

A Man Like None Other Novel

Chapter 3028

Gradually these black mist continue to condense together.

Giant beasts of various shapes emerged from the black mist and came towards the old devil, as if to help him out of trouble.

Seeing this, David sneered, and bursts of flames instantly rose from the hand holding the magic whip!

The flame directly ignited the whip, and it burned violently!

At the same time, the lines on the old devil's body also burst into flames.

Those monsters transformed into black mist, after touching the flame, screamed one by one, and their bodies turned into black mist again.

The old devil kept struggling, but it was useless at all. The magic whip was exactly the opposite of his kung fu!

With the continuous swinging of the magic whip, all kinds of spiritual power in the body, the original power, all radiate outwards as if free of money!

In the end, the old devil stopped struggling and seemed to have completely resigned himself to his fate!

Seeing that the old devil was no longer struggling, David breathed a sigh of relief!

"It's done..."

David was very excited!

When the other people saw this scene, they also became excited instantly, which means that they have all come through the gate of hell!

And the Five Elements Heavenly Fiend's expressions are uglier than the other at this moment!

They wanted to escape, but they didn't dare to move. Even the old devil was subdued, so there was no chance for them to escape!

The old devil looked at the extremely excited David, and snorted coldly, "It's too early for you to be happy. Even if I don't control it now, and I have no power to fight back, you can't even think about killing me..."

"I don't believe it, I can't kill you with the magic whip in my hand..."

After David finished speaking, the magic whip slapped the old devil fiercely!

"I made you so awesome just now, now you know how powerful you are?"

David lashed out with whip after whip, exhausting his strength every time!

The old devil's face was ferocious, and he could see that he was in great pain, but after so many blows, he still didn't die!

David panted slightly, the spiritual energy he replenished was almost exhausted!

"Don't fight any more, you won't be able to completely kill him if this goes on, let me do it..."

the ancestor of the ancient body training clan spoke slowly!

Seeing this, David had no choice but to give back control of his body to the old man!

David stood quietly without moving, as if he was thinking about something!

“You have so many spells, so I’ll choose one for you to take a good look at.”

“Remember, you must see clearly, maybe it will help you!”

The old man said to David!

After finishing speaking, I saw my palms raised upwards, and then turned into a lifting posture!

In an instant, a huge palm appeared in midair, like the palm of a Tathagata!

And in the middle of the palm, thunder and lightning continued to roar.

“Ben Lei Palm...”

With David’s loud shout, the huge palm suddenly pressed down!

This is the first time David has used the Thunderbolt Palm after realizing the source of thunder and lightning. With the blessing of the source of thunder and lightning, the Thunderbolt Palm will definitely increase its power a lot!

What’s more, this time the Thunderbolt Palm was performed by the old man himself, and Chen Jing was learning it quietly!

Booming...

accompanied by bursts of roaring, it was like the sky falling apart!

The palm print kept pressing down, and even the void was crushed and distorted!

Everyone stared blankly at the huge palm falling from the sky, their eyes full of shock!

In their eyes, this is simply a fairy trick!

As the palm print got lower and lower, countless thunderbolts were constantly bombarding, and every lightning bolt hitting the ground would form a deep pit!

More lightning power hit the old devil's body, causing the old devil to suffer unceasingly!

David watched carefully, unwilling to let go of any detail!

He knew that this might be the last time someone taught him in his life!
