Novel

Chapter 2571

After David discovered this, he finally understood why no one in the orc clan could learn the alchemy technique that he thought was not difficult at all!

“I have the aura of a beast on my body. I wonder if I can open the acupoints of the beast race on my body?”

David looked at the book and began to delve into it. If he wants to teach the beast race to become a pharmacist, he must follow the beast race. !

Thinking of this, David slowly made his way to the ground, looked at the orc books in front of him, and slowly closed his eyes!

David's spiritual consciousness sneaked into his body, and then the spiritual power drawn into his body began to swim away!

Originally, these spiritual powers traveled along the acupoints of the human beings in the body, and then formed various powers and protections in the body!

But now, David is guiding these spiritual powers, constantly impacting those places in the body that seem to have no acupuncture points!

In fact, among the orcs, there are acupuncture points in these places!

David's spiritual power surged again and again, and the severe pain made David sweat profusely!

David didn't know whether his body was the same as that of the orcs, and there would be acupuncture points here. He was just testing it over and over again, but it was also very dangerous. However, in order to keep his mouth from being controlled by others, David could only Fight!

Just when David was in the Library Pavilion, he was working hard to let the orcs be able to cultivate into what they should be!

In the depths of the mountains, Ali was struggling with injuries all over his body!

At this time, Ali was dressed in rags and had countless wounds on his body. With his strength, it was a miracle that he was able to walk deep into the mountains!

"David, where are you, where are you..."

Ali leaned on a big tree and roared in grief and indignation!

He knew that if David could not be found for one day, the folks in Dashi Village would suffer for one day!

But now, he is almost exhausted, and the pain on his body makes it difficult for him to move forward. If David cannot be found, Dashi Village will suffer!

Ali gritted his teeth, took a sip of water in his mouth suddenly, and walked forward desperately again!

But just two steps away, a ferocious wolf blocked the way!

Looking at the demon wolf in front of him, Ali's face instantly turned ashen, because he knew that he was powerless to face a demon wolf!

Ali knelt on the ground with tears running down his eyes, because at this moment, he could think of the fate of his father and fellow villagers!

"God, you are so unfair, why, why on earth..."

"We have such a difficult life, but we have to suffer so much misfortune..."

Ali knelt on the ground, cursing God!

But the demon wolf in front of him showed his fangs, his eyes were full of excitement, and he walked towards Ali step by step!

At this time, in the eyes of the demon wolves, Ali is just a prey, and these demon wolves have no feelings or thoughts!

Facing the approaching demon wolf, Ali didn't panic at all, his face was expressionless, and his face was full of lovelessness!

"Wow..." The

demon wolf roared loudly, and then rushed towards Ali, biting towards Ali's head with his bloody mouth!

Ali closed his eyes, waiting for the general who died!

But at this critical moment, the wolf that was jumping at Ali was suddenly kicked away by someone!

Hearing the voice, Ali opened his eyes quickly, and found that it was Lang Feng in front of him!

After seeing Lang Feng, the kicked demon wolf lay down on the ground in an instant, turning into a docile look!

"What are you doing here?"

Lang Feng asked Ali.

"Hurry up, go find David and tell him that something happened in Dashi Village..."

Ali said with all his strength!

After saying this, Ali passed out immediately. Looking at the fainted Ali, Lang Feng frowned, then raised his head and let out a long roar, and soon a dozen or so monster wolves came running!

Lang Feng asked these demon wolves to take good care of Ali, and then he quickly ran towards the Demon Imperial City!

Chapter 2572

Inside the Book Collection Pavilion, golden lights were drawn out of David's body, and dozens of orc acupoints were opened. At this moment, David seemed to have a kind of enlightenment. change!

"Now I can change the breath in my body at will, so I can also practice beast clan skills!"

David was full of excitement, and then flipped through books that looked like beast clan skills!

David found the simplest orc kung fu, and after immersing his consciousness in his body, he began to operate this orc kung fu!

In an instant, David's body began to crackle, every bone seemed to be broken, and then the muscles also became swollen!

David's height is constantly increasing, and the strength in his body is also multiplying.

It's just that David's appearance at this time has become a little weird, with neither human nor ghost, very terrifying!

After taking a deep breath, David's body slowly recovered!

Although this exercise is very simple, it can only instantly increase a person's strength and is not very useful, but it also proves that David can learn some beast clan exercises in the future!

David still maintained the opening of the acupoints of the beast clan, and then started to use the alchemy technique according to the memory in the sea of consciousness!

Under the operation, David discovered that these alchemy techniques were originally prepared for the race, so it is very difficult to use the body structure of the beast race to operate the alchemy technique!

However, this was nothing to David. According to the body structure and acupoints of the beast race, David began to improve the operation of the medicine refining technique!

David continued to experiment, and then recorded, and soon recorded a whole book of alchemy techniques, including a lot of pharmacological knowledge.

"These are enough to learn for a while..."

David looked at the thick masterpiece in his hand, and smiled with satisfaction!

David walked out of Zangshu Pavilion with the books he wrote. When he found that Huben was guarding outside with someone, he was a little surprised!

However, David ignored him and walked past Huben instead!

"Stop..."

Huben stopped David!

"What's the matter?" David stopped and looked at Huben, "I went to Zangshuge this time, but your demon emperor allowed it. Do you still want to arrest me?"

"The demon emperor allowed you to read books in Zangshuge, but he didn't. Did you take the book away?"

"Hand over the book in your hand, we are not allowed to take out the books in the Library Pavilion."

Huben stopped David because he saw the book in David's hand!

"This is not a book from your Zangshuge, it is written by me."

David explained!

"You wrote it?" Huben sneered, "What proof do you have that you wrote it? Hand over the book immediately, or I'll take you to the Demon Emperor."

Huben was very hostile to David, he didn't like it Humans, even more dislike those who follow Princess Isa very close!

"Go and find your demon emperor..."

David didn't bother to follow this bullshit anymore!

"You can see the Demon Emperor if you want? Our Demon Emperor is so merciful that it is a great kindness to let you observe in the Library Pavilion. You still want to take the book away."

"Hand over the book now, obediently. Come with me to plead guilty to the Demon Emperor, if not, don't blame me for being rude."

Huben showed his weapon, and as long as David refused, he would strike right away!

At this moment, Princess Isa hurried over and saw that Huben was on the verge of attacking David, she said sharply to Huben, "Hu Ben, what are you doing? Can't you rebel? The Demon Emperor asked you to protect David. I didn't ask you to fight with him."

"Princess Isa, it's fine for him to read in the library, but he still wants to take the book out..."

Huben said with an aggrieved look!

Chapter 2573

Princess Isa looked at the book in David's hand, and David explained, "This is a medicine refining technique written by myself for the beast race. It records a lot of medicine refining skills and pharmacological knowledge. Orcs can cultivate."

"You wrote it?" Princess Isa took the book with a face full of shock, flipped through it casually, and found that the records in it were really some alchemy techniques. This kind of book!

Princess Isa looked at David with curiosity and admiration in her eyes, and slowly returned the book to David!

Seeing the way Princess Isa looked at David, Huben was about to die of anger!

"This book doesn't belong to our library, it doesn't matter if you take it out!"

Princess Isa said to Huben!

"Princess, as the general guarding the imperial city, I must never..."

Pa...

Before Huben finished speaking, Princess Yisha stepped forward and slapped him!

"Remember, I can do it if I say it, but you dare to disobey my word?"

Princess Isa was filled with anger!

Seeing this, Huben lowered his head and stopped talking.

"Let's go..."

Princess Isa left with David!

Looking at the backs of Princess Isa and David, Huben's eyes grew darker.

"Princess Isa, do you need me?"

David asked Princess Isa!

Princess Yisha was able to come to Zangshu Pavilion, she must have come to find herself, and it is absolutely impossible to find that tiger.

"Lang Feng came to the imperial city to look for me. He said he was a friend of yours and was looking for you with injuries all over his body. He seemed to say that something happened in Dashi Village..."

Princess Yisha followed David and said!

When David heard this, he was stunned, and a terrifying murderous intent filled his body!

This sudden change made Princess Isa feel a little scared!

"Where is that friend of mine?"

David asked murderously.

"He has been protected by Lang Feng. He will be fine. Lang Feng is at the gate of the city now."

Seeing David like that, Princess Isa said timidly!

When David heard this, he handed the book in his hand to Princess Isa and said, "Give this book to your father, and tell him to choose some talented people to practice."

After David finished speaking, he quickly ran towards the gate of the city. go!

"Hey, wait for me..."

Princess Isa chased after her!

When David saw Lang Feng at the door, he rushed up and said, "Where is my friend? Where is he?"

"Something will happen."

Lang Feng said!

"Take me there, take me to see him immediately!"

David stepped forward, grabbing Lang Feng's shoulder and urged!

Lang Feng glanced at Princess Isa, and Princess Isa nodded, "Take him, and you will listen to him from now on..."

Although Lang Feng was puzzled, he could only obey what Princess Isa had said. !

"Come with me..."

Lang Feng took David and left quickly!

Princess Isa looked at David's back, and her eyes changed again. From David, she felt the man's blood spurting!

Lang Feng took David to find Ali. At this time, Ali was covered with scars and passed out on the ground!

David hurried forward, and a wave of spiritual power was sent into Ali's body. After a while, Ali slowly opened his eyes!

"David...David..."

When he opened his eyes and saw David, Ali grabbed David's arm excitedly, "Hurry up and save Dashi Village, hurry up and save Dashi Village..."

"Ali, don't worry, what happened?"

David asked Ali!

Ali told what Zhang Biao and Wu Feiyu did in Dashi Village!

David's face was extremely gloomy at this moment, and his eyes were full of murderous intent!

It seems that he guessed right, Zhang Biao and Wu Feiyu really went to Dashi Village, they will not just watch Agrimony being taken away by themselves!

"Lang Feng, help me take care of Ali..."

After entrusting Ali to Lang Feng, David hurried towards Dashi Village!
