

## Marvel 281

### Chapter 281 Francis War Declaration

Jackson, Lin Rui had told Matt his real name when they got along. Since Matt couldn't see, Lin Rui couldn't make up a nonexistent name to lie to him.

"Jackson? Hee brought his friend here yesterday. However, they didn't seem to leave together." Hearing Matt, Jeff thought and replied casually.

"Do you know exactly what happened when he left?" Matt continued, hearing Jeff's words.

"I remember several people coming to Weasel for trouble, and after we stopped them, Jackson left. He never returned, and Jackson's friend waited for a long time before leaving too. He couldn't even drive and Jackson left his jeep keys with him, Hahaha! " Last night Jeff drank a few beers with Thor, and Thor's warrior temperament fits in with these mercenaries. So, Jeff remembers that Thor and Lin Rui had gone separately last night.

"It's really the forces behind Francis." Peter frowned, hearing Jeff's words.

"Jeff, do you know the name of Lin's friend, or do you have his contact information?" Now that it was indeed related to the forces behind Francis, Daredevil now wondered if the friend of Mirage Knight would know something.

"Well, that guy's called Thor. It seemed like he did give me his number last night. I'll look for it." Jeff also saw that something had happened, so he didn't ask much and just pulled out the phone and started to look for the phone number.

"Here, this is his number. He said last night that he would often come here for drinks later." Passing the phone to Matt, Jeff continued.

"Thank you, Jeff, I'll drink with you next time," Matt asked Peter to write down the phone number and returns the phone to Jeff.

"Yeah, it's okay. Remember, just call me if you need help! I'm the helpful Jeff!" Jeff said with a smile when he saw that Matt was ready to leave.

"Don't worry, I will."

Two minutes later, Matt and Peter were already standing on the street opposite to the Margaret Sisters Bar, where Lin Rui's jeep was parked.

"This is Mirage Knight's jeep?" Although he couldn't see it with his eyes, Matt could detect a bad jeep in front of him.

"Well, yeah but we don't have the keys, we can't drive away." After looking at Lin Rui's jeep where they found nothing, Peter answered with a frown.

"Okay, let's see who this Thor is?" Peter pulled out his phone and had already dialed Thor's number.

"Hello." Soon, the call was connected and Thor's voice came over.

“Hello, I’m Jackson’s friend. Do you know where he went last night?”

...

A few minutes later, Peter hung up the phone with some disappointment. This Thor is indeed Lin Rui’s friend and he is probably the friend that Lin Rui wanted to introduce him to. However, Thor had no idea what happened to Lin Rui last night, nor did he know anything about the attack on him or his disappearance.

Shout!

“Let’s go back and see if Deadpool had made any progress. Francis kidnapped his girlfriend and he is definitely planning to kill Deadpool. Then, as long as he dares to show up, we can find some clues from him!” They found nothing on Thor’s side and Peter can only hope that things are better on Deadpool’s side.

“Yeah, let’s go.”

...

Thor’s apartment building is near Lin Rui’s home Queen, New York.

“Looking for Jackson? Did he really have an accident last night?” Thor frowned and murmured. From this phone call, his bad feeling last night seemed to have become real.

Although Peter didn’t disclose much about the attack on Lin Rui and his disappearance, Thor had already acutely guessed that something is wrong.

“If I still had my divine power now ...” Thinking back to the few people that Lin Rui had followed last night, thinking about the danger Lin Rui might encounter, Thor could not help but blame himself for being just a mortal.

“Father, what do you want me to achieve? My friend may be in danger now, can I really only stay at home without doing anything?!” Thor blamed himself for not being able to protect his friends and he looked up at the sky and growled.

Buzzing ~

Just as Thor was eager to gain back his divine power because Lin Rui was in danger, Mj?Inir in SHIELD’s laboratory in New Mexico suddenly began to tremble, as if something had been induced. However, in the end, Mj?Inir was still quiet, and its calmness was recovered.

“Huh! That scared me! What’s the secret of this thing?” Watching Mj?Inir calm down, several researchers hiding behind were whispering with excitement. And this time Mj?Inir’s move has also been recorded in detail, they will study what exactly caused Mj?Inir’s movement.

...

New York, Weasel’s home.

“F ~~ k!” Deadpool cursed angrily while kicking an inflatable doll.

“OK! You can take it out on that!” Looking at the furious Deadpool, Weasel can only tell him to try not to damage his valuables.

“Guns! I need Guns!” When Francis kidnapped Vanessa, he had already declared war upon Deadpool. It’s a fight to the death and Deadpool has to get Vanessa back and kill Francis.

“Okay! Guns, we have a lot of guns!” Weasel pulled out his guns from around the room while he spoke to Deadpool.

If Deadpool was going to go to Francis alone then even if Weasel is worried about Vanessa, he will try to stop Deadpool. However, Deadpool has already contacted the League of Defender, and there is also a guarantee that they will deal with Francis with Deadpool. So, of course, Weasel will support Deadpool.

Kaka!

“Francis, the fucker dared to kidnapped my girl! I will kill him!” Wade said fiercely while putting bullets in a gun chamber.

“Uh ... that, didn’t you say that the disappearance of Mirage Knight was caused by the forces behind Francis, so don’t you need to first ask where Mirage Knight is before you kill Francis?” Seeing Wade losing himself in his hatred, Weasel whispered and reminded him.

If Deadpool shot Francis in his head because of a moment of anger, how would he find Mirage Knight?

“I know, I’ll crush all this guy’s bones and ask him where Mirage Knight is before exploding his head.” Inserting the gun behind his butt, Deadpool replied in a loud voice.

“Just remember it.”

Dī Dīdrop ~

Just as Deadpool was furiously preparing for a fight, a dialog box popped up on Weasel’s computer on the table. It was Francis’s call!

Call!

Quickly opening the video request, Wade and Weasel both see Francis at the other end of the screen.

“Wade Fucking Wilson, your girl is in my hands, Meet me at nine o’clock tomorrow morning if you don’t want her to look like you, I will be waiting for you at XXXXXXX,” Francis said with a sloppy expression, he stood next to a glass jar and shoved it toward the screen. The glass jar contained Vanessa that had been taken away. It seemed that Francis was going to do the same experiment on Vanessa that he did on Wade.

“Francis! We don’t have to wait for tomorrow morning, I’m going to blast you to kingdom come right now!” Seeing Vanessa locked up in the jar, Wade’s anger reached its limit and he yelled at the screen.

Boom!

The next second, the entire screen shattered into a piece of scrap iron. It turned out that Deadpool was shooting directly at the computer screen!

“Wade!”

“Okay, it’s time to contact the Guardians!” Deadpool said after shooting the computer.

## **Chapter 282 See Through**

Hydra’s secret base is in a forest on the western side of New Jersey.

Lin Rui had been kidnapped for several hours, but, except for a search when he was first brought into the castle, Lin Rui was kept behind in a small room alone.

Moreover, because of the special hiding function of the Phantom Suit, those people did not search his body. In the end, they only picked up the coat and also took away the Thunder Blade that could not be hidden. These people originally wanted to remove Lin Rui’s mask but they found that the mask could not be removed. So they didn’t insist anymore and Lin Rui was put into the room with his mask on.

“Are these fellows going to hang me out here? At least it took the Quicksilver and Scarlet Witch to bring me here but this treatment is not normal.” Lying in the closed room and pretending to be unconscious, Lin Rui’s mind was rapidly thinking. However, until he can figure out the purpose of these people in kidnapping him, Lin Rui does not intend to deal with them.

Just as Lin Rui was thinking carefully and trying to figure out these people’s intentions, in the other room of the old castle base, several people were staring at the monitor in front of them. The picture displayed on the monitor is of Lin Rui, who is locked in the room, and there are some instruments monitoring Lin Rui’s physiological condition at this time. Of course, this is the result of Lin Rui letting them take off the “Phantom Suit”. He can never let others see that the Phantom Suit is not simple. The key point is that these people never really took off his ‘Phantom Suit’. The clothes that those people took off, it was just a simple cloak. Phantom Suit was put into his left-hand wristband by Lin Rui.

“This is the guy that Quicksilver and Scarlet Witch caught back this time. Listening to the Quicksilver report, this guy seems to be very strong and he was able to get rid of Scarlet Witch’s illusion control.” A military man standing in front of the monitor was facing a man in a suit and said with a calm tone.

“Well, this is the guy who killed our Level 4 Mutant Wind Spirit, he is certainly not ordinary. However, this time we accidentally caught him but it seemed to have cause a big problem and now there are at least four forces in New York looking for Mirage Knight.” The man in a suit briefly replied after hearing the words of the man in military uniform and then said a little helplessly.

Even if Hydra considers her strength to be strong, it was very difficult for them to survive SHIELD’s full-scale annihilation of them. If Tony’s Iron Man army and X-MEN also began to look for them, then Hydra can really not last long.

“This is also something that I didn’t expect. I didn’t expect this guy’s background to be so deep. However, the more these things happen, the more we can be sure that this guy is not just any vigilante. If our experiments on him are successful, then our Hydra’s glory days may not be far away.” The Men in the military uniform is not as worried as the men in suit. All he has been thinking about is to build and expand Hydra.

The enmity between Deadpool and Francis is just a trivial matter. Francis has no idea that the organization he works for is Hydra, and he is only responsible for a small part of Hydra’s internal

experiments on induced Mutants. The reason why a Level 4 Mutant intervened in the battle between him and Deadpool last time was just because of the old grudge between Hydra's Mutants division and X-MEN.

This time Francis went to Deadpool to create trouble. Hydra secretly dispatched its backbone forces such as Quicksilver and Scarlet Witch, which were originally intended to lead some powerful people to deal with some of the main Hydra's enemies. Whether it is SHIELD's Captain America or X-MEN's Iceman and the like, they are Hydra's target. However, Mirage Knight was captured this time but the forces and people behind him have surprised Hydra.

"Can that experiment really guarantee any success? Although I know that the restarted Winter Soldier program is going well, after all, that experiment is not the same as the original Winter Soldier plan, and if there is a problem, it will cause us a huge setback." He looked at Lin Rui on the monitor again and the man in the suit frowned slightly and asked a few more questions.

"Don't worry, from the data of the instrument inspection, this Mr. Mirage Knight is fully able to withstand the harm caused by the experiment. As for whether he will be controlled by us in the end, do you not believe our means of controlling people?" When it comes to the suit man's worry, the uniform man said indifferently.

"I hope so. However, should we let this Mirage Knight sleep well first, he should be quite tired after pretending to be unconscious for so long." The man in a suit seem to believe the words of the military uniform man and nodded and continued.

"Of course, since No. 5 sedative is useless, go directly to No. 12. This Mr. Mirage Knight may also want to surprise us, but since he dares to enter our base, we can't let him go. He will become useful to us and our cause." Hearing the words of the man in a suit, the uniform man smiled and said.

Then he turned and nodded toward a man sitting behind him. It turned out that Lin Rui's acting has been spotted after being put in this room!

Card!

After receiving the command, the man raised his hand and clicked on the touch-screen keyboard in front of him for a few times. Then, the room in the display was quickly covered by white smoke, and the detection equipment on the side also simultaneously displayed the physical condition of the person trapped inside.

Two minutes later, the smoke in the room dissipated, revealing the man lying in the middle of the room again. However, at this time Lin Rui's lying posture seemed more relaxed. Lin Rui, who had been pretending to be unconscious, seemed to have fainted by the action of the twelfth tranquilizer.

"Send someone in to see, be careful, some people can control their physiological changes. If there is an accident, close the door and do not let him run out." Staring at the display for a while, the uniformed man then ordered seriously.

"Yes!" The commander sitting behind agreed and issued the order.

Soon, a door was opened in the sealed room on the monitor, and several heavily armed soldiers quickly entered. Seeing that Lin Rui on the ground did not respond, the people squatted down and examined

him carefully. Finally, it was determined that Lin Rui had really passed out, and then they made a gesture to a corner of the room, indicating that everything was OK.

"Take off his mask." Seeing that Mirage Knight was really unconscious, the man in a suit suddenly shouted.

The followers soon issued this command and the team on the display quickly executed this simple command. When that a man reached out to lift the mask on Lin Rui's face, the mask that couldn't be removed before was like an ordinary mask being taken off.

Carefully putting the mask away, this man turned Lin Rui on the floor and turned his face to the angle of the monitor. The man in the suit in the other room opened his mouth instantly after seeing Lin Rui's face, and he was obviously frightened.

"It turns out! ... is he!? ..."

### **Chapter 283 Exposed**

"He? Who? Jeffery, do you know him?" The man in the Military uniform noticed the expression on the man in the suit next to him and he also looked at Lin Rui's young face on the display and asked, However, he also did not expect that the famous Vigilante Mirage Knight in New York turned out to be a child who had not yet grown up. It was a little surprising."

"Well, I know this young man. His name is Jackson Lin. I finally know why Tony Stark sent so many Iron Man Armors to look for Mirage Knight, and SHIELD sent a lot of agents to look around. It turned out that Mirage Knight was him, which is really surprising!" Confused with a shocked expression, Jeffery nodded and explained to the uniform man next to him.

Hydra's internal system is very large, with different responsibilities and division of labor. This man in a suit, Jeffery is in charge of personnel expansion and some intelligence system. Tom was tricked by him to become a new lab rat for the relaunched Winter Soldier program and Jeffery was in charge of that. And this man in the military uniform is obviously the one who has been doing internal research in this secret base and is not very familiar with the outside world.

"Jackson Lin, is he someone special? Listening to you, it seems that he has something to do with Tony Stark and SHIELD." The military men have no impression of Lin Rui's name. If he heard Steve Rogers or Fury, he knows them but he doesn't know this young man so he asked.

"Reese, you may not know. This Jackson Lin is a very smart young man. He has achieved very good results in physics and biology at a young age, and he met Tony Stark by chance. Since then, the relationship between the two seems to have continued to develop deeper, even SHIELD almost thought that Jackson Lin was the illegitimate son of Tony Stark.

"And when we were still in SHIELD, this little guy was already a second-level reserve member for SHIELD academy recruitment. However, because of Tony, SHIELD has never recruited him. But now, in my opinion, the hidden strength of this little guy is enough to enter into Fury's Avengers Initiative. Unexpectedly, SHIELD missed such a talent with unlimited potential!" Looking at Lin Rui in a coma on the display, Jeffery's eyes continued to shine as he spoke to Reese said.

“So it seems that the background of this little guy is really complicated. In this way, if our experiment is successful, his role will be even greater. A little guy who can make Tony Stark so nervous and worried, Even if he is not his illegitimate child, it wouldn’t be much worse.” Reese, the man in the military uniform, is not as excited as Jeffery when he heard of Lin Rui’s talent. He is just thinking about the benefits that such a person can bring to Hydra’s subsequent growth.

“Reese! Don’t you think it’s too wasteful for such a talented person to become a dangerous experiment subject? In my opinion, getting such a complete talent is the most useful for Hydra.” Hearing Reese’s words, Jeffery’s eyes flashed.

It seems that the director in charge of Hydra’s intelligence unit has taken pains to know the real identity of Mirage Knight. And if Lin Rui can really be used by Hydra, it’s much better than doing that experiment and turning him into a command only humanoid machine.

“Jeffery, this thing is not something you can change. Even if this little guy is really good, how can you make him willingly join Hydra? You know, he can even break out of Scarlet Witch’s illusion, do you have a better way to control him besides that experiment?” Reese asked politely in the face of Jeffery’s idea.

“This ...” Jeffery really didn’t know how to control a mentally strong person like Lin Rui, so he didn’t know how to persuade him.

“Furthermore, Hydra is in a very dangerous situation now. Continuing to complete that experiment and then disintegrating our hostile forces from within is our main priority. Now, whether it’s SHIELD or X-Men, they are all looking for us. It’s impossible for us to use a wait and see approach on such a powerful person.” Seeing that Jeffery had nothing to say, Reese went on.

“I know, the experiment will continue. However, can you postpone it for a while and find out if there is any other solution.” Jeffery was finally convinced by Reese, but he still wanted to fight for it.

“I can only give you half a day. After half a day, the experiment will begin. Although SHIELD has not found us yet, according to their current progress, the exposure of this base is just a matter of time. I cannot take risks.” Reese finally relented and he only gave Jeffery half a day, because the pressure exerted by Tony and SHIELD was really great.

“Thank you, half a day is enough!” Jeffery is very grateful, and he seems to have some ideas.

“Clean him and change the room, then release the No. 12 tranquilizer every hour. The test will begin half a day later when everything is ready.” After agreeing with Jeffery, Reese went back to his men and ordered.

“Yes, sir!”

Lin Rui was then taken out of the room by the team. As for whether Lin Rui was really unconscious, this is probably only known to him. However, if Lin Rui continues to pretend, he will pay a lot more this time. At least, his true identity has been exposed to these people. If he can’t wipe out all of these Hydra people in the end, Lin Rui will not have a good life in real life in the future.

Watching Lin Rui being taken away, Jeffery’s eyes flashed with a different light. After General Reese rejected his proposal, Jeffery was already thinking about how to make such a genius willingly join Hydra. However, Jeffery also knows that such a person’s willpower is very strong. In addition to the kind of

experiment that can forcibly wipe out his original consciousness, he really doesn't have many good ways to achieve best result.

However, after carefully reviewing the information about Jackson Lin's life, Jeffery suddenly thought of someone, a person with an unusual relationship with this Mirage Knight: Tom Smith, who has now successfully become Hydra's newly launched Winter Soldier, he is one of the perfect ones of ten Winter Soldiers.

After carefully reviewing the information of Jackson Lin, Jeffery suddenly remembered that Tom who had been fooled into joining Hydra a while ago to accept the Winter Soldier transformation plan turned out to be Lin Rui's best friend from childhood to age. Perhaps he can find a breakthrough in this regard.

"Kelly! Transfer our No. 1 Winter Soldier, I need him to perform a special mission." Since he only has half a day, Jeffery decided not to waste time anymore, he quickly took out his mobile phone and contacted his men.

"Yes, Mr. Jeffery!"

"Mirage Knight, Jackson Lin. New Winter Soldier, Tom Smith. I look forward to seeing such a situation."

...

#### **Chapter 284 New Winter Soldier: Tom**

Two hours later, Lin Rui woke up in a daze. By this time, he had been moved to another white airtight room, lying on a special bed with the same white color. It's better to say that Lin Rui is tied to the bed than lying in the bed. Lin Rui's whole body is bound to the bed with special materials. He can't break away at all. Except for a little brain movement, even the fingers are locked.

"How could I?! ... I am really caught!" Waking up, Lin Rui remembered the last thing he remembered before he fell into unconsciousness.

Lin Rui only remembered that he was waiting for the chance to make a move but the room was suddenly filled with white gas. Even if his face mask was not removed and has the effect of blocking the gas, the gas penetrated into his body through the skin.

Therefore, Lin Rui who took off the Phantom Suit was affected. Even though he was very resistant to this kind of tranquilizer, he couldn't resist the tranquilizer agent when the whole room was filled with gas. After persisting for a while, Lin Rui passed out. After waking up, he found himself here with all of his clothes been changed. Even the mask on his face was gone, but that was the last part of Phantom Suit kept by Lin Rui. It seems that once his consciousness is lost, the mask that has been transformed by his consciousness can be taken away.

Now Lin Rui still has something of his own, that is, a wristband on his left hand. This wristband is the Phantom suit wristband, which belongs to a special recognition item. Even when Lin Rui is unconscious, it will not be forcibly removed. Hydra also tested the wristband a lot, and they couldn't take it off of Lin Rui's hands.

"This situation is very bad now! I didn't expect Hydra would be so cautious and deal with me directly with so many special drugs!" Lying on the bed, looking carefully at the white room, which is empty except for himself and the bed under him, Lin Rui thought helplessly.

"Although he can cut open these restraint bands with his internal energy when the effect of the tranquilizer is over, he doesn't know what is going on outside. Maybe as soon as he rushes out, there would be countless guns facing him. He can only hope that Tony comes here soon to save him." Feeling the internal energy that is slowly becoming active in his body, Lin Rui is also thinking about self-rescue measures.

However, Lin Rui's situation is almost desperate. He can only go if he is really strong enough to demolish this Hydra's secret base, otherwise, he will have a hard time escaping. At this time, Lin Rui could not help thinking of the system that had been "Dead" for a long time now. If it was alive now, maybe he could give Lin Rui some suggestions.

"Or, if the Hulk was here, his presence alone would be enough to demolish this base." In this trapped situation, Lin Rui couldn't help but think about Hulk that could not be controlled.

"It is useless to think about these things now, but it is still important to take the time to recover his internal energy!" After accepting his experience at this time, Lin Rui dismissed his wayward thoughts and started meditation under such circumstances. The more he recovers, the greater his chance of escape.

"This little guy is quite calm. He was tied up and he didn't even panic when he woke up in an unfamiliar environment. Instead, he closed his eyes and began to repose!" Just next to this white confinement room was another secret room. Director Jeffery and General Reese are observing Lin Rui from here. The better Lin Rui performs, the more Jeffery wants to recruit him completely into Hydra.

"This kind of person is really good. It is a waste of talent to do that experiment on him. However, it is also his potential that, once it cannot be used by our Hydra, it will surely bring us an unexpected disaster in the future." General Reese also saw Lin Rui's calm performance, but he thought of the threat that Lin Rui might bring to Hydra.

"Don't worry, if he can't be used by us, I will support your experiment very much," Jeffery said seriously after looking at Lin Rui whose eyes were closed in the room in front of him.

"Well, let your best Winter Soldier get off the ground. I hope that this is a bit useful. However, I don't think it would be very successful." Not planning to waste any more time, General Reese said to Jeffery.

"But we lose nothing in trying. Kelly, let No. 1 go in." With a smile, Jeffery ordered his man who was standing beside him.

"Yes!" Kelly agreed and walked out of the room.

...

Card ~

Lin Rui, who is lying in bed meditating on recovery his internal energy, suddenly hears a slight opening of the door, he stops meditating and turns to look in the direction of the sound. From Lin Rui's point of view, he can only see a warrior in a black suit coming towards him slowly, but we can't see his face yet.

Da Da ~

Da Da ~

Finally, the soldier came to Lin Rui's bed and he stood beside him and looked down at him.

"Jackson, it's been a long time." A stiff smile appeared on the soldier's face as he greeted Lin Rui, who had now become scared and pale on the bed.

"Tom?! Why?! ... How could it be you! How could you be in Hydra?!" Lin Rui shouted in shock as he looked at a strange Tom standing beside him.

Even if Lin Rui can bear this situation and accept his incompetence in getting captured for real. When he sees his friend from childhood in Hydra, that is unacceptable, was Tom always a Hydra member? No, it's impossible! He was with Tom from childhood. If he was a latent member of Hydra, he would have definitely found out about him.

But what is happening now? Did he also got caught by Hydra? Or was Tom forced to join their ranks? That's right! This must be the case. Before Tom had somehow taken a leave for a week from school to travel and there was no news from him later. Now he had appeared here, he must have been taken by Hydra! Damn Hydra! At the moment of seeing Tom, Lin Rui had already imagined several scenarios in his mind, and in the end, he was almost infinitely close to the real situation.

"Well, Jackson, I have indeed joined Hydra. And I now have a superhumanly strong body." Looking at Lin Rui on the bed, Tom said blankly.

"Jackson, if you are willing to join us. I will guarantee that you will get unpredictable treatment and Hydra will lead the world to glory with your help." Tom stared at Lin Rui and said the lines that he was ordered to say.

"Tom ~~ You! ..." Seeing Tom's expressionless expression at this moment, and then hearing what he said, Lin Rui quickly guessed what happened to Tom.

If Tom isn't hypnotized, then he is being controlled by Scarlet Witch. Otherwise, Lin Rui doesn't believe Tom will talk to him like that. After all, they are also good friends.

"Tom, don't worry, I will save you and get you out of here!" Lin Rui swore angrily without answering Tom's words.

### **Chapter 285 Wrangled And Opportunity**

Facing Lin Rui's angry vow, Tom looked at him blankly. It can't be said that there is no expression on his face, but at this time, Tom is looking at Lin Rui and considering him his mission, there are no other feelings in his heart and the expressions on his face are needed to finish this mission.

"It's impossible for me to join Hydra! The guys who are secretly observing us, get out here!" No longer staring at Tom, Lin Rui turned and shouted at the doorway. Now that Lin Rui has guessed what happened to Tom, it's better to talk directly to Hydra!

Card ~

Just when Lin Rui watched the strange Tom full of anger, the previously closed door opened again, and a bald man in a suit slowly walked in. It was Mr. Jeffery.

"Although Number One is already the most perfect one in these experiments, there are still many flaws in him." When Lin Rui shouted, Jeffery knew that it was already impossible for Lin Rui to join Hydra even with Tom being here. So he walked straight in from behind the scenes.

"Number one, come on, your good friend doesn't seem to believe you!" Walking to Lin Rui's bedside, Jeffery waves to Tom and said.

Shout!

"Yes!" Tom was already standing behind Jeffery and replied seriously. Looking at Tom's puppet-like behavior, Lin Rui's hatred for Hydra deepened.

"Very good! I didn't have a lot of hatred against you guys at first. I just wanted to deal with you. But now, you have completely offended me! Don't worry, you will die with a lot of pain very quickly!" Staring at Jeffery as he approaches, Lin Rui says with cold eyes.

If Lin Rui had dealt with Hydra mainly because of the Mainline quest before, then Hydra has completely offended Lin Rui now and now this is personal. As long as Lin Rui is alive, he will want Hydra to completely disappear from this world. Lin Rui's first step in his ambition is to tear apart Hydra.

Whirl ~

Jeffery felt a chill in his back as he heard the threat from Lin Rui, who was firmly strapped to his bed. The man in front of him is clearly under complete control. Whether he die or become a lab rat is all in his own hands. Jeffery doesn't know why he feels something bad when he hears Lin Rui's threat.

"Hmm! I'm going to give you one last chance, If you promised to join Hydra now, I can still protect you, and let you stay independent. In two hours, it will be too late to regret it! Do you want to be the same as your friend here?" Suppressing the uneasy feeling in his heart, Jeffery stared at the angry Lin Rui on the bed and said.

"Besides, if you really joined Hydra, I can make the first decision. I don't think you want to see your friend Number 1 look like this." At last, Jeffery pointed to Tom, who was standing beside him and promised to release him. Of course, what he said was false and he had no plans to do as he promised. Although the value of Number 1 is not as good as the man in front of him, Number 1 is also the best hitmen under Jeffery at this time.

"Don't shout at me with Number 1 and Number 1! He has a name! He is my friend! His name is Tom! Tom Smith!" Lin Rui shouted angrily while grasping the recovered internal energy.

As for what the bald man in the front of him said to him, Lin Rui didn't believe a word. If he could believe what Hydra had said then there would be no liar in this world. However, now Lin Rui doesn't know what

they did on Tom to make him like this. If he can't recover in the future, Lin Rui doesn't know how he would face his friend and the Smith family.

"I know you are angry right now, but I still hope that you think about my offer. You know, you are in a situation where you can't escape. Listen to my advice, you can maintain your consciousness and save your friend, why not take the better choice?" Faced with Lin Rui's anger, Jeffery was not surprised, and then he persuaded him as he really didn't want to waste such a potential talent.

"Huh! It took Hydra so much effort to catch me and you want to keep me safe?" Lin Rui's internal energy has been almost recovered, so he needs to understand the situation before him, to see if he can take Tom away as a hostage.

"Of course! There are some troubles here and there, but as long as those people see the value in you, I believe it would be possible to protect you." Hearing Lin Rui's relaxed tone, Jeffery hurriedly said.

As long as Lin Rui is willing to join Hydra, they will also put a lot of control on him. Of course, a person who retains complete consciousness is much more valuable than a humanoid machine that has been transformed and has no room for improvement.

"Is that right? It seems that your position in Hydra is not low." Hearing Jeffery's answer, Lin Rui squinted and whispered.

"Of course, I led the new Winter Soldier Project." Seeing Lin Rui's expression, Jeffery suddenly felt something was wrong but he didn't care too much.

Jeffery is not like Reese who only cares about Hydra's current combat effectiveness, he values ??Hydra's future development even more. If they want to lead Hydra to the top of the world, they can't rely on these simple-minded and controlled people alone.

"That little guy ..." Just as Lin Rui and Jeffery were talking in the room, General Reese's eyes suddenly jumped as he stood behind the glass.

"Why do I feel that something bad is about to happen?" Staring at Lin Rui tied to the bed across a glass wall, General Reese frowned slightly.

"Strengthen external monitoring and investigation system. Once you found something, immediately activate the Level-3 defense system!" Thinking for a moment, Reese suddenly ordered to the men behind him.

"Yes, Sir!" General Reese had given the order and the men behind him followed.

In Reese's view, even if something unexpected happens, it should come from the outside. No matter how strong the little guy tied up to the bed in front of him is, it is impossible for him to make any moves in this situation. He isn't someone like Hulk. For Hulk, General Reese still knew something about him.

In this Hydra's secret base, even if Tony rushes in with his Iron Man Armors, as long as the number does not exceed 20 or 30, the special weapons in the base are enough to keep them all here. This base is not like the bases they had when they were lurking inside SHIELD and could only use limited SHIELD weapons. The high-tech weapons developed by Hydra privately are enough to shock anyone.

After confirming that there would be no accidents from outside, General Reese turned his attention to the room in front of him again.

“In this case, it should be a bit effective if I captured you!” When General Reese moved his gaze to the room again, Lin Rui’s eyes flashed with a purple light.

“What?!” Jeffery stood beside the bed with an unexpected look on his face as he heard Lin Rui’s words.

Can this little guy in front of him do something? Even if Number 1 behind him did not react, there was no chance for Lin Rui to break free. However, before Jeffery relaxed, what happened the next moment changed the expressions on his face.

## **Chapter 286 Run Out**

Dī Dī Dī Dī!

“General! Suddenly there is an unidentified high energy coming from the target!” Just after Lin Rui finishes that sentence, the subordinate behind general Reese, who has been testing Lin Rui’s physical condition, shouts in surprise.

“Not good!” Hearing reports from behind him, General Reese rushed out and the expressions on his face changed. However, in the room separated by a layer of glass, something that no one had thought of had happened at this time.

Huh!

A sharp internal energy that can’t be seen by the naked eye rushed out of Lin Rui’s body, cutting off those extremely strong shackles in an instant. Although it takes a lot of internal energy to get out of trouble completely, Lin Rui now has only one way.

“You! ... you! ~~” Watching Lin Rui in front of him cutting the ties with invisible energy, Jeffery pointed at him in shock and kept backing.

Shout!

In the next second, Tom, who was standing next to Jeffery, had stopped in front of him. Although there is still a contradiction between Tom’s self-consciousness and his post-hypnotic consciousness after only one or two deep hypnosis, at this time he can already take some initiative. However, his actions were not very good for Lin Rui.

“Number 1! Control him!” Jeffery suddenly shouted at the sight of Tom who was standing in front of him came into his eyes.

The strength of No. 1 has been tested many times after the completion of the experiment. While maintaining a certain consciousness, the strength of No. 1 is much stronger than the original Winter Soldier. Although Jeffery knows that the little guy in front of him is not as simple as he seems, he is confident enough about his situation with Nimber 1 here.

“That’s It! Don’t call him Number 1!” Lin Rui yelled coldly as Tom rushed towards himself under Jeffery’s order.

"I'm sorry about this, Tom!" Facing Tom who had rushed in front of him, Lin Rui's figure had already disappeared from front of them.

Boom!

When Lin Rui appeared again, he was already behind Tom, he raised his hand and knocked at Tom's neck. Lin Rui used enough strength to stun Tom without causing him much damage. Boom! However, Lin Rui's chop was stopped shortly before it hit Tom's neck.

Tom could not respond to Lin Rui's speed in the beginning but he made the most correct response the next moment. He twisted his neck and raised his arm to block Lin Rui's attack, stopping Lin Rui's blow.

Brush!

Then, Tom twisted his waist and swept over Lin Rui's leg.

Pū!

Lin Rui, who evaded Tom's feet and stepped back two steps, was surprised. Although he knew that Tom must have been transformed by Hydra, it's unbelievable that he gained such a powerful power in such a short amount of time.

Judging by the brief confrontation between Lin Rui and Tom, Tom is at least stronger than the Winter Soldier Bucky without his mechanical left arm. His fighting consciousness and response are also excellent and they are not inferior to Lin Rui.

"Haha! How much strength does this new generation of Winter Soldier have?" Jeffery, who had already retreated to the door of the room, saw Tom kicking back Lin Rui, and the fear in his heart suddenly became a lot smaller and he began to laugh while standing at the door.

"The new generation of Winter Soldiers? In this case, I will inevitably have to hurt you, Tom!" Lin Rui blinked at Jeffery's words, then his figure disappeared again.

Brush!

This time Lin Rui appeared next to Tom's side. He also punched him and Tom quickly responded and punched him back. Boom! Kaka!

However, the result of this fight was that Tom was directly hit, and there was a sound of broken bones on his arm. How can the new generation Winter Soldier block the fist blessed with internal energy, Lin Rui has not always been known for his physical strength! His great strength lies in his internal energy!

Brush!

After punching Tom, Lin Rui has immediately followed up and swiped his feet at Tom before he landed. Pū!

Kakaka ~

Lin Rui stomped his two feet on Tom's chest in succession, breaking Tom's ribs directly.

Boom!

Then he gave Tom a hard knock on the back of his head. Tom finally fainted under a series of blows from Lin Rui.

Shout!

Holding Tom in his arms and pinching him to his waist, Lin Rui rushes towards Jeffery, who is about to rush out of the gate. Just a moment ago, Lin Rui's movements were instantaneous. Jeffery was too late to go out, and he only saw a shadow that rushed towards him in an instant.

"Close the door!" General Reese, who was separated from the scene by a glass gave a decisive order. He should have locked the door when Lin Rui broke free from the restraint. A moment of hesitation may cause a lot of damage to this base.

"Yes!" Hearing General Reese's orders, the staff behind him began to close the door without hesitation.

Hoo!!

In the room, Lin Rui has already slapped and stunned Jeffery, and the door in front of him starts to close quickly.

"Hum!" Lin Rui, with one man in each hand, rushed out at the critical moment.

If he got locked up in this room again, Lin Rui's end will not be very good.

"Damn it! Send out a second alert! Send out three soldier squads! You must get this guy back!"

Watching Lin Rui grabbing two people out of the room, General Reese ordered coldly.

"Yes!"

"You can sacrifice that Number 1 if necessary. As for Jeffery, you can do everything as long as he doesn't die!" Watching his men following his orders, General Reese added another sentence.

"Yes! General!"

...

Lin Rui, who was holding a person in each hand, was not slow at all. After rushing out of the room, he selected a direction and ran towards it. The place where Lin Rui was at seems to be a research laboratory, surrounded by unknown passageways, each flanked by similar small rooms with no idea who might be inside. But now Lin Rui has no time to care. He just wants to get away from the place with Tom.

Lin Rui was going towards his Thunder Blade that he had sensed. In the absence of his weapon, Lin Rui's internal energy use was limited. If a large number of people were to besiege him with weapons, Lin Rui would not be able to support himself for long.

So, on the display in front of General Reese, a guy wearing only a large white trousers grabbed two people and ran away in a certain direction. There were already many soldiers around the base and it seemed only a matter of time before Lin Rui was caught again.

"Damn it! That's a lot of people!" Sure enough, Lin Rui felt a lot of people coming in from the front and rear passages before running far.

“Forget it! I’ve been exposed anyway! It’s just superfluous to hide it again, and I don’t want to run so nakedly all the time!” Lin Rui seemed to have made a decision and his eyes flashed and he grabbed his left hand and tossed Jeffery aside.

“Phantom Suit! Armed!”

Brush!

### **Chapter 287 Breaking through**

With a low voice, the wristband on Lin Rui’s right wrist suddenly flashed with a black light and that black light quickly spread to his whole body starting from Lin Rui’s arm. When the dark light disappeared, the complete Phantom Suit covered Lin Rui, and a simple mask covered half of Lin Rui’s face again.

“What? Is this nanotechnology? Even Tony Stark doesn’t have such sophisticated nanotechnology!” General Reese has been staring at the display and saw Lin Rui getting be surrounded by his soldiers and relaxed but he exclaimed when he saw this scene. It seems that Lin Rui’s Phantom Suit wristband showed nanotechnology as the way it was armed on the body.

“Capture him alive!” The expressions on General Reese’s face changed rapidly and he finally ordered.

Regardless of General Reese’s surprise who was hiding behind the monitor, Lin Rui, who had once again transformed into Mirage Knight, was surrounded by enemies coming from all directions.

“If I knew that this would happen then I would have spent some extra Reward Points to add a carry-on space on the Phantom Suit, I don’t even have my weapon in my hand now!” Lin Rui wrinkled his eyes as he glanced at the dozens of heavily armed Hydra teams surrounding him from all directions and muttered secretly.

The Phantom Suit originally had several hidden pockets to hold things, but the capacity was also very limited. Lin Rui now has no weapons except a few guardian symbols, a healing gene serum, and a Titan II serum. Facing the enemies that had already rushed over, Lin Rui could only go up against them empty-handed.

“But these guys aren’t enough to stop me.” Although he has no weapon and Tom was still unconscious, Lin Rui was not afraid of these enemies.

Brush!

Moving his feet, Lin Rui kicked Jeffery who had been dropped on the ground. Now that Lin Rui intends to break through, taking Tom alone has become very restrictive for his actions. If he is carrying another person, he will not have much chance to escape. Anyway, these enemies don’t seem to care much about Jeffery’s situation, otherwise, they wouldn’t have locked the door so decisively.

Pū Pū Pū!

Jeffery flew out and knocked down some enemies, and Lin Rui rushed from behind him. Since these people haven’t fired yet, they probably want to catch him alive and Lin Rui is going to take advantage of this situation and he would let them know how wrong this decision is!

Boom! Boom! Boom!

Lin Rui with Tom was not slow at all. He quickly shuttled between these soldiers without any resistance and every time he attacked, one person fell down. For a while, Hydra's team that could not use lethal weapons was not Lin Rui's enemy!

"I just told you to catch him alive! You are allowed to use weapons! I don't care about the condition he is in as long as he lives!" Watching Mirage Knight taking down his men on the monitor, General Reese snarled angrily at the table in front of him.

These soldiers are the failed products of the Winter Soldier experiment! Although they can complete the order meticulously, they cannot improvise and they cannot be compared with normal soldiers. Therefore, although the strength of this kind of soldier is similar to that of a Special Force Soldier and the role played by a larger number is also huge, but it has not been the focus of Hydra's research and development.

Kakaka!

With General Reese roar, the soldiers besieging Lin Rui took out their weapons and aimed them at Lin Rui's non-lethal position. Da da da! Da da da!

In the next moment, countless lights in this corridor continue to blink, and Lin Rui, who can't avoid these bullets, has to throw Tom in his hand out of the enclosure quickly and then he quickly dodges between the bullets. Lin Rui can use the Phantom suit's thermal weapons defense to defend against these powerful bullets, but Tom can't withstand such attacks.

Pū Pū Pū!

Although Lin Rui is quite skilled at evading bullets as he was often confronted with a variety of pistols and punches when he first fought the gangs on the streets. But now the situation is completely different, he is confined to such a limited space and the soldiers against him can be comparable to the sharpshooters. So, many bullets hit the Phantom Suit as he could not evade them.

"Sure enough, it is nanotechnology! Such a defense is impossible with ordinary materials!" Hiding behind a monitor, general Reese reimagined the Phantom Suit defense and ordered more fire.

"Damn! This firepower is too fierce! Although they are hitting the limbs, the Phantom Suit will not be able to defend for a long time! I must find a way to break through!" The joint strike of the soldier team made Lin Rui helpless as he was without a weapon and he still underestimated Hydra's power.

"That's it!" After taking another round of coverage bullets, Lin Rui sprinted in one direction of the aisle.

Brush!

Da da da!

Seeing Lin Rui's rapid increase in speed, the attack over there was intensified again, and they would not let Lin Rui rush through. However, just when Lin Rui rushed halfway, he suddenly stopped in and rushed in the other direction. Lin Rui's speed outbreak this time was simply incomparable to his previous one. The entire soldier's team only saw the shadow of a silhouette in front of them as it rushed to another position, and then appeared again at the other end of the channel.

“Tom, I said that I would take you away and I will do it!” Holding on to Tom, who was thrown aside before, Lin Rui used all of his strength and rushed towards the position of the Thunder Blade.

It turns out that Lin Rui just made a fake move and rushed in the opposite direction just to turn around and save Tom.

“Stop Him! Stop him!” General Reese’s roar continued to come out of the soldier’s connector, and he couldn’t stand Lin Rui jumping like this in front of himself.

Until now, General Reese did not think that Lin Rui could escape. The soldier team is only the first line of defense, and it is still a soldier team that does not use heavy firepower. This whole Hydra base is seriously no different from a war fortress, and the hidden high-power war weapons are enough to shock anyone.

Boom!

With the sudden outbreak of Lin Rui’s speed, a few of the soldiers who stopped at the intersection dropped their guns and quickly took out something similar to a bazooka. Then, they fired a black object at Lin Rui.

Boom!

“Um?” In front of Lin Rui’s calm eyes, the black object exploded suddenly in the air to form a huge metal net, almost blocking the entire passage.

Even if he was fast, Lin Rui couldn’t possibly take Tom with him if the way is blocked. Therefore, after the initial surprise, Lin Rui’s eyes turned cold and he put his right hand into his waist.

“You forced me to do this!” A flash of light flashed in his eyes, and Lin Rui’s right hand quickly pulled from his waist.

Sii!

In front of the uniform expressions of the soldiers around him, Lin Rui took out a sci-fi-like cannon barrel from his waist.

“I will show let you have a taste the power of Fire God Artillery!” With a low sigh, Lin Rui raised his cannon and aimed it directly at the passage in front of him.

Buzz!

Boom!

After an instant recharge, Lin Rui temporarily exchanges the Fire God Artillery muzzle from the system shop, which gives out a dazzling light. Then, a thick white light shot out from the barrel and burst out in front of Lin Rui. In an instant, the metal net in front of him was blown to ashes, and then the light continued to blow towards the soldiers and men behind them.

## **Chapter 288 Alpha Squad**

The dazzling light flickered, and the temperature in the entire channel rose several degrees because of the Fire God Artillery. The hot air sucked into the lungs was very uncomfortable, it was as if their lungs were on fire.

“Fortunately, I got a lot of Reward Points last time, otherwise. I really would be stuck here without any escape.” Putting down the slightly hot Fire God Artillery, Lin Rui looked at the scorched road in front of him and muttered.

In such a passive situation under siege, instead of exchanging a temporary low-level weapon similar to a Thunder blade, it would be better to use this large killer to blast out a way. The Fire God Artillery, a C Grade technology weapon worth 1,500 Reward points, is indeed powerful enough for his current situation and it is almost comparable to Lin Rui’s Thunder Strike using the Thunder Blade.

Brush!

Looking at the exit blasted out in front of him, Lin Rui rushed out without hesitation. Even if those soldiers don’t have feelings anymore, at this time they are shocked by the power of Fire God Artillery. By the time they looked back, Lin Rui had already taken Tom to the front of the channel.

“Waste! It’s all a bunch of waste! Get the Alpha Squad ready! He must be brought back to me!” General Reese, who watched Lin Rui take out a powerful weapon and blast a path away behind the monitor, roared and ordered. The more mysterious Lin Rui shows himself to be, the more Hydra couldn’t let him go.

“The armor on his body is created by nanotechnology. What was that powerful weapon just now? It doesn’t seem like a normal laser attack. However, what is even more suspicious is the appearance of that weapon. Nanotechnology cannot build such a powerful weapon in an instant. Is it... Does he have Space Folding Technology!” Looking at Lin Rui running in the passage, General Reese thought and with every thought, his eyes began to flash with a ray of light.

The guy they caught this time seems to have a lot of secrets they don’t know anything about. Maybe those who were looking for him outside knows about the secrets this guy has. General Reese thought to himself, which also strengthened his determination to catch Lin Rui.

Speaking of those looking for Lin Rui outside, General Reese frowned again. Just as Lin Rui rushed out of the cell and was under siege by the aisle, an Iron Man suddenly flew over the castle of Hydra. However, because the Hydra base has shielding equipment for Iron Man scanning equipment, the Iron Man should have found nothing, and flew back after a turn.

However, since Tony’s Iron Man has already searched for this place, he can’t wait for more people to come later. So, to be on the safe side, they’d better be prepared for a battle.

“Have the base enter a Level-3 combat state. Once the reconnaissance system detects an enemy invasion, we will immediately launch the highest-level strike.” After thinking about it, General Reese finally issued this combat instruction.

Since the Hydra lurking in SHIELD was forcibly removed by Fury, the Hydra troops lurking around the world have shrunk a lot of their forces, and they don’t want to be caught off guard against their fight against SHIELD.

However, this ancient castle base is one of the few large bases in Hydra and is the general point of contact for the lurking forces nearby. The importance and weapon power here are not comparable to those of the small strongholds, if they are really found here. In addition to conducting a strategic retreat, General Reese also planned to give some surprise to those who dare to come here.

After setting up the defenses for the base, General Reese turned his attention to the monitor in front of him. Above, Lin Rui who ran for ten seconds was blocked in the middle of the aisle again. This time, blocking Lin Rui was the most elite team under General Reese, the Alpha Team.

Boom!

The Fire God Artillery roared again and a dazzling white light shone across the hallway. However, when the light faded, Lin Rui was frightened by the scene in front of him. The Fire God Artillery beam that was supposed to directly hit the blocked team was trapped by a light blue shield. The shield was being emitted by a very advanced weapon.

“Fuck! Hydra also has these kinds of weapons?” Watching Fire God Artillery’s full blow getting blocked, Lin Rui felt his heartbeat increase.

Kaka!

Just when Lin Rui was still feeling surprised by the blockade of Fire God Artillery, the two members of the squad raised their arms and aimed their weapons at Lin Rui.

“Not good!” Suddenly, there was a very dangerous feeling in his heart and Lin Rui grabbed Tom and hurriedly hid to the right side.

Buzz!

Lin Rui had just avoided his original location, and a shock wave visible to the naked eye rushed past him. Rumble! The oscillating wave banged directly on the wall of the walkway, blasting the hard wall and creating a large pit.

“What the hell! What kind of attack is this?!” Lin Rui had a hunch that the Phantom Suit’s defense wouldn’t be able to withstand a few attacks of this level, and Lin Rui cursed again.

This Alpha team is indeed the most elite team under General Reese, and the weapons equipped by their team are enough to compete with a small army. Moreover, they seem to have evaluated the defense power of the Phantom Suit on Lin Rui, and used a powerful killer move from the beginning.

Kaka!

Seeing Lin Rui dodging the attack, the Alpha team blocking the road opposite again adjusted the muzzle and aimed at Lin Rui. This time, a full set of four high-tech weapons were aimed at Lin Rui’s position and they also predicted where he might dodge. This time, Lin Rui seemed to have nowhere to hide.

Boom!

At the next moment, two force field launchers and two shock wave launchers fired at the same time and they have also calculated Lin Rui’s position.

Brush!

Facing such a sharp attack, Lin Rui made the choice at first: he couldn't get hit by the blue strange force field. Therefore, the still-cooling Fire God Artillery was thrown out decisively by Lin Rui, just hitting one of the two shock waves. While Lin Rui himself was dodging the attack of the force field, he was hit hard by another shock wave.

Boom!

Pū!

Lin Rui had lost control of his body in mid-air. Tom, who had been clutched by Lin Rui, fell weakly to one side. Lin Rui himself was blasted into the wall of the side of the aisle by a huge shock wave. It seems that Lin Rui has completely lost his resistance under this attack.

Da Da ~

Not daring to be careless, the Alpha team did not put down their weapons and they slowly approached the big pit smashed by Lin Rui.

"Ahhhhhhh! I didn't expect that I would be forced to this step!" As the Alpha team approached the big pit, a cough came from inside the big pit, and then Lin Rui's weak voice came out.

Pū Pū!

Hearing Lin Rui's voice, the Alpha team pointed their weapons forward. However, the next moment, two small red dots suddenly flashed from the wall, just like human eyes. No, It's human eyes! A pair of eyes full of red light!

## **Chapter 289 Running Away**

Brush!

The next moment, before the Alpha team attacked, a shadow had flashed from the wall, and it quickly shuttled through the team twice. It finally appeared behind the Alpha team, it was Lin Rui and he looks unscathed!

"So this is the power of my body after getting strengthened by Titan II?!" The red light in his eyes had gradually weakened and Lin Rui squeezed his fist and felt the tremendous power in his body.

After receiving the shock wave attack, the Phantom suit didn't fully defend himself. Some of the forces still attacked Lin Rui through the Phantom suit, which also seriously injured Lin Rui. Forced to this point, Lin Rui could only quietly inject the unused Titan II enhanced serum in his own body. The powerful power that filled his whole body almost made Lin Rui fall into a violent state and it was difficult for him to control his emotions for a while.

Speaking of which, although the Titan 2 Serum that Lin Rui just used is more stable than the Titan 1 that Harry used before, the average person can't bear the violent impact of energy and mental shock at all. Of course, Lin Rui's body is strong enough to withstand the strength of the Titan II serum.

However, this sudden rise in power also makes people easily lost in this power that is not their own. Lin Rui also suppresses the side effects and controlled his violent emotions because his mental strength is strong enough to do this. It is difficult for ordinary people to control themselves. So, if Harry wants to rely on Titan Series serums to break into the U.S. military and grab part of the profits, there will be a lot of optimization and adjustment in the future.

Of course, Lin Rui doesn't have time to think for Harry now. The power and speed that he erupted with just a moment ago could not again be reached by Lin Rui, and he attacked every member of the Alpha team in a blink of an eye and used enough power to kill them all. However, he doesn't know if his control of the violent power is not very good or for other reasons. Lin Rui was already feeling that something was wrong with the attacks he had performed just now.

Kakaka!

Just as Lin Rui was still feeling Titan II's enhancement of his strength, there was a sudden movement behind him. Hearing the familiar voice, Lin Rui turned around quickly and his expressions changed.

He saw that the Alpha team, which should have been killed by him, standing intact in front of him, and the high-tech weapons in their hands were again aimed at him. And a layer of the light blue shield on their body seems to have protected them.

"Fuck!" With a loud curse, Lin Rui pulled his leg and ran backward.

Even after taking the serum, there was no way to deal with these guys. This is the first time he's been suppressed to this extent by the enemy's technology. Moreover, the working time of Titan II serum is limited. Once the time passes, Lin Rui will bear his own injury and the aftereffects of the Titan II serum. Although he still has a dose of the recovery serum, it will take some time for him to recover. So, seeing what's going on, Lin Rui decided to run away.

Brush!

After injecting the Titan II serum, Lin Rui's speed increased again by one level. Even if the weapon in the Alpha team has the lock function, but if the human eyes can't follow his figure then what would the weapon be locked upon. Therefore, they can only watch Lin Rui run away.

When he ran away, Lin Rui also picked up Tom who had been thrown away. He kept remembering his previous promise to Tom, although Tom has been brainwashed by Hydra.

In this way, Lin Rui led Tom to flee around the Hydra base. Armed soldiers came to block them at various locations and the most elite Alpha team kept following them.

What seemed simple in the eyes of General Reese turned into a tug-of-war. Lin Rui was indeed not the opponent of the Alpha team, but the general soldier team could not even stop Lin Rui who had injected the Titan II serum into his body. It seemed that they could only catch Lin Rui after he was tired of running. However, General Reese watched Lin Rui scurrying around the base and he gradually developed a bad feeling in his heart.

"General Reese, I'm sorry, I didn't expect this boy to have these mysterious things. Otherwise, I wouldn't have given him the chance to escape." Behind General Reese, the rescued Chief Jeffery looked at Lin Rui, who was scrambling in the base on the monitor and said a little awkwardly.

If he hadn't insisted on recruiting Lin Rui, Lin Rui would have been pushed into the laboratory now. Even if the experiment had become unsuccessful in the end, they could have still destroyed this person who poses a huge threat to Hydra. Now, if they continue to let Lin Rui scurry around this base, something bad will happen sooner or later.

"I also didn't expect so many secrets to be hidden in him. Even if you don't give him a chance, he would have still tried to escape. Now, the most important thing is to control him. If we let him break into somewhere where he shouldn't, then we have to completely destroy him." Without looking back, General Reese said coldly.

"Yes! I understand!" This time, Director Jeffery had no other opinion.

...

Just when Lin Rui was fleeing in Hydra's base, Deadpool and Francis were going to meet in a remote abandoned steel mill. Originally, Francis and Deadpool had an appointment of nine o'clock, but Deadpool could not bear to wait and rushed over when he was ready.

After getting out of the taxi, Deadpool walked in rhythmic steps towards the abandoned steel mill ahead. In the front steel plant, Francis had already arranged dozens of heavily armed men. He himself was standing on an elevated platform that was tens of meters high, with a transparent jar containing Vanessa beside him. As long as Francis activates the jar, the oxygen in it will be pumped out in a few seconds, and Vanessa will experience the last painful experience that Wade had experienced before becoming Deadpool.

Shout!

"Francis! I'm here!" Stopping at the gate of the abandoned mill, Deadpool looked up at Francis and shouted.

"Wade Fucking Wilson or should I call you Deadpool! An Immortal fighter! Today, I'm going to see if you really are Immortal!" Standing on the edge of the high platform, Francis yelled as he looked at Deadpool below.

Call!

Then Francis waved and Francis's men, who had been hiding rushed out with various guns in their hands that were aimed at Deadpool.

"Destroy him!" Francis roared and ordered.

Kakaka!

The sound of the bullets being loaded was heard for a while, although Deadpool will face the attack of countless bullets in the next second but he behaved very calmly, even standing so indifferently in the open space. Regardless of Deadpool's response, Francis' men have decisively pulled the trigger!

Buzz!

Rumble!

However, what came out of the battlefield was not a burst of gunfire, but a high-energy weapon attack. There was an explosion all over the battlefield, mixed with the screams of Francis's men.

"Ahhhhhhhhhhhhhhhhhh!"

## **Chapter 290 Abandoned**

Rumble!

In a small abandoned square, various laser beams shot around and Francis's men screamed and ran to hide.

Standing calmly in the middle of the firing, Deadpool watched the merciless killing of Francis's men with his arms behind his back. However, on the inside, he was very shocked as this situation is a lot different from what he had planned or even expected! Couldn't they let him act cool for some time? Anyway, his girlfriend is still watching it! Although Vanessa doesn't know that the guy in the crimson tights is her missing boyfriend Wade Wilson.

Francis's men were wiped out and it seemed that Francis was a little stunned to see this scene on the stage. Then he noticed that a dozen Iron Man Armors have appeared on the battlefield without him noticing them. That's right, it's a dozen Iron Man. Against the ordinary people under Francis, there were a dozen Iron Mans. How can they even defend?

Swipe!

Hum!!!

Taking care of the small fries, the Iron Man flying in the air separated into two units and landed towards Francis. At the same time, the space around Francis suddenly opened with a space door, and then Iceman and Blink came out of it.

"You!" Seeing X-Men suddenly appearing beside them, Angel Dust, who had been standing beside Francis, rushed towards them.

Call!

However, Iceman simply waved his hand, and Angel Dust, who was rushing over was instantly frozen in place. The gap between her and Iceman is not one or two points, and the Mutants of the power class restrain the Mutants of the body strengthening class, not to mention Iceman's own strength.

Seeing that Angel Dust was frozen in ice, Francis's eyes flashed and he tried to press the button in his hand. He was trying to harm Vanessa to get Iceman to back off. However, as soon as he pressed the button, a laser fired from the Iron Man who was approaching, directly penetrating Vanessa's glass cabin.

Seeing that nothing was happening, Francis seemed to have figured out something and he threw out the remote control in his hand and looked at Iron Man and Iceman and Blink around him.

Call!

"Where is Mirage Knight?" An Iron Man landed in front of Francis, and Tony's low voice came from inside of it.

“Mirage Knight? Oh, sure enough, I’m the one who was abandoned.” Hearing the inquiry from Iron Man, Francis’s figure froze first, then he smiled to himself.

“I will ask you again, where is Mirage Knight?” Without getting the answer that he wanted, the Iron Man approached and asked again. At the same time, Tony raised his robotic arm toward his chest.

It was obvious from Tony’s tone that he was already impatient, and Iceman on the side was worried that Tony would raise his hand to destroy Francis in the next moment.

“How should I know where Mirage Knight is? Don’t you see it yet? I’m a guy who attracted your attention!” Francis replied evenly in the face of the threat from Iron Man.

If Francis still doesn’t know why he encountered these things today, he would be too stupid. He was just a small head of Hydra who was responsible for the Mutants part. He had no access to any secrets inside Hydra. Part of him doing these things to Deadpool this time was because he really hated Wade and wanted revenge. On the other hand, it was also because he was told that they would send more powerful people to follow him secretly. If there were League of Defender and X-Men to help Deadpool as they did last time, they would make them unable to leave from here.

Last night, after Francis went to find Weasel, he met Mirage Knight in the alley outside. Just when he thought that he would need to deal with Mirage Knight himself, two powerful people appeared out of nowhere and dealt with Mirage Knight in few minutes. Then they took Mirage Knight away without saying anything to Francis. However, Francis knew that they were the powerful people sent from above. After seeing the abnormal strength of Quicksilver and Scarlet Witch, Francis finally had the confidence to deal with Deadpool.

Originally, according to normal circumstances, Francis did have other Mutants team to support himself. However, after catching Mirage Knight, several forces throughout New York started looking for Lin Rui like crazy. This made Hydra immediately cancel the plan to support Francis. Sending those guys when the sky was full of Iron Man was suicide. So, in the end, Francis was abandoned.

“You mean, you have nothing to do with the kidnapping of Mirage Knight?!” It seems that Tony can no longer stand Francis’s “Perfunctory” attitude and the laser cannon pointed at him has begun to be charged.

Call!

“Mr. Stark, calm down!” Seeing this, Iceman finally couldn’t help but interject and at the same time, he secretly thought to himself. “Did Tony Stark eat something bad this morning? Where is this anger coming from?”.

Brush!

Hearing Iceman’s words, Tony dropped the charging robotic arm. Although Tony didn’t know anything about X-Men or the like before, he also learned about these special forces in the world after joining SHIELD. Last night, Iceman and Blink were also looking for Lin Rui, so now Tony gave them some consideration.

“Francis, you said you were attracting our attention. That means you still know something. We just want to know where Mirage Knight is now.” Seeing Tony give way a little, Iceman walked in front of Francis and asked seriously.

“Do you want to save him? I urge you to dispel this idea. I haven’t seen any of the people they took again. Of course, him being alive is certain, after all, Mirage Knight is still a very powerful guy, but will it be the original Mirage Knight is hard to say.” Francis said disdainfully towards Iceman.

He is sure that he would die today, but he is still feeling a little proud to see that these powerful group of people couldn’t accomplish their goals. Iron Man is powerful, League of Defender is also very strong, X-Men has been fighting with the organization behind him for many years. But they don’t know how powerful the forces behind them are at controlling people. Now that Mirage Knight had been captured and his previous bosses would have done what they had to do in order to control Mirage Knight.

Boom!

Hearing Francis’ words, Tony couldn’t bear it anymore and he raised his hand and fired a laser directly at Francis’s calf. Suddenly, Francis’s calf disappeared. Of course, Francis, who can feel no pain, just stood back again as if nothing had happened.

Shout!

Iceman hasn’t finished talking and he waved his hand to seal Francis’s calf in ice in case he bleeds to death.

“So, do you have anything to tell me about the two people who attacked Mirage Knight last night and took him away? And, what exactly is the organization behind you?” Iceman seals Francis’s calf and asked again.

“The two people from last night ...”
