

A Man Like None Other Novel

Chapter 2553

Chapter 2553

"Maybe you don't know that we orcs cannot marry humans. Even if we marry, we can't have children."

"In our Demon Imperial City, many people have feelings for humans, but in the end But none of them can have a child!"

"So for a long time, we have always believed that the combination of human beings is against the will of God, so we will be punished by God and cannot have children!"

"But after seeing you, I really want to know how you were born, and why your parents will not be condemned by God?"

Princess Isa explained carefully!

David was dumbfounded when he heard it, but he never knew that there is such a rule that beast races cannot marry humans with them!

What's the situation if you can't have children after marriage?

Then I and Huofeng have combined, are the two of them against God's will?

"Princess Isa, I really can't explain your problem to you, because I don't know what's going on with me!"

David said with an embarrassed smile!

David has never even met his own father, so how could he know why he was born!

"It's okay, when my father comes back, he may be able to see some reasons, you should stay here for one night first!"

Princess Isa left after finishing speaking!

David looked at the Guixin Pill, but he didn't eat it, but put it directly in the storage ring. Although Princess Isa looks good, David is not strong enough now. After checking out the ingredients, I dare not eat casually!

David pushed open the window of the room. Through the window, David could easily see the entire Demon Imperial City, which was also brightly lit!

After looking at it for a while, David opened the door and walked out. He wanted to walk around and take a look at the Demon Imperial City.

The guards in Demon Imperial City are not particularly strict, maybe the reason why it is very safe here is that there are not many guards!

David wandered around aimlessly, looking at the somewhat exotic imperial city!

Just as David passed a room, there was a faint smell of sandalwood coming from the room, David pushed open the door and walked in by accident!

After entering the room, David realized that it was a study room, and there were various books on the double wooden bookshelves!

David picked up a book and flipped through it casually, only to find that there were some obscure characters on it. These should be orc characters, which are different from human characters!

David flipped through several books in a row, all of them were the same words, David couldn't understand at all!

"These are all bird essays, I really can't understand a single word..."

David put the book back helplessly, ready to leave here!

But soon David stopped, he seemed to remember something, and picked up a book again!

But this time, David didn't look at it with his eyes, but gently stroked the book with his hand, and soon a divine sense wrapped the book!

At this time, in David's sea of consciousness, the Wordless Heavenly Book radiated light, and the contents of that book, like a trickle of water, slowly flowed into David's memory!

It only took a moment, and now David could not understand a single word of the books, but now he memorized them all, and the words were correct!

A smile appeared on the corner of David's mouth, he put the book back casually, picked up another book, and prepared to memorize it in the same way again!

If David can memorize so many books about the orcs, then he will definitely have a deeper understanding of the orcs!

But just when David was about to repeat the old trick, the door of the room was suddenly pushed open, and then a group of gold-armored warriors rushed in!

"It's so courageous to trespass into the Demon Emperor's library, courting death..."

Huben in gold armor saw that it was David flipping through the books in the room, and he couldn't stop being furious!
