

Marvel 371

Chapter 371 The Iron Man Army Arrives

Buzz!

After the arrival of Tony's three Iron Man, three laser beams from their chest started to bombard the Invisible Space attack with Lin Rui and others. At the full power output of the Miniature Arc Reactor, Tony's three attacks have surpassed Lin Rui's Thunder Strike.

However, even if the sudden addition of Tony as a new force was added, it is only to slow down the spread of the spatial fluctuations and it is not enough to repel it.

"Tony! What about your Iron Man army?" With cracks appearing all over Iceman's body, Lin Rui yells anxiously at Tony in mid-air.

"What's the hurry! Here we are!" Tony is not angry when Lin Rui calls him by his first name. The situation is really urgent.

Brush brush!

After Tony answered, there was a sound of objects approaching at high speed. Without looking back, Lin Rui already knew that Tony's Iron Man army had finally arrived. In Lin Rui's view, there are hundreds of Iron Man that have already flown over, and now he can feel more at ease. The attack released by the Space Infinity Stone in front of him is indeed strong, but it is not possible to be as strong as the full-powered attack of One Hundred Iron Man.

Of course, this is because the Infinity Stone is in Hydra's hands. If it was in the hands of a certain god-like character, Lin Rui would not be thinking like this. Because not just anyone can fully exert the power of an Infinity Stone, Hydra cannot fully release the power of Infinity Stone even if they use it.

"J.A.R.V.I.S, blast it!!!" His support has finally arrived and Tony commanded.

"Yes, sir." With a quiet "yes", JARVIS took control of the hundreds of Iron Men and fired the Chest Cannons at the rear of the explosion below.

Buzz!

Boom!

The next second, hundreds of laser beams burst through the air, pointing directly at the space gate below! From Lin Rui's point of view, more than a hundred brilliant white beams suddenly appeared overhead, as if they were performing some special effects. However, this gorgeous picture represents absolute power.

Call!

After Tony's Iron Man army attacked at the same time, Lin Rui, who had been holding his sword in the air, finally fell to the ground. In the position where the attack fluctuated ahead, the power of the Thunder Strike gradually dissipated. However, with Tony taking over, Lin Rui doesn't need to attack again.

After Tony's arrival, Lin Rui's feeling of being overwhelmed gradually disappeared. It seems that this attack can be finally blocked by Iron Man's army.

"Explode! With the full support of hundreds of Iron Men, Iceman, who had already been unable to hold out, gave a loud shout and flung his arms forward.

Brush!

The range of the Absolute Freeze that was originally spread out narrowed instantly and condensed into an extreme ice blue beam, and then slammed into the space fluctuation.

Card!

After condensing out the power of Absolute Freeze, Iceman was finally unable to support any more, and the melted ice crystals dissipated directly, revealing Iceman's entity again. Shadowcat, who also spent a lot of power behind Iceman, grabbed Iceman and didn't let him fall down because of the excessive consumption.

At this point, that spatial fluctuation has been completely handed over to Tony's Iron Man army. However, Lin Rui and his team are not as worried as they were at first. Because, since hundreds of laser beams had hit the invisible attack, a circle of ripples had formed in that space, and it slowly spread to the back, it is clear that the invisible attack has been unable to hold.

Call!

"It's finally blocked!" Lin Rui was relieved to see the space shrink back under the attack of hundreds of laser beams.

However, although this attack was blocked, Lin Rui will not become fully relaxed. Because Lin Rui already knows that the Space Infinity Stone is in the hands of Hydra, no one can estimate how much power Hydra can draw out from this Infinity Stone at the same time. If Hydra really got more powerful things from the Space Infinity Stone, Lin Rui felt that his plan to eliminate Hydra might become a lot harder than he had expected.

Buzz!

Although Lin Rui was still worried about the Space Infinity Stone but under the joint attack of the Iron Man army, the invisible attack was finally repelled to the vicinity of the Space Door. If it continued, the space gate will be destroyed by the laser beams, so that they can be truly assured.

Call!

Hundreds of Iron Man were already shooting, and Tony flew from the air and landed next to Lin Rui. Glancing at the group of people with some injuries, Tony said nothing. If Tony sent his Iron Man army directly from the beginning, today's battle may be much easier.

"We're okay." Lin Rui seemed to know what Tony was thinking and suddenly said to him.

Lin Rui was also far from expecting things to turn out like this today. Not only did Hydra go further than he had expected, but a bug class item like Space Infinity Stone finally appeared. If Lin Rui had known, he would have asked Tony and X-Men to back him up with their full force.

Dī Dī Di!

“Similar space strike detected!” As Lin Rui and his teammates watched the hundreds of laser beams that had hit the gate of space and were about to destroy it, JARVIS’s urgent voice suddenly came from Tony’s Iron Man Armor.

Buzz!

Then, before anyone could react, a space wave that was the same as before was rushed out from that Space Door again, and it instantly merged with the space wave in front.

Boom!

Almost instantaneously, hundreds of laser beams that had already occupied the absolute upper hand were blocked after the fusion of the two spatial waves. Although it has not been repulsed yet, if another space fluctuations are rushed out from the inside of the Space Door, hundreds of laser beams would not be able to block it.

“Damn it! J.A.R.V.I.S, start our new weapon!” Tony shouted quickly when he saw the sudden situation in front of him.

“Yes, sir.”

Kakaka!

As J.A.R.V.I.S agreed, a special device suddenly appeared on the shoulders of hundreds of Iron Man suspended in midair, which seemed to be a special weapon launcher.

“New weapon? Could it be? ...” Lin Rui’s eyes suddenly lighted up after watching Iron Man Armor’s change as he heard Tony’s words.

Buzz ~ Boom!

After a short charge, a strange wave rushed out from each Iron Man Armor’s shoulder, this is a different attack from the laser, but it can’t be ignored.

“Magic attack?! Has Tony really succeeded?!” Lin Rui shouted in his heart after sensing the bizarre fluctuations blasting from Iron Man’s shoulder.

Finally, in front of Lin Rui’s desired eyes, those strange waves hit the space wave. In an instant, a brilliant golden light burst out on the Space Door with space as a barrier.

“It’s effective!” Lin Rui shouted in surprise at the scene in front of him.

However, unlike Lin Rui’s surprise, Tony still frowned.

Chapter 372 Breaking

Buzz!

In front of Lin Rui and others, the Space Door has been completely covered by the laser beam and the brilliant golden light. Under such a powerful blow which even Iceman’s Absolute Freee can’t stop it. So, everyone was relieved, except Tony.

“Mr. Stark, is there something wrong?” Lin Rui asked quickly after noticing Tony’s complexion around him. At this time, although Lin Rui was still worried, he was not so nervous at first, so he didn’t call Tony’s name directly.

“The subsequent attacks have little effect.” Frowning, Tony answered seriously. Of course, when there are many people around, Tony will not directly say that his weapons are derived from Magic-Derived technology.

“You mean those new weapons are useless?” Lin Rui asked in surprise after hearing Tony’s answer. He just felt the strong magic wave just now, how could it be useless.

“The weapons are effective, I have tested them before, but they may not have played their due role for the target this time.” Shaking his head, Tony didn’t know that the magical blows he had worked so hard on were actually useless against that. These attacks had little effect.

“Then this is the case ...” If the magic strike has no effect, it is hard to say whether the space door can be destroyed. After all, the hundreds of laser beams before appeared to be blocked.

Buzz!

Just as Lin Rui and Tony finished speaking, the position of the space door covered by the brilliant light in front of them again spread out with a wave of space power. Then, all the light was pushed away by an invisible barrier, revealing the intact space door inside.

“Sir, a third Space-Type strike was detected.” As the invisible barrier spread outward, J.A.R.V.I.S.’s voice was heard again.

“Damn it!” Tony sighed angrily at the scene in front of him. Hundreds of Iron Man, hundreds of miniature Arc Reactor’s full power strikes failed to destroy the space door, and Tony was almost out of options.

Buzz!

“J.A.R.V.I.S, activate the Damocles Reese Sword System!” Seeing that the invisible barrier was isolating hundreds of laser beams and is spreading outward more and more quickly, Tony ordered J.A.R.V.I.S.

“Sir, starting the Damocles Reese Sword System requires the joint authorization of Director Fury and you.” However, this time J.A.R.V.I.S did not immediately agree but instead reminded.

“The situation is so urgent that Fury can’t be contacted. I can only start it first. I’ll explain it to Fury later!” Of course, Tony knew that the use of the Damocles Reese Sword System requires Fury’s joint authorization, but now communications cannot be established in this area. Getting in touch with the outside world is next to impossible at the current time and the threat of the space door in front of him has obviously reached a point that cannot be ignored.

The so-called Damocles Reese Sword System proposed by Tony is a series of space-based weapon systems composed of satellites in low-Earth orbit that can strike the earth in all directions. This space-based system is composed of a total of Twenty-Four Near-Earth satellites. It costs a lot of money and manpower. Without Tony’s support, SHIELD wouldn’t have been able to complete such a strike system that can cover the whole world so quickly.

Of course, such a system that can threaten any organization on the planet will not remain in the hands of an individual, even if Tony provided a lot of technical and financial support. The fact is that such space-based weapons are subject to the monitoring of the World Security Council, and every use of them needs to be evaluated, which is why J.A.R.V.I.S reminded Tony.

After Tony finished speaking, J.A.R.V.I.S did not immediately answer, it seems to be evaluating whether the current situation is dire enough to use the space-based weapons. Moreover, the use of space-based weapons is not intended to be used. It requires a Near-Earth satellite just above this area to accurately strike.

Within a few seconds of JARVIS thinking, the attack from the front space gate had forced the laser beam back, so it seemed impossible to destroy the space gate even after consuming the energy of hundreds of Arc reactors.

Dī Dī!

Just as Lin Rui and others were anxiously waiting for J.A.R.V.I.S's decision, an unexpected surprise sound came from the headset that Lin Rui had been wearing.

"Mirage Knight! Spiderman! I was finally able to contact you! Are you okay?!" It was Jerry's voice that came from the League of Defender Logistics Sky's Eye connection network!

After Lin Rui heard Jerry's voice in the headset, the other teammates standing next to him and Captain Rogers's face also changed. It seems that they also received news from outside the blocked area.

"Sir, the communication blockade in this area has been lifted, and Director Fury has been connected." J.A.R.V.I.S, who had been silent for a few seconds before speaking to Lin Rui and others, said again. It seems that J.A.R.V.I.S did it in accordance with the regulations at the moment of communication recovery.

Rumble! Click!

However, before waiting for Tony to say anything, lightning suddenly flashed from the fog above the Golden Gate Bridge. The huge white and blue lightning directly cleaved the mist that enveloped the Golden Gate Bridge and slashed in, and it happened to be at the position of the space door but the lightning was blocked by the invisible barrier.

Rumble!

However, although the invisible space barrier blocked the sudden thunder, it was obviously unable to withstand the impact of such a powerful natural attack. The space barrier that had originally spread outwards shrank again.

"Thor?!"

"Storm!"

Lin Rui and Iceman both screamed in surprise when they saw the huge thunder break through the mist and finally hit the space door. However, the names they called were different.

After hearing the name Iceman shouted, Lin Rui reacted and smiled bitterly. That's right, how could it be Thor, Thor is still taking care of stray dogs in another area of ??New York. In the world of Marvel World, there are more than one person who can play Thunder and it is just not Thor who could do it, and Storm in X-Men is also a good user of Thunder and lightning.

As the peak Fourth Level Mutant, Storm is one of the main force members in X-Men. And this powerful Thunder is obviously from Storm, so it seems that X-Men's support has arrived. Moreover, the recovery of communications may be caused by Storm's lightning strike.

Rumble! Click!

After the first thunder pierced through the mist, the following thunder was not weaker than the first, and it pierced through the mist and hit the space door. The space barrier that came out of the space door finally collapsed under the continuous bombardment of hundreds of laser beams and the powerful thunder.

"The fog is gone!" No one knows if it was because of Storm's attack but the fog that enveloped the entire Golden Gate Bridge and the surrounding area gradually dissipated.

When the fog completely dissipated, everyone finally saw what was going on outside. Dozens of SHIELD Quinjets completely occupied this space, floating just outside the fog. At a slightly further distance, an invisible sonic fighter stopped at the surface of the Golden Gate Strait. In the midair above the Golden Gate Bridge, a woman with silver-white hair is using her own strength to mobilize the Thunder from the Thunderclouds, it is Storm.

And the outsiders can finally clearly see the situation on the Golden Gate Bridge. The Iron Man army who rushed in before was suspended in mid-air to attack a certain place on the bridge, which is the location where the thunder strike fell. And not far from that location, the League of Defender and the members of SHIELD and X-Men stood together looking at the front with a serious face.

"It seems that it is no longer necessary to use space-based weapons." Seeing the lineup outside, Tony had disconnected the emergency communication with Fury.

Just after he said this sentence, Fury on a Quinjet had issued an order: Full attack!

Howls whew!

Chapter 373 Death?

Rumble!

Boom!

There were thunderstorms in the sky, laser volleys from Tony Iron Man's army, and countless heat weapons from the SHIELD in the background. In such no dead Angle Omni-directional big power attack, the Space Door is finally completely destroyed, which also means that the Space Barrier also disappeared with the destruction of the Space Door.

"It's finally over!" Captain Rogers said in a deep voice as he looked at the Space Door completely shrouded in front by the explosion.

Huh!

Feeling the explosion shock wave blowing on his face, Lin Rui felt heavy. Others may just feel that Hydra's hidden strength is stronger than they had previously estimated, maybe today was a desperate counterattack from their side. But Lin Rui knows that Hydra with Infinity Stone in hand is stronger than they had thought. If today's support had not come on a timely base, someone would really have died here.

Buzz!

Seeing a Quinjet flying slowly from midair, Lin Rui's eyes flickered. When Storm's Thunder cracked the Mist and Communication were reestablished, Lin Rui had already contacted Jack, who was resting in the back and told him to inform Rick to take them away quickly.

On the one hand, Lin Rui does not want to expose his relationship with the sorcerers prematurely, although SHIELD may already be aware of it. On the other hand, his father is in the middle of several ordinary people in there. If SHIELD wants to investigate carefully, it may expose his true identity.

Now that Rick has taken Jack, Tom, and his father away, Lin Rui has nothing to worry about. However, he looked at the ruins in front of him and he had a feeling that he had forgotten something. Regardless of Fury coming out of the Quinjet, Lin Rui's eyes glanced around.

"Mirage Knight, what happened to you there? Is the matter resolved? Is everyone okay?" Just as Lin Rui was looking around the battlefield, Jerry's voice continued to come from the headset.

Although the communication was reestablished, Lin Rui didn't have time to reply to Jerry because things were too urgent here, which made Jerry very worried, although he showed that everyone seemed to be fine.

"Well, things are resolved, we're all right ... No, Deadpool!" Lin Rui responded to Jerry's words while looking around, and suddenly remembered what he had forgotten. It was Deadpool. When the attack suddenly rushed out of the Space Door, only Deadpool did not have time to escape and was hit by the attack.

"Deadpool!" Lin Rui rushed forward while shouting worriedly.

Huh!

Behind Lin Rui, Spiderman quickly followed as he also remembered that Deadpool had not escaped before. If they were hit by that attack, they would be dead now. However, Deadpool's mutant ability is his abnormal vitality and recovery power, maybe he is not dead yet?

Hula Hula!

Quickly reaching the ruins, Lin Rui found the figure buried in the stone that had no sound and temperature. Pulling the stone apart a few times, Lin Rui reached towards Deadpool lying face down and pulled him out. However, Deadpool seemed to be really dead at this time as there wasn't even any heartbeat in his body.

"Mirage Knight! Deadpool he ..." Peter couldn't feel any vitality from Deadpool anymore and asked Lin Rui with a trembling voice.

Pū!

Lin Rui didn't answer Peter's words, but silently took out a first-generation gene therapy Serum and injected it into Wade. Because of the particularity of Wade's mutant ability, in theory, he can recover slowly as long as he still has a few cells alive. However, if all of Wade's cells are wiped out in an instant then he would be dead unless time is reversed, only enough of Lin Rui's Reward points are exchanged from the System Shop for items that can revive the person can he be resurrected.

After the injection of the first-generation gene therapy Serum, Lin Rui pulled off Wade's hood and gave him a Low-Level Holy Spring Water. This is Lin Rui's last possession. In order to protect his parents, he had gotten it from the System Shop and put it inside his personal space and with some other things that he has taken from the System Shop, he has almost consumed the previous Reward Points.

After Wade was treated with magic medicine that ordinary people could not imagine, Lin Rui sat on the ruins with Wade in his arms and had no movement. He was carefully sensing the situation inside Wade's body to find a trace of life. However, to Lin Rui's disappointment, neither Beginner Gene Therapy Serum, which repairs injuries at a genetic level nor Elven Holy Spring Water, which replenishes vital breath, did what it should have done when it entered Wade's body. It seemed that Wade's dead cells could no longer absorb these substances.

"Mirage Knight, Deadpool ..."

"It's okay, let's take him back first, he just needs some time to recover." Looking up at Peter, Lin Rui replied firmly.

Although Deadpool usually looks like a fool in League of Defender and has nothing to do with Spiderman other than his silly competition to steal the spotlight, everyone knows that Wade is still a very good person in his heart. The brutal Deadpool outside only targets those who deserve it.

Lin Rui really treats Wade as a partner of his own, so in such a situation that is almost a foregone conclusion, Lin Rui still does not want to believe that Deadpool is dead.

When Wade hadn't become Deadpool, he was suffering from cancer at that time. In order to stay with Vanessa for a long time, he had been looking for the hope of survival. In order to collect the surgical expenses, he also did a mission with Lin Rui. That was also the first time Lin Rui met Wade in this world, and since then their destiny has been intertwined. No matter whether Deadpool is a protagonist in this world, Lin Rui will not let him die in front of him.

Call!

"Come on, let's go back first." Without getting a response from Peter, Lin Rui picked up Deadpool and stood up.

Then, Lin Rui walked directly to Iceman while holding Deadpool to his side. After standing on the spot and not reacting for a while, Peter quickly followed. No matter what Lin Rui said is true or not, this is not the time to show their weakness, now Spiderman is no longer that little kid who knows nothing about the world!

As Mirage Knight and Spiderman suddenly leave to dig through the ruins, Rogers and others are reminded of Deadpool. When Lin Rui comes out with Deadpool's body in his arms, everyone looks on with complicated expressions on their faces. It's easy to tell that Deadpool is dead.

Fury was still talking to Captain Rogers and he closed his mouth after seeing Lin Rui walking over while holding Deadpool's body. Today's battle is not the first time that League of Defender and SHIELD have teamed up against Hydra but this is the first time that an important person and a member of League of Defender had died. Fury obviously has to show enough respect at this time.

Regardless of the eyes of the people around him, Lin Rui walked directly to Iceman. At this time, Iceman also gathered a few X-Men members, Blink and Storm were also here.

"Blink, can you send us back first?" Lin Rui asked quietly, looking at Blink beside Iceman.

Looking at the Deadpool's body held by Lin Rui, Blink's eyes, which had always been cold, also fluttered, and then she nodded. Then, Blink drew a space door directly in front of him. Lin Rui walked in without any hesitation. Spiderman and Dark Knight also followed him. Daredevil had already walked over from SHIELD's side and followed Spiderman into the space door.

Call!

Soon, the members from the League of Defender had already left. Watching Lin Rui and others leave, the others on the Golden Gate Bridge were silent. However, the silence did not last long. Blink had opened the space door again and left with the members of X-Men.

In the end, only the Iron Man Legion and SHIELD were left on the already faltering Golden Gate Bridge.

Chapter 374 To Die So Easily?

Huh ~

Several people left with Lin Rui and several people from X-Men also left. They used to think that there were many people on the bridge but after they left, the bridge became empty again. With the Golden Gate Bridge that was blown into ruins not far away, the rest looked a bit dull.

"Since they are all gone, I should also go. Director Fury, I think your intelligence department really should be upgraded seriously." After glancing at the people around him, Tony said lightly.

"J.A.R.V.I.S, let's go." Before Fury could reply, Tony had driven Iron Man to the sky and left.

Howl! Howl!

Behind Tony, hundreds of Iron Man Armor lined up rushed into the sky in an orderly fashion and soon disappeared from everyone's sight.

Looking at the background where Tony left, Fury suppressed the fear in his eyes. Tony is still friendly with Fury, and SHIELD doesn't have to push too hard for his co-operation. But, as Tony said before he left, SHIELD intelligence really needs an upgrade.

"Captain Rogers..." There are no outsiders now, and Fury turns to look at Rogers to ask some questions.

However, Rogers raised his hand and did not wait for Fury to finish. "I'll give you a full report on today's fight when I get back. Now, I want to go back and rest."

After interrupting Fury, Rogers directly walked to the edge of the Golden Gate Bridge, where a Quinjet hovered. Walking into the Quinjet, Captain Rogers directly ordered the pilot to leave.

Call!

Watching Rogers walk into Quinjet and then leaving, Fury's face was filled with helplessness. Captain Rogers left alone, and the rest of the Avengers has not left yet. For example, Hawkeye, Falcon and Black Widow are still around Fury.

However, when Fury turned towards them, he found that Falcon had opened his back wings and flew directly to a Quinjet in midair. As for Hawkeye, he took out another arrow and shot it directly at the Quinjet. The rope attached to the tail of the arrow pulled Hawkeye up.

In the end, there was only Black Widow Natasha left by Fury's side. Looking at Black Widow, Fury didn't know what to say.

"Don't worry, they had just experienced a very bad fight, they will be fine once they rest." Seeing Fury looking at her, Natasha said with a smile. As a Secret Agent who worked under Fury from the beginning, Black Widow was obviously calmer than the rest of the Avengers.

"Well, I hope so. Let's go. It's useless to stay here anymore. Let the logistics team carefully check the area again!" Nodded, Fury turned and was ready to leave.

Kakaka!

Rumble!

Just as Fury turned around and was about to leave, the Golden Gate Bridge, which had been torn by countless attacks, suddenly made a crackling sound. Then, with Fury turning back to look at it, the ruin collapsed completely.

The Golden Gate Bridge, a landmark structure in New York, a super-scale building that has experienced many large-scale events in history, was directly broken off at the most central position, with a distance of about thirty meters, it all collapsed. All the ruins sank into the Golden Gate Strait below. Seen from mid-air, the Golden Gate broke directly from the middle. Fortunately, only the deck was broken. If even the cantilever beam was broken then the entire bridge would have to be abandoned.

Fortunately, Fury was standing a little further away, otherwise, it would have been a little dangerous for him. However, at this time, Fury is no longer thinking about danger, the Golden Gate Bridge is destroyed and this would be blamed on SHIELD.

"Let's go!" Fury's eyebrows twitched a few times, finally, he said quietly.

...

The fighting on the Golden Gate Bridge side ended, causing the League of Defender members to be wounded, and Deadpool's life and death were unknown; Avengers also suffered a lot of injuries. X-

Men's Iceman was seriously injured due to him overusing his abilities; the result was the destruction of the Golden Gate Bridge.

As for Hydra, several upgraded Winter Soldiers were taken away, hundreds of robots were destroyed, controlled Mutants also died. Quicksilver and Scarlet Witch escaped, and finally, the space door was destroyed. It can be said that this time neither side took advantage.

However, at this time in a secret underground base of Hydra in the western United States away from New York, Red Skull was staring coldly at the mess on the outside square. When the space door was destroyed in the end, some of the power of the explosion rushed through the space door, directly destroying the machine that stabilized the space door from here, and the explosive power affected also destroyed the square and destroyed a lot of their base structure and equipment. Some Hydra researchers are also missing.

The attack plan under the guise of attacking Mirage Knight's parents was originally planned by Red Skull to show the world the powerful strength of Hydra. The original plan of Red Skull was to take away some important persons with the help of Magic Cube. However, in the end, Lin Rui teamed up with SHIELD and X-Men, and his plan was killed in the cradle.

If Hydra was a powerful Global Organization before Red Skull appeared, Hydra's power has doubled since Red Skull appeared. Hydra has many secrets in the hands of Red Skull, such as Space Infinity Stone.

Red Skull thought that the power of Magic Cube was enough to kill those who claimed to be heroes, but he didn't expect to be beaten back in the end, which made him hate these heroes.

Kakaka!

"League of Defender! SHIELD! Avengers! X-Men!" Red Skull is now in a state of extreme anger and his hands on the armrest of the chair crack it.

Boom!

Finally, the iron chair armrest was crushed by the Red Skull.

"Next time! You won't have such good luck next time!" Red Skull spoke hoarsely as he looked at the Magic Cube that was carefully put out.

...

Whether Fury in the SHIELD is upset by Rogers' attitude and the destruction of Golden Gate Bridge, or Hydra's Red Skull is angry at the destruction of his scheme, Lin Rui has returned to the League of Defender base with Deadpool in his arms.

Call ~

Carefully placing Deadpool on the couch, Lin Rui stood beside him quietly without talking. Jerry wanted to ask something, but after seeing everyone's silence and Deadpool's appearance, he also went silent.

Finally, after five minutes of silence, Daredevil broke the silence, "Should I inform Vanessa? After all, she is Deadpool's girlfriend."

In Daredevil's eyes, Deadpool was dead. Daredevil was famous for his strong sense of induction, but he can't feel any vitality from Deadpool. So, even if he didn't want to admit this result, Daredevil was the first to propose it.

"No, Deadpool is okay, he will definitely recover, but it will take a little time. Even if his own recovery power doesn't play any role in this, I have a way." Lin Rui shook his head and replied when he heard Daredevil.

Even with the facts in front of him, Lin Rui doesn't believe that Deadpool with Marvel's protagonist aura will die. Even if Deadpool does die, Lin Rui will save him. Whether it is to ask Ancient One to use the Time Infinity Stone to reverse the time or to complete the Mainline Quest and get a large number of Reward points to redeem the resurrected items from the System Shop, Lin Rui will save Deadpool.

"Mirage Knight, you ..." Hearing Lin Rui, Daredevil wanted to say something. In Matt's view, Mirage Knight just couldn't accept the result of the death of his partner.

Call!

However, just as Matt was trying to persuade him, Lin Rui stopped him with a wave of his hand. Then, Lin Rui throws himself directly at the Deadpool, carefully attaching himself to him.

"Haha! I knew it! Deadpool, how could a man as cheap as you die so easily!" After a while, Lin Rui suddenly stands up with laughter and shouts excitedly.

Chapter 375 Post War

Seeing Lin Rui burst out laughing and standing up, and hearing his words, Peter and others became excited and went to the Deadpool one by one. However, after spending time with Deadpool, neither Daredevil nor Peter feels that Deadpool is alive. So, once again, they look at Lin Rui in confusion.

"Relax, Deadpool is all right, he will recover soon, but it will take a little longer." Knowing that Peter and others were worried about Deadpool's situation, Lin Rui waved his hand and answered.

Originally, Lin Rui could not detect anything by virtue of his sense of power, but he has the system, Lin Rui of course let the system directly check the current situation of Deadpool. Although the sub-system that has always had its own consciousness has not been resurrected, Lin Rui can also let the main system help him do small things without paying any Reward points, which are also some of the functions that it had slowly developed recently.

For example, Lin Rui let the main system check Deadpool's status. As a result, he found that Deadpool did not die completely and there was still a trace of vitality remaining in his body. Although this vitality is dead for anyone and normal people would die, it is different for Deadpool. As long as there even a little trace vitality left in his body, he can survive. This is Lin Rui's confidence in him.

"Mirage Knight, are you sure? You are not lying to us!" Peter stared at Lin Rui seriously.

Peter was really worried that Lin Rui couldn't accept the result of Wade's death and he is saying this deliberately. Perhaps Lin Rui is blaming the death of Deadpool on himself. But Peter was overthinking about it. Even if Lin Rui was feeling really guilty, he would not lie because he was too sad.

“Do you think I’m lying to you?” Although Peter’s mask was not removed, Lin Rui heard something from his tone, so he asked.

“Uh.....”

“Deadpool is really okay, did you forget what his Mutant ability is? Believe me, he will recover, he just needs some time. Let him rest in the base during this time, give him regular injections of Gene Recovery Serum, it should help him recover quickly. As for Vanessa, let Weasel explain the situation to her and tell him to tell her that we have another mission recently.” In order not to worry everyone, Lin Rui explained carefully.

Hearing Lin Rui’s serious words, Peter and the other members of the base looked at each other and they could only believe in Lin Rui’s words. After all, Mirage Knight is not a liar, he might have a cure for Deadpool.

“Okay, now that you are so sure, let’s move him to a more comfortable place.” After looking at the situation, no one responded and finally, Harry spoke first.

Then, a few people carefully moved Deadpool to a quiet location behind the base where Jerry was supposed to rest and have a bed. After all, the League of Defender base, where Jerry is usually based, is just right for the Deadpool.

Call ~

After arranging Deadpool, Lin Rui and his friends all sit on their respective sofas exhausted. Today’s battle is the hardest and most dangerous they have ever experienced, and everyone faced the threat of death. Although they survived, they were under a lot of stress, both physically and mentally, and Harry suffered some minor injuries.

Originally Jerry was going to ask what they encountered today, but after seeing Lin Rui and others so tired, he didn’t say anything. After serving each of them a functional drink, Jerry sat back and looked at these heroes who guarded their city today.

Since joining the League of Defender, Jerry has really felt what kind of danger these seemingly powerful vigilantes are dealing with at ordinary times. In the past, Jerry knew that Mirage Knight had been exposed to things that were totally out of the ordinary, but only through his own experience did he realize their hard work.

However, except for Deadpool, there seems to be one less person. It’s Jack. Jack didn’t come back with Mirage Knight. Did he go back to Frankenstein Family? That’s right, although it’s safe here, it’s not as comfortable as its in his own family. Just when Jerry looked at each member of the League of Defender, he suddenly discovered that there was one Jack missing.

Buzz ~

Just when Jerry was thinking about where Jack had gone, Lin Rui’s cell phone on the coffee table suddenly shook. Although it is known that there will be many things to deal with after today’s battle, Lin Rui really didn’t have much thought to deal with the follow-up matters at this time, especially since this call must be from SHIELD. However, Lin Rui picked up the phone and looked at who was calling.

Lin Rui's eyes brightened when he scanned the caller ID on the phone, it is not the expected SHIELD call but it is a call from Rick. Lin Rui was so nervous just now about Deadpool that he had neglected his dad and Jack and Tom. It's also because Deadpool's "death" hit Lin Rui too hard, otherwise, he wouldn't have forgotten these things.

"Rick, are you okay over there?" Lin Rui quickly asked after answering the phone. Before the fog dissipated, Rick had taken away the ordinary people and the injured Jack and the few Winter Soldiers who were stunned. At this time, they should have been safe.

"Yeah, I'm fine. David was a little bit injured, but he will get better soon." Hearing Lin Rui's words, Rick replied in a low tone.

This time, both Rick and David have appeared as sorcerers, and David had almost died. Although Rick didn't take action in the later battle to protect the injured David, Jack, and Lin Hai, he also felt the power of Infinity Stone space.

Therefore, after this battle, Rick and David lost the last point of arrogance as the earth guard sorcerers. This world is far more complicated than they had thought. The threat they have been facing in a different world is just one of the dangers the earth is facing.

"I'm sorry to have brought you in this time, but I have no other choice. Thank you, I will return this favor to you in the future." Lin Rui said sorry when he heard Rick.

Lin Rui is also worried about David's injury and this time he really took the sorcerers too deep this time. Although Lin Rui had already notified Jack that they must leave as soon as the fog had disappeared, Rick must have been noticed by some people.

"Needless to say, Mirage Knight, it is also our responsibility to protect civilians. Although we are not responsible for this attack, we are happy to help. Besides, I told the Ancient One about this incident, and he didn't blame us." Rick doesn't feel the need to listen to Lin Rui's apology. However, the attitude of "Ancient One" surprised David and Rick after they had reported this situation to him. Ancient One has no problem with Rick and David interfering in the internal affairs of Earth and he does not seem to care much about their identities being revealed.

"Then thank you, by the way, how are those civilians and Jack?" Since Ancient One already knew about the matter and had nothing to say, Lin Rui would no longer remain apologetic and then asked.

"Well, those civilians we have handed over to the nearby police. As for Jack, he is now by my side. However, he doesn't seem to trust us very much and he has been reluctant to tell me where your base is." Hearing Lin Rui's words, Rick then answered.

"Uh ... Rick, can you give Jack the phone, I will talk to him."

...

Chapter 376 Heavy Heart

A few minutes later, in the open space inside the League of Defender base, a rotating aperture made of golden light appeared out of thin air. In front of the surprised eyes of Peter and others, the aperture

formed a stable Space Door. Through that golden aperture, Peter and others can see the situation on the opposite side of the Space Door.

If it wasn't for Lin Rui's warning them in advance, Peter and others would have already attacked the moment the Space Door appeared, the Space Door of Hydra before has brought them a lot of psychological pressure and has created its own shadow in their minds.

Huh ~

When the Magic Space Door was large enough, Jack with a surprised look on his face came out of the inside first, followed by Rick. Originally Rick didn't need to come over, but Lin Rui said there was something he need to to give him, and it was something that would be helpful to David. In addition to Jack, Tom and other Hydra's Upgraded Winter Soldiers are still in New York Sanctum, and Lin Rui needs them to move in.

Jack coming out of the Magic Space Door looked around in surprise, he looked carefully, as if to see if he had really crossed over the space. When they saw Jack, who was seriously injured before and now he could move around with a smile, everyone was relieved. It seems that the Gene Therapy Serum works well for Jack's injury.

"Rick, these are two doses of Gene Therapy Serum, which should help elevate David's injury. I'm sorry to have brought you in this time and caused David to get injured." Walking towards Rick, Lin Rui directly took out two doses of Gene Therapy Serum and handed it to him. The sorcerers are also humans, and their genes are the same, so these Gene Treatment Serum should also treat David's injuries.

"Thank you, I will bring your apologies to David. Besides, we're not cheap people." Taking the Gene Therapy Serum, Rick said with a smile.

"Well, anyway, I would like to thank you for what you did this time. If there is anything that you need help with in the future, I will definitely do my best."

"Relax, we won't stand on ceremony when that day comes. By the way, what are you going to do with those people?" After a few words, Rick pointed towards the Space Door behind him.

In the direction pointed to by Rick, through the Space Door, Lin Rui could see six upgraded versions of Winter Soldier lying on the ground of New York Sanctum.

"I'll try my best to see if they can recover to normal." Lin Rui answered with a responsible look in his eyes when he saw Tom lying on the ground.

Next, Lin Rui walked directly through the Space Door and brought Tom over. Seeing Lin Rui's movements, Peter and Daredevil also passed through the Space Gate and brought the remaining Winter Soldiers to their base. Although the Space in the League of Defender's base is not very large, these people do not require beds and they could simply be put on the ground without occupying much space.

"Thank you, Rick." After moving everyone over, Lin Rui thanked Rick again.

"It's okay, then I'll go back. David is injured and he still needs my attention." Without staying at the League of Defender base, Rick continued.

"Well, bye, Rick."

“Goodbye, Mirage Knight.”

Buzz!

Finally, Rick directly left from the Magic Space Door behind him. In the eyes of the other members of the League of Defenders who continued to be surprised, the golden aperture slowly disappeared, and the Space Door also disappeared.

Huh!

“That was real magic! That was a real portal!” Jack reached out and touched the spot where the Magic Space Door had disappeared just now and grunted in surprise.

“Didn’t I tell you long ago, there is magic in this world, do you finally believe me now that you have seen it with your eyes?” Lin Rui said angrily after seeing Jack.

Call ~

“I believe it, of course, but it’s just shocking to see it with my own eyes! Are they really just ordinary people? Can anyone master this kind of power through learning?” Jack has already sat back on his sofa as his injuries are still not healed and he can’t move around.

However, Jack is really curious about the power of sorcerers. After seeing the means of sorcerers with his own eyes, Jack had a thought in his heart that wanted to learn this special power. After all, Jack is now the worst member in the League of Defenders. He doesn’t want to drag his teammates in any future action.

“They were indeed ordinary people. However, if you want to learn magic, there are requirements. Although I don’t know the specific requirements, they should be very strict.” It was obvious at a glance that Jack wanted to learn magic, and Lin Rui answered. Of course, Lin Rui will not stop Jack from learning magic, but this thing depends on talent. Lin Rui’s own talent in magic is quite worse.

“Okay, next time you see that sorcerer, can you help me ask if I can learn magic?”

“Okay, I’ll ask for you.”

“Oh, what about Deadpool?”

“He was injured and he is still in a coma, but he will be fine.”

“That’s good.”

Jack returned and chatted briefly with everyone, and then everyone was silent again. Part of it is that everyone is injured and needs to rest after the battle, and part of it is that the strength revealed by Hydra has put a heavy stone on everyone’s heart. As for Lin Rui, he did not say anything after checking the situation of Tom and other Winter Soldiers. It seems that he also felt the depression of the atmosphere.

If Hydra still retains such a strong strength, it is really not something that the League of Defenders can completely eliminate. Even working with SHIELD and X-Men, they would find it extremely difficult to eliminate them.

Lin Rui also felt the weight of everyone's heart, but the pressure in Lin Rui's heart was even heavier than others. After all, he may be the only person who knows that the Space Infinity Stone is in Hydra's hands. Only Lin Rui knows how powerful the Space Infinity Stone is. The space-based attacks like today should be just a part of the technology that Hydra got from the Space Infinity Stone. Perhaps they have more powerful weapons in their hands.

Without thinking of a way to deal with the Space Infinity Stone, Lin Rui didn't want to say anything about it to discourage his partners, who were already under a lot of pressure. Therefore, Lin Rui thought it would be better to let them go back and rest. Moreover, Lin Rui is also thinking about the dangers that the earth may encounter in the far future.

Papa ~

"Everyone, go back to rest today. Let's take care of our injuries and discuss the matter about Hydra together next time. Don't worry, I have some knowledge of what Hydra took out today. I will explain it to you next time. Standing up from the sofa, Lin Rui clapped and said to everyone.

"Well, we are all tired today. Let's go back to rest first." After Lin Rui stood up, Harry also stood up and said.

Huh ~

Behind Lin Rui and Harry, Peter and Daredevil also stood up. Jack didn't stand up, he had to rest a little longer. After saying goodbye to others, Daredevil was the first to leave the League of Defender base.

Before Lin Rui could leave, he checked the situation of Tom and the other Winter Soldiers again to make sure they would not wake up in a short time. For security reasons, Lin Rui also put Adamantium Alloy handcuffs and anklets to bind them.

"Jerry, take good care of Deadpool and these people. I should be back soon." After that, Lin Rui and Jerry bade farewell to each other and Lin Rui left with Harry and Peter. It's not that Lin Rui isn't worried about Tom, but that he is more worried about his parents now, and he needs to go home to see them.

After leaving the League of Defender base, Lin Rui, Peter, and Harry quickly became three normal high school students. However, all three people are now injured to varying degrees, of which Harry looks the most serious. However, their injuries are very mild and do not affect anything they do.

"Jackson, do you really understand Hydra? Do you really know about the Space Door they revealed today, the Robots, and that last attack?" On the way home, Peter frowned and finally looked at Lin Rui around him and asked.

It's not that Peter didn't believe Lin Rui's words as Lin Rui also told Peter about the strength of Hydra before, but he didn't mention these weapons at that time. This shows that the strength of Hydra has completely deviated from Lin Rui's expectations.

"Hoo! I'm not sure now. However, I do know why their strength is so different from what I know. If we have a way to get that thing, we may be able to eliminate Hydra completely." Hearing Peter's words, Lin Rui answered in a deep tone. Because of the appearance of the Space Infinity Stone, Lin Rui can't really guarantee anything.

“What?” Peter and Harry asked curiously when they heard Lin Rui mention something.

“The Magic Cube!”

Chapter 377 Infinity Stones

“Magic Cube? What’s that?” Peter and Harry were puzzled when they heard such ordinary words from Lin Rui’s mouth. They certainly didn’t think that the Magic Cube that Lin Rui said is the kind of ordinary Magic Cube they usually play with. If this Magic Cube can make Hydra have such a strong strength. It is definitely not any ordinary Magic Cube.

“Magic Cube, this is what the earth people call it. In fact, that thing should be called an Infinity Stone and more specifically, the Space Infinity Stone.” As he said, Lin Rui took out a normal Magic Cube from his portable space and show it to them.

Looking at the ordinary Magic Cube in Lin Rui’s hands, Peter and Harry were puzzled. For something they had never heard of, they could not understand by themselves if Lin Rui did not explain it carefully.

Call ~

“The world we live in is endless. There are many other civilizations in the universe besides our earth civilization. I think you already knew this already.” The Magic Cube in Lin Rui’s hand was thrown to Peter and he continued.

“Well, we certainly know this. And, we should be the people who know the most about extraterrestrial civilizations on earth. After all, Venom is an alien creature, and that Demon clearly did not belong to this world, nor is that guy Thor.” Harry heard Lin Rui’s words and then answered. Although they haven’t seen or heard of such things before, they are already familiar with it after their own experience.

“It’s a lot easier for me to explain when you know full well that there are countless civilizations in the universe. After all, there are some things that are completely incomprehensible to the average person.”

“Okay, explain what that Magic Cube is. Listening to you, this Magic Cube should be a very important thing, at least it can suddenly increase the strength of Hydra several times.” Playing with the Magic Cube in his hand, Peter asked.

“Magic Cube, which is roughly referred to as Infinity Stone in other civilizations of the universe. And there’s more to Infinity Stone than that. As far as I know, there are six Infinity Stones, which are singularities leftover from the Big Bang that created our universe.”

“The six Infinity Stones have six attributes to them, namely Space Infinity Stone, Time Infinity Stone, Mind Infinity Stone, Reality Infinity Stone, Soul Infinity Stone, and Power Infinity Stone. Each Infinity Stone has unimaginable power and that power is related to their respective attributes, and Hydra has the Infinity Stone with Spatial attributes.”

After Peter’s questioning, Lin Rui slowly explained to them the bug-level item in Marvel World, the Six Infinity Stones, as long as they have one, they can be considered invincible. Of course, you must have a body that can withstand the power of Infinity Stone in order to play their role.

But the average person can't bear the strength of an Infinity Stone at all, and they could only use them at a very low level. Just as the Hydra used the power of Space Infinity Stone to attack Lin Rui, if the Hydra could fully use the power of Space Infinity Stone, Lin Rui would not have been able to stop them.

Card ~

After listening to Lin Rui's explanation of Infinity Stones, Peter's Magic Cube was crushed by him. It seemed that Peter was still worried about the news. Not only was Peter, but Harry's eyes were also wide.

"Why the hell is this thing on earth? How can the civilization of the earth control such a world-destroying thing!" Peter asked with a grave expression on his face, squeezing the Magic Cube fragments tightly in his hand.

If Hydra has this top-level item in the universe with them then they could just surrender now as there is no way in hell that the League Of Defenders can do anything against that thing. Although Lin Rui only talked about the origin of Infinity Stones and did not specifically say what they can do, this name alone is scary enough. This is a thing that was left after the Big Bang, and it's okay to say that they can shape the world.

"This ... I do n't know. Maybe there's something special about the earth. But the Space Infinity Stone is not the only one on the earth, you will find that the earth is a very amazing place, it will attract a lot of powerful people to the earth, which is why I want to establish an Earth Federation. Seeing Peter's grave look, Lin Rui responded helplessly.

Marvel World was originally a world with the earth as a center of it. It's not surprising that something terrible appears on the earth, but Lin Rui can't explain this to Peter.

"More than one ..." Upon hearing Lin Rui's words, Harry had been shaken countless times beside him.

"So, Jackson, do you really have a way to deal with Hydra? Or, do you have a way to deal with that Space Infinity Stone?" After taking a deep breath, Harry stared at Lin Rui's eyes and asked seriously.

"Yes! Jackson, you said there was a way to do it at the base! Is there really a way to do it?" After Harry asked, Peter suddenly remembered something and looked at Lin Rui and asked.

Faced with questions from his two best friends, Lin Rui was also under great pressure. Because the story is completely messed up at this time, Lin Rui doesn't know what will happen in the future, and what Hydra can do with the Space Infinity Stone. However, compared to others who are helpless about this kind of thing, Lin Rui still has some means.

In fact, the most direct method is if Lin Rui invited Ancient One with him, with Ancient One's help, this matter would be easy to solve. At least, Lin Rui had just said that there is more than one Infinity Stone on the earth. Another one, the Time Infinity Stone is guarded by the Earth's Sorcerers and it must be in the hands of Ancient One.

If Lin Rui can call Ancient One, Hydra will not be able to do anything against the Ancient One, who also owns an Infinity Stone. However, the last meeting between Lin Rui and Ancient One was obviously not very friendly. Ancient One should be observing Lin Rui and it is unlikely that he would intervene in this kind of thing.

Another way is to help Thor regain his ability in a short time, Thor in his full power should be barely enough to deal with the Space Infinity Stone. After all, Thor is a god, and he would not be killed by the power of the Space Infinity Stone.

However, Lin Rui is still helping Thor slowly develop his sense of responsibility. It is not yet clear when Thor can meet the requirements set by Odin before regaining his abilities. This is a very uncertain thing, and Lin Rui cannot expect this to pan out in time.

In other words, Lin Rui can only hope that Hydra has only developed a small part of the power of Space Gem. If the space attack encountered today is already Hydra's strongest card, this battle can still be played.

After all, Lin Rui's teammates are all people with a protagonist aura in Marvel World, and they should have a fatal bonus against villains like Hydra. Just like Deadpool, he was hit today and should have died but he was still alive, this is obviously the luck in the dark protecting him.

"I have a solution, but I'm not sure about it!" Lin Rui replied bitterly in the face of his friend's question.

Chapter 378 Going Home

Finally, Lin Rui and the other two did not say much on the road. After all, this matter involves too much. Even if Lin Rui wants to deal with Hydra, he needs to discuss it seriously with SHIELD and X-Men first.

As for the matter of Infinity Stone, Lin Rui did not intend to hide it, he will let others know the importance and danger of Infinity Stones so that they will pay enough attention to it. Lin Rui is quite aware of Earth's danger attracting attributes. He has to accomplish his great goal before the coming great disaster.

"Okay, I should go home to see my parents. They must be terrified today. I will see you guys at the base next time." Two blocks from his home, Lin Rui looks at his two friends and said.

"Well, Jackson, just say it when you need us. I'll be happy to visit Uncle Lin and Aunt Mary." Embracing Lin Rui with open arms, Harry said seriously.

"Hey! And me!"

"Relax, I won't be polite with you if such time comes." Lin Rui hugged Peter and Harry tightly and moved towards his home.

"He is gone!"

...

Lin Rui's parents, Lin Hai and Mary, who had experienced Hydra's attack today were sitting on the living room sofa with a worried face and leaning on each other. From their eyes, one could clearly see the worry in their hearts at this time.

Lin Rui's family home now has many police officers in addition to their parents, including SHIELD's foreign affairs team and the special department of the US government that deals specifically with the Mutants attack. Today, the attacks on Lin Hai and Mary came from Hydra. This is the secret that SHIELD only knew, but other people don't know that and they are here to investigate it specifically.

And just when the New York police wanted to investigate carefully, SHIELD's Foreign Affairs Section team appeared to claim that they had taken over this matter and asked them to withdraw from the incident. Although this makes the New York police uncomfortable, SHIELD has always behaved like this, and whoever calls them has great authority.

As for the department that came specifically to investigate the Mutants attack, it was quickly returned by SHIELD. Although their authority was higher than that of the New York police, it was not as good as SHIELD. Moreover, Mary also knew that Iceman saved her, so she didn't talk too much about Mutants, so the department investigating Mutants had to quit.

In the end, Lin Rui's family home was only filled with SHIELD's Foreign Affairs Department and they began to ask questions to Lin Hai and Mary. When Lin Rui hurried back to his home, he saw a large number of police officers and some personnel from a special department leave their yard.

Huh ~

Looking at the people who left, Lin Rui moved faster, almost rushing directly into the living room. Lin Rui was really relieved when he saw his parents sitting on the sofa.

"Gentlemen, we have answered all your questions. So, can you tell us where my son is now? Is he safe? I am very worried about my son!" Just when Lin Rui rushed into the living room, his Dad Lin Hai began to shout loudly to a SHIELD foreign affairs staff.

Both Lin Hai and Mary were attacked today, and when the attack happened, many bodyguards appeared by their side and protected them, which made Lin Hai and Mary think about something more. Moreover, after they were rescued, they contacted Lin Rui the first chance they got but he could not be reached. At that time, Lin Rui's mobile phone was destroyed during the battle, and he did not receive a call from his parents.

Therefore, Lin Hai and Mary felt that the attack today should be directed against their own family. And the people who came to investigate after they were rescued obviously belonged to some special department, and there are more than one. The confidentiality level is higher than one, which makes Lin Hai and Mary worry about their son. Until now, Lin Rui's parents did not know that the people in front of them were SHIELD.

"Sorry, your authority is not enough." In the face of Lin Hai's first question, the staff of the foreign affairs department of SHIELD answered formally.

Jackson Lin, as a special talent on the SHIELD file, has a level of secrecy that even his parents can't be told about. Furthermore, SHIELD's foreign affairs officers also had no idea where Lin Rui was, which was their frustration. After all, SHIELD is supposed to know the whereabouts of this particular candidate. They can only assume that Tony knew about the Hydra attack and protected Jackson Lin in advance. After all, it was Tony Stark who arranged for Lin Hai and Mary to be accompanied by bodyguards.

However, what makes the foreign affairs team of SHIELD feel a little easier is that just a few minutes ago, they have found Lin Rui, just outside this street. It was as if he had appeared out of thin air, it also showed how poor the monitoring technology of the SHIELD Foreign Affairs team was.

“Dad! Mom! Are you okay?” Just after Lin Hai had just finished asking, Lin Rui had walked through several SHIELD foreign affairs department personnel who were standing in front of him and asked with a concerned voice in front of his parents.

Call!

“Jackson!” Lin Hai and Mary both hugged him excitedly when they saw their son appeared in front of them without any injuries.

“Are you okay! We are all worried about you, we couldn’t reach you on your phone and we couldn’t even reach Peter and Harry! Where have you been? Were you under attack?” After carefully checking whether Lin Rui was injured or not, Mary fired a series of questions towards Lin Rui.

For Lin Hai and Mary, Lin Rui is the most important thing in their lives. They have been attacked and they were worried that Lin Rui would also be attacked and they were worried that he would be injured. Fortunately, Lin Rui has cleaned himself up at the base. Some of his minor injuries are now completely invisible. The most obvious wound on the forehead has been covered up to ensure that his parents cannot see it.

“Mom, Dad, I’m fine, don’t worry about me. Also, I cannot tell you some things right now but I promise that I will give you an explanation.” Lin Rui also carefully checked the physical condition of his parents to ensure their safety and spoke seriously.

What happened to his parents this time made Lin Rui aware that when Hydra was not completely eliminated, he could no longer let his parents know nothing. Moreover, as a special person on file with SHIELD, his family must be specially monitored. Lin Rui also needs to tell his parents about these situations.

But, of course, these things are to be said when there is only one family left. Lin Rui now has a few more SHIELD agents on his back, and he needs to get rid of them first.

Reassuring his parents, Lin Rui had stood up and turned to face the SHIELD Foreign Affairs Branch members behind him and looked at them with a calm expression on his face.

“Hello, Mr. Jackson, I am Vyell from the Department of Foreign Affairs of SHIELD.” Seeing Lin Rui had already stood up, the man in the suit who had answered Lin Hai’s question came to Lin Rui and reached out with his hand.

“Hello, I am Jackson Lin. Obviously, you know who I am. So, why don’t we keep it simple?” Lin Rui asked quietly, looking at the person who claimed to be Vyell.

Chapter 379 “Confession” to Parents

...

Seeing Lin Rui speaking so calmly and hearing his dull voice, Vyell was surprised.

“I have learned from Mr. Stark about the attack on my parents, and I also know that some things are classified.” Holding out his hand to give Vyell’s hand a simple shake, Lin Rui says calmly.

“Uh ...” Not expecting Lin Rui to be so direct, Vyell was a little confused.

“I asked Mr. Stark to arrange for those bodyguards to protect my parents as I was concerned for my parents’ safety because some of our recent experiments threatened that organization. Also, I don’t know who’s appeared in the attack but maybe Mr. Stark will know and you can ask him if you want to know more. As for the rest, I can assure you that neither I nor my parents will say anything about it.” Without waiting for V yell to say anything more, Lin Rui continued. In addition, Lin Rui inadvertently released some of his own momentum and mental interference at this time, and then put out Tony’s name, which is enough for these people to know his attitude.

“Uh ... I know, then, we won’t disturb your rest. Mr. Jackson, you are very good.” Under Lin Rui’s tough attitude and mental interference, Agent V yell was confused and continued.

Originally, V yell was not prepared to get any news from Lin Rui. Anyway, SHIELD headquarters has already begun to study why Hydra has such advanced technology and its last powerful weapon. This kind of investigation of victims is just a routine matter.

Although it was Jackson Lin’s parents who were attacked, there is no need to make any fuss. Now, SHIELD’s top priority is Hydra. Moreover, Jackson Lin and Tony have done many important experiments, and SHIELD will not touch him. As for the reason given by Lin Rui, there are loopholes, but it is quite reasonable. There is no need for SHIELD to delve into it.

“Thank you for your cooperation. I will say to Agent Coulson that your work is well done.” Lin Rui said to V yell with a smile as he saw V yell had begun to direct his men to pack up and leave.

“Well, bye, Mr. Jackson Lin.”

“Goodbye.”

Two minutes later, the SHIELD Foreign Affairs Department team had packed everything and left Lin Rui’s house. The living room, which was still crowded a few minutes ago was only left with Lin Rui’s family of three, and Lin Rui’s parents are now staring at their son with slowly surprised and puzzled eyes. At this time, Lin Hai suddenly found that his son was a little strange as if there were many big secrets in Lin Rui.

“Hoo ~ they are finally gone.” As he watched SHIELD’s people leaving, Lin Rui whispered.

Then, Lin Rui turned around because he knew that his parents must be looking at him with particularly strange eyes, which was the last thing Lin Rui wanted to see from his parents. So, when Lin Rui turned around, he really saw his parents’ eyes with some worry in them.

Call ~

In front of Lin Rui’s parent’s eyes, he dragged a stool from the side and sat in front of his parents. Lin Rui knew that today he would not be able to hide this, so if this is the case, he will tell his parents, so that if similar things happen in the future, his parents can be prepared.

“Okay, Mom and Dad, if you have anything you want to ask, just ask. But you also heard what I said to that V yell. Some things are classified, I don’t know how much I can say, but I will try to explain clearly.” Sitting in front of his parents, Lin Rui raised his head and looked at them seriously.

Hearing his son’s words and looking at his serious look, Lin Hai and Mary had countless questions to ask him. Finally, Lin Hai, the father, spoke first.

“Jackson, just now, were those people from SHIELD? That SHIELD’s SHIELD?” This is Lin Hai’s first question.

After the exposure of Captain America’s “Resurrection” event last time, SHIELD has also appeared in the public’s eyes. Therefore, Lin Hai is not too surprised to know about SHIELD, but they do not understand so much.

“Yes, they’re part of the SHIELD’s foreign affairs division, which is responsible for external events under the SHIELD’s jurisdiction. You were attacked, like today, because of the special organization of the attackers.” Lin Rui answers his father’s first question carefully. The question is simple, and there is no need for secrecy.

“Well, what’s the matter with you now? Why do you know them so well and they seem to know you so well? Also, you mentioned the level of secrecy and the experiment with Mr. Stark. What exactly are you doing now?” After the first question, Lin Hai apparently started asking more pointed and specific questions.

After Lin Hai finished speaking, both he and Mary stared at Lin Rui seriously, trying to get an explanation from him.

“Okay, I will answer your questions one by one. First of all, you know I’ve been working with Mr. Stark for a long time. Actually, Mr. Stark and I are doing more than just small things. We’re doing some very secret, high-tech weapons experiments. And Mr. Stark has a partnership with SHIELD, so I know SHIELD better, and they know me. “

“As for what I’m doing with Mr. Stark right now, it’s a very private matter and I can’t talk to you about it. That’s why I’m now a classified person.” After a short silence, Lin Rui begins to answer Lin Hai’s questions.

“So, what organization attacked us today? And, who was the one who saved us later?” Lin Hai asked after listening to Lin Rui’s explanation.

“The organization that attacked you is Hydra, the largest terrorist organization on earth that was exposed some time ago. This organization has always wanted to defeat SHIELD and thus dominate the world. It is because of Mr. Stark’s research that will bring them a deadly threat, so I was worried that they would take action against my family so I asked Mr. Stark to arranged for those bodyguards to secretly protect you.” Lin Rui is also prepared for this question and explained briefly.

“What about those people who appeared in the fight? The one who saved me and your mother”

“As for those who appeared later, dad, shouldn’t you know some of them?” Lin Rui asked back to Lin Hai’s later question.

“Yes, I saw Spiderman and Mirage Knight.” Although Lin Hai doesn’t care about these Superheroes or something, Lin Rui usually pays attention, and Lin Hai knows about them.

“Well, Spiderman and Mirage Knight all belong to the League of Defender. In fact, in the process of SHIELD attacking Hydra, League of Defender is also moved with them. Every time Hydra appears, League of Defender and SHIELD will also appear, so their appearance was entirely expected. As for the Mutants who saved my mother, I don’t know who it was, maybe Mr. Stark knew them.”

“Is ...” No one knew if he believed Lin Rui but Lin Hai and Mary didn’t ask anything.

“So, Jackson, are you in danger now?” Mary asked seriously, holding his son’s hand for a moment.

“Don’t worry, mother. Hydra is now being completely defeated by the SHIELD and the League of Defender, and has no time to come after us.” Feeling his mother’s worry, Lin Rui answered earnestly.

“Jackson, you’re old enough to help Mr. Stark with so many things, and I won’t hold you back. However, be sure to keep yourself safe. Also, the last time you told us you wanted us to go to Stark Industries or OsCorp, I now know what you meant. Don’t worry, your mother and I will choose the right one.” After a moment of silence, Lin Hai reaches out and holds Lin Rui’s and Mary’s hands.

“Thanks, Dad!

Chapter 380 Change

Finally, after Lin Rui explained some things to his parents, his parents gradually accepted the fact that their son was not an ordinary person. After an in-depth conversation, Lin Rui assured his parents that he would be safe and not harmed so that his parents would be completely at ease.

As for Lin Hai and Mary, after knowing these things, they are willing to work at Stark Industries. The next second his parents let go, Lin Rui called Tony’s phone and asked him to arrange work for his parents. Fortunately, Lin Rui’s parents were originally highly educated people. It is easy for them to accept these things. However, the world itself is very complicated.

“Dad, Mom, you all have a hard time today. Now let’s take a good rest first. You can rest assured that I won’t let these things happen again, Hydra is destined to disappear from this world.” Finally embracing his parents, Lin Rui said seriously about his parents.

“Well, son, you have to be careful.”

“Run if you are in danger! We can’t lose you!”

Holding Lin Rui tightly, Lin Hai and Mary said heartily.

Call ~

Then, Lin Rui sent his parents upstairs to rest, watching his parents sleep, Lin Rui only carefully returned to his room. At this time, Lin Rui finally had some time to think about what to do next. About Hydra, about Infinity Stone, about Tom, these things need to be solved very carefully by Lin Rui in the days to come.

Hydra must be destroyed, no matter whether there is a system quest or not, Lin Rui will not let such an organization that threatens the safety of his family continue to exist on the earth. The Space Infinity Stone, Lin Rui will also take it from Hydra’s hands. No matter what method is used, Lin Rui will not let such a thing that is enough to destroy the earth be placed in places where he is not at ease. As for Tom, Lin Rui currently has no good way to make him recover, he can only take it slowly.

“Perhaps, it’s time to let Fury know what we and the planet will be facing.” Thinking about it, Lin Rui had picked up the phone he just put down again.

“Jackson, how are your parents? Are they all right? How much did you reveal?” The phone was connected quickly, and Tony’s voice came from there.

Although Lin Rui had already called Tony when his parents agreed to work at Stark Industries, but Tony had not asked Lin Rui about anything in front of his parents. Now that Lin Rui has called again, it is obvious that their talk is over and Lin Rui is alone.

“They are very worried, but it will be fine. Mr. Stark, things have exceeded my original expectations. I have some important things to discuss with you.” After a simple answer, Lin Rui then said seriously.

“Is the important thing about Hydra?” Tony asked seriously when hearing Lin Rui’s suddenly serious voice.

“It’s not just Hydra, there are other things that I haven’t told you before. Also, we need to speed up the things we discussed last time, maybe we will need those things soon.”

“The last discussion, you mean the E Grade ...” Tony’s heart jumped as Lin Rui mentioned their last discussion. Except for the E Grade Aerospace Warship, Tony didn’t know what else Lin Rui could have put forward so seriously at this time.

“Yes, if my hunch is correct, maybe we will need them very much in the near future.” Lin Rui replied without changing the tone after hearing Tony.

Originally, because of the dramatic change in the plot, Lin Rui was afraid to predict anything, but the appearance of the Space Infinity Stone made Lin Rui feel uneasy. The Infinity Stone that should have appeared in SHIELD’s hand is now in the hands of Hydra, and the original plot where Loki took the Space Infinity Stone and caused the first Aline Invasion is trashed. Loki is still fighting for Asgard and he is fighting the Frost Giant and Dark Elves. It can be said that the plot has been distorted and looks nothing like the original.

Therefore, in order to make the earth and Marvel World’s protagonist unstable like in the original, the power of this world will inevitably come up with something that is not in the plot to make the earth feel pressured. This is also Lin Rui’s biggest conjecture after the appearance of the Space Infinity Stone in Hydra’s hand at this time. The earth is destined to be disaster-ridden and difficult. This is an arrangement in fate.

Although Lin Rui has been fighting against the power of the world in the midst, his current strength obviously cannot prevent such a change. Of course, Lin Rui believes that as long as he is strong enough, he can not only stop the power of the world from turning the plot, but he can also have enough strength to cope with this adversity plot.

“Got it, then come here and say it, it will be safer here.” Finally, Tony said seriously.

“Well, I’ll be there right away. And, thank you, Mr. Stark.” Before hanging up the phone, Lin Rui thanked him. Although Lin Rui had said thank you to him several times before, it is not as sincere as it is today.

In fact, this Hydra attack on Lin Rui’s parents would have very likely to expose Lin Rui’s identity, but Tony has transferred this suspicion so that Lin Rui’s parents can continue to live some normal lives.

“Haha, don’t worry about little things. If I don’t cover for you then who will?” Tony heard Lin Rui’s thanks and spoke happily over the phone.

Then, Lin Rui and Tony hung up the phone as some things can’t be spoken over the phone. Next, Lin Rui needs to discuss with Tony the next course of action.

“JARVIS, what do you think Jackson wants to talk to me about? He has always been confident, but he didn’t look confident on the phone just now.” Tony asks JARVIS at his seaside villa after he disconnects from Lin Rui.

Lin Rui even dared to do something like the establishment of the Earth Federation. This time it was only a small setback during the Hydra attack, and it should not make him change so much. Tony doesn’t believe that Lin Rui is the kind of person who backs off when he meets setbacks. Lin Rui should be the kind of person who actively faces up to difficulties.

“It is impossible to judge, Sir. Although Mr. Mirage Knight or Mr. Lin’s character is positive, but it may not continue this way. Perhaps, he encountered something he could not accomplish even if he tried hard.” Originally Tony did not expect to get an answer here, but JARVIS did give an answer and a very human one at that.

“Encountered something that couldn’t be done? It makes me wonder what this kid is going to tell me.” Tony whispered when he heard JARVIS answer.

However, after Tony muttered, he suddenly thought about something and quickly raised his head, “JARVIS, did you upgrade yourself?”

Tony has recently discovered that JARVIS’s “Intelligence Quotient” and “Emotional Quotient” seem to be slowly growing, but he has not upgraded JARVIS’s internal core system. Then, it is most likely that JARVIS is upgrading the system himself. Because things like “Intelligence Quotient” and “Emotional Quotient” are not something that an Artificial Intelligence can simply possess, Tony was surprised.

“Yes sir, I added some special code on the basis of the internal core algorithm, which also made me more human.” Hearing Tony, JARVIS “honestly” answered.

“Well, if you upgrade yourself later, please send me the code to see.” Tony didn’t worry much about the changes in JARVIS. He just thought it was better to watch what JARVIS did.

After all, Tony has long regarded JARVIS as a true friend. It is normal for friends to do something by themselves. As long as JARVIS is always loyal then there would be no problem, and the loyalty is compiled by Tony from the beginning in the core system of JARVIS and it cannot be broken through.

“So, something really difficult happened with the Jackson kid. It seems that our plans have to be speeded up. JARVIS, temporarily slow down on the other projects and focus on the S5 task and try to get it done before the trouble that Jackson spoke about arrives.” Finally, without further carrying about JARVIS’s upgrade, Tony spoke with a serious tone.

“Yes, sir.”
