

## Chapter 3743

David followed Shenjizi around the market. Although there were many things on the stalls, there really weren't any good ones!

But just after they took a few steps, they found a stall in front of them crowded with people!

"Let's go, there must be a treasure out front. Go take a look..."

Shenjizi could tell at a glance that there was a treasure out of the stall in front, otherwise there wouldn't be so many people watching!

As soon as David and the others approached, they heard everyone talking!

"Is this black tortoise shell fake? This guy said he could withstand the attacks of strong men. He was kidding!" "

It should be true, but if you get a dozen black tortoise shells at once, you will make a fortune." "

Although this black tortoise shell is It's true, but this thing must be used with the talisman. It's of no use to us ordinary monks. Who of you can draw talismans?"

"Half a million spirit coins each is not expensive, but you need to find a high-end talisman. It would be difficult for the master to draw the talisman, and even millions of spiritual coins would be enough."

David suddenly became interested after listening to the discussion of these monks, and hurriedly squeezed in!

David discovered that the stall owner was an old man who looked a little old. There were more than a dozen mysterious tortoise shells placed in front of him. The sizes of these tortoise shells were actually the same, and there was a trace of spiritual energy inside the tortoise shells!

David squatted down, picked up a black tortoise shell and observed it carefully. The lines of these black tortoise shells were clear, and there was spiritual energy coming out from inside. They should not be fake!

“Although this black tortoise shell is extremely hard, it can only be used with talismans. If the talisman is not engraved on the black tortoise shell, this thing is not as good as ordinary golden armor.” “

But if it can be engraved with talismans, it can be used in conjunction with the black tortoise shell to withstand attacks from masters. It’s not a big problem. As for how strong the attack can be withstood, it depends on the level of the talisman master who carved the talisman.” “

Let’s go look elsewhere. This thing is too useless!”

Shenjizi pulled. David said!

Five hundred thousand spirit coins each, in the eyes of these ordinary monks, it is not a small number, and it is useless to hold it in your hands!

If you are looking for a high-level talisman master to engrave it, you don’t know how much it will cost!

David was very happy after hearing what Shen Jizi said, but he didn’t show it on his face. He was afraid that the stall owner would take the opportunity to raise the price!

“If I want them all, can this black tortoise shell be cheaper?”

David asked the stall owner!

"You want them all?" The stall owner looked at David in surprise!

"Yes, I want them all, but the price must be right."

David fiddled with the tortoise shells casually, not showing much interest!

The stall owner looked at David, then looked at his own tortoise shells, and said, "These are thirteen tortoise shells. Just give me five million spirit coins."

"Okay..."

David did not hesitate. He directly took out five purple gold spirit coins and threw them to the stall owner, and then threw thirteen black tortoise shells into the storage ring!

After the transaction was completed, David got up and left without stopping at all!

Seeing David so happy, the stall owner showed a bit of regret in his eyes. If he had known better, he would have raised the price higher.

The other monks were shocked when they saw David buying the black tortoise shell so happily!

Especially Shen Jizi, who hurriedly caught up with David and said, "Fellow Taoist, I'm not telling you, even if you have money, you can't spend it like this. You are a waste of money!" Shen

Jizi looked distressed, as if it was him who was spending the money. Same money!

Seeing Shenjizi like that, David smiled and said nothing!

This guy is really a miser!

I guess money is more important than life!

“Are there any high-end stalls in this market? It’s too slow to go shopping from house to house!”

David wanted to go directly to the stalls selling high-end items. If you want to find good things at ordinary stalls like this, it’s like looking for a needle in a haystack. !
