

Married At First Sight

Married At First Sight Chapter 3246-Titus said, "Okay, okay, I'm already on winter vacation. As soon as the vacation comes, my master will bring me back."

The master was thinking about Fabian.

Before Titus came back, the master had to video chat with Fabian 800 times a day.

The master was so annoyed with the master that he simply gave Fabian to the master and took him back to the mountains to raise him. Anyway, the master had experience raising children.

The master was raised by his master, so he does have experience raising children.

However, Tim refused to let the master take away Fabian. Although Fabian was a crybaby and his crying often gave Tim a headache, Tim still loved Fabian very much and said that the place where he and the master lived was too cold. But Fabian was too young to bear such cold weather.

Also, the place where the master lived was almost isolated from the world. It was cold in spring, autumn,, and winter, and it was only warmer in the summer. It was still the season of heavy snowfall. The first thing Titus did when he woke up every day was that the master forced him to go out and clean the yard.

Fabian couldn't adapt to such a hard life of sweeping snow and practicing martial arts at the same time.

Titus felt that the life he was living now was too hard, and he couldn't bear to let Fabian live that kind of hard life.

He practiced martial arts every day and exercised a lot to withstand the cold.

It was not easy.

Titus felt that, among his peers, he was the one who suffered the most.

He envied Sonny.

Although Sonny's parents were separated, Sonny's aunt and uncle love him very much, and he grew up surrounded by love.

Titus knew that his adoptive parents and family also loved him very much. His masters and grandfathers, who were not masters but could also be regarded as masters, all loved him, but he no longer had a biological father or mother.

Despite his young age, due to his living environment and the fact that he was surrounded by legendary masters who taught him a lot, he knew that his real family had been wiped out, and he was the only one who was taken away by the nanny.

But the nanny also lost her life in order to save his.

When he was picked up by Jane, he couldn't even speak fluently.

Sonny said, "I miss your master too."

Sonny had been to FC Manor and met the old miracle doctor. He liked the somewhat willful old man very much.

Titus said with a smile, "My master said that he only thinks about me, Fabian, my younger brother. I will still think about you and my younger brothers and sisters. Then you go to eat hot pot. When you come, I will ask my mother to invite us to eat hot pot too."

Sonny: "Okay."

The two little guys made an appointment to have hot pot together in the future and then said goodbye to each other.

Titus returned the phone to Jane.

Jane smiled and asked him, "You made an appointment with Sonny."

Titus nodded.

Jane pulled him closer and helped him adjust his clothes. She felt that he had grown taller again and said, "I will take you to buy some new clothes tomorrow. These clothes of yours are a bit short."

Children grow taller quickly and need new clothes every year.

Especially Titus, he had to practice every day. When he practiced, he would get hungry easily, and his appetite would be better. The more he ate, the faster he would grow.

He was about the same age as Sonny, but he was almost a head taller than Sonny now.

Among the children of the same age, he was definitely the tallest.

"thanks Mom." Titus was very happy. "Mom, I also want to prepare a gift for Sonny. When you take me to buy clothes tomorrow, can you take me to buy a gift, by the way? I will pay for it myself. I have money."

His master gave him pocket money every month.

Those old men were always worried that he had no pocket money, so they gave him a lot of money once he came.

The master would not confiscate it from him and let him learn to manage his own private treasury.
