

A Man Like None Other

Novel Chapter 3795

Chapter 3795

After walking for several miles, one could hear the screams of Hai Dafu and Sect Master Yang!

David could tell that Sect Master Naluo's brows were constantly frowning!

Maybe he doesn't want to get to where he is today!

The five major sects now may be changed into two major sects in the future!

David checked the Chen clan leader and found that he was only hit by a very ordinary Huajin powder, so he found some pills in the storage ring and gave them to him.

"Fellow Daoist Chen, thank you so much. If it weren't for you, I really don't know how to break the situation."

"This time when I go back, I will definitely put things in order. The five major sects will be thoroughly cleaned!"

Sect Master Luo seemed to be much older all of a sudden, he sighed and said!

"Sect Master Luo, you're welcome. If you hadn't stood up to everyone's objections, I would have died in the five major sects long ago."

David said with a faint smile!

Sect Master Luo smiled bitterly. He didn't expect that when he insisted on letting David leave, he actually saved one of his own!

This may be the so-called karma!

Sect Master Luo took out a stone from his arms that made everyone laugh. The strange thing was that this stone actually had five colors.

“Fellow Daoist Chen, this is the five-color stone from our five major sects. It has been passed down for many years, but we still don’t know the use of this five-color stone.”

“But today I saw that you actually collected the pole stone for cultivation. Maybe this thing will be useful to you!”

Sect Master Luo handed the five-color stone to David!

David took the five-color stone and felt a warm feeling in his hand, but David didn’t pay attention and thought it was the body temperature of Sect Master Luo.

After putting away the five-color stones and chatting with Sect Master Luo for a few words, David and Sect Master Luo separated!

Sect Master Luo led his disciples back to the sect!

After all, there is no place where immortals fell here, so there is no use for them to stay here!

What’s more, Hai Dafu and the other three had just died. The disciples under the sect still need to be intimidated and managed!

David, Binglu and the others continued to search for the pole stone. While looking for the pole stone, David also deliberately avoided other monks who entered the pole!

Although many pole stones were found, no pole stone mine was found, which made David a little depressed!

Searching like this little by little, in the Year of the Monkey, the Horse and the Moon, we can find enough pole stones needed by Guanghan Palace.

Seeing that the sky was getting dark again, David could only find a relatively safe place to rest!

While the saints were resting, David was protecting them!

Sitting cross-legged, David took out the five-color stone out of boredom!

I saw that the five-color stone actually gave off a faint luster in the darkness, five different lusters!

Wave after wave of warmth continued to flow from David's palm into his body!

At first, David thought that the warmth of the five-color stones was caused by body temperature!

But now I am holding the five-color stone. In such extremely cold weather, the five-color stone still exudes a sense of warmth!

David was a little strange. If it was caused by body temperature, it couldn't be still warm now!

David observed carefully and found that apart from the five colors, there was nothing special about the five-color stone. It was similar to ordinary people's stones!

It's about the size of a fist, very shiny, and very comfortable to hold in your hand in this extremely cold weather!

David tried to insert a spiritual power detection into the five-color stone, but it had no effect at all, and nothing could be found!

"What a strange stone..."

David looked at the five-color stone and suddenly used his palms to crush the stone to see what was inside!

But David tried his best, but he couldn't crush the stone. This time, David was confused for a moment!

You know, with his current strength, he can easily blow up a mountain with one punch!

You want to crush a stone, but you can't do it?
