

Read Novel Married At First Sight Chapter 2003

Married at First Sight Chapter 2003-Being looked at by her like this, Zachary whispered in her ear: "Seren, don't look at me like this, I can't help but want to kiss you."

"Uncle, what are you whispering to my aunt?" Sonny which was ignored by the two adults, asked curiously.

Serenity gave Zachary a little push, Zachary stood up straight, looked down at Sonny, touched his head helplessly, and said to him: "Sonny, you are really a light bulb."

Sonny: "Uncle, my name is Sonny, not a light bulb!"

Serenity smiled and picked up her nephew, and had to go to Zachary's car, laughing as she walked: "Yes, yes, Sonny is not a light bulb, Your uncle is teasing you."

Sonny: "Auntie, why does uncle always say that I am a light bulb? Light bulbs can emit light, but I can't, so uncle is talking nonsense."

Zachary helped Serenity open the car door like a gentleman, and said with a smile: "That's right, that's right, Uncle is just talking nonsense. We, Sonny, are the most serious and don't talk nonsense."

"I'm a good boy." Sonny said seriously. So he didn't talk nonsense, he told the truth.

Zachary followed him into the car, and after putting down the bouquet, he carried Sonny from Serenity's arms, let Sonny sit on his lap, and asked warmly, "Sonny you're traveling with your aunt, was it fun?"

"It's fun, it's fun, I play very well with Titus, but Titus knows more than me, he said he is in kindergarten. Uncle, I also want to go to kindergarten, I have to learn a lot of knowledge, next time I see Titus, I can compare him to that."

Titus was better than Sonny in learning martial arts, stronger than him, ate more than him, and knew more than him. Sonny felt that he had lost to Titus, so he had to work hard.

Zachary: "Your kindergarten will start in two days, and Sonny, you will be able to go to kindergarten. I hope you won't cry and refuse to go to kindergarten."

Sonny said seriously: "I won't cry, Titus said he didn't cry. He said that the children in his class would cry, so he just watched others cry."

Zachary smiled and said, "Let's see you, and then we'll wait and see. You'll be fine if you really try not to cry."

Sonny asked Serenity: "Auntie, when can we go on a trip again? Titus said that he can only come back during the long vacation, and he usually learns martial arts with his master, and goes to kindergarten."

Serenity smiled and said, "You too, after you have a long vacation, your aunt will take you to play with Titus, study hard when you are studying, and play recklessly when you are having fun."

Sonny said, oh.

Sonny didn't know how long it would be until he had a long vacation. He thought he would meet Titus soon, and swore in his heart that after entering kindergarten, he would study hard and be better than Titus.

Titus said that he had to study medicine, and he had to learn a lot.

Sonny: "Auntie, what is studying medicine?"

"Studying medicine is to learn medical skills. In the future, he will treat diseases and save people. This is the job of saving lives and wounded."

"Titus said he wants to study medicine. Auntie, do I want to learn?"

"Sonny, you are still young, when you are older, if you like to study medicine, you will choose to study medicine in the future, and you can become a doctor in the future, treating diseases and saving lives. Sonny, you don't have to compare everything with Titus, you each have their own advantages, There is no comparison, and there is no need to compare."

Titus studied medicine because his masters were all genius doctors, and he was the successor of their masters. Naturally, he had been exposed to medicine since he was a child, and he was burdened with blood and blood. He was under great pressure. There was a lot to learn.

He not only had to inherit Lilian's medical skills, but also had to practice martial arts. When he grew up, he had to learn business management. His native family also had many family businesses, but now they were all occupied by enemies.

If Titus was not good enough, it would be very difficult for him to regain everything that belonged to him, and it would be even more difficult for him to bring his enemies to justice.

His way of revenge, the elders all hope that he would take his time, collect evidence, and use the law to send the enemy in, that is, to avenge his parents and family.

He didn't want him to respond with violence because that would leave blood on his hands and ruin the rest of his life.
