

## Chapter 9 So Impatient

Caroline used her hand to wipe that piece on Richard's pants, not noticing there was something wrong with this.

Her small hands brushed the man's thighs sometimes...

Then, Caroline suddenly sensed that the man was not quite right!

She realized that her action was somewhat out of the line, and the startled Caroline was ready to retract her hand when Richard's big hand directly caught her wrist.

"Caroline, it turns out that you..."

Caroline lifted her head to look at Richard's face with a seemingly wicked smile, "I didn't mean it!"

Richard snorted, "Since you want it, I have no choice but to satisfy you."

Then Richard pulled her wrist and Caroline fell directly into his arms, one hand on his solid chest.

Richard looked at the small hand tracing his chest, "And you say you didn't mean it?"

"I?!" Caroline now really didn't know what to say.

Richard stood up directly and lifted her up. Caroline struggled hard, and screamed, "You let me go! I didn't mean to turn you on! I am not that horny!"

"If you want everyone here to know that you and I are going to have sex, feel free to scream. I don't mind," Richard whispered like a demon.

Caroline immediately covered her mouth. Although she is not a conservative person, she did not want

everyone to know what was happening there!

Richard lowered his eyes to glance at the lovely woman in his arms and said, "You and I are a legal couple. Whatever we do is legal, and it is my duty to satisfy your needs."

"What do you mean by satisfying my needs?" Caroline wanted to curse. It was obvious that he had a reaction at first, but in fact, he accused her of being horny!

Richard smiled gently and asked, "What do you think?"

"I..."

Richard carried Caroline all the way out of the study, straight to the elevator. When they went into the elevator, Caroline asked, "Can you put me down?"

"Okay." Richard released her.

Caroline's feet had just stood on the ground when Richard directly attacked her lips, prying open her teeth, and his hot and wet tongue went straight into her mouth.

This completely caught her off guard!

Caroline couldn't move, her hands pushing him, so Richard simply clamped Caroline's two hands with one hand, and pinned them high above her head.

What surprised Caroline was that the man seemed to be able to detect her every move. Her leg was just about to kick him when his thigh had already controlled hers.

Now Caroline was like a lamb to the slaughter.

Richard licked at her lips and he was still smiling at her, "I'm waiting to see what you can do."

The elevator door opened at that moment.

"You just can't wait until we get into the bedroom. The elevator is not a good place," Richard said, picked Caroline up once again, and walked straight towards the bedroom.

It was so obvious that who was horny! Caroline thought in mind.

Caroline's brain is spinning fast. It was clear that in terms of physical strength, she was never a rival to the man, so she must think of another way.

Another elevator opened at this moment, and the butler John hurriedly ran over.

Just as Richard was about to carry Caroline into the bedroom, John came forward and said, "Mr. Preston, the person sent by Madam has arrived."

Richard's eyes slightly narrowed.
