

The Mans Decree Chapter 1517 -

Chapter 1517 Assault On The Spiritual Sense

Kai was stunned as he could tell that the voice belonged to Fernando.

He looked down and found Fernando standing a few hundred meters away, staring right up at him.

He didn't understand why Fernando was telling him all this, nor did he have the time to figure out why he did it.

"Brat, aren't you a bad*ss? Why can't you break away from the arcane array?" one of the Black Copper Robe warriors mocked.

Kai narrowed his eyes and tightened his grip on the Dragonslayer Sword. He knew that it was going to be a fierce battle.

"Release!"

In the next moment, a thunderous boom rang in Kai's ears.

The martial arts arena started to quake, and the space became distorted.

Kai looked around and noticed that the people around him had started to disappear. Eventually, only he and his enemies were left in the martial arts arena.

He knew that the crowd had not disappeared. Instead, he and his enemies were merely teleported to another dimension.

On the other hand, the audience was watching the battle between Kai and the four Black Copper Robe warriors from a different dimension. It was as though a screen projector was projecting their images in mid-air.

"Go to hell!" the four Black Copper Robe warriors shouted in unison.

Deafening sounds from every direction surrounded Kai. The next thing he knew, he almost lost consciousness.

"Attack on the spiritual sense..."

Kai's face paled as his mind was flooded with a ray of white light. He never expected them to make that move. They quickly followed up with an attack on Kai's mental energy while he was panicking.

That was because the mental energy would be at its weakest during a state of panic and could easily be crushed.

The four Black Copper Robe warriors launched their attacks while Kai was still in a daze, hitting him with four light rays.

The powerful force instantly sent Kai flying. However, after a few hundred meters, Kai's body collided with an invisible force that knocked him back to earth.

He pulled himself up and took in his surroundings but saw nothing in front of him. However, an invisible shield suddenly appeared out of nowhere when Kai reached out into the vast nothingness.

"You won't be able to break away from this space unless one of us dies, so don't even think of running away. Come at us with everything you've got!"

With that, one of the Black Copper Robe warriors waved his arms in the air, and his black sleeves rushed toward Kai as if they were spirit snakes.

His other three comrades immediately followed suit. The next moment, Kai was restrained by their sleeves.

His body was dragged back into the air as the four Black Copper Robe warriors applied force.

Kai's face clouded over as his body shimmered with golden light. In an instant, the Power of Dragons within him intensified as he tried to break free.

However, their sleeves were made of extremely tough material. No matter how hard Kai struggled to escape their grasp, all he was doing was tiring himself out.

"Mr. Chance..."

Lachlan frowned when he saw that Kai was being restrained. He was about to rush out to rescue him.

Howard and the Dunn family's elites also stood up, ready to jump in at any moment.

They wanted to rescue Kai.

After all, the Dunn family wouldn't have made it if it wasn't for Kai. They owed it to him. Hence, Lachlan couldn't stay still anymore as he couldn't bear to watch Kai die in front of his eyes.

It was important for the Dunn family to return the favor. Otherwise, they would never be able to hold their heads high again in the martial arts world of Jadeborough.

Fernando stopped Lachlan from making a rash move. "Lachlan, calm down. You won't be able to rescue Kai by rushing over blindly. The barrier will crush you and your family before you can even lay eyes on him. It's not over yet. Kai won't be defeated so easily."

The Mans Decree Chapter 1518 -

Chapter 1518 A Mind Of Its Own

At that, Lachlan sat back down while keeping his eyes glued to the martial arts arena.

On the other hand, Zion's lips curled into a smile when he saw that Kai was being restrained. "The Black Copper Robe warriors are indeed strong. They managed to take Kai down in such a short time. Kai, it looks like you're dead meat now!"

"Kai won't be defeated so easily. This is just the beginning."

However, Edgar wasn't as optimistic about it as Zion since he knew how strong Kai was after having crossed swords with him.

"Hmph. Let's wait and see then." Zion gave Edgar a look and smiled.

Back on the battlefield, Kai tried to cut himself free from their sleeves using his Dragonslayer Sword, but to no avail. He couldn't move as both his hands were held in a vice-like grip.

"Hmph. How did you even stir up so much trouble in the martial arts world with such paltry skills?" one of the Black Copper Robe warriors sneered as he watched Kai in disdain.

"Stop wasting time with him. Let's just kill him and complete our mission."

With that, a Black Copper Robe warrior pulled out his blade and stabbed at Kai with all his might.

Kai could only unleash the full power of his Golem Body as he had no way to escape.

His body shone as brightly as the sun as he was enveloped in golden light.

He even activated the Power of Dragons to shield himself as he had to face the attack head-on.

After all, he was up against a middle-phase Martial Arts Marquis. He shouldn't take them lightly as they were on the same level as Edgar or even better.

Clang!

The blade left a white mark on Kai's body, but he wasn't harmed in any way.

On the contrary, the Black Copper Robe warrior's arm went numb from the impact, and his blade broke into pieces.

"Damn it! This brat's body is too strong!"

The Black Copper Robe warrior, whose arm had gone numb from the impact, cursed.

“Let’s attack together. Don’t give him any chances,” another Black Copper Robe warrior said coldly.

The rest of them didn’t say anything further as they launched their attacks in unison. Kai frowned. He wouldn’t be able to withstand their attacks even with the Golem Body if they were to attack all at once.

Nevertheless, he couldn’t break free from their vice-like grip no matter how hard he struggled.

At that moment, the Dragonslayer Sword in his hand started to shake.

Kai let go and allowed the Dragonslayer Sword to fly out of his hands.

However, he noticed that the Dragonslayer Sword wasn’t under his control. It was as if it had a mind of its own.

Could it be that the sword spirit has formed?

Kai was overjoyed at the thought.

The Dragonslayer Sword flew up into the sky. Moments later, a bright light glowed, and a terrifying sword energy descended from the sky.

The aura that emanated from the sword energy came from the Dragonslayer Sword itself.

The four Black Copper Robe warriors were taken aback as they stared at the Dragonslayer Sword in disbelief.

In the blink of an eye, the terrifying sword energy freed Kai from their restraints. At the same time, the Dragonslayer Sword began plummeting to the ground, spent.

Kai waved his arm as soon as he was freed and caught the Dragonslayer Sword. He then infused the Power of Dragons into the weapon.

The sword started to glow brightly after being infused with the Power of Dragons. The sound of the weapon humming reverberated through the entire martial arts arena.

“The first technique of Nine Shadows!”

Kai swung his hand and made the first Nine Shadows move.

A horrifying light shone from the blade, and the space around them became distorted.

“Hmph. How dare you retaliate!”

His opponents sneered as they activated their magecraft. A ray of light shot out from the teleportation device hanging in midair.

Immediately, Kai’s horrifying light disappeared as it was swallowed by the light coming from the teleportation device.

[Leave a Comment](#)

Kai frowned. He knew that the light from his sword hadn't disappeared. It was merely teleported to a different dimension.

"Space Revert!" one of the Black Copper Robe warriors bellowed.

The four of them then reached out to grab the teleportation device.

The teleportation device began to spin and suddenly changed directions. It was as if a magnetic force was driving it.

The space around them started moving, and the audience appeared moments later.

However, Kai and the four Black Copper Robe warriors were nowhere to be found in the martial arts arena.

It was as if they had switched spaces.

The teleportation device started to quake before it unleashed wave after wave of powerful aura.

Whoosh! Whoosh!

The razor-edged lights were aimed at Kai.

"Sh*t!"

Kai couldn't help but curse as his face paled upon realizing he was under attack. He quickly waved his arm to form a shield and unleashed his Golem Body in full force.

The familiar aura of light soon reached Kai.

It was the light that shone from his Dragonslayer Sword earlier. Who would have thought that his attacks would come back to haunt him?

Clang! Clang! Clang!

Kai's shield instantly shattered as the blade-like lights landed on it. He had to take cover as the lights came pelting down on him.

The scales on Kai's body started falling off as the terrifying force destroyed his Golem Body.

Kai was blasted away by the impact and landed heavily on the ground.

Even though he wasn't hurt, he had lost the upper hand since his Golem Body had been destroyed.

"That magical item is downright terrifying..."

Kai's face clouded over as he stared at the magical item hanging in midair.

"Hahaha. How does it feel to be defeated by your own tricks?"

One of the Black Copper Robe warriors burst into laughter.

Kai furrowed his brows and kept quiet as he tried to devise a way to break through.

He was worried he might dig his own grave if this carried on.

Meanwhile, Lachlan panicked as his view of Kai was obscured.

"Dad, do you think Kai will be fine?" Astrid turned to Fernando and asked.

Fernando's face darkened as he stared at the empty martial arts arena.

"I don't know. The odds are against him. The teleportation device is too strong. We'll have to leave it to fate now," he replied.

"Please think of a way to help him! The Warriors Alliance are bad people," Astrid begged.

Fernando glared at Astrid fiercely. "Have you forgotten what I've told you? We, the Gundersons, are not allowed to participate in any conflicts or get involved in any organizations. We mind our own business..."

Astrid didn't say anything more, fearing that she might make her father angrier.

On the other hand, Kai stared warily at the four Black Copper Robe warriors. He had to think twice before launching another attack since he was always on the receiving end of his own attacks.

"What happened? Aren't you going to attack? If you're not attacking, then we are..."

With that, the four Black Copper Robe warriors rushed toward Kai.

Kai quickly raised his sword and swung it at his opponents.

However, it was as if they weren't trying to attack Kai as they dodged aside the moment he swung his sword at them.

Then, the teleportation device emitted a light that swallowed Kai's attack.
"Space Revert!"

The four of them used the same trick on Kai. The space around them started to move, and moments later, a terrifying light flew toward Kai.

Kai's Golem Body shattered into pieces and disappeared into thin air as he tried to block the attack.

He was so shaken up by the impact that he started spewing blood.

The Mans Decree Chapter 1520 -

Chapter 1520 Pure Strength

The four Black Copper Robe warriors burst into laughter at Kai's graceless movements.

Kai glared at them helplessly. Unfortunately, he had no clue how to deal with the teleportation device.

He couldn't destroy it, as it'd devour every kind of magecraft used to counter it.

There was no way he'd defeat the four Black Copper Robe warriors as long as the teleportation device existed.

He was at a dead end when a familiar whisper reached his ears again. "This teleportation device may be able to devour all kinds of magecraft, but it can't do the same to a physical body and pure strength, understand?"

Kai froze as his eyes gleamed in understanding.

Since the teleportation device only targeted magecraft executed with spiritual energy, it could not devour physical bodies nor transport people to other spaces in time. As long as one relied on their physical strength, they would be immune to the effects of the teleportation device.

Kai threw Fernando a grateful glance and proceeded to sheath the Dragonslayer Sword, thereby withdrawing the Power of Dragons back into himself.

He would rely on his body's strength to destroy the teleportation device. That was the only way he and the four Black Copper Robe warriors could fight on equal ground.

Kai's physique had improved by leaps and bounds after reaching the Third Level Nascent Soul.

Even without the reinforcement of the Golem Body, his physical strength was still formidable.

The four Black Copper Robe warriors were stunned at the sight of Kai sheathing his Dragonslayer Sword. Even his aura had diminished.

"Has the brat figured out the secret behind defeating the teleportation device?" one Black Copper Robe fighter muttered under his breath.

"Never mind that! Let's focus on getting rid of him. Don't let him get near the magical item!"

With that, one of the Black Copper Robe warriors threw his fist at Kai confidently. Without the protection of his Golem Body and aura, Kai was as vulnerable as any ordinary person.

Dashing in front of Kai, the Black Copper Robe warrior slammed a devastating blow on him.

Kai was blasted away by the impact and landed heavily on the ground.

He unsteadily dragged himself to his feet and stared at his body as his expression hardened.

The Black Copper Robe gawked at Kai. He hadn't expected Kai's physical body to have survived this blow intact.

However, Kai's attention was trained on the teleportation device suspended in mid-air instead of the four men.

They realized what Kai was up to and howled, "You won't get the chance, brat!"

The four Black Copper Robe warriors simultaneously began using magecraft, which caused beams of light to shoot toward Kai.

A spirit was known to inhabit the body of a Black Copper Robe warrior. This meant that they were well-versed in many techniques of magecraft.

An overwhelming wave of magecraft attacks swarmed toward Kai.

Each strike of magecraft was like a blow of lightning hitting Kai.

Kai's physical body was left to endure the assault in the absence of the Golem Body.

Kai dodged the strikes while advancing closer to the teleportation device.

His progress was deterred by the relentless strikes of magecraft that rained down on him. Even taking a single step forward was an ordeal in itself.

Kai felt as if his body was being burnt in a furnace.

Wounds that oozed blood started opening up all over his body.

Each and every audience member in the martial arts arena was astounded at the scene before them.

They could not comprehend Kai's immense willpower that compelled him to persevere.

Even a man made of steel would bend in the face of such a terrible onslaught!

They couldn't help but be in awe of Kai's superb physique.

"D*mn it! This fellow's physique is far too tough! He'll surely cause trouble in the future if we don't eliminate him once and for all today..."

Zion took in Kai's inhuman strength and felt his blood run cold.
