

Martial Arts 831

Chapter 831: This Is Too Much!

Wang Teng: ?

No one could imagine how exasperated the sheep-head devil lord was at this moment. After the devil transformation, he grew two more heads and four arms. Yet, Wang Teng immediately copied him and turned into an eight arms rock giant.

It was hard to believe that he wasn't targeting him.

The sheep-head devil lord felt frustrated and furious. Was he planning to join the other martial warrior?

Come on!

Damn it, I will fight for my life!

The sheep-head devil lord wasn't the only one who thought that Wang Teng wanted to join in the battle. Even Kathu felt the same way. He frowned and said hurriedly, "Don't interfere. This is my prey."

Wang Teng: ?

This time, Wang Teng was confused.

He just wanted to see if his idea would work. Why did the alien martial warrior suddenly warn him against interfering?

Do I look like I'm a busybody?

Are you an idiot?

"What does that have to do with me? You can continue your fight." Wang Teng's irritated voice came from within the rock giant. He turned and looked away from Kathu.

Kathu: ...

The sheep-head devil lord: ...

Coincidentally, when Wang Teng turned, he faced Argus.

Argus was fighting with the giant devil lord. He frowned and said coldly, "Stop. Don't blame me for being impolite if you take another step forward."

None of these arrogant talents wanted Wang Teng to interfere in their fights. After all, this fellow had just killed a devil lord. They wouldn't have any chances if he joined in their battles.

Wang Teng was confused.

What's wrong with the minds of all these aliens? Do they think I am a busybody?

"Go away!" Argus got impatient when he saw Wang Teng standing at the same spot without moving.

"What the f**k!" Wang Teng's temper was ignited. His gaze turned sharp, and he yelled, "Who are you shouting at?"

“You!” Argus replied.

“Why must I listen to you? Who are you? I was not planning to interfere, but since you mentioned it, I will do just that.” Wang Teng scoffed. He controlled his rock body and dashed towards Argus and the giant devil lord.

Boom! Boom! Boom!

Loud explosions were heard as the enormous feet stomped on the ground. The land trembled under his might. It was terrifying.

“What did I do to deserve this?” The giant devil lord’s expression changed.

He felt extremely wronged. He had gained a formidable opponent without doing anything!

It’s all this golden-haired human’s fault. It has nothing to do with me! Don’t come and look for me!

Go away!

The giant devil lord ranted in his mind. He was so frustrated that he wanted to vomit blood.

Truthfully, Argus was powerful. The devil lord found it difficult to deal with him alone and was even at a disadvantage. If Wang Teng joined in, he would be in a dire state.

Argus’s face turned ugly. He realized that he had misunderstood Wang Teng.

Damn it, you should have said earlier if you don’t intend to interfere. Who should I blame for this huge misunderstanding?

“Hahaha!” Kathu gloated.

Fortunately, his attitude was not bad, so he didn’t provoke Wang Teng. If not, he would be the one feeling exasperated.

Boom!

Wang Teng didn’t care about what they thought. He leaped up with his enormous body and covered more than ten meters in the air. Raising all his eight arms, he swung them down.

The five-element fist conscious formed a thick layer around the eight fists.

Five different colors of light blossomed!

At this moment, Wang Teng understood the real use of the Eight Arms Devil Physique.

He could only release its true potential and power after merging it with his 18 Tasks Multitasking skill and the various Forces.

The giant devil lord almost got blinded by the dazzling rays of light. His pupils constricted uncontrollably, and he was flabbergasted.

Five elements!

Wang Teng possessed the Forces of all five elements!

Even Argus was shocked. He forgot to be angry at Wang Teng for interfering with his duel and stared at him absentmindedly.

How could this Earthling possess such talent?!

As a renowned universe talent, he felt a little jealous.

The other alien talents also noticed the situation on this side and were astounded. Was Wang Teng really an Earthling? How could he be so talented?

Everyone found it unbelievable. It was hard to imagine such a gifted martial warrior being born on this underdeveloped planet.

The giant devil lord didn't dare to let down his guard when he saw Wang Teng pouncing on him. He retaliated instantly.

His eyes turned bloodshot, and black light swarmed around his body. His killing intent was burning as if he had used some secret scripture.

Boom!

A powerful aura erupted from his body.

This giant devil lord was a formidable figure too. Instead of retreating, he shot forward and welcomed Wang Teng's eight fists with his thick arm.

Boom!

Boom!

Boom!

An intense battle ensued. This was a battle of fists. It was simple and crude.

The giant race was known for their tough bodies, so they always used their physical body to suppress their opponents.

Unfortunately, he met the unpredictable Wang Teng. Instead of having an advantage, he was the one getting beaten.

The giant devil lord didn't have the time and effort to take care of all the eight arms hurled at him. It was hard to fight against four arms, much less eight!

This was too much!

The devil lord was on the brink of tears.

Boom!

The giant devil lord raised his arms and stopped the attack from two rock arms. Just when he was about to pull his arms back, Wang Teng suddenly opened his fists and grabbed the giant devil lord's wrists.

The giant devil lord's expression changed. All his muscles tensed up, and strong energy exploded from his body as he tried to break free from the rock arm's control.

The two rock arms seemed to have frozen in the air. They remained firm and tight. He couldn't pull his arms out.

"Your strength is too weak. You can't fight with me." Wang Teng snorted. The other six arms slammed down aggressively.

Boom, boom, boom...

As the six fists crashed into the giant devil lord's body, all five Forces exploded. One of the arms even contained poison Force. It invaded the giant devil lord's body while hiding within the five basic element Forces.

Wang Teng was indeed sly. The five elements weren't enough. He had to add more ingredients.

Even a devil lord wouldn't be able to handle the poison of the Demon Lotus Poison Body.

"Ah!"

The muscles on the giant devil lord's body sunk in. He suffered a serious injury as the five basic element Forces, along with the poison Force, exploded in his body. He opened his huge mouth and bellowed in anger while struggling frantically. He wanted to break free from Wang Teng but couldn't.

Boom, boom, boom...

Wang Teng controlled the remaining six arms and attacked the devil lord again and again. All the fists landed squarely on his body. The frightening energy and the boundless Force surged into the devil lord's body.

1

"No!" The giant devil lord started to get frightened as Wang Teng's fists landed on him. Fear crept up his heart, and he roared in terror.

His voice was soon overpowered by an explosion.

Boom!

The giant devil lord's body... had exploded!

Wang Teng blew up his body with brute force. Flesh and blood rained down in the air, splattering all over the ground.

Everyone: !!!

There was dead silence after the spectators saw this scene.

Argus stopped in his tracks without a word. His face turned green, and he lost his voice.

Chapter 832: Nezha Wang Teng!

Wang Teng forcefully caused a devil lord to explode. The scene was gruesome.

All the devil lords pulled a long face. They were astounded and infuriated. Anyone who witnessed their fellow companion getting beaten up so badly would be dumbstruck.

The other alien candidates were in awe too. They couldn't describe their emotions.

They were planetary-stage martial warriors, but they knew they couldn't replicate what Wang Teng had done. He had destroyed the body of a devil lord. Moreover, it was a giant race devil lord who was known for his tough body.

"Erm..."

In the battlecraft floating around the parameter of the Central Continent, the martial warriors from the various countries were staring at the image on the screen with their mouths agape. Their words seemed to be stuck in their throat. They wanted to speak, but there was no sound.

This was a terrifying scene!

The appearance of every single devil lord level represented catastrophe. The Xingwu Continent had suffered greatly, so all the countries knew how powerful devil lords were.

But these devil lords were being beaten by Wang Teng like sandbags. They had no chance of retaliating at all.

How horrifying!

The death of the giant devil lord showed how formidable Wang Teng was. This astounded all the general-stage martial warriors from Earth.

"Country Xia."

The important figures from the White Eagle Nation, Country Boar, Country Star, and other big nations turned to stare at Country Xia's battlecraft. They didn't hide the envy and jealousy in their eyes.

Why was there such a huge difference?

Why didn't an indomitable talent appear in their country? Why did Country Xia have one?

The martial warriors had a mental breakdown. Their eyes turned red.

After witnessing the power of planetary-stage martial warriors, they finally understood that a major shift was happening in the world.

Just like the Industrial Revolution, this was a chance for civilization to take a major leap.

The opportunity was right in front of them!

Such a revolution also meant a reshuffling of the major powers.

The rise of Country Xia, which had Wang Teng, was inevitable. They might even obtain the leading role after the dust settled.

Many thoughts went through the martial warriors' minds. The battle in front of them hadn't ended, but they were already contemplating the future.

This was the mindset of a politician.

The Leader of martial arts and the other martial warriors in Country Xia's battlecraft were thunderstruck. Then, boundless joy overcame them.

"Good!" The Leader clapped his hands loudly. He couldn't contain his excitement.

"Hahaha, Wang Teng is getting stronger!" Commander Hong laughed.

Commander Yong and Commander Long nodded fervently. They couldn't suppress their happiness either.

People in their generation had a strong national identity, especially since they were from Country Xia. This identity was ingrained in their souls. Hence, they were overjoyed when they saw Wang Teng rising up.

This meant that they—or rather, Wang Teng would bring their nation to achieve unprecedented glory.

...

In the sky above the Central Continent.

"This fellow..." A strange glint flashed in Biluo's eyes as she muttered to herself. No one heard the rest of her sentence. Only she knew what she said.

"He's very powerful." Kathu got excited and shouted uncontrollably, "Wang Teng, fight with me after this battle."

"Go away, you ugly freak!" Wang Teng glanced at Kathu in surprise and replied to him in a cold voice.

Kathu's expression froze. The corners of his lips twitched violently.

Ugly freak?!

Am I ugly? You should give a better reason if you want to reject me, you bastard!

Wang Teng couldn't care less about him. He was elated because he would receive many attribute bubbles since he killed another devil lord.

He swept his spiritual power over and picked up the attribute bubbles around him.

Constellation Force (Dark)*2300

Imperial Realm Spirit*520

Emperor-Level Dark Talent*240

Three Heads Six Arms*360

Devil Transformation*20

...

Wang Teng felt that he had become extremely composed as the bubbles merged into his body.

It was insipid.

Wang Teng could face his gains calmly after picking up attribute bubbles from three devil lords consecutively.

However, when he saw the Three Heads Six Arms attribute, his expression still changed.

Seriously?

He did wonder if there would be a similar attribute, but he didn't think it really existed. It was worth killing that giant devil lord.

He didn't know how to use these dark apparitions' physiques in the past, but he was enlightened now.

This physique was extremely useful when combined with the Heart Of Magnetic Essence!

The Heart Of Magnetic Essence had a high upper limit, so Wang Teng could use it for a long time. He might be able to continue using it even after he reached the celestial stage or higher.

He recalled the feeling of smashing the giant devil lord to death. Although the method was crude and simple, it felt refreshing.

Wang Teng focused on the changes in his body.

The Three Heads Six Arms attribute was similar to the Eight Arms Devil Physique he had received in the past. They were both physique talents, but one had three heads.

Hmm... he wouldn't become smarter with three heads, but his vision would improve. There wouldn't be any blind spots.

Well, that sounds quite useful.

Please call me Nezha Wang Teng in the future!

After collecting the attribute bubbles, Wang Teng turned to Argus. He saw the anger on his face and said nonchalantly, "I'm sorry. I killed him accidentally and forgot to leave a body for you."

Argus felt his eyelids trembling. He wanted to curse, but he couldn't. It was so annoying.

This bastard was definitely doing it on purpose!

His attitude was a little bad, but Wang Teng didn't have to stimulate him like this.

This fellow is narrow-minded!

Argus suddenly regretted offending Wang Teng. This young man wasn't someone easy to bully.

However, this thought only appeared in his mind for a split second. His pride as a universe talent forbade him from admitting his mistake.

Argus stared at Wang Teng indifferently and sneered. "Don't think too highly of yourself. All you did was kill a devil lord."

"Really? You sure are talking big. Why don't you kill one?" Wang Teng sneered.

“Open your eyes and look carefully.” Argus snorted and turned away from Wang Teng. After locking onto a devil lord, he charged over angrily.

The vampire devil lord was fighting with an alien candidate. The alien candidate was at a disadvantage and had suffered many serious injuries on his body. Blood dripped from the corner of his mouth. He looked miserable.

“Move!” Argus dashed over and shouted at the alien candidate. Then, he threw his punches at the vampire devil lord.

The alien candidate was mad at Argus for looking down on him, but at the same time, he felt fortunate. He didn't linger around and retreated far away. Staying alive was the most important thing.

Bang!

Argus collided with the vampire dark apparition. He might have said that he didn't care, but Wang Teng did stimulate him. Thus, when he attacked, he used his ultimate move directly. A terrifying fist aura swept toward the vampire.

Chapter 833: Destruction Of The Land (1)

Argus was bathed in golden light. His fist was covered with golden light too. It was a dazzling sight.

Boom!

A fist was released and thrown at the vampire devil lord.

The vampire's expression changed. He flapped the wings behind him and turned into crimson lingering shadows as he disappeared in the blink of an eye.

Argus left a trail of golden shadows as he chased after the devil lord. He stuck close to him while firing punches at the guy.

“Tsk! This fellow likes to put on a show. Do you think that you're Super Saiyan?” Wang Teng pouted as he complained.

He didn't lower his voice, so Argus, who was in the middle of a battle, captured his words perfectly. The corners of his lips trembled.

He couldn't do anything to Wang Teng, but he could vent his anger on the vampire devil lord in front of him.

A long spear suddenly appeared in his hand with golden rays of light blossoming at its tip. It shot through space and stabbed right at the vampire devil lord.

Splurt!

The vampire devil lord resisted in a flurry, but the spear still pierced him.

The golden spear glow penetrated his shoulder, bringing a splash of blood with it. One of his arms was crippled along with his shoulder.

“Ah...”

The vampire devil lord screamed in agony. Its pale face turned whiter, and large drops of sweat dripped down his forehead.

“Damn it, human. You must die!” The vampire devil lord roared in anger. His eyes were filled with bitterness and hatred as he glared at Argus.

Roar!

Suddenly, rays of black light shot out from his body. The black light turned dense quickly and swallowed the devil lord. No one could see what was happening in the darkness.

The black light kept expanding. It hung in the sky like a mini sun. Gradually, a terrifying fluctuation flowed out from the black light.

Argus turned serious.

The vampire devil lord was forced to execute his devil transformation because of him.

Devil transformation shouldn't be looked down upon, no matter what kind of dark apparition used it. Argus stared at the black light firmly as the wrinkles on his forehead grew deeper.

Swoosh!

Suddenly, a pair of flesh wings pierced through the black light.

The wings were extremely huge!

They hung down from the sky, blocking all the remaining light there was.

Everyone was attracted by the situation here. They were appalled.

Next, a large head popped out of the black light. What kind of head was it? It looked exactly like a bat's head.

However, it was gigantic, so it appeared exceptionally scary and gruesome!

The enormous body lifted itself out from the black light. The vampire devil lord had turned into a giant bat!

“Oh my, this big bat is so scary!” Wang Teng exclaimed.

The devil lord turned his head and looked at Wang Teng. However, when he saw the towering eight arms rock giant, he turned his head back.

Then, his bitter gaze landed on Argus.

A bellow came from the vampire devil lord's mouth. It resounded in the air and formed soundwaves that drilled into everyone's ear, sounding shrill and unpleasant.

“Oh shit!”

Many alien candidates' expressions changed. They covered their ears hurriedly, but they were still affected by the soundwaves. They felt dizzy.

The devil lords in front of them grabbed this chance and started attacking violently.

Wang Teng frowned. His spiritual power floated in his mind and dissipated the soundwaves.

He was surprised. This soundwave was a spiritual attack. Interesting.

Unfortunately, his spiritual power was too strong, so he wasn't affected.

As the target of the vampire devil lord, Argus received the greatest impact from the soundwaves. He felt dizzy too. He quickly retreated with a grim expression.

The vampire devil lord grabbed the chance to launch his attack. He flapped his wings and swooped down on Argus at an incredible speed.

Wang Teng's gaze froze for a moment. He stared at Argus.

Was that all he had?

Boom!

A sudden loud explosion was heard.

Wang Teng turned his head uncontrollably and saw an alien candidate getting stabbed by a devil lord. Before the martial warrior died, he self-destructed.

The dark apparition suffered serious injuries too.

The commotion caused by the death of a planetary-stage martial warrior was earth-shattering. Large cracks appeared on the ground.

This was just the start. Soon after, many other devil lords and alien candidates started sacrificing themselves one by one. The entire Central Continent turned into hell.

This was what a real battlefield should look like!

A planetary realm battlefield!

The Central Continent suffered a horrifying disaster. It was as if a magnitude 18 earthquake had struck this piece of land. The mountains collapsed, and bottomless cracks were visible on the ground everywhere. The seawater crashed onto the land, submerging parts of the continent.

Constellation Force (Dark)*1200

Imperial Realm Spirit*450

Devil Transformation*25

Constellation Force (Earth)*1350

Constellation Force (Water)*2100

Constellation Force (Fire)*1600

Blank Attribute*15600

...

Wang Teng looked at the surroundings with a frown while picking up the attribute bubbles.

The Central Continent would be in ruins after this battle.

Fortunately, this continent wasn't densely populated like the others. Imagine how many people would die if it was.

But the star beasts went through an unexpected calamity. They got caught in the battle, so many of them died. This was why Wang Teng managed to collect a large number of blank attributes.

No effort was needed.

On the other side, Argus and the devil lord's battle was getting heated. The vampire devil lord wasn't Argus's match and was almost half-dead. There were many bleeding holes in his body. The poor guy looked horrendous.

Chapter 834: Destruction Of The Land (2)

He flapped his wings and soared towards the sky, trying to get away from Argus's pursuit.

However, Argus's attacks were extremely fierce. He chased the fleeing devil lord wherever he went. It was as though he had vowed to kill a devil lord in order to prove himself to Wang Teng.

"Get lost!" The vampire devil lord turned his head and roared. A black ball of light rapidly condensed in his mouth.

Boom!

In the next moment, the vampire devil lord closed his mouth, sending the black ball of light toward Argus.

"Hmph!" Argus snorted and thrust his spear forward.

Boom!

The golden spear collided with the black ball and caused a fierce Force wave to spread in the air.

The vampire devil lord was elated when the wave managed to slow Argus down. He flew away in a bid to escape.

"The talents from the universe are a tough bunch. They are all perverted. But next time, I will make them pay." Ruthless thoughts were flowing in the vampire devil lord's head.

The next moment, he suddenly realized that he... couldn't fly!

The vampire: ?

The vampire devil lord looked down, and his pupils shrank immediately. He was horrified. His leg had been caught, and he didn't even know when it happened!

And the one who caught his leg was Wang Teng, the guy he didn't want to provoke the most!

When? The vampire devil lord was stunned.

A rock arm stretched out from below, clasping the vampire devil lord's leg firmly.

The devil lord then felt that there was a mocking smile on the rock giant's face. He couldn't tell if he was being delusional or not.

"The fight's not over. Why are you running away?" Wang Teng's voice resounded from within the rock giant's body.

1

The vampire devil lord didn't say another word and condensed a black ball in his mouth once again. He wanted to hit him with his ultimate move.

Unfortunately, Wang Teng didn't give him an opportunity to do so. The rock arm suddenly exerted force and started swinging.

The vampire's body spun wildly like a windmill. His whole world was spinning, and the black ball in his mouth dissipated.

Boom!

Wang Teng slammed the vampire to the ground. The land quaked and moaned under the impact.

The scene was shocking. A huge bat was smashed into the ground by a rock giant.

It felt painful by just thinking about it!

Bang, bang, bang!

Dull thuds continued to sound. The devil lord's body was slammed against the ground again and again. The poor guy was knocked out of his senses, even forgetting to scream.

"I've never killed a huge bat like you. Let me try it today," Wang Teng said.

The vampire devil lord suddenly shuddered, and he got goosebumps all over his body.

Wang Teng didn't give him a chance to resist. When the devil lord's body landed on the ground, he placed his foot on his back and tore his wings with the rock arms.

Hiss!

A pair of fleshy wings broke off, splattering blood everywhere. It was a gory scene.

"Ah!" The vampire devil lord let out a shrill scream and struggled frantically on the ground.

Wang Teng didn't say a word. The entire rock body landed on the devil lord's body and held him in place while its eight arms pummeled the guy.

1

Boom, boom, boom!

After a flurry of punches, the vampire devil lord blew up like the giant devil lord. Another dark apparition devil lord was defeated!

Wang Teng's rock giant stood up and stretched its back.

"Wang! Teng!" Argus's cold voice emerged from his back.

"Oops. I'm sorry. I couldn't control myself." Wang Teng turned around and looked at him innocently.

"You!" Argus looked ashen.

"Calm down, calm down. Just fight another one. There are a lot of devil lords besides this one." Wang Teng snickered.

"..." Argus was on the verge of vomiting blood.

He had spent so much energy beating up the vampire devil lord. In the end, Wang Teng claimed the booty instead.

1

Damn it. He shouldn't steal someone's glory like that. How shameless!

Argus saw Wang Teng's despicable face and wanted to beat him up.

Just then, a loud blare could be heard.

Boom!

The ground was shaking violently.

The vibrations were much greater than when a planetary-stage martial warrior or a devil lord self-destructed.

"What's happening?"

Everyone looked up and down.

Wang Teng frowned and flew up into the sky. Although his rock body was huge, he could ignore gravity by using Heart Of Magnetic Essence to manipulate the rock body.

His pupils shrank when he looked down and saw what was going on.

At a glance, he could see the entire Central Continent collapsing. Large patches of forests were being destroyed as they fell into the dark cracks. Mountains were crumbling and caving in the midst of the vibrations.

Boom!

Over in the distance, there was even a volcanic eruption. Hot magma spewed straight into the sky.

The surviving star beasts in the forests were fleeing and roaring desperately, but they were quickly swallowed by the ground. Some star beasts were struggling at the edge of the cracks in vain. They soon fell and disappeared without a trace.

“This... The entire Central Continent is collapsing!?” Wang Teng’s heart shook as if he had guessed something.

The battle between the planetary-stage warriors and devil lords was too terrifying. It was going to destroy the entire continent and sink it into the ocean.

That was the power of the planetary stage. Given the space and freedom, any planetary-stage warrior would be able to destroy a planet easily.

That was nothing but the truth!

Far away on their battlecraft, the leaders of various countries saw what was happening to the Central Continent and were speechless.

This is too frightening!

A continent was about to be destroyed and sink into the ocean?

On Country Xia’s battlecraft, the Leader of martial arts struggled to swallow his saliva. “How!”

He couldn’t find any words to describe the complex emotions in his heart.

“If we let them do as they please, the whole planet would be destroyed.” Commander Hong uttered in shock.

“This is bad. The sea levels will rise and there will be tsunamis if the entire continent sinks into the ocean.” Commander Yong said anxiously.

Everyone was horrified.

“Don’t worry, the defense arrays that were completed by Wang Teng previously are enough to withstand the tsunami.” The Leader assured them.

“Yes, yes. My memory is failing me. It’s fortunate that Wang Teng has good foresight,” Commander Yong slapped his head and replied with relief.

“But I didn’t expect the arrays to be utilized so soon,” Commander Hong said helplessly.

“I wonder if the other countries have made sufficient countermeasures.” Commander Yong pondered.

“This tsunami should be enough to devastate them for a while. Look. The White Eagle Nation and Alliance’s battlecraft are rushing back.” Commander Long noted.

“No. The Central Continent hasn’t sunk completely. It looks like it has stopped.” The Leader frowned.

“Hmm?” Everyone couldn’t help but look.

Sure enough, the Central Continent suddenly stopped after sinking to a certain level.

“What’s that!?” Commander Long pointed at the screen projection and exclaimed.

Someone of his age and status would have developed a calm temperament. However, he couldn't control himself and screamed.

In fact, the Leader and the others had also realized it. Everyone was flabbergasted as they looked at the projection.

They saw something enormous gradually emerging from under the Central Continent.

Those were historical remains of a large ancient civilization?!

Chapter 835: The Spectators From The Universe

The historical remains of a large ancient civilization rose from the ground. How majestic and unbelievable this scene was!

All the structures were made of unknown metal with a unique style. It was different from anything seen on Earth.

The martial warriors present had powerful eyesight, so they instantly saw the strange symbols carved on the structures.

The symbol looked like a skull, but it seemed abstract. It gave off an ancient feeling.

The important figures sitting in the battlecraft were shocked too. They ordered their men to zoom in on the structures until they couldn't enhance it anymore. They stopped unwillingly.

"Oh my god, this is incredible!" Cromwell from the White Eagle Nation exclaimed. He couldn't hide the astonishment in his heart.

The other talents from the White Eagle Nation were beside him. Yoke, Shuen, and the other martial warriors stared at the metallic historical remains that had almost replaced the entire piece of land.

Yoke swallowed his saliva and uttered, "Commander, we should have been able to detect these historical structures if they existed below the Central Continent!"

"What do you know? The condition beneath the land is complex. Before the martial arts era, humans only managed to explore 0.2% of the land below. The maximum range of our devices and machines is 1000 meters. Some deep wells are special, so we can't conduct large-scale drilling on them. During the martial arts era, we increased the depth to 3000 meters, but it still isn't enough for us to grasp the situation below the ground entirely," Commander Cromwell took a deep breath and explained.

Yoke and the others nodded in deep thought. Based on the time and the intense vibrations of the ground when this relic was rising, it must have been buried more than 3000 meters underground.

"Also, if I have guessed correctly, the historical remains must be from a great ancient civilization. We don't know what skills or technology they have. They might have had a way of concealing themselves. The battle of planetary-stage martial warriors was too violent, triggering a crustal movement. This might have caused the concealing method to lose effect and the historical remains to surface," Commander Cromwell added.

"A great ancient civilization!" Everyone was shocked.

“Commander, this great ancient civilization must have many amazing technologies. We...” Yoke said with shimmering eyes.

Cromwell looked at him as if he was an idiot. “Don’t drag me if you want to die.”

Shuen, Marsha, and the others stared at him strangely too.

Yoke shivered as if their gazes had doused him with a bucket of cold water.

The perfect way to describe him was a person blinded by greed. He knew that it was dangerous, but he couldn’t control himself. However, the attitude of the other people made him understand that he was thinking too much.

“Since the remains have appeared in front of the formidable martial warriors, we can forget about it. Didn’t you see their strength? They could destroy an entire piece of land! We will be seeking death if we interfere. We’ll just pick up after them. There might be some gains.” Commander Cromwell sighed.

They used to be a strong nation, but now, they could only pick up what others didn’t want.

Yoke moved his lips. In the end, he had to accept reality.

“Sigh, Country Xia will probably be the first in line because of Wang Teng.” Cromwell ignored Yoke’s expression and continued lamenting.

No one replied to him. They stared at the screen with complicated expressions on their faces. The enormous rock giant was conspicuous even among the formidable martial warriors.

“Commander, we’ve detected a strong energy fluctuation below the remains,” a staff member on the battlecraft shouted abruptly.

“Energy fluctuation!” Cromwell was stunned. He asked hurriedly, “Do you know what it is?”

“We are not certain yet. But the intensity of the fluctuation is more than a hundred times stronger than the purest Force stones we know. Also, there’s a great number of them,” the staff member exclaimed.

“Damn it!” Cromwell’s eyes turned red.

Before seeing the good things, he could maintain a calm facade. But after laying his eyes on the treasures, he couldn’t control himself. He wished he could rush down and grab them immediately.

His rationality stopped him though!

He would be killing himself by going down. He mustn’t do that.

Since the White Eagle Nation was able to discover the fluctuations, the other countries could too. There was a huge uproar in all the battlecraft.

The important martial warriors from the various nations were dumbstruck. They discussed what they should do with these ancient remains.

In the end, all the countries decided to take no action. They would wait for the planetary-stage martial warriors in the sky to have their fill before considering if they should pick up the bones.

Although helpless, they couldn't do anything. They could only swallow their frustration.

...

At the same time, in the universe outside Earth, two figures were sitting opposite each other.

They sat cross-legged while wearing unique-looking golden long robes. Their long hair fluttered, making them seem a little holy.

A coffee table floated in front of them. There was a tea set on it.

They disregarded the zero gravity environment around them and enjoyed tea as if they weren't in space but in their backyard. They drank with each other happily and carefreely.

There was a circular object that looked like a mirror made of light to their left. The situation of the Central Continent was shown within the reflection.

"Hmm, these remains are interesting." One of the middle-aged men gasped softly.

"This is a Land of Wakening. It's nothing strange." The other man glanced at the mirror indifferently. Then, he teased, "Are you going to snatch the opportunities from the younger generation?"

"Cough, am I that kind of person?" The middle-aged man coughed awkwardly.

"Who knows? But everyone knows that you, Ma Dayuan, are shameless." The other man chuckled.

"Ning Honglang, where did you get the courage to tease me? You're no better." Ma Dayuan was infuriated. He glared at his companion.

"No better? I'm much better than you!" Ning Honglang snapped back.

Ma Dayuan: ...

In an instant, their harmonious image was destroyed. They almost started fighting in space. However, they understood their own ability. If they acted here, the entire solar system might be destroyed.

After bickering for some time, they sat down quietly and continued drinking tea like some mysterious immortals living in the mountains.

"Cough... If you ask me, I think that fellow from Earth will emerge as the winner," Ma Dayuan said abruptly.

"Wow, great minds think alike!" Ning Honglang's eyes lit up. He nodded in approval.

"Argus, Kathu, and the other talents will not be able to beat him. Look at how sly and cheeky he is. He's just like me when I was young." Ma Dayuan laughed.

"Things are getting interesting!" Ning Honglang glanced at him from the corner of his eyes as he smiled. He didn't refute.

Chapter 836: Constellation Elixir

Central Continent.

The appearance of the historical remains attracted the attention of all the planetary-stage martial warriors and the devil lords. They looked down.

There were 13 planetary-stage martial warriors left and 10 devil lords. Both sides were almost similar in combat strength.

The atmosphere between the two groups reached a strange equilibrium with the appearance of the historical remains.

Very soon, they felt the energy coming out of the historical site.

It was too conspicuous!

The balls of energy floated amid the ancient structures. They were giving off a fuzzy white glow.

The energy they contained was tempting even for a planetary-stage martial warrior. Moreover, this historical site was huge and well-maintained. No one knew if there were bigger treasures hidden underneath.

Both sides went silent. Then, they plummeted down in unplanned unison.

Boom!

Boom!

Boom!

...

All the powerful beings shot out like cannons. They moved at the speed of light and bolted into the historical site.

Everyone aimed for the closest ball of light. They reached their arms out and wanted to grab them.

A devil lord caught a light ball and laughed happily when he saw the item clearly. "Constellation Elixir, it's a Constellation Elixir!"

The others who hadn't grabbed the light balls were astounded. Then they started beaming with joy.

Suddenly, the devil lord noticed that the weight on his hand had disappeared. The Constellation Elixir was gone!

The devil lord was stunned.

"Can you tell me what this Constellation Elixir is?" An apologetic voice entered his ears.

The devil lord turned in the direction of the voice and saw Wang Teng standing on top of the rock giant. He was looking at him from afar.

He was holding a Constellation Elixir. It looked like the one that had disappeared from his hand.

Veins started to bulge out on the devil lord's forehead. Then he turned directly and rushed towards another light ball, disregarding Wang Teng entirely.

Wang Teng smirked. He ignored the devil lord and released his spiritual power. He swept all the balls of light over.

Collecting light bubbles?

Wasn't that his profession?

He was extremely skilled at it!

The other people who had dashed towards the balls of light were shocked. They were just inches away from them, but suddenly, the balls started flying in a certain direction. They could only stare at their empty hands.

Their eyes widened in surprise as they stared in the direction where the balls of light went. Anger engulfed them instantly.

“Wang! Teng!”

All the martial warriors roared indignantly. If looks could kill, Wang Teng would have been torn into pieces.

The devil lords were infuriated too. They glared at Wang Teng.

In the blink of an eye, everyone darted towards a certain area. The historical site was huge. The area they were at was just a small part of the entire site. There were large numbers of light balls to be collected in other regions.

Wang Teng's eyes lit up. He sniggered and disappeared.

He didn't know what these Constellation Elixirs were for, but from everyone's reaction, he knew that they were good stuff. Thus, he should snatch as many as he could.

Wang Teng shuttled back and forth within the historical site. His spiritual power swarmed out as he pulled all the light balls over to him.

The martial warriors and devil lords were always a step too late. They could snatch one or two light balls sometimes, but it was nothing compared to what Wang Teng received.

This young man was heartless!

Wang Teng's move incensed everyone.

He collected all the Constellation Elixirs at the historical site, leaving no chance for the others. Well, honestly, he left a few scraps.

Everyone went mad. They searched frantically for Wang Teng, wanting to beat him up. Even the extremely talented alien martial warriors like Argus and Kathu were infuriated.

A strong malicious aura exuded from their bodies as they stared at the few balls of light in their hands.

At this moment, Wang Teng was everyone's common enemy.

Common enemy!

“He’s here!” someone spot Wang Teng and shouted loudly.

Swoosh! Swoosh! Swoosh!

Numerous figures gathered in the direction where Wang Teng was last seen. They were like bees that had smelled honey.

“F**k, crazy. They are all crazy.” Wang Teng got a fright. He increased his speed to the maximum and escaped into the depth of the historical site.

There were too many people. It would be hard for him to fight with them, so he better run!

“Wang Teng, don’t run!” A shout was heard. A figure flew out from the side, slashing a blade glow at Wang Teng with bloodshot eyes.

“Don’t run? You think I’m stupid?” Wang Teng pushed his fist out and welcomed his opponent’s blade glow. However, he didn’t slow down. He continued charging forward.

Boom!

The blade glow and the fist glow collided and erupted. The alien candidate was in a slightly tragic state. He glared in Wang Teng’s direction.

“Where’s he?” A figure caught up with him. This was one of the five great stars, Loggins.

There were already some grudges between him and Wang Teng. His expression was cold, and his gaze was sharp as he asked the alien candidate.

“In front. He went into that huge building in the middle,” the alien candidate pointed in the direction and replied without any hesitation.

“Catch him!” Loggins bellowed. He turned into a ray of light and disappeared.

A hint of fear flashed past the alien candidate’s eyes when he recalled Wang Teng’s punch. However, he still gritted his teeth and chased after him. He didn’t want to give up.

The devil lords behind had caught up too. They headed straight for the huge building.

The others followed thereafter.

Soon, all the martial warriors and devil lords stopped in front of the large building. Wang Teng was standing in front with his back facing everyone. He was staring at the entrance of the building as if looking for something.

He turned when he heard the footsteps and greeted them with a smile. “Hey, everyone is here.”

Silence.

The crowd was raging. When they saw his expression, they felt exasperated. It was as if they had punched a bag of cotton. They couldn’t vent their frustration anywhere.

“Wang Teng, hand over the Constellation Elixir. You’re too selfish!” Loggins stepped forward and shouted furiously.

“Selfish? I don’t think so. I was never a selfish person,” Wang Teng replied in confusion.

Silence.

What do you mean!

This fellow was pretending to be innocent!

“Are you going to hand them over?” Loggins’ gaze turned sharp. “There are many people here. Are you planning to pocket everything?”

He wasn’t stupid. He pulled the other people along to pressure Wang Teng.

As expected, the others didn’t say anything, but they looked at Wang Teng simultaneously. They seemed ready to attack him.

“So many people? Do you mean the dark apparitions too? Wow, are you asking me to share it with the dark apparitions? What are you thinking?” Wang Teng shouted.

“F**k!” Loggins’s face turned black. “I didn’t say that. You’re bullshitting!”

“You did. I heard it. Everyone heard it.”

“You’re framing me.” Loggins was enraged.

“Nonsense! You can ask everyone.” Wang Teng pointed at Biluo and shouted, “Pretty lady, did he say that just now? You must speak the truth. I saved you before. You can’t go against your conscience.”

Biluo stared at him speechlessly. This fellow was threatening her because he was her savior. Seriously?

She shifted her gaze between Wang Teng and Loggins. Her gaze was meaningful.

Well, Wang Teng did save her life.

Also, she was an honest person!

Loggins’s expression turned uglier when he saw her expression. He cursed uncontrollably, “F**k, I’m going to kill you!”

Boom!

He dashed towards Wang Teng at the speed of light. Thick rays of black light shimmered around his hands as he clawed toward Wang Teng’s heart.

His speed was incredible. He arrived before Wang Teng within a split second.

“Go away!” The cheeky expression on Wang Teng’s face vanished. His gaze turned cold, and he punched his fist out.

Strength of Ultima!

Tenth-level Golden Ray Earth-Shattering Sword Conscious!

These two forces were released together...

Boom!

His fist collided with his opponent's claw and caused a terrifying explosion.

Suddenly, a figure was thrown backward violently. He staggered a little when he landed. The ground below him cracked under the impact.

Loggins's expression distorted. His hands were densely covered with scales, but they were all bloodstained. Some scales had already cracked while his hands were trembling uncontrollably.

"You're overestimating yourself." Wang Teng flicked his sleeve and glared at him. His tone was indifferent. "Don't provoke me. If not, I'll kill you."

Chapter 837: The Use Of The Crystal Skull

"You!" Loggins's face turned green in anger. He was vexed.

However, Wang Teng didn't plan to continue talking to him. He glanced around him and sneered. "If you want it, you can come forward and take it."

The crowd's expressions turned complicated. In the end, none of them acted. Their gaze landed on the large building behind Wang Teng.

The entire structure was silver white. The bottom part was flat while the top was pointy. There were numerous pointy towers that merged together and pierced right into the sky. The design was unique.

A large metal door stood erect in front of everyone. This was the entrance of the building.

In the middle of the door, there was a skull totem. It looked exquisite and was a different shape compared to a human's skull. It was bigger, much bigger than a normal human's. The brain capacity was around twice that of a human's.

"This skull!" Wang Teng's eyes lit up. He thought of something.

He felt a sense of familiarity when he reached this area. However, his thoughts were interrupted by the arrival of the other martial warriors and devil lords.

After looking at the skull carefully, he finally remembered where he saw it.

Crystal skull!

This skull was surprisingly similar to the crystal skulls he had!

To be safe, Wang Teng instilled his spiritual power into his space ring and compared his crystal skulls with the skull totem on the door. He realized that they were almost the same. There seemed to be no difference.

They must be the same!

So, what's the connection between them?

Many thoughts went through Wang Teng's mind. However, he maintained his indifferent expression and stood at the side without saying anything.

The alien martial warriors walked forward and sized up the huge door. They seemed to be searching for a way to enter.

Even the devil lords started moving. They stared at the huge door as if they were extremely interested in it. Well, to be more exact, they were interested in what was behind this door.

2

No one was willing to act. They kept their distance and remained on high alert.

After some time, someone finally touched the skull totem on the door, which started vibrating.

Boom!

The huge skull totem started shrinking into the door amid the vibration. Within a short moment, 13 holes appeared.

Everyone was astounded. They looked over and realized that all the holes were shaped like skulls. But this time, they were the same size as a normal human skull. They formed the outline of the giant skull totem.

“Oh my god!” Argus’s eyes shimmered. An object suddenly appeared in his hand.

When Kathu, Pulin, and Loggins saw the item Argus was holding, they took out a similar item.

The objects in their hands looked exactly the same.

Wang Teng was already paying close attention to them, so he glanced at them secretly and saw what they were holding. His pupils shrank.

Crystal skull!

They were holding crystal skulls!

“If I’m right, these crystal skulls must have an intimate connection to this place. If any of you have this, please take it out,” Argus scanned the crowd and said calmly.

Everyone blinked when they heard him. A few more alien candidates took out their crystal skulls.

They counted them carefully. There were eight crystal skulls in total.

“Anyone else has it? We only have eight. We need five more.” Kathu frowned.

The alien candidates shook their heads.

Argus and Kathu’s gazes finally landed on the devil lords.

Many alien candidates were killed in the earlier conflict. These devil lords might have taken their possessions.

The devil lords were stunned. They silently checked the items they had gained a while ago and discovered a few crystal skulls.

Three!

Three crystal skulls appeared in the hands of three devil lords.

“We have 11 now. We need two more,” Argus said.

“Where did you get these skulls from?” Pulin asked suddenly.

“I got one from a museum in Country Bat. These Earthlings are so stupid. This is a treasure that can raise one’s spiritual power. Why are they displaying it?” Kathu shook his head. “What about you guys?”

“Same,” Argus replied calmly.

“I found mine under a deity sculpture in the imperial palace of Country Inka. They seemed to be worshipping this crystal skull.” Pulin played with the crystal skull in his hand and laughed.

“These Earthlings hadn’t discovered the use of these crystal skulls. I asked them in the past. They said that they found these crystal skulls in the remains of a civilization called Maya. However, it had laid forgotten for many years, so a few of them might have been destroyed,” another alien candidate who possessed a crystal skull added.

“Damaged!” Kathu’s eyes almost popped out of his socket. He complained in frustration, “Are these Earthlings stupid? How can they destroy such a treasure?”

“F**k!” Wang Teng cursed instantly. This alien was extremely impolite. How dare he scolded his fellow Earthlings in front of him.

Kathu was caught off guard. He glanced at Wang Teng awkwardly.

“Who are you calling an idiot? You are the real idiot!” Wang Teng yelled back at him.

“Oh my, look at my short temper. If Earthlings are not idiots, why did they destroy the crystal skulls? This is all your fault!” Kathu glared back at him.

“Bullshit. Who says that the remaining two crystal skulls are destroyed? Do you believe in rumors?” Wang Teng took out the two crystal skulls he possessed and waved them in front of Kathu.

1

He had heard the same rumor that some crystal skulls were destroyed. In the past, he believed it. However, with all 13 crystal skulls in front of him, he had to accept this reality.

He was just a little puzzled.

Kathu was dumbfounded when he saw the two crystal skulls in Wang Teng’s hand. He stuttered, “You have two of them? Why didn’t you take them out earlier?”

“You didn’t ask,” Wang Teng said righteously.

“F**k...” Kathu almost fainted from anger. He rolled his eyes in annoyance.

Argus frowned at Wang Teng. His gaze was filled with contempt. He said indifferently, “Alright, since all 13 skulls are here, let’s try to open the door.”

He stuffed his crystal skull into one of the holes on the door without any hesitation. It fitted perfectly without any gaps.

The others quickly placed their crystal skulls into the holes when they saw this.

After all 13 crystal skulls were fitted into the holes, the large crystal skull totem lit up. Rays of dazzling silver light shot out.

Boom!

The door trembled and opened gradually. A great hall that had been sealed for who-knew how many years was revealed to everyone.

Chapter 838: Record It In Your Little Notebook

As the door opened gradually, everyone looked into the great hall.

It was pitch-black. Nothing could be seen from the outside. The darkness seemed to have the power to swallow all sources of light. Even the planetary-stage martial warriors couldn't see anything with their powerful eyesight.

"Let's go!"

Glances were exchanged and everyone made their decision quickly.

Seeking wealth in risk!

Since they were already here, it was worth exploring even if there was danger. Hence, everyone, including the devil lords, walked into the great hall.

Biluo suddenly came beside Wang Teng and walked along with him. She used voice transmission to speak to him, "I feel that something isn't right with this historical site. The appearance of the Constellation Elixirs is strange. It seems to be luring us here."

"Why are you telling me this?" Wang Teng asked in surprise using voice transmission.

"I just want to find an ally."

"You're an alien, and I'm an Earthling. Why are you asking me to be your ally?" Wang Teng stared at her in disbelief.

"Can't I?" Biluo asked.

"You can. I'm honored to be accompanied by a beauty," Wang Teng replied using voice transmission as he blinked.

"Don't fool around. I'm being serious." Biluo rolled her eyes angrily.

"Okay, I'll be serious." Wang Teng turned stern.

"What do you think?" Biluo asked again.

"I'll think on my feet," Wang Teng answered.

The corners of Biluo's lips trembled. She almost lost control of her emotions.

Thinking on his feet?!

What happened to being serious!

I'm going to kill you!

"Cough, okay I'll be serious." Wang Teng coughed awkwardly when he saw her death glare.

"Go on!" Biluo took a deep breath.

"We'll solve whatever comes our way," Wang Teng said with bright eyes.

"I regret asking you." Biluo was speechless.

"This is the only way now." Wang Teng's expression changed. He sounded embarrassed.

"Be careful of Argus." Biluo nodded and stared at Wang Teng intently.

"What do you mean?" Wang Teng was stunned.

Biluo walked forward without responding.

Wang Teng suspected that she did it on purpose. This was her revenge for teasing her. She was so narrow-minded.

Biluo glanced at Wang Teng from the corner of her eyes. The edge of her lips lifted up a little when she saw his exasperated expression.

The two of them followed the others and entered the great hall.

Boom!

The door behind them shut abruptly with a loud bang.

Glaring white light lit up the great hall brightly.

Wang Teng squinted for a moment and got used to the sudden glare quickly. He scanned his surroundings and his pupils constricted. He turned to Biluo.

"Leave!" He was already dashing towards a passageway straight ahead in the great hall.

Biluo's expression changed. She instinctively caught up with Wang Teng without thinking too much. She raised her speed to the maximum and followed closely behind him.

Swoosh!

Swoosh!

Swoosh!

Blinding beams of white light shot out from the walls around the great hall. They were aimed at the people who came in.

These beams of white light traveled at the speed of lightning. Within a split second, they were inches away from everyone.

The crowd could only put up a hasty defense. They were in a state of panic.

Swoosh!

One beam of white light pierced through the abdomen of an alien candidate. It was able to penetrate the body of a planetary-stage martial warrior with ease!

This was unbelievable!

A cry of agony rose in the great hall. The alien candidate's reaction slowed down because of the serious injury. Soon, another beam of white light reached him.

Splurt!

Multiple beams of white light pierced through his body, one of them even puncturing his skull. A gorgeous crimson flower blossomed in the air.

This was the flower of death!

The alien candidate died unwillingly, refusing to close his eyes.

He didn't die during the battle with the dark apparitions, but he was killed by this strange great hall!

Moreover, his life was taken by a beam of white light! How frustrating was that!

He wasn't the only one. Many other alien candidates suffered heavy injuries too. They executed their strongest defense skills to resist the onslaught.

Roar!

A furious roar echoed in the hall. A devil lord slumped to the ground, dead. His heart was stabbed by a beam of white light, and he lost all his vitality.

On the other side, Wang Teng and Biluo were rushing towards the passageway in front. However, the beams of white light seemed to be able to sense their presence. They changed direction and headed for them.

"Hmph!" Wang Teng snorted. Spiritual power gushed out and formed a defensive wall to block the beams.

Planetary Realm spiritual power was a mighty weapon. The invisible shield it formed caused all the beams of light to stop in mid-air.

Wang Teng used this chance to escape from the encirclement of the beams.

Thick light Force surged out of Biluo's body, turning her into a beam of white light too. She dodged her way through the white light rain.

Swoosh!

However, there were too many beams of white light. Two of them scraped her arm. An inch closer and her arm would have been penetrated.

Biluo's face turned pale. Cold sweat poured down her forehead. She didn't dare to let down her guard and kept a close distance to Wang Teng.

She only had one thought. She couldn't stray too far away from Wang Teng. If not, she would die.

Wang Teng bought her some time when he blocked the beams of white light. If she was a step too late and the white light shot over again, she would have been hit.

Wang Teng darted among the beams. He realized that spiritual power was extremely effective in blocking the white light. He managed to move closer to the passageway quickly with the help of his spiritual power.

Almost there!

Almost!

I'm almost there!

Swoosh!

Wang Teng stared intently at the passageway. Suddenly, he took a leap and evaded the last beam of white light, successfully landing in the passageway.

"Sigh!" He let out a long breath.

On the other hand, Biluo wasn't as lucky. The beams of white light started shooting out faster as if they had detected an invader getting close to the passageway. She couldn't keep up with the speed of the attacks and slowed down.

"Shit!" Her face was pale as she stared at a beam of white light heading straight for her forehead. She couldn't evade it.

When the beam of white light reached half a meter away from her, it paused in the air for a moment. It seemed to have stopped.

Biluo thought she was having an illusion.

"Come over quickly!" Wang Teng's shout woke her up from her stupor.

Biluo was astounded. She found it unbelievable, but she didn't have the time to think too much. She hurled herself at the passageway and covered the remaining distance.

Swoosh!

She stopped beside Wang Teng while panting. Large drops of sweat rolled down her forehead.

"Are you alright?" Wang Teng's calm voice entered her ears.

Biluo raised her eyes and looked at Wang Teng. Shaking her head, she said, "You saved me again."

"It's alright. You'll get used to it. Remember to record it in your little notebook," Wang Teng said.

Chapter 839: More Confidence To Brag! (1)

Shameless!

Thick-skinned!

Biluo was speechless. She felt grateful to him for saving her life, but she also felt helpless when she remembered his eccentric personality.

In the end, she turned and looked out of the passageway. She didn't want to see Wang Teng anymore.

Swoosh! Swoosh! Swoosh!

Rays of white light continued shooting through the great hall with great force.

The alien martial warriors and the devil lords executed various skills and charged towards the passageway.

Argus and Kathu protected themselves with battle armor. Argus's golden armor had a metallic reflection. It was dazzling and brilliant. On the other hand, Kathu's armor was crimson. It was a little dark and gave off an eerie feeling.

The style of their battle armors was totally different.

Argus's armor was like the black tailcoat one wore to a banquet for the upper class. It was refined and noble. Kathu's was rough and savage like a coat made from wild beasts' skin!

Swoosh!

Swoosh!

The two of them were moving at the same speed. They evaded the blockade of the rays of white light like two bolts of golden and crimson lightning, heading straight for the passageway.

Although these light beams couldn't penetrate their armor, every single strike caused them to pause for a moment. If they had nothing to step on, they would have been pushed back forcefully by the impact.

Fortunately, they were well-prepared. If they were caught off guard, the terrifying force would have thrown them off their feet.

The others behind noticed them and copied their actions. Their bodies started glowing, and an armor appeared around them. Even the devil lords were wearing different black armors. They braved the light rain and flew toward the passageway.

Swoosh!

Swoosh!

Swoosh!

...

Sonic booms were heard continuously. Argus and Kathu were the first to escape from the range of light attacks and reach the passageway. The others lagged behind and came one by one.

Surprised, Wang Teng looked at their battle armors. These armors were quite unique. They covered the entire body, including the head, and protected the wearer from all sides. There were two plates of crystal in the eye area. The eyes of the martial warriors and devil lords could be seen behind them.

Wang Teng also realized that besides Argus, Kathu, and the devil lords, the battle armors on the other martial warriors were like uniforms. Some of them had the same style with the same symbol.

For instance, two of the martial warriors had a phoenix symbol on their left shoulder while three other martial warriors had a special symbol on their chest. These symbols were exactly the same in terms of color and design.

“This is the constellation armor,” Biluo said using voice transmission when she noticed his gaze.

“Constellation armor?” Wang Teng was puzzled. Then, he remembered the constellation armors of the holy knights.

However, there was no point in comparing the two.

The divine constellation armors of the holy knights could be damaged by the attack of a general-stage martial warrior. On the other hand, this constellation armor could withstand powerful light beams. Although there were many marks on the armor due to the attacks, the wearer wasn’t injured. This was enough to prove the armor’s defense ability.

“It’s made using various precious ores and special forging techniques. It boasts amazing defense ability and has an energy consolidation rune device that is able to gather the strength of many powerful attacks and use it as an ultimate move,” Biluo introduced.

“There are also special runes carved in it to make it easier to wear. Once the owner of the battle armor activates the runes, he can wear it directly. It’s a convenient and great support during a battle.

“The armor also has a special trait; it’s made using memory-type ores. Along with the power of runes, it can restore the damage inflicted on it. As long as it’s not too serious, the armor will heal by itself. Of course, the higher the level of the armor, the greater its restoration ability.”

Wang Teng’s eyes lit up. Indeed, he saw the battle armors restoring at a visible speed. It was amazing.

This constellation armor seemed like a good item!

“Are these armors common in the universe?” Wang Teng asked.

“Yes. You’ll be able to buy it if you’re rich enough.” Biluo smiled. “Of course, there are different grades of battle armors. Argus and Kathu’s are custom-made. They used many precious materials the common man can’t afford. Look at the others. Their armors are mass-produced. There are many similar battle armors in the market. The defense ability is not bad, but they will still break under a formidable attack.”

“Of course, this is just in comparison. Argus and Kathu’s armor might be better, but they can only withstand a first-level celestial stage attack. It will be used when faced with anything more powerful.”

1

Wang Teng nodded. He sized up Kathu and Argus while touching his chin. “They are very rich!”

“What’s with that expression?” Biluo asked. She felt speechless.

For some reason, she felt that he was up to no good.

“Nothing. I’m just taking a look. I’m not planning to snatch their armor. I’m not that kind of person,” Wang Teng said firmly.

1

Biluo: ...

Can you be a bit more obvious when you say that?

Chapter 840: More Confidence To Brag! (2)

Biluo was speechless.

This guy really spoke without any restraint. He had no qualms about Argus and the other talents, even thinking about stealing their items.

No one else would dare to think of it.

Wang Teng was too shameless!

“Oh yes. If they all have their own armor, why do you not have one?” Wang Teng suddenly asked.

“I have one!” Biluo answered.

“Shouldn’t you be wearing it? Are you stupid?” Wang Teng glanced at her in disbelief.

“Oh... I forgot,” Biluo said with embarrassment.

1

Wang Teng looked at her strangely and sized her up a few times. This woman was attractive, but she wasn’t very smart.

“What’s with that look of yours?” Biluo glared fiercely at Wang Teng as she blushed slightly.

“Cough. Nothing. I was just surprised.” Wang Teng coughed awkwardly.

“Scram!” Biluo rebuked.

Wang Teng smirked and stopped teasing her. Turning around, he looked inside the hall. There were several corpses. Three of them were alien martial warriors, while the other two were devil lords.

Five planetary-stage warriors died all of a sudden.

It was unbelievable!

Biluo also noticed Wang Teng’s gaze. She said solemnly, “I didn’t expect a powerful trap here. Those were probably laser attacks emitted by the rune devices which stored Force. They are several times stronger than ordinary laser weapons and can kill planetary-stage martial warriors. They were all caught off guard and killed before they could even react.

“It isn’t that I didn’t want to use my armor; there was just not enough time for me to think of it. If I was a step late, I might be dead as well.”

Wang Teng nodded and accepted her explanation. The white beams of light were very fast, and they had appeared abruptly. It was normal to have no time to react.

Sometimes, a thought could mean the difference between life or death in a critical situation!

“Don’t think that planetary-stage martial warriors are strong. In fact, the planetary stage is just the bottom of the barrel in the universe. There are just too many things that can kill a planetary-stage martial warrior,” Biluo added.

“I thought you didn’t know.” Wang Teng glanced at her.

These alien candidates thought so highly of themselves, acting all haughty when they descended on Earth. Fortunately, they knew that they were just at the bottom on the universal stage.

Biluo felt gloomy. She gave him a kind reminder but got dissed instead. How ungrateful.

However, when she saw Wang Teng looking at her, she became a little embarrassed.

In the universe, the planetary stage was nothing. But on Earth, someone in the planetary stage was formidable. It was not unusual for people to look down on Earth’s martial warriors.

But she was rescued by Wang Teng twice. She couldn’t really refute him.

“They gave us quite a big welcoming gift. Looks like there are more dangers waiting for us.” Wang Teng didn’t take it to heart and laughed.

“You’re still joking around.” Biluo rolled her eyes.

Five planetary-stage warriors died just after entering, and more would follow later.

“The more dangerous it is, the greater the opportunity.” Wang Teng chuckled.

Biluo’s eyes flashed. She had to admit that Wang Teng was right. There was definitely a great opportunity here.

Wang Teng saw Biluo’s gaze and smiled. He then released his spiritual power, collecting the attribute bubbles around him.

There was already a small opportunity here in front of him.

A pleasant surprise!

Another pleasant surprise!

A bunch of attribute bubbles was dropped when the planetary-stage warriors and devil lords lost their lives. It was a good thing for Wang Teng.

Constellation Force (Fire)*1700

Emperor-Level Fire Talent*210

Imperial Realm Spirit*660
Imperial Realm Enlightenment*530
10th-Level Fire Sword Conscious*780
Constellation Force (Wood)*2100
Imperial Realm Spirit*680
Imperial Realm Enlightenment*550
Constellation Force (Earth)*1850
Imperial Realm Spirit*560
Imperial Realm Enlightenment*490
Star Alps Blade*100
10th-Level Earth Blade Conscious*1100

...

Constellation Force (Dark)*2050
Imperial Realm Spirit*600
Emperor-Level Dark Talent*120
Constellation Force (Dark)*1900
Imperial Realm Spirit*570
Devil Transformation*30

...

The attribute bubbles merged into Wang Teng's body. The gains were impressive.

Boundless Force attribute bubbles merged into his body and flowed into his limbs and meridians. Then, they swarmed back into the constellation stars above the sea of nihility like swallows returning to their nests.

Fire, Wood, Earth. These constellation Forces skyrocketed instantly. His Spirit and Enlightenment increased simultaneously as well.

The deaths resulted in a large number of Spirit and Enlightenment attribute bubbles being dropped. Moreover, they were all Imperial Realm attributes.

Although they were just a fraction of what a planetary-stage attribute was worth, it was still a lot.

There were a total of 3070 Imperial Realm Spirit attributes, which could be converted into 307 Planetary Realm Spirit attributes.

Spirit: 566/10000 (Planetary Realm)

A total of 1570 Imperial Realm Enlightenment attributes were converted into 157 Planetary Realm Enlightenment attribute points.

Wang Teng's enlightenment had already reached the Planetary Realm. After all, several planetary-stage warriors had fallen, and he managed to obtain many enlightenment attribute bubbles. He just didn't have the time to check the number.

He absorbed large numbers of enlightenment attribute bubbles, and his tally increased by 157 points.

Enlightenment: 357/10000 (Planetary Realm)

Wang Teng's mind was invigorated with the improvement of his spirit and enlightenment. The corner of his mouth revealed a slight arc.

"Why are you smiling?" Biluo asked when she saw him smiling for no reason.

"I feel like I've become a little bit smarter today. Amazing!"

Biluo's lips trembled. Her impression of Wang Teng worsened. This guy seemed a little narcissistic!

Wang Teng ignored Biluo. Hmph, mortals could never understand him.

He continued looking at the attribute bubbles. Emperor-level fire talent was an attribute that Wang Teng didn't have.

Out of the five elements, only the wood talent had achieved the emperor level. Now, Wang Teng had emperor-level fire talent too.

Fire talent was different from wood talent; it was a Force attribute with extremely high attack power. An improvement in fire talent would help in the control of the fire Force.

Next were two conscious attributes. Wang Teng didn't expect to see the two tenth-level conscious attributes here.

Tenth-level fire sword conscious!

Tenth-level earth blade conscious!

After obtaining the Golden Ray Earth-Shattering Sword Conscious, Wang Teng now had two more tenth-level sword conscious attributes.

This was good news for him. After all, he had more confidence to brag now. Not just that, he even obtained a planetary-stage blade technique—Star Alps Blade!

Wang Teng felt emotional. He finally obtained a battle technique that wasn't macho like Mountain Cleaver Battleax.

It wasn't easy!

He didn't want to be a brawny man. He wanted to be elegant and unrestrained~

Wang Teng was elated after gaining a planetary-stage blade technique. He felt stronger again!

The remaining attribute bubbles, Constellation Dark Force, Emperor-level Dark Talent, and Devil Transformation, were all dark attributes.

Despite getting a lot of dark attributes, Wang Teng didn't take a closer look for now. He decided to check them after everything was over.

...

Besides collecting the attribute bubbles, Wang Teng also used his spiritual power to take the space equipment from the dead planetary-stage warriors. Of course, this was done without anyone noticing.

Now that their owners were dead, the space equipment no longer belonged to anybody. Wang Teng immediately used his spiritual power for his benefit.

He realized that the planetary-stage martial warriors had constellation armor and place them inside his space. It was convenient for him to wear the armor. He just had to activate it.

There were a total of five constellation armors. Three were from humans, and two were from dark apparitions!

Wang Teng sniggered. Now, he had an armor as well.

However, it was a pity that they had died. Even though they had their armors, they were still killed by the white beam.

Wang Teng pretended to lament.

At this time, the others had regained their senses and turned to look at the situation in the great hall. The armor covering their faces slowly faded away, revealing their distorted expressions. When they saw that Wang Teng and Biluo were unscathed, they felt as though their hearts had been pierced by arrows.
