

The Mans Decree Chapter 3236

Chapter 3236 Thug

Upon departing from Lawrence's residence, Kai realized Miya and Livya were still waiting for him. Livya dashed toward Kai the moment she spotted him.

"Now that everything's over, how about you join us for shopping, Mr. Chance?"

Seeing how enthusiastic Livya was, Kai didn't have the heart to reject her invitation. Thus, he nodded. "Okay."

In response, Miya beamed. Hence, the trio left the Seizon residence and went shopping on a busy street. Meanwhile, Livya began to phish for all sorts of information from Kai.

Casually, Livya inquired, "There's something I want to ask about your companion, Mr. Chance. Who is Ms. Feenix to you?"

"She's my friend!" replied Kai.

"Is she really only a friend to you?" Livya lifted her eyebrow. "I think I saw you two sleeping in the same room."

Kai smiled wordlessly in response. I didn't expect Livya to be secretly observing me. Seeing that Kai remained silent, Livya asked again, "Ms. Feenix is your woman, right? How many female partners do you have, Mr. Chance?"

Surprised by Livya's question, he stared at her. Why is she asking me that question?

Upon witnessing his reaction, Livya clarified, "No need to feel embarrassed, Mr. Chance. It's not out of the ordinary for a capable man like you to have multiple wives. Cade mentioned your alchemical skills are superior to Yellow Blue City's master alchemist, Jubilante. Even he has a dozen female partners by his side. Considering you're even better than him, it's not at all unusual for you to have a harem."

Kai was stunned by her words because he had never counted how many female partners he had acquired.

As he progressed through his journey, the number of women by his side increased. Inadvertently, he accepted all those women into his life.

However, regardless of how many women he had attracted, he could never forget Josephine and the promise he made to her. One day, he would keep his word and organize an unforgettable wedding for Josephine.

Seeing how Kai appeared to be occupied by his thoughts, Livya wanted to ask something. However, she was stopped by Miya. "Don't you think you're being annoying asking him one question after another? Even if you don't, Mr. Chance's probably irritated. We asked Mr. Chance to join us for shopping, not to listen to your blabber."

"All right, fine, I'll shut my mouth now. I see I'm distressing you by pestering him, Miya." Livya giggled before darting away. She deliberately left to create an opportunity for Miya to spend some alone time with Kai.

"That d*mn brat..." Miya shot a glare at Livya before turning to Kai. "Don't mind her, Mr. Chance. Sometimes, my sister can be a chatterbox."

"It's fine." Kai smiled. As Miya spoke, she led Kai forward. "Let's check the stalls ahead, Mr. Chance. There are many-"

Suddenly, they heard Livya screaming loudly, "Release me, you thug! Let me go!"

Without delay, Kai and Miya sprinted toward Livya. Not too far ahead of them, a towering young man was clutching Livya's wrist. With a sleazy grin, he uttered, "Hey, do you think you can leave without apologizing for bumping into me gorgeous?"

The young man's grip was so firm that Livya couldn't escape. A few people were behind the young man, and they were all laughing. The surrounding bystanders were all startled.

"Who is this idiot? How dare he bully a daughter of the Seizon family!"

"He must be a foreigner. No locals would dare to court death by messing with a daughter of the Seizon family."

"Look at the size of their bodies. I think they're from Behemoth Palace."

Though the crowd was chiding the foreigners, none dared provide aid to Livya.

The Mans Decree Chapter 3237

Chapter 3237 Calm Down

Incensed, Miya bolted toward the young man restraining Livya and roared. “You b*stard! Release my sister right away!”

The instant the young man spotted Miya, he glanced at Livya again, and his eyes glinted. “A pair of twin sisters, eh? To think I could enjoy a double feature just as I arrived in Yellow Blue City. I must be lucky today. Man, just the thought of spending the night with you two is already exciting me. I’ll be sure to enjoy this.”

The young man spoke without filter, humiliating the sisters right to their faces. Miya flushed with anger, but she couldn’t act recklessly as her sister was still in the young man’s grasp.

At that moment, Kai stepped forward and yelled at the young man, “Release her!”

In response, the young man turned to Kai, frowning. “It’s you.”

The young man was none other than the person who almost fought with Kai at Behemoth Palace’s Teleportation Array, Jonah.

Jonah and his group had also been invited by Enrique to Yellow Blue City. Just as Jonah arrived in Yellow Blue City, he bumped into the beautiful Livya.

Due to his lecherous nature, he obviously wouldn’t allow such an opportunity to slip past him. Hence, he purposefully bumped into Livya and then restrained her.

“You know this man, Mr. Chance?” asked Miya as she stared at Kai. Kai nodded. “He’s Jonah Quattlebaum from Behemoth Palace. Back when I first arrived at Yellow Blue City, I almost clashed with him at the Teleportation Array.”

“He’s from Behemoth Palace?” Miya furrowed her brows, confused. “What are they doing in Yellow Blue City, then?”

Shaking his head, Kai said, “I don’t know.”

He had no idea Enrique was the one who invited Jonah. “This is none of your business, brat! Step aside. I won’t settle our score from back then, but if you insist on sticking your nose into this matter, there will be severe consequences,” threatened Jonah.

“You’re the one who’ll be facing severe consequences. Do you know who you’re grabbing? She’s a daughter of the Seizon family. Do you believe you can leave here unscathed after harming her?” Kai brought up the Seizon family because it possessed absolute authority in Yellow Blue City.

When Jonah learned the woman in his grip was a daughter of the Seizon family, he was slightly taken aback.

Soon, a subordinate of his approached him and whispered, “I’ve asked around and confirmed that she’s indeed from the Seizon family.”

In response, Jonah had no choice but to release Livya. The moment that he did, he slapped Livya’s butt. Even when he knew Livya was from the Seizon family, he still had the gall to harass her s3xually. Flushing, Livya unsheathed the sword by her waist. “You scoundrel! I’m going to kill you!”

“Stop it, Livya!” Upon witnessing that, Miya rushed toward her sister and prevented the latter from attacking.

They were no match for Jonah’s group at that moment. If they launched an assault, they would no doubt be at a disadvantage.

In any case, as long as Jonah’s group remained in Yellow Blue City, the sisters could complain about the matter to Lawrence. Then, Lawrence would undoubtedly seek justice for his daughter.

“Don’t stop me, Miya! I’m going to murder this son of a b*tch!” roared Livya with unbound wrath. How could she, a daughter of the Seizon family, not be livid after being taken advantage of in public?

Miya pulled her sister back and suggested, “You’re no match for him. Don’t worry. Once we return home, we’ll inform Dad about this incident. He’ll punish this jerk for us.”

Kai also dissuaded Livya from acting rashly. "These folks from Behemoth Palace are powerful, Ms. Seizon. You should calm down."

The Mans Decree Chapter 3238

Chapter 3238 Only Need One Hand

Kai's words did calm Livya down. Then, she glowered at Jonah. "Just wait. I dare you to stay in Yellow Blue City and await your punishment!"

Upon concluding her sentence, Livya prepared to leave with the others.

"Wait!" shouted Jonah. Then, his subordinates blocked Kai's path. Frowning, Miya said, "What are you trying to do? This is Yellow Blue City, not Behemoth Palace. If you attack us, you won't leave this city alive."

"Don't misunderstand, Ms. Seizon. I'm not blocking your path. It's just that I have a little grudge I want to settle with this brat over here." Jonah pointed at Kai.

Miya glanced at Kai before standing in front of him. "Mr. Chance is my family's guest. If you injure him, you'll be declaring war against the Seizon family. Try if you dare."

Narrowing his eyes, Jonah spat, "I hope you can understand the situation, Ms. Seizon. I released you and your sister because of your family, so don't be ungrateful. Do you think Behemoth Palace is afraid of the Seizon family?"

"You!" Miya was so enraged that she was speechless.

"We'll settle our score by ourselves, Ms. Seizon. You don't need to interfere," said Kai as he stepped forward and arrived in front of Jonah. "How do you plan on doing this?"

Jonah studied Kai and proposed, "We'll each land a punch on the other. If you can survive the punch, then I'll consider our matter settled."

Behemoth Palace was renowned for its overpowering raw might. Jonah was a Tribulator cultivator at that moment, and he was certain Kai was merely a Body Fusion Realm cultivator. That was why Jonah was so confident.

In response, Miya exclaimed, "You're shameless, Jonah! It's totally unfair for a Tribulator cultivator to settle a score by exchanging a punch with a Body Fusion Realm cultivator! The outcome is obvious!"

"There's no fairness to speak of in the Ethereal Realm, missy. It's his fault for being weak." Jonah grinned. Before Miya could reply, Kai interrupted, "No need to be concerned, Ms. Seizon. It's just a punch."

"You're only a Body Fusion Realm cultivator, Mr. Chance. Meanwhile, he's a Tribulator cultivator that even my sister can't defeat. I don't think you can survive even a punch from him." Concern was apparent in Miya's tone.

"He's at least a Second Level Tribulator cultivator, Mr. Chance. If even I can't stand my ground against him, I'm afraid you cannot survive his attack," added Livya.

"Relax. Maybe I can." Kai smiled, then turned to Jonah. "One punch it is. However, if I injure you later, you aren't allowed to retaliate, okay?"

"You? Injuring me?" Scornfully, Jonah spat, "Even if I stand still, you can't possibly hurt me, yet you have the nerve to boast! Against someone like you, I only need one hand to crush you. That's why I'll allow you to punch me first."

Then, he gestured for Kai to attack. In response, Kai entered a fighting stance as the aura on his body soared. In the blink of an eye, Kai vanished, dashing straight for Jonah.

Jonah knitted his eyebrows, and the disdain on his countenance faded. He didn't anticipate Kai to possess such speed.

By the time Jonah reacted to the situation, Kai had already arrived in front of him. Then, Kai sent his glowing, golden fist flying toward Jonah's chest.

The gust that the mighty punch generated reached Jonah before Kai's fist arrived. Immediately, Jonah realized how much force was packed in that punch.

In response, Jonah shouted before his body ballooned. Clouds of red blood mist promptly spread in the air and enveloped Jonah's body.

The energy within Jonah's body swelled rapidly while his aura became that of a Third Level Tribulator cultivator.

The Mans Decree Chapter 3239

Chapter 3239 Embarrassing

Livya and Miya panicked upon detecting Jonah's cultivation level had reached Third Level Tribulator. They had not expected that Jonah was actually hiding his true strength.

In response to seeing that, the crowd turned to Kai, worried for him. After all, the difference in Kai's and Jonah's cultivation levels was massive.

"It seems this guy's about to be in trouble."

"There's no hope for a Body Fusion Realm cultivator to triumph over a Tribulator cultivator."

"I'm pretty sure he's the alchemist who won a contest against Jubilante yesterday. It's a shame a talent like him is about to meet his end."

The people who recognized Kai as an alchemist couldn't help but pity him. After all, skilled alchemists were rare, and alchemists as a whole were often rather weak. It was only natural, given that they mostly spent their energy and time refining their alchemical and medical skills.

Smugly, Jonah smirked at Kai. "Are you afraid, brat? If you are, I'll spare you my punch if you grovel before me!"

"A Third Level Tribulator. Not bad. I didn't expect an idiot from Behemoth Palace like you to be able to reach this cultivation level." Kai smiled, clearly disrespecting Jonah.

Even though Jonah was displaying the strength of a Third Level Tribulator, Kai remained fearless. Golden light emitted from Kai's body as he unleashed the Power of Dragons.

Boom!

When Kai's fist crashed against Jonah's, a thunderous explosion was generated.

Crack!

The distinct sound of bones breaking was heard by everyone. Jonah winced as the blood-red mist around him dissipated. In a snap, he was sent flying backward.

Boom! Jonah's hulking body crashed through the buildings at the side. It wasn't until his body traveled over a hundred meters that he landed. All those buildings collapsed into piles of rubble.

Upon witnessing that scene, everyone widened their eyes in stunned silence. Not a single one of them anticipated a Body Fusion Realm cultivator to send a Third Level Tribulator cultivator flying away. After all, it was absurd.

"Mr. Quattlebaum!" Jonah's underlings hurried to him to check his condition. Jonah's arm lay limply. It was clearly broken. The ground was covered in blood, too. It was apparent just how mighty Kai's punch was.

Livya's and Miya's jaws dropped as they stared at Kai in astonishment. Miya, especially, was gazing at Kai with admiration.

She was already enamored with Kai, so after witnessing that scene, her affection for him grew even more.

Unbeknownst to Miya, the way Livya look at Kai had also changed. Within the Ethereal Realm, the mighty were respected.

Even though Kai was only a Body Fusion Realm cultivator, he was strong enough to wound a Tribulator cultivator severely. As such, how could the women from the Ethereal Realm not fall for a man like him?

Moreover, Kai was a master alchemist more amazing than Jubilante and was also proficient in medicine. Most importantly to Miya and Livya, Kai could wield magecraft and even easily shatter illusion arrays.

In their eyes, he was the perfect man, and they couldn't help but be attracted to him. In the Ethereal Realm, love between a man and a woman wasn't as restricted as in the mundane world. If Kai were willing, Livya and Miya wouldn't hesitate to offer themselves to him.

It would be an honor for them to sleep with Kai.

Kai had no clue what the sisters were thinking as he peered at Jonah coldly. Grimacing, Jonah approached Kai with his subordinates' aid. Even though he

was a Third Level Tribulator cultivator, he was sent flying away by a single punch from Kai in front of a crowd.

There were no words that could describe the depths of his embarrassment at that moment.

The Mans Decree Chapter 3240

Chapter 3240 Awakened Early

“Just wait, brat. I won’t let this slide!” Jonah glared at Kai before he was escorted away. Kai allowed Jonah to leave without interference, considering he wouldn’t be staying in Yellow Blue City for long. If Jonah decided to return for another confrontation, Kai would likely be gone by then.

“Let’s leave, ladies,” said Kai, glancing at Livya and Miya.

“Oh, okay.” Miya nodded upon snapping back to her senses.

Livya, still in awe of Kai, exclaimed, “Mr. Chance, your abilities are truly remarkable. Not only are you strong enough to defeat someone with a higher cultivation level, but you also excel in medicine, alchemy, magecraft, and illusion arrays. You’re an unparalleled genius, Mr. Chance! I doubt there’s anyone as extraordinary as you in Yellow Blue City or even the entire central region!”

“It’s not limited to the central region, Livya. I believe Mr. Chance might be unrivaled among young men in the entire Ethereal Realm!” praised Miya.

Kai felt a bit bashful in the face of their compliments. As they strolled down the street, engaged in conversation, a powerful aura suddenly surged from the direction of the Seizon residence. The aura rapidly expanded, enveloping the entire Yellow Blue City.

It resembled the shockwave of an explosion, spreading far and wide before dissipating swiftly. Detecting the aura passing above them, Kai’s group recognized it as a manifestation of nascence without a discernible source.

“What was that? What’s happening back home?” asked Livya.

“I don’t know!” Miya exclaimed.

“Quick, we need to check out what’s going on...”

Panicking, the girls sprinted toward the Seizon residence, with Kai following closely behind. When the trio arrived at the Seizon residence, it was already surrounded by people.

Everyone was looking at the ancestral land of the Seizon family. Miya approached her brother, inquiring, “What’s going on, Cade?”

“I don’t know. There’s a chance the ancestral land has been awakened,” replied Cade.

Miya was astonished. “The ancestral land has been awakened? How is that possible? Doesn’t it only happen once every decade? It hasn’t been ten years yet.”

“I’m not sure. Dad and Uncle Enrique went to inspect the ancestral land with a few elders. If it has indeed awakened, that would be fantastic news. I believe our ancestors must have sensed Cloud’s presence and decided to act.” Cade spoke, casting a quick glance at Cloud.

Puzzled, Cloud asked, “What’s the significance of the ancestral land being awakened, Cade?”

“Within that ancestral land, our forebears left behind numerous magical items and various free nascences. These are valuable resources for cultivation,” Cade explained. In response, Cloud spoke with slight awkwardness. “I haven’t attained nascence yet, though...”

“No worries. Did you think we all have? Even those who can’t absorb free nascence can still absorb other auras. A visit to the ancestral land would be beneficial regardless, if you’re granted entry. This place only opens once every ten years, so everyone is surprised it happened ahead of schedule. If it’s indeed awakened, then you’re one fortunate man, Cloud.”

Everyone remained silent, still unaware of the events unfolding in the ancestral land. Before long, Lawrence and Enrique emerged from the ancestral land alongside a few elders of the Seizon family, their expressions bearing a sense of bewilderment.

Seeing this, Cade hurried toward his father. “What happened, Dad? Did the ancestral land really awaken?”

Lawrence nodded. "Yes, it did, but we couldn't determine why it happened earlier than scheduled."

"You didn't go in and ask Old Mr. Ozrell about it?"
