A Man Like None Other Novel

Chapter 2518

"The smell of human blood, someone in front must have been injured!"

After the demon wolf passed by, David smelled a strong smell of human blood from the wolf!

"Human blood? Could it be Ali and the others?"

Zhu Zi said nervously!

"Go, go and have a look…" David took the pillar and followed the smell of blood to find it!

Soon they found an unrecognizable corpse that had been eaten. It was obvious that this corpse had been eaten by the demon wolf just now!

"Wow…"

Seeing the corpse, Zhu Zi immediately vomited. He was a child after all, and he had never seen such a bloody scene!

David frowned slightly, bent down to examine carefully, but because his face was completely changed, David couldn't recognize who the corpse was!

"Zhuzi, do you think this is from Dashi Village?" David asked Zhuzi!

Zhuzi could only cover his mouth and nose, and forced himself to look twice, then shook his head, "This is not true, these are people from Daqing Village, their clothes can be identified!"

"How could people from Daqing Village appear in the Here?"

David frowned slightly, a little confused, "Could it be that the people from Daqing Village captured Yun'er and the others, and instead of going back to Daqing Village, they went deep into the mountains?"

David thought for a moment, then Standing up, he glanced at the unrecognizable corpse. This is the world of heaven and man that everyone yearns for in the secular world, but the people here are struggling desperately for food and clothing all day long!

"Brother David, is it possible that the people of Daqing Village used Brother Ali and the others as bait in order to capture high-level monsters?"

Zhu Zi asked in confusion!

"If people from Dashi Village were used as bait, how could it be people from Daqing Village who died here? Let's catch up and see!"

After David finished speaking, he took the pillar to speed up!

Along the way, David kept observing the surroundings. He saw bloodstains on some trees, and it was human blood. If you follow the bloodstains, you should be able to catch up!

"Aw..."

All of a sudden, when David was chasing Zhuzi all the way, a monster wolf rushed over instantly, staring at David and Zhuzi with two gloomy eyes. Full of blood!

But it seemed that this monster wolf was not full, so it set its sights on David and Zhuzi!

The aura emanating from this wolf demon was very terrifying, which made David frown slightly!

"It seems that my strength recovery is still too little, and I didn't find this monster wolf in advance."

David muttered to himself!

With David's ability, if he hadn't been injured before, even if he was separated by several miles, David would be able to sense the terrifying aura of the demon wolf very quickly!

But now that the demon wolf was in front of him, he realized that his strength had recovered too little, and his consciousness hadn't recovered either!

Holding a long knife, Zhuzi looked at the demon wolf in front of him, his legs trembled violently, he was terrified, he was terrified to death!

Now it's just him and David, how can we deal with this monster wolf!

David stretched out his right hand and grabbed towards the void, instinctively wanting to grab the Dragon Slaying Sword in his hand!

It's a pity that the Dragon Slaying Sword didn't appear, the sword spirit Zhongli was injured, and he was recuperating at this time, David forgot!

And the pillar on the side watched David's open right hand constantly grasping it, thinking that David didn't have a weapon and was asking for a weapon from himself, so he handed the long knife in his hand to David's hand!

Looking at the long knife, David could only smile lightly. Having a long knife in hand is better than bare hands!

"Roar…" The

demon wolf roared angrily, and then his body turned into an afterimage, rushing towards David very quickly.

Seeing this, Zhu Zi backed away in fright, his face pale!

Holding a long knife in his hand, David was also ready to fight. After all, David himself didn't know how much strength he had recovered!
