Chapter 3131

David flew higher and higher, even flying towards the top of the cave entrance!

You must know that the entrance of this cave is full of evil spirits. When David flies up like this, there will be evil spirits above and silver-feathered eagles below.

“Mr. Chen, come down quickly, come down quickly...”

Ji Yun shouted with all his strength, but it was useless at all, as if David couldn't hear it!

Everyone can only watch David fly higher and higher, and everyone can only see a glimmer of light, which is constantly rising!

Silver Feather Eagle was chasing after David closely, his eyes bursting with anger!

The sword just now made the Silver Feather Eagle furious, and it decided to smash David's body into thousands of pieces!

The indestructible golden body on David emitted a dazzling light, and the dragon energy in the dragon crystal also began to spread in his body!

David's dantian is quietly changing!

This is David preparing for a breakthrough!

David now has an indestructible golden body, so he is not afraid of those evil spirits at all. Even if he stands still at this moment, those evil spirits will never want to hurt him at all!

As for the silver-feathered eagle, David planned to use his tribulation thunder to kill the silver-feathered eagle!

Although David was at his weakest when he was crossing the tribulation, this could just as well trick the Silver Feather Eagle into rushing into the range of the tribulation thunder!

David is betting this time, and it can be regarded as a gamble!

If he fights alone, David's current strength is not the opponent of this ancient mount, the silver-feathered eagle, even if the silver-feathered eagle has no body, David is not able to deal with it!

Rumbling.....

Suddenly, dark clouds gathered in the sky, and thunder flashed!

Feeling the thunder cloud that appeared in the sky, David was extremely calm. After experiencing countless thunder disasters, David was not afraid of this thunder cloud anymore!

It's just that the power of thunder in the thunder cloud this time doesn't seem to be very powerful!

David couldn't help frowning, and then exploded all the dragon energy in the dragon crystal, and even the fused giant egg energy, David didn't hold back!

David is planning to break through several realms at once, so that the power of Thunder Tribulation will be many times greater!

But this kind of danger is also the highest!

After David burst out all the energy, the aura on his body reached the peak of the eighth rank in the blink of an eye.

One must know that every time David advances to a small realm, the resources and spiritual energy needed are very terrifying, which is why David's promotion speed is very slow!

As the realm gets higher and higher, the resources and aura David needs to raise his realm will be dozens or even hundreds of times that of other people!

And this time, David directly jumped from the fifth rank of the Fitting Realm to the peak of the eighth rank of the Fitting Realm. This terrifying improvement is enough to show how terrifying the dragon energy and the energy in the giant egg are!

If it is an ordinary monk who has absorbed so many resources, it will be a breeze to directly raise a level!

David felt excited. If he hadn't followed Ji Yun to Mohai this time, he wouldn't have had this adventure, and he wouldn't have improved several realms at once!

If David only relies on some fairy herbs and elixir, it will probably be a year of the monkey if he wants to rise to the peak of the eighth rank of Dao Fusion Realm!

Now David has discovered that some resources left by the heavens are the most helpful for his improvement of realm!

The shards of the ice soul, the current dragon energy, and the giant egg bred that day!

These are not things from the world of heaven and man, they are all left behind during the war between gods and demons!

And these things are of great help to David's cultivation!

Thinking of this, David decided to spend more time in the Celestial Realm in the future, looking for those forgotten ancient battlefields, to see if he could find resources!

With the improvement of David's realm, the thunder clouds in the midair surged, and the condensed power also increased accordingly!
