

The Mans Decree Chapter 3241

Chapter 3241 Outsiders Cannot Enter

“Nonsense. Even if the ancestral land has awakened, it’s not a place we can enter. However, you all can. When you do, inquire with Old Mr. Ozrell about what’s happening and why it opened ahead of time.”

Lawrence, too, was eager to understand the reason behind this peculiar occurrence. Unfortunately, his group was prohibited from entering the ancestral land; only the younger generation of the Seizon family had that privilege.

“We haven’t made any preparations since the ancestral land opened so suddenly. I think our best course of action now is to discuss whom we’re allowing to visit the ancestral land,” suggested Enrique to Lawrence.

Lawrence nodded before instructing people to guard the ancestral land. The rest of the group returned to the living room. Since the ancestral land had awakened unexpectedly, they hadn’t yet decided who would be sent in.

Lawrence’s and Enrique’s children weren’t the sole representatives of the younger generation in the Seizon family. Taking into account the branch families, there were dozens of them.

Therefore, before each awakening of the ancestral land, they would decide in advance who would enter first. They couldn’t all rush in simultaneously. Given the abrupt awakening of the ancestral land, a discussion was needed to determine who would enter.

“What about Cloud, Dad? If we allow Cloud entry, his identity will be exposed,” Cade whispered into Lawrence’s ear.

At that point, Cloud was only known as an alchemist hired to treat Claudius. If he were to enter the ancestral land, his true identity would have to be revealed.

However, if that happened, Cloud would be entangled in the power struggle within the Seizon family. The last thing Lawrence wished was for Cloud to be embroiled in the conflict.

“Don’t reveal his identity just yet. I’ll come up with a plan to secure his entry into the ancestral land,” Lawrence responded.

Cade nodded in silence upon hearing his father’s response. Meanwhile, Kai remained unaware of the discussions taking place within the Seizon family in the living room. Being an outsider, he had no right to participate.

“You know, it’s quite fortunate that you’re here when the ancestral land has opened, Mr. Chance. There’s a considerable amount of free nascence in it,” Cloud informed Kai. He could sense the latter’s interest in the Seizon family’s ancestral land.

In response, Kai offered a faint grin. “This is your family’s ancestral land. Outsiders are prohibited from entering. However, you’re likely to be granted entry. If so, seize the opportunity.”

“The rules are made by people, Mr. Chance, and people’s perspectives can change. I’ll discuss it with Uncle Lawrence. After all, you saved Grandpa’s life. Uncle Lawrence might consider letting you in because of that.” Cloud expressed his hope that Kai could gain entry, convinced of the significant benefits the latter would derive from the visit.

Smiling, Kai reassuringly patted Cloud’s shoulder. “Focus on yourself, not me. Once your grandfather recovers, we’ll have to leave soon. We can’t linger here for too long.”

As fascinated as I am by the Seizon family’s ancestral land, I can’t request Cloud to plead with Lawrence to allow me entry. This is their family rule, and Cloud shouldn’t break it just after arriving here.

In the evening, the Seizon family came to a decision and compiled a list of individuals permitted to visit the ancestral land.

As night fell, Cade provided Cloud with a Seizon family outfit to change into, signaling Cloud’s imminent entry into the ancestral land.

“Tomorrow morning, you will step into the ancestral land. I won’t be accompanying you this time, so Livya and Miya will be looking after you. Remember, don’t reveal yourself before entering the ancestral land. Once you’re inside, you should be fine,” Cade instructed.

"I understand, Cade." Cloud nodded. Then, with a moment of hesitation, he inquired, "Can individuals outside the Seizon family access the ancestral land, Cade? Can outsiders visit it too?"

"Absolutely not. This is our family's ancestral land. Outsiders won't be granted entry." Perplexed, Cade asked, "Is there something on your mind, Cloud?"

"Oh, it's nothing," Cloud replied with a smile, shaking his head.

The Mans Decree Chapter 3242

Chapter 3242 Jealous

Once Cade departed, Cloud intended to return to his room. Suddenly, Miya blocked his path. "Why are you still up at this late hour, Miya?" he inquired.

"Let me ask you something, Cloud. Were you inquiring about outsiders being allowed into the ancestral land because you want Mr. Chance to enter?" Miya questioned.

Surprised that Miya overheard his conversation with Cade, Cloud hesitated but then shook his head. "No, I was just curious."

"Don't lie, Cloud. Does Mr. Chance desire to visit the ancestral land too?" Miya pressed.

Observing Miya's determination, Cloud nodded resignedly. "Mr. Chance is probably considering it, although he didn't explicitly say so. I believe he would benefit greatly from absorbing the free nascence in the ancestral land, especially given his grasp of nascence power."

"What? He already possesses nascence power?" exclaimed Miya. I never imagined that Kai, a cultivator in the Body Fusion Realm, had acquired a nascence power! He's a genius among geniuses!

At that moment, Miya's admiration for Kai not only deepened but intensified. She fervently wished she could become Kai's partner immediately, acutely aware that a prodigy of his exceptional caliber would undoubtedly be highly sought after by many.

Calmly, Cloud stated, "Mr. Chance has even mastered multiple types of nascence power. Simply having the power of nascence is unremarkable given his talent."

Miya was further astonished by this revelation. It's already incredible that Mr. Chance, with his Body Fusion Realm cultivation, has grasped the power of nascence. But to learn that he possesses multiple types of nascence power is beyond belief. "I didn't know he's this talented..." Miya's eyes were filled with passion. Her affection for Kai could no longer be concealed.

Seeing her reaction, Cloud quickly asked, "Are you in love with Mr. Chance, Miya?"

Instead of denying it, Miya nodded. "Yes, I am. There's not a woman in this world who wouldn't love him. Even Livya has started to fall for him."

Cloud was surprised by her response. He didn't anticipate Miya and Livya being so enamored with Kai in such a short time. Although, in the Ethereal Realm, it wasn't uncommon for two sisters to be involved with the same man.

"To be honest, Mr. Chance has many women around him, Miya. Ms. Feenix, Mr. Chance's companion, is also one of his women. In fact, many more are waiting for him back in the northern region..." Cloud disclosed.

"I know. It's only natural that an exceptional man like him has a harem."

Miya didn't mind that all. All she cared about was whether she could join Kai's harem. Cloud felt resigned. Well, in the Ethereal Realm, strength is revered. It would be more surprising if Kai wasn't attractive to the women here, considering his overwhelming strength at such a young age.

"All you should go to sleep now. And don't tell anyone I was here," Miya instructed before disappearing into the darkness.

Cloud shook his head in resignation before retiring for the night. Unbeknownst to him, Miya didn't leave but instead sneaked toward Kai's room after he departed.

Simultaneously, Kai was in the midst of a passionate encounter with Feenix in the room.

Luckily for Feenix, Kai possessed exceptional stamina; otherwise, he would have undoubtedly succumbed to exhaustion after their night-long encounter.

As Miya approached the entrance, she caught the sounds emanating from the room and blushed. Instead of departing, she settled outside, unable to resist the allure of the moans and sighs.

Aware that the voices belonged to Feenix and Kai, she couldn't help but feel a twinge of envy toward Feenix.

The Mans Decree Chapter 3243

Chapter 3243 Underground Passage

Feenix soon succumbed to exhaustion and fell into slumber. Kai, glancing at the entrance, began to don his clothes slowly.

He had been aware of Miya's presence when she arrived, but consumed by the moment with Feenix, he hadn't intervened. Gradually, he made his way to the door and opened it.

At the same time, Miya remained seated on the ground, her face flushed. Her body radiated heat, and her eyes held a dazed expression.

Even as Kai opened the door, she remained oblivious, lost in her fantasies. Observing Miya, Kai awkwardly whispered, "Ms. Seizon..." His voice jolted Miya back to reality. Awkwardly, she stood and straightened her clothes. How long has he been standing there?

"Mr. Chance, I-I..." Miya stammered, at a loss for words. She felt embarrassed that Kai had witnessed her in such a state.

"Is there a reason you're visiting me during the night, Ms. Seizon?" inquired Kai. Miya nodded, then tugged at the man's hand. "Follow me..."

Kai was momentarily caught off guard, feeling a tightening in his chest. Where is she leading me? Oh, no. Does she want to have sex? I'm not emotionally ready for this!

As Miya guided Kai further into the Seizon residence's backyard, their surroundings growing more secluded, he couldn't help but murmur, "Ms.

Seizon, I- I'm not ready yet. We've only recently met, and I would feel irresponsible if we spent a night together so soon."

Miya was stunned for a moment before realization dawned upon her. Grasping the man's hesitation, she shot him a glare and chided, "What are you implying? Do you think I'm taking you to my bed? You're overthinking it. I'm bringing you somewhere nice."

As they ventured further into the woods, Kai pondered Miya's intentions. Passing through a forest and crossing a river, they arrived at a mountainous area -a secluded location seemingly untouched by people.

"Where is this, Ms. Seizon? Why did you bring me here in the middle of the night?" Kai inquired, puzzled.

Miya didn't beat around the bush. "Answer me honestly. Do you want to enter the Seizon family's ancestral land?"

Kai was momentarily surprised, then fell into contemplative silence. He couldn't deny his interest, but even if he desired it, he couldn't access it. He couldn't simply intrude into someone else's ancestral land.

Sensing Kai's hesitation, Miya swiftly understood his concerns. Thus, she reassured him, "If you want to visit it, I'll take you there. You can absorb any free nascence you want."

Kai surveyed his surroundings; it clearly wasn't the spot he had visited during the day. "I don't think this is your family's ancestral land, right?"

"There's an underground passage that leads into the ancestral land, and this is the entrance. There's no way to stroll in through the front entrance because it's guarded. I can sneak you in through the passage. This way, no one will even notice we're here," explained Miya.

"This isn't a game, Ms. Seizon. If your father or other members of the Seizon family discover this, you'll face consequences. I don't think we should go inside," Kai cautioned, not wanting to bring trouble to Miya. "I won't face consequences. I bet the Seizon family will be in chaos after the ancestral land's awakening.

No one will care about what I did then. My father has been keeping the matter from me and my sister because he doesn't want us to be involved. However,

we already know about it.” Upon finishing her sentence, she pressed a protruding rock on the ground.

With some noise, the rock slowly moved, revealing a dark entrance underneath.

The Mans Decree Chapter 3244

Chapter 3244 Ozrell Seizon

As Miya ventured into the cave, Kai followed closely behind. Inside, a myriad of shimmering lights danced with lightning speed, creating a surreal spectacle. The sensation was akin to stepping into a time tunnel.

Before they could fully grasp their surroundings, a brilliant flash of white light enveloped them, and suddenly, a majestic palace materialized in front of their astonished eyes.

“This is our ancestral palace, and I found this secret tunnel by accident. Besides my father and brother, no one else knew about the tunnel’s existence,” Miya explained.

Glancing at the spectacular palace, Kai could sense the aura of nascence within the structure. Excitement was written all over his face. Here, he could effortlessly absorb the nascence aura without having to exert his senses. This is awesome!

Upon noticing Kai’s excitement, Miya flashed a grin. Witnessing Kai’s happiness brought joy to her as well.

“Did you sense the nascence aura?” Miya asked. Kai nodded in acknowledgment. “Yes, it’s very intense.”

“Come with me. There are still many types of nascence aura waiting for you to explore. If you’re lucky, you might even experience the presence of the nascence itself.” With that, Miya led Kai into the main hall.

After taking two steps forward, Miya turned around and reminded Kai, “Watch your words when you see my ancestor later. Just tell him you’re one of the Seizons no matter what he asks you.”

“Your ancestor? Are there still inhabitants in this ancestral land?” Kai questioned incredulously.

“Of course! My ancestor, Old Mr. Ozrell, has lived for hundreds of years. It’s just that he can’t leave the ancestral land. He would perish if he did,” Miya responded.

Realization dawned on Kai that her so- called ancestor might not be of flesh and blood. He’s probably a spirit who survives by absorbing the various auras in the ancestral land. His spirit would be completely destroyed if he were to step out of the territory.

Following Miya into the hall, Kai observed an elderly man seated cross-legged at the center. The elder man, whose deeply sunken eyes were shut, looked exceptionally scrawny.

Kai was stunned by the sight before him. He hadn’t anticipated the Seizon family ancestor to be not only alive but also in a complete, flesh-and-blood form. Unbelievable!

Yet, the elderly man didn’t emanate too much of an aura, so Kai couldn’t assess the latter’s capabilities. Only when he heard commotion from a short distance away did the elderly man slowly open his eyes.

Upon noticing that, Miya immediately approached and greeted him with respect, “Old Mr. Ozrell...”

After scrutinizing Miya for a moment, Ozrell uttered, “The portal to the ancestral land has just opened, so technically, people are supposed to arrive only tomorrow. Why are you here today?”

“Old Mr. Ozrell, the portal opened unexpectedly, and no one knew what happened, so they sent us here to check things out,” Miya explained.

Ozrell glanced at Kai and asked, “This young man is not from the Seizon family, right?”

“Old Mr. Ozrell, he is. He’s the son of Uncle Renault, who left home some time ago. He’s a Seizon,” Miya immediately clarified.

“Nonsense! Do you honestly think I can’t tell if he’s a Seizon?” Ozrell bellowed. Miya was taken aback by that sudden outburst. In response, Kai

immediately stepped in and admitted, “Sir, I’m indeed not a member of the Seizon family.”

“If you’re not one of us, you have no right to enter the ancestral land. Leave this place immediately. I’ll show no mercy if you dare to trespass into our territory again,” Ozrell declared, waving his hand.

“Old Mr. Ozrell...” Miya grew anxious, wanting to plead with Ozrell to let Kai stay, but he had already closed his eyes.

“Ms. Seizon, I think we should go,” Kai suggested, understanding that since he was not from the Seizon family, he couldn’t insist on staying in their ancestral land.

The Mans Decree Chapter 3245

Chapter 3245 Times Have Changed

“We can’t just leave like that. How can we leave after we’ve been through just to get in?” Miya refused to leave. She then turned to Ozrell. “Old Mr. Ozrell, he might not be one of the Seizons, but he’s a part of the family now. You can’t just throw him out.”

“Part of the family?” Ozrell gradually opened his eyes once again.

“Yes, he’s part of the family. He’s my husband, the son-in-law of the Seizon family. We’re married.” Miya wrapped her hand around Kai’s arm.

Kai was momentarily dumbfounded. He hadn’t expected Miya to fabricate such a story.

“Nonsense. Do you think I’m a fool? You’re still a virgin. How can you two be husband and wife?” Ozrell exclaimed in anger.

“We’re indeed husband and wife. I’ll prove it to you if you don’t believe me.” With that, Miya took Kai’s hand and led him into one of the rooms adjacent to the hall before removing her clothes.

“What are you doing, Ms. Seizon?” Her action caught Kai by surprise. “We must consummate our marriage now, or else, he’ll kick you out!” Miya said to Kai.

"I can't have you jeopardizing your own reputation for my sake. I can't do this." Kai instantly turned around to avoid seeing Miya's body.

"Why are you being so wishy-washy? You're a man, come on! What are you afraid of? I'm not even scared to do this. I know you're surrounded by many women, so even if we had sex, I won't hold you responsible. Don't worry!" Miya said while removing her clothes.

Soon, Miya appeared completely naked before Kai. She even inched closer to embrace him. As a man, Kai found it hard to resist such a temptation. Gritting his teeth, he approached and pressed her down on the bed, looming over her.

Hearing the sensual moans that came from the room, Ozrell sat in the hall, visibly distressed, and let out a helpless sigh. "Times have changed. What has become of society these days? Girls don't even bother to preserve their chastity. It's pathetic to see how they disregard the sanctity of physical intimacy."

Ozrell sighed with resignation, acknowledging the changing times and a development of a new era. There was nothing he could do about it.

In his generation, women who conducted themselves in such a manner, neglecting the reverence for their bodies, would have faced severe consequences, possibly even being subjected to stoning. Kai and Miya finally came out of the room after an indefinite amount of time.

Miya's face was flushed red, her expression revealing her satisfaction. Kai, however, couldn't help but feel and embarrassed. After all, he had just fornicated with Miya right in front of her ancestor. The atmosphere was understandably awkward.

"Old Mr. Ozrell, he can stay in the ancestral land now, can't he?" Miya asked. Left with no choice, Ozrell waved his hand with a sigh. "Oh, fine. Get in there."

"Thank you, Old Mr. Ozrell. Please open the passageway for us!" Miya exclaimed with joy when Ozrell finally agreed to let them through.

"But both of you must keep your thoughts in control and center your minds. No filthy thoughts!" Ozrell cautioned.

As he spoke, he lifted his hands, as if lifting an unseen force with his palms. A crimson beam swiftly coalesced, and in a matter of seconds, an oval door, illuminated by a radiant glow, materialized right before their eyes.

“Go on in,” Ozrell said.

“Thank you!” Miya expressed her gratitude before taking Kai’s hand and guiding him into the beam of light.

“Where does this door lead to? Is it some kind of teleportation magecraft?” Kai wondered, bewildered. Is he sending us away using this door that came out of nowhere?

“Don’t worry; it’s not teleportation magecraft. He’s sending us to the ancestral land. The main hall serves as the boundary of the ancestral land, while the actual destination lies within a complex arcane array. This arrangement has preserved the nascence for centuries.

However, due to the array’s age, it has deteriorated somewhat. Consequently, whenever the portal to the ancestral land opens, untethered nascence seeps out and merges with the surrounding land and sky. The essence we sensed earlier in the day was the residual energy that escaped from the ancestral land,” Miya elucidated for Kai.

The Mans Decree Chapter 3246

Chapter 3246 Pretend Like Nothing Happened

Kai stepped into the luminous portal alongside Miya after understanding the situation. As the two were enveloped by the radiant light, an overwhelming wave of aura emanated. The forms of Kai and Miya dissolved into the brilliance.

Ozrell, sighing once more, closed his eyes again. In an instant, Kai and Miya sensed a fleeting white glow flashing past them before finding themselves in a mountainous forest.

The air was filled with the enchanting fragrance of flowers, creating a serene and picturesque scene.

Kai understood that the Seizon family’s ancestral land was nothing more than a meticulously crafted world fashioned by the elders using an arcane array.

Its primary objective was to preserve resources for the prosperity of future generations, ensuring that the Seizon family remained resilient through the centuries.

“Metal nascence dominates our ancestral land because all our ancestors comprehended this kind of nascence in the past. While there are other supporting nascences, their presence is minimal compared to metal nascence. This specific nascence is inherently defensive. Mastery of metal nascence enhances the body’s defenses significantly. Regrettably, I don’t have a nascence space, so I can’t comprehend nascence. Here in the ancestral land, I can only search for alternative resources,” Miya explained.

After all, individuals with exceptional talent, such as Kai, were a rarity. It wasn’t common for individuals to active nascence space immediately upon reaching the Body Fusion Realm, let alone comprehend multiple nascences at the same time.

Sensing the unclaimed nascence drifting in the surroundings, Kai instinctively located a suitable spot, sat down, and initiated the absorption process.

“What are you doing?” Miya asked.

“I’m comprehending nascence, of course. Despite the abundance of metal nascence here, I haven’t fully grasped it yet, so I can’t absorb and refine it. I need to comprehend it first,” Kai explained.

His plan was clear-to understand metal nascence, absorb the free nascence aura available, and attain an additional nascence power.

Once he achieved a complete understanding of metal nascence, his Golem Body would ascend to a higher level. His Golem Body would surely become as robust as a rock with the boost of metal nascence.

“How long is it going to take to comprehend metal nascence by sitting cross-legged and meditating on the ground?” Miya laughed.

“How else am I supposed to do it?” Kai asked with puzzlement.

“Nascence beasts inhabit this ancestral land, created from the abundant free nascence aura. Most of the nascence beasts here are metal nascence beasts. If you aim to comprehend metal nascence swiftly, you’ll need to defeat these metal nascence beasts to expedite your understanding of it,” Miya explained.

Kai was taken aback by her words. The existence of nascence beasts in the Seizon family's ancestral land was an unexpected revelation. This offered him a potentially faster avenue to comprehend nascence compared to his original method.

"If slaying nascence beasts leads to comprehending nascence, why haven't you done it? This way, you could have also gained nascence comprehension," Kai questioned, his confusion apparent.

It seemed the Scizon siblings hadn't mastered nascence, so if acquiring understanding through defeating nascence beasts was a viable method, they should have learned it by now.

Hearing Kai's question, Miya couldn't resist rolling her eyes. "That's a rather silly question. Consider this: without activating nascence space, what's the use of slaying hundreds of thousands of nascence beasts?"

Kai finally grasped her point and offered an awkward smile. "My apologies, I forgot about the nascence space."

Understanding nascence power required the activation of the nascence space, which was difficult in itself.

"Let's go. I'll guide you to find the nascence beasts, but I can't help you slay them. It's futile for me to do so, considering I haven't activated my nascence space," Miya offered.

"I understand. Thank you, Ms. Seizon," Kai said with gratitude.

Miya's expression shifted to one of displeasure at his expression of gratitude. Angrily, she confronted him, "You just slept with me. Are you going to pretend as though nothing happened?"
