

Marvel 331

Chapter 331

Lin Rui, who originally thought that Ancient One would not obliterate him just because his soul does not belong to this world, heard what Ancient One had said and froze. Things didn't seem to be going as he wanted.

The reason why Lin Rui thinks that the Ancient One would not kill him is that he did not do any harm to the earth, but the future that Ancient One sees in Lin Rui may not be so simple. Lin Rui had now joined Tony, SHIELD, and X-Men and his power is enough to have a sufficient impact on the earth today. The vague future seen by Ancient One is a huge event that Lin Rui may cause to the earth in the future. Of course, it is not certain whether this great event was good or bad.

And, just as Ancient One said just now, the impact of Lin Rui's future on the earth and the world is the only thing he has seen in his life. Even if the earth's civilization has suffered many invasion by alien species over the years, the impact caused by Lin Rui would be higher than all of them combined together.

Therefore, although Ancient One cannot see what kind of impact Lin Rui's future will have on the earth, as long as there is a trace of possible harm, he cannot take risks. Just as now, Lin Rui, who is only 16 years old, already has such a powerful strength "Although it is not worth mentioning in front of the Ancient One", the secrets of Lin Rui are not understood by the Ancient One at all.

In order to ensure the proper development of the earth and the future of the world, the best Ancient One could do was to destroy Lin Rui. But Ancient One wasn't a killer either, and even if Lin Rui is going to be a threat in the future, Ancient One wouldn't kill him now. But as long as Lin Rui does something bad for the earth, Ancient One wouldn't sit still.

"Ancient One, although I don't know where you came to that conclusion. But I want to tell you, that was my goal in the first place." After the initial surprise, Lin Rui looks at the stern Ancient One in front of her.

Now that Ancient One is certain that he will have a huge impact on the planet and on Marvel World, Lin Rui plans to make his goals clear so that he doesn't think the impact will be negative.

Indeed, Lin Rui is about to join forces with all the powerful people he can think of to form a sort of earth federation to take full control of Marvel earth, which is now divided. However, this goal of Lin Rui's is a good influence on the earth in a big way. While there will certainly be a fair amount of sacrifice and casualties in the process, the sacrifice is worth it compared to the end goal.

"Ohh? Your goal? Like how you have formed a League of Defender in New York." When Ancient One heard Lin Rui, he was a little surprised.

The Ancient One thinks that Lin Rui wants to become the Superhero of the United States like Rogers. In that case, Mirage Knight will have a great impact in the future. However, even the current Captain America does not impact the future as much as Lin Rui does.

Seeing Ancient One guessing his way, Lin Rui shook his head and said, "My goal is far more than protecting New York with the League of Defender. My goal is to wipe out all the evil forces on the earth and build a globally integrated earth alliance."

Staring at Ancient One seriously, Lin Rui calmly stated his goal. Lin Rui has already spoken with Tony and Charles before, and now he has successfully teamed up with Tony and X-Men. This time, facing the doubts of Ancient One, Lin Rui wondered if he could use his ambition to impress him.

If, and only if, Ancient One also supports this goal, then Lin Rui would feel that the success rate of his goal would be infinitely greater.

“Your goal is to build a global federation?” Unlike Tony or Professor Charles, who was stunned after hearing Lin Rui’s goal, Ancient One was only slightly surprised.

In fact, as the Sorcerer Supreme who has lived for so many years, the things that Ancient One can see are far from what Professor Charles and Tony knew. Regarding the establishment of the Earth Federation, it was not that no one wanted to do it before, they just failed. If Howard Stark wasn’t dead, maybe Tony might also know some top secret information about people in the Ancient One class, but he’s dead, so Tony is just an earth-level super-rich man now.

“Just by relying on the League of Defenders you have now? It’s not that I am underestimating you. Before you, there were a group of aspiring people who had enough influence on the situation on the planet to build the Earth Federation, but they failed in the end. So, why do you think you can do it, why do you think that you would succeed where others have failed?” Recalling a forgotten memory, Ancient One asked the young man in front of him.

Was there a group of people who wanted to form a unified Earth Federation? Getting Ancient One to say that was a sign that those people were really powerful and he didn’t know how they ended up losing. Hearing the words of Ancient One, Lin Rui blinked his eyes twice and thought to himself.

However, although he was surprised by Ancient One’s words, Lin Rui would not have doubts about his goals in this regard. After all, even if his predecessor’s power and strength are stronger than his current self, he does not believe that his predecessors would have had a system, which is enough to change anything.

What’s more, Lin Rui now has enough strength and power. It can be said that with SHIELD, Tony’s Iron Man army, League of Defender plus X-Men. After these several forces join hands, as long as the location of the Hydra can be determined, their complete elimination is only a matter of time. After the destruction of the Hydra, Lin Rui will continue to fight the evil forces hidden in the earth and he will reach his goal step by step.

So, after a little thought, Lin Rui stared firmly at Ancient One and said, “Although I don’t know who the people were who failed. However, I believe me and my partners will definitely be able to do it!”

Seeing Lin Rui so determined, Ancient One was very curious. Although Ancient One knew that Mirage Knight was the Vigilante of New York and he also knew that there was a League of Defender composed of several Vigilantes like Mirage Knight and Spiderman. But he just knows these things and he is not clear about the cooperation between Mirage Knight and SHIELD, the relationship between Mirage Knight and Iron Man, and the collaboration between him and X-Men. After all, Earth sorcerers has no intelligence department of their own.

“Oh? I should like to hear your reasons for your confidence.” “Ancient One asked, looking at the young man in front of him.

A few decades ago, a group of ambitious and powerful young people also formed a top-secret organization, which was intended to affect the situation of the planet in all aspects and finally achieve the goal of forming a Global Federation. However, they failed in the end. Although Ancient One didn't do much in it, he still had some regrets. After all, if the Earth Federation is really built, it will be much easier to deal with visitors from other worlds.

"SHIELD, Tony Stark's Iron Man Army, and X-Men, I don't know if you know about them?" In order to convince Ancient One, Lin Rui directly talked about the trilateral forces he cooperated with.

Chapter 332 Shift

"Adding my own League of Defender in that equation, I don't know how many shortcomings do we have compared with the predecessors known by Ancient One?" Before waiting for Ancient One to answer, Lin Rui looked at Ancient One and asked seriously. Lin Rui believes that these forces are enough to attract the attention of Ancient One.

"SHIELD? Tony Stark? And X-Men?" Ancient One, who was still very calm, heard unexpected names emerging from Lin Rui's mouth, and he finally showed some surprise.

SHIELD is a huge organization that protects the world on the bright surface and fights against various terrorist organizations. Its background and resources are huge, and it is the first organization on the bright surface of the earth. In addition, the Hydra organization that burst out some time ago and intended to dominate the earth is now being attacked by SHIELD and they have fled, showing the power of SHIELD.

Tony Stark, the only son of Howard Stark, not only he had inherited Stark Industries but also inherited the genius genes of his father and he has achieved great achievements in physical and intelligent machinery. Now, Tony's Iron Man army is a weapon that every single power in the world is very afraid of.

X-Men, an organization of moderate Mutants, designed to safeguard Mutants' interests and save Mutants, is led by Professor Charles. X-Men's strength is very strong and although their number is not large, the strength of each individual is very strong. In particular, there are some powerful Mutants that even Ancient One has to take seriously.

Moreover, as Ancient One who has lived for more than 100 years, there are not many people on earth who deserve his attention now, but Professor Charles is undoubtedly one of them. Whether it's Charles's ability or his philosophy, or his efforts to get a coexisting relation with Mutants and ordinary people, he is worthy of respect from Ancient One.

Among these forces and individuals, Lin Rui put the League of Defender at the end, but Ancient One would not think that Lin Rui would consider the League of Defender to be the weakest of these strengths. Judging by Ancient One's understanding of Lin Rui, as long as he is given some time to develop, Lin Rui will definitely become a character that even he cannot ignore.

So, on the bright side, the people now united by Lin Rui seem to be a bit inferior to those who had the same ambitions before. But judging from their joint forces, they are really not weak.

"It seems that you do know these people or forces, so this is my reason, and it is also the foundation for the formation of the Earth Federation." Looking at the unexpected look of Ancient One, Lin Rui spoke with a smile.

"I admit that I still underestimated you. However, I will not talk about Tony Stark and Professor Charles. Are you sure that SHIELD will cooperate with you to complete this plan? You can't possibly tell me that you can convince those members of the World Security Council to support your Earth Alliance." Seeing that Lin Rui was feeling a little smug, Ancient One generously admitted that he had underestimated Lin Rui, but then asked again.

Iron Man, Tony Stark is Howard Stark's son. It's no surprise that Ancient One had such an idea. After all, Howard Stark was also a member of that plan. Professor Charles has been fighting for Mutants' rights for his entire life and in order to make Mutants' life better, he promised to join hands with Lin Rui which is also no exception. After all, if the Earth Federation is really established, Mutants' status will definitely improve.

But SHIELD, it is not just Director Fury, there are many old-fashioned members in the World Security Council who are watching over it. Ancient One doesn't think that the Earth Federation that Lin Rui wants to establish will let those who hold political rights come to power, so whether SHIELD supports Lin Rui is Ancient One's question.

"Hehe, it is impossible to hide anything from Sorcerer Supreme. Yes, although I and SHIELD are in a joint state, but I have not told them about the establishment of the Earth Alliance. After all, SHIELD is still too complicated." With a bitter smile, Lin Rui answered truthfully.

Lin Rui also wants Captain Rogers and Director Fury to oust the old people of the World Security Council, but this kind of thing can't be done for a while. It will take only one accident and his dream would always remain a dream so there cannot be any mistakes.

"Without the support of SHIELD, you would have lost an important supporter of this goal." Ancient One is well aware of the weight of SHIELD in Lin Rui's plan.

"Of course I know that. I have a good personal relationship with Captain America and SHIELD's Director Fury. And you must know that I have never dealt with the World Security Council, so ..." Looking at Ancient One, Lin Rui was feeling helpless as he spoke.

"It seems that you really want the World Security Council to step down! I have to say that your steps are still very clear!" After hearing what Lin Rui said, how could Ancient One not guess what he meant.

"Now, I really do think that you would have a chance to complete your goal." After getting a clear understanding of Lin Rui's current strength and background, Ancient One also had to admit that Lin Rui does have such a possibility to complete his goals.

"So, do you still think I would be harmful to the planet?" Lin Rui took a deep breath and asked after seeing the change in the attitude of the Ancient One.

"Harm? No no no! I now think that what you can bring to the earth will progress that has not seen before! Of course, the premise is that you can achieve your goal." No one knows what the Ancient One was thinking right now, but his attitude has changed instantly.

Lin Rui: "...” This change is too fast, Lin Rui himself can’t react to it.

In fact, Ancient One did mind the secrets of Lin Rui, especially since Lin Rui was apparently not part of the world but was not repelled by world forces. At Lin Rui’s current rate of growth, he is well on his way to becoming someone who can affect the entire planet and the entire world.

However, Ancient One could tell that what Lin Rui had just said was true. That is, Lin Rui is also a human from another world, earth, and he has no intention of harming this world. On the contrary, what Lin Rui wants to do is to promote the progress of the entire civilization of the earth, something that Ancient One almost witnessed with his own eyes a long time ago. However, for some reason, Ancient One could only regret watching those people fail.

So, since Lin Rui was harmless to earth and had such a big goal and the ability to accomplish it, there was no need for Ancient One to stop anything. Ancient One wanted to see how this mysterious young man from a different world could do something that no one else could.

Perhaps Ancient One could help a bit without violating the principle of the sorcerers. After all, Ancient One is still capable of scaring some of the most powerful gods in the universe, but he is old and he can almost see his limits in the future. He was eager to see that his successor taking his inheritance before he fell, and that earth civilization could move on, which was the main reason for the change in Ancient One’s attitude.

Chapter 333 Discovery

Lin Rui, who didn’t know Ancient One’s thoughts was a little stunned, although he was sure that after speaking his position and goal, Ancient One would not have any attitude towards killing himself. However, Lin Rui still did not expect that the attitude of Ancient One would reverse so much at once. Could Ancient One really support him? Looking at Ancient One in front of him, Lin Rui couldn’t help thinking.

“Are you wondering if I will support you or not? Support you in accomplishing this goal of establishing a Global Federation,” Ancient One asked while smiling as he had guessed what Lin Rui was thinking.

“Uh ... this ... your sudden change in attitude made me think a lot!” Lin Rui was a little embarrassed as he spoke.

“Well, I won’t say anything more to you. Your identity is no longer my responsibility. Your goals are yours to fulfill. Of course, when necessary, I will also help. However, the time has come when you have to show me that you can succeed. After all, while we have the responsibility to protect the earth, we do not have the responsibility to help civilization move forward. The future, it’s not that easy to change.” Ancient One, already determined in his mind, had no intention of scaring Lin Rui, and then took a stand. According to Ancient One, Lin Rui’s goal will not be so simple and successful.

“Thank you!” Although he did not explicitly obtain Ancient One’s support, this statement of Ancient One was already an unexpected gain by Lin Rui. You know, in the beginning, Ancient One could have killed Lin Rui because of his foreign soul. Although this may be that the Ancient One was scaring him.

“No need to thank me, I didn’t promise anything to you. Okay, now I have nothing to tell you, Rick and David will take you back later.” The Ancient One waved.

“Well, it was indeed a great honor to meet you today.” Hearing the order from Ancient One, Lin Rui consciously lowered his cup and stood up from the ground.

Huh ~

However, just when Lin Rui stood up, Ancient One suddenly drew his index finger at Lin Rui. Then a golden light shot from Ancient One’s finger and quickly penetrated into Lin Rui’s body and disappeared.

“Eh?” Seeing that golden light shooting into his body and disappearing, Lin Rui looked at Ancient One with a little surprise. He didn’t understand why Ancient One did it, and what was that golden light.

“Don’t worry, it’s just a simple tracking magic, and it has a certain defense function. Of course, it is more defensive than your Phantom Suit.” Seeing Lin Rui’s unexpected expression, Ancient One explained with a smile.

“Is that so?” Lin Rui did not speak any further after hearing Ancient One’s explanation. No matter what the golden light was for, Lin Rui couldn’t help it.

Huh ~

Therefore, Lin Rui had to put on the Phantom Suit again. Although Ancient One has already said that the Phantom Suit may not be able to block Ancient One’s vision, but it can give Lin Rui some peace of mind. Moreover, he had heard footsteps outside this room. It should be Rick and David.

Sure enough, Rick and David walked in from outside just after Lin Rui put on his Phantom Suit. Seeing Mirage Knight standing up, Rick and David looked at Ancient One again.

“I’ve finished talking with Mirage Knight. You can send him back. Also, you should pay more attention to Thor, after all, we did receive some benefits.” The Ancient One spoke with one half of the cold tea in his hand. In the end, he also mentioned Thor’s matter, and he didn’t mind receiving benefits from Loki at all.

“Yes, Ancient One.” Rick and David agreed seriously, and then they turned to take Lin Rui away.

However, Lin Rui did not immediately follow the two sorcerers and turned away. Because he just heard Thor’s name from Ancient One’s mouth!

‘Do the Ancient Knows about Thor?!’ That’s right! Thor is Odin’s son after all. Even if Odin exiled Thor, he wouldn’t really leave him alone. And the only person on earth who can be equal to Odin’s status is the Ancient One. It’s still normal for Ancient One to pay attention to Thor. Standing still, Lin Rui had quickly realized that Ancient One knew Thor was on Earth.

“Mirage Knight, are you still there?” As Lin Rui fell in a daze, Rick who had already reached the door, asked a question in confusion.

“Oh! It’s okay.” Upon hearing Rick’s voice, Lin Rui reacted and hurried over.

Then Lin Rui followed the two sorcerers and left the retreat of Ancient One as he did. After Lin Rui left, Ancient One, who was still sitting on the ground, still held the teacup and didn’t know what to think about.

"This boy, a man from another world is still thinking about doing that step in this world. Although it is difficult but what is with my inexplicable expectation? Can he really do it?" Ancient One silently thought in his heart. Thinking for a while, the tea in Ancient One's hand quickly burst into heat.

"Master, is there anything special about this Mirage Knight?" Yun Meng came in and asked softly from beside Ancient One.

"Hmm? He is a weird person who combines the soul of a different world with the body of our own world." Ancient One answered faintly without concealing the origin of Lin Rui from Yun Meng. Of course, Ancient One didn't say anything about Lin Rui's ambitions.

"The soul of the other world is combined with the body of the person in this world? Is he a threat?" Although Lin Rui's situation is indeed weird, Yun Meng's concern is whether Lin Rui will bring harm to this world.

"Threat? For the time being, No. However, it will be difficult to say later. But I have already made a mark on him, besides being able to protect him, it can also play a necessary role at a critical time." Hearing Yun Meng's words, Ancient One simply said.

"Oh, that's good." Yun Meng clearly believed in Ancient One's strength and nodded.

Then, Yun Meng started to make tea for Ancient One again, because Yun Meng obviously felt that Ancient One would sit here for a while, maybe he still had something to think about.

"Yun Meng, you have something to investigate." However, just as Yun Meng cleaned the cup that Lin Rui had just drunk from, Ancient One suddenly said to her.

"Hmm? What's the matter?" Yun Meng was a little surprised to hear Ancient One's words. As a young sorcerer who grew up in Kamar-Taj since her childhood, although Yun Meng is not completely cut off from the world but she is also not familiar with it so Ancient One rarely asks Yun Meng to do anything.

"I want you to investigate some of Thor's experiences after he came to earth, what he did and who he met. The most important thing is to see if he knows this person." While talking, Ancient One waving his hand in front of Yun Meng and a golden light began to outline a person's image, it is Lin Rui who had just left!

"Okay, do I need to go right away?" Yun Meng asked, looking at Lin Rui's image.

"You can arrange this yourself." Ancient One said not so urgently about this matter.

"Understood."

...

Chapter 334 High Level

Buzz ~

New York, next to the street where Lin Rui met the two sorcerers before, a golden halo of light spirals out of thin air. Soon, a magic space door appeared on the side of the road.

Da Da ~

Stepping out of the magic space door, Lin Rui returned to New York from Kamar-Taj in the Himalayas in an instant. Behind Lin Rui, Rick and David also came out together.

“Mirage Knight, do you need us to take you to your house? Just tell me where you are going and I can create the space gate.” The magic space gate leading to Kamar-Taj behind them has disappeared, and Rick looked at Lin Rui in front of him and asked with a smile.

Although Ancient One didn’t talk to Rick or David about Lin Rui’s true identity and didn’t tell them anything about Lin Rui’s grand plan. However, being able to be personally met with Ancient One, Mirage Knight clearly has a different position in the eyes of the two sorcerers.

“No, I have some things to do, so I won’t bother you.” Shaking his head gently, Lin Rui politely rejected Rick’s kindness.

“Well, then we will also go back first,” Rick said nothing more and reached out to draw a magical space door to the New York Sanctum.

Buzz ~

Rick walked in with David, and then the magic space gate disappears quickly in front of Lin Rui’s eyes.

“Huh ~ This Kamar-Taj trip really did many twists and turns!” Seeing the two sorcerers leaving, Lin Rui finally relaxed.

Although Lin Rui didn’t know what was happening when the sorcerers were searching for him he was scared by Ancient One who saw at the first glance that his soul was not from this world. Fortunately, although Ancient One could see that Lin Rui’s soul is not from this World, at least Lin Rui is human and comes from an earth civilization almost identical to Marvel World’s. So, of course, Ancient One’s attitude toward Lin Rui was not the same as that towards the other demons who came here without permission.

However, simply because Lin Rui’s soul is also a human being from another world earth civilization is not the reason that Ancient One would tolerate Lin Rui to do things on this earth. One of the most important reasons why Ancient One let Lin Rui leave is that the Marvel World doesn’t seem to reject such a strange soul. What’s more, Lin Rui’s confession plans and goals, as well as the power he has now, these are the reasons that Ancient One did not take any measures against Lin Rui in the end, and he wanted to see what step Lin Rui could eventually achieve.

In fact, if the world power of this world does not exclude Lin Rui, then Lin Rui will not be a stranger. After all, his body is completely from this world, and his soul also comes from almost the same human civilization. There is no difference in species and civilization, so there is really no big difference.

“However, even though Ancient One can see that his soul does not belong to this world, he should not know the system hidden in his mind, otherwise he wouldn’t say nothing at all.” He was in no hurry to go, so Lin Rui just stood in the corner of the road and silently analyzed the situation after his meeting with Ancient One.

“Judging from what Ancient One said in the end, it seems that he neither supports nor opposes my future actions. It’s more like he wants to see and expect my future actions and see where I’m going.” Lin

Rui is not stupid either. After a little analysis, he makes a good guess about Ancient One's current attitude.

"This is also very good. Anyway, I didn't expect any help from sorcerers. Moreover, with the attention from Ancient One, maybe my goal will be easier to accomplish. However, I don't know what he put in me with that light of his." Silently thinking in his heart, Lin Rui turned his head slightly towards a building 100 meters away from the roadside, as if there was something attracting him there.

Huh ~

"Discovered!?"

"Chief, I don't think so!"

As Lin Rui's head turned slightly toward the building, there was a muffled sound coming from a room on the second floor of the building near the curb.

Sure enough, after the two voices were lowered, Mirage Knight on the roadside seemed to just move his neck casually, and quickly turned around again, not facing this side.

"It's time to go back. I don't seem to have anything to do today." Despite the people hidden in that building, Lin Rui is no longer planning on staying.

Huh ~

With no intention of hiding, Lin Rui reaches out and pulls out a custom-made hoverboard from a separate space inside the Phantom Suit. With a single leap on the hoverboard, Lin Rui disappears into the sky in the blink of an eye.

Huh ~

After Lin Rui finally left on the hoverboard, there is a sound of relaxed breathing from the room where Lin Rui had briefly glanced. It seemed that several people had been holding their breath and had suddenly relaxed.

"Hoo! This job of monitoring Mirage Knight is really hard to do! Next time, we are going to change the targets with group 7." Sorting through some of the information his group had gathered, a middle-aged man in the room exhaled.

Needless to say, the surveillance team discovered by Lin Rui was obviously Fury's men here to monitor Mirage Knight. When Lin Rui became Mirage Knight, he no longer covered his whereabouts as much as before. After all, after Captain America's resurrection, Vigilante in New York was not so rare. And now that the League of Defender is also working with SHIELD, Lin Rui naturally doesn't have to hide his tracks as before.

And this time Lin Rui went to Xavier School and was discovered by SHIELD, so SHIELD sent out a small team to investigate him secretly, but they just simply observed him and didn't take any action. As for what Lin Rui did at the X Academy, whether he has any connection with X-Men and so on, SHIELD would not leave without investigating that, but that would be done by more professional people.

However, just before Lin Rui left the X Academy and returned to New York, he suddenly stopped halfway, which made the team monitoring Lin Rui a little confused, so they came here to see what was going on. However, when they rushed over, Lin Rui had left with the two sorcerers and disappeared out of thin air in front of the monitoring team.

After a while of surprise, the team's Captain decisively issued a command: To stay in the place to guard and survey the area where Lin Rui had disappeared, maybe they would find something. One has to say that the Captain's luck was good. After Lin Rui and Ancient One finished chatting, Rick still sent Lin Rui back to the original position, which let them see the amazing scene just now.

Although the space door is strange, they are not unheard for SHIELD agents. After all, X-Men's Blink's ability is to make space doors. However, the magical space gate made by sorcerers and Blink's space gate is quite different, but this team can't distinguish between them. But they do know that the two monk dressed guys are not the members of X-Men and they should be another mysterious organization related to Mirage Knight.

"How many secrets is there in this mysterious Mirage Knight? It seems that nothing he has come into contact with is lower than the Second Level." The monitor image has been sent to the headquarters, and the captain of this team sighed again.

"Yeah, speaking of which, the headquarters seems to have upgraded Mirage Knight's status to First Class. So is everything about Mirage Knight going to Level One secret which can only be accessed by Level Ten personals?" After the Captain had finished, a younger agent at his side suddenly added.

"Eh! ... Level One!? Looks like we will be busy in the future!"

Chapter 335 Forgotten Matter

Of course, the SHIELD's surveillance team had no idea what Lin Rui was thinking. Although Lin Rui found them, he didn't mean to let them know this fact. It was no big deal to see them anyway. In addition, SHIELD should not know the existence of the earth's sorcerers, which makes Mirage Knight's identity even more mysterious. Maybe Lin Rui can do something with the earth's sorcerers.

Brush!

And so, after chatting with Ancient One, Lin Rui drives his hoverboard toward downtown New York. Still, Lin Rui had a feeling that he was missing something.

Buzz ~

As Lin Rui flew between New York's high-rise buildings, his cell phone suddenly vibrated. Slowing down the hoverboard, Lin Rui reached out and reached for his phone.

"Oops! Today I said I'd take Peter and Harry to see Thor!" Seeing Peter's name on the caller ID on his cell phone, Lin Rui suddenly remembered what had forgotten.

It turned out that today Lin Rui originally planned to take Peter and Harry to meet Thor after leaving X Academy. This was a pre-planned thing. But he didn't expect to meet up with Rick and David halfway and followed them to Kamar-Taj. This trip took more than an hour and Peter and Harry must have been waiting for long.

“Hey! Peter, I’m already on the road! Coming soon!” Lin Rui answered the phone and shouted without waiting for Peter on the other side to say anything.

Brush!

“You.....”

Card!

Then, while Peter still wanted to say something, Lin Rui had just hung up. The next second, the hoverboard shot up to top speed, zooming through the New York skyline.

...

At an intersection in Queens, New York, three blocks from Lin Rui’s home, Peter hangs up the phone with a puzzled look on his face.

“Did Jackson say anything? Where is he now?” Harry asked, who was standing next to Peter when he saw his face. They had been waiting an hour longer. Lin Rui, who was supposed to have arrived early, had not yet arrived. They thought something had happened to him.

“He said he is coming soon. However, I think he has forgotten us.” Putting away the phone, Peter said helplessly.

Harry: “Hehe ~”

Two minutes later, there was a sound of hurried footsteps in a lane behind the corner where Peter and Harry stood. They turned to look and saw Lin Rui running out of the lane.

“Haha! Something suddenly came up! Sorry!” Running out of the alley, Lin Rui looks at Peter and Harry in front of him and says sheepishly when he realized that he should have called to let them know but he was so nervous to face the Ancient One that he didn’t have time to think much about it.

“Where have you been? Didn’t you leave the X-Academy long ago?” When Lin Rui finally appeared, Peter asked curiously.

“Er ... I met someone on my way back and went to Kamar-Taj.” Lin Rui answers truthfully, having previously spoken to Peter and Harry about the sorcerers of Earth.

“Kamar-Taj? Where is that?” Peter looked puzzled at the name of such a strange place.

However, Harry seemed to know where Kamar-Taj was. However, he did not believe that Lin Rui could go to Kamar-Taj and come back in an hour.

“Kamar-Taj?! But that’s in the Himalayas, how did you get there? Did that woman in X-Men who could teleport take you there?” Surprised, Harry asked directly. When Harry asked this sentence, he was already thinking whether X-Men had a secret base in the Himalayas. If so, then X-Men is really hidden.

“Uh ~ no, it’s another organization. I told you before that there was a group of sorcerers who were protecting the earth in secret. They were looking for me.” Anyway, Lin Rui had previously spoken to Peter and Harry about the sorcerers of earth, so he didn’t keep it from them this time.

“Sorcerers?!” Peter and Harry were very surprised to hear Lin Rui’s answer.

Last time, because of Venom and the Demon of another world, Peter and Harry fought and they were rescued by the Sorcerers. Lin Rui’s identity was also revealed after that incident. After that, Lin Rui also briefly explained to them about the sorcerers. However, because they were controlled by Venom and the Demon, neither Peter nor Harry had any impression or knowledge of the sorcerers.

“It was the Sorcerer Supreme, he was looking for me for something, and I went to Kamar-Taj with them. But now it’s okay, he just wanted to talk to me.” Lin Rui and Ancient One’s conversation was a secret, and Lin Rui wouldn’t tell anyone, including Peter and Harry.

“Oh, it’s okay then. Now, you should take us to see your friend Thor.” Peter did not mind that Lin Rui didn’t tell himself what the sorcerer was looking for and went on.

“Last time you said that we would be surprised to meet your friend, we have been very curious since then. Don’t let us down now,” Harry said from the side.

“Well, it’s close to where Thor lives, and he’s in his apartment today. As for whether he will disappoint you, I don’t think he will.” With a smile, Lin Rui walks in one direction as he speaks and Peter and Harry followed.

...

While Lin Rui is on his way to meet Thor with Peter and Harry, the Washington SHIELD headquarters has received the full message from the team monitoring Mirage Knight. SHIELD took the two new contacts with Mirage Knight very seriously and immediately sent the message to Director Fury.

Thunk, thunk, thunk

In Fury’s office on the top floor of SHIELD, Fury was sitting on a chair, his right hand resting on the armrest was beating the chair’s handle rhythmically. On the computer screen in front of him, all the videos sent by the team observing Mirage Knight, as well as the audio analyzed by the staff were on display.

“There is no trace of information about these two people in the system. They are like ghosts, they don’t seem to exist.” While beating the armrest rhythmically, Fury muttered the results after analysis.

Because Rick and David did not wear any masks, their faces were quickly searched and analyzed. However, to the surprise of SHIELD professionals, these two people were not in their system. One must know that SHIELD, as an organization with great power in the world has many resources and there are only a few people they can’t find, except for those who are not born and some indigenous people. “Of course, people with professional anti-reconnaissance capabilities like Bucky are also excluded from this.”

What’s more, the “Project Insight” that Hydra implemented while still lurking in the SHIELD was to check the data of all the people in the world. Although the “Project Insight” was not implemented in the end, the preparatory work was completed, and two adults like Rick and David should not be missing from its database.

“Are these people the forces behind Mirage Knight? They have the ability to open a space door at any time, and they are not Mutants.” Looking at the clear video after the analysis, Fury thought with a frown.

Now the League of Defender and SHIELD are working together, but only against Hydra. And there’s still not enough information on the League of Defender on SHIELD side. Mirage Knight, in particular, has been a mystery.

“Whatever power is behind Mirage Knight, we just have to make sure that they are not our enemy.” So far, the relationship between Mirage Knight and SHIELD has been good, and Fury can only assume so. After all, having Hydra is enough to trouble SHIELD, they don’t need another hidden organization against them.

Brush!

With a decision in his heart, Fury waved his hand and closed the displayed data on the computer. Then Fury called up some other information about Hydra. Right now, SHIELD’s top priority is Hydra.

Chapter 336 Seeing Thor

On this side, Lin Rui and the other two have arrived at the downstairs of Thor’s apartment. Standing downstairs and contacting Thor, the door in front of Lin Rui is soon opened.

Card ~

“Let’s go in.” The door is unlocked, and Lin Rui pulls open the door and heads inside the building, followed by Peter and Harry.

Knocked ~

Just as the three of them were going upstairs, there was a crash from above, as if someone was running down the stairs.

Shout!

Just as Peter and the others looked up in disbelief, a big man burst out and rushed in front of them, grabbing Lin Rui in front of them.

“Ha! Jackson! There you are!” The person who rushed out was obviously Thor, who had been so bored in the apartment these days.

Peter and Harry were on their guard at the sight of a large creature coming out of the corner of the room, but when Lin Rui showed no sign of doing anything, they relaxed. Then they watched as Thor, who was more than five feet and nine inches tall and strong, suddenly grabbed Lin Rui in his arms.

“Cough cough! I know you’re welcoming me, Thor, but would you mind not saying hello like that again?” Coughing twice, Lin Rui said helplessly as he freed himself from Thor’s arm.

Although Thor is powerful, Lin Rui was able to break free easily with his powers.

“Haha, don’t you know who I am!” Only when he was in front of Lin Rui could Thor show himself as the Asgard Thor, others would not like him like this.

“Well, let me introduce you to them. These are Peter and Harry, my two best friends.” After being greeted by Thor, Lin Rui pointed to Peter and Harry who were beside him and introduced them to Thor.

“These two little guys? Hello guys, I’m Thor, Thor Odinson.” After hearing Lin Rui’s words, Thor turned his attention to Peter and Harry beside Lin Rui.

From Thor’s point of view, the human beings of the Earth except Lin Rui are too weak. Of course, Thor hasn’t met anyone with special powers and he had only met ordinary people, otherwise, he would have known that the earth is not as simple as he thought. For example, the two young men whom he didn’t take seriously.

“Hello, I’m Peter, Peter Parker.” As to Thor’s slight tone, Peter did not show any other expression on his face but politely extended his hand.

Call ~

Thor, of course, stretched out his hand and intended to shake Peter, but his face changed the next second when he held Peter’s hand. Because he realized that Peter is strong.

Buzz ~

Thor felt that the little guy in front of him seemed to want to compare his strength with his. As the proud prince of Asgard, Thor certainly would not show any weakness, so he also strengthened the handshake. At this moment, the two shaking hands were quietly struggling.

However, the result of the struggle surprised Thor: His strength was not as big as that of the little boy in front of him! Thor himself, who had no divine power was still several times stronger than any ordinary person of the earth, but he was still weak then Peter.

Huh ~

Just as Thor felt his opponent’s hand getting stronger and stronger, Peter’s hand suddenly relaxed, and then he pulled away from Thor with an unexpected look on his face as if nothing had happened.

“Oh, Jackson, is your friend the same as you?” With a little awkward retraction, Thor asked quietly next to Lin Rui.

Lin Rui’s strength is known to Thor and he already analyzed that Lin Rui’s strength would be similar to the Warriors of Asgard. As an earth person living on the earth, Thor thought that Lin Rui was not simple at the beginning. So, after meeting a Peter whose power would not lose to Lin Rui, it is not surprising that Thor was surprised.

Of course, Lin Rui sees the rivalry between Thor and Peter, but he does nothing to stop it. Anyway, it’s always been a problem for Lin Rui to see Thor’s attitude toward the earthlings, so it’s good to let him know the strength of the earthlings.

“We’re not the same, and besides, I’m not as strong as he is.” So, after Thor asks himself, Lin Rui replies with a smile. Lin Rui is telling the truth, simply by comparison, that Mirage Knight is no longer Spiderman’s opponent, which is also a perversion of Spiderman’s growth attribute but if they do fight with enough preparation then Lin Rui would win by a landslide.

“Better than you?” Thor apparently didn’t hear the little trap in Lin Rui’s words, thinking that Peter was a better person than Lin Rui. However, for fighters like Thor, the size of the force is an intuitive comparison of strength.

“Hello, I’m Harry, Harry Osborn.” Just when Thor was surprised by Peter’s power, Harry on the side also extended his hand.

“Uh ...” Seeing that Harry smiles politely to shake hands with him, Thor glances at Lin Rui and asks if he’s the same tough guy. However, Lin Rui doesn’t respond to Thor, he just pretends not to see Thor’s eyes.

“Hello.” When Lin Rui doesn’t respond, Thor reaches out and shakes Harry’s hand. Anyway, he is just shaking hands, even if the young man is strong, at most he would just pinch his hand.

However, Thor who was ready for Harry to be a strong young man, but the handshake was very calm, it was just a polite handshake. Harry is much more mature than Peter’s little vindictive display of strength.

“Okay, now that everyone knows each other, let’s go up. Are we going to stop at this staircase to chat?” Lin Rui reminded them while feeling amused when he saw several changes in Thor’s face.

“Well, let’s go up, I went to the supermarket to buy some snacks for you guys,” Thor said quickly after hearing Lin Rui’s reminder.

Then Lin Rui followed Thor upstairs and soon walked into his single apartment.

Card ~

...

When Lin Rui took Peter and Harry as guests in Thor’s apartment, the X-Men whom Lin Rui met earlier seemed to have some mission themselves and they all left from the X Academy, and everyone left in a different direction at the same time.

In the basement of X Academy Castle, as the secret base of X-Men, the technology and defense here are also extremely high. At this point, Professor Charles and two other X-Men were in a room at the underground base.

“Professor, are we really going to go all out?” Robert spoke. As the Fifth-Level Mutant existing in X-Men, Iceman has no mission for the time being.

Although Iceman had been looking forward to the day, he was a bit hesitant when it finally came. After all, Professor Charles is now making a decision that could change the situation for X-Men and all Mutants on the planet.

“What do you think, Hank?” Instead of answering Iceman’s question, Professor Charles turned to someone else in the room. By the name spoken by Professor Charles, this very ordinary-looking man turned out to be Hank, the Beast.

“This is a step we have to take, and maybe this is our last chance!” As an intellectual addition to professor Charles in X-Men, Hank took this point seriously.

“Well, let’s show the world what X-Men can do!” Hank has answered Iceman’s question for Professor Charles, who says with a firm look in his eyes.

Huh ~

Then, Professor Charles controlled the wheelchair and went outside of the room. There was a corridor outside the door and at the end of the corridor was the place where the Cerebro was stored.

Chapter 337 Help 1

“What?! He is really an alien?”

There was a sudden scream from Peter in the originally quiet apartment, and it seemed that Lin Rui had told Peter and Harry about Thor’s identity.

Call!

“Shh, this is a secret, why are you screaming, do you want everyone to know?!”

Although Lin Rui has quietly used the Phantom Suit’s upgraded range shielding function, even if there are always SHIELD agents monitoring Thor, they will not monitor what they are talking about in the room, but Peter’s roar is enough to penetrate out of it.

“HMMM!! Peter, muffled by Lin Rui’s hand kept nodding his head to show he knew.

Then Lin Rui took his hand away. Still, Peter looked shocked. For his part, Harry though did not react as much as Peter but he was also clearly shaken by the news.

“Jackson, is this true? Is he really an alien?! ” Harry asked seriously, looking at Thor, who was sitting on the opposite sofa looking like every other person on earth.

Speaking of alien creatures, this isn’t the first time Peter and Harry have met or seen alien life. The Venom that once infected Peter was an alien parasite, and the Demon that possessed Harry came from another world. But Venom and the otherworld Demon, at least, looks completely different from life on earth. However, the Thor in front of them looks completely human.

“Well, it’s true!” Lin Rui answered with certainty.

“Hey, Jackson, although we are friends, you can’t just tell my secret to others.” Thor didn’t wait for Peter and Harry to digest the shocking news completely and said from the opposite sofa feeling a little dissatisfied.

Although Thor does not mind that others know his identity, he is now in a state of exile. The identity of the Prince of Asgard seems to be a burden to him. However, Lin Rui only said that Thor came from outside the earth. He did not say that he was the prince of Asgard, nor did he say any personal information about him. Otherwise, Thor would really have become angry.

“Jackson, why do you always encounter so many weird things? Now even aliens have become friends with you.” Looking carefully looked at Thor, Peter said with some emotion in his voice.

Although Thor appears to be a human, they must have believed Lin Rui's words. Besides, who says aliens must look different from earthlings? Maybe there are many civilizations like earth in the infinite universe!

"Oh, it was an accident." Lin Rui can only explain what happened to him by accident.

"So, is there anything special about Thor? Has no one else found out how he came to earth?" Harry was clearly thinking more than Peter who was simply surprised.

Speaking of special things, Thor is indeed special enough as an alien, but this is not why Lin Rui made friends with him. Of course, perhaps Lin Rui simply thought Thor was a good person. However, from such a brief contact, Harry didn't think Lin Rui would like a person like Thor in the beginning just for this.

So, Lin Rui became friends with this alien Thor and introduced himself and Peter to him. Well, Thor would never be that simple. One has to say that in terms of intelligence, Peter is no worse than Harry, but Harry is more mature in these things.

"Haha, you are still smart! Thor is a terrific person! As for how he came to earth, I can't say that, anyway, the process was not so good. And SHIELD also knows about Thor but they will not interfere with Thor's life on Earth." Lin Rui explained with a smile, in the face of Harry's doubts.

"What's special?! I'm a mortal now." But after Lin Rui answered Harry's words, Thor on the sofa said a faint flash in his eyes.

If Lin Rui had introduced Thor this way before, he would have told him that he wasn't just this, he was Thor, the God of Thunder and the Prince of Asgard! But now, without his power and without his hammer, Thor couldn't even beat the three little kids in the room. Although Harry didn't show much, Thor didn't think less of him.

"So, Thor, I will help you regain your strength." Lin Rui said seriously in the face of the depressed Thor.

The next plan to deal with Hydra has been mostly completed, and Lin Rui now has to consider his other plans. Furthermore, Loki had given him an order to let Thor regain control of his powers before his next visit to earth. Although Lin Rui is now connected to Ancient One, there is no guarantee that the Ancient One will stop Loki from doing harm to himself.

"How can you help? As you said last time, it's up to me to figure this out. But I still have nothing. Maybe I won't be able to pick up my hammer again!" At Lin Rui's words, a light flashed in Thor's eyes, but it quickly went out again

Odin deprived Thor of his divine power and sealed Mjolnir. The always arrogant Thor was thrown into an unfamiliar world, and the situation of falling to the bottom of the mountain made the situation so bad that he wasn't able to adjust for so long. Before he broke up with Jane Foster, Thor had expected to live on this strange earth with his love. However, that expectation was also shattered by their breakup.

If Thor knew that Loki was responsible for Jane's breaking up with him, no one knows if Thor would hit Loki with his hammer after he recovered. Of course, all of this will only be done he recovers his powers. In fact, that's what Loki always wanted. Because he sensed that Jane had made Thor attached to the earth and made him feel like he belongs here and that Jane was one of Thor's weaknesses. That's why Loki said those words to Jane and she ended up breaking up with Thor.

Moreover, Loki also looked for Lin Rui, Thor's only friend on earth before leaving. And Loki could feel Lin Rui's strength and he felt that he would be enough to help Thor at this time. In fact, these things are done by Loki himself and have nothing to do with Odin. Speaking of which, Loki seems to have arranged all of Thor's encounters.

"Indeed, you have to rely on yourself to recover your powers. But that doesn't mean that other people can't help you. Multiple people can always have multiple ideas." Facing Thor's helplessness, Lin Rui said seriously.

Thor's power is very powerful. If Lin Rui wants his grand goal to be completed, he will not give up such a huge help.

"So, Jackson, how can you help me?" Thor asked after hearing Lin Rui's words.

"First, we need to help you find a job."

Thor: "..."

Chapter 338 Help 2

After hearing Lin Rui's words, Thor feels a little embarrassed, but he knows that Lin Rui is really doing him a favor. If he can't even find a job, how can he survive on the earth, let alone regain his power?

However, Thor did not know that Lin Rui wanted to help him regain his power directly from or by work. Lin Rui, who has seen the movie, does not know what specific requirements Thor needs to meet in order to regain his powers, but some things that are easy to guess are positive. For example, the sense of responsibility, tolerance, and humility, which were not present in previous Thor. So, what kind of work can cultivate these qualities in Thor is what Lin Rui needs to consider.

"Peter, Harry, what kind of work do you think can quickly make one develop a sense of responsibility?" Without asking Thor's advice, Lin Rui looked directly at Peter and Harry and asked, Thor doesn't know what he can do anyway.

"Responsibility? I think being a teacher is good! But ... I don't think Thor looks very suitable for being a teacher." Hearing Lin Rui's question, Peter answered after thinking about it but soon felt that the profession was not suitable for Thor.

"What about being a doctor? Did Thor have any medical experience when he was on his planet ..." After Peter rejected the teacher's job, Harry went on to propose a responsible job. Of course, Harry also doubts whether this job is suitable for Thor.

"Doctor? No, I could help people to bandage the wounds on the battlefield." Thor shook his head and answered after hearing Harry's words. Obviously, Thor did not like the job of a doctor.

"What about being a volunteer? These jobs need to be done by people with a high degree of responsibility and this job would allow him to cultivate a sense of responsibility." After Thor answered Harry's words, Peter made another suggestion.

The unpaid work of volunteers is available everywhere and the threshold for doing it is not high. Even if Thor has no skills, he can do some basic work. Moreover, other volunteers are generally good at training people. Like Lin Rui and Peter, they have worked as volunteers before, but now they do occasionally.

"Volunteer? This is a good suggestion." Lin Rui murmured after hearing Peter's second suggestion. Although Lin Rui thinks that Thor can do a lot of work, but a work that can cultivate his strong sense of responsibility in a short period of time still needs to be selected.

"If it's a volunteer, it's better to find a job as a caregiver, so that Thor can also develop tolerance." On reflection, Lin Rui decided that volunteering seemed like a really good choice.

"Hey, Jackson, what's a volunteer job? Does it suit me?" Thor asks at the sound of Lin Rui's whisper.

Although Thor doesn't yet know why Lin Rui has to add a sense of responsibility to his job search, Thor believes that Lin Rui must have a reason for doing so. Moreover, Thor doesn't think he has a strong sense of responsibility.

"Volunteer, it's the kind of work that helps others in all walks of life, and there is no ... um!" Lin Rui was about to explain to Thor when he asked.

But halfway through the explanation, Lin Rui shut up. Because he suddenly found that although being a volunteer is very suitable for Thor but volunteers do not get paid! Even if some volunteers are paid, it is far from enough to support Thor as a living person.

"What's wrong?" When Lin Rui stops in the middle of her explanation, Thor asks curiously.

"Nothing, I just suddenly felt that this job is not suitable for you. Because, this job has no salary." Shaking his head, Lin Rui said helplessly.

"No salary? That's a problem." Thor had never worried about money before at Asgard, but after living on Earth for two months, Thor knew the role of money. Without money, Thor wouldn't be able to eat those delicious things.

"If all you're worried about is that you're not getting paid for volunteering, that's easy. I can pay Thor." Harry laughed as he saw Thor's disappointment.

Harry has already seen that Lin Rui seems to be working to help the alien develop a sense of responsibility, but while there are many such jobs, there are few that suit Thor. Plus, if it's about money, it's really not an issue for Harry right now.

"You can pay me? How much are you going to pay me?" Thor looked at Harry and asked him seriously.

Although Thor had only been living on earth for two months, he had been living in Washington DC, where prices were high, and he knew that he could not live on his own if his salary was low.

"How about five thousand? No matter what kind of volunteer work you find, I will pay you five thousand a month." Seeing Thor's serious look, Harry answered with a smile.

Five thousand per month is not too high for Harry, which is about the salary of a person in Oscorp who is better than the average employee. But this number is already very high for Thor, after all, his salary was very low when he was a librarian in school. So, Thor agreed without much thought.

"Okay! Five Thousand is good!" Thor shouted as if he was afraid that Harry would turn back on his words.

Lin Rui felt a little helpless to see Harry and Thor making such decisions in front of him. In the end, he let Harry, the little tyrant, pay Thor's salary. However, this was also expected by Lin Rui. Anyway, Thor is now willing to do volunteer work and it is reasonable for Harry to get the salary out first.

"Then let's decide this way. I'll help Thor in the next few days to see what kind of volunteer work he can do in New York. But you're not in a position to make a choice. No one can make a claim for five thousand dollars without working and that's the same for you." Now that Thor has decided, Lin Rui speaks up. Of course, he won't make Thor go back on anything.

"Of course, I will definitely do what I said, I won't go back on my words! There is nothing I can't do!" Although Thor doesn't have any skills other than power now but for that five thousand per month salary, he will work hard.

"Then, that's the way things will work for Thor. It's time for dinner now. Let's go out for dinner first." Looking at the time, Lin Rui suggested.

"Well, let's go to dinner! But, you will have to pay for me!" Hearing the word 'dinner', Thor said happily as he had not gone to any restaurant since he went to Lin Rui's uncle restaurant last time.

"Harry, please." Lin Rui said with a straight face.

"Yeah, Fine." Of course, Harry didn't care and agreed.

Then the group of four headed for a nearby restaurant.

When the four people walked out of the apartment building, the light suddenly twisted in the corridor outside Thor's apartment. Then a slim figure appeared in the corridor out of thin air.

Chapter 339 Trail

Buzz ~

There was a golden light suddenly flashing in the slightly dim corridor of the apartment, and a portrait of golden runes appeared out of thin air in front of the slender figure.

Needless to say, this person who has been hiding in the dark is Yun Meng who has taken Ancient One's mission to investigate Thor. And this time, she really found a lot of things.

"This Mirage Knight even knew Thor of Asgard, this is really surprising!" Looking at the direction where Lin Rui and others went, Yun Meng murmured with a strange look in her eyes.

Although Lin Rui only showed a slight abnormality when he heard the name of Thor in Kamar-Taj, it was unexpected that Ancient One caught that anomaly and thought so much about it, and sent Yun Meng to investigate whether Lin Rui and Thor had any relationship. With no defense against the sorcerers, Lin Rui is unaware that someone is watching him all the time. Of course, this is also because Yun Meng has no malice toward Lin Rui and others, or Peter's spider-sense would have warned him.

"Also, he and Thor not only knew each other. This Mirage Knight named Jackson obviously knew Thor's true identity, but he didn't make it clear with his two equally unsimplistic friends. Maybe, the other two young men are also the members of the League of Defender but they are all so young!" Yun Meng also secretly observed Peter and Harry and had some vague guesses about their strength. At the same time,

Yun Meng also had to sigh at their youth. However, Yun Meng seems to have forgotten that she is also only nineteen this year.

“It seems that the Master has also discovered something, so, should I go back and tell him of this development?” Lin Rui and the others have gone out of Yun Meng’s perception range. Yun Meng who has investigated the relationship between Lin Rui and Thor does not know what to do next.

This is the first time that Ancient One has arranged this kind of mission for Yun Meng, and it is also her rare opportunity to enter a modern big city like New York. So Yun Meng didn’t want to go back so early. Moreover, she just knew that Lin Rui and Thor knew each other, and she didn’t know how they knew each other.

“So, I will just stay here for a while and see what Mirage Knight has to be valued by the teacher.” Finally, Yun Meng felt that she should spend more time in New York to observe Lin Rui.

Of course, there is some selfishness in this decision. After all, she was only nineteen. She had lived most of her life in Kamar-Taj and it is hard to come to New York, a modern big city. Isn’t it a waste to not see the sights.

Buzz ~

After making up her mind, Yun Meng waved her hands, and a golden light fluttered in front of her. Soon, a golden rune appeared in front of Yun Meng.

Shout!

The moment the golden rune appeared, Yun Meng waved her hand and the golden rune rushed out of the apartment building and disappeared into the sky. Yun Meng just sent everything she had investigated to Ancient One so that she can also go to New York more at ease.

After sending the message, Yun Meng waved her hands again. Then, in a burst of golden light, the corridor was empty again.

As for the apartment opposite Thor’s apartment, the changed SHIELD team did not notice the appearance or disappearance of Yun Meng. Because the supervisor’s monitoring level for Thor has been reduced, the team is only responsible for monitoring Thor. As long as they know Thor’s whereabouts every day, they don’t need to monitor as carefully as before.

In this way, Mirage Knight took Spiderman, Dark Knight, and Yun Meng from Kamar-Taj to do their own thing under SHIELD’s eyes and they didn’t even realize it. I don’t know what Fury will look like when he finally knows these things, but they may never know.

...

In the evening, Lin Rui returns home looking tired. Today was an exhausting experience for Lin Rui, whose spirit was always on edge, whether he was talking to Professor Charles in the X-Academy or being told his biggest secret by Ancient One in the Kamar-Taj. Now that he had finally made it home, Lin Rui felt a surge of exhaustion hitting him.

Although very tired, Lin Rui did not immediately rest in bed, but took a shower and sat on the bed to start meditation. Recent experiences have completely changed Lin Rui's mentality. Since then, Lin Rui has no plans to give himself much rest time.

"That Thor! He said he would do anything, but at the end of the day, he was planning to go back on his words!" Although he had been meditating slowly, Lin Rui was still thinking about his troubles during the meal.

It turns out that after deciding to find some suitable volunteer work for Thor, Lin Rui selects several and asks Thor to decide which one to do. But when it came to those jobs, Thor picked one out and didn't like the other and didn't want to do anything.

Seeing Thor's attitude, Lin Rui finally got angry. Instead of letting Thor choose for himself, Lin Rui chooses a job for Thor: Taking care of New York's stray dogs at a stray dog house. Even though Thor is very reluctant to do this but faced with Lin Rui's tough attitude, he can't help but agree. After all, Thor on earth has no one else to fall back on.

The job Lin Rui chose to take care of stray dogs is not a random choice either. To develop a sense of responsibility and tolerance, something that requires a lot of energy and even emotion is obviously the best, and taking care of stray animals is very suitable for this condition. Although Lin Rui really wants Thor to work in an orphanage or some special children's medical center, he is worried that Thor will not be able to take care of the childrens.

"Well, at least Thor agreed. I hope he can learn to be responsible and tolerant in his work of taking care of stray dogs. After all, taking care of animals requires a lot of energy." With this in mind, Lin Rui has slowly fallen into a deep meditation.

...

After Lin Rui has arranged Thor's work, Agent Coulson at the Washington SHIELD Headquarters suddenly received a message from his agents: Hydra has been found!

"Finally! I thought that they would remain hidden forever!" Coulson was also very excited to verify the authenticity of this news.

Then, after confirming that the news was true, Coulson immediately reported it to Director Fury. Soon, Coulson received an order from Fury: Contact Mirage Knight.

"So late ... Ah! I've always done this sort of thing!" Coulson whispered after reading Fury's order, then took out his phone and dialed a number.

Chapter 340 Trail 2

Buzz ~

Just as Lin Rui cleared away some of the random thoughts in his head and fell into deep meditation, it didn't take long for the phone on the side to shake suddenly. Lin Rui, who had already begun deep meditation practice, frowned slightly, then slowly opened his eyes.

This is a special time. Lin Rui won't go too deep into meditation even when he is practicing as he is afraid to miss the news of Hydra. And when Lin Rui picked up the phone, he saw Coulson's name. Is there really news about Hydra?!! Lin Rui thought.

"Agent Coulson, it's so late, what's the matter?" Lin Rui asked, answering the call.

"Mirage Knight, there is news about Hydra!" Without beating around the bush, Coulson directly pointed out the topic.

Boom!

After hearing Coulson's words, the internal energy in Lin Rui's body was not controlled for a while and rushed out of his body, causing a hollowing sound to echo in the room. Although this also has the effect of Lin Rui's cultivation being disturbed by the instability of internal energy, it is enough to see how much Lin Rui cares about Hydra now.

Shout!

"Really?!" Lin Rui asked after taking two deep breaths.

"Yes, although this is only a small stronghold of Hydra but as long as we handle it properly, we may be able to find more Hydra bases." Coulson obviously also noticed the change in Lin Rui's tone and was equally serious.

"Okay, I know. When will SHIELD act?" After being certain that there are Hydra's whereabouts, Lin Rui has no intention of training. Lin Rui is now thinking about how to quickly eliminate Hydra from this earth so that they will not endanger his family.

"We are arranging our personnel, but we will do it as soon as possible."

"Contact me when you are ready to act and the League of Defender will do it with you."

After confirming their course of action with Coulson, Lin Rui hung up. Finally, a week after Lin Rui was rescued, Hydra was found again. Starting with this discovered Hydra, Lin Rui wants to completely destroy the entire Hydra.

Call ~

The SHIELD deployment will take some time, and Lin Rui will have to contact his League of Defenders members. At this late hour, Daredevil is probably the only person who isn't sleeping besides Sky's Eye.

Buzz ~

However, just as Lin Rui was about to contact Sky's Eye, the phone shook again. Seeing the name displayed on the phone, Lin Rui blinked, and then quickly connected the phone.

"Hey! Robert, what's the matter?" Lin Rui asked in a hurry after the call was connected. It's so late and Robert also called, so there must be something on the X-Men side, too.

"Mirage Knight, we have determined the location of some Hydra members!" Lin Rui was not disappointed as Robert at the other end of the phone brought exciting news to Lin Rui.

Earlier this morning, Lin Rui went to X Academy not only to be a guest but to join hands with X-Men. The final result was beyond Lin Rui's expectations. Professor Charles, who is the leader of X-Men, seems to be unable to endure the situation of Mutants on the planet today and is willing to join forces with the League of Defender to change their status quo.

In the final determination of the specific matters of the joint operation, Lin Rui's first thing is to hope that the X Academy will first deal with Hydra as their primary goal. Although this was somewhat different from the original purpose of Professor Charles, in the end, he agreed.

Therefore, before leaving the X Academy, Lin Rui left much of the information about Hydra's internal members from SHIELD in the hands of Professor Charles. It now appears that Professor Charles should have used his abilities, otherwise it would not have been possible to find Hydra members so quickly.

Although Professor Charles's Mutant ability is abnormal, it is almost impossible for him to find so many people from all over the world by giving only some basic information. In the end, Professor Charles must have used Cerebro to scour only part of the United States, and he was able to find many of those sources.

After finding those people, Robert could not wait to tell Lin Rui the news. For Hydra, X-Men also needs it to be removed quickly.

"Okay! Send me all the found positions of Hydra members!" Lin Rui shouted excitedly after receiving the news from Robert.

Coulson just found a Hydra stronghold and X-Men also found a lot of Hydra members. It seems that Lin Rui will be busy in the coming days. However, Lin Rui likes this busyness. If possible, Lin Rui hopes that he can continue to be so busy until Hydra is completely eliminated.

"Okay, it's already sent. Mirage Knight, what are you doing, I've been free!" After hearing Lin Rui, Robert knew that Lin Rui would definitely take some action against these people, so he asked with a smile.

The other members of X-Men were all given their respective missions by Professor Charles. Only a few people such as Iceman have no missions yet. Therefore, Iceman is very eager to deal with Hydra.

"Of course, I will gladly accept your help!" Lin Rui answered seriously.

After being caught once by Hydra, Lin Rui will never underestimate the strength of Hydra again. This time he will use all his strength to deal with Hydra.

"Okay! I'll wait for your notice!" Robert said happily after receiving Lin Rui's reply.

Then, Lin Rui hung up the phone. At this time, Lin Rui's computer also received an email from the X-Academy. After clicking the email, Lin Rui saw the location of those Hydra members discovered by Professor Charles.

The Hydra discovered by Professor Charles and the one by Coulson just confirmed each other. Lin Rui found that the Hydra stronghold found by Coulson also contains one of the members found by Professor Charles. So, the position of other Hydra members found by Professor Charles is probably also other Hydra's stronghold!

Without any hesitation, Lin Rui has re-edited this extremely valuable email and forwarded it to Coulson. Now that he has decided to cooperate with SHIELD against Hydra, Lin Rui will not hide anything at this time. Moreover, with the mystery of Mirage Knight, they would not be particularly surprised to find this information coming from him. Although Lin Rui had previously relied on SHIELD to provide Hydra's news, as long as Fury determined that this information was true, there will be no doubt that the forces behind Mirage Knight are also behind the discovery.

After forwarding the email to Coulson, Lin Rui can finally contact Sky's Eye. SHIELD and X-Men are already working, and it's time for the League of Defender to their work. This time, they will show the world the strength of the League of Defender!
