**Married at First Sight Chapter 2108**-Julian left the Stone family villa.

Clive stood at the door of his house, watching Julian go away gracefully, after a long time, he turned back to the house.

.....

After Liberty invited Duncan to dinner, the two chatted for a long time before she left the hotel with Sonny and went to Wildridge Manor.

On the way, Liberty received several calls.

It was the elders of the York family who called and asked her when she would send Sonny there. They really missed Sonny.

Liberty replied to everyone that she was on her way, so she blocked the calls of the elders to rush her away.

Duncan didn't want to affect everyone's good mood for the weekend because he was inconvenient to move, so he didn't go with her to Wildridge Manor.

He sat there for an hour before letting the bodyguards send him back to the Lewis family mansion.

Before entering the room, he heard laughter coming from the room, it was a long-lost laughter.

Ever since he had a car accident, his family has been lifeless. When encountering happy things, his family members avoided him and secretly had fun behind his back. He dared not reveal it, for fear of stimulating his sensitive heart.

Duncan felt that his family was too cautious.

He admitted that he once gave up on himself, and his temper became particularly bad, and he wanted to scold people when he caught him.

His parents didn't know how many times they cried because of his violent temper.

But after he was discharged from the hospital, he thought about it and regained his confidence in life.

He worked very hard to do rehabilitation, and he worked very hard to smile at life.

There was really no need for the family members to be afraid that their smiles would stimulate his sensitive nerves.

“Don’t go in for now.” At the door of the house, Duncan whispered to the bodyguard: “I’ll just sit here for a while, and go in later.”

He heard Lily’s voice and his mother’s laughter, It should be that Lily came and said some funny things to make his mother laugh.

After Duncan’s accident, Lily visited her several times. When he was in the hospital, when Duncan saw her, he would say that it was lucky she didn’t stalk him, and it was also lucky that the two of them were not together, otherwise Lily would have jumped into the fire pit up.

Because he became a cripple.

Lily comforted him, and he also scolded Lily for being hypocritical, saying that Lily might be very happy in her heart, and said that if he followed his mother’s arrangement and stayed with Lily, he would not have a car accident and become a useless person.

During that time, he even hurt Liberty, let alone Lily.

Thinking back, Duncan blushed.

Duncan never dreamed that he, who had always been bold, would turn into an unreasonable person one day.

He sat at the door for a long time before letting the bodyguards push him in.

Lily planned to leave.

She came to Wiltspoon because of work needs, so she came to see Mrs. Lewis and Duncan.

Although Duncan liked to talk nonsense and swear at people when he was going crazy, Lily didn’t care about him.

She could understand and experience Duncan’s despair.

Mrs. Lewis said just now: “If Duncan accepted you and stayed with you, such a thing would not happen. Oh, it’s fate!”
