## Chapter 4966

David gritted his teeth, and a trace of determination flashed in his eyes.

He took out the magic whip from his arms, which was specially used to restrain the demon cultivators. The

magic whip was swung in the air, making a “pa pa” sound. Wherever the whip tip reached, the demon’s body was torn apart and blood splattered.

However, the demon leader was not affected at all. It rushed towards David and the gadfly again, waving its battle axe.

There is still a certain difference between demons and demon cultivators, so the power of the magic whip was greatly reduced. Chen

Ping made up his mind and took out the God King Bow.

The God King Bow is an ancient artifact with great power, but using it requires a lot of Dao Pattern Evil Qi.

David injected Dao Pattern Evil Qi into the God King Bow, and soon an arrow feather appeared, and the arrow flashed with dazzling light.

“Go to hell!”

David roared, released the bowstring, and the arrow shot towards the demon leader like a golden lightning.

The demon leader seemed to have sensed the threat of the arrow, and he quickly waved his battle axe to try to block the arrow.

However, the arrow was so powerful that it penetrated the battle axe and shot into the demon leader’s shoulder.

The demon leader roared in pain, and his body began to tremble violently, with black blood pouring out of the wound.

But the demon leader did not fall down, and he attacked David and the gadfly even more frantically.

David knew that it was now a matter of life and death, and he had to go all out.

“Come out...”

David released the Fire Kirin.

As soon as the Fire Kirin appeared, the temperature around it instantly rose, and it roared to the sky and rushed towards the demon leader.

The Fire Kirin’s body was burning with raging fire, and the air was ignited wherever it went.

It fought with the demon leader, and the flames and black power continued to collide, producing a strong explosion.

David took the opportunity to raise the bow of the God King again, put on the arrow, and aimed at the heart of the demon leader.

“Die!”

David used all his strength to shoot an arrow.

The arrow shot towards the demon leader with the power to destroy the world.

The demon leader wanted to dodge, but was entangled by the fire unicorn and could not move at all. The arrow accurately shot into the heart of the demon leader. The demon leader let out a shocking roar and his body collapsed. As

soon as the demon leader died, the other demons suddenly lost their fighting spirit and wanted to escape.

David and the Gadfly would never let them escape. They took advantage of the victory and chased them to kill all the remaining demons.

“Brother, you are so awesome. I admire you so much. You have so many things around you, and you also have a divine beast.”

“This divine beast should be the fire unicorn, right? This is a mount that only the celestial fairy level can have, right?”

The Gadfly looked at the unicorn beast covered in flames and said in shock!

“I don’t know either. My Fire Kirin is still young and needs to grow up slowly before it can exert its power!”

David shook his head!

He also didn't know what level of immortal mount this Fire Kirin was.

"Brother, there are so many immortal stones. Do you want me to go back and call people to mine them?"

The Gadfly looked at the endless immortal stone veins and asked David!

"No, the things about this treasure land are only known to you and me. Don't let others know."

David didn't want others to know about the immortal stone veins in the treasure land.

When they take away the immortal stone veins, others will still be eyeing the treasure land.

At that time, the Gadfly can use this worthless treasure land to defraud other people's resources.

"I understand!" The Gadfly nodded.

David looked at the immortal stone veins. No matter whether he used a storage bag or a storage ring, he couldn't take them away.

But David was worried about leaving these immortal stone veins here!

## Chapter 4967

After thinking for a while, David suddenly thought of something and took out the Demon Suppression Tower.

The internal space of the Demon Suppression Tower is huge. If the immortal stone vein can be stored in the Demon Suppression Tower, then David will have resources to practice in the Demon Suppression Tower in the future.

However, David has never tried it, and he doesn't know if this Demon Suppression Tower can hold other items like a storage ring!

As David's thoughts went, the Demon Suppression Tower began to emit rays of light!

The endless immortal stone vein was actually sucked into the Demon Suppression Tower at this moment! In

just a blink of an eye, a whole immortal stone vein entered the Demon Suppression Tower!

Seeing that he succeeded, David was overjoyed and hurried into the Demon Suppression Tower. This time, he found that there was a fairy stone vein in the Demon Suppression Tower. The fairy energy inside was very rich, and practicing could be said to be twice the result with half the effort!

“Let’s go...”

David called the gadfly and left the treasure land.

When leaving, David repaired the formation of the treasure land again, which was used to deceive those who entered the treasure land in the future!

After the two returned to the City Lord’s Mansion, David said nothing and couldn’t wait to enter the Demon Suppression Tower to practice!

He wanted to use the fastest speed to impact his realm to the scattered fairyland.

You must know that although he is now in the ninth level of the immortal realm, there is still an essential difference with the scattered fairyland.

If he can impact the scattered fairyland, David will be invincible in this heavenly world!

In the Demon Suppression Tower, David sat cross-legged in the center of the fairy stone vein, and the fairy energy lingering around him condensed into substance, pouring into his meridians like the Milky Way rolling back.

Time passed quickly inside the tower. It was only a month outside the tower, but nearly ten years had passed inside the tower.

David’s robe was gnawed by the years and was riddled with holes. Only his eyes became clearer and brighter, reflecting the flowing runes.

The Concentration Heart Technique was madly absorbing the immortal energy. David’s meridians were like a dry riverbed suddenly hit by a rainstorm. Cracks appeared under the impact of the elemental force.

David’s forehead was bulging with veins, and blood was dripping down the corners of his mouth, but he suddenly bit his tongue and used his own essence and blood as a guide to force the scattered immortal power to gather in his dantian.

David knew that he had reached the critical moment of breaking through the scattered immortal realm...

Outside, the clouds above the city lord's mansion suddenly rotated strangely, forming a dark vortex.

Lightning swam in the vortex like a silver snake, and the roar shook the birds within a hundred miles to the ground.

The monks guarding the city offered their magic weapons and looked at the sky in horror – this kind of strange phenomenon was far more terrifying than when the demon army attacked.

In the Demon Suppression Tower, David's hair stood upside down, and the ancient demon-suppression emblems appeared all over his body.

These lines twisted like living things, forcibly suppressing and tempering the raging immortal power in his body.

With a roar that shook the earth, a brilliant golden light burst out from David's body, which penetrated the tower and rushed into the sky.

The lightning in the vortex was attracted by the golden light and pierced into the Demon Suppression Tower like a volley of arrows, but the moment it came into contact with the golden light, it turned into starlight and merged into it.

“Boom!”

There was a loud noise from the tower, and David's breath suddenly surged.

He slowly opened his eyes, with star-like brilliance flowing in his eyes, and the unique pressure of the scattered fairyland swept out like a tide.

The Demon Suppression Tower trembled violently, and the runes on the tower became brighter and brighter, as if cheering for David's transformation.

Outside the tower, Gadfly and others held their weapons tightly at their waists, their hearts almost jumping out of their chests.

He had never seen such a terrifying scene, and secretly prayed for David in his heart.

In the various ethnic regions of the first heaven of the heaven, countless strong men cast their eyes in the direction of Rhino City, their eyes full of shock and confusion.

They didn't know what kind of existence could cause such a terrifying phenomenon of heaven and earth.

## Chapter 4968

When the light of the Demon Suppression Tower gradually dissipated, David walked out slowly with his hands behind his back.

Every step he took seemed to be stepping on the void, and his every move exuded a pressure that people dared not look directly at.

The Gadfly looked at David, who was like a god in front of him, and his throat moved, but he didn't know what to say.

David had just stepped into the Sanxian Realm, but the pressure he showed was so great that even a cultivator of the third level of the Sanxian Realm dared not look directly at him!

This is the gap. He was born with the blood of a golden dragon, while he was just a rhinoceros!

"My dear son-in-law, you have actually reached the Sanxian Realm. Was the strange phenomenon of heaven and earth just now caused by your breakthrough into the Sanxian Realm?" Bai

Yi saw David coming out and had reached the Sanxian Realm, and asked excitedly!

"I don't know either, but when I broke through the realm, the phenomena of heaven and earth were indeed a little bit stronger than others..."

David said!

"Brother, it's more than a little bit. I'm afraid that even the people in the entire first layer of heaven were alarmed. Those who don't know would think that a strong man from a higher plane has come!"

The Crazy Immortal looked at David with envy!

David just smiled faintly. He now knew that with his realm strength, he could easily go through the first layer of heaven!

With this Demon Suppression Tower and this Immortal Stone Mine, it is indeed twice the result with half the effort to practice!

"How long have I been practicing?" David asked!

"Brother, it's been a month..." said the Gadfly!

“One month?” David frowned slightly: “Has Niu Ben been rescued?”

“Not yet.” The Gadfly shook his head: “Just now, the Lord of Feihu City, Jie Zhong, sent someone to deliver a letter, asking me to send someone to Feihu City for detailed discussion.”

“I guess they will only let me take out some resources and cede territory before they release Niu Ben.”

“I have been considering candidates. If I go in person, I am afraid that Jie Zhong will go back on his word and detain me. That would be troublesome!”

“I will go. If Feihu City does not release people, I will destroy Feihu City!” David said immediately after hearing it!

“Brother, it’s too dangerous. Although you have now broken through to the realm of scattered immortals and are not afraid of others in terms of strength, Feihu City has a large number of people after all.”

“As the saying goes, two fists can’t beat four hands. If Xie Zhong is determined, then won’t you be a sheep in the tiger’s mouth?”

“I can’t let my eldest brother be in danger for my son...”

The Gadfly shook his head and didn’t let David take risks!

“Old Niu, I’ll go with my eldest brother. I also know Xie Zhong. Maybe he can give me some face!”

Crazy Immortal said!

“I’ll go too. I can’t let my son-in-law take risks alone!” Bai Yi heard it and wanted to follow David!

He couldn’t watch David take risks alone.

“Don’t worry, I will definitely save Niu Ben!”

David patted the Gadfly’s shoulder.

“Brother, otherwise I will send you a few thousand soldiers to follow you, so that you can take care of it at that time!”

The Gadfly said!

“No, I’m going to negotiate, not to fight. It would be inconvenient if there are too many people.”

David waved his hand!

“Brother, take care of yourself. If the situation is not right, leave immediately and don’t worry about Niu Ben. I don’t think Jie Zhong dares to do anything to Niu Ben.”

The Gadfly warned David!

David nodded, and then left the City Lord’s Mansion with Bai Yi and Feng Xian!

The three of them went back to Linghufang first. After such a long time, David had to tell Hu Mazi and Xiu Rui!

When David returned to Linghufang, Hu Mazi looked at David with dissatisfaction and said, “Damn, where have you been, it’s been more than a month, I thought you died outside.”

“Master Hu, I have been practicing, so I don’t have time to come back, don’t be offended!”

David apologized to Hu Mazi!

## Chapter 4969

“You have reached the realm of scattered immortals?” Hu Mazi looked at David, and then he found that David had already

reached the realm of scattered immortals! “Daoyou Chen, in just over a month, I didn’t expect you to reach the realm of scattered immortals.”

Xiu Rui was also shocked when he saw David!

“Just broke through!” David smiled faintly, and then told Hu Mazi and Xiu Rui about what he was going to deal with next!

Let Hu Mazi and Xiu Rui stay well in Linghufang and don’t run around!

“Daoyou Chen, don’t worry, Master Hu will definitely not run around. He has been partying every night for more than a month!”

Xiu Rui looked at Hu Mazi and said with a little envy in his eyes!

“Master Hu, you should also control yourself, don’t die of exhaustion when the time comes!” David said.

“Get lost now. When you come back, we will find a human territory to stay. Two women will get tired of playing!”

Hu Mazi waved his hand at David!

David and Bai Yi followed Feng Xian to leave Rhino City and headed straight for Feihu City!

Rhino City and Feihu City are thousands of miles apart. David and his team flew for nearly a day before they arrived at Feihu City!

David was suspended in the air and looked from a distance. He found that although the scale of Feihu City was not as large as Rhino City, it was composed of dozens of large and small cities.

In the middle was the City Lord’s Mansion of Feihu City, which was surrounded by many cities and had a much higher safety factor than the City Lord’s Mansion of Gadfly.

Rhino City was just a city, and the City Lord’s Mansion of Gadfly was in the middle, while Feihu City was composed of dozens of large and small cities, each with its own checkpoints!

So if you want to pass these checkpoints and enter the City Lord’s Mansion of Feihu City, it would be harder than waiting for him!

As the sun sets, the dusk is like blood, dyeing the bluestone walls outside Feihu City dark red.

David looked at the city clusters that were like the scales of a giant beast, and the immortal energy in his sleeves quietly circulated. As

Just as David and his team walked to the first city checkpoint, they noticed three obscure auras locked on the three people.

“Stop! Feihu City is under martial law, and all outsiders must leave immediately!”

In front of the first checkpoint, the armored guards blocked the road with their weapons, and their vigilant eyes were revealed through the gaps in their helmets.

Fengxian was about to speak, but David raised his hand to stop him.

He glanced at the jade token hanging on the guard's waist, and a light golden rune condensed on his fingertips, and gently tapped on the token: "Please inform the city lord Jie that we are from Rhino City and have been invited to see him."

The moment the rune penetrated the token, the guard's face suddenly changed, and he saluted respectfully and let them go.

Because this was indeed invited by the city lord of Feihu City, and these small guards dared not make things difficult for them.

What's more, they were just a small city guard at the front, with the lowest sense of existence.

Bai Yi lowered his voice: "My dear son-in-law, this rune..."

"The Gadfly told me, otherwise you can't get through the checkpoints." David looked indifferent, but his eyes swept across the faintly visible array patterns on the city wall, "But looking at this posture, I'm afraid there is more than one checkpoint."

Sure enough, when they reached the third city, the city gate slammed shut.

Twelve black-robed monks appeared in the black fog, and the leader held a bronze compass, on which the three people were reflected clearly: "Who are you? Since you dare to trespass into Feihu City, you will only die!"

"We are from Rhino City. We received an invitation from City Lord Jie and came here to negotiate."

David stepped forward and said!

"You are from Rhino City, I don't know you. If you want to see the city lord, you must pass us first."

The leader actually turned the compass, and a formation appeared in front of David and them in an instant!

Seeing this, the Crazy Immortal sneered, and the aura around him surged. Just as he was about to take action, David stepped forward.

His fingertips passed through the void, and a rune exactly the same as before was condensed, but this time the rune was glowing a dazzling red light.
