

## The Mans Decree Chapter 3142

As Kai referred to her as his woman, Quinley's heart warmed instantly. It seemed that he had finally acknowledged her, affirming her decision to follow him from the far north was the right one.

"So you're from the Golden Dragon lineage. No wonder you're so arrogant. Thousands of years ago, I slaughtered your ancestors without fear, so what makes you think I can't deal with a kid like you? Today, I'll kill you, eat your flesh, and drink your blood. Your bone and blood are far superior to the others!" After speaking, Bone Cliff shook his body gently.

Boom! Suddenly, a strange phenomenon began to manifest behind Bone Cliff. The void shattered, and a deafening roar reverberated through the sky.

Behind him, eighty-one pristine Apex Spears manifested, each of these spears forged from the femurs of ancient tiger beasts.

The runes on the Apex Spears slowly lit up, illuminating the sky. With these Apex Spears behind him, Bone Cliff seemed like an immortal descending from the heavens.

The eighty-one Apex Spears emitted roars resembling that of a tiger. It was as if ancient mythical beasts had been awakened to unleash their boundless power!

Everyone's expression turned serious when they sensed the sudden surge of power from their opponent.

Cloud, Dalton, and the others retreated, while Renault and Montane Daemon stood firmly by Kai's side. Both of them began to gather their power, preparing to fight alongside Kai.

Hum! Suddenly, the void quivered, and one of the Apex Spears disappeared in an instant. Kai knitted his brows, swinging his Dragonslayer Sword forcefully toward the void before him while exclaiming, "Step back! I'll handle him. He's nothing but a soul remnant. There's nothing to fear!"

Kai was currently a Top Eighth Level Body Fusion Realm cultivation level, so he was eager to discover just how powerful he had become.

As this strike landed, the entire void shattered. The missing Apex Spear reappeared, colliding violently with the light of Kai's sword.

A thunderous explosion resonated, causing the entire small island to tremble. Kai's feet sank into the ground instantly, and his clothes were torn to shreds.

Rumble!

A terrifying aura relentlessly assaulted Kai, and the entire island seemed to be on the verge of collapse. Kai's muscles bulged as he activated Golem Body, shimmering golden scales enveloping him.

"Break!" Kai bellowed before leaping into the air. In that instant, the menacing aura was dispelled. Kai, wielding Dragonslayer Sword and covered in the radiant Golem Body, was akin to a god of war adorned in golden armor.

Many onlookers could not help but envy Kai as they recognized his Golem Body was an extraordinary treasure.

"Kid, I didn't expect your physical form to be this formidable, and you even possess a precious suit of armor. But this is just a warm-up. How does it feel?" Bone Cliff asked with a smirk.

"It feels like child's play to me. Don't try to show off in front of me anymore," Kai replied with an icy tone.

As Kai finished speaking, a radiant glow suddenly emanated from his chest, and the Power of Dragons within the draconic essence began to surge.

Within his elixir field, the Power of Three, too, began to emit a brilliant light, and an inexhaustible aura started to spread.

At the same time, Kai's nascence space opened wide, and the lightning nascence, fire nascence, and illusion nascence began to gleam.

While Kai responded to Bone Cliff's taunts casually, he had not completely assessed the extent of Bone Cliff's abilities. That was why he decided to muster all the power at his disposal. With each awakened nascence, Kai's aura increased manifold.

Everyone was left dumbfounded when they sensed the activation of various nascences in Kai's body. What's going on? Kai is only in the Body Fusion

Realm, and yet he has access to a nascence space and can even utilize several of them? How is this possible? It's unbelievable!

Montane Daemon stared blankly at Kai, his mouth agape. Despite being a Tribulator, he had yet to activate a nascence space, whereas Kai, a mere Body Fusion Realm cultivator, had managed to do so. How did that happen?

## **The Mans Decree Chapter 3143**

"You're really something, young man. No wonder you behave so brazenly. Despite being a lowly Body Fusion Realm cultivator, you have acquired different kinds of nascences. Even in ancient times, you would be considered a genius! Unfortunately, you had to run into me. Even though you managed to unlock your nascences, it will not change your fate," Bone Cliff sneered.

"Try me."

Amidst a battle cry, Kai swung Dragonslayer Sword upward, deflecting the Apex Spear away. At that moment, his sword glowed with a radiant golden light that illuminated the entire sky, seemingly casting a golden hue on the stars above.

Even the obsidian black sea turned gold from the light that shone upon it. As Bone Cliff's brows furrowed slightly, the Apex Spears behind his back merged with the one that was struck away. All eighty-one Apex Spears then formed into one single spear.

Leaping into the air, Bone Cliff grabbed the Apex Spear. A thunderous roar was heard from the weapon, heralding a burst of power so overwhelming that it could devastate the earth.

Rumble...

As Kai's sword smashed into that massive burst of power, the space around him began to contort while the crashing waves below him were thrown up a hundred meters into the air. The tremendous power gripped everyone on the island with a sense of suffocation.

"Such power is way beyond what I can imagine. Yet Mr. Chance is only an Eight Level Body Fusion Realm cultivator. He truly scares me..."

Shock was written all over Montane Daemon's face. Even though he was a Third Level Tribulator, he couldn't deny that even he was incapable of unleashing something similar.

This is crazy! But how is an Eighth Level Body Fusion Realm cultivator capable of such power? Meanwhile, a complex expression descended upon Renault's face upon seeing the attack.

Despite being the lord of Stellaris Sect and having just become a Tribulator, he was also shaken to the core by the shockwaves emitted from Kai's attack.

In fact, his instincts told him to flee, for the shockwave unleashed triggered a sense of danger within him. However, doing so would have caused him to be humiliated in front of everyone.

As for the others, the fear they felt could only be more intense. With grimaces, all of them desperately tried to resist the shockwave that struck them.

At that moment, the impact forced Bone Cliff into staggering back, while Apex Spear dispersed into rays of light that plunged themselves into the island's surface. Upon connecting the locations of where all eighty-one Apex Spears landed, it formed a strange design.

From his vantage point in midair, Bone Cliff's expression drastically changed, for the resulting image was none other than a middle finger.

There was no doubt that Kai had made it on purpose to humiliate him. Meanwhile, everyone heaved a sigh of relief when they saw Kai defeating Apex Spear with a single strike.

Even the other cultivators were secretly praying for Kai's victory because that was the only scenario where they would survive. The alternative was to be slaughtered by Bone Cliff.

"Those bones of yours are pretty tough. I'm impressed that they didn't shatter from the force of Dragonslayer Sword. That said, my sword is unable to unleash its full potential due to the weakened condition of its sword spirit. Otherwise, those bones would have already been turned to dust," Kai remarked with a smirk.

His words only served to intensify the outrage Bone Cliff felt. Despite being a soul remnant, Bone Cliff still carried the pride of a legendary warrior from ancient times.

Thus, being toyed with and disgraced by a Body Fusion Realm cultivator while he was at the sunset of his powers was unacceptable.

With a wave of his hand, the eighty-one Apex Spears returned to hovering behind him, but he was astonished to find that some of them were actually showing cracks.

## **The Mans Decree Chapter 3144**

The realization caused the stunned Bone Cliff to gape, as the Apex Spears were made from the femurs of ancient tiger beasts and enhanced with rune enchantments..

How did he manage to crack them with a single strike? On top of that, his sword wasn't even wielded at full power. This is ridiculous!

"It seems I've underestimated you, young man. However, no matter how strong you are, you're nothing but an insect to me," Bone Cliff declared haughtily.

With that, he pressed his palms together in front of his chest and forced out a drop of soul blood between his brows.

As the soul blood subsequently floated into the air, it exploded into a mist of blood that soon encapsulated all the Apex Spears. Enhanced by the blood mist, the runes on the Apex Spears emitted a reddish glow.

In response to the development, Kai showed no hesitation. Swinging Dragonslayer Sword, he morphed into a flash of lightning and charged at Bone Cliff. The radiant light of Dragonslayer Sword swept toward the latter like a raging tempest.

Meanwhile, Bone Cliff combined the Apex Spears into one again and engaged Kai in battle. Every time Apex Spear was swung, an apparition of a terrifying tiger would attack Kai with its jaws opened wide.

Despite the attacks of the countless apparitions, Kai pierced through them all, sword in hand. With his speed reaching its peak, Kai fought at full strength. Sparks from the clashing steel quickly filled the sky.

As neither of them held anything back, everyone could see sword shadows flying back and forth in midair, the ensuing howls sounded as if they had come from the depths of hell itself.

The battle was so intense that it shook the heavens and the earth, and everyone could only watch with stunned expressions.

At that moment, no one could tell which figure was whose, nor could they even track the fighters' trajectory. All they saw were incomplete afterimages left behind by the battling duo.

"This is crazy! If we were to help Kai, we would be killed in an instant!" Renault exclaimed with his forehead already drenched in cold sweat.

Despite being a Tribulator, he recognized that even he was incapable of exhibiting such terrifying power. Kai's strength had indeed far exceeded his imagination.

No one could have expected a lowly Body Fusion Realm cultivator to be able to unleash an aura and strength that was superior to that of a Tribulator. Consequently, all the cultivators present were filled with disbelief.

They were already blown away earlier when Kai killed the silverfeather hawk by invoking the lightning tribulation. Even then, they still couldn't imagine that the latter could hold his own against an ancient cultivator.

There's no way a Body Fusion Realm cultivator can possess such speed and power, is there? Everyone had their mouths wide open in shock. If we were to take Kai on, we would be slaughtered in a second!

Boom...

An explosion rang out suddenly, filling the sky with a golden light. Thereafter, the roar of a dragon was heard as Bone Cliff's body was sent flying away.

Gripping Apex Spear as if his life depended on it, Bone Cliff knew that he would lose it the very moment he let go. After he was thrown back a certain

distance, Bone Cliff's expression drastically changed as he stared daggers at Kai. In contrast to him, Kai was a sea of calm..

"It seems that a brutal battle is exactly what's needed to trigger the potential within my body after having achieved a breakthrough."

Kai found himself relishing in the fight. However, Bone Cliff was overwhelmed with dejection when he realized that Kai saw him as a training dummy instead of a worthy foe. Having lived for thousands of years, Bone Cliff couldn't tolerate the scorn Kai showed him.

"The reason you can still act so arrogantly, brat, is that a soul remnant is all that's left of me. That said, you had better not underestimate me, for I'm going to destroy you even if I were to perish!"

Utterly infuriated, Bone Cliff wanted Kai dead, even if he lost his own life in the process. The next moment, he released his grip on Apex Spear, and a bloody hue began to glow around his body.
