

## Marvel 171

### Chapter 171 Deadpool Enters The Stage

In the remote suburb of New York, a small county called Westchester, there is a school for gifted teenagers called Xavier School For The Gifted. Just when Wade found the whereabouts of Francis and when Lin Rui followed him, something was happening in the school.

In this beautiful castle school, there are hundreds of students from ten to twenty years old. In addition to the normal knowledge courses, these students also need to learn something very important to them, that is, the ability to control their powers. Yes, these children and teenagers are all mutants. This is a special school for mutants. The principle of this school is the famous Professor Charles, a level four mutants with telepathy and mind control powers.

At this time, in the headmaster's office of the ancient castle school, a smooth-faced old man sat in a wheelchair and calmly looked at the two men and a woman standing in front of him. One man was tall, and his body was all made of metal. The other man and a woman had nothing special to them in particular except for their handsome and beautiful appearance and they should be the teachers of the school. Obviously, the bald old man in the wheelchair is Professor Charles, and the three people standing in front of him should be X-Men.

"Iceman, Colossus, Blink, this time you three go. Wade's actions are getting bigger and bigger, and our Mutant image can't be hit again." Professor Charles clearly knows what Wade has done recently and it's time for X-Men to do something about him.

"Okay, Professor." Hearing Professor Charles's instructions, Iceman standing in front of him promised. The big guy around him, Colossus and an Asian girl, nodded silently.

"There may be accidents in this operation. You should be careful. I'll keep Storm and Alice on the lookout." Looking at the three X-Men in front of him, Professor Charles reminded them.

Professor Charles doesn't fully understand the organization behind Francis, but he has dealt with it at least many times. He knows that they are not as simple as they seem. Otherwise, X-Men would have killed the secret organization that researches mutants and persecutes mutants. Although Professor Charles's X-Men represents the moderate group, it does not mean that they will endure such persecution of their own race.

"We know." Seeing Professor Charles's solemn reminder, Colossus promised.

"Well, if you're ready to go, you'd better stop Wade before he makes a big move. Also, the organization behind Francis, if they interfere, you can handle them, but remember not to affect ordinary people." He picked up a book on the table that he had just read, and Professor Charles finally ordered.

"We Understand, Professor."

Then, Iceman, Colossus, and Blink turned and walked out of the office.

"I hope nothing happens." Looking at Iceman's back when they left, Professor Charles, who looked down at the book, thought in silence. However, even if there is an accident, the X-Men can completely solve it with their ability.

.....

Three days later, in another direction in New York City, in Weasel's home, Wade had just armed himself and went out. After Wade went out, Weasel immediately picked up the phone and called Mirage Knight.

"Mirage Knight, Wade is gone, I couldn't follow him, where are you now?" The phone was connected and Weasel asked anxiously.

"Don't worry, I've seen Wade. I'll follow him." At the other end of the phone came the quiet voice of Mirage Knight, which reassured Weasel a lot.

"Okay, then please." Seriously reassured with Mirage Knight, Weasel hung up.

At the end of the phone, Lin Rui was sitting in a taxi, and in front of him was the car that Wade had just got on, and he didn't know how someone would be willing to take a person who is dressed in red from head to toe.

"Big brother, follow the car in front of you. Don't lose it!"

"I see. It's not the first time I've done such a thing." Hearing Lin Rui's words, the taxi driver replied lightly.

Lin Rui: "..."

At the same time, Lin Rui sent a message to Spiderman, asking him to be on site. Once Wade and Francis fight, Lin Rui should still need support. Because he doesn't know what's going on with Francis. If Francis's strength is too strong, he must help and he may also need to ask for help.

In this way, the events caused by Deadpool and Francis involve the participation of several forces, and perhaps other hidden forces in the dark are also preparing and waiting for opportunities.

After more than half an hour's journey, the taxi that Wade was sitting on was suddenly stopped on an overpass. Lin Rui also told the driver to stop from far away, but his face was not looking very good. In addition to the money he had to pay the driver to promise his cooperation, he didn't expect that Deadpool would really use this place as a battlefield for revenge against Francis. It's an overpass with a lot of traffic. There are almost hundreds of cars passing by every minute. Lin Rui can't imagine how many ordinary people will be killed if there is a battle here.

Boom!

Worried, Lin Rui has closed the door. Looking at Wade sitting on the guardrail of the overpass after getting off the car, Lin Rui was slowly getting a headache. He knew that the words he would use to persuade Wade will have no effect. His hatred for Francis could not be dispelled by any words. And Lin Rui also wants to see what's behind Francis. However, this is not a good place for a battlefield. Unless Lin Rui can find a way to move the battlefield.

"Maybe I can do that." After a long look at Wade, Lin Rui seems to think of something. Then he slowly steps down the overpass. He needs a hidden place to transform himself. Unlike Wade, he doesn't go out wearing weird tights directly.

.....

Just as Wade came to the overpass, Francis and a group of his men had just finished a transaction at a private airport, and he was driving this way. Looking at their route, they will soon pass under Wade's location.

Brush ~ brush ~ brush ~

Ten minutes later, a series of seven or eight black cars and several locomotives drove into the overpass at high speed. It was Francis and his team. And they don't know what's waiting in front of them.

"Ok! It's time to kill the Bad People! Maximum Effort!" Wade, who had been sitting on the guardrail at the highest point of the overpass, had finally seen the team that was rushing down. He sighed and stood up from the guardrail and jumped down straight towards the cars downward.

Whirl!

Wade quickly fell down from the side of the guardrail. However, just as Wade was about to rush directly into the lower motorcade, a red figure suddenly came from his side.

Bang!

"What?! The! Flying...Fuck...!....." After Wade saw clearly the appearance of the flying figure, he unconsciously uttered a rude remark. Because that guy's dress is very similar to him. It's all red tights, but Wade tights are darker, and they don't have the silk-like lines.

Boom!

The next moment, the rushing figure has already taken hold of the fallen Wade.

## **Chapter 172 Lin Rui Take Action**

Puff!

After holding Wade, the guy in red tights and a spider pattern on his chest shot a translucent spider silk directly out of his hand and took both of them to fly quickly under the overpass. Needless to say, the guy who stopped Wade halfway is obviously Spiderman. He came here immediately after receiving the news from Lin Rui and stopped Wade just when he fell down.

Huh~

Damn it! Spiderman! I know you! " Being held tightly by Peter, Wade shouted. At the same time, he was struggling fiercely to get off Peter.

"Is that right? That's better. Don't move around. I don't want to throw you down! " At Wade's words, Peter replied back.

"F~~k!" Although Wade would like to have a good chat with this guy who looks similar to himself, now isn't the time for that and it was finally time for him to get revenge and he missed today's opportunity. He doesn't know where he would find Francis again.

So, Wade yelled and reached towards his back with his right hand. Swish! The white light flashed and the spider silk pulled by Spiderman's hand was broken. Wade's right hand was holding a sharp blade at the moment, that is, he just cut off Peter's spider web thread.

!

Without the spider's silk, Peter and Wade quickly fell to the ground. But Peter didn't shoot the silk again after Wade cut it off. Instead, he let Wade loose and let him fall. Wade can't die anyway. As for Spiderman himself, he released Wade and launched the spider silk again to the top of the overpass.

"Mirage Knight, I have successfully taken Deadpool away from the center of the overpass." As he swung forward, Peter said to Mirage Knight through the contact in his ear.

"I see. Good job! Daredevil, where are you?" Lin Rui, who was standing in the middle of the road said and then he asked Daredevil who had also come here.

"The traffic has been stopped, no more cars will pass." Soon, Daredevil's voice came, and no one knew where he was.

"Very good, then let me do Wade a favor!" His teammates have done their own thing, and Lin Rui looked at the team that was rushing from a few hundred meters away and said faintly.

!

The next moment, Lin Rui has pulled out the Thunder Blade from his waist. "Fortunately, it's not in the center of the overpass, and the traffic is not so dense. If I am careful, it won't affect ordinary people too much."

Looking at the approaching motorcade, Lin Rui slowly raises his Blade in the air. Then, when the Francis team was more than 50 meters away from Lin Rui, Lin Rui held up his Thunder Blade and quickly slashed down in front of him.

Hum!!

A lavender ray of light visible to the naked eye rushed out of Lin Rui's Thunder Blade. In a flash, it crossed a distance of 50 meters and cut down on the front wheel ground of the car in front of the motorcade.

Bang~~~

With a loud noise, Lin Rui's attack cut a four-meter long, one meter wide and half meter deep hole in the hard road, just in front of the motorcade.

Although Lin Rui was stopped in the middle of the road from a long distance, Francis's men didn't feel that someone really dared to stop them and they did not decrease their speed at all. Therefore, when the light came, they couldn't hide. They stepped on the brakes but the car still rushed into the big hole that appeared in the moment.

Bang! Bang! Bang!

The front of the car went straight into a crack, and then the whole car rolled over, somersault in midair and rolled sideways on the side of the road. As for the cars behind the first one, they were warned by the front car and were able to stop sharply, but two cars behind them didn't stop and crashed into the crack and overturned.

So, when Lin Rui slowly pulled back his knife and stood still again, he had turned over three cars in front of him, blocking up most of the middle of the road, but somehow left some space for the car of ordinary people behind to leave quickly. They are not in the mood to stop for the theatre now, because a group of guys with firearms in their hands has rushed down from several cars that had stopped in a hurry.

Kakaka!

For a while, the sound of guns loading came as the people who had rushed down from the car had pointed their guns at the Mirage Knight, who was still standing in the middle of the road. No orders are needed and they began to shoot in the next second.

And just as the group was about to shoot, the guy in the black trench coat standing in the middle of the road quickly raised his head. "Your trouble is not me!"

Behind this group, Wade, who had just been thrown by Spiderman on the side of the road, was running towards this side. The only gun in his hand had been lifted as Wade had forgotten all of his weapons in the taxi. At this time, he only had a gun with 12 bullets and two blades behind him. However, according to Wade's plan, these weapons are enough for Francis and his men.

"Shoot!" They also saw Wade rushing from the back and someone shouted.

Da da da!

Then, more than a dozen firearms were firing bullets at Wade. At the same time, they did not let Lin Rui in front of them go, the powerful blade attack just scared them a little.

"This is troublesome!" Seeing Francis's men shooting at him, Lin Rui said helplessly.

Puff puff!

After those people shot Lin Rui for the first time, a red-figure had rushed up the road, and several spider webs tied up the guys with guns shooting at Lin Rui.

!

After doing this, Spiderman landed on the guardrail on the side of the road. As for the guys who shot Wade, let him solve it. Peter is too lazy to help him.

"Thanks, Spiderman." Standing still, Lin Rui simply thanked Peter beside him. Those bullets didn't even touch Lin Rui's cloths.

Then, Lin Rui and Spiderman stood quietly and watched Wade rush towards Francis's men in the background.

This is a temporary mitigation plan that Lin Rui just came up with. He let Peter take Wade away from the center of the overpass where the traffic flow was largest. After Francis's motorcade passed by, Daredevil was in charge of blocking the traffic behind him and preventing more people from entering the place that was about to become a battlefield.

Lin Rui was responsible for stopping Francis's team in a position with less traffic so that the battlefield was slightly moved to a place with less traffic, and it was less likely to affect ordinary people. It seems

that this plan is still quite successful. Except for Wade who lost the opportunity to attack, there are no ordinary people on this road.

Bang! Bang! Bang!

Although Francis's team's firepower was strong, Wade, with his own flexibility and not needing to worry about his death, soon rushed towards them. It was finally time for Wade to take revenge.

.....

### **Chapter 173 Francis**

Although the beginning of Wade's revenge was a little unexpected due to Lin Rui's intervention, the next thing happened the same way they did in the original plot. Francis's men were soon under Wade's massacre, which made Lin Rui and Peter in the back uncomfortable. After all, although they won't be soft on these guys, they can't really do the bloody massacre like Wade.

"Wade's power and reaction seem to be much stronger than I thought. It seems that these main characters still have some power bonuses." Looking at the people who had been killed by Wade, Lin Rui thought to himself in the back.

From Lin Rui's observation, Wade's strength is not as great as Peter's, but he is not much worse, and his agility is also a little bit worse. However, Wade has a special advantage that neither of them has, and that is his abnormal Regeneration Ability which makes his body almost immortal. Wade will be fine even if he is shot in the head with a variety of abilities that Lin Rui cannot help but envy.

"But is Francis really so weak? He is just going to watch his men getting slaughtered?" Although Wade's strength is still higher than Lin Rui's expectation, Lin Rui doesn't think Francis will be weak, especially since Lin Rui has been getting a bad foreboding for some time now.

Bang! Bang! Bang!

Just as Lin Rui was thinking about something, Wade shot a guy in the head three times, the same guy who had shot Wade in the ass.

"F~~k! Francis!!" While holding his ass, Wade didn't care about Mirage Knight and Spiderman on the edge of the battlefield and he shouted loudly.

Buzz!

Boom!

As Wade stood in the middle of the field, shouting Francis's name, the sound of a roaring motor was heard. Then a black sports motorcycle rushed out from behind the overturned car. Instead of running away as in the original story, the bike crashed directly into Wade's body.

"Francis!" Noticing the motorbike coming out from behind, Wade gave a roar and jumped off the ground.

!

Wade jumped above the height of the motorcycle, and his body twisted in the air. The next moment, Wade took out his long blade from behind him and cut the man on the motorcycle below.

!

With a slight sound, the micro punch just raised by the man on the motorcycle was directly cut by Wade. However, he also escaped Wade's blade because of the slight impact, but the whole person lost control of the motorcycle because of the blade and crashed into the bottom of a car that had turned over in front of him and fell down.

~

"Francis!" Landing easily on the ground, Wade slowly made his way towards the falling guy with a long knife in his hand, still calling out Francis's name. He seemed to be sure that this guy was Francis.

Bang! Wade took a few steps to the man with the helmet on and kicked him in the head before he could get up.

Puff!

However, the expected close contact between his foot and the man's head did not occur, and Wade's foot was firmly grasped by one hand.

"Ah?!" Looking down at his feet, Wade tried to pull his foot back but he wasn't able to do so.

!

The next moment, a sound of bone fracture suddenly came from Wade's foot, and his ankle was crushed directly.

Shout!

Then, before Wade could scream, the guy on the ground was on his feet. With a wave of his hand, Wade has been thrown out. Bang! Wade, who was thrown out, smashed into a car behind him firmly, which shows the strength of this man.

"Ah! My feet!" Before he got out of the car, Wade was crying out with his feet in his arms. Although Wade has abnormal regeneration ability, he can still feel the pain of the injury.

Da Da ~

Just as Wade was holding his foot by the car and screaming, the driver of the motorcycle came towards him step by step, and took off his helmet, revealing a handsome face with a crew cut but sharp eyes. However, even if he looks ordinary, he would still be a million times better than the current Wade.

"Francis!" Seeing the guy walking towards him, Wade, who was just holding his feet and screaming, suddenly roared. Then, he had jumped out of the car, his broken bone foot has almost recovered in this short time.

Faced with Wade's anger, Francis walked towards him with no expression, but the look in his eyes became colder and colder.

!

The next moment, Wade had already slashed Francis in front of him with his blade, and he wanted to vent all his anger accumulated in these days on the man in front of him. However, Francis pulled two knives out of nowhere and immediately attacked Wade.

Boom! Rub! Dangdang! After several counterattacks, Wade's strength and agility at this time were tied with Francis, which shows that the strength of Francis is not bad and he is a strong mutant.

"Is that guy Francis? He looks no different from the general mercenary. But he is strong." Lin Rui, standing on the edge of the battlefield, also heard Wade's cry before, looking at the two guys fighting together, his eyes flashed and he muttered a word.

"Mirage knight, do you want to go? That guy doesn't seem so easy to solve." Spiderman had just seen Wade's ankle being crushed and thrown out, so he asked.

"We can't deal with this guy. We need to deal with other guys." Just after Peter asked that question, Lin Rui suddenly looked behind Wade and Francis. There, a big-breasted woman and two menacing-looking men stepped out, seemingly At the back of the convoy as Francis had been at the start.

"Eh? Mutants? " Following Lin Rui's vision, Peter also saw the three guys who suddenly appeared in the battlefield and asked in a low voice.

"They should be. I just don't know what their strength and mutant ability are. I hope it's not too abnormal." Nodded, Lin Rui responded lightly.

Sure enough, the actual situation and the original plot are very different. In addition to Francis's strength which seems to be much stronger, there are three more Mutants here and they don't know what their strength is. Thinking quickly, Lin Rui has no plans to watch the show anymore. Wade is already having trouble dealing with Francis, and if there are three Mutants after him, he will be in a very bad position even if he can't die.

"Spiderman, I'll test their ability first. You can choose your opponent according to the situation." Lin Rui said to Peter nearby and has rushed out the next moment. After Lin Rui rushed out, Peter jumped directly from the guardrail.

!!

Dangdang~

In the middle of the field, the battle between Wade and Francis is already heated. Wade now has only one blade left, the other one was in Francis' chest and Wade also got a knife in Francis's head. But what would be a mortal wound to the average person is certainly not enough to make much difference to the two men who are fighting, who are still fighting fiercely.

Cheng!!

But just after the two men made another stab at each other and took a step back, a wave of twisted air suddenly rushed towards Wade from behind. It's one of the two guys around the big breasted woman who did it. It seems that his mutant ability is the ability of air cannons and something similar to it.

Although Wade also immediately sensed the attack coming from behind him but he is clearly unable to escape it. Just as Wade was about to take the attack hard, a lavender light shot straight at the air cannon from behind him.

Bang!

Then a violent explosion erupted not far behind Wade, nearly knocking him and Francis to the ground.

#### **Chapter 174 Division of Labor**

“F~~k!Bah! Pooh!” After being knocked to the ground by the violent blast wave behind him, Wade got up quickly and kept swearing.

As soon as Wade got up, a figure rushed in front of him. Francis, who was further away from the center of the blast, apparently suffered a much smaller blow and he kept hitting Wade again while his head was still in a daze.

!!

The sharp knife had stabbed Wade in his neck while he was still holding his head and cursing. Then Francis raised his foot and kicked Wade out again.

Boom!

With a loud bang, Wade was directly kicked by Francis flying into the roadside fence. The knife on Wade’s neck went straight through his neck, and huge pools of blood gushed out like a fountain. If his tights hadn’t been crimson, They would have looked terrible.

However, Wade, who received such a knife in his neck, was soon on his feet. Wade standing up in the direction of Francis was ready to continue to curse, but his throat was stabbed and he found that he could only use a few syllables. Next, Wade’s right-hand holds the handle of the knife that was sticking out of his neck. Poof! The next moment, there was another big splash of blood as Wade pulled the knife out.

“S ~... Er... Ah... F~~k! Finally! Francis! You cheater, you got someone to attack me from behind!” The wound on his neck recovered quickly. When he could speak, Wade immediately pointed to Francis and scolded him. Wade obviously knows what had happened to the explosion behind him. If it wasn’t for Mirage Knight, he would have just been hit.

However, at this time, Francis’s attention is not on the guy he just kicked out, but on the contrary, he looks coldly in the direction of the previous explosion. There, two weird looking guys were fighting with his three mutants.

Lin Rui is the one who helped Wade block the air cannon in advance. Although it’s hard to defend the air cannon, which has quality and invisibility, Lin Rui’s sword energy is obviously able to deal with such attacks. After blocking the air cannon, Lin Rui rushed directly to the three men in the back.

In addition to the mutant ability of the guy who already fired the air cannon, Lin Rui already knows the mutant ability of the woman with the big chest and it is supposed to be super strength and physical defense. The ability of the remaining ugly man would soon be found out as Lin Rui rushed towards him, he suddenly saw a slender red whip coming towards him.

“Energy materialization?!” After seeing what the whip was, Lin Rui was a little surprised. Generally, the Mutants that can control variant energy entity attacks are relatively high on the food chain, and Lin Rui did not expect Francis to have such a person. Or, are these guys not Francis’s men?

Puff!

Without thinking about it, Lin Rui was standing on the top of a car parked on the side of the road. The whole man jumped into the air and dodged the attack of the energy whip flexibly. In addition, Lin Rui stepped on the air several times, and the whole person flashed several times in the air and rushed to the front of the three people not far away.

“Hum! He got out of my air attacks and went towards you both. Angel, I’ll help Francis.” Seeing Lin Rui dodge his air squeeze several times in the middle of the air, the guy who can send out the air cannon said a word to the two people around him and hurried to Francis, where Wade and Francis fought again.

“Yes.” With a simple promise, the guy who made the energy whip has waved the energy whip with a red light in his hands again. As for the big-breasted women, Angel Dust, standing beside him, she said nothing, but she also threw out the match stick in her mouth.

“Spiderman, you go after that guy, leave these two to me.” Ignoring the guy who can simply manipulate the air, Lin Rui has already rushed with his blade to within five meters of the two still in the same spot, a distance that can be covered within the blink of an eye with current Lin Rui’s speed.

Hoo!

When he heard Lin Rui’s words, Spiderman flashes from behind him and flies towards the mutant who can simply control the air attack. Peter was still in the air, and several spiders’ silk threads had already shot out. Lin Rui’s arrangement is also suitable. The guy whose mutation ability is to control the air is obviously not good at close combat. Spiderman obviously has an advantage in dealing with him.

Lin Rui, though dealing with two people himself, is obviously confident in his own strength. At least, he felt that the energy absorption of the thunder sword was just enough to deal with the guy who can use the energy whip. And the big breasted girl, Angel Dust, Lin Rui thinks that he can easily deal with her with his current strength.

!

As Lin Rui continues to charge toward the two, a fiery red streak was drawn out. This time, Lin Rui did not hide anymore. He met the whip with his thunder blade and waved it.

Buzz~

At the next moment, it became clear that the red fire whip is made of energy as it quickly circles around the thunder blade like a tangible substance. Then the red light rises sharply. Lin Rui feels hot energy rushing towards the thunder blade, wanting to attack himself through the thunder blade. However, the energy didn’t spread to Lin Rui after it rushed to the blade. They were completely absorbed by the blade.

Buzz~

As the energy on the whip weakened, the fire red whip, which was originally thin and thick about small arms, quickly thinned and remained only about half of its original diameter.

“Eh?” Lin Rui didn’t expect that the energy contained in the whip would be absorbed by the thunder blade so simply, and there was a flash of thought in his eyes.

It seems that although this guy has the ability of energy materialization, his level is obviously not very high. His own energy does not even have one-tenth of arc reactor energy.

“Hum!” Since this guy’s strength is not good, Lin Rui is not going to be polite. After a cold hum, the thunder blade in his hand flashed with a purple arc, which was mixed with some red energy that has just been absorbed.

!

The huge purple blade light directly shatters the whip wrapped around the blade’s body and then rushes towards the front two people quickly.

“Not good! Get out of the way!” Seeing the flashlight of the blade, the guy with the energy whip was stunned and he shouted to the Angel Dust nearby. Then he quickly flashed to one side.

In fact, he felt something was wrong when his whip went around Lin Rui’s thunder blade. His energy was inexplicably absorbed by the guy in the black coat. He thought he met a mutant who was specialized in absorbing other mutants powers. He didn’t know it was the effect of the thunder blade but thought it was Lin Rui’s own reason.

Boom!

Just as the guy and Angel Dust were dodging aside, Lin Rui’s blade split right through them. Finally, twenty meters behind them, it hit the ground and cut another deep hole in the road.

“Ah!! My feet!” At the same time, the ugly man who jumped to the side of the road screamed out. It turned out that although he had just tried to avoid it, the light of the blade still crossed his foot. After a little touch, his whole right foot was cut off from under his ankle. At least for the time being, he has lost his fighting power.

However, Lin Rui doesn’t have time to see the guy who is screaming. Because Angel, the big-breasted violent woman had already rushed in front of him.

With the thunder blade across his chest, Lin Rui wants to see how strong this violent woman is. The next moment, however, Lin Rui regrets it.

Boom!

An explosion broke out in front of Lin Rui, then he flew out like a sandbag. Lin Rui was shot out under the punch of Angel Dust!

## **Chapter 175 Self Destruct**

Boom!

Lin Rui, who was punched back by Angel Dust, crossed a beautiful arc in the air and finally slammed into a car and stopped.

“Mirage Knight! Are you okay?!” Peter, who was dealing with the other mutant with the power of air cannons looked towards Lin Rui. He was surprised, this is the first time he saw Mirage Knight getting hit back like this.

“Cough! Don’t worry! Just a little carelessness! You don’t have to worry about this side. Get that guy!” It took a little over two seconds for Lin Rui’s voice to come out, calmly indicating that he was OK.

“Yes.” With a promise, Peter turned towards his opponent.

“Really! The strength of this big-breasted violent woman is too great!” After redirecting Spiderman, Lin Rui couldn’t help but sigh in his heart. He almost just couldn’t breathe under the power of a single blow.

Although Lin Rui had already prepared for it, he still couldn’t believe he was punched back by her. With Lin Rui’s current physical strength and internal energy, even if Peter attacked him with his full power, he may not be able to achieve this feat. He can only say that the big breasted woman is really violent and strong.

In fact, it’s Lin Rui who is taking the enemy lightly. Even in the original movie, Angel Dust can fight off the metalized Colossus with her fists which can produce several tons of power. The attribute of Thunder Blade is to absorb energy. This kind of solid power can’t be absorbed.

!

As Lin Rui leans against the sunken car to catch his breath, the fiery red whip strikes again. It seems that the guy with a broken foot didn’t give up such a chance to kill Lin Rui.

“Hum! I can’t stop her power, but you think you can attack me with your energy!” His eyes, hidden under the hood flash with light and Lin Rui directly picks up the Thunder Blade in his hand.

A purple blade energy appeared in front of Lin Rui and the next moment he was greeted with a whip drawn from his head. Almost no sound was made and the red energy whip had been broken by the blade energy. Lin Rui didn’t even look at the attack on his head, and he disappeared from his current location.

“Stop This!” The next second, Lin Rui has appeared in front of Angel Dust. Lin Rui raised his blade and slammed it. This time, Lin Rui has used all his strength.

! ~~

A crisp sound came from under Lin Rui’s body. The whole body of the C grade magic weapon Thunder Blade quivered as if it had been cut on a piece of hard alloy. Even Lin Rui’s hand holding the handle quivered with it.

“What’s the matter?” Lin Rui is really stunned. His Thunder Blade can cut through steel. How can it be blocked?

When Lin Rui didn't find out what the situation was, a huge force suddenly came from under the blade, which directly lifted up Lin Rui's Thunder Blade. Now it's totally out of Lin Rui's expectation. To be on the safe side, Lin Rui quickly jumped back and took a step along with that force.

Da ~

Gently landing on the ground, Lin Rui carefully looked ahead. He saw the target of his attack: Angel Dust, who was slowly standing up from the ground with her arms crossed over her head. On her hands, a pair of half-finished alloy gloves that showed her fingers were exposed. There was a pair of wristbands on her wrist. Just now, this pair of wristbands blocked Lin Rui's Thunder Blade.

However, with Lin Rui exerting all his strength, it is obvious that the violent woman didn't have an easy solution. At this time, there is a big pit full of cracks in her standing position, which shows how much strength she has just suffered.

"It seems that these guys have more strength and equipment and are stronger than compared to the movie!" After carefully observing the equipment on Angel Dust's hand, Lin Rui can't help but think of it.

Even though the violent woman had great strength, Lin Rui would have been able to defeat her with the sharp edge of the Thunder Blade. But now she has more powerful fists and wristbands that can block the Thunder Blade, which directly enlarges her strength advantage by several percent. It's impossible for Lin Rui to defeat her easily now.

"In this case, then..." Lin Rui's eyes flashed and he rushed out again.

Hoo!!

This time, instead of dealing with the violent woman, Lin Rui turned towards the tall and ugly man. Although his mutation ability is energy manipulation, the threat he poses to Lin Rui is not great because of his poor quality and quantity of energy. Moreover, at this time, he has broken one foot and it is impossible for him to avoid Lin Rui's attack.

Sure enough, seeing Lin Rui rush towards him, the face of the man changed. However, Lin Rui's speed at this time is not something that he can avoid. The man only had time to form a simple energy shield by circling the fiery red energy in front of his body twice. The next moment, the Thunder Blade emitting purple light had been chopped down.

Rub!

The moment the purple Thunder Blade appeared, it struck the center of the fiery red shield, and after a tremor, the shield broke into a red glow and disappeared, revealing the face of a shocked man.

"Hum!" Without any hesitation, Lin Rui pushed the Thunder Blade forward and easily inserted it into the man's chest.

!

"Er!..." Looking at the long blade that has been stabbed into his chest, the look in the eyes of the man still seems to be unbelievable. However, it seems that he thought of something before he died and he suddenly smiled at Lin Rui.

“You...” Lin Rui thought it was strange to see that the man had a strange smile on himself before he died. However, just when Lin Rui was confused, he suddenly felt an extremely dangerous feeling in his heart.

Dī dī drops!

Bang!

It seems that he heard a few dī dī sounds. The next moment, The Mutant killed by Lin Rui exploded directly! The bloody rain mixed with some broken clothes and the subsequent fire light completely enveloped Lin Rui near by! There is a powerful bomb in this man’s body, which was detonated when he died!

In fact, the mass production of mutants like this man has been implanted with this powerful bomb. On the one hand, it can control them. On the other hand, it can be used as a human bomb to kill the enemy when they die. However, Lin Rui now knows that it’s too late, and he’s completely covered by the explosion.

“Mirage Knight!!” While Lin Rui was covered by the self-destruct power, Peter’s voice came from behind.

For Peter who has spider-sense, it is very easy for him to deal with the mutant who can control the air easily. After dodging several air bombs, he immediately gets close to him and subdues him. However, just when Peter tied the man with his web, his spider-sense suddenly gave him a warning, and the position was behind him at Lin Rui’s. So when Peter turned around, he saw Lin Rui getting swallowed by the mutant self-destruct.

Hoo!

Regardless of the fact that the man on the ground has not been tied tightly, Peter has rushed towards the explosion site fearfully. Although he knew Lin Rui had a special protective device, he was worried about the explosion at such a close distance. However, before Peter had rushed out for a few steps, he was stopped by a person in front of him, it was the violent woman.

“Get out of the way!” Mirage Knight’s situation is not clear and Peter has no time to get involved with the big-breasted woman in front of him.

Hoo!

Without answering Peter, Angel Dust had clenched her fist and started hurling it at him. In the face of the violent woman’s attack, Peter is not polite and directly pushed to the front! Bang! The next moment, Angel Dust’s punch which blew away Lin Rui is stopped by Peter.

“Get out of here!” In a low voice, Peter’s seemingly weak body erupted with a terrifying force.

!

The alloy glove on Angel Dust’s hand was directly hit by Peter and it created a small depression, and she was knocked back by the punch.

After beating back Angel Dust, Peter continued on his way to the spot where the explosion had happened. By this time, however, the force of the explosion had dissipated, and it was becoming clear what was going on inside. In the center of the explosion, a figure seems to be standing there.

### **Chapter 176 Eh? Dad?**

“Mirage Knight!” When he saw the figure clearly, Peter cried out in surprise. In the center of the explosion, Lin Rui is standing on the ground steadily, his Thunder Blade is in front of him, and the purple light on it gradually comes back to him.

~

Later, only Lin Rui could hear a slight noise coming from his waist, and the last guardian charm left on him was broken.

“Fortunately, the Guardian charm helps me block it, or I would have suffered a lot this time!” Slowly putting the blade down, Lin Rui was a little scared in his heart.

At the moment of the guy’s self-destruct, Lin Rui had only time to pull back his blade. The man self-destructed when he had not made a defense. Fortunately, the guardian charm on his body blocked the shock wave of the explosion at the first time and then got the time for Lin Rui to defend.

Before the Guardian’s energy was exhausted, Lin Rui had mobilized his internal energy to form a semi-circular blade dome in front of him to block the explosion. Therefore, although the explosion was directly in front of Lin Rui, he was only shocked a little and wasn’t injured.

“I’m fine, Spiderman.” From the center of the explosion, Lin Rui responded to Peter.

“What happened just now?” Stepping up to Lin Rui, Peter swept the big pit that has formed in front of him and asked Lin Rui. Although he saw that Lin Rui was swallowed up by the explosion, he did not see that the man has self-destructed. He thought that there was a bomb on the man.

“Just now, the man was planted with a powerful bomb. It should be the means by which the strength behind them can control them and surprise the opponent before he dies.” Lin Rui’s eyes were cold as he explained the situation to Peter.

Although Lin Rui doesn’t like these hateful mutants, he also knows that most of them are transformed by experiments. The bombs in the body should be implanted after they become mutants. So, what he should hate most is not them, but the people who control them.

“So, they all have a bomb that can explode at any time?!” Hearing Lin Rui’s words, Peter looked down at the violent girl who was walking towards them and the guy who was half-bound by him.

“I don’t know if there’s a bomb in Francis’s body, but these people will likely to have it.” Lin Rui replied with a frown.

If that’s the case, they can’t do it now. Also, they need to be on the lookout during the battle, otherwise they will suddenly be self-destructed if they strike, which can be very dangerous.

“What now?” Peter finds it hard to deal with Angel Dust who has already rushed over. This violent woman is not much less powerful than himself, and her defense is also strong. If he held back because of the bomb in her body, he will not be able to fight her.

“I will hold her down. You will find a chance to tie her with the spider web.” Now it’s the only way to do it. Although Peter’s strength is very strong, he can’t prevent the threat of bombs. Lin Rui can at least defend himself with sword energy.

“Okay, you be careful!” As a reminder, Peter made no other suggestions. If it’s two to one, they should be able to handle this.

!

The next moment, Lin Rui was already shaking all over his body and rushing towards Angel Dust with his internal energy. He had been a bit careless when he had been knocked out by the violent woman, and now he knew that the violent woman was so powerful, it would be shameful for him to have to face the same situation again.

!

The Blade shadow flashed and Angel Dust raised her right arm and held the Thunder Blade over her head. However, a sharp lavender energy suddenly came out of the Thunder Blade which was blocked by her. It went through her arm and directly split towards her chest.

!

At the moment of danger, Angel Dust stepped on the ground with a jerk. The whole person quickly leaned on the spot, just avoiding the blade energy. When she was evading the blade energy of the sword, the right arm on the top of her head naturally withdrew some strength, and Lin Rui took advantage of the opportunity to chop down, while Angel Dust also kicked her foot at Lin Rui’s waist and abdomen.

Boom!

With a muffled sound, Angel Dust kicked Lin Rui straight away. However, there was a long cut on her cold face, and the blood was slowly seeping out. Oblivious to the blood on his face, Angel Dust has launched another attack on Lin Rui.

!

The all-out power of Lin Rui is no longer under Angel Dust, so of course, he will not avoid it at all, and he has already made the same rush with the Thunder Blade in his hand.

.....

Boom!

After a long close fight, Wade, who has super regeneration ability, finally knocked Francis down. Although Francis did not feel pain, and his mutant enhanced body was able to resist most of the injuries, there was still a long way to go compared with Wade’s undead ability.

“Francis~~Francis~~” Walking toward Francis step by step, who was lying on the floor, Wade sing sang his name.

!

Once again, Wade grabs Francis by the collar and picks him up and then he punched him hard, and Francis was thrown like a sack into the corner of the road. Wade can finally take revenge on Francis. He has been waiting for a long time.

“Cough! Cough!” On the roadside guardrail, Francis looked at the guy in the quirky tights in front of him with a mocking smile.

!

It seems that Wade was upset to see Francis’s expression and directly threw out a blade in his hand, which then inserted itself into Francis’s chest at the next moment, and nailed him and the roadside guardrail behind him. Then Wade went to Francis and squatted down.

“Ah! A bad person is caught!” Fiddling with the hilt, Wade said oddly.

“Bah!” He spits blood on one side, and Francis looks at Wade in front of him. I don’t know if he’s big-hearted or really not afraid of death. Does he have no emotion but no pain? However, he was clearly angered by Wade before.

“Maybe, you still don’t know who I am? So, How about now?” In the face of Francis’s calm and disdainful expression, Wade lifted his mask and revealed the horrible face that could hardly be seen before.

“Wade Fucking Wilson. Well hello, Gorgeous.” Seeing this ugly face in front of him, Francis’s expression finally changed. He recognized Wade at a glance because he turned Wade into something like this.

“I didn’t expect you to be alive, and apparently I made you Immortal, I am actually quite jealous.” Looking at Wade’s eyes full of hatred, Francis said with a smile.

Bang

“Tell me! How can I get back to the way I used to be!” Punching Francis on the face, Wade asked viciously.

The main reason why Wade has kept Francis alive until now is that he wants to return to his formerly handsome look, and the most likely way is to be Francis. After all, he turned himself into this. This is why Wade is reluctant to see Vanessa. He has to change back to look handsome and go back to see her.

“Haha, do you really think there is such a way? It’s impossible. Once the mutant gene is activated, it can’t be reversed. You have to live with this ugly face for the rest of your life.” With a sneer, Francis doused Wade’s hopes directly.

“Fuck!!” When he heard Francis, Wade lost all hope of recovery.

“Then, you’d better die!” Since there’s no way to get himself back to the way he used to be, Wade certainly will have revenge. Raising his fist, he was sure to give Francis a cruel blow. However, Wade didn’t notice that a shadow came near behind him.

!!!~~

Wade’s back fist suddenly knocked on some steel, making a clear sound.

“Dad?!”

.....

## **Chapter 177 X-Men**

“Dad?!” Wade lets out a cry of surprise as he touches the shape of the hard object blocking his fist. Brush! A huge steel hand grabbed Wade’s arm from behind and threw him out.

Bang!

Caught off guard, Wade directly hit a car and stopped, then he fell on the ground like a pie on the floor. By the time he was thrown, Wade had already seen who had thrown him, a man of steel more than two meters tall. There were two other people besides the man of steel, a handsome man with brown hair and a beautiful woman with an Oriental face.

The three people who suddenly appeared on the battlefield wore uniforms and a prominent X mark on their chests. Needless to say, these three are the X-Men: Colossus, Iceman, and Blink who received the mission from Professor Charles and came to prevent Wade’s revenge from getting escalated.

“Stay here, don’t move.” Colossus glanced at Francis, who was stuck on the guardrail of the road and said. Then he walked over towards Wade, and Iceman and Blink naturally followed him.

“You have been warned before, Deadpool. This is a shameful and reckless use of your powers, You are giving Mutants a bad rap for using your powers so freely, you’d better come back with me.” Walking towards Wade, Colossus looked at the guy who got up from the ground and said seriously.

“I don’t have time to talk to you about what I should or shouldn’t do now. Just don’t stand in my way.” As he got up from the ground, Wade said indifferently. Wade is most annoyed with the X-Men, Who not only have to restrain their own ability, but also interfere everywhere.

“Hello! Beautiful!” When he sees Blink standing beside Colossus, Wade also greets her frivolously.

In the face of Wade’s teasing, Blink’s face is expressionless, while Iceman standing beside her looks at Wade strangely.

“We can’t allow this kind of behavior, Deadpool, you can choose to be a better person.” Colossus continued.

“La la la ~ what? Do you want me to join your fork team?” Bypassing the giant Colossus, Wade walks towards Francis again and puts a foot on his head. Bang! Francis had another cut on his face, but he didn’t feel any pain and still looked at Wade with disdain.

“Wade, you can do better than you do now. Your revenge will only bring more damage.” Looking at Wade coming back, Colossus continued to persuade him to “change his ways”.

Boom!

When Wade was going to shut up the big steel man for a while, a muffled sound came from behind them, which attracted their eyes towards it. It turns out that Lin Rui and Peter finally defeated the violent girl, Angel Dust though it was really not easy.

“Oh! Spiderman and Mirage Knight!” At this point, Wade seemed to remembered the help he got from Mirage Knight and Spiderman to defeat the three other Mutants with Francis and he shouted with joy.

Then Lin Rui and Peter, who have solved the problem named Angel together, have come to Wade’s side. Apparently, they also notice that the situation here seems strange.

“This big guy with the metal body is obviously Colossus, who are the other two?” Lin Rui was already observing the three X-Men when they came over to Wade. However, because it is different from the original movie story, Lin Rui can only recognize Colossus with a signature appearance at this time. The brown-haired handsome guy and the beauty of the oriental face are unknown to him.

“Mirage knight, are they X-Men? Is this real?” Unlike Lin Rui, who is calm around them, Peter was already excited when he saw the X sign on the chest of Colossus and the other two.

Although the world’s various mutants are not so famous but the X-Men, the mutants brotherhood, and the Hellfire Club became famous decades ago and they are some of the mutants known to ordinary people. Among them, X-Men is undoubtedly the best-looking side of the forces of mutants, and Peter obviously knows some stories of X-Men.

“Well, they are X-Men. But why are you so excited? Didn’t you say that you don’t like Mutants before?” Noticed Peter’s emotional changes, Lin Rui asked curiously. Lin Rui remembers the fact that when Peter and Jack first met, the two people almost fought each other. Jack is also a Mutant.

“Who said I don’t like Mutants?! And the X-Men is not the general Mutants! They are a group of Mutants who yearn for peace. The goal of Professor Charles, who leads X-Men, is to make Mutants and the ordinary humans live in peace without distinction. I admire him a lot and he is also a genius.” It seems that Lin Rui misunderstood him and Peter quickly explained himself.

“Mutants and ordinary people live in peace without any difference? That’s the main reason why Professor Charles and Magneto parted ways because magneto knew it would never be possible.” Hearing Peter’s words, Lin Rui’s eyes flashed and he thought silently.

On this issue, Lin Rui feels that Magneto’s way of thinking is correct even though his methods are too extream and wrong and it is impossible to fit the big picture of the world today. But Professor Charles’s expectations are equally difficult. As long as there are differences, Mutants and ordinary people cannot get along with each other equally. Thinking about it in his heart, Lin Rui and Peter have already reached Wade in front of them.

“Mirage knight, I knew you would help me. Weasel has been watching me mysteriously for a few days. I can see that he was in touch with you after watching him a little.” Seeing Mirage Knight coming to him, Wade said with ease. It seems that weasel’s little movements can’t be concealed in front of Wade.

When I heard Wade, Lin Rui simply nodded and said nothing. His eyes are still in front, staring at the three X-Men.

“But, Spiderman, I saw him for the first time! Your clothes are cool! It will be as cool as mine is in some time!” After greeting Mirage Knight, Wade leaned over to Peter and looked at him from up and down.

“You won’t be copying me?” Seeing Wade turning around himself and saying that his clothes are not as cool as his, Peter asked unceremoniously.

Peter’s spider suit has been much more functional than before, but the basic shape hasn’t changed much, and it’s very similar to the red tights that Wade wears now. If it weren’t for the spider webs on Peter’s Spider suit, it’s really easy to mix them up.

“Copy you?! I am not copying anyone!” Hearing Peter’s faint words, Wade jumped out and shouted.

“Isn’t it? I’m standing right in front of you!” Seeing Wade’s angry look, Peter added a light sentence. To be honest, Deadpool was tortured by Francis when Spiderman appeared in New York so he doesn’t know him.

“You!...” For the first time, Wade felt that he had met a fierce enemy in this life. However, Wade’s clothes do have a lot of reference to spider clothes, which is why he was surprised to see spiderman for the first time.

“Okay, okay, you will have the time to argue later.” Just as Deadpool and Spiderman began to quarrel with each other, Lin Rui finally interrupted. “Now let’s solve the situation first, and tie these two mutants.”

As he spoke, Lin Rui looked at the three X-Men in front of him. Although Lin Rui has seen a lot of mutants, including a guy who could barely reach level 4 in power, this is the first time that he had seen the famous X-Men. Although Lin Rui is not as excited as Peter was before, he is also a little excited. In his previous life, of all the marvel world movies, the X-Men series was Lin Rui’s favorite. He still knows some of the main characters.

“Spiderman? Mirage Knight? Do you know Deadpool?” Before Wade and Peter quarreled, Colossus couldn’t speak anything. Now when they are finally quiet, he asked a question with some doubts.

“Mirage knight and I are good friends!” Before Lin Rui answers, Wade has already shouted out the answer, for fear that Lin Rui will say something like they are not familiar with each other. After all, Wade just completed a mission with Mirage Knight before, which is the kind of money collection and work.

“Oh? Is it?” Colossus apparently did not believe that when he heard Wade, their information did not show any intersection between Deadpool and Mirage Knight.

Because Mirage Knight is not a Mutant, X-Men doesn’t pay much attention to this Vigilante, and they don’t know exactly what he has done.

“Hello, I am Mirage Knight, a friend of Wade.” Without embarrassing Wade, Lin Rui calmly reaches out to Iceman and introduces himself. Because Colossus is too high and full of steel, Lin Rui doesn’t want to shake hands with him. What if his hand is broken accidentally? As for the cold and gorgeous Oriental face beauty on Iceman’s side, her face has still remained unemotional, and she is not the object Lin Rui

wants to shake hands with, so after a little consideration, Lin Rui directly reaches out to the handsome man in front of her.

"Hello, Mirage Knight. We are X-Men, I am Iceman, this is Colossus, and this is Blink." Looking at Vigilante in front of him, Iceman smiled and reached out and shook hands with Lin Rui and introduce the two people around him.

## **Chapter 178 Francis Support**

Iceman, Robert? Lin Rui was a little surprised to hear the handsome man's self-introduction. It's not that of he does not know this Mutant who did not appear much in at the X-Men Series. On the contrary, Iceman is Lin Rui's favorite supporting role character except for those protagonists.

In X-Men's films, Iceman is not shown much as a supporting role, but he shows his strong ability of variety. Iceman's ability in the series seems to be less powerful in the light of several protagonists, but Lin Rui knows that this ability is abnormal. According to the level of variation ability, this one is superior to Professor Charles and Magneto Eric, who are the top-level four and level five mutants.

"Well, hello, this is Spiderman." Although he was a little surprised, Lin Rui did not show anything on his face because of his mask and then he introduced Peter.

"Hello! X-Men! Nice to meet you!" When Lin Rui introduced himself, Peter was excited as he came forward and says hello to Iceman.

"Hello, Spiderman. I know you, the guardian of New York City." Iceman also smiled and shook hands with Peter. He still knows something about Spiderman.

"Haha, then you are the guardians of Mutants." Peter heard Iceman's words and smiled and responded.

"Hey! Didn't you come here to find me?" Seeing Iceman and others set themselves aside and chatted with Mirage Knight and Spiderman. Wade asked with some dissatisfaction.

"Well, we're here to find you. But you have already done it, and you don't want to join X-Men, so what else can we say to you?" At Wade's words, iceman turned to him and said softly.

"You!..." Wade just got defeated by Peter's words and now he is choking on Iceman's words, Wade felt how he met so many weird guys today.

Not carrying about Wade's mood, Lin Rui thought of something after hearing Iceman's words.

"Robert, you said Wade has already done it, and you came over to stop him from revenge? Do you know anything? About the power behind Francis?" Now that X-Men appeared and Francis was stuck by Wade, Lin Rui's feeling became clearer.

"Actually, the force behind Francis..." When he heard Lin Rui, Iceman's eyes flashed and he was ready to explain. However, Robert's words have not been finished, and the voice of Daredevil came from the microphone in Lin Rui's ears.

"Mirage knight, a group of people just crossed the blockade line, and now they are heading for you. Be careful, I feel several very dangerous people in here!" Matt, who has been at the back of the overpass,

warns them urgently through the contact. He doesn't know who the team is that has crossed the blockade line.

"Someone came over and their strength is not low." Without waiting for Iceman to explain clearly, Lin Rui has already said this situation quickly.

However, when they heard Lin Rui's words, Iceman or the tall Colossus did not have a surprised expression. As for Blink, who had never spoken till now, her expression has never changed.

"That's why we're here. The force behind Francis is an organization that controls a large number of mutants. We have fought against this organization many times in the dark, but they hide too much, and they control a lot of mutants. We can't watch those mutants self destruct." He seems to feel Lin Rui's curious eyes on him and Robert quickly explains the situation in a few words.

This is also the reason why they know Wade's three X-Men will fight so hard when he seeks Francis for revenge. If Wade only targets ordinary people, they won't waste their time to find trouble for themselves.

"There is such a huge organization behind it!" Peter seemed to be frightened at Iceman's words. Lin Rui told him before that there should be an organization behind Francis, but Lin Rui is only guessing after all. Now it's totally different after getting the confirmation from X-Men.

Boom ~ bombardment!

Just after Robert had just explained the sentence, there was a roar of an engine from behind the overturned cars behind them, and there were few cars and motorcycles coming towards them. Obviously, the team that just crossed the blockade line on Daredevil's side is almost here.

"Francis is a man of some standing in this organization. He is responsible for part of the mutants and underground arms trade on New York's side. So, in order not to let Francis fall into our hands, it's normal for them to send someone here." Before those people arrived, Robert continued to talk to Lin Rui and Peter about the organization. As for Wade on the other side, they automatically ignored him.

"So... Er ~ Wade..." Hearing Robert's words, Lin Rui glanced at Francis's position casually, but when he saw the situation there, he called Wade in an odd voice.

"What is it?" Wade, who was ignored, asked indifferently.

"Over there." Pointing behind Wade, Lin Rui beckons him to have a look.

"What? Hey!? Francis!" At the reminder of Lin Rui, Wade turned and looked back. Then he saw that Francis, who had been stuck on the side of the road, had disappeared.

Booming~

While Wade was shouting Francis's name, a sportbike rushed past them. It was Francis who pulled out the blade and escaped.

Puff!

Seeing that Francis is about to escape and the sound coming from the front direction is very close, Peter was the first to react and he shot a spider silk thread. At the speed of the silk, it could easily catch Francis again.

Buzz!~ stretch!

However, just as Peter's web was about to hit Francis, a translucent wind blade suddenly came from the front of Francis and cut the spider silk directly. As for Francis, after quickly bypassing a few cars, he disappeared from the view of Lin Rui and others.

~

Peter unexpectedly retracted his hand and looked up at the top of the front of the car. Lin Rui and Iceman also looked towards that direction. On the roof of the car, a guy wearing a dark blue suit with long hair is standing on the roof of the car, and no one knows when he had appeared.

"Wind spirit." Looking at the suited man, Iceman's eyes flashed and he whispered a name, which is obviously the nickname of the Mutant. The wind blade that saved Francis just now should have been sent by him. In this case, his mutant ability should be quite advanced and he does not know how strong his ability to control the wind is.

Bang! Bang! Bang!

After the appearance of the guy named Wind Spirit, there was a loud roar from behind him. Then, Lin Rui and others saw a tall figure coming towards them step by step and that person shifted the car in front of him with a hand to the side. When the tall figure took the last car in front of him and stood at the side of Wind Spirit, it turned out to be a three-meter-high giant, half a meter higher than Colossus!

"Tank!" Seeing the giant man, Colossus directly called out his name. Apparently, they have had a fight before, but they don't know who is more powerful between Colossus and the giant.

However, why do these big guys like to call themselves tanks? Lin Rui said something in his heart when he heard Colossus's words. He remembered that he had met a mutant called tank before, but he couldn't compare with the guy in front of him.

Da Da ~

After the giant appeared, a little boy slowly walked out from behind him. Because the giant man was so tall, the boy who came out only reached his waist. However, although the little man looks ordinary, Iceman's face is getting uglier. It seems that they pay more attention to him than Wind Spirit and Tank.

"Magician!" Calling the little boy's nickname is Blink, who hasn't talked. Now she has some expression on her face.

Whirl!

After these three people appeared in front of Lin Rui's eyes, five or six people slowly walked out from behind them. It's clear that they're all mutants developed by the forces behind Francis. As for the air control mutant and Angel Dust who were injured by Lin Rui and Peter before, they are also behind the group, but because of their injury, they should not have much combat effectiveness now.

In the face of the team of a dozen Mutants who appeared in front of them, Lin Rui also had a tacit understanding of standing in front of the line. Six Vs ten, they are not afraid.

## **Chapter 179 War Eruption**

Just as Lin Rui stood in a row facing the ten Mutants, Wade standing on the far side suddenly stepped back a small step. In such a serious atmosphere, his small step back has attracted everyone's attention.

"Heh heh! I'm just going to get revenge on Francis. I won't meddle in such a thing! I just saw Francis slip behind. I'll go after him!" Seeing everyone turn around and look at him, Wade explains

Wade really just wanted to find Francis for his revenge. How could he have known that it would cause so many things? Although he is almost immortal now, he does not want to be involved in such a large-scale force war. He's not X-Men, Mirage knight or Spiderman, the superhero of New York. He's just a villain fighting other villains!

Wade wanted to slip away, but Colossus, who was standing beside him, had already put an iron hand on his shoulder and he could not leave.

"Deadpool, most of this thing was started because of you. Do you really want to run away now?" Seeing Colossus blocking Wade, Iceman asked him faintly.

"How is this made me..." Wade whispered as he heard Iceman, but his voice slowly grew down. It seems that he also knows that this situation was actually made by him.

"Wade, are you going to let Francis go? Even if you leave today, you won't have such a chance next time." Seeing that Wade is still there hesitating, Lin Rui suddenly reminded him.

The plot has already become like this, and Lin Rui doesn't know what will happen next. However, the forces behind Francis are obviously not too simple. Didn't you see X-Men being so serious? It's no longer possible for Wade to find another chance to catch Francis, and Francis already knows who he is, and his days will not be too good.

"Er... You're right. In that case, I will fight with you here!" Hearing Lin Rui's words, Wade, who was held by Colossus, thought a little and said suddenly. And he really didn't want to slip away. He broke away from Colossus and went towards Lin Rui in front of them.

"That's it, I've got that Wind Spirit guy, Colossus will deal with Tank. Other people should give you no problem, the Magician's mutant ability belongs to the psychedelic category, you need to be careful of him." Seeing Wade's movement, Iceman opened his mouth and arranged the opponents. And he stressed that the short man's ability is powerful and may directly affect the whole battle situation.

"Understood, as long as he is not a level four Mutant, we should still be able to deal with him." Without any objection to Iceman's words, Lin Rui calmly replied.

The three people at the front obviously have dealt with X-Men many times, and it's easier to give them to Iceman because they are obviously level 4 mutants. Although Lin Rui is not afraid of level 4 mutants, Lin Rui still won't make trouble for himself when he doesn't know about their mutant ability.

"So, let's fight!" Iceman said and used his mutant ability. The ground in front of him was quickly covered with a layer of ice, and then the whole person turned into translucent ice like thing and rushed out.

Chi Chi Chi~

At the same time that Iceman rushed out, the layer of ice that appeared in front of him spread to the opposite ten people at a faster rate. With Iceman's ability, he can deal with the low-level Mutants alone.

However, it's obvious that those people will not watch themselves frozen. Everyone rushes out quickly before the ice spreads and rushes towards Lin Rui and other people in the back. As for the Wind Spirit, one of the three leaders waved casually, and there was a strong wind around him, which soon lifted him up. Obviously, he knew Iceman was coming for himself, so he directly used his ability to control the wind and flew to the middle of the sky.

When Iceman was freezing the ground and rushing toward Wind Spirit, the little guy had slipped back a lot and hid in the shadows. But the big man, who is more than three meters tall, doesn't care. The whole man shakes and rushes out towards the front. The ice can't stop him at all.

"Blink!" Iceman had already rushed out, and Colossus then bowed his head and shouted at Blink.

Without making a sound, Blink just nodded, then reached directly in front of her. Brush! A space door more than two meters high and more than one meter wide appeared in front of Lin Rui, and the opposite side of the space door was at the back of the running Tank.

Boom!

Without any hesitation, Colossus rushed in after Blink made a space door with a wave. At the next moment, Colossus is already in front of Tank, who is more than 20 meters away. He is hit hard by his fist.

"Roar!" It seems that he is not surprised at the space door that appeared in front of him. Tank roars and punches at Colossus who rushes in front of him.

The fist like a sandbag and the iron fist of Colossus hit each other heavily in the next moment. A burst of force swept around them with the two people as the center and rolled up a shock wave visible to the naked eye.

The two of them actually made the air vibration wave by virtue of their physical strength, and he doesn't know how much the power of this blow is. However, Lin Rui guesses that his strength is at least higher than that of his full effort. After all, the strength of these mutants cannot be explained according to common sense. However, Lin Rui's attention at this time is not on the two battles that broke out in the front moment but on the space door that has not disappeared yet.

At the edge of the space door made by Blink, there is a dark space gap. Lin Rui is frightened by the power of space cutting inside. He doesn't know how this kind of mutation power came into being, but we can only say that some of the mutants' mutation abilities are like a bug.

Lin Rui doesn't know the limit of Blink's ability. It would be abnormal if her space door could open directly to outer space. However, Lin Rui thinks this possibility should be relatively small.

"I'll deal with the two on the left!" While Lin Rui is still looking at the space door that is disappearing slowly in front of him, Peter beside him suddenly yells, and then his figure rushes out in a flash.

!

“The two on the right are mine!” Seeing Spiderman rushing out, Wade also rushed out with no weakness, and his targets are the two people who rushed toward them on the right.

At this time, in addition to the short magician hiding in the rear, two other people bypassed Iceman’s ice and rushed towards Lin Rui and Blink in the back. One person’s skin color changes rapidly and he is soon covered with a layer of small dark green scales and his eyes also change color, his mouth is stretching with a long and thin tongue, he seems to have a snake mutation ability. As for the other one, it should be a common body muscle strengthening. His running speed and flexibility are far beyond ordinary people.

“Then I’ll take care of the two.” Glancing around at Blink, Lin Rui said something and then he disappeared.

Puff!

The next second, Lin Rui has appeared ten meters away, kicking the snake man in the waist. So far, in this temporarily isolated interchange, a war involving several forces broke out completely.

### **Chapter 180 Tangled Warfare 1**

!

The most striking thing on the entire battlefield is probably the two centrally located figures in the air. Iceman made an iceberg more than ten meters high on the road with a wave of his hand, and he flew towards Wind Spirit floating in the air with the help of the frozen ice.

And that Wind Spirit is also worthy of the level 4 mutant. His ability to manipulate the wind seems to be no less than Iceman’s control over the ice. In addition to controlling the wind to let himself hover in the air, a tornado circling around him constantly expanded, and those ice attacks from Iceman were blocked by the tornado.

In this way, one freezes the surrounding area and the other increases the strength of tornadoes to destroy the surrounding area. Two mutants, which can control this large range of weather energy, fight fiercely directly in the mid-air. For a while, the wind blade and ice debris are flying around, making the area appears to be in winter in an instant.

However, Peter, who was not far away from the center and fighting his opponents, began to retreat after noticing the power of the battle above and both of his opponents also tacitly retreated away from the center of the battlefield. Even Colossus and Tank, the defense freaks, are slowly retreating from the ice and tornado attack while fighting.

!

Attacking the flexible snake Mutant with his blade, Lin Rui couldn’t help but look up in the air. The movement there shocked him. Although Lin Rui met a level-4 mutant in the Frankenstein family before, that guy should be an ordinary level-4 mutant. His ability can only be used on his own body. Although his power was not small, it is not as powerful as Iceman and Wind Spirit.

Moreover, although Lin Rui's Insight Technique doesn't have a good sense of this mutation ability, the power shown by the ice all over the sky and the tornado whose diameter has expanded to seven or eight meters is enough to make Lin Rui have a general judgment.

To say that Marvel world's superhero, such as Iron Man, Spider-Man, Captain America, has strong abilities with an explanation. Then there is no explanation for the strength of these high-level and abnormal mutants, who do not conform to the law of conservation of energy at all. Moreover, mutants are not the mysterious sorcerer (s) living on the top of the Himalayas, but they are able to control the weather freely and master many things that technology can't do, which is an unexplained thing.

"This level of energy is almost the same as an all-out attack that consumes all the internal energy in my body. This kind of thing is really envious." Regaining his eyes, Lin Rui secretly sighed.

However, if Lin Rui is willing to spend tens of thousands of Reward points, he can still exchange various powerful mutation abilities in the System Shop. But he had chosen the cultivation route from the beginning, and the redeemed mutation ability would not be as strong as it was at the beginning and it would need to be slowly strengthened. Therefore, after a little envious, Lin Rui composed his mind, the opponent in front of him had already rushed over again.

"Hum! It's just an ordinary physical strengthening ability, which is not as strong as Jack's. If I were not worried that you would self destruct, Do you think that I would let you continue to walk in front of my eyes?" Lin Rui gave a cold snort when he glanced at the mutant coming from his side. Then his right hand touched his waist, and he held two black daggers in his hand.

!

With a quick wave of his right hand towards mutant who was rushing towards him, the two black spots had already shot out. Puff! At the next moment, the mutant suddenly slowed down. He looked down at his chest unbelievably. There were two more black daggers there and only the hilt of the knife was still exposed.

Puff!

Even the scream didn't come out, and the mutant had fallen to the ground. The Mutants of this rank and strength may have caused Lin Rui some trouble a few months ago, but now, they are nothing.

After seeing Lin Rui's lightning-like solution to his companion, the mutant with snake's green eyes was full of shock. However, because they are all under control at this time, even if they escape, they will not have a good end. So, after a little hesitation, he came towards Lin Rui.

Not putting the snake man in his heart, Lin Rui raised his hand and waved out a blade energy light. The Mutants, who are not very strong in strength, have no ability to block Lin Rui's blade energy light. However, to Lin Rui's surprise, since the snake man had a weird twist when the blade light came, he even avoided the sharp blade light at a critical moment, and then rushed towards Lin Rui like a violent snake.

!

Although a little surprised, Lin Rui did not panic at all and cut at the snake man who rushed in front of him. Even though the snake man burst out a little fast at this moment, he can't be as fast as Lin Rui's

blade. Puff! There was a flash of purple light, and the man went back to where he had come from, but when he flew back, he has obviously lost all of his vitality.

However, Lin Rui, who defeated the snake man by one move, stood still and didn't know what happened. If someone can look at Lin Rui closely, he will find that the air close to his body seems to vibrate constantly.

"This guy's poison is a little strong!" Lin Rui, who was standing in the same place, didn't look very well. He let the snake man spray a poisonous mist before he died. At this time, he is using internal energy to constantly wash out the toxins in his body and slowly force them out.

This is also the disadvantage of Lin Rui's loss of guardian charms. Previously, there were guardian charms to help block these unexpected attacks. Once Lin Rui lost them, he could not use them. After all, he can't protect himself with internal energy all the time as he can't support it for long. However, although the poison is severe, it will not hurt Lin Rui. In such a short time, the poison in his body has almost gone.

When Lin Rui defeated his two opponents and stood on the ground to force the toxins out of his body, Spiderman and Wade almost defeated their opponents. In addition to the previous Angel Dust and the three Level 3 mutants from the back, the others are obviously not the opponents of Spiderman and Wade.

And the battle between Iceman and Wind Spirit in the center of the battlefield is still going on. The cold air and the ice on the road have completely turned this place into a cold place. And Wind Spirit has also controlled three tornadoes, constantly attacking Iceman. For the time being, neither of them will win or lose soon.

And in the closest position to Iceman and wind spirit, the two giants are still beating each other tirelessly. Colossus and Tank don't need any weapons at all. Their bodies are the most powerful weapons. Although Colossus suffered a little bit from body loss, he was full of high-strength metal, and Tank, who was also physically strengthened, couldn't do anything about him.

As for the short guy who was hiding in the back at the beginning, he is still missing, and no one knows when he is going to make a move. Blink on X-Men's side also made a space door at the beginning, but her eyes were fixed on the opposite side, as if on guard.

"Fuu! At last, it's all forced out!" Finally, Lin Rui, who stood there for a few seconds muttered and gave a sigh of relief.

Buzz! ~ ~

However, just as Lin Rui raised his head to look around, an invisible wave suddenly swept over and directly swept Lin Rui's body. Lin Rui, who was about to look up, suddenly lost the colors in his eyes and stood still again.
