Married At First Sight Chapter 3137-After Tatum was silent, he replied, "As a worker, I can't help myself. I may not be able to go home during the New Year this year."

Tania had a dark look on her face.

The good son she gave birth to left the young master alone and went to work as a laborer!

Tania complained to his son, "If you don't come back to celebrate the New Year, go to your grandma's house and tell her yourself. I don't know what you are thinking. The New Year is coming soon, and you are still traveling so far, and you don't know when you can come back."

In the words of Tatum, from now on he will be a laborer, and he will not be able to help himself. He can't just come back if he wants to.

"By the way, does Ormond's family only have one chef? If there are more people, you can take turns. During the New Year, you can take annual leave. Even workers have annual leave. If our workers want to go home during the New Year, they can do so in advance. I told Sam, and he will make arrangements.

It won't delay them from going home for the New Year at all. The New Year is a time for family reunions. It's only during the New Year that our whole family can be together, but you have to travel so far."

Tania felt bad when she thought that her youngest son, Tatum, was not at home during the New Year.

Tatum said, "Mom, I don't know if I can apply for the job yet. I'll wait until I actually apply. I can't tell if I can go back to celebrate the New Year."

Tania said, "If you can't pass the exam, come back right away and wait until the New Year before leaving."

“knew.”

Tatum didn't want Tania to be in a bad mood, so he would respond to whatever Tania said.

After finally coaxing Tania and ending the call, Tatum said to himself, “When my eldest brother and I were young, my parents often ran away, and sometimes I didn't see them for a year and a half. Now that they have retired, it is our turn to run around outside. They would rather have us stay at home with them every day.”

As parents get older, they look at things differently. The feelings towards children are also different.

It couldn't be said that their parents did not love them, but when their parents were young, they had to bear heavy burdens, and they liked to follow their grandma. Their parents could safely leave them with their grandparents, so they naturally spent a lot less time with them.

Tania over there, after finishing the call with Tatum, sat on the sofa and sighed.

Liam, who was reading the newspaper with his reading glasses on, heard his wife sighing and had to look up at her and ask funnyly, “The phone call has been made; why are you sighing? My son is just going on a long trip. This is the first time; do you need to think about it all day? When they were little, you didn't think about them so much.

Now that they are adults and have been beaten up by society for many years, they have gained a lot of life experience. What else do you have to worry about?”

Tania sighed. “The New Year will be here soon. Tatum has traveled a long way to work as a cook for others. According to him, he is now a worker. He doesn't even know if he will have annual leave during the New Year or whether he can come back to celebrate the New Year.

Liam folded the newspaper and said with a smile, “If he doesn't come back to celebrate the New Year, he won't come back. Just keep in mind that he can live happily there. Wait until next year; maybe he will come back with his girlfriend to celebrate the New Year.”
