

## Marvel 251

### Chapter 251 Chaos 9

Pū Pū!

The demon who is confronting the six sorcerer does not pay attention to the situation on the edge of the battlefield, even if he notices it, he will not pay attention to it. However, it was these two seemingly insignificant people who broke out with their attacks that could not be ignored by everyone on the battlefield.

There was almost no sound, the laser beam and purple blade light had towards the black hole that was constantly pouring out the black mist. It was as if rushing into another space, the laser beam and the purple blade light were both swallowed by the black hole, and did not penetrate through the other side of the black hole.

"It's those two guys!" Seeing those two flashes of light, One sorcerer's eyes narrowed and he whispered to himself as he continued to struggle to contain the demon.

Although the Mirror Dimension accidentally surrounded two "ordinary people", as long as they did not die and remained hiding on the edge, they would not be affected much, so they did not bother with Mirage Knight and Tony. In the later stage, the power of the demon rose sharply, and they were too tired to cope with it, so they naturally forgot about these two people.

However, the laser beam that appeared at this time and the blade light that also aggregated powerful energy surprised these sorcerers. In terms of energy alone, Tony's chest cannon and Mirage Knight's Thunder Strike have more energy than these sorcerers ordinary magic attacks.

"However, are their attacks really useful?" Suppressing their surprise, a sorcerer's once again looked back at the huge black hole behind the demon. Mirage Knight and Tony's attacks fell silent as they rushed inside, seemingly swallowed up by a black hole.

The sorcerer wasn't the only one who was worried, Tony and Mirage Knight hiding on the edge of the battlefield were also paying close attention to it. After all, this is already the strongest attack they can make at this time. If they can still contact the outside world, Tony can call up his Iron Man army and even using the secret weapon that he has only recently upgraded successfully, but now he can only think about it.

However, the center of the battlefield has changed before the sorcerers and Tony and Mirage Knight have time to worry. All of a sudden, the demon, who had been frantically attacking the surrounding area, seemed to sense something and stopped. Then he looked back at the location of the black hole.

Pū ~ Pū ~ Pū ~

Bam!

Rumble! ~~

After the giant demon turned back, a strange sound suddenly heard from the black hole that was constantly flowing with black mist. It seemed that some explosion sound came from a long distance and was suppressed.

“Roar!” After hearing the sound and then sensing the change in the black hole, the demon suddenly roared towards the sky.

Bam!!

The next moment, the black hole that was still spraying with black mist at a constant speed suddenly swelled. Then, more black mist rushed out from the inside and quickly converged on the demon and the illusion of the demon quickly consolidated under the convergence of the black mist.

“No way! Did we actually help it?!” Seeing this scene, Mirage Knight who was hiding on the edge of the battlefield murmured a little.

“This ... may ... maybe ...” Tony also saw the change of the demon in front of him and he couldn’t believe it.

However, what happened next reassured them. Because the suddenly expanding black hole quickly shrank after spraying so much black mist and soon shrank to the size of a human with a muffled sound.

Boom!

Rumble!

In the end, it seemed that the black hole shrunk to a person’s size could no longer suppress the explosion inside, and a sharp white and purple light burst out from it instantly. Tony and Mirage Knight’s strongest attack had still worked. In a dazzling light, the shrinking black hole slowly annihilated, and finally disappeared from behind the demon.

Without the black hole to connect with the outside world, the demon has no black mist support. However, the black mist sprayed from the black hole at the end moment before the explosion was enough for the demon to condense his image. At this time, the demon is no longer a simple ghost but almost has a physical entity. Harry, who has been surrounded by it to help the carrier remaining on the earth, has no use-value and was thrown out by the demon when the black hole exploded.

Shout!

Harry who was abandoned by the demon had already been seriously injured and was unconscious, he fell towards the ground amidst the distorted rules in the center of the battlefield. And those sorcerers are now paying attention to the demon who already has a physical entity, ignoring the victim who was possessed by the said demon.

However, Harry was ignored by others, but Mirage Knight kept watching him. Seeing Harry being abandoned by the demon, Mirage Knight couldn’t help rushing out, and Tony couldn’t stop him. So in order not to let Mirage Knight get hurt, Tony had no choice but to push his Iron Man Armor and rush towards Mirage Knight.

A distance of 100 meters would have been easy for Mirage Knight and Iron Man to reach, but the closer they got to the center of the battlefield, the more the disorder rule affected them. Mirage Knight and Tony managed to reach Harry, who was already on the ground, moving around with the changing Mirror Dimension.

“Harry! Harry!” Mirage Knight rushed to Harry’s side, carefully holding him and shouting loudly.

However, by this time Harry had already expended a great deal of his physical potential due to the demon's possession. He would have died if he hadn't been enhanced before. So, in the face of Mirage Knight's worried cry, Harry keeps his eyes closed and doesn't respond.

"Damn it! J.A.R.V.I.S, can you help me, scan his condition?" While taking out Intermediate Treatment Spray and spraying it on Harry, Mirage Knight shouted to Iron Man beside him.

"I'm happy to help, Mr. Mirage Knight." Without waiting for Tony, J.A.R.V.I.S. already controlled the tenth Iron Man and stepped towards Harry.

Then, two beams that had previously scanned Mirage Knight appeared again, and soon scanned Harry from head to toe.

"The tests were completed and the result is a serious, life-threatening injury requiring emergency medical attention." JARVIS soon reported his test result but the news wasn't good.

"Damn it! Damn it! Damn it!" After hearing J.A.R.V.I.S's test results, Mirage Knight clenched his fists tightly and yelled. Because Mirage Knight had previously used Elven Holy Spring Water when he was seriously injured and his remaining Reward points are not enough to redeem another bottle of Elven Holy Spring Water and the Intermediate Treatment Spray's treatment was limited. Mirage Knight didn't know if he could save Harry's life.

"J.A.R.V.I.S. Inject him with a dose of epinephrine and SHIELD's special Recovery serum." Just when Mirage Knight was worried and feeling depressed, Tony suddenly spoke from his side.

In addition to the advanced weapons on these Iron Man Armor, Tony also equipped them with some first-aid drugs, which can save lives when they are in danger. After all, when Tony first created Iron Man, it was because of an accident that almost killed him, so he didn't want to encounter the same thing in the future.

In fact, in addition to being a high-end individual combat weapon, the current Iron Man Armor is also very good at protecting and saving lives. It can be said that this is an Armor that is not limited to the battlefield.

"Yes, sir." In front of Mirage Knight's surprised eyes, the tenth Iron Man suddenly crouched beside Harry, then stretched out his mechanical right arm.

Kakaka!

During a mechanical shift, a needle appeared on the right hand of the tenth Iron Man, aiming at Harry held by Mirage Knight. Mirage Knight also picked up Harry's arm very cooperatively, so that J.A.R.V.I.S could administer the serum.

A few seconds later, Adrenaline and SHIELD's special Recovery serum had been injected into Harry's body. No one knew whether these two copies are very powerful or Harry's recovery is faster. When J.A.R.V.I.S scanned Harry's situation again, he found that Harry is now out of danger which made Mirage Knight breathe a sigh of relief.

"Thank you, Mr. Stark!" Mirage Knight said to Tony gratefully before Harry's condition stabilized.

"You're welcome."

“Sir, a spatial fluctuation has been detected.” Just when Mirage Knight wanted to say something, J.A.R.V.I.S.’s voice came out suddenly.

“Hum? Could the Mirror Dimension be broken!?” Tony and Mirage Knight are surprised to hear JARVIS’s voice.

When they rescued Harry, the already existing demon was still fighting the six sorcerers. However, the fighting was more fierce at this time and it would be normal if the Mirror Dimension broke.

“No! No! Yes ...” However, when Mirage Knight looked up and saw the golden light appearing in the mid-air of Mirror Dimension, he suddenly shouted in surprise.

## **Chapter 352 Ancient One Arrives**

Buzz!

In front of Mirage Knight’s surprised eyes, in the center of the Mirror Dimension, a magic space door has quickly formed. Then, a middle-aged man stepped out from the space door, it is the Ancient One!

“En?” Seeing that middle-aged man coming out of the Space Door, Mirage Knight’s expression of surprise slightly converged and a voice of doubt appeared. This Ancient One is very different from what he used to see in the movies in his previous life, and he wasn’t sure if it was the Ancient One. However, after a sorcerer shouted, Mirage Knight finally felt relieved.

“Ancient One!” A sorcerer shouted in joy when he saw the Ancient One suddenly appear in the Mirror Dimension. Although the black hole was broken by Mirage Knight and Tony’s joint strike, the demon finally appeared in his physical entity and they would not have been able to hold on for any longer.

Without responding to the sorcerer, the Ancient One just glanced at the giant demon. After the emergence of Ancient One, the demon who had been attacking the Sorcerers stopped his attacks and stood there watching the Ancient One reveal a cautious look.

“Ancient One!” Finally, the demon called the name of the Ancient One. Apparently, the intruding demon knows the name of Ancient One, who has guarded the earth for hundreds of years. And his tone seemed to hide a trace of fear.

“Oh? You have known about me and you should have known about the consequences of your action and you still come to Earth?” After the demon called out his name, Ancient One finally asked a question. Looking at his calm expression, he did not put the demon in front of him in his eyes at all.

“Ancient One! Don’t be too arrogant! Although you possess great power, it must have declined after hundreds of years and you are already old, are you really as strong as you were when you were young?” Facing the Ancient One, the demon with red eyes shouted. However, his words could not hide his fear of the Ancient One. Maybe, he just wants to test Ancient One’s strength. The most powerful being of the earth, the one who had held back even gods and celestials.

“Oh? Why would you think that? Well, let me test if my powers have decreased a little.” Hearing the Demon’s words, the Ancient One frowned slightly and said.

“Roar!” The demon really couldn’t stand the completely disregarded attitude of Ancient One, and it roared and attacked Ancient One.

Howls whew!

The black arrow rain that had hurt the two sorcerers in a single stroke immediately condensed out, and then shot towards the Ancient One. There was no all-round attack this time, but the power of the attack was concentrated in one place, which increased the power of the attack by more than ten times. If this attack was launched at the sorcerers, they wouldn't have been able to stop it at all.

However, faced with the black arrow rain attack, the Ancient One drew a circle in front of him. With the movement of Ancient One, a huge shield emitting golden light appeared in front of him instantly. Compared to the same moves previously performed by a sorcerer, Ancient One's move was more powerful.

Pū Pū Pū!

As soon as the huge golden shield was formed, the numerous black arrows swooped down on it. Faced with the seemingly massive attack of the black arrows, Ancient One, who was standing behind the shield, looked calm and looked at a spot on the edge of the battlefield.

Pū Pū Pū!

After a few seconds, the arrow rain finally disappeared, and the huge golden shield stood still in the air without any damage.

"You're quite powerful. I won't hold back then." Ancient One, who waved the golden shield and stood behind, said quietly.

Having said that, Ancient One has waved his hand at the giant demon.

Brush!

They saw a golden light flash on the demon's huge body and then all the claws fell off the monster. With a random move, the powerful demon was removed by Ancient One! It can be seen that the strength of Ancient One was completely different from his students.

"Roar! Ancient One!" When the claws fell and the demon began to disappear into the dark mist in midair, the demon reacted and roared at Ancient One.

But if he was afraid of Ancient One before, now he was utterly terrified of Ancient One. Such power is far from being possessed by a sorcerer that is too old to die. It is trapped here!

Brush!

Despite the demon's roar, another golden light flashed on the demon and another claw fell silently from it. This time, the demon did not dare to growl at Ancient One anymore, he was worried that he would really be cut into pieces.

Brush!

"Ancient One! You don't have to kill me! I will leave by myself! You should know who is behind me? Let me go if you don't want the earth to fall into a great disaster!" When the third golden light cut off one of the demon's legs, the demon finally cried out for mercy in fear. However, although the meaning is to

beg for mercy but there is a move long meaning. It seemed that there was someone powerful behind it that would frighten Ancient One. He might really have been just a pawn to test Ancient One's power, with the master still behind.

"Oh? I don't really know who is behind you. But even if I knew, I wouldn't care. Since you invaded earth, then I have no reason to let you go." Hearing the demon's words, the Ancient One's eyes gradually became sharper, and then he answered coldly.

Brush!

While talking, there was another golden flash, and now all the limbs of that huge demon body were chopped off by Ancient One, leaving only the bare torso suspended in midair.

"Ancient One! You forced me to do this!" His limbs were hacked, and the demon hissed and snarled. Then a weird wave came from him.

Buzz!

Just after the wave spread, the black hole previously broken up by Mirage Knight and Tony appeared again behind the demon's torso. However, this time no black fog emerged from the inside, because this demon did not intend to continue fighting against the Ancient One. After seeing Ancient One's strength, it only has the idea to escape. Therefore, after the black hole appeared, the demon's body quickly shrank and then drilled into that black hole.

"Forcing you? Forcing you to run away? Oh!" The Ancient One raised his hand and waved at the black hole.

Boom!

The black hole that was previously dissipated by Mirage Knight and Tony with their full power was directly exploded with a single attack from Ancient One, and only a half of the demon body that had penetrated into it was dissipated again because of the sudden explosion of the black hole, and the rest of the body couldn't leave.

"Since you dare to come to the earth to test my strength, then you will die on earth." Broking the demon in half, the Ancient One no longer intends to waste time with him and spoke with cold eyes.

Buzz!

Then, without any outward action from the Ancient One. A lot of golden light suddenly appeared around the demon with only a small half body, and it was moving towards the center.

"Ancient One! My Lord N'astirh will avenge me! The earth will be ours!" At the last moment when those golden lights were wiping it out, the demon snarled.

Pū Pū Pū!

In the next second, the remaining demon body was completely broken in countless golden lights. After a while, all the black mist in the sky disappeared, and the demon was finally wiped out.

“N’astirh? It seems I still need time to knock on these “Old friends”!” Ancient One frowned slightly and whispered as he heard the roar of the demon as it disappeared.

After the Ancient One easily killed the demon, the six sorcerers who had just been hiding around slowly came around to Ancient One.

## **Chapter 253 Subsiding**

Huh ~

“Okay! ... wow!” Mirage Knight said as he watched the black mist dissipating in the air.

Ancient One’s strength completely shocked Mirage Knight, and he yearned for the power shown by the Ancient One which could make any enemy flee before it.

“It’s really amazing! Do you know him?” Tony standing next to Mirage Knight was also shocked but performed better than Mirage Knight.

“Well, I know them. But none of them know me.” Mirage Knight replied casually when he heard Tony’s words.

“Really? Are there any people you don’t know.” Because Mirage Knight paid too much attention to Ancient One, he didn’t notice the strangeness of Tony’s tone.

“Now that the big guy is gone, what do you think they will do with Venom over there?” Seeing Mirage Knight ignoring him, Tony pointed to a spot behind them and asked.

When the six sorcerers first appeared to join forces to build the Mirror Dimension, they sealed Venom alone, and it is still trapped in that corner. Mirage Knight also saw that Venom was trapped there before thinking of working with Tony to deal with that demon first, but now hearing Tony’s reminder, he also remembered that there was another person there who needed his help.

“Ah! That’s right! Spiderman!” Mirage Knight shouted worriedly as he turned toward Venom’s trapped position. However, Venom at this time was trapped by the sorcerer. Even if Mirage Knight wanted to rescue Peter, he had to let Venom out first.

“Let’s focus, they seem to have something to tell us.” Just when Mirage Knight was thinking about how to explain the situation with the sorcerers, Tony had patted him on the shoulder and said.

“Eh?” Mirage Knight looked up and saw that the sorcerers, who were still floating in the air, came towards them.

“Oh!” Mirage Knight agreed and carefully placed the unconscious Harry on the ground, then stood up and walked forward with Tony.

“Hello, I’m Ancient One.” After Mirage Knight and Tony came towards the sorcerers and faced them, Ancient One introduced himself with a smile. The other sorcerers beside him did not speak, and everything was based on Ancient One.

“Hello, Master Ancient One, thank you for driving that big guy away. Also, I’m Mirage Knight.” Facing the powerful sorcerer Ancient One, Mirage Knight thanked introduced himself and thanked him.

“Hello, Ancient One, my name is Tony Stark.” Behind Mirage Knight, Tony also briefly introduced himself.

“Ohh? Mr. Mirage Knight, you seem to know of us?” Ancient One asked curiously when Mirage Knight called himself Master.

“I know a little, I know you have been protecting the earth from all kinds of demons and other entities that threaten our reality.” Facing the doubt of Ancient One, Mirage Knight answered honestly.

“Oh, it seems you really know us, the mysterious Mirage Knight, the guardian of New York.” Upon hearing Mirage Knight’s answer, Ancient One said with a smile. However, both Mirage Knight and Tony could hear another meaning from Ancient One’s tone but they were not sure what it was.

“Also, Tony Stark, the famous Iron Man, I also know of you.” After smiling at Mirage Knight, Ancient One turned towards Tony and said a word.

“Ancient One, do you know us?” Mirage Knight asked curiously when he heard the approachable appearance of Ancient One.

“We just don’t walk around in front of ordinary people. We don’t actually spend our lives in the mountains. This is the age of information, and we are moving with it.” As if noticing Mirage Knight’s doubt, Ancient One smiled and explained.

“Oh, I thought ...” Mirage Knight smiled a little awkwardly after hearing the explanation from Ancient One.

“Ancient One, was that big guy really the demon from other worlds just now?” Just when Mirage Knight was feeling a little awkward, Tony asked while looking at Ancient One.

Although Tony has already received some information from Mirage Knight, it is better to ask these professionals directly. Moreover, after the two magical attacks, Tony was eager to learn more about this special discipline that is not in line with science. So, since these sorcerers also acknowledge that they live in the information age, they may be able to cooperate.

“Well, that uh ~ the big guy is really not from this world. I don’t know how it slipped in when it discovered the loophole in the guardian’s system, and it was still attached to your friend.” Tony asked his questions politely and the Ancient One didn’t mind answering at all.

“It turns out that there are so many secrets in this world. I thought that what I encountered some time ago was already the most secret thing on the planet.” Tony could not help but sigh when he got a positive answer from the professionals.

The answer from Ancient One almost tells Tony that the theory of countless worlds in the multiverse is true and even creatures such as magic sorcerer have appeared on earth, so it is not impossible for parallel worlds or multiverses to exist.

“This world is far more complicated than you think, but you are much better than ordinary people. You are already one of the few who has access to these secrets.” Hearing the emotions in Tony’s words, Ancient One said with a smile.

“Yeah! Who could have thought that I was just a simple rich man and physical scientist more than two months ago.” Tony continued with his emotion-filled tone. However, if other people heard Tony’s words, they would have a few black lines on their heads. What simple rich?

“Ancient One, the thing you’ve sealed there is an alien creature, and he is parasitic on my friend. Can you help him out?” After two words from Tony, Mirage Knight interjected. Now that Ancient One looks so approachable, Mirage Knight certainly wants him to save Peter.

“Well, although these alien creatures do not belong to our jurisdiction. However, since I have met it here, let me solve this problem.” Ancient One replied faintly after hearing Mirage Knight’s request. Listening to him, it seems that these alien creatures are managed by a special person, but at this time Mirage Knight will not explore this.

“Thank you! We also have a way to deal with that alien creature, but we need Ancient One to rescue my friend at a critical time.” Seeing Ancient One agree to help, Mirage Knight said excitedly.

“Well, that would be best.” With a smile, Ancient One and Mirage Knight went to the place where Venom was trapped.

A few minutes later, Venom was irritated from Peter’s body in an unpleasant roar as he was attacked by the sound waves released by the full power of two Iron Man. And just after Peter’s body was revealed, Ancient One shot out and transfigured a chain to pull him out.

“What are you going to do with this? If you don’t have a good way to deal with it, I can just kill it.” Peter had been rescued and Ancient One looked at the constantly twisted Venom in front of him and asked the two of them.

“This ...” Mirage Knight originally intended to destroy Venom directly, but he remembered that Tony had said before that he wanted to study this alien creature, so he looked at Tony.

“Ancient One, do you have a way to make it smaller? I’m going to grab it and study it if you don’t mind.” Seeing both Mirage Knight and Ancient One looking at him, Tony expressed his desires.

“Of course I don’t mind, I believe you would be able to tame this creature.” Not minding Tony’s request, Ancient One once again waved his hands at the constantly twisting Venom in front of him.

## **Chapter 254 Late Deadpool**

Ten minutes later, Mirage Knight and Tony looked at the surrounding scene with surprise. Ancient One and the other sorcerors have just left. Tony just had a chance to observe the appearance of the Magic Space door up close, but he couldn’t understand the principle behind it at all.

And now they have left the Mirror Dimension and returned to the real world. The surrounding scene is the same as before they entered the Mirror Dimension. As for Venom, it was gone, presumably packed in a special container by Tony. Peter and Harry lay unconsciously at Mirage Knight’s feet.

“I’ll deal with the situation here, you take these two to get some treatment first.” After looking at the four Iron Man Armors on the ground, Tony looked at Mirage Knight beside him and said.

“Well, I’ve already notified Deadpool to pick us up. He should be here soon.” Mirage Knight said after hearing Tony’s words.

Venom, who was parasitic on Peter, was taken away by Tony, and the Demon who was possessing Harry was also destroyed by the Ancient One. Harry and Peter should now be able to recover normally. He just doesn't know what they will think of this situation when they wake up again. Anyway, Mirage Knight thinks that they won't be feeling good about themselves.

"OK, then I'll leave first. If you want to study Venom with me, come to my seaside villa, I will welcome you." Tony started his Iron Man Armor's suspension, he also invited Mirage Knight to study Venom with him.

"Well, I will." Mirage Knight nodded in reply to Tony's words.

"Goodbye, Mirage Knight." After saying his goodbye, Tony had already risen to the sky, leaving with the 13th Iron Man Armor.

Mirage Knight looks up as Tony disappears completely. His eyes twinkle, then he raises his hand and taps the headset.

"Deadpool, can you get here any faster? I've had a few fights on my side and you're still not here yet!" Mirage Knight calls through the headset and shouted at the person on the other side.

"I am almost there! Don't you know how hard it is to run for so long?" Deadpool responded quickly when Mirage Knight was clearly angry.

Whirl ~

As soon as Deadpool finished answering, Mirage Knight heard a sound. Then, in front of Mirage Knight's unhappy eyes, the taxi that often takes Deadpool slowly drives in and goes around the two broken Iron Man Armor along the way.

Card!

"Ah ah, Hey! Is this the Iron Man?" Deadpool shouted as he got out of the car and circled around the Iron Man Armor.

"Don't make a fuss there! Those Iron Man Armors were broken. Mr. Stark will send someone over to retrieve them later. Be careful around them." Seeing the surprised look on Deadpool's face, Mirage Knight couldn't remain mad as he spoke.

"Eh! Even such a high-end Iron Man Armors got broken. It seems that you must have experienced a tough fight just now!" Jumping from those Iron Man Armor to Mirage Knight, Deadpool said eloquently.

Although still speechy, Deadpool glanced up and down at Mirage Knight to make sure he was fine. However, the hidden effect of Phantom Suit hid Mirage Knight's appearance and Deadpool wasn't able to observe anything. Instead, two unconscious guys lying on the ground attracted Deadpool's attention.

"Hey? Who are these two guys? Are they Victims?" For the first time, seeing Spiderman's face (Spiderman suit has been mostly swallowed by Venom, Peter is now almost naked), Deadpool asked curiously.

“Uh ... that’s right. Help me to lift both of them to the car. They are both injured and need treatment.” Seeing Deadpool didn’t recognize Peter and Harry, Mirage Knight didn’t plan to explain and waved his hand and spoke.

“Okay, I didn’t expect that I would miss the flight and would do the cleaning process.” While working with Mirage Knight, he raised Harry from the ground, and he was still speaking without stopping.

“Even if you came early, you wouldn’t have been able to get involved in it. This fight wasn’t something that you could imagine. Even Iron Man and I had to hide in that battle.” Carefully putting Harry in the back seat. Mirage Knight briefly explained the situation to Deadpool.

“Really? Then should I be grateful for coming late?” Deadpool didn’t expect Mirage Knight to say these words and said something with an unbelievable expressions on his face. Due to his deathless nature, Deadpool doesn’t know any kind of fights he can’t get himself into.

“Trust me, today’s fight was really something we don’t have much ability to intervene for now. Of course, it may not be the case in the future, after all, we are all still growing and improving.” Peter was put into the car and discharged alongside Harry and Mirage Knight said again seriously.

“Okay, I believe you. But, how do we sit now?” After putting Peter in the back seat, Deadpool suddenly found that there wasn’t enough room for him to sit in with Mirage Knight.

“Squeezing a little is OK, I’ll sit behind.” Mirage Knight didn’t have such trouble, anyway, he planned to sit in the back to take care of the seriously injured Peter and Harry.

“Well, if you want to.” Helplessly spreading his hands, Deadpool also got into the front passenger seat.

“Come on, Brother!” He patted the driver’s shoulder and shouted.

Whirl ~

I don’t know if the driver is psychologically strong or he really doesn’t care, he just calmly started the car and drove off with Mirage Knight and Deadpool and two unconscious young people who were famous in New York.

Less than five minutes after Mirage Knight’s departure, there was a sudden crack in the sky, and then an entire team of Iron Man appeared in the same spot where the battle had taken place. This is what Tony calls the tidying up, he sent out an entire team of Iron Man Armor.

...

An hour later, Lin Rui, stripped of his status as Mirage Knight, is with Harry and Peter in the VIP ward of an Oscorp-owned hospital in New York. After this incident, Lin Rui no longer intends to hide his identity as Mirage Knight with his two friends.

Perhaps this incident would not have happened if they had known each other’s identity. Of course, this is Lin Rui’s wishful thinking. Venom’s parasite and the possession of other world entities may seem accidental, but it wouldn’t have changed the outcome. Even if they knew each other’s identities for a long time, that may not change anything.

With the top treatment in the hospital, Peter and Harry, who are no longer in danger, should be able to recover soon. On the one hand, their own bodies have strong Recovery capabilities and on the other hand, it is due to Peter and Dr. Connors' research on the successful Recovery serum some time ago. As a magical serum that has not yet been announced to the public, its effect is good enough to restore Peter and Harry's exhausted physical potential.

Lin Rui finally had time to give herself a good treatment and rest. He had been seriously injured before. Although he recovered quickly from the treatment in Elven Holy Spring Water, he still consumed his physical energy and needed to rest.

In this way, the battle of Spiderman and little Green Goblin, caused by Venom and alien demons, finally ended after involving Iron Man, the League of Defender and the mysterious sorcerers.

After this time, the feeling of getting strong in Lin Rui's heart has become stronger. Only by being strong can he protect his friends and loved ones. In this troubled Marvel World, Lin Rui can no longer live in silence, he will need to take the initiative to attack.

## **Chapter 255: Confession**

Although the fight between Venom and the Demon was fierce, it took place in the Mirror Dimension and except for the few pits around the church ground that were made at the beginning, nothing else was damaged. The fierce fighting did not affect the reality of this world.

Therefore, apart from knowing that there are a lot of Iron Man Armors flying around in the sky, ordinary people didn't know that a remote location in New York has seen a battle that might have overturned the whole earth.

Of course, Tony who got Venom won't go around saying that he got a complete alien biological creature. Venom is not a human-like Thor, but an alien creature that can be used for many experiments without him having to worry about humanitarianism or the existence of alien biological protection laws. Tony doesn't want to share his gains with SHIELD. It's better to hold this kind of thing to himself.

As for Lin Rui, he had to watch Peter and Harry in the hospital, so he could only tell his family that he was interning at Stark's house. And he also had to lie to Aunt May about Peter, so that she didn't worry about Peter. His excuse was that their study group was so busy that Peter couldn't return home.

The Oscorp people, although very confused about the injuries of their directors, did not ask more questions and tried their best to treat them. Just before that, Harry was injured all over again, much to the surprise of the researchers, who had witnessed the extent of Harry's physical strength and they could not imagine anyone else in the world who could have hurt him that badly.

Buzz ~

Resting and meditating on the sofa in the VIP room for the night, Lin Rui's body finally recovered completely with the help of Elven Holy Spring Water and his own efforts. Peter and Harry's condition had also improved a lot and it seems that they would be able to wake up soon.

"Ah! I don't know how to explain this to them. If I tell them that I have been hiding my identity, I will be beaten! With the strength of Spiderman and now Harry, I may not be their opponent!" Opening his eyes slowly, Lin Rui murmured helplessly as he looked at his two friends in front of him.

After thinking about it for a night, Lin Rui couldn't think of a way to tell them that he is Mirage Knight. However, he could no longer conceal his identity from them. Especially now that Harry has become stronger, although he may not become a Green Goblin in the future. However, Harry with such powerful strength would also be a great help to Lin Rui. Who better than his best friend as a teammate?

"Forget it, I will just tell them the truth, it really isn't possible for them to kill me anyway?" Finally, Lin Rui said to himself.

"Huh? Tell us what?" Just as Lin Rui finished talking to himself, a voice came out of the ward. It was Peter's voice, he seemed to have woken up!

Call!

Hearing Peter's voice, Lin Rui rushed to his bed in surprise. "Peter, are you awake?! How do you feel?" Lin Rui stared at Peter and asked with concern.

"Hey ~~ My head is a little dizzy, and my body aches everywhere. What's wrong with me?" Peter opened his eyes completely after he got used to his aching body. Then he twisted his body hard and asked Lin Rui.

"Don't you remember? About what happened to you, and what happened later?" Lin Rui asked with concern, seeing Peter's confused look. Didn't Peter remember what happened after he got controlled by Venom? It doesn't seem like it should be the case! Lin Rui thought silently in his heart.

"What happened to me? What happened ... Ah! That ... Harry! I seem! ..." After hearing Lin Rui's words, Peter narrowed his eyes and thought about it carefully. Soon, all the memories of the time when he was influenced by Venom came to his mind. When he thought that he had hurt Harry, Peter suddenly cried out worried, but when he saw Lin Rui around him, he suppressed it forcefully. Peter still didn't want his identity as Spiderman exposed.

"Peter, you don't have to hide anything from me, I know you are Spiderman." Seeing Peter's expression, Lin Rui knew that he was holding back and said nothing, so Lin Rui smiled and said suddenly.

"Huh? Jackson! You! How did you know?!" Peter asked in surprise as he heard his friend's words. Staring at Lin Rui in front of him, Peter felt that his friend had suddenly got a lot mysterious for a moment. Or, did he unintentionally exposed himself?

"Peter, it's not just you who had an adventure! I've been by your side, whether you were a Spiderman or Peter." Lin Rui smiled and reminded, looking at Peter's surprise.

"Always by my side, whether I'm Spiderman or Peter?! You are! ... You're a Mirage...?" Lin Rui reminded him and it got more obvious, and Peter understood it a little.

"Yes, I'm Mirage Knight. Spiderman, this is the first time we've actually met each other." Holding out his hand, Lin Rui greets Peter with a smile. As he held out his hand, Lin Rui quickly revealed the Phantom Suit, only to put it back again.

Call!

"Damn, Mirage Knight! No wonder I felt as if I knew Mirage Knight from the beginning. He seemed to know me well and always helped me! It turned out that Mirage Knight was you!" Holding out his hand to hold Lin Rui's hand, Peter said bitterly.

"Oh, as a senior, it is also necessary for me to lead the younger generation." Lin Rui said ??after hearing Peter's words.

"By the way, where is Harry?! How is he? I was controlled by that weird thing before, and I remember I wanted to hurt Harry." Now that he knew that Lin Rui was Mirage Knight, Peter no longer cares about hiding his identity and asked nervously.

"Well, Harry is lying there?" Seeing Peter worried, Lin Rui turned his head and motioned to look at the bed next to him. At the same time, he breathed a sigh of relief silently, seeing that Peter didn't care much about him hiding his identity.

Call!

However, just when Lin Rui and Peter turned their heads and looked at Harry, Harry, who was supposed to be still in a coma had already woken up and looked at them with complex eyes.

"Ha ~ ... Harry! You're awake too!" Lin Rui greeted him a little awkwardly, seeing Harry staring at himself and Peter.

"Spiderman? Mirage Knight? It turns out that both of my friends have such an unknown side. Why am I not surprised?" Looking at Lin Rui and Peter, Harry said lightly, and they couldn't see any surprise in his eyes.

"This ... that ... Harry, are you okay? I remember hurting you when I was controlled by that weird thing." Grabbing his head awkwardly, Peter finally asked again.

"This is also what I want to ask you. You did hurt me at that time, but I soon recovered back. It seems that there was something in my body that is controlling me. The last thing I remember is fighting the thing that was on you, and getting the better of it, and wondering if you're going to get hurt." Harry asked after some thought.

Peter and Harry lost their consciousness at the same time, so it was not clear to both sides the development and end of the whole thing. After hearing Harry's words, Peter's face was aggressive, and he didn't know what happened after he passed out. Of course, Harry knew nothing about it as well.

Huh ~

So, after looking at each other, Peter and Harry both turned their eyes to Lin Rui, who was standing aside, their good friend who had always hidden his identities from them.

## **Chapter 256 Removing The Barrier**

In Oscorp's private VIP ward, Peter and Harry both stared at Lin Rui as if trying to burn two holes in his body. Now that they know that Lin Rui is Mirage Knight, Lin Rui has always known Peter Spiderman's identity, and there was Mirage Knight present in their incident. So, if someone can explain to them their current situation, then it must be Lin Rui.

“Okay! Okay! Don’t stare at me like that! I’m getting goosebumps all over my body!” Lin Rui shouted unbearably, feeling quite uncomfortable as he got stared at by Peter and Harry.

“Well then, my dear Mr. Mirage Knight, you must know what has happened to us! And that strange thing that clung to me has disappeared. Did you have any hand in it?” Seeing Lin Rui feeling uncomfortable, Peter smiled with satisfaction and then asked.

“Also, there was something wrong with me. But now I don’t have that weird feeling. So, I think it was you doing too, Mirage Knight?” After Peter, Harry looked up and asked.

Both Peter and Harry were not fools, and they were both geniuses. Although they don’t have any memory of what happened during the period when they were under other’s influence, they can infer a lot of things from some clues.

Especially after they knew that Lin Rui was Mirage Knight, they were even more certain that Lin Rui must have played a big role in this incident. At least, it is obviously Lin Rui’s credit that they appeared in this VIP room intact for the best treatment, so obviously he had saved them.

“Okay! Okay! I knew you’d ask me these things when you knew who I was. But I didn’t mean to keep it from you. Let me tell you what happened to each of you.” Lin Rui waves his hand as Peter and Harry questioned him. Now that he has decided to confess, he will certainly not conceal anything from them.

Hearing Lin Rui’s words, Peter and Harry both looked at Lin Rui seriously, waiting for his next words.

“Cough! The strange substance in Peter was an alien species called Venom, a companion organism that lives as a parasite. On the one hand, it uses the host’s body to strengthen itself, on the other hand, it also strengthens the host’s strength. ‘Venom would be a better companion if it didn’t have the side effect of amplifying negative emotions and controlling the users thought thoughts.” Watching Peter and Harry, Lin Rui first explains the existence of Venom.

“That thing was an alien creature! No wonder I always lost control of my emotions and lost my sanity in the end!” Peter said with lingering fear when he heard Lin Rui’s explanation of Venom. Harry was also scared in the other bed, he didn’t like this alien creature any better than Peter.

“You were under Venom’s control at the time when you hurt Harry, but Harry was already affected by the thing in him at the time.” Lin Rui said after Peter interjected. He also said this because he was trying to resolve the gap between Peter and Harry because they hurt each other, especially now that Harry knew that Peter was the murderer of his father. Although Harry hadn’t said anything yet, Lin Rui knew it must be in his heart.

“What’s inside me? What the hell is that? The Venom you were talking about was a creature, though it came from another planet. But the oddness in me seemed to have nothing to do with anything foreign object, it was as if I had suddenly become that.” Harry asks when Lin Rui mentions something in his body.

“Well, the thing in your body was really not easy to detect, because it is something more powerful and more difficult to deal with than the alien creatures like Venom. Peter, Harry, do you believe in the theory of countless worlds in the multiverse?” Seeing that Harry is so eager to find out what’s going on with his body, Lin Rui answers briefly and then asks a serious question.

“Well? Why ask such a question? However, I do believe it.”

“I also believe it. After all, what we are now experiencing may have completely transcended what could happen in an ordinary world.”

After hearing Lin Rui’s somewhat absurd question, Peter and Harry expressed their opinions, although they were puzzled. Both of them believed in such opinions or theories.

That is to say, geniuses such as Peter and Harry who have experienced things that many ordinary people cannot experience do believe in such things.

“Well, what I say next is about this multiverse and countless other worlds. Harry, what was latent in your body before was a Demon from another reality or world. Maybe you don’t understand what Demons are, but just treat them as one a very powerful race, they are very cruel species. “

“As far as I know, these Demons from other worlds have always been interested in the earth. If it wasn’t for a respectable group of people who have been guarding the earth from the very beginning, then the earth would have already been occupied by the infiltration attacks of those powerful races. The entire earth’s civilization would have fallen.” Now that both Peter and Harry believe in the Multiverse theory, Lin Rui briefly introduced the existence of the Demons and other races and gods and also vaguely mentioned the existence of the Ancient One.

“Demon from other worlds?! That’s a lot of information and not something I was expecting! I did not expect that there would be something in my body from another world!” Harry was feeling unbelievable as he heard Lin Rui’s words.

He thought that the Alien creature Venom that was parasitic on Peter was already surprising. He did not expect that Demon also existed and that they came from other worlds. What’s next? A Universe World War?

“Fuck! It turns out that Harry was stronger than me! No wonder I feel pain everywhere on my body! You must have beaten me up!” Unlike Harry, who had hidden his shock, Peter had already called out on it.

“Oh, Venom really can’t beat that Demon. But you getting hurt has nothing to do with Harry, it’s just a side effect of Venom’s parasite.” Lin Rui laughed and joked when he heard Peter’s words. He knew that the former lively Peter was back.

“Hmm! Is it just you that got hurt? I am not in any better condition than you, Now that I look at it, I may be in worse!” Harry retorted after Peter’s words. His entire body was hurting, except that Harry doesn’t always like to show it like Peter.

“Okay! Alright! Both of you are hurt, and it’s not your fault. So don’t blame each other anymore. And, Harry, about Peter’s accidental killing of your father before, I think the Demon was Influencing him.” Seeing that Peter and Harry were joking again as before, Lin Rui smiled and interjected, and then his voice suddenly lowered as he spoke to Harry.

Although Peter and Harry woke up and never mentioned that Peter had killed his father, Norman Osborn, Lin Rui knew it was the two of them deliberately avoiding it. However, in order to prevent them from creating any gaps in the future, Lin Rui feels that it is better to take advantage of this opportunity to solve their situation.

Sure enough, when they heard Lin Rui mentioning Peter killing Norman, both Harry and Peter's smile narrowed and they didn't look at each other again. However, they were still listening carefully to what Lin Rui said. Because he just mentioned the effects of the Demon in the killing.

"Harry, you should now know why your father did that kind of thing, right?" Seeing Harry and Peter not talking, Lin Rui continued to look at Harry and asked.

"You mean, my father was under the control of that Demon?" Harry heard Lin Rui and a gleam of light flashed in his eyes.

"Well, that's true. And, when Uncle Norman fought with Peter, the demon also affected Peter, so he killed your father by accident." Looking at Harry, Lin Rui said seriously.

Of course, this is something Lin Rui can't be sure of. However, in order to make his friends reconcile with each other again, Lin Rui does not mind taking some uncertain things as evidence. Moreover, Peter did feel weird and out of control at that time.

"So, my father's death was really an accident?" Seeing Lin Rui speaking so seriously, Harry looked at Peter and asked.

"Harry, I didn't really want to kill Uncle Norman at that time! To me, this has always been a nightmare!" Seeing Harry looking at him, Peter answered seriously. It was because of the guilt in Peter's mistakenly killing Norman Osborn that Peter had given Venom a chance in controlling him.

"Okay, I believe you!" Finally, Harry still trusted his two friends.

"So, we're still friends!" Finally talking about Peter's killing of Norman, Lin Rui asked with a smile.

"Yes! We are still friends!"

"Best friend!"

## **Chapter 257 Harry's Hesitation**

Later, Lin Rui explains to Peter and Harry as they have no memory of what happened. It was just a big fight, and finally, the Demon that possessed Harry was destroyed, and the Venom that parasitic on Peter was seized by Tony.

As for some details, Lin Rui didn't say it clearly, the existence like Ancient Ones, Lin Rui just mentioned it briefly. After all, Lin Rui is not very likely to meet these people in the future. However, if Lin Rui knew that Ancient One sent two sorcerers to follow Thor in secret, he would not think so and he would have a lot of intersections with the sorcerers who guarded the earth.

"Well, Jackson, my Spiderman suit was devoured by Venom. You think Mr. Stark would make another suit for me?" Everything had been said and Peter lying in bed began to worry about his own thing.

Because of Venom, Peter did a lot of bad things some time ago. He was worried that Tony would not provide him with a Spiderman suit. Accustomed to the enhancements and high-tech brought by Tony's Spiderman suit, Peter no longer wanted to wear his simple hero suit.

"You have to talk to Mr. Stark yourself, but I don't think he would mind giving you another Spiderman suit." Lin Rui answered with a smile when he saw that Peter was worried.

Tony also knew that Peter's mistakes were because of Venom's influence and he would not blame Peter anymore. Moreover, Venom is now in Tony's hands. Tony maybe even happy to give Peter an upgraded Spiderman suit.

"Well, I was going to ask you to help me talk to Mr. Stark. You have a better relationship with him. Say, Jackson, does Mr. Stark know that you are Mirage Knight? After all, Mr. Stark knew Jackson Lin, and Iron Man knew Mirage Knight." Peter's eyes dim slightly as he heard Lin Rui's answers, but then he remembers something and asked.

"Uh ... this, it shouldn't be, I've never exposed myself in front of Mr. Stark." Lin Rui answered when he heard Peter's question.

However, this is what he said, but Lin Rui wasn't so sure about it in his heart. He was sure that Tony didn't know who he was before, but now he's not so sure. Because he recently discovered that the way Tony got along with him seemed to be slowly changing. But Tony didn't say anything, maybe he didn't know it yet.

"Oh, really? And when are you going to talk to Mr. Stark?" Peter doesn't really care when Lin Rui tells Tony the truth. He was just curious.

"Well, it depends." Lin Rui has no idea. But if he really wants to carry out his plan, it seems better to keep his identity hidden. After all, Tony had always thought he was someone of great hidden power.

"Well, I think Mr. Stark would be very surprised to know that you are Mirage Knight! Just think about it!"

"You must be feeling good seeing you have already started talking so much! It doesn't look like you were being controlled by an Alien Parasite a while ago!" Seeing Peter who was back to his normal self, Lin Rui laughed and joked.

"Hahaha! Isn't that just an accident! I will pay attention to these types of things in the future!" Peter said with a laugh.

As Lin Rui and Peter chat and joke with each other, Harry looks at them from the hospital bed. Although Harry now knows the hidden identities of his two best friends, he still doesn't feel closer to them. Instead, he feels that he is getting pulled away.

Because, even if Harry knew the biggest secrets of Lin Rui and Peter, he is now just an "ordinary person", and his life is destined to be completely different from Mirage Knight and Spiderman. Perhaps, the distance between them will be further increased in the future.

"Hey! Harry, what are you thinking about? Do you think the joke I just said isn't funny?" Just as Harry was thinking about the future, Peter's voice suddenly passed into his ear.

"Well, it's funny." Harry didn't notice what jokes Peter had just said and he just answered with a smile.

"By the way, Harry, has your body changed a lot? I saw that you were able to fight Peter before you were possessed by that Demon. That is not something an ordinary person can do." Lin Rui seemed to see what was going on in Harry's mind, so he asked him a question.

“Well, I injected a specially improved version of the gene serum in my body, which is a kind of serum that can greatly stimulate the body’s potential. However, this kind of serum seems to have a much better effect on me than normal.” Hearing Lin Rui’s question, Harry didn’t hide it either and answered truthfully.

As a biotechnology conglomerate, Oscorp’s Titan series of genetic serum is fully capable of producing a large number of super-soldiers. There were some dangers, of course, but they paled in comparison to what was finally achieved.

“I see.” Lin Rui was not surprised in the slightest when he heard Harry’s answer.

Because the research done by Peter and Dr. Connors was successful, Harry’s research team has a guarantee based on the mutant gene serum to study the enhanced gene serum in another direction. Because even the body couldn’t afford the effects of strengthening done by the gene serum, they can also inject the Recovery gene serum to treat the damage to the body.

With that said, Oscorp this time can be said to have developed something big. For the U.S. military, Osborn’s enhanced serum effect may be more valuable than Tony’s Iron Man Armor. After all, Tony hasn’t let up until now and the military has no more than five Iron Man Armor, which can’t form an effective combat force at all.

But if Harry gave the Oscorp’s Titan series enhanced serums to the military, they would be able to create a loyal team far superior to ordinary people in a short period of time, which would play a role no less than Iron Man on the battlefield.

“So, Harry, are you willing to use your powers for the world?” After a little thought, Lin Rui looks at Harry and asks earnestly.

In fact, Lin Rui plans to recruit him to the League of Defender after learning that Harry has a far superior ability. A strong teammate who can fly on a Hoverboard can bring Lin Rui a lot of convenience in many situations.

“Really? Can I really do that?” Hearing Lin Rui’s words, Harry could already guess what Lin Rui meant and he asked quickly.

“Of course you can do that, otherwise you can ask Peter. He was not as good as you when he became Spiderman. Now, he has become the most popular Vigilante in New York. Everyone has become a Spiderman fan.”

“Hey! Actually, I prefer the title of Friendly Neighborhood Spiderman.” Peter was embarrassed when he heard Lin Rui’s words.

“Well, can I think about it?” However, after the initial excitement, Harry calmed down and asked again.

“Of course, we will always welcome you in the League of Defender!” Although there were some minor surprises that Harry didn’t agree, Lin Rui promised.

“Well, Peter, another team member joined the team a few days ago, he is a highly skilled hacker and a very good logistical member.” After talking to Harry, Lin Rui turned to Peter and said.

“What? New member! Why did you accept a new member without telling me?” Peter shouted at Lin Rui, apparently dissatisfied with their actions.

“I called you that time. It was you who didn’t come. Do you even remember how many times you rejected my call?”

“Uh ... heh! This ...”

### **Chapter 258: Tom’s Situation**

In this way, when Peter and Harry are still unable to get off the bed due to their injuries, Lin Rui is in the hospital room chatting with them. It seems that the three of them are back to the days when they were just good friends. However, they all know that things have changed a lot since before.

As the Golden Triangle of the New York Empire State High School, Jackson Lin became the Mirage Knight who secretly guarded the security of New York, Peter Parker became Spiderman, the loving guardian of New Yorkers, and Harry Osborn officially took over Oscorp Industries and becomes New York’s youngest large group president.

Although it has only been a semester, Lin Rui and his two friends have undergone tremendous changes. Furthermore, they will experience more unpredictable things in the future, but let’s leave their future to the future.

However, when Lin Rui and his two friends were being honest with each other and their relationship recovered to the previous time, New York did not want to look so calm without the Venom Spiderman hopping around. There will always be people who do bad things, which is why the League of Defenders exists.

In the most central part of New York, there are some luxurious office buildings that rose hundreds of meters from the ground, most of these buildings are office locations of some companies, and are also known as New York’s Elites hangout places. However, in the first-floor lobby of a luxurious office building, a teenager who was not compatible with the surrounding people was walking inside.

Da Da ~

“Mr. Tom Smith, hello, I’ve been sent to meet you.” Just as the boy walked slowly in the hall and looked around, a man in a suit and leather clothes came to him and greeted him politely.

The boy in the suit is Tom, the friend Lin Rui grew up with. I don’t know how he came to be here as nobody in Mr. Smith’s family seems to work here.

“Hello.” Looking at the man in a suit in front of him, Tom simply answered. It seems that this is not the first time he had come here, and although Tom doesn’t know the person in front of him, he doesn’t have much doubt.

“So, let’s go.” With a smile, the man in the suit turned and walked towards the building.

Watching the man in the suit turn around and walk ahead, Tom stood there for some time and finally, as if with some determination, lifted his feet behind the man in the suit and walked into the building.

Huh ~

Tom followed the man in the suit into a private elevator. To his surprise, they were falling fast instead of rising. From the monitor next to the elevator, it looks like Tom is going six floors down.

Moreover, looking at the monitor, Tom felt that there must be more than six floors underground. He just doesn't know what's going on underneath, but this is in the center of New York. Can an underground organization really have such a stronghold here? If it is true, then Tom would be shocked.

Ding ~

Soon, the elevator stopped on the sixth floor on the underground floor. When the elevator door opened, Tom continued to follow the man in the suit.

There is a long aisle in front of the elevator. When passing through the aisle, Tom can see various rooms on both sides of the aisle through the transparent glass on both sides. Most of the rooms are empty, but there are some people in some rooms, mostly young people, about the same age as Tom.

After carefully observing the people in the room, Tom was surprised to find that some of them had the ability that was not ordinary. Of course, Tom's surprise was only after seeing them at the beginning and then he calmed down. After all, he came for this reason.

After walking down the aisle with small rooms on both sides, Tom and the man in the suit came to an underground plaza-style building made entirely of high-strength alloy. In this circular underground square, many people are busy around machines that Tom has never seen before. Originally Tom wanted to take a closer look at those weird machines, but the man in the suit in front had already gone far, and Tom had to keep up.

Soon, the man in the suit takes Tom to a room that looks like a conference room. This is their destination.

"Well, Mr. Tom, you just wait here for a while. Manager Jeffery will be here soon." Taking Tom to the meeting room, the man in the suit looked at Tom and smiled.

"Yeah," Tom replied very blandly, apparently knowing that Jeffrey was in charge.

"Then, I'll leave first. Mr. Tom, don't walk around, there are some dangerous things here." The man seemed to be very satisfied with Tom's performance, and he reminded him before leaving the room.

Card ~

Finally, the man in the suit closed the door of the conference room before he left, leaving Tom alone.

"Whew! Am I doing the right thing?" After the man in the suit left, Tom whispered a question to himself.

Tom also came into contact with this organization in an unexpected circumstance, and it seems that this organization has some interest in Tom, and has been in contact with him since then, hoping to let Tom join this organization. Tom certainly didn't have any ideas at first, but that changed when Lin Rui and Peter and Harry became friends and formed the golden triangle and his best friend became Mirage Knight, that was when Tom's ideas changed.

In an accident, Tom finds Lin Rui, who sneaked out of the window in the middle of the night. Because of his curiosity, Tom followed Lin Rui. And what he saw made him overwhelmed. It turned out that his friend, who had been playing with him since childhood had such a huge secret.

Since then, Tom also knows why Lin Rui neglected him. Tom didn't intend to tell this secret to anyone, but he was inspired by Lin Rui to become like him. However, after his bravely was beaten into the ground, Tom finally realized that ordinary people cannot do Vigilante stuff like Mirage Knight. So, like Lin Rui, Tom has to be strong. And just then, he remembered what the mysterious organization had said to himself before, that they could make him strong and powerful.

So after long consideration, Tom decided to come over. Mirage Knight has gone a long way on Vigilante's road, and Tom doesn't really want to have nothing to do with his friend in the future. If Lin Rui knew Tom had taken such a dangerous step because of his negligence, no one know how much he would regret.

Sii~~

As Tom stood alone in the conference room in a mixed mood, a sound came from the metal wall behind him. Then the metal wall suddenly separated from the middle and opened like a door. When this superb hidden door was fully opened, a bald middle-aged man came out of it.

"Hello, Mr. Jeffrey." Seeing the man coming out of that wall, Tom watched him seriously and said.

"Hello, Tom."

## **Chapter 259 Restart of The Winter Soldier Program**

In the conference room, Tom and the director named Jeffrey were sitting on chairs facing each other.

"Tom, I'm glad that you made this decision in the end. I'm sure that you'll be glad in the future as you've made the right choice." Crossing his hands on the table. Jeffery looked across at Tom and smiled.

"I have no other plans, I just want to be stronger. If you can really help me, it's okay for me to join you. But, first of all, I won't do anything bad for you." Staring at Jeffery opposite to him, Tom said seriously.

In previous contacts, Jeffrey had introduced some of the situations with Tom. Their organization can give Tom superhuman strength, but he must fully cooperate with them in the process. Moreover, Tom will work for this organization afterward. Because it was unclear what the mysterious organization did, Tom had never agreed to this before.

"Of course I will do what I promised. But I hope you won't regret it now that you've made up your mind. You know, we can make sure you become the superhuman you want to be, but the process would be painful, and I don't want you to regret it." First, Jeffery smiled and agreed to Tom's demands and then he reminded him in a serious tone.

"Don't worry, I'm ready! However, are you sure that this process will only take a week, I only took a week off from school. If it is more than a week, my family will be worried." Hearing Jeffrey's reminder, Tom's pupil contracted, but he didn't disagree. However, he still needed to determine the time needed for that process.

“Don’t worry, since we have such a big move, we are 100% sure. Don’t worry. In a week, you will be able to take home what you have been looking forward to.” In the face of Tom’s worry, Jeffery replied with a smile. Listening to his promises is like listening to a salesman’s face when he is selling his products.

“Well, I don’t have any other questions. When will it start? I’m ready!” Tom’s biggest worry has been solved so he would like to carry out the experiment as soon as possible.

“Okay, I like young people like you! Come with me, we’ve prepared for you already.” Jeffrey laughed even wider when he heard Tom’s answer. Then he got up from his chair and walked towards the hidden door.

Shout!

Tom squeezed his fists tightly and he followed Jeffrey toward the wall.

Uh ~

The previously closed metal door opened automatically when Jeffrey and Tom came close to it and without any hesitation, Tom followed behind Jeffrey.

...

An hour later, Tom, who had undergone a full body examination and disinfection, was lying in a transparent jar shaped like a capsule. Tom is lying on the cold metal plate, but he doesn’t care about his discomfort. Because he knew that he would suffer more severe pain next.

Outside Tom’s lying jar, a dozen people in white research suits are debugging something on machines Tom doesn’t know. A few minutes later, the busy white people all stopped their movements, as if the preparations were over.

“Let’s get started.” Jeffrey, standing behind the glass wall, said softly as he saw what was going on in the laboratory in front of him.

“Yes!”

Kakaka!

Following Jeffery’s order, a man in a white coat reached out and clicked on the screen in front of him. Then suddenly, several buckles appeared in the jar from the place where Tom was lying, and Tom’s limbs and neck were caught. Then, a half-circle of metal appeared on each side of Tom’s head, quickly enclosing it.

Although startled by the unexpected situation, Tom did nothing else. Tom knew that this was a necessary means for the experiment, and he was afraid that he would not be able to bear the pain and his struggles would ruin the experiment.

Buzz ~

After Tom’s body was under control, a mechanical arm was raised from under the metal plate on which he was lying. The front part of the metal arm was a transparent needle. After the robotic arm appeared, it had pierced towards Tom’s neck.

“Shout! ~ Huff!” Out of the corner of his eye, he saw the needle hurtling toward him. Although he was prepared, Tom was still afraid.

There was no sound and the needle had penetrated Tom’s neck. Then Tom just felt a cold liquid pouring into his body.

Buzz ~

After injecting a tube of pale blue liquid into Tom’s body, the robotic arm quickly retracted and disappeared under the metal plate.

“Uh! ...!” Except for the cold feeling at first, when the liquid flowed inside Tom’s body, he began to feel some discomfort, but he could still bear it.

However, ten more seconds passed, and when those fluids began to work, a strong pain came from deep inside his body. And that pain continues to increase. Soon, it had reached the point where Tom couldn’t hold back his screams.

“Uh! ... Ahhhhhhhh!” After ten seconds, Tom finally screamed out loud and began to struggle.

However, because Tom was locked with a metal buckle at this time, even his head was enclosed in a small area. So no matter how hard Tom struggled, his entire body was still stiffly controlled on the cold metal plate.

Facing Tom’s painful screams and struggles in the transparent jar, the people standing outside recorded the data displayed on the instrument in front of their faces calmly, and they seemed to have been used to the scene in front of them. Such an experiment should have been done many times, and no one knows how many people have been tortured by them before Tom.

Just as Tom struggled in the jar, Jeffery, who was standing behind the glass wall, was watching him. After observing Tom’s condition for a few minutes, he looked satisfied.

“He seems to be a very good experimental subject. It’s a pity it took me so long to fool him.” Jeffery smiled and muttered as he looked at Tom, who was growing quiet in the jar.

“Manager Jeffrey, Sir wants us to move out of here in a month, it is no longer safe here.” Just as Jeffrey looked at Tom’s situation, the man in a suit suddenly said.

“I know, we will transfer after the end of these experiments.” Nodding, Jeffrey replied lightly.

Jeffrey then opened the folder he had been holding.

“The restarted Winter Soldier program, how many puppet soldiers can we build this time to match Captain America?” Glancing at the folder in his hand, Jeffery whispered to himself.

## **Chapter 260 Being Well Aware**

Time passed quickly, and three days had passed since Peter and Harry’s fight. With Oscorp’s complete medical system plus the effects of the Recovery gene serum, Peter and Harry finally recovered completely. The deep damage Venom and the Demon caused to their bodies were also repaired in these three days. It can only be said that Peter and Harry’s bodies were abnormal at this time.

After their physical recovery, Harry also considered Lin Rui's previous suggestion, that is whether he would like to join the League of Defender and become a member to protect New York and even the world. The answer from Harry surprised both Lin Rui and Peter because Harry was reluctant to join the League of Defender.

Although Lin Rui and Peter were a little surprised and sorry, Harry also gave his reasons. First of all, Harry is now the Director of Oscorp. Because he is still young, it would take more time and energy for him to gain a foothold in the company, which is very difficult.

But, although Harry didn't join the League of Defender, he will be the same as Tony Stark, who is supporting the League of Defender. No matter if it is funds or supplies, he would be able to provide them. When necessary, Harry can also become Green Goblin to fight criminals with Mirage Knight and Spiderman, and protect New York.

Lin Rui and Peter understand Harry's explanation. Harry didn't come from a simple family background like theirs and he doesn't have a lot of time to do his own thing. Today, he is a board member of a large corporation not much smaller than Stark Industries, making it really difficult for him to be a Vigilante like them.

However, with Oscorp's financial and material support, the League of Defenders will develop even better.

Just the Recovery gene serum and a later improved version of the Titan II are very good for Lin Rui. A strengthened treatment can improve the combat effectiveness of the League of Defender team a lot.

Moreover, with these two amazing gene serums, Osborn's future development will reach a level that no one can imagine. However, the stability of the Titan series is not strong enough, and Harry does not plan to cooperate with the US military for the time being. However, only by the role of Recovery Serum, Oscorp can completely defeat all opponents in the field of medicine.

Just as Stark Industries' miniature Arc Reactor has affected the entire energy market, once Oscorp launches their recovery serum, it will completely change the current medical market and it will be devastating for other biological companies.

Therefore, in order not to let his company become the target of public criticism, Harry and Oscorp have a lot of things to do in the follow-up. He wants to ensure that Oscorp will not be overshadowed by its various competitors. Of course, these are things that Harry and Oscorp executives need to consider, and Lin Rui and Peter will not care about them anymore.

After both Peter and Harry were discharged, the students of New York Empire State High School discovered that the Golden Triangle from the last semester had reunited. Although Harry just stayed in school for a while, the three of them did return to the last semester, which is what Lin Rui has always expected.

However, Lin Rui, who returned to school, also found Tom missing. After inquiring from his neighbor Uncle Smith, Lin Rui learned that Tom suddenly asked for a week off and went out. As for where he went, he didn't tell his family. Hearing from Uncle Smith, it seems that Tom had been in a bad mood lately, so they let him go to relax. Young people always have some mood swings.

Although Uncle Smith's family didn't worry much about Tom going out, Lin Rui vaguely felt that something was wrong as if something is going to go wrong again but he can't do anything for now so in the end, he can only helplessly put the matter of Tom behind. Lin Rui is going to wait for Tom to come back and talk to him about the recent situation.

Lin Rui did not know that Tom had disappeared when he left. It is not until a quest that he will soon get that Lin Rui sees his good friend again. At that time, however, Tom would no longer be the person Lin Rui knew.

...

On the weekend when Peter and Harry were in a normal recovery, Lin Rui was called back by Tony. Lin Rui, who wants to see where Tony's research on Venom has gone, is happy to drive his jeep towards Tony's home.

When Lin Rui arrived at Tony's beach house, it was rare that Tony stood at the door to greet Lin Rui. In the past, J.A.R.V.I.S directly opened the door. Is Tony in a good mood today? Lin Rui murmured as he saw Tony standing at the door.

Bam!

With the door firmly closed, Lin Rui walks towards Tony.

Tony's Iron Man Regiment had little effect in the last battle, which made him a little depressed, and he decided to study magic technology. However, wizardry is not physics, and there is not much that Tony could have done without professional guidance

"Hello! Mr. Stark, you seem to be in a good mood today." Taking a few steps up to Tony. Lin Rui asks with a smile.

"Not bad. My research on Venom did not disappoint me. If this creature can be used with my Iron Man Armor, it will become a huge innovation!" Since Lin Rui asked, Tony also laughed as he answered, he was really very happy.

Tony never told Lin Rui about Venom directly. Has he already determined that Mirage Knight is Jackson?

"Really? What did Mr. Stark find?" Lin Rui didn't think that there was a problem with Tony's words. It would be a good thing if Venom can be used in a controlled way, and Lin Rui hopes that Tony will succeed.

"Come with me and see for yourself." Without standing at the door and saying something to Lin Rui, Tony had turned and walked towards the villa, and Lin Rui naturally followed behind, and both seemed to tacitly understand something.

After half an hour, Tony showed all the research results of these days to Lin Rui, and it was really amazing.

Tony cut a small part of the Venom for experiments. In addition to some of the characteristics of Venom that he knew before, Tony found more things this time. For example, Venom is able to fuse and devour most biological products. And to a certain extent, it mimics the material that it swallows.

The previous Spiderman suit was thus engulfed by Venom and not discovered by J.A.R.V.I.S. This is equivalent to Venom being able to replace many materials. This feature of Venom is almost tailored for people who need special identities, because if Venom is on their body, they can change any clothing instantly, just like Peter's original suit and Venom Spiderman suit before.

Speaking of which, this feature of Venom is also similar to the mutant ability of a famous Mutant, but Venom can only change itself, not the host.

And, while Venom is a parasite, it doesn't die like other parasites without a host, but degrades its activity and can go into hibernation. Tony has seen the very active Venom slowly quieten down these days, but there is still a long time before it can go into hibernation, which is why Tony is not sure that it will even go into hibernation.

In addition, Venom's defense is also very strong. In addition to the previously known weaknesses, Venom can resist the sword and bullet attacks and can be considered as a highly adaptable creature.
