## Chapter 3111

"If this can be carved into a weapon, it will definitely be the best. I haven't seen this kind of stone yet."

Someone echoed!

But because the original seal stone is aggressive, no one dares to try it casually!

At this time, David and the others who were hiding not far away seemed a little anxious!

"These idiots, this is the original seal stone, if you move it casually, it will be troublesome to release the sealed thing." "

Mr. Chen, should we stop them?"

Ji Lianzhan faced David asked!

David pondered for a moment, then nodded, "Okay, let's go out and tell these idiots that this stone cannot be moved casually!"

After finishing speaking, David led Ji Lianzhan and the others out!

Zhou Tai was leading people to think about how to take the stone away, and he was a little surprised when he suddenly found David and others who appeared.

"It's you? Why are you here?"

Zhou Tai knew that David and the others left on the holy tortoise, and unexpectedly came to this small island!

"Zhou Tai, this stone is the original stone of the seal. It depicts a seal formation. You can't move it casually, because you don't know what is sealed underneath. If it is a terrifying monster, these people will die." David said

to Zhou Tai warned!

When everyone heard what David said, they moved further away from the original seal stone!

Seeing this, Zhou Tai hurriedly said, "You don't need to listen to his fart, he just wants to prevent us from getting this stone. They are guarding here secretly, and they also want to get this stone.

" It's just human, don't you believe it?"

Zhou Tai said, those monks who believed in David at first began to doubt David's motives!

"Zhou Tai, I advise you to save you. If you insist on touching the original seal stone, I don't care. If you release the monster at that time, then you will die..." After David finished speaking, he stepped aside

, It is indeed not stopping!

This time, Zhou Tai was also a little uncertain!

But looking at the stone with a faint light in front of him, Zhou Tai still couldn't help it!

"I don't believe your nonsense, I'm going to buy this stone today, if anyone else wants it, let me do it together..."

Zhou Tai glanced at the many monks and said!

Soon, someone couldn't bear the temptation and stood beside Zhou Tai, planning to follow Zhou Tai to get the stone away!

Because the stone was a bit big, Zhou Tai planned to bombard the stone into small pieces and take it away!

Inside this stone, spiritual power overflows, it is obviously a treasure!

"Let's attack together and smash this stone, so we can share it equally." "

Like those cowardly guys, don't even think about getting a piece..."

Zhou Tai said with a cold snort.

Zhou Tai and the others began to gather strength, ready to attack the original seal stone!

David warned, "Let's hide away and see what is sealed under the original seal stone."

David took Ji Lianzhan and others to avoid it. What is next!

"Do it..."

Zhou Tai shouted loudly, and several monks started to do it together!

Huge power swung out from everyone's palms, heading straight for the original seal stone!

Boom...

With a loud noise, the original seal stone was shattered by the bombardment, and the scattered stones covered the ground!

It's just that there are no runes flowing on these broken stones, and no spiritual power overflowing!

Originally, these were all relying on the sealing formation, but the first formation was forcibly broken, and it became an ordinary stone!

Zhou Tai was a little dumbfounded looking at the rubble on the ground, and it was just an ordinary stone!

Rumbling...

Suddenly there was another loud noise, and the entire altar began to collapse, and everyone jumped down in a hurry!

After the altar collapsed, a dark hole appeared, bottomless, and from the hole, bursts of eerie aura continued to spread!

## **Chapter 3112**

At this moment, everyone's expressions became tense, and now they believed that this stone was indeed the original sealing stone, and something was sealed underneath it!

Many monks exuded spiritual consciousness and felt it in the cave!

Suddenly, clouds of black mist emerged from the cave, and then the black mist dispersed, and started an indiscriminate attack towards the monks around the altar!

Seeing this, Zhou Tai and the others had no choice but to start wrestling with the black mist!

"What is this?" David and the others were far away, and there was no black mist yet!

"Evil spirits, these are evil spirits..."

Ji Lianzhan suddenly frowned!

"Evil spirit?" David was taken aback!

"That's right, these are all evil spirits. The so-called evil spirits are transformed from weapons with weapon spirits in ancient times. These weapons were either damaged in the fight, or their owners died in battle, making these weapon spirits live here. Over time, these weapon spirits began to change their temperaments and became evil spirits." "

If you get an evil spirit weapon, not only is it not a chance, but it may also be controlled by evil spirits, and even life-threatening. "

Ji Lianzhan followed David and explained!

As soon as David heard it, he thought of Zhongli, the spirit of his Dragon Slaying Sword. Perhaps if Zhongli was left here for thousands of years, his temperament would change drastically and he would turn into an evil spirit, right?

"How do you think these evil spirits are so crazy, as if they are unconscious?"

David couldn't help saying as he watched Zhou Tai and the others fight with the evil spirits!

"That's right. Many of these evil spirits are broken and incomplete. They have no consciousness. Even if they are truly intact, they will not become evil spirits

even after years of torture. On the contrary, they will temper themselves even more."

"Only these broken weapon spirits can evolve into evil spirits. These evil spirits can only kill crazily, without any thinking consciousness, and are not afraid of life and death. In their thinking, there is no such thing as death." Ji Lianzhan

replied road!

David was right when he thought about it. These evil spirits were originally tool spirits, and they didn't have the so-called physical life. Of course, they wouldn't be afraid of life and death. In addition, they didn't have thinking, so they didn't fear anything!

Although these weapon spirits don't seem to be particularly strong, they are very difficult to deal with, like a dog's skin plaster, and they can't be shaken off no matter how hard they are!

This made Zhou Tai and the others more and more irritable!

"These evil spirits are really difficult to deal with. Could it be that this original seal stone is for sealing these evil spirits? Logically speaking, it shouldn't be. Although there are many evil spirits, their strength is indeed not high." David was very puzzled

. Did the original stone seal these evil spirits?

"Mr. Chen, don't care if this original seal stone is used to seal evil spirits, but now our opportunity has indeed come."

Ji Lianzhan said with a slight smile.

"Fate? What chance?" David was full of doubts!

"Look at the underground where they are fighting..." Ji Lianzhan pointed!

David looked around and found that where Zhou Tai and others were fighting with the evil spirits, all kinds of weapons were scattered on the ground, such as knives, guns, halberds, axes, hooks and forks, and even some hairpins and rings. !

This time, David was a little dazed, there was nothing on the ground just now, why so many things suddenly appeared now?

“Sect Master Ji, this is????”

David asked suspiciously!

“Mr. Chen, these are the evil spirits who have been killed. Only when the evil spirits are killed, their natal treasures will appear. These treasures become things without spirits and can be picked up at will.”

“Although these magic weapons were damaged in the ancient war, they are still very valuable here. These are all ancient magic weapons.” “

And the stronger the evil spirit, the greater the value of the treasure.”

Ji Lien Chan’s eyes were shining brightly!

David glanced at Ji Lianzhan, he was in business, and he could find business opportunities everywhere, thinking of making money!
