Chapter 1135 Do Not Hold Back

"Do you want to keep this up?" Kai turned toward Skylar with a mocking smile.
Skylar, however, did not reply with a single word. Instead, his eyes widened in a second, and after letting out a battle cry, his fist was already a few inches away from landing on Kai's face.

"Sacred Light Fist!" Kai raised his hand and threw a punch forward.

As the two fists met, a terrifying shockwave was formed, with the two as the center of the starting point before radiating toward the surrounding.
As for the newly constructed buildings, they toppled upon the intense shockwaves, sending the people around the buildings running for their lives.
Skylar flinched for a moment before recovering his balance while Kai stomped his right leg onto the ground to nullify the recoil, causing the ground to shatter.
"Don't even think of holding back now. If you don't come at me with all you got, you are not fit to fight with me," Kai said coldly as he stared dead into Skylar's eyes.

Skylar, too, was staring at Kai. His expression was tense as he failed to comprehend what was with Kai's Sacred Light Fist just now.

He felt that his aura was completely disrupted upon taking that simple punch straight on. In just a simple exchange, Skylar immediately felt pressure resting on his shoulders.

At this instant, Skylar was doing his best to recover his composure.

It did not take long until Skylar's aura erupted once more. This time, he did not pull his punches, and his aura as a Top Level Martial Arts Grandmaster burst forth.
This aura was far more intimidating than his previous one, for the bystanders standing a few hundred meters away found themselves badly injured by this horrifying aura. Some of them were left vomiting blood, and some of them lost their lives.
With a frown, Kai quickly made a few hand seals and cast a shield that instantly kept the horrendous aura at bay.

Never had he thought that as a descendant from a prestigious family, Skylar would be handling lives so recklessly.

Back in Jadeborough, there was a strict rule that prohibited martial artists from killing civilians, and everyone abided by this rule obediently.

Though there was also a similar rule in the poor and barren Xenhall, Skylar still acted uncontrollably. After all, this place was too vast to have strict supervision maintained.

"How dare you! You're a descendant of a prestigious family, and you treated the lives of others like a toy! You must be eradicated!" Kai looked at Skylar like the latter was a dead man walking while his murderous intent peaked.
"Hmph! What's wrong with killing a few ordinary folks if it means I could kill you? They are all nothing but insects! I could easily shut their families up with some money. The Norton family is rich, remember?" Skylar sneered.
"Then does that mean I could just compensate the Norton family with money if I killed you? I'm rich, just like your family!"

With that said, Kai launched himself toward Skylar instantly.

He threw a fierce and quick jab toward Skylar, only to notice that his target vanished into thin air as soon his fist almost landed on Skylar.

Following Skylar's disappearance, Kai felt a murderous aura coming from above his head.
He looked up into the sky, only to find Skylar floating in midair before charging down toward him as if Skylar had turned himself into a lethal blade.
With the force of momentum, Skylar raised his speed to the max and even broke through the sound barrier. His speed was so fast that he even formed a vacuum around him!

The immense shockwave created by Skylar made the ground beneath Kai shatter, and the pressure pressing onto Kai felt like a mountain was being pressed on him.

With a frown, Kai channeled energy into his right fist, causing it to glow in golden light before he punched upward fiercely.

"Sacred Light Fist!"

In a blink of an eye, a pillar made of golden light took form, and it headed straight toward Skylar.
Bam!
With a loud explosion, the sky and earth trembled before the power, and the glaring light overshadowed even the sunlight itself.

As Kai faced the shockwaves created, shimmering scales emerged from his body to help him fend off the shockwaves.

At this point, Kai had to admit that ever since Skylar ascended to a Top Level Martial Arts Grandmaster, Skylar's strength had experienced a tremendous boost.

Though Kai's punch wrecked the vacuum around Skylar, the man steadily landed right in front of Kai after the golden light faded.

As this happened, Kai's legs were plunged right into the ground by the immense pressure just now.

"I must admit that your strength is out of my expectations. Even among the younger generation in Jadeborough, there aren't many that could withstand a blow like this. I reckon that you're able to hold a place in the Sage Leaderboard now, just like me!" Skylar looked into Kai's eyes calmly and spoke.

Chapter 1136 You Are Not Fit
Kai had no idea what the Sage Leaderboard was all about. That was the second time he heard Skylar mention the Sage Leaderboard, but Kai did not ask any questions about it.
"Is this your best shot? If that's the case, I will be very disappointed," teased Kai as he pulled out his legs.

"Aren't you doing the same thing too? You're holding back!" stated Skylar as he stared coldly at Kai.
Kai smiled nonchalantly. "If I had used my full force, you would have been dead by now."
"How insolent of you!"
Skylar frowned. Once again, an aura exuded from him.
At the same time, Kai's body began to sparkle too. He had unleashed the full potential of Golem Body.

Even an Eighth Level Martial Arts Grandmaster would not be able to defeat Kai, given his current physical condition. The Golem Body, combined with the Power of Dragons, was way more powerful than anybody could imagine.

Kai was like a god that had come from above. When the commoners saw him, they would kneel and worship him!
Looking at the shining, golden Kai, Skylar grew solemn. The next moment, flashes of bright spells began to surround Skylar.
At that moment, Skylar resembled a gigantic pillar with incantations swirling around it. Very quickly, it increased in size before disappearing.

Gradually, Skylar's body changed into several lines of spells, and eventually, they took the form of a human being.

"What is this?"

Kai could not help but frown when he saw that.

It was the first time he had witnessed something like that. Kai had seen different forms of martial arts, such as the Jetroinian Martial Arts and invisibility.

However, he had never seen anything like what Skylar had just done.
Kai was at a loss when faced with such magecraft.

Suddenly, the spells began flying toward Kai, formed a vast net, and were about to engulf Kai within.
One slam of his palm and a strong wind blew those spells away.

Unfortunately, the lines of spells formed again after being dispersed.

When Kai saw that, he launched a couple of punches!

Boom! Boom! Boom!

The gusts of strong wind prevented the spells from forming again.
However, very soon, the dispersed spells formed an enormous huge hand, and it came slamming down on Kai.

One after another, the palm kept hitting on Kai's body.

Loud clanging sounds came from Kai's body.

The golden scales from his body started dropping off and disappeared. The sparkle from his body diminished as well.
Soon, the Golem Body on Kai had been smashed to bits. His bronze skin was exposed and shone under the rays of the sun.

The spells froze instantly. With that, Skylar's body reappeared again. He looked very smug when he saw that the Golem Body had disappeared from Kai.

"After I had attained the Top Level Martial Arts Grandmaster, it didn't only increase my ability. I'm able to utilize several of the magecraft in the Norton family. You must understand that we have spent tons of money to get many mages to customize the magecraft for me. You're not fit to fight with me. Remember this. You aren't fighting against me. You are fighting against the entire Norton family."

With a sneer, Skylar changed into another form and charged toward Kai.

Boom! Boom! Boom!

Punches rained down on Kai's body. In an instant, his body fell backward, and his chest had caved in too.

Without the Golem Body, it would be very arduous for Kai to defend himself using only his physical body.

Every punch that Kai threw felt like it was hitting the air. The punches did not cause any damage to Skylar and certainly could not stop Skylar's attack.

Chapter 1137 Humiliation
Kai's body slammed hard onto the ground and even caused a huge crater.
The manor, which was under construction, had turned into ruins.
Blood gushed out from Kai's mouth, and there was a ghastly wound on his body.
"Hahaha! That's it?"

Skylar returned to his original form and ridiculed Kai.

Kai got up slowly, wiped the blood away, and smiled.

Skylar was taken aback when he saw Kai smiling. "Death is upon you. Yet, you are smiling?"

"How do you know death is upon me?"
Kai smiled coldly and stretched his arm out. Instantaneously, the Dragonslayer Sword appeared in his hand.
There were flames on the Dragonslayer Sword, and they turned half the sky a shade of bright red.

"Hmph! You won't be able to hurt me with a sword," sneered Skylar.

Once again, Skylar turned his body into flashes of incantations.

"Nine Shadows…"
Kai began spinning, and thereafter, one of him became two, two turned into three…

In the end, there were six identical Kais standing in front of Skylar with the Dragonslayer Swords in their hands.

At that moment, the spells also turned into a humongous palm again and slammed down on Kai.

Six Kais versus six humongous palms.
There was a wave of martial energy on every palm.
Boom!

The palms came crashing down.

Kai raised the Dragonslayer Sword and yelled, "Come forth—spiritual fire!"

Huge flames engulfed the six Dragonslayer Swords immediately. The flames shot up into the sky and reached as high as ten meters.
Instantaneously, the burning flames pierced through the gigantic palms.

"Ah!"

One agonizing cry sounded, and the palms disappeared quickly.

Next, a human form appeared, but it was engulfed in flames.
It was Skylar's body, and there were still burning flames on his clothes.
"Fire! Fire!"

Skylar tried his best to put out the flames. In the end, he had to roll on the ground in order to do that.

Just as Skylar heaved a sigh of relief, he saw a golden hand coming toward him.
His expression changed instantly. He wanted to get away. However, it felt as if his body had been restrained, and there was no way he could get away!

Kai grabbed Skylar's collar and brought him to his face.

Due to the flames, Skylar's face had been blackened, and he looked wretched. There was disbelief in his eyes.

"That's it?"
Kai smiled before giving him a tight slap.

Slap!

With a deafening boom, a palm print appeared on Skylar's face.

His teeth fell out, and blood began gushing out too.
"That's it?"
With another mockery, Kai slapped him again.

Slap! Slap! Slap!
Kai slapped Skylar on both sides of his face until his face swelled up like a pig's head.
It was Kai's intention to humiliate Skylar until his psychological defense collapsed completely.

The next time he saw Kai again, he would run for his life.
Since Skylar was part of the Norton family from Jadeborough, Kai did not plan to kill him.
If Kai wanted to rescue his mother and Josephine, then it would not be wise to have another enemy in Jadeborough.

The Deragons and the Warriors Alliance were enough to keep Kai's hands full.
When Kai beat up those samurai from Jetroina and cut off Warren's head, it served as a warning to the influential families in Jadeborough so that they knew he was not someone to toy around with.

After countless slaps, Skylar's face was swollen beyond recognition.
His eyes became so narrow that he resembled a dog who had been stung by a bee.
The moment Kai let go of him, Skylar fell to the ground like a dead dog.

"You're not a worthy opponent of mine. Get lost! If you dare to provoke me the next time, I will kill you," threatened Kai as he stared at Skylar.
With that, Kai left for the Pentacarna Tower.

Chapter 1138 Done Toying With You
The sound of bones cracking erupted suddenly all over Skylar's body as he glared at Kai's back.

Kai spun around and found Skylar's body on the ground like a grotesque heap of mud. An instant later, his body reconstructed on its own accord and stood upright again.

Once back on his feet, the bruises disappeared from Skylar's face.
A dark light erupted from Skylar's body as if he was shining from within.
"I will have you dead!" Skylar roared as a drop of blood, dark as ink, shot out between his brow.

He caught and manipulated it with his hands. The drop of ink-like blood suddenly began to burn with astonishing flammability.
Skylar's body, meanwhile, was grilling in the blaze.
Every inch of his skin began to wither and turn into the color of black ink. Under the brilliance of the flame, his dark skin emitted a strange light.

The embers died, revealing the sheen of refined metal all over Skylar's body while a terrifying cold rose from within him.
Kai smirked at the sight of the blackened Skylar. "That's not what I meant by well-done. I never knew what a terrible cook your father taught you to be."
Skylar was infuriated by Kai's words. "I will tear your tongue out!" he raged, his eyes wide and unblinking.

Skylar dashed toward Kai and threw a ferocious punch.
Kai, on the other hand, rose to meet the challenge. His body disappeared in a flash of gold light before layers of scales began attaching themselves to his skin.
Clang! Clang! Clang!

The two combatants launched assaults on each other with the most primal display of their strength.
Every strike sounded like metal clanging against one another.

Sparks flew in all directions as thunder crashed continuously.
Two shadow clones, of black and gold each, intertwined in the air. The terrifying martial energy spread in all directions.

No single structure in the estate was left intact except for Pentacarna Tower, which remained upright.
Boom!
Skylar and Kai each threw out a punch at the same time. Skylar's fist landed ferociously on Kai's chest like a cannon blast. The massive force of the terrifying gust of martial energy exploding upon impact caused Kai's body to shake.
At the same time, Kai's fist also landed on Skylar's body which caused Skylar to stumble several paces backward with a similar explosive noise.

It appeared that Skylar was still inferior to Kai despite the extent of the former's skill in magecraft.
Skylar roared with murderous intent.
An instant later, his body turned into a stream of flowing light before dashing at Kai with a bang that shattered the stratosphere.

"This is a good training opportunity."
Kai narrowed his eyes as he, too, dashed forward.
Cultivation can increase power, but only constant battles will improve martial techniques and strength control.

Kai's battle with Skylar gained him a deeper understanding.
Boom!
The noise of near-constant collisions between the two of them was deafening.

Kai channeled Sacred Light Fist and brought a barrage of golden fists down upon Skylar.
At the same time, Skylar unleashed a flurry of strikes that hammered down upon Kai.
The two of them went back and forth. It was, by that point, a duel between pure strength and physical endurance.

Boom!
The combatants leaped apart. Each was panting slightly for breath.

The battle incurred a massive expenditure of energy. Kai had managed to hold on thus far by relying on the spiritual energy in his elixir field and the Power of Dragons. Skylar, on the other hand, persisted with the use of magecraft.
"Is this all you got?"
Kai glared at Skylar with a scowl. "If it is, then I'm done toying with you."

Skylar froze, an ugly expression contorting his features.

Despite constantly doing his best, Kai had managed to match it with the greatest of ease.

"Stop pretending this isn't making you sweat. I know you've reached your limit as well. Next, I will show you the true extent of my power!"

As Skylar spoke, blinding black light exploded from him before it slowly broke free of his body and restored his skin to its normal color.
