Chapter 4376

Ning Zhi took out the small furnace tripod, and as the furnace tripod was thrown upward, a huge suction force began to absorb the flame released by David!

The flame breath was desperately absorbed by the furnace tripod, and the fire dragons dissipated instantly!

David looked at the magic weapon that Ning Zhi ran out, and couldn't help frowning. This magic weapon seemed to be specially restrained to the fire breath?

Without the fire dragon, there was only lightning and sword light, and more than a dozen demon cultivators resisted it much easier!

Ning Zhi took back the furnace tripod, but did not choose to attack David. He only saw his eyes slightly condensed, and the whole person suddenly rushed towards the bottom of the sea!

Ning Zhi suddenly rushed into the sea, which made the dozen demon cultivators and David all a little confused!

Especially David, he never thought that this guy would not take the opportunity to attack him, but suddenly rushed into the sea!

Just now, the dozen demon cultivators entered the sea, but Ning Zhi was watching in mid-air!

Now they are all above the sea, but Ning Zhi suddenly entered the sea! This

train of thought directly confused David!

After Ning Zhi entered the Dead Sea, his body was instantly wrapped in black air and he went straight to the bottom of the sea.

Ning Zhi just wanted to go to the bottom of the sea to see clearly what trap David had set on the bottom of the sea!

Now David is fighting against the dozen or so demon cultivators at sea, and Ning Zhi has the opportunity to go to the bottom of the sea to see clearly!

Although David is confused at the moment, he is about to chase Ning Zhi!

This guy, who suddenly entered the sea, must have some intention!

But how could the dozen or so demon cultivators let go of this opportunity, and they directly surrounded David and entangled David!

Ning Zhi fell to the bottom of the sea, his eyes looked around, looking at the surrounding mountains, Ning Zhi always had a bad feeling in his heart!

But he did not find the demon-subduing array set up by David, and he would not have thought that David would set up a demon-subduing array here!

This area is so huge that Ning Zhi could never have imagined that David could lay such a huge formation in such a short time!

“Since I don’t know what the trap is, I’ll give it a try...”

Ning Zhi said, his face turned cold, and the black air on his body instantly swarmed around!

But just as the black air on Ning Zhi’s body spread to the surroundings, the mountains around him also lit up a series of formation patterns at the same time! The

demon-subduing formation was activated. Looking at the formation patterns that lit up around him, Ning Zhi’s face was full of disbelief. This was the first time he had seen such a huge formation!

He didn’t believe that this formation was laid by David himself in a short time. It must be that this guy came here by chance and discovered the existence of this large formation!

Maybe this was a sect station many years ago!

There was no time to think, Ning Zhi’s figure rushed out from the bottom of the sea like a cannonball!

Such a huge formation, Ning Zhi would not be stupid enough to fight against it!

While rushing out of the sea, Ning Zhi shouted loudly: “Everyone retreat, don’t get entangled anymore.”

Although Ning Zhi didn’t know the power of this formation, he immediately called on everyone to retreat!

After all, such a huge formation, the power it exploded would never be simple!

More than a dozen demon cultivators didn't know what was going on, and they all looked at Ning Zhi in confusion!

They didn't understand what Ning Zhi saw when he just reached the bottom of the sea, and he was so frightened!

Just when the demon cultivators were puzzled, there was a sudden buzz!

The sea surface shook for a while, and in front of everyone, a few dozen miles around, a series of brilliance suddenly lit up, and the dense brilliance connected into a piece, forming a light curtain, directly closing this area!

"This... What's going on?"

A demon cultivator was shocked, and then shot out a series of spiritual energy, but the spiritual energy hit the light curtain and bounced back instantly!

Ning Zhi saw this scene, and his mouth twitched. He didn't expect that he was so cautious, but he was still calculated by David!

He never expected that there would be such a huge formation here!

Chapter 4377

The light curtains around continued to rise, blocking all the roads.

With such a huge formation, it was impossible for Ning Zhi and the others to flee in all directions.

"Run upwards, while the formation is not closed, hurry up..."

Ning Zhi roared, and he took the lead in running upwards!

Because this formation brought him a great sense of crisis. This formation was definitely a legacy of ancient times. Ning Zhi believed that David's strength could not set up such a huge and powerful formation in a short time!

Seeing this, all the demon cultivators followed Ning Zhi and rushed to the sky, hoping to fly out of this huge formation before the formation closed!When

David saw this, he held the Dragon Slaying Sword and quickly swung a sword, blocking everyone directly!

He had finally set up the formation, and it consumed a lot of resources. He must not let these guys run away!

Ning Zhi was too cautious, so the formation was opened in advance, and David could only stop these people!

David wanted to trick these people to the bottom of the sea and then open the demon formation. In that case, these people would never be able to escape!

But now, the formation is opened in advance, giving these people time to react!

Feeling the power of David's sword, Ning Zhi and others could only slow down!

"David, do you want to die? When this formation is opened, you will be trapped here, and then none of us will want to live."

Ning Zhi saw David stopping him, and said speechlessly!

Trapped in this formation, David can't survive, so wouldn't they all perish together?

But David smiled coldly and said, "You think it's beautiful. I set up this formation to deal with you. How could I die? You are the ones who die."

As David's voice fell, the demon formation finally closed, and huge power broke out!

"Impossible, how could it be set up by you? How could you set up such a huge formation in such a short time?"

Ning Zhi's face was full of shock, and he didn't believe what David said at all.

"What is impossible? Just because you can't do it doesn't mean I can't do it either. Compared to me, you are just trash."

David was madly attacking Ning Zhi's self-esteem!

Ning Zhi was furious, but at this time, countless dazzling lights surged from the bottom of the sea!

It was like the sun rising from under their feet!

In this light, countless spiritual lights shot out in all directions, densely packed like swords, piercing the entire void!

Looking at the dense spiritual lights, Ning Zhi didn't care to talk nonsense with David, and could only surround his body with a black gas to form a shield to resist these spiritual lights!

“Ah...”

A demon cultivator was hit by the spiritual light and screamed, and the whole person instantly turned into a ball of blood mist!

“What kind of formation is this? Why is it so powerful? The power of this spiritual light is so strong?”

“This thing is everywhere within a radius of dozens of miles. Are we all finished?”

Many demon cultivators were all shocked!

Even if they ran upwards, they had no chance. The entire formation had closed, and the area they were in was completely covered!

These demon cultivators had become lambs to be slaughtered!

There was no other way, these demon cultivators could only use their own methods to resist the attacks of these spiritual lights!

But facing so many spiritual lights, these demon cultivators were numbed!

His power would always be exhausted, but the spiritual light that burst out in this formation seemed endless!

These demon cultivators did not dare to be careless at all, and used all their skills. Some even began to burn their blood essence!

As long as the blood essence was not burned out, there was still hope of survival, but the strength would definitely decrease, but it was better than death!

Chapter 4378

More than a dozen demon cultivators tried their best to block the spiritual light, but the spiritual light came in waves. Even though these demon cultivators were very strong, they were all injured in the end, and some were even struggling to death!

Ning Zhi frowned, and black fog filled his body. The spiritual light would dissipate after touching the black fog, which showed that Ning Zhi was also very strong!

“David, what kind of formation is this? Why do I feel the sound of Buddha from these spiritual lights?”

Ning Zhi looked at David in confusion and asked!

Because every time the spiritual light attacks you, the sound of Buddha will sound in your mind!

“It seems that you really have some skills. This is my demon-subduing formation, which is specially used to deal with demon cultivators like you. The Buddha sound in the spiritual light is the best thing to attack you.”

David looked at the exhausted demon cultivators, and finally there was a trace of pride on his face!

“Hmph, don’t think that this demon-subduing formation can trap us. We are not real demons. We are just demon cultivators. Our true nature is still human.”

“So your demon-subduing formation will not be too powerful against us. Don’t scare us with this thing.”

Ning Zhi snorted coldly, and the aura on his body surged again!

David was slightly stunned, and then smiled: “You know a lot about formations. My demon-subduing formation is indeed not very powerful against you demon cultivators, but even if it is not powerful, it is enough to kill you.”

David slapped his palm suddenly, and the fairy stone in the demon-subduing formation instantly burst out with all its aura!

The spiritual light was prosperous, and the speed was much faster!

In an instant, it arrived in front of these demon cultivators!

For a time, screams were endless, and many demon cultivators were bleeding wildly. Several of them fell directly into the Dead Sea and turned into bones!

“Fairy energy? You actually put fairy stones into the formation? It seems that you have spent a lot of money to kill us!”

Ning Zhi instantly noticed the difference in this spiritual light!

David looked at Ning Zhi and had to admire this guy. He knew so much!

He had to be killed today, otherwise he would really become a big worry in the future. This guy was like a dog-skin plaster wrapped around him. It was so annoying!

“Mr. Ning, help us, we can’t hold on any longer...”

Seeing this, the blue-clothed monk could only helplessly ask Ning Zhi for help. If this continued, they would probably all die here!

Ning Zhi nodded, and instantly condensed countless black air, and then all of these black air collided with those spiritual lights!

The black air collided with the spiritual light, making a deafening sound, and the entire sea surface was surging in this sound!

These black air are all pure demonic energy, so they can burst out with such great power!

This Ning Zhi actually wanted to rely on his own strength to fight against such a huge demon-subduing formation!

Seeing this scene, David frowned, and the relief on his face disappeared!

“Ning Zhi, let’s end this today...”

David took the Dragon Slaying Sword and rushed towards Ning Zhi in an instant!

He couldn’t let Ning Zhi block the Demon Subduing Formation. Now that the Demon Subduing Formation trapped those demon cultivators, David had the opportunity to fight Ning Zhi alone, without having to consider other demon cultivators!

This Demon Subduing Formation was hastily laid by David, and it was not very perfect. The resources put into the formation could not last long. If Ning Zhi dragged the Demon Subduing Formation until the resources were exhausted, it would be over.

“You kid actually dared to take the initiative to attack. I want to see how strong you can burst out as a seventh-level realm of the Tribulation Realm.”

Seeing David take the initiative to attack him, Ning Zhi narrowed his eyes and looked disdainful!

Although he was trapped in the Demon Subduing Formation, Ning Zhi still looked down on David. After all, the gap between the two realms was too big!

Chapter 4379

Ning Zhi’s big hand clawed at the void, and a wisp of black air instantly condensed into a long sword, and then chopped directly towards David!

Ning Zhi's whole body of demonic energy burst out, and the stirred sea water seemed to boil!

The long sword swept across, turning into thousands of black blades, and the entire void began to vibrate in an instant!

Seeing this, David's indestructible golden body flashed with light, and the Dragon Slaying Sword swung out, and the sword energy instantly turned into fire dragons!

At the moment when David and Ning Zhi fought, the spiritual light around them was instantly shaken away!

The dozen or so demon cultivators were also shaken away by the breath, and they looked at the scene in front of them in horror!

The seawater in the Dead Sea flowed back, forming a canyon directly under the feet of David and Ning Zhi!

The seawater in the entire demon-subduing formation disappeared, and the demon-subduing formation was also exposed to everyone!

On the towering peaks, the formation patterns kept flashing, and in the middle of the canyon, a large amount of flint was consumed rapidly! The

demon-subduing formation can only last for one minute, and the consumption is huge!

More than a dozen demon cultivators can only watch helplessly, unable to help at all. They have to constantly resist the spiritual attacks of the demon-subduing formation!

David and Ning Zhi fought for a hundred moves. Although it seemed that the two of them had just come into contact, they had already fought for a hundred moves. Every time they touched, the void vibrated, making those demon cultivators very uncomfortable!

Ning Zhi's eyes twitched slightly. After this fight, they also roughly knew each other's strength!

"David, you are a child of destiny in the secular world, but I didn't expect that you would still be like this in the heavenly world. You are at the seventh level of the Tribulation Realm, but you can be on par with me, who is at the second level of the Mahayana Realm. But today, no matter how powerful you are, I will definitely kill you and will never let go of this opportunity."

After Ning Zhi finished speaking, the black energy on his body condensed into a monster beast, and he bit David in one bite!

The Dragon Slashing Sword in David's hand slashed it, and the sword light cut the monster beast directly into two halves!

But what David didn't expect was that after being cut into two halves, it didn't stop at all, but instantly turned into two monster beasts to attack!

!

David's body was hit hard by the two monster beasts, causing David to retreat continuously, and his indestructible golden body began to have a crack!

Seeing this, David's dragon crystal in front of his chest began to flash, and a giant flaming dragon slowly appeared behind David!

David knew that the fire dragon transformed by the sword energy alone could not deal with Ning Zhi!

The fire dragon roared, and started fighting with the monster transformed by the black energy!

But every time the monster was bitten by the fire dragon, it would continue to split and turn into multiple monsters!

Soon the fire dragon was surrounded by a group of monsters, and gradually fell into a disadvantage!

Seeing this, David frowned, not understanding what kind of magic Ning Zhi was using. If this continued, the entire formation might be filled with monsters transformed by black energy!

"Senior, what's going on? How can the monster transformed by this guy's magic energy keep breaking apart?"

David was a little speechless and asked the Red Cloud Demon Lord!

"Didn't you see that he was holding a furnace in his hand? There was a demonic energy constantly emanating from his furnace. I guess this is an absorbing magic weapon."

"The fire auras that you started to emit were all absorbed by the furnace and stored, and then released for use."

"The reason why those monsters can keep breaking apart is entirely because of the demonic energy that is constantly released from the furnace. Without a lot of demonic energy to support it, how could this happen?"

"You have to find a way to destroy his furnace, or just grab the furnace..."

said the Demon Lord Chiyun!

At this time, David noticed that Ning Zhi was indeed holding a small furnace in his hand. The furnace was hollow, but demonic energy kept coming out of the furnace!

Chapter 4380

But just when David was distracted and talking to the Red Cloud Demon Lord, a cold breath suddenly came from behind him!

The blue-clothed monk, holding a long knife, came behind David like a ghost!

Then he slashed at David fiercely!

“Die for me...”

The blue-clothed monk’s face was full of ruthlessness. David crippled one of his arms, so of course he wanted revenge!

The fierce breath was directly on the long knife, which was the rhythm of splitting David in half!

Although Ning Zhi said that he would hand David over to him to deal with, the blue-clothed monk was still upset about losing his arm, so he wanted to kill David for revenge!

Just now he found that David was distracted in the battle, so he took the opportunity to attack David from behind! Facing

the sneak attack, David showed a sneer on his face and did not look back!

He didn’t even dodge!

Just when the long knife chopped at David, golden light burst out, and the indestructible golden body blocked the knife, but because the indestructible golden body just had a crack, so this knife went down, the indestructible golden body instantly shattered! The

green monk was overjoyed. Without this armor, David would become a lamb to be slaughtered!

As the long knife in the hands of the green monk continued to fall, the long knife actually chopped directly on David’s shoulder, and could not sink a point!

Looking at David's body again, there was not even a trace of scar!

The green monk was full of surprise, and his smile froze on his face!

He thought that if David's indestructible golden body was broken, he could hurt David, but who knew that David's body was so strong!

"Just you little trash, even if I don't have a treasure armor to protect my body, you can't hurt me..."

David turned his head and smiled contemptuously!

"Quickly retreat, David's body has been tempered, you can't hurt him."

Ning Zhi saw this and hurriedly shouted loudly!The

blue monk turned pale, threw the long knife in his hand, and then retreated backwards!

Seeing this, David dropped a fairy finger, and a golden light shot out from his finger. The blue monk was shocked to find that his retreat speed was actually slowing down, and even the flow of time began to slow down!

Before he could react, his other arm was instantly pierced by the fairy finger, and the whole person screamed!

"Mr. Ning, save me..."

The blue monk shouted Ning Zhi for help!

After all, the strength shown by David was simply too abnormal!

Now even if David stood still, he didn't dare to sneak attack David!

What a joke, such a strong body, I have never seen it before!

"Immortal law? You actually know the immortal law? And this immortal law also contains the origin of time. You actually comprehended the origin of time?"

Ning Zhi was shocked when he saw David perform the immortal finger!

He thought that just following David, that was all David could do, but he didn't expect David to suddenly use a magic!

This was too unexpected for him...

Ning Zhi did not save the blue monk, but shouted loudly: "Escape to the center of the formation, destroy the formation, and you will be saved..."

Ning Zhi wanted the blue monk to destroy the formation!

As long as the formation is destroyed, the remaining demon cultivators will no longer be in danger!

Seeing this, the blue monk could only rush to the bottom of the sea desperately. At this moment, there was no sea water on the bottom of the sea, so it would not be eroded by sea water!

"Ning Zhi, you let this kind of garbage destroy my formation, aren't you overestimating him?"

David smiled coldly, his figure disappeared instantly, and then appeared behind the blue monk!

David used the Fire Control Step, which is a fairy method that can cross a hundred miles in one step, but David has not yet fully mastered the secret art of space, so when he uses it, he can only take a few miles in one step!
