

Mana 1641

Chapter 1641 Merely a Dead Thing! II

"Why should you take Candidacy in the coming Age of Emperors to just fail again?"

...!

Bold and domineering words rumbled out as after the Dimensional Archaic Devil Bird, the Eclipsing Celestial Void Eye spoke next!

"We will do you a favor today and strip the rights of candidacy from you and this...anomaly here as well."

The subject of Noah didn't seem understandable to even them as he was actually termed an anomaly by these beings!

CRACK! CRACK!

As they spoke, the barrier of the Mirror Reality expanded further and further, seeming impenetrable to others unless they had a unique power to bypass it. Intense auras began to leak from the body of the Dimensional Archaic Devil Bird and the bodies of the Nine Reality Horned Unicorn and the Eclipsing Celestial Void Eye.

Noah and Genevieve heard the words as Noah simply absorbed them as information, while Genevieve's striking figure actually erupted in laughter, her rage hidden within being palpable!

"A mixed species Disaster Remnant? Me? Haha, laughable!"

BZZZT!

The air turned cold.

The verdant domain Noah had laid out this entire time instantly became tinged dark as from Genevieve's black and white furred body...rays of intense darkness began to leak out.

"It seems that I have taken a side role for too long."

As she spoke, her body splintered and cracked, golden blood beginning to flow as it seemed like it was an outer shell that was now breaking- something hidden within and coming out at this moment!

"Very well. I will remind everyone....just what a real Emperor is."

HOOONG!

"Arrogant things like you used to merely gravel at my feet in the past! Today, I will teach you all to remember that!"

BOOOM!

Space splattered and broke as Genevieve's transforming form blazed forward. Her outer shell broke as revealed within was a pure white-furred creature who still held crimson gold horns that read out MADNESS.

Her head was more draconian, even though it was still filled with white fur- with her eyes wide and dazzling obsidian in color as rivers of reality could shockingly be seen revolving within these eyes!

What was most unique was the fact that around this pure spotless white body, Obsidian flames that melted space itself bloomed and began to rotate around her as these flames were made from Runic Ecritures! They burned bright as they seemed to be made of burning Runic Ecritures, each of these flames resembling figures of different races and species as all of them swirled around Genevieve's body while...respectfully releasing hymns!

OOOM!

As if the representation of these races and species within the black flames were those who paid respects to this being in the past, and now they were once more paying their respect as fantastical sound waves that seemed like Hymns of profound respect rang out, the souls of those nearby coming under great pressure.

The Dimensional Archaic Devil Bird, Nine Reality Horned Unicorn, and Eclipsing Celestial Void Eye looked at the scene with slight surprise in their eyes.

Could they have actually been wrong in identifying this existence?

Their cold eyes remained the same as they watched this being thunder towards the walls of the Mirror Reality.

There were unique creatures. So unique in their power and unique in their specialized abilities that one of these was the fact that they could interfere and manipulate the veils of the Mirror Dimension.

This was something that very few had managed to do, especially those in the Firmaments of Ascendancy!

Their enemies could release their attacks as much as they wished while they could simply remain hidden behind the veils of the Mirror Dimension....and the attacks of others could never reach them!

But this was just one factor of their strength.

The other factor was the feeling that Noah had been receiving every time he gazed at these beings. Yes, they were still at the Ninth Firmament of Ascendancy, but they felt entirely different because they were at a stage far above any others.

BOOOM!

Behind the veil of the mirror dimension, space trembled as dozens of Reality passages appeared behind these beings, each of them boasting over 15 Reality Passages.

But this was not all!

It was the fact that in the next moment, the eyes of the Dimensional Archaic Devil Bird flashed as a ray of dimensional light shot out from them and towards the rushing figure of Genevieve, something shocking occurring wherever these rays of light passed.

The space they tore across terrifically turned entirely white as the laws of Reality themselves were torn.

It was a sign of...A Legend's Visage!

This was the feeling of power that this being gave off!

ROAAR!

The Nine Reality Horned Unicorn released glorious splendor from its shimmering horn as a pillar of incandescent light shot out from it as well, this attack also erasing any natural laws of reality wherever it passed as a blank white space could be seen left behind.

The celestial eye blinked once as unseen waves of soul power barreled out, doing the same exact thing to the surrounding space as through their attacks...each of these three beings were confirmed to have all reached the state of a Legend's Visage!

Their attacks were each actually over twenty thousand True Reality Damage Values at this moment as they all thundered towards a singular Genevieve.

A singular Genevieve that was actually unfaltering in her newly enacted form that was filled with pure white fur and the flaming figures of dozens of races paying homage to her.

She spoke coldly to these attacks that could decimate any Ninth Firmament existence!

"Scatter."

...!

A mere word.

Yet this word carried with it the authority of a newly unlocked TABOO Nomological edict. A concept that only those at the stage of Legends could utilize!

A concept that denied the very natural laws of Reality themselves and was thus termed TABOO. Against attacks that eradicated the natural laws of reality and a concept that entirely ignored them...what would the result be?

BOOOOOM!

A shocking fantastical explosion rang out as Noah witnessed the results of this clash firsthand.

As for what he saw? It was...a cancellation!

Blank white space bloomed as reality itself was shredded apart, ruptures spreading out as they tried to heal themselves ever so slowly.

It turned out that while utilizing a TABOO concept, one could effectively be considered to have attained a Legend's Visage as they could perform feats that could shred apart the natural laws of Reality Judy like them!

This was why Genevieve had retrieved a TABOO concept no matter the cost.

This was why at this moment, the two sides looked at each other dangerously without accounting for what the vibrant Infinite Willow Tree still spreading its branches out endlessly was planning!

Chapter 1642 You Shall All Perish!

The eyes of the Dimensional Archaic Devil Bird released bountiful splendor as its voice echoed out.

"You have already recovered some of your core concepts...this makes things difficult, but still within reason for a Disaster Remnant."

...!

"Why did your pride seem hurt by being called a mixed species? Even with this new form that you have taken, it doesn't seem like any of the important pure species that I have learned of in the past as I have to ask...why does a thing like you carry so much pride?"

WAA!

The words of all existences with the Bloodline of Emperors seemed to be filled with pride and power, one side always trying to tear the other down.

Emperors!

We have to get a grasp on this word and exactly what it stood for, with it being given different respect within every Age that passed.

In history, Eons have passed as with the turning of time, many Ages have come and gone as each Age of Emperors had its own distinguished existences rising and falling.

Those that still remembered history considered the recent eons all part of the Olden Times, with multiple Ages of Emperors rising in this Era as the last Age of Emperors was brought to an end by the being who had attained Authority and aided in the splitting of the Infinite Realities!

When this being ended the last Age of Emperors, he also effectively ended the Olden Era that had spanned countless years due to the drastic actions as for many years after that...it was a time of calmness as if Destiny was coiling and preparing this whole time.

The calm before the storm. An accumulation of destiny and fortune over countless years occurred after the end of the past Age of Emperors and the Olden Era as it all seemed to be in preparation for a glorious new Age of Emperors and an even more glorious Era...the Kainos Era!

Yet during this period of time that was still a gap between a past Era and a new one, astounding beings that had qualifications to be Emperors rose.

They forged astounding concepts that granted them illusory crowns or even connected to Bloodlines of the Olden Times similar to Noah's Olden Bloodline of Arcadian Tyranny!

They had the qualifications to be Emperors...yet they rose at a time when it was not the Age of Emperors.

Some were astounding enough to live for billions of years and survive to achieve Reality as they were now greeted with the coming of the Kainos Era and a new Age of Emperors, while others had perished in the river of time before even meeting this new Era!

The Dimensional Archaic Devil Bird, Nine Reality Horned Unicorn, and the Eclipsing Celestial Void Eye were such existences who had obtained Olden Bloodlines at a time when it wasn't any Age...but they now stared at two existences that represented the arrival of a new age.

They had as their targets two existences that had solidified their crowns as they affirmed that a new Age of Emperors had begun...that the coming Kainos Era was now being ushered forth as they had to get their hands on this destiny or be astounding enough to obtain Candidacy on their own!

As existences who had reached A Legend's Visage...this was actually not too hard.

But then there was the fact that for them to walk the path of Emperors...it had to be painted with the Blood of countless other Emperors.

For one to obtain authority over any Age...they had to have dominated and killed many Candidate Emperors to obtain their authority!

The three existences that had grasped A Legend's Visage...they wanted to start on their paths today with these two Candidate Emperors as the sacrifice to begin painting their path.

OOOM!

Genevieve stared coldly at these existences hidden behind the veils of the Mirror Reality.

"Why don't you come out of your veil? And I will show you exactly who I am if you are so young to not even know my form!"

WAA!

Silence reigned as the two sides measured each other before erupting into a shocking battle.

Each one had in their hands shocking capabilities that would cause any other beings to run in fear, their wills causing the very surrounding space to shudder as amidst all of this, the Infinite Willow Tree that had sprouted from the Throne of Unnamed Tyranny released cascading waves of power as the Spear of Reality that had briefly disappeared during the transformation reappeared at this moment.

It didn't come back alone, though, as it carried a vibrating light of crimson and gold that went on to bloom into the dazzling figure of RUINATION!

"You all...do not need to be at a standoff."

BZZZT!

With a voice filled with unbound tyranny, Noah's endless branches surged forth as they covered countless light years in a mere instant.

Its rainbow-colored trunk let off waves of splendor from its throne as all the surroundings were filled with verdant spatial vegetation that made this whole area seem like a Mystical forest, the figure of RUINATION coming forward to grasp onto the rainbow-colored trunk of the Infinite Willow Tree as her tiny body surged with bountiful Essence of Reality!

Her emotionless face was firm and serious as she shouted out valiantly.

"YAAA!"

The instant her bellow reverberated forth, the numerous branches of the Infinite Willow Tree that had spread out to cover countless light years to bring all of the present existences into their shadows glimmered brightly.

These branches glimmered as in the next moment, their tips caused the fracturing of space akin to a mirror shattering!

A glorious action that pulled upon the Mirror Dimension and established something even larger than the wall that the Dimensional Archaic Devil Bird had enacted!

Among the countless willow branches that had surged forth, some had gone on to touch the veiled wall of the mirror dimension floating before the three existences as with their appearance, this veil fluctuated and very soon cracked away!

"There we go."

HOONG!

The glorious voice of the Unnamed Kainos Emperor echoed out.

"No walls to hide behind, no dimensions to scurry off to."

As he spoke, his branches continued to extend out as they saw the eyes of the three Olden Emperors very clearly!

These beings had turned utterly serious with the shattering of the veil of the Mirror dimension- staring at Noah in a newfound light as they heard his voice continuing.

"I do not know your history...and I've only glimpsed your aims here now. But just from the mere fact that you chose to turn your killing intent towards me and not just your target here today...this means I shall ignore whatever your Origins are as today...you shall all perish!"

RUUUMBLE!

A declaration!

A statement from an Emperor of a new Era towards those who were still in the past Era!

Chapter 1643 The Obscene Ascendant Dimensional Essence Shards! I

The very veils of dimensions were torn by the Unnamed Kainos Emperor as another newly enacted Candidate Emperor of the Kainos Era looked at this scene with shining eyes!

The two of them faced three existences that had achieved A Legend's Visage as the stage was set for the shocking battle.

Far from this location, in the hidden veils of space that contained the Infinite Reality...an Assimilation of Prime Realities was nearing an end.

The effects of Infinite Dream were fully supplemented into the Infinite Reality as 100 Souls returned, the last one pulling and assimilating a vast Prime Reality with many bountiful domains.

The most powerful inhabitants of the Infinite Reality watched this scene as it was reenacted under the illusory light of Little Henry, where their souls were able to expand their comprehension by watching this phenomenon while also seeing the changes to their surroundings firsthand!

The Assimilation of the Prime Realities propagated an astounding result as the concentration of pure essence within the Infinite Reality exceeded all possible limits, multicolored seas of essence beginning to form and painting the countless stellar bodies in many Universes, Cosmos, and Domains with an austere aura of a paradisiacal land.

The figure of Little Henry was privy to all this as after reenacting what he saw, his Little body felt a pull of destiny as he disappeared into the veils of space to leave behind everyone who was still dazedly staring at their changing surroundings!

SHAA!

Little Henry crossed many light years in an instant while following this pull of destiny, his small figure coming out of the rifts of space to shockingly realize that he was outside of the Boundary of the Infinite Reality and was actually staring at its bright and endless river that was far bigger than anything else he had seen.

Beside him was the being that had tugged on the strings of destiny, Little Henry seeing the dazzling figure of a stellar being whose very skin shimmered of Cosmos.

"Father."

The son barely a few days old paid his respects as he did something as shocking as leaving his Reality by himself!

"Let me see your form." Noah spoke towards Little Henry with a smile as he finished watching the expansion of the Endless river of Reality that was his home, his son's very skin beginning to change and taking on a similar form to him as a little boy whose entire body was made up of purple-blue stellar bodies covered by a hue of gold appeared. He seemed to be aging and growing up rapidly as he didn't look like a chubby baby from just days ago, devilish handsomeness already beginning to bloom already.

This was the effect of Interlinked Royal Lineage that was swallowed by Noah's Quasi-Venerable Unnamed Kainos Emperor Bloodline- granting all of Noah's Lineage his Bloodline as when one looked at Little Henry, they would be able to see that his illusory crown was half solidified!

Half the Candidacy to be an Emperor of the coming Kainos Era was granted to Little Henry purely because of the actions and prestige of his father.

It was an astounding Reality as Little Henry received information about it similar to his Father, where he now looked towards him with utmost respect as he spoke.

"The vast Realities hold countless opportunities, with chaos blooming out at this moment as Primordial Beasts start a war with Primordials that have ruled for eons."

"Those that can make use of this chaos to rise are those who will rule in the coming Era...so I wanted to ask you, my son. Do you want to rule? Do you want to forge your own path in these vast Realities?"

WAA!

Noah asked a question that he knew an answer to as the same blood of an Emperor that flowed in his veins also flowed in his son's body!

"With our destiny, we should be capable of breaking past many restrictions and limitations as what we can do is only limited to what actions we take. Since you have the Blood of an Emperor, you have the right to forge your own path as I do not want you to feel like you have to remain under my shadow...or even entertain the thought that you cannot exceed me."

...!

Waves of destiny circled the stellar bodied father and son as their mere talk was something that would have astounding effects on the vast Realities out there.

Little Henry's eyes were absolved of any conflict as he looked respectfully at his father and voiced put firmly.

"I want to try."

THRUM!

Seas of Destiny bloomed and weaved out.

A Child of Destiny...the son of the Unnamed Kainos Emperor...such a being also chose to step out and make his own path in this coming Age of Emperors!

"Good. As far as I know...in any Age, a single Emperor can rise Supreme and obtain authority. But this is yet another established norm and restriction that you should not let weigh you down, where you should do all that is within your power to seek your own authority!"

As Noah spoke, he waved his hands and caused the appearance of 10 Seeds of Reality, 20 Olden Orbs of Transmogrification, clusters of Reality Crystals, Ascendant Flasks of Life and Death...and bountiful more loot that he was concurrently receiving as his main body continued to open the Resplendent Treasure Caches.

"Elevate your destiny-based Edicts to Quasi-TABOO to sufficiently protect yourself and your roots. Take Kazuhiko, Cthulhu, the Emperor Penguin...and any others who wish to explore the vast realities and forge their own path. In the midst of this war, you all can obtain many opportunities as who knows how many Emperors will rise within our little Infinite Reality?!"

OOOM!

His words were utterly terrifying as after all the laid out loot, he waved his hands one last time to call out the Serendipity of the Cataclysmic Reality. An Enlightened Primordial Relic was handed down to his son as seconds prior, Noah had received another transport type Relic from the Resplendent Treasure Cache that exceeded this Tier by a few levels!

Little Henry looked at all of these things as he locked eyes with his Father.

Similar to him, Little Henry and the others would send out their Clones as they sought out the wonders and mysteries of the Infinite Realities and built their own paths.

"After being given so many things...it would be shameful of me if I cannot make something out of myself! Father, at the very least...I will bring you the Origin of a Legend in a few months- no, weeks, at most!"

...!

The chubby stellar body of Little Henry shone with luster as he spoke respectfully and with conviction!

Noah nodded with a smile while patting his son's head, gazing out to the vast unknowns. There were too many things in the vast Realities that even he could not cover. Too many Bloodlines and Realities...too many treasures.

It was time for those within his Reality to expand their wills and seek these opportunities themselves, and his son would be at the forefront of it while his own will continued seeking for even more opportunities!

His son would be another Candidate Emperor of the coming Age of Emperors...and who knew what the results of everything would be as this new age was ushered in?!

Chapter 1644 The Obscene Ascendant Dimensional Essence Shards! II

As Little Henry came to a decision with one of his Clones, Noah also conferred with his mom and his women on what they wished to do with other Clones as his main body continued to be swapped by astounding things in the Cosmic Holy Land.

With the end of the first Infinite Dream and the ridiculous expansion of the Infinite Reality, Noah wanted to start the second Infinite Dream as soon as possible, but his main body could not slumber just yet!

He was currently watching the beautiful golden prompts of the 4 remaining Resplendent Treasure Caches that revealed fantastical opportunities.

<10 Random Quasi-TABOO Reality Jewels have been obtained>

<The Sui Generis Enlightened Primordial Relic <Adornment of the Sinner> has been obtained.>

<The Quasi-TABOO Relic <Iridescent Reality> has been obtained.>

<The Blueprint of the TABOO Relic <PIONEER> has been obtained.>

<500 Olden Orbs of Transmogrification have been obtained.>

Shockingly bountiful prompts that foretold of too many surprises rose before his eyes as he gained enough Olden Orbs of Transmogrification to birth 500 Quasi-TABOO Nomological Edicts and also obtained another Blueprint of a TABOO Relic!

Since it only told him how to forge it and not what shocking specifics it would hold, Noah's eyes only breezed over its required materials and how hard it would be for him to forge it before he continued ahead.

The Quasi-TABOO Reality Jewels were something like the Reality Nova Jewel but even more dreadful, and there was a Sui Generis Enlightened Primordial Relic that held a unique name, while the Quasi-

TABOO Relic <Iridescent Reality> was the reason Noah had passed down his Serendipity of the Cataclysmic Reality to his son!

<Iridescent Reality>:: A Quasi-TABOO transport type Primordial Relic in the form of a mesmerizing Reality. It has the capability to lay down anchors across all previously crossed regions and teleport to these regions without the use of any resources, and it can also traverse into Common Dimensions under the user's discretion. Features under the Iridescent Reality include...

A vast Reality as a transport vessel for him to stand on!

It contained wondrous features and capabilities that could even allow it to cross Common Dimensions that when Noah focused on this closely...he found the Dream Dimension and Mirror Dimension were the only ones listed so far, these being the ones he had encountered so far.

As a part of his mind focused on these details, more prompts on the collective loot of the remaining 4 Resplendent Treasure Caches continued to rain down!

<3 Ascendant Dimensional Essence Shards have been obtained.>

<The Sui Generis Enlightened Primordial Relic <Wand of the Necrowizard> has been obtained.>

<3,000 High Tier Soul Crystals have been obtained.>

<The Quasi-TABOO Relic <Aegis of the Warring Emperor> has been obtained.>

<5,000 Ascendant Breaths of Reality have been obtained.>

<800 High Tier Naturally Formed Primordial Treasures have been obtained>

<4,000 Ascendant Flasks of Life and Death have been obtained.>

<20 Consumable Quasi-TABOO Relics <Pandemonium Infused Dimensional Aether Orbs> have been obtained>

<The Blueprint of the TABOO Relic <FORTRESS> has been obtained.>

"Ah..."

It was...just so beautiful.

Loot so wondrous and dazzling that one would feel immensely happy just from looking at it!

Bountiful reserves of Ascendant Breaths of Reality, another Sui Generis Enlightened Primordial Relic, Ascendant Flasks of Life and Death, and a number of High Tier Naturally Formed Primordial Treasures that were many times more than what Noah had currently obtained in the explored regions of the Azure Forsaken Treasure Reality!

Then, there were the new forms of loot he hadn't come across before.

Two brand new Quasi-TABOO Relics- one that was shockingly a consumable and the other being a defensive one as Noah called out the <Aegis of the Warring Emperor> to grasp onto a brilliantly purple shield the same size as him, golden runic lines etched throughout it as Runic Ecritures distinctly floated a few inches off this shield! Its material didn't seem like metal as it looked free flowing and dazzling to the

eyes, where one might even mistake it for a purple portal or rift with the way that it pulsed with essence.

When Noah held onto it, he felt his body Infused with bountiful power as his True Reality Defense Values experienced a change, his eyes very quickly locking onto the description of this new loot and the others on the same stage as it.

Quasi-TABOO <Aegis of the Warring Emperor> :: A purple shield born from actualized Runic Ecriptions that were melded with many other materials. It is part of the Warring Emperor Set lost in the rivers of time. It grants a base +20 True Reality Defense Values to the wearer that is applicable to all cast abilities. The Aegis was formed from 100 Defensive Runic Ecriptions, 60 Naturally Formed Primordial Treasures...

Quasi-TABOO <Pandemonium Infused Dimensional Aether Orb>:: A dimensional bomb in the form of an Unstable coagulation of essence that is capable of dealing 50,000 True Reality Damage Values when activated and thrown out. A single microsecond exists during the time of activation as within that period of time- run very, very far away.

Quasi-TABOO <Ascendant Dimensional Essence Shard>:: A shard from an unknown dimension that can be bound to a single skill. The bound skill is altered in such a way that it does not require any resource requirement to cast anymore.

...!

A ridiculous loot appeared on top of the entirely too ridiculous Aegis of the Warring Emperor and the 20 Pandemonium Infused Dimensional Aether Orbs!

The Aegis of the Warring Emperor bolstered Noah's defense similar to how the Dimensional War Beads had bolstered his Damage Values, with the Pandemonium Infused Dimensional Aether Orbs being utterly disgusting by being bombs that could reach attacks twice as powerful as a Legend's Visage.

Then, there were the three <Ascendant Dimensional Essence Shards>.

Even Noah was speechless when looking at their details!

'Aren't they...a bit too much?'

Noah turned introspective as he made a silent prayer for all of his future enemies.

For anyone to have a bleak enough destiny to turn towards his direction if they weren't multiple levels above him...such beings were too unlucky when Noah was getting his hands on objects like the Ascendant Dimensional Essence Shards!

They seemed entirely too broken when one took into account the fact that Essence of Reality was such a limiting resource to all recent abilities and coming abilities, and yet these Ascendant Dimensional Essence Shards could actually overcome this on any skill they were placed on!

"Can they..."

<They sadly cannot be Quadruplicated, Master. Unique types of Essence lie within that I cannot replicate.>

The voice of RUINATION rang out in Noah's behind just as he asked as he sighed in understanding.

Even 3 of these Shards were already dreadful as for how Noah would use them?

BZZZT!

His Origin and Soul underwater imperceptible changes the moment he called out a single circular crystal that swirled with a dazzling gray light!

Noah's mind was already made up for which skill would get its resource requirements nullified at this moment as the others would follow later.

As for what ability was altered? His enemies were about to feel it the most!

Chapter 1645 Merely an Impetuous Genius!

"You? Do you truly believe you can be the cause of us perishing?"

WAA!

In the verdant domain filled with stellar plants, the authority of the Olden Emperors carrying the Will of an important personage rang out, defiantly and with disdain replying to Noah's assertion that they would perish here today for aiming their killing intent towards him!

"The Disaster Remnant I can understand and accept the boastful words of as she had history and has been a genuine Legend countless years past. But you? An unknown existence that has merely attached onto a single unique aspect of the Firmaments to barely near our levels...a mere nobody like you dares to claim dominance over us?!"

...!

The luminous revolving eyes of the Dimensional Archaic Devil Bird spun dreadfully as 30 Golden Ascendancy Halos bloomed from it, the same scene repeating itself on the glorious bodies of the Nine Reality Horned Unicorn and the Eclipsing Celestial Void Eye!

The golden Halos were uniquely surrounded by bountiful white Runic Ecriptions and threads of fortune and destiny that gave them a mesmerizing light, the mirror-like domain around them trembling as the singular Eclipsing Celestial Void Eye spoke next.

"In many Ages of the past, existences like you with a slightly bountiful destiny have tried to crawl up the hierarchy. Having an abundant destiny and believing yourself to be higher than all others as you think that means a direct path to Authority...this is a falsehood we shall help you correct today."

...!

"Foundation trumps everything...and even though you shield yourself well with the few concepts you have comprehended, I can see that you are a very, very young soul. Had you hidden yourself and developed more Quasi-TABOO concepts or even tried to forge TABOO concepts. Had you given yourself just a few millions of years strengthening your soul...paired with the unique aspect of unlocking the authority of Black Tier Ascendancy Halos, you might have truly stood a chance at becoming a reigning Emperor whose name would be spread far and wide. But..."

BOOOM!

Waves of austere majesty exploded out as after each of their 30 Golden Ascendancy Halos were released, something shockingly outside the norm occurred!

Their Halos...didn't go towards fusing with their bodies.

They terrifyingly shifted towards the other blooming Golden Halos as in a shocking fashion, the Ascendancy Halos of these three beings began to fuse with each other!

"...you let your astounding Destiny get to your head. You believed yourself and your destiny to be more triumphant than the fact that others before you have lived for billions of years longer and built a foundation that you cannot even compare to. Had you quietly used the little accumulation you've built to break past your restrictions and forge your Reality Passages, formed another 20 Black Tier Ascendancy Halos, truly reached the Ninth Firmament of Ascendancy and touched upon the veil of Reality like us...even I would be fearful of you then! But the current oyu who is merely filled with potential...I have seen many like you fall because of your inflated egos and your impatience that simply cannot control itself, wanting to be under the limelight as quickly as possible!"

WAAA!

"Past Emperors planned well and bid their time for countless years before they finally erupted with their foundation and placed everything below their feet. You...chose to do the opposite and simply revealed yourself much too early."

One would think it was still the Eclipsing Celestial Void Eye still talking, but its voice had shockingly begun to resonate with the Dimensional Archaic Devil Bird and Nine Reality Horned Unicorn as these beings began to flicker from corporeal and incorporeal!

As this occurred, their voices seemingly merged into one as they caused the very surrounding space to tremble.

"That is why your name will not be known. This is why you will become another astounding genius among the bones of many other dead ones just like you as you lot...just cannot seem to get the idea of patience cemented in your bloated Destined brains. You will merely be lost in the ravages of time as a memory of nobody among other countless nobodies."

HOOONG!

Their words finished as the bodies of the three beings turned into particles of light that cascaded together to form a singular being.

Similar to what the Ninth Firmament Enders had done, but what they were doing was something far, far above that as a shocking aura began to bloom!

Genevieve's cold eyes gazed forward seriously as Noah...his figure as an Infinite Willow Tree shimmered with immense light as his will solidified around him, showing the illusion of a devilish smile full of dominance!

"Me? A nobody?"

His words came out in a seemingly pondering fashion as the transformation of the three powerful existences neared its end. The pride of these past Emperors accused Noah of foolishness and impatience as their undeniable wills thundered down the judgment that he would amount to nothing in these vast Realities- that he didn't have the judgment of a True Emperor!

Had he moved with haste? Had he not made preparations?

Just from the mere fact that it was a Clone indistinguishable from the Original standing before their eyes now, Noah very well understood that he had made sufficient preparations!

As for hiding himself and waiting millions of years before coming out?

'What need have I to lie in hiding? Does that seem like the demeanor of a True Emperor?!'

RUMBLE!

His Bloodline churned as if it seemingly agreed with him, his soul being strengthened passively as he was the same being that was even sending his few days old son out into the vast Realities after confirming his protection with 20 Orbs of Transmogrification to birth 20 Quasi-TABOO Nomological Edicts!

He had been exploring the vast realities even before he attained such a level of Edicts as he cared for his son so much that he gave him 20.

Was he truly someone that did not prepare and think ahead? The answer...was no!

BOOOM!

His will exploded out with power even as the glorious aura from the three fused Olden Emperors spread out.

He trusted in his Destiny.

He had already conferred with the Dictum Emperor and his other concepts.

He knew it would be perilous...but as always, the most opportune moments came with peril as he would gain things that would be equivalent to billions of years' worth of effort by other beings in mere moments!

"We shall see whether I am an impetuous genius...or whether you all are simply cowards that will never amount to much even with billions of years of history!"

HOOONG!

Chapter 1646 IllusoryIllusory Legend! I

The wills of the different Emperors clashed to subdue each other inherently even before the battle fully bloomed as neither side gave in!

Noah let his own will be known as at this moment, the shocking action of fusing their Ascendancy Halos that the Dimensional Archaic Devil Bird, Nine Reality Horned Unicorn, and the Eclipsing Celestial Void Eye had taken bore fruit.

The form of a terrific creature whose head was a dazzling golden crimson eye with a curved horn extending out at the very top appeared, this horn pointing to an enormous illusory crown above. Behind it, 30 dazzling Reality Passages could now be seen as they pumped down endless essence that other beings would explode from just accepting! This wasn't a result it could achieve by itself...only through this fusion!

Its two front limbs of this creature were morphed into long spanning wings while its back limbs were pillars of Flames, its body reminiscent of a fusion of a four-legged creature and a winged one as it was half filled with golden fur and half filled with crimson feathers as to top it all off, 10 pairs of aurora wings erupted from its back!

What was most astounding was that this abomination...had something extremely striking that caused Beatrix who was protected behind Genevieve to turn utterly ashen.

This striking feature also caused Genevieve's eyes to turn somber as Noah's awareness only watched out emotionlessly!

It was....

"An Illusion Reality."

RUMBLE!

The uniform voice of three beings into a single one rang out as the head of the creature that was entirely an eye opened to release a dreadful light that ruptured the surrounding natural laws and caused white rifts to spread out.

The most astounding feature was actually the fact that from head to toe of this existence- there was the unforgettable scene of an illusory Reality releasing glorious splendor!

"We saw the battle prior where you seemed to show more and more strength as time passed. So for taking care of the two of you efficiently, we have taken not just our strongest forms, but we even collectively pooled everything together into a single body."

...!

"There will be no sudden jumps in power during battle, no surprises or shocks that catch anyone off guard. There will only be your deaths. This is what preparation and resolve from an immense foundation that has only been built up for millions of years looks like."

In a shocking turn of events, the three beings that were already terrifying fused with each other into an abominable creature that shockingly displayed an illusory Reality across their bodies! Did this truly mean what it stood for?!

Genevieve turned towards Noah's position as her experienced eyes saw many things, flashing with coldness and ingenuity as she sent him a mental message before seemingly deciding something huge.

"So? You have been boasting this whole time of your destiny being greater than everyone else's. Do you think you can escape your Clone being killed by an existence imitating the will of a genuine Legend, or will you lose a portion of your authority here today?"

WAA!

Her words were exceedingly cold as Noah had been expecting them, replying with ease while watching the terrifying being about to move above them.

"Are you contemplating your own survival with me included in your calculations? Are you seeking help without asking for help?"

"I can survive just fine. It will merely require me to unlock a few more things that I do not wish to do right now." Coldness remained in Genevieve's words as she continued!

"Is this not what you were waiting for? Is this not why you didn't aim your attack towards me?"

Noah had his own Destiny, but Genevieve also had her own vast destiny and intuition as she finally saw through some things and caused Noah's will to release a devilish smile!

"Good, you are finally catching up as this may not be disappointing after all. Two newly born Kainos Emperors against three Olden Emperors fused into the false will of a genuine Legend...let's see what the results would be!"

HOOONG!

Unseen waves of destiny weaved out as the figure of Genevieve flashed, the dense stellar vegetation of the Transcendent Plant Kingdom making way as she came to float beside the radiant multicolored Infinite Willow Tree that had its branches spread out everywhere.

The existence that had formed an Illusion Reality looked at this coldly as it even spat out dreadful words!

"That's cute."

WAA!

"The will of a Legend is undeniable...even if it is a false one like this. For taking care of any Disaster Remnant and an impetuous little genius who believes he is above all...it is more than sufficient!"

...!

Utter confidence and surety was filled in the words of this being that was the accumulation of three others who had lived for extremely long periods of time!

Beings with immense foundation and preparations that individually, they were already at the stage of a Legend's Visage where each of their attacks could easily surpass 20,000+ True Damage Values. What about now when they fused together and displayed the false will of a Legend?

"You should have hidden for a few more years before coming out, kid."

With boundless contempt and resolve, the body of the Illusory Legend moved and pressed down with a force to crush everything!

An undeniable force that when Noah did the calculations- it amounted to a bit more than 100,000 True Reality Damage Values.

Undeniable!

It tore across the dense stellar vegetation as it didn't even try to break the veils of mirror reality Noah had made through RUINATION all over the domain, straightforwardly going towards him and Genevieve to wipe them out!

'Hooo....'

Noah's soul felt immense calm and serenity as everything he had felt with his destiny came to be.

An unavoidable threat that he had to face head on or his clone would perish along with a significant portion of his authority.

A threat that would also pave the way towards something grand if he overcame it!

All he had to do...was be capable of withstanding 100,000 True Reality Damage Values that this being would be emitting out with his attacks!

On his Origin and soul, he had the Dimensional War Beads and Aegis of the Warring Emperor equipped as his skills achieved Enhancers of 10 and 20 True Reality Damage and Defense Values respectively, where after he laid out his Resource Shields, Auras, and the Runic Ecritures of Defense on his soul that each had different skills with a range of 5-30 Values...he could shockingly achieve close to 30,000 True Reality Defense Values with his stacked Shields and Auras.

But this....would not be enough!

Chapter 1647 Illusory Legend! II

Even after he overlayed all of his defensive shields and Auras among other things, he could only multiply them with the 500 Multiplier and achieve a total stacked defense of 30,000 that he could replenish every microsecond if it was broken.

But this was not enough to withstand more than 100,000 True Reality Damage Values that would be raining down every microsecond!

So Genevieve was taken into account as with her unlocked TABOO Nomological Edict and her being capable of dispelling the attacks of these three terrifying beings before, she should be capable of defending a range of 20,000-30,000 True Reality Damage Values.

That left over 50,000 Damage Values from this terrifying being for them to stop...or they would be turned into mere meat paste of stellar lights.

This was why even now, Genevieve's expression was somber as her will was ready to tell her soul to rip apart more restrictions forcefully...but she waited just a few more microseconds as her will was directed to Noah!

The one who had been most calm even amidst everything.

He should have accounted for many things as what else could he pull out?

BZZZT!

The surroundings fluctuated in a wondrous fashion as from the dense stellar vegetation beside the Infinite Willow Tree, the auras of two more existences rose!

With spinning solidified crowns and adorning the austere forms of Samsara Cosmic Dao Origins...it was two more True Sanguine Clones that had taken different True Forms!

Noah's main body was the one that held all authority, with his Clones being capable of accessing this authority as they called out the authority of the Ascendancy Halos he could wield.

His two other Clones pulled on this same authority and fused with it, attaining their True Forms with differing boosts from the Infinite Willow Tree as this...was Noah's answer to how he could overcome this terrifying situation!

A question was posed as to where Noah's remaining True Sanguine Clones would be some time back. If one Clone wasn't enough to withstand the damage, Noah would simply have two more by his side as this was exactly what he did!

HOOOONG!

The bodies of the two newly appearing True Sanguine Clones were truly too mesmerizing as every part of their bodies represented clusters of Cosmos- seemingly like a moving and breathing cluster of Cosmos had come to life as the two moved like circular stellar bodies while already surrounded by all the Resource Shields and Auras possible!

Their defenses were also even greater than the first True Sanguine Clone in the firm of the Infinite Willow Tree as...

<You have taken the form of the Samsara Cosmic Dao Origin while fused with your 10 Black Tier Ascendancy Halos.>

<All attacks and abilities are now cast with a single authority while in this form, allowing your base values and skills to obtain a multiplier of 500 to your True Reality Damage Values and True Reality Defense Values.>

<As a Samsara Cosmic Dao Origin in your True Form, you are further granted an additional multiplier of 250 to all abilities that increase True Reality Defense Values.>

The same base 500 multiplier to all values, but it didn't have an additional 250 multiplier tacked on for Damage Values as the form of clusters of Cosmos actually granted an additional 250 multiplier to Defense Values!

It meant their defensive capabilities rose an extra ten thousand from Noah's Infinite Willow Tree Clone as they reached a bit over 40,000 True Reality Defense Values.

"Fucking ridiculous."

HOOONG!

Genevieve cursed beside him as she saw the two new entrants with the same shimmering solidified crown, stopping irrevocably hurting her own soul as her body lit up with countless rulers of Realities- ready to defend against the Illusory Legend coming down to wipe out everything!

It truly was ridiculous as just to maintain one's true form, immense Units of Mana and Essence of Reality were required as Noah's expenditure currently was 3,000 Units of Essence of Reality every microsecond for all three Clones.

It was an expenditure others couldn't bear but he...he had Ascendant Flasks of Life and Death ready if ever his Essence of Reality dipped lower than 10,000.

His preparations were done. Everything on his side was complete as now, all that was left was to watch the fruits of his labor!

"I told you that I do not want surprises and sudden change of events."

OOOM!

The booming voice of the Illusory Legend hammered down along with its will, its head that was a giant golden crimson eye pointing down and releasing a dreadful light that formed into a sharp spear that could end thousands of Realities coming down even faster.

Damage exceeding 100,000 thundered down as Noah's three Clones and Genevieve defended.

"YAAAA!"

"OOOOOOH!" The Infinite branches of the Willow Tree shimmered as they wrapped around everything with incandescent barriers, the True forms of two Samsara Cosmic Dao Origins dazzling with brightness as they also brought their stacked defenses nearby!

Genevieve released dozens of glimmering Reality rulers to wrap over all these layers of defenses as within a microsecond, the terror thundered down.

...BZZZZT...BOOOM!

An apocalyptic impact echoed out as astounding whiteness bloomed.

The Natural Laws of Reality were torn asunder as they stretched out for light years, the will of the Illusory Legend coming down breaking through many layers of illusory rulers cast by Genevieve and Shields and aura called out by Noah until just a few barriers that could take on a bit over 10,000 True Reality Defense Values remaining...and this terrifying figure bounced off of these remaining barriers!

HOOOONG!

A fantastical glimmer of light flashed in the next second as all the broken Resource Shields and Auras bloomed again as more illusory rulers from Genevieve bloomed out, paving way for a fantastical reality as with four True Forms each capable of laying out attacks of a Legend's Visage defending...they had actually withstood an attack against an Illusory Legend!

"Merely an Illusory Legend."

RUMBLE!

Three voices from Noah's Clones came out in synchrony as the eye-head of the Illusory Legend flashed sharply in the area where white space was trying to reform its natural laws!

Chapter 1648 Improbable! I

Genevieve observed the impact thoroughly as she filled the Reality rulers she sent out with the pristine authority of a TABOO concept that ignored the natural laws of Reality themselves, and she shockingly saw that she was only capable of withstanding 30% of the damage coming down from the Illusory Legend as the other 70%...was all taken by the ridiculous existence before her who seemed to be capable of freely calling out two other bodies.

'Such a thing as expenditure of resources exists you know?'

Her experienced mind identified the impossibilities this being was showing this whole time as she heard him mock the rebounded existences freely while each of his three bodies released an astounding ray of light.

"Merely an Illusory Legend!"

WAA!

The disdain against an existence that had given itself a false reality!

Genevieve let these words sink in as she didn't correct Alexander at this moment.

If he developed the wrong mindset on what the power of Legends was, then so be it!

Legends were not something that could ever have the word 'merely' attached to them. Their power against those in the Firmaments of Ascendancy was akin to a dragon and the earthen sand that such a creature could stand on...they weren't even on the same plane of existence!

If they wanted to step on those in the Firmaments of Ascendancy, those beings could only be stepped on! The so-called Illusory Legend standing before them...it was only something that three Peak Ninth Firmament existences on their way to forming a Reality could imitate. It barely had one-twentieth of the will of a Legend as they were not comparable.

'Survive this...and I will show you what the visage of a True Legend actually feels like soon enough.'

WAA!

Her cold eyes moved as her pure white furred body bellowed out, her own attacks filled with a TABOO concept blaring out as they struck back against the Illusory Legend!

—

Ascendant Reality Sever.

An ability that should cost Noah 1,000 Units of the Essence of Reality along with trillions of Units of Mana, and yet when he cast it from three True Sanguine Clones simultaneously...it cost him utterly nothing!

This was because an Ascendant Dimensional Essence Shard had been utilized on this ability as the resource cost for it was utterly nullified.

So an ability that now had a base True Damage Values of 40 due to the Dimensional War Beads could be cast and kept active with no restrictions as when one thought about its chaining feature and progressive increase of Damage with every chain...a killer skill capable of tearing down anything with sufficient time was born!

His Infinite Willow Tree form had a 750 multiplier for his Damage Values as this meant 30,000 True Reality Damage Values for the first strike of Ascendant Reality Sever, with its progressive strikes becoming horrifically deadlier as on the 20th chain, its Damage would be further increased by 20% as 20 Ascendant Reality Fireballs would also be triggered along with multiple Reality Novas.

Ascendant Reality Fireball that now had 20 Damage Values due to the Dimensional War Beads meant that each one would explode with 20,000 True Reality Damage Values as 20 of them would deliver a force in the hundreds of thousands of True Reality Damage Values.

"..."

It was utterly ridiculous and something that shouldn't be possible! And the 20th chain would be within 20 microseconds as if Noah's calculations were accurate, this battle should end even before the 20th chain was reached!

And this was if one only accounted for a single Ascendant Reality Sever.

This was because there were also his two other Clones in their Samsara Cosmic Dao Origin forms who could release slightly less potent attacks due to their 500 multiplier to Damage Values- but it was still a base of 20,000 True Reality Damage Values from Sever as when one thought of three Ascendant Reality Sever rays smashing onto them and chaining onto their bodies over and over again with their own Ascendant Reality Fireballs...it was a true nightmare that would be experienced by a few beings today!

HOOONG!

After withstanding over 100,000 True Reality Damage Values from a single attack of the Illusory Legend with the help of four existences at the stage of a Legend's Visage, the counter attacks flew out and smashed onto the figure of the Illusory Legend with fervor.

BOOM!

White space bloomed as the fusion of three existences felt the Reality rulers that Genevieve spammed hit a natural defensive barrier of authority surrounding it as this transparent barrier only fluctuated, with the three sharp rays of vacillating Realities each dealing even more shocking Damage that caused its natural barrier to fluctuate dangerously!

But at the end of it all...

"You cannot break past my defenses...which means this battle is over after I break past yours!"

WAAA!

After the attacks landed, the Illusory Legend prepared to release multiple ultimate skills when all of sudden, the extremely fast rays of vacillating Realities that should have hit its transparent shield and faded seemingly returned to chain onto him again with even greater ferocity, along with even more bountiful rulers of Realities filled with the authority of a TABOO concept!

'Hmm?'

BOOOOOM!

They exploded out with an even greater force as multiple Ascendant Reality Fireballs that were bloomed out, the tens of thousands of additional True Reality Damage Values from Genevieve's rulers of Realities going forward to cause the single eye of the Illusory Legend to frown.

The collective damage was actually more than double the first strike as specifically, the ones causing the most damage were the three rays of vacillating Realities that its caster shouldn't have been possible to progressively release such an attack as a mere Legend's Visage in just another microsecond- the cost of resources alone being too much as to release such strikes, the Origin of the being casting these abilities should be drained by now!

"Truly impetuous, your resources will dry up before you can even defend against the next attack!
<Cataclysmic Firma-"

BZZZT!

Before the words of this being finished and his ultimate ability rolled out, its singular eye-head opened wide as it sensed within a short time span of a microsecond...the same three rays of vacillating Realities came back to chain for the third time.

"..."

Each ray of Ascendant Reality Sever released three Ascendant Reality Fireballs as each of them exploded out with 20,000 True Reality Damage Values that when all nine exploded at once....

OOOOM!

The ruptured white space that was shredded of the laws of Reality cried out as merely on the third chain of attacks...the innate defensive barrier surrounding the Illusory Legend trembled unstably!!!

Chapter 1649 Improbable! II

'Improbable.'

This was the first thought that rang out in the collective mind of the Illusory Legend as the scene before its eyes truly was an improbability.

Any ability with such a high Damage output had to come by through great means- and such means should not be available through the hands of the being currently casting them!

But...what was happening now was a culmination of events, concepts, and abilities that had been prepared for quite some time...with everything erupting all at once to cause the current reality-altering battle.

First, the concept of the Sanguine Emperor had to be wondrous enough to allow for Clones of a single body to carry even more power than that body itself, being so unique that the authorities of Ascendancy Halos of the main body could be called upon and utilized by the Sanguine Clones as if they were their own persons!

Then, sufficient resources had to be available for all these Clones to be supplied to take their True Forms as another wonder was the Tier of Ascendancy Halos themselves being Black even though there were no TABOO concepts to cause it. Through the improbable authority released by these Halos and the ridiculous Reality that the existence who held them actually had enough resources to do what he did, a ridiculous multiplier was achieved for all his cast abilities!

Then...there were the abilities themselves that only came to be due to an inflated Loot Quantity and Quality from the concept Resplendent Treasure Emperor- causing the birth of Reality Resource Points that made way for a Keystone Ascendant Skill Tree which contained ridiculous Reality altering skills.

It was these skills being utilized right now as only with all of these different factors in place did we arrive here at this moment in time!

At a moment in time where an existence that was the accumulation of three wills and had lived for billions of years found himself saying the words 'Improbable' as all those factors coming together and causing this to happen just weren't feasible!

BOOOOOM!

And yet it occurred.

Before the Illusory Legend could even release a second attack after the first one, his surroundings were shredded into blank whiteness as this glorious figure was actually knocked back.

With his whole body from head to toe shining with an illusory light of a Reality- he was actually knocked back by the attacks of an existence that had yet to break the shackles of the Seventh Firmament of Ascendancy!

Even though there was the Essence of a TABOO concept also smashing onto its innate barrier of Defense and eating away at it, the major work was done by the three Clones of the Unnamed Kainos Emperor!

After the third chain of attacks, the fourth chain arrived as it came with even more astounding ferocity that didn't even allow one to pause for breath.

"Billions of years of planning, accumulation, and foundation!?"

OOOOM!

The booming voice of the Unnamed Kainos Emperor rang out from his three Clones in unison as the voice revoked the past words of the Dimensional Archaic Devil Bird, Nine Reality Horned Unicorn, and the Eclipsing Celestial Void Eye that had tried to impose their wills and tell him that he should have hidden and built his foundation, that he was too impetuous of a genius that he would die here because of his impatience!

The Infinite branches of the Willow Tree surrounded everything as the enormous body of the Illusory Legend smashed into them, the fourth chain of three Ascendant Reality Severs thundering out at this moment!

The collective mind of the Illusory Legend buzzed as with its Origin lighting up with essence of reality to defend against an improbable attack that truly did not add up, its senses blared out with even more as in the fraction of a microsecond, it was able to observe the ridiculous source of danger as hidden among

the countless branches of the Willow Tree that it had been thrown back into, there were 10 glimmering purple blue Crystals the size of Cosmos that pulsed with obscene danger.

10 Pandemonium Infused Dimensional Aether Orbs were activated at this moment to land along with the fourth wave of chained Ascendant Reality Severs as it was an utterly devastating attack where the explosion of the Pandemonium Infused Dimensional Aether Orbs alone would total 500,000 True Reality Damage Values!

Obscene!

Disgusting!

That was the only way that this move could be described as in the next moment, a shocking explosion followed by a huge bellow resonated out.

BOOOOOOOOOOM....GOOOOOOH!!!

A roar of disbelief and extreme pain as this moment had to be broken down in its fraction of a microsecond that it occurred in.

A dreadful force of essence filled with Pandemonium and Aether along with the authority from an entirely different dimension had exploded out as instantly...the innate Boundary of Defense that was built by the Illusory Legend was shredded to pieces.

It was only then that the fourth chain of Ascendant Reality Severs landed along with the authority of a TABOO Nomological Edict as unbelievable and simply incredulous Bursts of Damage rocked the target at that moment!

Damage so horrendous that the false image of a Reality that the three fused beings had achieved was torn apart irreparably as in the next moment, the single Illusory Legend body could not remain the same anymore!

HOOONG!

Blank whiteness spread through as the nearby laws of Reality quickly tried to reform and come back together, the image of three bodies screaming in disbelief while being torn apart from a single body being seen with clarity at this moment.

In that microsecond.

It felt like time had come to a stop.

Golden rivers of blood of Olden Emperors flowed as silently, the Infinite Willow Tree branches returned and collected these rivers of blood while activating the single high cost skill under Noah's arsenal that required 20,000 Units of the Essence of Reality- it was <Hematopoietic Progenitor>!

But this wasn't seen by everyone.

They only saw the split-apart bodies of the Illusory Legend back into the forms of Dimensional Archaic Devil Bird, Nine Reality Horned Unicorn, and the Eclipsing Celestial Void Eye as these three beings felt

the full Tyrannical will of the Unnamed Kainos Emperor release from the nearby Willow branches, his voice thundering out as he let them know which of their Wills would reign Supreme in the end!

"Fuck your foundation!"

The booming voice of the Unnamed Kainos Emperor rang out just as the fifth chain of Ascendant Reality Severs arrived, multiple vacillating Realities exploding out as the chain of attacks released True Reality Damage much similar to the 10 Pandemonium Infused Dimensional Aether Orbs onto the three Olden Emperors, eradicating any part of their souls that they had so effortfully built the past billions of years!

BOOOOOM!

Chapter 1650 Extracting the Bloodlines of Olden Emperors! I

There were the Infinite rivers of Realities...and then there were Grotto Sanctums and fantastical Dimensions that very few could explore.

The Bloodlines who had managed to reign control over Grotto Sanctums and fully explore Dimensions gained tremendous opportunities, with one of the singular forces known by all powerful existences remaining the Primordials!

At this point in time, important personages throughout the Bloodlines under them were targeted as some perished, but an even larger amount showed their prowess with some individuals even skipping levels to take down powerful parties of Primordial Beasts.

The Primordial Beasts had an edge in the beginning due to their timing as many Prime and Emerging Realities perished, but then...the reigning will of the Primordials moved!

From the Primordial Temples!

From the Grotto Sanctums!

Specialized existences that had never been seen by the eyes of others moved out as the Primordial Beasts and the many other Bloodlines they had managed to get in an alliance with for this attack...they began to be reminded just why Primordials still reigned as Golden blood began to flow with even more ferocity!

In a certain region that had a small cluster of Prime Realities.

Known as the Pure Lands where multiple of the Pure-Blooded Cardinal Royal Bloodlines frequently moved around in- this place was actually a major target for the Enders and their Bloodline allies as a major force of hundreds of Ninth Firmament Primordial Beasts and other allied Bloodlines had led Legions of beings in the Firmaments of Ascendancy to wage a great battle that had already destroyed some of the Prime Realities here!

Yet at this point in time, austere quietness prevailed as not a sound of battle could be heard.

What could be seen were seas of crimson gold blood that had coagulated from countless existences in the Firmaments of Ascendancy, those responsible for this being a small Legion of important personages adorned in pure white robes!

Their robes were pristinely white while being free of blood- each of them vibrating with immense power and innumerable flashing Reality Passages as they were all at the Ninth Firmament of Ascendancy!

The ones in the lead at this moment were in their human forms as they stared at the endless seas of crimson gold blood forming, a particularly distinct being that stood out with an air of superiority and a solidified stellar crown above his head speaking out at.

"Schemes, plots, and plans...in the grand scale of power- none of it means much."

Devilishly handsome features of someone fairly young could be seen on this being, with his body uniquely showing an illusory Reality flickering in and out of existence!

He stood at the forefront of a small Legion that had eradicated hundreds of Ninth Firmament existences and all their legions as another white-robed existence came forward to speak to the Candidate Emperor of the Kainos Era at the forefront.

"Sire, we have received another distress call."

"Mmm..." This being nodded languidly as he waved his hands, the small Legion behind him coming to attention as with his eyes releasing a luminous light of an Emperor, this being commanded out.

"Let's go."

HOOONG!

A brilliant white flash of light wrapped over this small Legion as it disappeared towards another location- this Legion being just one of the many dreadful weapons that Primordials had sent out!

It was a Legion of specialized powerful existences from the core power of Primordials- existences that made up small but powerful forces as they were known as Primordial Adjudicators!

When they made a move, Realities wept as the souls of their enemies would not see the next day!

—

In another location across the vast Infinite Realities.

Dazzling rivers of Reality could be seen interweaving with each other in a majestic fashion as they seemed interconnected- endlessly circling a vast space that blazed with an incandescent golden light that was vaster than the size of thousands of Realities!

Within a core location of this golden space encircled by many Realities.

Hazy condensed golden seas of essence permeated the surroundings similar to the changing environment of a certain anomalous Reality, and in a unique area of space that spanned for countless light years- one could see an enormous round shape that they could mistake for an astounding circular Reality!

Yet this humongous mass glimmered with a vibrant authority reminiscent of Realities themselves as it was actually a prestigious creature that opened its eye at this moment!

A singular mass of a vast eye countless light years large in size. Its figure was shrouded by a hazy golden light as all of its features could not be fully made out, but this eye released shocking reverberations of mental waves at this moment as an ancient voice could be made out from them.

"Perished? Against a mere Disaster Remnant?" Freewebnovel.com.

OOOOM!

Astoundingly vast pillars of destiny erupted out with the ancient voice as Bursts of information flowed towards it, its entire body becoming enthroned by mystery as the voice continued to ring out.

"No...not the Disaster Remnant. Who exactly..."

BZZZT!

More waves of destiny flew out as this being had just locked onto the complete perishing of three astoundingly powerful Olden Emperors in the Firmaments of Ascendancy that were sent out, and a shocking authority of TABOO Nomological Edicts swirled around him as due to some unknown means, it was actually hard to grasp the identity of the offending party!

"Interesting."

It was actually difficult.

"The authority of the Disaster Remnant is actually masking them also..."

...!

The same reason why the identity and location of the Disaster Remnant could not be pinpointed as even this being could only pull on strings of others to ascertain that such an existence would be getting besieged in a certain location. A similar sort of shielding seemed to now be covering the identity of the offending existence who had wiped out Will Bearers!

A veil seemed to exist that would have normally cut off all traces, but the being in question peering through was still the Olden Emperor of the Golden Eye!

HOOONG!

His authority raged out as his authority spread out to cover vast destinies and distances, searching for any traces that could match or link the identity of the offending party.

The authority covered everything as it even delved into the destinies and databases of many Bloodlines, eventually flowing into the database that was the Primordial Blacklist.

"Oh?"

The will of the Olden Emperor of the Golden Eye was pulled towards a string of destiny that seemed closely similar to the one it could not grasp near the Disaster Remnant.

Towards a name on the Blacklist that had yet to make major waves!

"Osmont...?"

WAA!
