

[The Man's Decree] A Man Like None Other

A Man Like None Other Chapter 3836-Chen Ping slowly picked up the scroll and looked at it carefully. Even the courtyard where Chen Ping was located was clearly painted on it!

However, when Chen Ping picked up the scroll and admired it, he found that the scroll was illuminated by light, and there seemed to be something faintly behind the painting!

Can see a shadow, but not the reality!

“Is this scroll a picture-within-a-picture?”

Chen Ping frowned slightly!

The so-called painting within a painting is to hide one painting within another painting. Only through special light or when soaked with potion can the hidden painting be seen!

“Did you find anything else in this painting?”

Chen Ping picked up the scroll and asked Binglu and others!

Binglu and the others all shook their heads.

“Mr. Chen, isn't this the painting of Wuji Shengzong? There are other paintings. I didn't see it!”

Binglu said!

Chen Ping was very puzzled. He held up the scroll again and looked carefully through the light. He could indeed see a very blurry figure under the sect's painting!

Chen Ping tried to open the Tianming Eye, because the Tianming Eye can abandon all obstacles and see through the essence!

When the Dark Eye opened that day, Chen Ping found that the painting was slowly changing. The magnificent sect just disappeared, and the blurry figure became clearer and clearer!

I saw a man wearing a black robe, a black crown, and holding a skull scepter in his hand!

This person's eyes were black, and he had an aura of evil cultivators. Just one look at him made him feel as if he had fallen into a bottomless abyss!

And around this person, there were extremely ferocious-looking, grinning ghosts surrounding him!

On this man's black robe, a ghost face-shaped pattern seems to be emitting light. It is this light that attracts the surrounding ghosts!

Chen Ping was very curious as to who the person in this painting was!

And it looks like he must be a demon cultivator!

But why is there a portrait of a demon cultivator hidden in the scroll of the Wuji Holy Sect?

Isn't this too strange?

Just when Chen Ping was fascinated, the person in the painting seemed to be alive, with his deep and dark eyes emitting a breathtaking light!

At the same time, the fierce ghosts around him all rushed towards Chen Ping with their teeth and claws bared.

This shocked Chen Ping. He never expected that the ghost in the painting would actually be alive.

“ah.....”

Chen Ping was caught off guard and screamed!

At the same time, Daluo Jindian in Chen Ping’s sea of consciousness instantly emitted a dazzling golden light!

“Mr. Chen, what’s wrong with you?”

Binglu and Lan Yingying hurried forward and asked!

Chen Ping finally came to his senses and found that he was still holding a scroll in his hand, and it still had the painting of Wuji Holy Sect on it!

You can’t see the portrait of the demon cultivator at all, let alone the fierce ghost!

“Have you noticed any evil spirits appearing?”

Chen Ping asked with lingering fear!

“No, just now you were holding this painting and standing there blankly, as if you had lost your soul.”

Binglu shook her head and said!

“Strange, was it just a hallucination?”

Chen Ping broke out in cold sweat on his forehead!

But the feeling just now was too real and extremely terrifying, especially the light emanating from the eyes in the portrait of the demon cultivator, which made Chen Ping feel as if he had fallen into hell!

“That’s not an illusion. Just now, a golden light flashed across your sea of consciousness, almost killing me.”

Demon Lord Chiyun said tremblingly!

Only then did Chen Ping remember that the Daluo Jindian in his consciousness just now suddenly burst out with golden light!

Even Chen Ping himself didn't know what was going on!

“Senior, do you know the person on the scroll just now? He seems to be a demon cultivator as well.”

Chen Ping asked Demon Lord Chiyun!

Since he saw it just now, Demon Lord Chiyun must also be able to see it.

Demon Lord Chiyun shook his head: “I don't know him, or I just can't remember him.”

“However, this person was obviously suppressed by the Wuji Holy Sect in the scroll, and the picture of the sect painted on it was used for suppression!”

A Man Like None Other Chapter 3837-When Chen Ping listened to Demon Lord Chiyun's words, he looked even more confused and puzzled!

If this scroll is a suppressive object, how come there is no spiritual energy fluctuation at all?

And how could this scroll of suppressing demons appear in a very ordinary disciple's courtyard?

This is unreasonable. Normally, this should be placed in the most strict room in the entire sect!

Although Chen Ping didn't speak, Demon Lord Chiyun also knew Chen Ping's question!

“I guess the reason why this scroll doesn't have any spiritual energy fluctuations is to prevent anyone from detecting it. There must be someone who wants to save the person suppressed by this scroll.”

“That’s why Wuji Holy Sect made this scroll so that there is no spiritual energy fluctuation at all. It is difficult for people to find that such a scroll with no spiritual energy fluctuation will be a suppressive thing.”

“It is also placed in an ordinary disciple’s room, probably to confuse the other party. The other party will definitely not think that such an important thing would be stored in an ordinary disciple’s room.”

“Perhaps, the destruction of the Wuji Holy Sect is related to the man on the scroll...”

Demon Lord Chiyun was analyzing, but he didn’t know the specific situation, it was just a guess!

“Who are the people suppressed by this scroll? It makes such a large sect very nervous!”

Chen Ping was very puzzled, but he didn’t know the person in the scroll, so he put the scroll away temporarily!

At this time, Ouyang Zhenhua and others also followed, and before Chen Ping could speak, they started searching!

Since Chen Ping had taken a look first, they thought it was safe!

If there is any good stuff, Chen Ping can get it first. It’s good for them to just pick up some fallen melons. After all, without Chen Ping, they can’t even get in!

Chen Ping continued to explore other courtyards. Although he didn’t get many things from the first two courtyards, they did have formation disks and painting scrolls. Although Chen Ping couldn’t use them now, it didn’t mean that he wouldn’t be able to use them in the future!

Chen Ping led Binglu and the others all the way deeper into the sect. The deeper they went into the sect, the more shocking the ruins became, and the more serious the damage became. There was almost no complete house in sight!

But what makes Chen Ping a little strange is that when he went deep into the sect's territory, he didn't see a single body!

Even if the corpse decays after many years, the bones of Xuese should still be able to remain!

But you can't even see the bones!

This is very strange.

The once prosperous Dazong is now in dilapidated condition!

The main hall of Wuji Holy Sect also collapsed suddenly, and in the position of the main hall, there was a deep pit with a radius of several miles, as if it was hit hard by something!

This was also the place where the battle was fiercest, because even the ruins were gone and turned into ashes!

"Don't follow me anymore, just wait here while I go take a look into the pit."

Chen Ping really wanted to know what kind of thing could smash the Wuji Holy Sect's main hall into a deep pit in one fell swoop!

Binglu nodded. They knew that following Chen Ping to explore unknown areas would not only not help Chen Ping, but would actually cause him trouble!

Chen Ping carefully walked into the pit!

But as soon as he walked in, Chen Ping felt waves of cold air!

Although the Wuji Holy Sect is in the chaotic land in the southern polar region and the northern ice field, it is not cold at all. This chaotic land seems not to be affected by the southern and northern regions!

But when Chen Ping walked into the deep pit, he felt a cold breath!

As Chen Ping continued to go deeper into the pit, he finally had to use the ultimate fire in his body to resist the cold!

“It’s really strange. Why is it so cold here?”

Chen Ping was very puzzled!

Soon, Chen Ping came to the bottom of the pit. The bottom was full of the remains of the hall, and Chen Ping searched carefully!

A Man Like None Other Chapter 3838-But after searching, nothing was found, but the chill was getting stronger and stronger!

Chen Ping had no choice but to use the Tianming Eye again. With the help of the Tianming Eye, Chen Ping discovered that at the bottom of the pit, there was a white flame aura emerging from the ground!

And the reason why the temperature in this big pit is low is also because of this white flame aura!

Chen Ping stabbed the ground hard with his dragon-slaying sword!

Suddenly, an even greater aura of white flames spurted out, directly blowing the surrounding soil and building debris to all directions!

At this time, a milky white stone appeared, and it was the size of a head!

“It’s such a big piece of pole stone. Is this deep pit caused by this pole stone?”

Chen Ping looked at the Jishi in front of him and felt very shocked!

No wonder it’s so cold in this deep pit. It turns out there is such a large piece of pole stone!

Chen Ping reached out to grab the pole stone and wanted to pick it up!

But when his hand just touched the pole stone, his whole arm froze at an unexpected speed!

White frost soon covered Chen Ping's arms!

This time, Chen Ping panicked and tried to break free, but found that he couldn't move his arms!

Chen Ping quickly used the source of the fire, causing his entire arm to be wrapped in flames!

Under the intense fire, Chen Ping's arm thawed and then broke free!

Chen Ping looked at the Jishi in front of him and was very shocked in his heart!

This pole stone is too evil. Even though it is large, the ice-cold energy is too powerful!

Chen Ping has picked up so many polar stones in the polar regions, but nothing like this has ever happened!

Even though the stone is cold, it won't freeze people as soon as it touches it, right?

"Do you see what's inside that stone?"

At this time, Demon Lord Chiyun spoke!

Chen Ping then took a closer look, and sure enough, he found a flame still beating inside the pole stone!

"this....."

Chen Ping was stunned.

This pole stone is an icy object and can provide training for those who practice ice-based techniques.

How could there be flames inside?

You must know that there is no room for ice and fire!

Looking at the Jishi in front of him, Chen Ping was completely confused. This had already touched his knowledge blind spot!

He has never seen anything like this!

“I remember, this should be the legendary extremely cold ice flame, right?”

Demon Lord Chiyun said suddenly!

“Extremely cold ice flames?” Chen Ping was stunned!

“This extremely cold ice flame is actually a kind of ultimate fire. However, it is said that this extremely cold ice flame was born in the coldest place in the heaven. I don’t know how it can appear here?”

“Could it be that the destruction of the Wuji Holy Sect is related to the extremely cold ice flames?”

Demon Lord Chiyun said!

“A type of extreme fire?” Chen Ping was even more confused: “Then will this extremely cold ice flame burn people to death, or freeze them to death?”

“Of course he froze to death. Have you ever heard that when things go to extremes they will turn in reverse?”

Demon Lord Chiyun asked!

“Of course I’ve heard of it.” Chen Ping nodded!

“When the temperature of the ultimate fire reaches a critical value, the opposite temperature will form. That is, the higher the temperature, the heavier the ice and cold air of the ultimate fire.”

“This extremely cold ice flame is probably colder than any other cold thing.”

Demon Lord Chiyun explained!

Chen Ping still didn't quite understand it when he heard it, but he knew that this extremely cold ice flame was the coldest thing. No wonder his arm froze instantly when he touched it.

Seeing that Chen Ping seemed to understand, Demon Lord Chiyun continued to explain: "When the speed of an object reaches the fastest speed and reaches a critical value, then it will appear to be slow. In the eyes of everyone, its speed will be very fast. slow."

"Similarly, in the eyes of that object, everything is slow, including the flow of time and the distance in space."

"I tell you so much, you can't digest it. You just need to remember that this extremely cold ice flame is the coldest."

Chen Ping nodded, he seemed to understand a little bit!

Now Chen Ping suddenly felt that placing Demon Lord Chiyun in his sea of consciousness was really a wise choice!

A Man Like None Other Chapter 3839-Chen Ping didn't want Demon Lord Chiyun to return to his physical body. He wanted to stay in his own sea of consciousness and be his own think tank. It was good!

"Boy, don't give me any ideas. I won't stay in your sea of consciousness forever. If you dare to trap me, I will fight to the death and explode your sea of consciousness."

Demon Lord Chiyun threatened Chen Ping!

In fact, Demon Lord Chiyun is just a threat. If he could explode Chen Ping's sea of consciousness, he wouldn't have to live with Chen Ping and would have controlled Chen Ping long ago!

Daluo Jindian in Chen Ping's consciousness scared him half to death when a golden light appeared. He also wanted to explode Chen Ping's consciousness. Isn't it a joke!

“Senior, I’m just thinking about it, don’t be nervous.”

Chen Ping said with a smile!

“You kid, I never thought that you would be trapped by a little kid who has transcended the tribulation realm.”

“This extreme cold ice flame is also a type of ultimate fire. You should be able to absorb it. If you absorb and refine it, then you will have three types of ultimate fire.”

Demon Lord Chiyun said to Chen Ping!

“How...how do I refine it? This touch froze me.”

Chen Ping was speechless!

“Don’t be afraid. You have the Ultimate Fire Essence. It can freeze you to death. If that doesn’t work, I can use the Ultimate Fire Essence to absorb the extremely cold ice flames. But that would be a pity.”

Demon Lord Chiyun said!

Chen Ping nodded after hearing this, then took the dragon-slaying sword and slashed hard at the pole stone in front of him!

He needs to release the extremely cold ice flame first so that it can be refined better!

boom!

With a loud noise, the extreme stone shattered instantly, and the extremely cold ice flame jumped into the air!

This extremely cold ice flame seemed to have life. After breaking away from the extreme stone, it quickly tried to escape!

Chen Ping jumped up and caught the extremely cold ice flame in the palm of his hand!

The extremely cold ice flames struggled, and the cold air instantly enveloped Chen Ping!

Seeing this, Chen Ping quickly mobilized the ultimate fire source in his body. At this moment, Chen Ping's body was surrounded by flames, but even so, his body was quickly forming frost, almost turning into an iceman!

Chen Ping gritted his teeth, the original stars in his body kept flashing, and huge suction forces were sucking the extremely cold ice flame into his body!

Jihan Bingyan was struggling hard, as if he didn't want to be refined by Chen Ping at all!

While Chen Ping was absorbing the extremely cold ice flame, his fire spirit was already ready!

If once the extremely cold ice flame enters the body, he cannot absorb and refine it, then he can only swallow the fire essence to absorb it, otherwise Chen Ping is afraid that he will turn into an ice sculpture, and he will never be able to untie it!

The moment the extremely cold ice flames entered Chen Ping's body, the icy air began to spread crazily inside Chen Ping's body, seeming to freeze Chen Ping's entire body!

Chen Ping's earth core fire and the demonic fire are also swimming in his body, wrapped in the extremely cold ice flame!

The three ultimate fires began to chase and fight in Chen Ping's body. If Chen Ping's physical body was not strong enough, he would have been swallowed up by now!

At this moment, Chen Ping's body was covered with frost and he stood blankly at the bottom of the pit.

Chen Ping looked motionless, but a fierce battle had already broken out inside him!

Binglu and others were shocked when they saw that Chen Ping was frozen!

Just when they wanted to enter the pit to rescue Chen Ping, they found that the cold air in the pit was overwhelming. Even the ice-based skills they practiced were unable to withstand the cold air!

Binglu and the others could only watch anxiously and helplessly from the top of the pit!

Just when Chen Ping was taming and refining the extremely cold ice flame, Mu Nayi had already led Mu Yao and others into the Wuji Holy Sect.

“Miss, this... this is too big. I didn’t expect that there is such a large amount hidden in this mountain peak.”

Mu Yao looked at the Wuji Holy Sect in front of him and was stunned!

“This is not in the mountains, this is in the land of chaos. Haven’t you seen the constant flow of time and space in the sky above the sect?”

Mu Nayi looked up at the Wuji Holy Sect, his eyes filled with shock!

A Man Like None Other Chapter 3840-“Miss, it seems that those guys from Chen Ping are here too. We have been left behind.”

“We’d better get down quickly. There must be a lot of treasures in such a large sect.”

Mu Yao couldn’t wait any longer!

Mu Nayi nodded and said: “Go down, but be careful. With such a large sect hidden here, there must be many traps inside.”

After Mu Nayi warned him, he jumped down first!

Entering the majestic Wuji Holy Sect, the Mu family was also shocked.

Looking at the complete courtyard, Mu Yao also took it in to search!

It's a pity that these courtyards have been searched, and nothing good has been found!

"Miss, these yards have obviously been tampered with. It's probably that all the good stuff inside has been taken away. I think we should speed up and get in front of these people."

Mu Yao said.

Mu Naiyi nodded and then quickened his pace.

Soon, Mu Naiyi and others met Ouyang Zhenhua and others. The two parties only met each other and did not communicate. Mu Naiyi led the people to go deeper.

"Sister Binglu, the Mu family, the Mu family are here."

At this time, a saintess said to Binglu in a panic.

At this moment, people from the Mu family are rushing over, but Chen Ping is still frozen at the bottom of the pit.

If someone from the Mu family discovers it, it will be a big trouble.

"What should I do?"

Binglu also panicked.

They are no match for the Mu family. If Chen Ping is discovered by them then, Chen Ping will also be in danger.

Just when Binglu was at a loss, Lan Yingying said: "Let's bury Mr. Chen first so that the Mu family won't find him."

"After the Mu family leaves, we will think of ways to save Mr. Chen."

Binglu nodded after hearing this. This is the only way now.

So a few people joined forces, and blasts of icy air hit the edge of the pit. The soil fell one after another, and Chen Ping was soon buried.

Seeing that Chen Ping was buried, Binglu and others hurriedly left, looking for a ruins to hide.

Just as Binglu and others left, Mu Naiyi brought people over. Looking at the deep pit in front of him, his eyes were full of surprise.

“It seems that this sect has suffered a big blow. I hope that some intact treasures can be left behind.”

After only stopping for a moment, Mu Naiyi led the Mu family around the pit and continued walking deeper into the sect.

Only after seeing the Mu family leaving did Binglu and the others dare to come out!

“What should I do?”

Looking at Chen Ping being buried, several people were embarrassed again!

The cold in this deep pit is so strong that they can't stand it at all!

At this time, Chen Ping is still trying his best to subdue the extremely cold ice flame. As long as he refines this extremely cold ice flame, Chen Ping will have three ultimate fires!

With Chen Ping's continuous efforts, the extremely cold ice flame finally became weaker and weaker under the pursuit of the two extreme fires.

In the end, Chen Ping's original star flickered, directly absorbing the extremely cold ice flames!

After refining the extremely cold ice flame, the temperature in the pit instantly increased and it was no longer so cold.

Just when Binglu and others were at a loss, Chen Ping broke out of the ground, jumped up, and landed on the ground!

“Mr. Chen, are you okay?”

Seeing Chen Ping coming up, several people ran over quickly!

“It’s okay, I just found a piece of stone.”

Chen Ping turned over and took out the large piece of pole stone!

Although it was broken by Chen Ping’s sword, this pole stone was much larger than other pole stones!

What’s more, this extreme stone was once wrapped in extremely cold ice flames, so it was even more helpful for Binglu and the others’ cultivation!

“What a big pole stone.”

Binglu’s face was full of excitement and she put the pole stone away!

“Haven’t Mr. Ouyang’s family caught up with them yet?”

Chen Ping looked around and asked!

“Not yet, but people from the Mu family are here.”

Binglu said!

“What? The Mu family also found this place?”

Chen Ping couldn’t help but frown.
