

THE MAN'S DECREE

[The Man Decree] A Man Like None Other

[The Man Decree] A Man Like None Other Chapter 4006—“Yu Jin, you old man, do you think you can just call Master Huo by his name? You are committing treason. What’s wrong with the Master opening the Divine Mountain Fire?”

Elder Tian said coldly!

“Bullshit, he is just the acting leader. The old leader is still alive and well. He just lets Huo Yuanting act as the acting leader. He really thinks he is an important person.”

“Get out of my way right now, or don’t blame us for being rude...”

Elder Yu said angrily!

“Haha, so what if you’re rude? Do you dare to enter the Godly Volcano with just your people?”

“And I tell you, once Sect Master Huo gets the Divine Fire Seal, he will be the true Sect Master. When that happens, all of you will end up in trouble.”

“If you can turn back now and stand on the side of Master Huo, I can speak well of you when Master Huo gets the Divine Fire Seal.”

Elder Tian laughed!

“Fuck you, stop trying to drive a wedge between us. I’m telling you, the old sect master has already recovered and is now taking a rest. When he’s well, he’ll be the first to kill you all.”

Elder Yu was afraid that some people might be weak-willed, so he told them about the old sect leader’s recovery!

Elder Tian frowned when he heard this, but then he smiled coldly and said, “You don’t have to lie to us. The old master is controlled by the devil spirit. It is impossible for him to recover unless the devil spirit is eliminated.”

“Tian Jing, how do you know that the old master is controlled by the evil spirit? Could it be that you have planted this evil spirit for the old master?”

Elder Yu narrowed his eyes and looked at Elder Tian coldly!

They have always suspected that Huo Yuanting was the one who harmed the old master!

But there has been no evidence so far, and now Elder Tian's words have exposed it!

After all, no one knows why the old sect master suddenly became crazy!

Now that Elder Tian actually knows about it, it means they must have done it!

Elder Tian was also a little panicked when he heard this. He shook his head and said, "Don't spit blood at me. I'm just guessing. If you want to fight, I'll accompany you."

A terrifying aura suddenly burst out from Elder Tian!

Elder Yu was not to be outdone and also released all his aura!

"Get started..."

Zhu Ling looked at the Divine Fire Mountain not far away and suddenly spoke!

She knew that if she hesitated any longer, Huo Yuanting would really enter the Divine Fire Mountain. If Huo Yuanting took the Divine Fire Seal and recognized him as his master, then everything would be too late!

Elder Yu immediately started fighting with Elder Tian.

The two men leaped up and soared into the sky. Every time they attacked, the void shook and the sound was like thunder!

The entire sky lost its original color during the fight between the two!

While Elder Yu and Elder Tian were fighting, the two groups of people instantly engaged in a melee!

However, Chen Ping did not move, and Zhu Ling did not do anything either!

They all have a common goal, which is to rush through here and head to the Shenhua Mountain!

"Everyone, use the formation to defend the sect. Don't let them disturb the sect master from going to the God Mountain Fire."

Elder Tian shouted loudly while fighting with Elder Yu!

After hearing this, the people from Huo Yuanting's lineage all retreated. Then a white light flashed and the formation was activated!

This formation was originally used to protect the formation plate, but now it is used to stop Chen Ping and others!

After the formation was activated, the people from the old master's lineage suddenly felt overwhelmed!

After all, none of them could break the formation. If they tried to break it by force, it would take time. By then, Huo Yuanting might have already obtained the Divine Fire Seal!

“Everyone, get out of the way...”

Zhu Ling asked everyone to move aside and then took out the formation plate!

This formation was set up by Elder Cui, so the formation plate that Elder Cui gave her can definitely break it!

I saw the runes on the array plate flashing, and a gap that seemed to be there and not there slowly appeared in the array in front of me!
