

The Mans Decree - The Mans Decree

Chapter 3261 Entering The Cave

“You’re the real wh*re, Genya! You think I don’t know how many of the Seizon family members you’ve slept with? You once even slept with three men at the same time! I’m surprised you have the audacity to call me a wh*re!” Miya retorted without any hesitation.

When it came to arguing, Miya was just as good as Genya, if not better.

“You...”

Infuriated, Genya raised her sword and was about to attack Miya, but Yorath stopped her.

“Don’t forget why we’re here, Genya. You can fight her once we get out of here.”

Yorath then turned toward Miya as he continued, “I don’t care how you’re involved with Kai, but you two have indeed snuck into our ancestral land. Let’s see how you explain yourself when the ancestral land gets closed off. We’ll be on our way now!”

Yorath then shot Genya and Jadiel a look before walking off.

“Hmph! How I explain myself is none of your business!” Miya retorted with a snort.

She then lowered her head and muttered under her breath, “Honestly, why would my dad grant someone from Behemoth Palace permission to come here? Has he gone senile or something?”

“Maybe Mr. Seizon was forced into it,” Kai said. Lawrence is aware of Enrique’s collaboration with Behemoth Palace, so there’s no way Lawrence would grant that permission of his own accord! He must have been forced to do so!

“Let’s forget about that for now. You should hurry up and absorb the nascence aura. Those three might come back again!” Miya reminded him.

As Kai had slaughtered most of the nascence beasts, Yorath and the others had no choice but to go deeper into the valley.

“Why did you stop me, Yorath? I could kill them both here, and no one would ever find out about it!” Genya asked with a displeased frown.

“Do you really think they’re pushovers? Kai must be really powerful if he managed to break Mr. Jonah’s arm. Not only is he an alchemist, but he also came here with Cloud. I can’t touch him if I wish to curry favor with Cloud. Until we find out what Uncle Renault is capable of, we had better not lay a finger on those who are with Cloud,” Yorath explained.

Realizing that Yorath’s statement made perfect sense, Genya said nothing further. As the three of them went deeper into the valley, the number of nascence beasts gradually increased. Jadiel’s eyes lit up with excitement as he started slaughtering them left and right.

Behemothians like him possessed incredibly powerful physical bodies, so he could easily slaughter those nascence beasts using his fists alone.

“These nascence beasts are far too weak. I’ll need to find some stronger ones,” Jadiel said as he continued his advance.

“Mr. Jadiel, things could get a bit dangerous up ahead. Even we have never gotten this deep into the valley,” Yorath said respectfully.

“What are you afraid of? I’m here, aren’t I? I can take on any nascence beast with ease, no matter how powerful it is!”

Jadiel ignored Yorath’s advice and continued pushing forward. Yorath and Genya could only follow behind him. After walking for about an hour, the three of them seemed to have arrived at the end of the valley.

The path they were on ended in front of a huge mountain. Atop that mountain was a large, dark cave that resembled the mouth of a ferocious beast.

Yorath and Genya shuddered when they saw the cave before them. They couldn’t help but feel as though it contained something terrifying.

Jadiel, on the other hand, was very excited because he knew a much more powerful nascence beast was most likely hiding inside. Maybe I’ll master nascence if I kill that nascence beast!

With that in mind, Jadiel said, "Come on; let's go check out what's inside!"

Chapter 3262 Something Terrifying Inside That Cave

"I think we shouldn't go in there, Mr. Jadiel. I feel as though there's something terrifying inside that cave!" Genya exclaimed worriedly.

"If you're that scared, then stay out here. I'll go in there all by myself!" Jadiel said while walking toward the cave.

Yorath and Genya exchanged glances before following behind Jadiel. They wouldn't know what to tell Behemoth Palace if something were to happen to Jadiel. Not only would that cost them the collaboration, but Behemoth Palace would also turn against them.

Upon entering the cave, they saw that it was pitch-black. On top of that, there was also a terrifying aura inside that sent shivers down their spines.

As they went deeper into the cave, they started seeing a light source in front of them. The light grew increasingly brighter until they could barely open their eyes.

After taking a moment to adapt to the light, they realized they were standing before a nascence beast the size of a small mountain. The fact that it was glowing brightly made it obvious that they were up against a nascence beast made out of metal nascence.

Yorath and Genya were both shocked when they saw the nascence beast. Jadiel, on the other hand, showed no fear whatsoever. His face was filled with excitement as he said, "This is great! I should be able to comprehend metal nascence after killing this huge nascence beast!"

Jadiel was so caught up on mastering nascence that he didn't care how powerful that nascence beast was.

He was about to start attacking when Yorath grabbed him by the arm and said worriedly, "I don't think we should attack this nascence beast, Mr. Jadiel. It looks really terrifying. We might not be able to leave this cave alive if we anger it."

Jadiel shot Yorath a disdainful glare and shouted, "Let go of me! You cowards can go wait outside if you're that scared! I'll handle this nascence beast myself!"

Those words had barely left his mouth when the ground shook beneath them. The huge nascence beast moved slightly and stared right at the three of them. They were completely frozen as they locked eyes with the nascence beast.

Roar!

It wasn't until the nascence beast roared that the three of them snapped out of it and quickly backed away.

The nascence beast then got up and started making its way toward them. To their surprise, there were countless tiny nascence beasts underneath that gigantic one. Soon, a sea of nascence beasts were charging toward them.

The trio quickly turned around and started running toward the cave's entrance.

Kai, who was busy slaying the nascence beasts and absorbing the nascence aura, suddenly paused in his tracks and frowned slightly when he picked up on the commotion. "What's that commotion?"

Miya tried focusing, but she didn't sense anything. "What commotion? I don't feel anything!"

"Oh, there's definitely something. In fact, it's a huge commotion!" Kai replied as he started releasing his spiritual sense.

As soon as he did that, a powerful wave of nascence aura came surging toward them like a tidal wave. Having been caught completely off guard, Kai and Miya were sent flying by the impact.

"That's such a powerful aura!" Miya exclaimed in shock.

"This is nascence aura, so there must be a powerful nascence beast up ahead. Let's go check it out!" Kai said as he started running forward.

He had barely taken two steps forward when the ground shook beneath him, and a deafening roar echoed through the skies. As the ground continued to

shake even more violently, the two saw a sea of nascence beasts rapidly approaching from afar.

Miya's pupils constricted the moment she glanced at the nascence beasts. "Why are there so many nascence beasts? Look at the size of that glowing one in the lead! It's ridiculously big!"

Chapter 3263 Run

Kai had spotted that gigantic nascence beast long ago. He knew it was the source of that terrifying nascence aura.

One ridiculously large nascence beast and countless smaller ones... Given our strength, there's no way we can kill them all!

"Help! Save us!"

Yorath and the others had fear and panic written all over their faces as they ran forward while dodging the nascence beasts' attacks.

"What should we do, Kai?"

Miya began to panic when she saw what they were up against. "Run, silly! What else can we possibly do?" Kai yelled as he grabbed Miya's arm and started running out of the valley.

All across the ancestral land, the ground shook with each step the gigantic nascence beast took. Ozrell, who was inside the main hall, slowly opened his eyes. He, too, had noticed the commotion inside the ancestral land.

"Why did those people have to mess with that gigantic nascence beast? That's a surefire way to get themselves killed!" Ozrell muttered under his breath before closing his eyes again.

Kai was dragging Miya along as he ran in the front while Yorath and the others desperately tried to catch up and outrun the nascence beasts behind them.

"What happened? What is this commotion?"

Livya and Cloud were looking for some divine weapons at a nearby mountain when she felt the ground shaking.

“What’s going on, Livya? Could there be a gigantic monster in this ancestral land? I think I heard a monstrous roar!” Cloud asked.

“I’m not sure either. Even if there is one, it should be a nascence beast. They shouldn’t be able to cause such a huge commotion, though. Let’s go check it out...” Livya said as she led Cloud toward the valley.

The other disciples of the Seizon family, too, rushed over to see what was going on. They thought some sort of magical item had appeared within the ancestral land.

Soon, dozens of the Seizon family’s disciples had gathered around the valley’s entrance. However, none of them dared go inside to have a look. Right as everyone was trying to guess what was happening, two figures came dashing out of the valley.

They were none other than Kai and Miya, who looked rather disheveled as they ran for their lives. Cloud was surprised to see them. “Miya? Mr. Chance? What are you two doing here?”

He did not expect Kai to enter the Seizon family’s ancestral land with Miya. Livya was just as surprised. “I didn’t know you were in the ancestral land, Miya! Cade told me to go look for you! I’ve been searching for you all day!”

“Let’s talk later! Right now, we need to get out of here! It’s too dangerous here!” Miya said as she grabbed Livya’s arm and carried on running.

Kai, too, told Cloud to get away from the valley’s entrance. None of them were capable of stopping those nascence beasts if they were to come out of the valley. As the ground shook even more violently than before, Yorath and the others came running out as well.

Although the nascence beasts continued roaring at them from behind, none of them dared leave the valley, including the gigantic nascence beast.

Kai found it a little strange when he saw that. “Why won’t those nascence beasts leave the valley?”

Miya shook her head. “I’m not sure, but I do know for a fact that they only exist within the valley. You won’t find them anywhere else.”

Kai glanced about when he heard that. There is nascence aura in all these other places as well, so why are these nascence beasts only found here?

Chapter 3264 Working With The Enemy

Kai figured there must be something special about the valley. That was the only explanation he could think of for this strange scenario.

If these nascence beasts can't leave the valley, then there must be something in there that allows the nascence aura to turn into nascence beasts. They'll probably turn back into nascence aura if they leave the valley!

Of course, that was just a theory Kai came up with. He had yet to confirm it at the moment. Seeing as they were no longer in danger, Kai and the others made their way back to the entrance of the valley.

Everyone from the Seizon family had looks of terror on their faces as they stared at the gigantic nascence beast. Thank goodness that nascence beast can't leave the valley! Otherwise, we'd all be dead!

"F*ck! Good thing we made it out of there in time! Otherwise, we would surely have died in that valley! Seriously, what is wrong with the Seizon family? Why do you guys have such a gigantic nascence beast in your ancestral land?" Jadiel exclaimed while wiping the sweat off his forehead.

Yorath and Genya simply exchanged glances without saying anything. Little did Jadiel know, they had been cursing at him in their heads countless times over.

He was the one who insisted on entering the cave and angering that gigantic nascence beast! How dare he complain after nearly getting us all killed?

As if to challenge those staring at it, the gigantic nascence beast let out a deafening roar in response.

"Can you imagine the amount of nascence aura we can get by killing that gigantic nascence beast?"

Kai got all excited as he stared the gigantic nascence beast down. Unfortunately, he wasn't sure if he could kill that monstrosity with his current capability.

Had there not been all those other smaller nascence beasts around, he would definitely have given it a try.

Going in there with that sea of nascence beasts around is suicidal! It'd be great if someone could help lure them away, but who in their right mind would risk their life to do that? I know the members of the Seizon family won't do it. They haven't activated their nascence space, so they wouldn't benefit by going in there anyway. If anything, it could even put their lives in danger. Miya, Livya, and Cloud could get the job done, but I'm worried about their safety. Hmm...

With that in mind, Kai shifted his gaze toward Yorath and the others.

Since they entered the valley and killed nascence beasts in there, someone among them must've activated their nascence space and mastered some form of nascence! I could try working with them, but I did break Jonah's arm, so I'm not sure if that guy from Behemoth Palace would be willing to work with me... Judging by the look in that guy's eyes, I'm assuming he wants to kill that gigantic nascence beast as well.

Kai then told Miya and the others about his idea, only to have them object to it immediately.

"No way! Yorath and Genya can't be trusted at all! If we work with them, we might end up dead at their hands before we even get to kill that gigantic nascence beast!" Miya exclaimed.

"Exactly! None of them are good people! Working with them is simply suicidal!" Livya said, objecting to his plan as well. There's no way they'd want to work with us!

"Actually, it is possible for us to work with them. It's the only way we'll get to kill that gigantic nascence beast. Since I have no grudges with them, I'll go talk to them about this. Besides, they want to curry favor with me, so they might just agree to work with us!" Cloud said after giving it some thought.

Huh? Yorath and Genya want to curry favor with Cloud? In that case, they might just agree to work with us! With that in mind, Kai said, "Go talk to them, Cloud. Tell them they'll get to name their terms if they agree to work with us."

Chapter 3265 Agreement

“All right!” Cloud nodded and walked up to Yorath and Genya.

“Yorath! Genya!” Cloud called out to them. “What is it, Cloud?” Yorath asked happily when he saw Cloud voluntarily approaching them.

“I saw that you two entered the valley as well. Did you activate your nascence space? Or did you master a nascence?” Cloud asked.

“No, we just followed Mr. Jadiel in there. He’s activated his nascence space and wishes to master nascence quickly by killing nascence beasts,” Yorath replied honestly.

Cloud glanced at Jadiel as he said, “There are tons of nascence beasts gathered at the entrance of the valley right now, Yorath. There’s also a gigantic one there with them. I’m afraid you guys won’t be able to get in there anymore. How about we gather in one spot and work together to kill that gigantic nascence beast? I’m sure it’ll help with mastering nascence!”

“How shall we work together?” Yorath asked in confusion.

“We team up and lure the smaller nascence beasts away from the entrance. Then, Mr. Chance will step in and kill the gigantic nascence beast. Just so you know, he has already mastered a few types of nascences. He may only be an Eighth Level Body Fusion Realm cultivator, but his power can easily crush even Tribulator cultivators. I believe he’ll be able to kill that gigantic nascence beast with ease,” Cloud replied.

Yorath simply glanced at Jadiel in response. After all, Jadiel was the one who called the shots here.

Of course, Jadiel had heard Cloud’s suggestion as well. He, too, wanted to kill that gigantic nascence beast, but he wasn’t powerful enough to do so. If we team up now, we might just be able to kill that gigantic nascence beast!

“What do you think of his suggestion, Mr. Jadiel?” Yorath asked cautiously.

“I think it’s a good idea. The grudges between us can wait until after we kill that gigantic nascence beast,” Jadiel replied with a nod.

If we really are able to kill this gigantic nascence beast, then I will surely be able to comprehend metal nascence!

“Since Mr. Jadiel has agreed, we can proceed to work together, Cloud!” Yorath said. Cloud nodded and went back to tell Kai about their response.

Seeing as they had agreed to work together, Kai approached them with the others. There was an awkward tension in the air as Miya and Livya ignored Yorath and Genya completely.

Jadiel shot Kai a glance and said, “You can kill that gigantic nascence beast, but you have to do so with me. As for the smaller nascence beasts, we can have the others help lure them away.”

“Sure thing!” Kai agreed to it without any hesitation. He wasn’t afraid of Jadiel stealing his kill and absorbing a portion of the metal nascence.

After all, Kai’s nascence space could expand infinitely in size, so he would be able to absorb more of it anyway. Jadiel was a little surprised when he saw how quickly Kai agreed with his suggestion. I wasn’t expecting him to agree so readily, but none of that matters now!

Kai and Jadiel took some time to prepare themselves before entering the valley. The moment they set foot inside the valley, the huge nascence beast roared and swung its claws at them.

“Do it!” Kai shouted as he manifested Dragonslayer Sword in his hand. Jadiel, too, summoned two huge stone hammers in his hands.

Just like that, they attacked the gigantic nascence beast from both sides.
