's body, and Yun'er looked at Ali and said, "Brother Ali, let's save Brother David? If it wasn't for Brother David last time, I would have been eaten by monsters!"

Yun'er's eyes were full of tears, begging to Ali!

Although David saved Yun'er last time, he did not do anything to Dashi Village, but Ali has long been wary of David!

This time it happened again, he didn't want to save David, nor did he want to cause trouble for Dashi Village, if David's enemies knew about it, then their Dashi Village would be over!

"Yun'er, it's not that I don't want to save him. This person must have had a deep hatred if he was beaten up like this. If we rescue him and his enemies come to him, our entire Dashi Village will be over..."

Ali said to Yun'er !

Yun'er also knew Ali's worries, and knew that doing so would bring danger to Dashi Village, so she said, "Brother Ali, let's go, I will stay with Brother David."

"Yun'er, this place is full of monsters. If you stay by yourself, you will definitely be eaten by monsters, and this person will die immediately, we can't save him at all!"

Ali persuaded Yun'er!

“If brother David dies, then I will die with him. He gave me my life. Since I can’t save him, then I will return my life to him...”

Yun’er said firmly!
