

## The Mans Decree - The Mans Decree Chapter 3259

### Chapter 3259 Capture Him

Kai could now employ his techniques and use his Dragonslayer Sword, so he approached the beasts without fear. With a single swing of his Dragonslayer Sword, Kai unleashed a surge of light, fierce as a tempest.

Wherever the blade's light passed, the nascence beasts were instantly reduced to nothingness. As the beasts fell, a great tide of nascence aura rose to the heavens, and Kai greedily absorbed it.

There were various types of nascence auras, but apart from those Kai had already mastered, the rest merely trickled into his body like threads, slowly dissipating within his nascence space.

Without the corresponding stars to absorb and store them, even if Kai absorbed these other nascence auras, they couldn't remain within him.

Miya, in midair, was stunned by the sight of Kai absorbing the nascence auras. Others would typically absorb nascence auras one type at a time, but Kai was drawing all the available nascence auras into his body.

Fortunately, Kai's nascence space was as vast as the cosmos and was unfazed by the sheer volume of nascence auras. Had his nascence space been smaller, such a method of absorption would likely have led to an explosive demise.

Kai was thoroughly enjoying the slaughter within the valley, unaware that the nascence beasts he was killing had taken years to form. At the rate that he was going, it would be difficult for the Seizon family to encounter any nascence beasts in their ancestral land after this.

Near the entrance to the valley, Jadiel wore a displeased expression. "The nascence beasts in your ancestral land are too few. After traveling this far, we've encountered only a handful of them. At this pace, how long will it take for me to comprehend metal nascence?"

"Mr. Jadiel, normally there are many nascence beasts in our ancestral land. Dozens of people enter the ancestral land at a time, but only a few can venture this deep to hunt them. After all, not every Seizon family member is

able to open up a nascence space and comprehend nascence,” Yorath explained.

“The number of nascence beasts here is really too little. Could it be that someone had come before us to hunt them, leaving only the remnants for us?”

Genya also found the scarcity of the nascence beasts strange.

“Let’s hurry up. We might find the person who entered before us!”

Jadiel decided to forgo hunting and instead delve deeper into the valley. Yorath and Genya nodded in agreement, quickening their pace. As the trio moved swiftly forward, an eerie sensation grew within them.

It was peculiar that they encountered so few nascence beasts, especially since the beasts’ number and strength were supposed to increase the deeper they ventured. However, the deeper they went, the less nascence beasts they saw.

“How strange! Where have all the nascence beasts gone?” Yorath wondered out loud, furrowing his brows. After nearly half an hour, Jadiel suddenly stopped.

“Mr. Jadiel, why have we stopped? Have you found something?” Yorath asked.

“Can’t you feel it? There’s someone fighting ahead, and the battle is fierce. There’s a significant fluctuation of aura,” Jadiel said.

Hearing this, Yorath and Genya extended their spiritual sense and also detected the strong fluctuation of aura ahead—a clear indication of an ongoing battle.

“Hurry up! Let’s go check it out. I must catch the intruder who trespassed on our ancestral land!” Yorath said, rushing forward impatiently

Chapter 3260 Top Courtesan

“Wait up, Yorath!” Genya called out as she ran after him. Jadiel, too, followed closely behind them. The sounds of combat grew louder as the three of them made their way forward.

Meanwhile, Kai was busy slaughtering the nascence beasts. With each nascence beast he killed, that nascence aura flowed into his body, causing the stars within his nascence space to shine brightly.

Right as Kai was getting a little carried away, he sensed people approaching and frowned in response. He then leaped into the air and put his guard up.

“What’s wrong?” Miya asked.

“I think there are three people coming this way,” Kai replied.

Miya was utterly confused. “Why would anyone be coming here? There isn’t anyone in the group planning to enter the ancestral land this time who has activated their nascence space. Why would they come here?”

Yorath and the others, who had just arrived at the scene, were frozen in shock when they saw Kai and Miya. So, these two are the ones who snuck into the ancestral land and killed these nascence beasts!

As Genya had always hated Miya, she lost her temper and yelled angrily, “How dare you bring an outsider into our ancestral land and kill these nascence beasts? Such acts of betrayal are punishable by death!”

Yorath, too, yelled furiously, “You went against the rules of our ancestors and brought an outsider into our ancestral land, Miya! Hurry up and apologize!”

Miya wasn’t afraid of them in the slightest, though. After slowly coming back down, she shifted her gaze toward Jadiel as she retorted, “You two brought an outsider in here as well! What do you have to say about yourselves, huh?”

“This is Mr. Jadiel of Behemoth Palace! He only came in here after obtaining permission from the head of our family and has the family head token! Does Kai have permission?” Genya asked. Miya froze as she didn’t expect her father to grant such permission to someone from Behemoth Palace.

“I didn’t get permission from the head of your family!” Kai said as he stepped forward.

“You must have a death wish if you barged into our ancestral land without permission!” Genya said while whipping out a magic sword.

Jadiel's eyes narrowed as he glared at Kai with murderous intent. "Is this the guy who broke my brother's arm?"

"That's right! He's the one who broke Mr. Jonah's arm!" Genya replied with a nod. Jadiel exuded a terrifyingly powerful aura when he heard that. His muscles increased in size, and he became a lot taller as well.

"Calm down, Mr. Jadiel. We came here to master nascence, and we can only spend a limited amount of time in here. We can't afford to waste time fighting him. This guy had the audacity to sneak into our ancestral land, so the Seizon family will not let him off the hook. You need not concern yourself with a dead man walking."

Jadiel only calmed down after hearing that.

"Who said we snuck in here? Old Mr. Ozrell is guarding the outside. We couldn't possibly have entered if he didn't open the portal for us! Besides, Kai is practically half family to us, so it's not against the rules for him to enter our ancestral land!" Miya retorted.

"Half family?" Genya didn't understand what she meant by that.

Yorath, however, was quick to catch on. He shot Miya a disdainful look and said, "Does your shamelessness know no bounds, Miya? You and Kai haven't even known each other for that long, yet you already slept with him?"

Having realized what Miya meant, Genya taunted her by saying, "You really are a shameless wh\*re, Miya! I can't believe you'd sleep with men that easily. Maybe you should go work at a brothel instead. You might just become their top courtesan! Think about the amount of money you'd make!"
