

## The Mans Decree Chapter 2391 -

Having checked out the bow in his grip, Kai held it up curiously and tried to draw the bow. However, no matter how hard he tried to draw it, the bowstring wouldn't budge.

"What's happening?" Kai was stunned. After that, Kai unleashed and infused his Ultimate Force into the bow. Finally, the bow had a reaction. Kai then tried to pull the bowstring, and it trembled slightly.

Unfortunately, that was it. Kai still couldn't draw the bow completely. To Kai's surprise, he had used up all his Ultimate Force when he tried to draw Divine Bow.

"Huh?" Kai was flabbergasted. I worked so hard to gather those two marks of Ultimate Force, and I've emptied the tank. Yet, I failed to draw Divine Bow! This is ridiculous!

"How am I supposed to use this?" Kai looked at Divine Bow one last time before keeping it in his Storage Ring. Kai was at a loss as he sat at the peak of the mountain. The black hole is gone, and I have an army of phantoms to deal with!

What Kai didn't notice was that right after he had kept Divine Bow in his Storage Ring, the giant phantom waved in the air, instructing an army of phantoms to climb up the mountain.

By the time Kai realized what was happening, the phantoms had arrived next to his feet. "What the f\*ck?" Startled, Kai slashed his Dragonslayer Sword, bringing about a flash of light. A force as powerful as a bolt of lightning swept across the phantoms..

The phantoms next to Kai's feet were killed instantly, and a wave of Ultimate Force quickly flowed into his body. Kai froze for a moment when he saw the phantoms dying. When I entered this area, those phantoms weren't bothered by my presence and didn't attack me. They're only attacking me now that the black hole is gone! That means I can kill them!

Kai grew excited immediately. There are so many phantoms here. If I kill all of them, it will contribute to my Ultimate Force! While Kai was distracted, quite a few phantoms arrived atop the mountain.

This time around, Kai wielded Dragonslayer Sword and went on to slaughter the phantoms before his eyes. Although there were a lot of phantoms around, they were all relatively weak. Hence, Kai could kill dozens of them with a single slash. However, the force those phantoms contributed was also minimal.

Realizing he needed more Ultimate Force, Kai glanced at the army of phantoms on the ground and saw a few leaders of the phantoms. In the end, he locked his gaze on that phantom that stood over a dozen meters tall. If I can kill that giant phantom, I can surely regain a high amount of Ultimate Force!

With that in mind, Kai leaped toward the bottom of the mountain. While he was in the air, he swung Dragonslayer Sword in every direction he could. As a result, the rays of light the sword emitted acted like cannonballs and bombarded the army of phantoms.

In an instant, Kai had regained one mark of Ultimate Force after he killed those phantoms. Kai then landed before the giant phantom, and he looked exceptionally tiny in front of it.

Nevertheless, Kai wasn't scared because he had Dragonslayer Sword in his grip. When he lifted his gaze, he noticed that the giant phantom was constantly exuding lethal intent. The lethal intent was all over the giant phantom's body, forming a layer of transparent armor.

The armor slowly became solid as the giant phantom continued to exude lethal intent. In the end, it was even releasing waves and waves of brilliant silver rays.

The giant phantom then suddenly looked down at Kai. With the armor, it looked like a gigantic human being. When Kai locked eyes with the giant phantom, he immediately felt a wave of terrifying aura and all the hairs on his body standing on end.

## **The Mans Decree Chapter 2392 -**

Huff...

All of a sudden, the giant phantom exhaled a breath in Kai's direction. The lethal intent caused the surrounding space to freeze as dense frost began creeping toward Kai, enclosing him.

All Kai sensed was an icy gust of wind before the area around him turned white. Even the air was glacial, and it felt as if he had been trapped within the space. “D\*mn, is this guy that powerful? I shouldn’t have crossed him then...”

Kai regretted his actions. He never thought that the phantom would be so mighty-to be able to trap him just by exhaling. Nevertheless, what Kai needed to do at that moment was to get out of that situation.

Kai thought of his spiritual fire, so he flipped his palm and summoned a small ball of pale blue flame. As he increased his spiritual energy output, the spiritual fire began burning brighter and brighter. Finally, he threw the ball of flame toward the space before him.

Boom! The space shook before cracking sounds echoed. In no time, the entire space shattered as if it was made of glass. Once Kai’s surroundings returned to normal, the pressure on him dissipated. “Screw you. I’ll show you what I’ve got too!”

The Dragonslayer Sword on Kai’s hand was ignited and began burning brightly. In the next second, Kai leaped into the air. and swung his sword at the phantom’s head. A golden arc of light appeared in the sky and struck the giant phantom’s head.

Clang! Despite the ear-piercing sound, Kai’s Dragonslayer Sword had dealt no damage to the phantom. In fact, he could not even leave a mark on the shiny silver helmet.

“W-What?” Kai was dumbfounded. Not only did his powerful attack not hurt the phantom, but it did not even mar his opponent’s armor. The phantom only spared Kai a glance before it made its move.

A gust of massive aura flung Kai back. Kai’s body resembled a flying bullet, shooting toward the hill behind him. His Golem Body started burning as it created friction with the air, and he soon became a ball of fire.

Boom! He slammed onto the rock and was embedded dozens of meters deep into the solid body of the mountain. After a long while, Kai finally climbed out of the crater. His Golem Body was no longer activated, his clothes were torn, and there was blood on the corner of his lips.

“This is insane,” Kai cursed as he stared at the giant phantom. It was then Kai realized he was no match for the giant phantom. Not even Yashur, an Eighth

Level Martial Arts Sovereign, would be able to withstand a hit from the phantom, let alone. him.

Then, Kai noticed the giant phantom walking over to him, and he quickly took in a deep breath before leaping up to the peak of the mountain to flee. However, right as Kai reached the top of the mountain, he realized countless phantoms were crawling up the mountain after him.

Since he was already injured and in no condition to fight, he could only grit his teeth and swing his Dragonslayer Sword at them, slashing as many of them as he could.

Nevertheless, that did nothing as the phantoms were undeterred and continued climbing upward. Kai soon came up with another plan; he quickly took out the Divine Bow from his Storage Ring.

Once he stabbed the Divine Bow into the ground, the bow started radiating brilliant gold rays. Those phantoms climbing up the mountain dissipated the second they were shone by the golden light.

At that, the phantoms at the foot of the mountain hastily backed away. Even the giant phantom quickly retreated a safe distance away upon seeing the Divine Bow's golden light.
