

## **Marvel 521**

### **Chapter 521 Yun Meng**

Call!

With the participation of the Seventh Sorcerer, the Mirror Dimension space that could not cover the explosion range was instantly united together, and they were all closed when the explosion was about to rush out of the scope of the Mirror Dimension space.

So far, the huge Mirror Dimension space constructed by the Seven Sorcerers has completely enveloped the explosion that was enough to destroy a third of New York City.

Although the damage caused by the previous explosion cannot be reversed (unless the Ancient One is willing to use the Time Infinity Stone to reverse the time), although the damage in this area is huge, at the very least, no innocent people died.

The Special team of SHIELD, which had previously fought with the Extremis Fighters, also retreated after Tony's Iron Man army arrived, otherwise, they would have died. As for the loss of this area, Stark Industries will foot the bill Tony will definitely not mind this.

Rumble!

The Seven Sorcerers who entered the Mirror Dimension space with the explosion looked at the explosion that was spreading in front of them with serious expressions in their eyes.

Although it was already in the Mirror Dimension space, the explosion continued to spread out, and the Sorcerers did not stop it but isolated themselves in another space from the threat of explosion.

Seeing the explosion quickly rushing into the suburbs of New York in the Mirror Dimension, causing damage to countless Mirror Dimension space buildings, the Seven Sorcerers including Rick were very thankful for their timely action.

"Huh! Fortunately, we made it in time, otherwise, who knows how many casualties it would have caused!" Looking at New York City in the Mirror Dimension, which was destroyed a little and a half in front, David said to Rick beside him.

However, Rick did not respond to David but looked in another direction. In that direction, a slender woman stood alone on a tall building. This woman was the one who suddenly appeared in the air just now and joined forces with Rick and others to construct a Mirror Dimension space to save New York City, Sorcerer Yun Meng.

Yun Meng was sent out by Ancient One to investigate the relationship between Lin Rui and Thor. Yun Meng already knew the real identity of Lin Rui that day, and she also knew that he had been with him when Thor first came to the earth.

Thor became Lin Rui's friend. However, after relaying the information to the Ancient One, Yun Meng did not go back to Kamar-Taj but chose to continue traveling outside. Ancient One obviously also meant to let his excellent disciple experience more mundane things, so he didn't send another mission to Yun Meng.

And Yun Meng was attracted to New York, an international metropolis, she felt like a normal girl during this time. At first, she was initially unfamiliar with modern society but she quickly adjusted to her life in New York.

This time, Yun Meng was playing with cats in a pet studio, and instinctively noticed that there was a huge energy response in this direction. So Yun Meng, who had nothing to do, rushed over here, and at the last moment, she teamed up with the Six Sorcerers to solve the disaster.

Originally, Yun Meng and Rick arrived at about the same time, but at the time she saw two guys in need of help in the air, she drew a magic Space Portal and threw them in it.

In this way, Yun Meng's Mirror Dimension space was deployed a little later than Rick and others. As for the two guys who were thrown into the magic Space Portal by Yun Meng, they were not far away looking blindly at the area that should have been swept by the explosion.

"Sorcerer Yun Meng, did the Ancient One send you here for help?" Rick didn't respond to David beside him and he walked towards Yun Meng's side and smiled while asking.

"Ah? No, Master sent me here for another mission. I just happened to be nearby, and I came here when I saw that you needed help. It seems that in addition to taking care of the threat of another world, the Sorcerers also deal with a lot of local hazards!

After hearing what Rick said, Yun Meng, who seemed to be in a daze, immediately responded. While responding to Rick's words, Yun Meng was also feeling the disasters that have been just avoided.

"Fortunately, you were here to help us out at this time. Otherwise, it would have been difficult for us to construct such a huge Mirror Dimension Space this time. As for the destruction that has already happened, we cannot stop it, and we can only do what we should do." Rick continued after hearing Yun Meng's words.

"Yes, we just do what we should do!"

"Haha! Sorcerer Yun Meng, so you are also here in New York! Do you have some free time, I know of a very good tea shop nearby." Just as Rick and Yun Meng chatted with each other, David also came over from behind them.

Behind David, four other Sorcerers also came over. Obviously, Yun Meng is a little famous in the Sorcerer circle. Then, these Seven Sorcerers began to talk to each other staying in the Mirror Dimension while waiting for the explosion to disappear.

...

Kaka!

Pū!

Coming out of the Iron Man Armor that had been destroyed for most of it, Tony looked in a direction with a complicated look in his eyes, he looked at the place where a huge explosion should have swept half of New York City.

However, since Tony and Peter were thrown into a Magical Space Portal by a single wave, the explosion there quickly disappeared out of thin air.

Card!

“Cough cough cough!” Just as Tony looked at the distance, another Iron Man Armor lying on the ground opened, and Peter crawled out while coughing.

“Hmm? What about the explosion? Mr. Stark, where are we now?” Peter asked with some surprise in his voice after looking around for a few moments.

“The explosion seems to have disappeared. As for us, we are now about 20 kilometers away from New York and 10 kilometers away from the explosion area.” Hearing Peter’s voice beside him, Tony shook his head while staring at the direction of the explosion, and replied.

“The explosion disappeared?! How did it disappear? Also, how did we suddenly come here?!” Hearing Tony’s answer, Peter opened his mouth and shouted.

When he was in mid-air just now, Peter had been concussed by the shock wave of the explosion. When Yun Meng appeared, Peter only caught a shadow of her figure, and then he was thrown into the Magic Space Portal and fell here.

Peter, who didn’t know much about the Sorcerers on Earth, hadn’t thought of what happened, but Tony had probably already guessed as to what had happened.

“It should be those Sorcerers who made their move. Just now a Sorcerer rescued us. As for the explosion, I think they should have transported it into the Mirror Dimension. You should remember the first time you saw those Sorcerers.” Seeing Peter’s bewildered look, Tony explained a few words.

“Sorcerers? Was it them? No wonder! But why did they appear here? Jackson said to me before that these Sorcerers have their own rules.” Hearing Tony’s explanation, Peter suddenly asked.

Hearing Peter said that Sorcerers had their own rules, Tony smiled silently in his heart. Tony still remembered that he had taken advantage of the Sorcerers named Rick and David before. At that time, they seemed not to abide by the Sorcerers guidelines.

“JARVIS, can we still fly?” Although there was some speculation in his mind, Tony wanted to see it with his own eyes, so he turned back and asked JARVIS

“Yes, sir.”

“Okay, let’s go over there and take a look.”

Brush!

Ten seconds later, the two Iron Mans, who looked to be in a bad condition, rose into the sky again and rushed towards the location of the explosion.

## **Chapter 522 Frightened**

When Tony and Peter flew over again, they could only see a large ruin that seemed to have experienced a nuclear explosion. With this industrial park as the center, all the buildings within an eight-kilometer

radius were completely destroyed, and the ground was devastated with black scorched earth and huge cracks.

From a high altitude, this area looks like a huge crater that was formed by a huge meteor, but the meteorite disappeared inexplicably.

Huhu~

“Mr. Stark, this...” Levitating in the air and looking at the ruins below, Peter looked at Tony beside him. Although the explosion has disappeared, the damage caused is not small at all. However, compared to Tony’s previously predicted loss, this result is now the best.

“Don’t worry, I can bear such a loss,” Tony replied calmly when he heard Peter’s words.

However, Peter couldn’t see how tangled Tony’s expression was hidden in the Iron Man Armor. Stark Industries is indeed rich, and Tony is also one of the world’s richest people. However, Stark Industries is now in a transitional stage and they have lost the huge profits of the military industry.

If Stark Industries, which has only started a new type of business in clean energy, continues to do this for Tony, it will really fall into a financial crisis. The Iron Man Army Tony list today would require a large amount of money not to mention the damages today’s fight has brought!

Oh oh oh!! Woo~~~

Just as Tony and Peter hovered over the ruins looking for the entrance to the Mirror Dimension Space, the sound of sirens and ambulances came from far and near from the edge of the ruins. Almost half of the people in New York noticed the violent explosion that occurred here.

Although they don’t know how the explosion disappeared, the New York authorities obviously also need to understand the situation and they are coming here.

...

Police Captain George of the New York Police State Department, the father of Harry’s girlfriend Gwen, has had a good life recently. Because the headquarters of the League of Defender is in New York, they have helped the police a lot in cracking down on some crimes in New York.

Although these Vigilantes are a little out of control, they did make New York’s crime rate continue to decrease. Especially since Iron Man Tony Stark has announced that it had formed a strategic alliance with the League of Defender, which made Police Captain George trust these unidentified Vigilante even more.

However, the crime in New York has been reduced to the lowest level in history, but at this time a very cruel terrorist attacker emerged from abroad.

He not only carried out a bomb attack in the war zone but also directly carried out an explosion attack in the center of New York a few days ago, which made Police Captain George’s head hurt again.

Fortunately, Iron Man announced that he would personally take care of the Mandarin, and he also launched a live broadcast to declare war in front of the whole world. This made Police Captain George feel a little relieved.

However, the hundreds of Iron Man rushing out of Tony's beach house tonight gave Captain George a very bad premonition. Sure enough, after the Iron Man army rushed to the industrial park outside New York, a fierce fight took place there.

If it wasn't for the knowledge that the fight between the Iron Man and his enemies was not suitable for ordinary people to participate in, Police Captain George would definitely send someone to help. However, even though no one was sent to participate in the war, Police Captain George still kept an eye on the situation there.

However, what happened next made the Police Captain almost collapse directly because of high blood pressure. Because he actually saw a violent explosion suddenly erupted from the battlefield.

Despite being far away, Police Captain George could still see the flames rising into the sky and the strong tremors passing beneath their feet. According to George's judgment, an explosion of this magnitude was enough to destroy a small portion of New York City.

"Mike! Mike! Issue a First Level alert!" Watching the explosion spreading in the distance, Police Captain George yelled and picked up his mobile phone to call his daughter.

At this moment, the entire police station was plunged into extreme chaos because of the explosion in the suburbs. Of course, in addition to the police station, there is also panic in the New York City area.

People may not be able to see the explosions and fires in the suburbs because of the blockade of high-rise buildings, but the strong shock waves are enough to scare these people to death.

Buzzing~

However, just when bursts of tremor passed, and the despair in people's hearts continued to spread. Police Captain George, who has been paying attention to the fire in the suburbs, only felt that there was an illusion in front of him.

In the next second, those fires and explosions all disappeared and he had thought that he had seen an illusion, a mirage. However, the tremor that continues to pass from the ground still exists. After the fire in the suburbs disappeared for a while, the sensation of vibration gradually faded away.

"Hello?! Dad! Dad!? What happened? Was it an earthquake?!" Just as Police Captain George looked at the distant suburbs, his daughter Gwen was a little nervous and her voice came from the other side of the phone.

"Ah! Gwen, baby, it's okay! I am okay! There wasn't any earthquake, it was just another explosion." After recovering from his situation due to his daughter's cry, Police Captain George quickly made up a reason and replied.

Although this reason was made up temporarily by George, it also happened to be true. However, this bombing attack was hundreds of times worse than the previous one.

"Was it Mandarin's bombing attack? Dad, you need to take care of yourself!" Hearing Dad's answer, Gwen reminded worriedly on the other end of the phone.

"I know, well, you should also pay attention to yourself, and go home after class during this time."

"I know, Dad."

Then, Captain George quickly hung up his phone.

"Captain, do you still want us to issue the First-Level Alert?" Just as George hung up the phone, Detective Mike, his Lieutenant, walked over and asked.

The explosion just now scared a lot of people. The first-level warnings were issued. The purpose of this warning was to let the citizens hurry up and find a place to escape to. However, the explosion has suddenly disappeared, which makes these police officers feel very embarrassed.

"No, and also, immediately mobilize all the staff and tell them to go on the streets and stop any riots and to comfort people. I will go there to see the situation in person." Police Captain George replied after thinking about it after hearing his Lieutenant's words.

No matter what happened over there, the explosion had really disappeared. The impact of issuing a first-level alert of less than a minute is not so huge, and it is too late to save it.

"Okay!" After receiving Police Captain's answer, Detective Mike agreed and then turned to arrange things.

"Iron Man, Mr. Tony Stark, what is going on between you and Mandarin! If you continue to do things like this, my heart won't be able to stand it!" After arranging the things in the police station, Police Captain George went downstairs and thought to himself.

## **Chapter 523 Guarantee**

Not to mention the panic in New York due to the explosion in the suburban industrial park and the helplessness of Police Captain George, Tony and Peter were also feeling very helpless at the scene.

They have been in this ruin for several minutes, but apart from feeling the remaining heat on the ground, they have not found the entrance to the Mirror Dimension space. JARVIS's system did not scan any space anomalies, maybe it can only be detected when the Mirror Dimension space appears.

Woooo~

"Mr. Stark, the police and fire brigade have already arrived. There should be reporters too. Do you need to go and explain the situation?" Suspended high in the sky, Peter looked at the police cars and fire trucks approaching quickly in the distance and some cars that might belong to the reporters so Peter asked.

"Don't worry about them for the time being, I will hold a press conference later to explain what happened today." Tony is not in a good mood right now, and of course, he will not talk to the police and reporters.

"Okay, then." Hearing Tony's answer, Peter agreed and continued to hover with Tony in the air.

Buzzing~

Just as Tony and Peter waited at high altitude for more than ten minutes, a small Spatial Fluctuation appeared in their lower-left corner. JARVIS detected the situation and Tony and Peter also noticed it. Then Tony and Peter flew down quickly.

Call!

In the ruins, a golden halo quickly appeared on the ground. Then, a few people walked out of the aperture. It was Rick who had teamed up with others to build the Mirror Dimension Space before.

However, there are only five people who came out of the aperture and Yun Meng, and the remaining two are still there to maintain the existence of the Mirror Dimension Space.

After all, the power of the explosion has not completely ended, and the Mirror Dimension Space will not exist for long if someone doesn't maintain it. They will not come out until the explosion is completely annihilated in the Mirror Dimension.

Huhu!

Just as Rick and the five sorcerers just walked out of the Magic Space Portal, two Iron Man with a somewhat broken appearance rushed in front of them. It was Tony and Peter.

"So it really was you?! Rick and David!" After seeing Rick and David, Tony was finally sure and shouted loudly.

Card!

While yelling out the names of Rick and David, Tony also put down his mask. As for Peter on the side, he was not ready to speak or show his face.

Seeing the two Iron Mans rushing in front of him and hearing Tony's voice, and then seeing Tony's exposed face, the expressions on the faces of Rick and David were not very good. After all, they had been coerced by Tony Stark before. They are the sorcerers who guard the earth and they were coerced by such a guy for two hours!

"Hehe, it's Mr. Iron Man Tony Stark." Although he felt bad after seeing Tony in his heart, Rick still greeted him with a smile.

"Haha! I'm really glad that you were able to help today, otherwise, many casualties would have appeared in New York City tonight. If people in the world know that you are a group of powerful sorcerers always guarding them against the shadows then they will be very grateful as I am right now." Not caring about Rick's weird tone, Tony thanked him very sincerely.

"Since we have encountered this kind of thing, of course, we would be willing to help out as much as we could." No one does not like being complimented. After hearing Tony's words, David responded with a smile on his face.

"Speaking of it, I didn't expect Killian and that Mandarin to be so crazy. They would even destroy half of New York to achieve their goals, I will not let them go!" After praising the sorcerers, Tony was about to blow a gasket when he thought about Killian's move. If these powerful sorcerers are to notice the guy named Killian, then Tony will have another powerful helper to deal with Killian.

“En? What are you talking about? Was this explosion due to Mandarin’s terrorist attack?!” Rick asked suddenly when he heard Tony’s words.

“Yeah, what’s the matter?” Tony asked curiously when he heard Rick’s words.

“It turns out that it was him who caused the explosion. And here I was thinking who had the courage to cause an explosion in New York that can destroy half of the city. You say that you are going after Mandarin, so why are you speaking so arrogantly here? This guy seems to have no morals seeing as he was willing to detonate a bomb of this level. Do you want us to help you every time?” They thought that the explosion was a special accident. Maybe it was caused by some special accident. Unexpectedly, it was Tony’s opponent who made things happen and Rick felt even more dissatisfied with Tony.

“This... It is my responsibility. However, I promise to take care of Mandarin as soon as possible, and such incidents will not happen again in the future.” The expression on Tony’s face became stiff when he heard Rick’s words, and then he replied seriously.

“Huh! That’s better.” Rick said bluntly after hearing Tony’s assurance. During their talk, the two Sorcerers and Yun Meng came out of the Mirror Dimension.

“Yun Meng, Rick, David, the danger here has been eliminated, we will go back first.” Just when Tony and Rick were acting a little stiff, the two Sorcerers who did not belong to New York Sanctum Interrupted.

“Yes, thank you for your help today.” Hearing the words of the sorcerers behind him, Rick turned and said.

“It’s okay, Yun Meng, If you have free time then come to London, our place is not worse than New York.” The two sorcerers even specially invited Yun Meng to come in some time before leaving.

“Okay, I’ll check it out sometime.” Yun Meng nodded and replied when she heard the invitation from the London sorcerers.

Huhu!

Then, the two sorcerers drew a new Magic Portal on the spot, and after two steps in, they left New York and returned to London.

“Okay, we should leave too. Mr. Tony Stark, I hope you can handle this matter as soon as possible. After all, we won’t come to help you handle it every time.” After sending away two sorcerers from London, Rick looked at Tony in front of him and reminded him.

“Don’t worry.” Not wanting to lose his pride in front of Rick, Tony promised again.

“Then let’s go, Yun Meng, are you coming with us?” Without intending to say more, Rick looked at Yun Meng and asked.

“Well, let’s go.” With a Nod, Yun Meng waved her hand to construct a Magic Space Portal.

Huhu~

Then, Rick, David, and Yun Meng walked into the Golden Magical Space Portal and disappeared. However, before the Magic Space Portal finally disappeared, Yun Meng seemed to look back, and no one knew what or who she was looking at.

## **Chapter 524 Remember**

Huhu!

Card!

When the golden light circle in front of him completely disappeared, Peter put down the helmet of the Iron Man Armor and looked at the place where the Magic Space Portal had disappeared with a strange expression on his face. Just now, Peter felt that the young female Sorcerer was looking back at herself.

With Peter's instincts, he should not be wrong. However, he hadn't seen this female Sorcerer before so why did the other party look at him before leaving? This made Peter a little confused.

"Mr. Stark, do you really have the confidence to eliminate Mandarin and Killian in a short time?" Although he was wondering why Yun Meng looked at him before leaving, Peter didn't go too far in his thinking and then asked Tony.

"Since I have said everything, of course, I will do it. I originally planned to deal with Killian by myself, but looking at the current situation, It looks like I won't be able to deal with him alone." Hearing Peter's words, Tony looked at him and replied seriously.

"That's for the best! With SHIELD's and X-Men's help, we will definitely be able to eliminate Killian and Mandarin soon!" Hearing Tony said that he was looking for help, Peter was also very happy.

Originally, Lin Rui felt that there was no need to let Tony deal with Killian alone. After all, the story of this world has been completely changed, and what kind of story will eventually develop about Killian is not something that Lin Rui can predict.

But Tony is a very conceited person and he was not willing to listen to others, so Lin Rui can only let him deal with Killian first.

Moreover, Lin Rui himself has been directly teleported to another planet by a Space Portal. It is now a question of whether he can find a way back to the earth. In other words, Peter and the others still don't know what had happened to Lin Rui. Perhaps this is because Lin Rui's performance has always been more reassuring. No one can think of such a thing happening all at once.

"By the way, there seem to be reporters among those people outside. I just saw someone shooting with a camera here. Then will those Sorcerers be photographed, if..." Today's battle ended with a loss for both sides and Peter pointed to the crowd at the edge of the ruins, dulled by the scene before them, and reminded Tony.

"It doesn't matter. I have just turned on the shielding technology. Those reporters won't be able to take anything. Moreover, at such a distance, what can they even see? Now, let's go back first. Although Killian's actions did not succeed in the end, but he managed to anger me. Moreover, I am worried that he was not only using this powerful lifeform bomb here in New York." Hearing Peter's reminder, Tony

waved his hand and replied. Then, Tony was going to go back to discuss how to deal with Killian and Mandarin in the future.

“En! We must take care of Killian quickly, otherwise, this lifeform bomb will pose too much of a threat to any city.” Hearing Tony’s words, Peter also agreed.

Huhu!

Then, regardless of the reporters who were coming to the ruins and the reporters who were thinking of making big news, Tony and Peter rose up into the sky again and soon disappeared in front of the crowd on the ground.

About an hour after Tony and the others left, SHIELD had completely taken over the ruined battlefield. For this level of battle, relying on the Military or the New York Police Department is no longer enough.

When SHIELD’s troops searched the ruins for Extremis lifeform bomb remnants and those Extremis soldiers who died in the explosion, a golden light suddenly appeared in the air.

This golden light was only fleeting and no one noticed it. And after this golden light flashed, the Mirror Dimension Space that had originally shrouded this area disappeared completely with the appearance of that golden light.

...

Not long after the battle in the suburbs of New York, which nearly destroyed half of New York City, came to an end. Rogers, who was still watching the presidential attack at the Washington SHIELD headquarters, learned about the entire incident from Tony.

After learning that Killian had such a powerful lifeform bomb in his hands, Rogers directly raised the matter to a level one incident within SHIELD. As the first level one incident since Captain Rogers took control of SHIELD, he wanted to settle Mandarin and Killian cleanly.

Of course, in addition to informing Captain Rogers of SHIELD for help, Tony also told Professor Charles about the matter, hoping to get X-Men’s help. However, it seems that X-Men has very important things to do recently. Although Professor Charles promised to do his best to help, they might not be able to mobilize too many people.

After Tony’s curious questioning, Professor Charles finally told Tony of his discovery, and also to Rogers. He told them about the latest move of the Mutants Brotherhood led by Magneto. They seem to be doing things in Washington.

In order to prevent Magneto from really doing something worse, X-Men is now getting fully prepared against him. However, Professor Charles did not tell Tony and Rogers that they were looking for Magneto’s children, Quicksilver and Scarlet Witch.

After receiving the news from Professor Charles, Rogers felt a little pain in his head. He has just only taken office, so why did so many things are happening all at once? Killian, as a terrorist, holds in his hand a powerful lifeform bomb that can destroy a city, and there is Magneto who is a top Mutant who can do even bigger things.

No matter how powerful SHIELD is, Captain Rogers still feels pain in his head as he thought about dealing with these two difficult things at once.

Fortunately, SHIELD is not fighting alone now. With Tony's Iron Man and X-Men and the League of Defender, they are also teaming up against the enemy. However, why isn't Mirage Knight, the representative of the League of Defender, absent when discussing such things? This is what Captain Rogers was very puzzled about.

After he raised this doubt, Tony remembered that there has been no news of Lin Rui.

"Mirage Knight? He and Deadpool have been teleported away by an unstable Space Portal. I haven't heard from them. Maybe they were teleported to a place where there is no signal." When Tony contacted Jerry in the League of Defender base to ask about Lin Rui's whereabouts, this was Jerry's answer.

So far, Lin Rui and Deadpool have been missing for almost two hours. Compared to the last time Lin Rui was teleported away by the Space Portal and disappeared for two days, Jerry is still not worried.

"They were teleported away by the Space Portal?! Then why are you telling us that now?!" After hearing Jerry's answer, Tony didn't know what else to say.

"You guys have been busy and there were many things that needed your full attention. And, I believe Mirage Knight and Deadpool will be fine, they have only been missing for two hours." Hearing Tony's words, Jerry replied somewhat innocently.

"Well, tell me where the two of them disappeared, and I will go over and see what's going on there now." Tony was speechless as he heard Jerry's answer.

"The location has been destroyed, it was at the edge of the battlefield."

Tony: "..."

## **Chapter 525 Trip**

Captain Rogers, who also received news from Jerry, immediately sent someone to check the place where Lin Rui and Deadpool disappeared, but there was nothing but the same ruins around them. There was no Space Portal there.

It cannot be said that nothing was found. After careful searching, SHIELD's cleaning team still found something, that is, a little life form remnant. However, the remnants of this lifeform were similar to those of the Extremis fighters found in the center of the battlefield.

Therefore, they can only judge that Mirage Knight and Deadpool fought another Extremis fighter here, and after defeating it, they saw the Space Portal, and then they were teleported away.

Snapped!

"That Mirage Knight is really reckless! Does he really think that he can be careless now that he has survived a forced teleportation by luck?!" Seeing the investigation report on the scene, Tony threw the tablet on the table with anger-filled eyes.

“Don’t worry about it, just like Sky’s Eye said, since Mirage Knight has entered by himself, he should have been sure about his safety.” Seeing Tony’s angry look, Rogers persuaded him across the translucent screen.

“Huh! He better be fine!” Tony also had confidence in Lin Rui, and he could only accept this reality in the end.

If Deadpool knew that these people were only worried about Mirage Knight but not him then I wonder if he would curse them directly from another planet.

Card!

After a few brief conversations with Rogers, Tony hung up the video call. Then Tony’s gaze shifted to Peter who was standing in front of him.

“Peter, are you also worried about that Jackson?” Tony asked with a slower tone as he watched Peter’s face.

“Well, I’m really worried about Jackson. However, I also believe he will be fine. That guy is not a reckless person.” Hearing Tony’s words, Peter replied with a flash of light in his eyes.

“Well, since you all have so much confidence in him, then I will also believe that he will come back. But before he comes back, you should know what to tell his parents, right?” Tony exhaled deeply and he finally spoke helplessly.

“I know, don’t worry, Mr. Stark, Jackson will be fine.”

“I hope so!”

...

Just when Lin Rui’s friends and allies on the earth were concerned about where Lin Rui was transported on the earth, Lin Rui was trekking on a planet that is many light years away from the earth.

On the planet where Lin Rui and Deadpool were transported together, Lin Rui and Deadpool had left the original Space Portal location and had come to the forest beside the grassland.

They didn’t know if it was because of this planet being much larger than the earth but compared with the vegetation on the earth, the vegetation here is much taller. Just like now, Lin Rui and Deadpool are just as inconspicuous as two foreign animals in this unknowingly large forest.

“Hey! Mirage Knight, are you really not an alien? Why are you adapting to alien life so quickly?” Wearing the Low-Level hero suit given by Lin Rui, Deadpool followed Lin Rui in the forest trek. While pulling away from the tall grass in front of him, Deadpool asked curiously as he saw Lin Rui, who was rushing forward.

Although Deadpool’s nerves are indeed very big, even if he is teleported by a Space Portal to a planet that is far away from the earth, he can still maintain his funny personality.

However, compared to Deadpool’s special character and adaptability. Lin Rui’s performance is also different from ordinary people. After Lin Rui judged that this is an alien planet and took out the

protective clothing that can protect his survival on this planet, Deadpool felt that Mirage Knight was also amazing.

In the past, even if Deadpool knew that Mirage Knight was very powerful and mysterious, it was limited to Earth. Moreover, because Deadpool and Mirage Knight met earlier, he also knew that Mirage Knight was actually a very young kid. And now, the mindset of this kid has once again refreshed Deadpool's previous recognition of him. Even after being teleported to such an alien planet, he could adapt and survive instantly.

"Although there are indeed aliens in this world, and there are many who are similar to human beings on Earth. However, I am really not an Alien." Lin Rui, who was leading the way, raised the corner of his mouth and replied slightly when he heard Deadpool.

According to the current development of the plot of the earth, it will not be long before the people on earth will know that the universe is a very big place, it is even bigger than they could have imagined. Therefore, Lin Rui can also appropriately reveal some things that he has not told Deadpool before to open up his worldview.

Brush!

"Really? Have you ever seen an alien?." Hearing Lin Rui's answer, Deadpool's eyes lit up and he asked curiously.

"Uh... I should have seen one. But it was not a humanoid, just a special Alien lifeform. But maybe we will see Aliens on this planet." Seeing Deadpool looking so curious, Lin Rui had no choice but to explain.

The Special lifeform Alien described by Lin Rui is Venom. As for Thor, Lin Rui has never regarded him as an Alien. After all, the people of Asgard and the people of earth are so alike, at least there is no difference in their appearance.

"Really? There are really Aliens on this planet?." Hearing Lin Rui's answer, Deadpool became even more excited.

"There should be. The unmanned detector I released found a suspected man-made building in front." Raising his hand and looking at something that looked like a tablet, Lin Rui replied calmly. This is also the reason why Lin Rui entered this forest with Deadpool. After all, there may be more dangers in the forest than in the grassland.

"Huh? Unmanned detector? When did you release it?" Deadpool asked curiously while looking at the tablet in Lin Rui's hand when he heard Lin Rui's words.

Lin Rui: "... " You don't know because you have done nothing but play around! However, Lin Rui just thought about it silently in his heart.

Huh!

Just when Deadpool was curious about the man-made building in front of them and he wanted to see what was scanned by the drone on the tablet, an unusual movement suddenly came from the bushes they passed by.

"Be careful!" Lin Rui and Deadpool stopped for the first time upon hearing this sound.

Huh!

“There!”

## **Chapter 526 Trip 2**

Pū Pū!

Just when Deadpool yelled this sentence of caution, a dozen shadows suddenly shot out from the dense trees, most of them rushed towards Lin Rui in front, and the rest rushed towards Deadpool. Although they didn't know what these shadows were, it is clear that they did not come here with good intentions. Moreover, these shadows seem to know that Lin Rui is a bigger threat than Deadpool as there is a big difference in the number of shadows that attacked them.

“En?! Are they looking down on me?!” At the moment he realized that the number of black shadows rushing toward him was far less than those rushing toward Mirage Knight, Deadpool yelled out feeling very upset.

Brush!

Then, Deadpool put his hands around his waist and brought out two guns two with his hands. How could Deadpool not be prepared seeing as he is walking in the forest of this Alien Planet? These two guns are only the lowest level equipment. Lin Rui had prepared a more powerful laser weapon for Deadpool before they ventured into the forest.

Boom Boom Boom!

The rapid gunfire sounded in the dense forest, and the results confirmed that Deadpool's marksmanship was still very good. The bullets in the two pistols were emptied in an instant, and each bullet hit their target. However, in the next moment, Deadpool quickly ran towards Lin Rui, and threw away the two guns in his hand halfway through the run.

Because Deadpool found that after hitting two shuttles of bullets, more than a dozen bullets directly penetrated the shadows after hitting them, but the speed of the shadows did not slow down at all. Instead, the attack of the bullets increased their speed. Of course, Deadpool judged that these shadows were not afraid of bullet attacks, and he must move closer to Lin Rui before taking out a more powerful weapon.

Compared to Deadpool where he found that his gun's were ineffective and evaded, Lin Rui only pulled out the Beheading Spirit Sword from his waist when faced with several times more shadow attacks than Deadpool. Then, Lin Rui held the Beheading Spirit Sword in his hand and swung it out a few times in front of him. When Deadpool ran toward this side, he saw a Sword Energy Net composed of pale Azura rays intercepting the black shadows.

Shoo!

Pū Pū Pū!

In the next second, all the dark shadows rushed into the sword energy net made of Azura lights. In front of Deadpool's surprised gaze, the black shadows that could not be affected by bullets were cut into

dozens of pieces after touching the Azura sword net and Deadpool was also surprised to find that the Sword Energy Net didn't just work as a defensive measure as he had initially thought.

The black shadows that were cut by the Sword Energy Net broke into pieces and fell towards the ground. In the process of falling, the black shadows continued to twist and they seemed to possess a lot of vitality in them. At this time, Deadpool could finally see what these shadows looked like. The broken shadows look like black tree roots, but they continue to twist, and they are constantly oozing dark green liquid from the fracture, it was as if they were repairing themselves.

"That's disgusting! Is it a Cannibal Tree?!" Deadpool cried out as the twisted black roots fell to the ground and disappeared quickly.

Brush!

However, Lin Rui did not answer Deadpool's words at this time, but quickly turned around and swung a sword in the direction of Deadpool. As another sword light flashed, the weird tree roots that were chasing Deadpool were also cut off by Lin Rui and they fell into the ground and disappeared. As for the main body behind these weird tree roots, Lin Rui quickly retracted his sword to his side.

Rustle rustle~

As Lin Rui resolved this strange root attack so easily, the other things that had been lurking in the bushes around them seemed to see Lin Rui's strength and they slowly left. Maybe there is something that will continue to observe them in secret, but after the first batch of attack that failed, Lin Rui and the road behind them may be quiet for a while.

"Damn! How many things are hiding out there?!" After hearing those voices gradually moving away, Deadpool standing next to Lin Rui shouted out in shock. However, this time Deadpool's voice has been suppressed very low, for fear of calling back those who left.

"Well, this is in a forest, and it is probably larger than any forest on the earth. Therefore, it is very normal for some things to see us as their food." Lin Rui scanned the surroundings. After a lap, Lin Rui put away the Beheading Spirit Sword and looked at Deadpool and answered calmly.

If it weren't for a lot of Reward points that can be exchanged for some powerful weapons, and his strength that is already very strong, Lin Rui might not be able to wear the same calm expression at this moment.

"Then, what if more monsters appear to attack us? Those weird tree roots just now were not affected by bullets. What should we do if we encountered something here which wouldn't even be affected by a laser weapon?" After experiencing a thrilling forest attack, Deadpool, who was very nervous, finally realized the danger of his current situation. At this time, Deadpool had already pulled out the laser weapon.

Although Deadpool's mutant ability allows him to survive on such an alien planet, without the hero suit Lin Rui gave him, he would only remain alive but he would fall into a deep sleep state. Moreover, Deadpool's force value is not too high. If he is swallowed by a large monster, he will probably become food for something. Deadpool cannot guarantee that he will be able to recover at that time.

“So we need to reach the destination in front more quickly, we need to find that man-made building as soon as possible, maybe we can find a way to leave from here. At least, these beasts won’t converge where there are man-made buildings.” Lin Rui of course also knows that the situation is not optimistic now, but the suspected man-made building in the front is their hope of returning to the earth.

Moreover, when Lin Rui cut off those weird tree roots, the system that had been silent for a while suddenly issued a warning notice: You caused 2% damage to the B-Grade lifeform on a B-Grade planet. This means that the system in Lin Rui’s mind will not only release quests on the earth but here as well. It is likely that there will be quests waiting for Lin Rui to complete on this outer planet and the entire universe.

Judging from the prompts from the system just now, if Lin Rui eliminates this so-called B-Grade Lifeform, the system should give out some rewards. However, Lin Rui will not go looking for trouble with those weird tree roots for these rewards, he just wants to return to the earth as soon as possible. However, if Lin Rui finally arrives at the suspected man-made building and fails to find a way back to the earth, then he may return to this forest to find the trouble with these monsters. After all, as long as there are enough Reward points, Lin Rui can directly redeem any Portal back to Earth. Of course, this is the last helpless approach and also the most dangerous one.

“Well, then let’s go! I don’t think they will attack us again for some time!” Hearing Lin Rui’s answer, Deadpool speeded up and rushed to the front of Lin Rui.,

## **Chapter 527 Destination**

Huhu!

Rumble!

More than an hour later, accompanied by the dumping of a few large big trees, a violent sound suddenly came out from this forest. In this virgin forest that has existed for god knows many years, it was like giants were fighting in it at this time. From time to time, large trees that were hundreds of years old or older fell in pieces.

And not far from the violent movement in the forest, there is a small valley. This valley was formed in the middle of the virgin forest. There is also a small water hole in the center of the sinking valley.

At this time, on the grass next to the small water hole, a small drone stopped here. This drone is the machine Lin Rui sent out to detect something before, and this small valley is Lin Rui’s destination.

Booming~

As the movement in the forest got bigger and bigger, whatever is happening inside the forest is getting closer and closer to the valley. This quiet valley seems to have been affected a bit, and the surface of the pool water in the center of the valley also shows ripples.

Brush!

Just when the movement in the virgin forest was very close to this valley, a black figure suddenly rushed out of the forest, and this figure was holding a guy who didn’t look alive. Obviously, the two people who rushed out of the forest were Lin Rui and Deadpool.

However, Lin Rui is panting heavily now, and Deadpool, who was in his hands, has long since been seriously injured and has become unconscious. If Lin Rui hadn't been holding Deadpool all the time, he would have entered the belly of a certain monster by now.

Lin Rui rushed out of the forest and rushed towards a certain distance before stopping in mid-air. Lin Rui, who stopped in the air, paid close attention to the movement in the forest behind him, and then Lin Rui who was holding Deadpool showed some doubts in his eyes. According to Lin Rui, the monster behind him should have been chasing him. However, the monster seemed to have stopped.

Not long ago, when Lin Rui and Deadpool rushed towards this side, they broke into a monster's territory without knowing about it. Then, Lin Rui and Deadpool were chased and nearly killed by the monster that was three stories tall and looked like a combination between a snake and a dinosaur for more than half an hour.

Originally, if Lin Rui was alone, he might have been able to fight this monster for hundreds of rounds. After all, he is now very confident in his own strength. But there was Deadpool beside him.

After being swept by the monster's tail, Deadpool was seriously injured and passed out. Therefore, Lin Rui had to grab Deadpool and escape all this way. He was worried that Deadpool would not be able to survive if he didn't run. And the monster has been chasing behind them until now.

After Lin Rui rushed into the valley, the monster stopped in the forest and did not continue to chase them.

Huhu~

"That thing is really not chasing us? Is there something weird here?" Levitating in mid-air, Lin Rui could still see the huge eyes of the monster hidden in the forest and he was also guessing why the monster had suddenly stopped.

"It doesn't matter, I need to go down." He has been floating in the air and he has already consumed a large amount of his internal energy in the process of running. Lin Rui stared at the monster in the forest and quickly landed down the valley below.

Phoo~

Finally, under the strange gaze of the monster in the forest, Lin Rui fell steadily into the valley, just by the center of the pool. Lin Rui put Deadpool on the ground but the monster still did not move. However, it neither rushed out nor planned to leave. It seemed satisfied just by staring at Lin Rui from the forest.

"Is that thing still not leaving? Is it waiting for something?" Noting the monster's gaze, Lin Rui quickly guessed the reason for it staying here.

However, how could Lin Rui, who had no knowledge of this planet and civilization here, know what the monster was doing. So, in the end, Lin Rui didn't care about the big monster in the forest. Anyway, it seems that it really won't rush out of the forest. Lin Rui just might be able to study the peculiarities of this valley in a quiet environment.

“This is really... all the bones in his body had broken... his internal organs are also damaged... and he looks even uglier...” After placing Deadpool on the ground, Lin Rui carefully checked his injuries. After looking at the result, Lin Rui frowned slightly.

However, he just frowned and didn't really worry about Deadpool. If Deadpool's injury at this time happened to any ordinary person then that person would have died without any doubts, but Deadpool is not an ordinary person and he would be able to recover from such an injury by himself.

It is only a matter of time. Knowing that Deadpool could recover by himself, Lin Rui injected him with a dose of Gene Therapy Serum and then let him lie there and recover by himself. Then Lin Rui began to look at this small valley.

“Indeed, it is very unnatural to have such a small valley in such a primitive forest. Although it has been here for many years, the artificial traces are still very obvious.” After looking around the valley briefly, Lin Rui has already concluded something: This is indeed a human-made valley.

“Since there are man-made structures here then it means that there is some form of civilization on this planet. However, I don't know how far they are from here, where the civilization has developed, and whether or not they will have space transmission technology.” After judging the situation in this valley, Lin Rui quickly analyzed the situation.

Lin Rui's original hope was to find the indigenous civilization on this planet, preferably a human-like civilization so that he can better communicate with the indigenous people on this planet.

Then, if he is fortunate then the Planet will be a relatively developed planet, then Lin Rui has the opportunity to take Deadpool and sail back to Earth via Interstellar travel.

Based on Lin Rui's understanding of Marvel World, except for the earth, many civilizations and technologies in the universe have developed to a very high level. Space transmission and other things are also very common in Interstellar navigation.

Just like a special series in the Marvel, it is based on a space adventure team as the protagonist. They drove their Spaceship to adventure in the universe, and the core protagonist was a Half-Celestial from the earth.

“However, judging from this forest and the monsters in the forest, even if there is a civilization on this planet, it should not be of too high a level!” While expecting something in his heart, Lin Rui had to follow reality and he analyzed the most likely outcome.

While judging the level of civilization that may exist on this planet based on this valley, Lin Rui is also considering whether to send out a few more drones to find where the civilization exists. Finally, Lin Rui's gaze turned to the unobtrusive monster hiding at the edge of the valley.

If Lin Rui did not find the civilization on this planet in the end, or the civilization technology level on this planet was not enough to send Lin Rui back to earth, he would have no choice but to go into the forest to eliminate a few monsters to earn more Reward Points.

In this way, Lin Rui can redeem any Space Portal from the System Shop and return to Earth.

Phoo~

It seemed that the monster had seen the change in Lin Rui's eyes. The monster hiding in the forest without showing up blinked, and finally turned around and left.

Lin Rui: "..."

## **Chapter 528 I AM GROOT**

Just when Lin Rui and Deadpool were trapped on an unknown planet in the universe, and Tony and others didn't know about it. Some people knew that Lin Rui was no longer on the earth.

Located in the quiet residence of the Ancient One behind Kamar-Taj in the Himalayas, the Ancient One who was resting with his eyes closed suddenly raised his brows and then opened his eyes.

"Interesting, this kid is no longer on the earth, and he really ran far enough." Opening his eyes, Ancient One slightly raised his head to look at the clear night sky without the roof and then muttered in his heart.

When Ancient One invited Lin Rui to come to Kamar-Taj to meet him, he left a magic mark of his own on him. This magic mark can help Lin Rui withstand a fatal situation. Of course, the mark must be in the range of the crises to be able to block the attack.

In addition to defense, this magic mark can also mark Lin Rui's current location. But now, Ancient One just discovered that Lin Rui had disappeared from the earth, and the location of his mark he sensed was in the distant universe.

Brush!

After sensing that Lin Rui was no longer on the earth, Ancient One's fingers moved slightly, and a magical message was soon sent out. He needed to know what happened to Lin Rui before he left the earth to search for him in the universe.

Because of the things discovered by him, Ancient One still has some hope for Lin Rui's plans and goals, so he didn't want Lin Rui to have any accidents.

Hum!

Half an hour after Ancient One sent the message, the phone on the coffee table in front of him vibrated, which was a text message. Picking up the phone and clicking on the text message, Ancient One glanced at it quickly.

"He seemed to have teleported away by a Space Portal. Is there such a Space Portal for ultra-long-distance teleportation on Earth?" Seeing the message reply on the SMS, Ancient One muttered softly.

Because of the particularity of the Sorcerers on the earth, Ancient One is not very concerned about some things that happen in the world. So he didn't know about the reappearance of the Space Infinity Stone and Lin Rui also kept it a secret.

If Ancient One knew that the Space Infinity Stone had appeared, it would not have been difficult for him to understand that Lin Rui would be teleported so far by a Space Portal.

“Anyway, since I put some hope on him, I can’t let him stay in the vast universe like this. It just so happened that the last time Odin exiled Thor to the earth, he also owed me a favor for that, look like I can collect on that favor.” No longer thinking about why such an ultra-long-distance Space Portal appeared on Earth, Ancient One muttered to himself as he stood up from the ground.

Huhu~

Then, a golden Magic Portal appeared out of thin air in front of the Ancient One. Compared with other Sorcerers, Ancient One has used this kind of Low-Level magic to the point where he can use it however and whenever he wants.

After the Magic Space Portal appeared, Ancient One raised his foot and walked in slowly. According to what Ancient One said to himself, this time, Ancient One should be going to Asgard to ask Odin for help.

Asgard is the ruler of the Nine Realms. King Odin has many powerful men and women under him. Among them, Heimdall of Bifrost, the guardian, is the most outstanding.

Heimdall not only has a high force value, but he also has the sharpest eyes and sharpest ears in the universe. He can see wherever he wants to see and hear wherever he wants to hear. Therefore, to find out where Lin Rui is, it is the easiest way to ask Heimdall to help.

...

Card~bang~

Crackling crackling~

In the distant universe, in an unknown virgin forest on a B-Grade planet, a bonfire was lit by the water pool in that magical small valley. The fire illuminates the dark valley, and also illuminates the two figures beside the fire.

Several hours have passed since they have come to this planet. The bright sky was completely dark within a few minutes, and the sky unobstructed by surrounding trees was dotted with many bright stars.

Although Lin Rui has prepared the lighting fixtures, he still thinks it is very good to make a bonfire in such a scene. For their psychological comfort, he and Deadpool are camping here.

Because Deadpool hadn’t woken up yet, Lin Rui didn’t dare to leave him and go too far to explore new places. And when the night came, Lin Rui also took back the unmanned detector that had been released before. According to normal circumstances, the danger in the forest at night should be much higher than in the daytime.

However, this magical valley seems to have a special power, and no forest primitive monster dares to enter this area. After observing for a long time to confirm this, Lin Rui finally rested in peace. He was tired enough after the day he had.

And while Lin Rui was resting in this valley, he didn’t know that in the outer space of this planet, a very cool-looking Spaceship was quickly flying towards this primitive planet.

Dang Dang~~Dang Dang Dang~~

When this Spaceship flew to the planet where Lin Rui was located, a very fast-paced song was still playing in its cabin. If there were people on earth in this Spaceship at this time, then they would have definitely recognized this as a very classic English song.

Accompanied by rhythmic songs, a human with a strong looking figure walked from the lounge to the front while dancing.

Dī Dī toot!

However, when this man passed a room by the aisle, he heard a strange movement from inside. As if he knew something, the guy quickly pushed open the door with a frown on his face.

Then, he looked directly at the table in the room. On that table, in addition to the normal things, there was also a very large potted plant, inside which was planted a crumpled tree branch.

The point is, when the guy opened the door, the branch in the pot on the table was twisting to his note and playing with a blue-skinned doll on the table.

Brush!

At the moment when he noticed that someone was pushing the door, this magical tree branch instantly freezes its movements and it looked just like an ordinary potted plant. However, it didn't know that its actions just now were completely out of sight of the guy at the door.

Call!

"I knew it! Those recent pranks were done by you! Groot!" Two steps rushed to the table and the guy pointed his finger to the stationary branch in the pot and shouted.

It seemed that someone had broken his disguise, and the twig was no longer hidden, and it began to twist again.

"I AM GROOT!" After a few twists, the small branch shouted three words loudly to the handsome guy in front of him.

The guy: "..."

...

## **CHAPTER 529 VISI**

Brush!

Outside the emerald green planet, a Spaceship is rushing down into the thick atmosphere. As for the owner of this Spaceship, he is the guy who discovered that talking plant prank before. His name is Peter Quill, nicknamed Star-Lord, and he is an Interstellar pirate.

Of course, this was his previous identity. Now, he has separated from his pirate group and has his own team called Guardian of the Galaxy. The Guardian of the Galaxy is now a small and famous mercenary team in the universe.

Star-Lord, Peter Quill is an earthling, his actual identity is that of an ancient being in the universe and he is a Half-Celestial born to his mother. Therefore, in the previous battle with Ronan the Accuser, Star-Lord could use the power of the Power Stone with the help of his partners to eliminate Ronan.

After eliminating Ronan, who was notorious in the universe, the name of Star-Lord was also spread, and Guardian of the Galaxy was established.

As for now, Star-Lord evaded the pursuit of his adoptive father Yondu and came to this starfield for a temporary vacation. His destination was the green planet that looked very nice in front of him.

On Star-Lord's vacation, his girlfriend Gamora did not come together with him. Gamora seemed to have heard from her sister Nebula some time ago and went to meet Nebula alone. And Destroyer Drax was not with Star-Lord either, so the only ones who were with Star-Lord on this vacation were the Raccoon and Groot in Recovery.

"Groot! You finally came alive!" Rocket the raccoon, who was called by the Star-Lord, exclaimed excitedly.

"Yes, he came alive..." Seeing Rocket's excitement, Star-Lord on the side reluctantly agreed. In recent days, they have all been waiting for Groot's "Resurrection", but Groot should have come alive long ago, and he had secretly created a lot of pranks these days and they were all aimed at Star-Lord.

"I AM GROOT!" Hearing Rocket's words, Groot, who had become a potted plant, waved a small branch and responded with the same excitement. However, no matter how smart Groot is, it seems to have only these three words he could say.

"Haha! That's right! You are Groot! Groot!" Seeing that Groot is now alive and kicking in the pot, Rocket is really relieved.

During the previous battle with Ronan, Groot sacrificed himself in order to protect his friends. In the end, Rocket could only pick up a branch in Groot's broken body and take care of it. Now Groot is finally alive again.

"It seems that the planet chosen for this vacation would also be of great help to Groot's recovery. The planet we are about to land on is a very primitive planet, which seems to be similar to Groot's hometown." Seeing Groot's situation, Star-Lord interrupted.

As the SpaceShip constantly penetrates the atmosphere and descends towards the surface of the planet, Groot seems to have become more active.

"Yes, such a primitive planet, the environment must be very well preserved, it is very suitable for Groot to recover." Hearing Star-Lord's words, Rocket's eyes widened as he shouted.

"I AM GROOT!" As if responding to the words of Star-Lord and Rocket, Groot in the pot stretched out two branches and shouted loudly. From its tone, Star-Lord and Rocket could hear that Groot was indeed very happy.

"Haha! Then let's stop there as the first stop of this vacation!" Groot needs a suitable growth environment for his recovery, so Star-Lord directly chose a dense forest on this planet as a landing point.

Huhu!

After the Star-Lord planned the location of this landing, the Spaceship, which was about to penetrate the thick atmosphere, adjusted its downward direction, and quickly landed towards the target location.

In the forest where the Star-Lord was about to land, Lin Rui, who was resting in the valley, did not know that a Spaceship was quickly landing here. Moreover, this very person is still someone that Lin Rui “Knows”.

...

Lin Rui, who was sitting next to Deadpool, closed his eyes slightly and was in a state of relaxation and meditation. Of course, Lin Rui also allocated half of his energy to pay attention to the situation outside the valley. Once there is any movement, Lin Rui will react to it instantly.

While resting, Lin Rui kept thinking about how to leave here and return to Earth. He probably has no hope for the local civilization on this planet. Lin Rui thinks that tomorrow may really be troublesome as they would have to face the monsters in this forest.

“Huh...” Lin Rui exhaled silently, thinking about these things. If he had known this then he would not have entered that Space Portal so rashly, who knew that Space Portal would teleport him to this ghost-like place!

...

Lin Rui was guarding the seriously injured Deadpool while the unexpected visitor, Star-Lord, was driving his Spaceship to land. Today, a distinguished guest came to Asgard Palace, which is located in the center of the Nine Realms.

In Odin’s luxurious and majestic palace, Odin and Ancient One are sitting face to face at both ends of a long table. As the King of Asgard, Odin himself possesses very powerful strength, and his aura is faintly exuding some pressure even if he sits there peacefully.

However, although the Ancient One sitting opposite him does not have the aura of a superior person like Odin, Ancient One can give people a grand and generous feeling, and his aura does not lag behind Odin.

“So what does Sorcerer Supreme want with Asgard today?” Sitting across the long table, Odin stared at the Ancient One opposite to him and asked heartily.

As two outstanding people (gods) in the Nine Realms, Odin still respects the Ancient One in front of him very much.

Many years ago, when Odin was young and vigorous and led Asgard to conquer one civilization after another in the universe, and also made the name of Asgard resound in the universe. However, later Odin understood that the entire universe could not be conquered by force.

After his middle age, he disbanded Asgard’s most powerful expeditionary army and exiled his eldest daughter, Hela, who was the best fighter. Since then, he has stayed in the Nine Realms and has become the King, maintaining the stability of the Nine Realms.

As for why Odin had such a big change, no one knew. However, Odin, who has been conquering other civilizations for half his life, is very respected towards the Ancient One, which is enough to show the strength of Ancient One.

“Haha! King Odin is straightforward. I do need some help this time.” Upon hearing Odin’s words, Ancient One replied with a smile on his face. Since Odin is so straightforward, Ancient One won’t be ambiguous.

“What do you need? Is it because someone is going to invade the Nine Realms?” Hearing Ancient One’s answer, Odin asked with a slightly serious expression.

Currently, Asgard is fighting Frost Giants and Dark Elves. Even with Asgard’s military power, this battle will not end for a while. When Ancient One came over, Odin naturally thought of some form of invasion on the Nine Realms.

“No, I’m just looking for someone, I need Heimdall’s help.”

### **CHAPTER 530 SEEKS**

Hearing what Ancient One said, Odin’s eyes flashed with some light. Originally, Odin thought that the things that would trouble Ancient One would be at least serious, but he didn’t expect him to be just looking for someone. However, it still depends on who Ancient One is looking for. Maybe it is a very important person.

“Looking for someone? Of course, that is okay. But may I know who you are looking for?” After thinking for a while, Odin directly agreed.

“I’m just looking for a lost boy, he is not an influential figure. Out of the concern of everybody, I came here to get help.” When Odin asked who he was finding, the Ancient One replied with a smile.

For Ancient One, no matter what secrets Mirage Knight has, he would always remain a boy to him. Moreover, his soul came from another world. Therefore, on the one hand, Ancient One hopes that this kid can lead the earth’s civilization to the next step, on the other hand, he is also secretly looking at him to judge his worth.

“A boy? You can directly go to Heimdall, and he will help you find this lost boy.” Hearing Ancient One’s answer, Odin’s face remained expressionless, and then he told Ancient One directly.

Although Ancient One had a very simple explanation for the person he was looking for, Odin would not really believe what Ancient One said. It is certainly not easy for Ancient One to come forward to Heimdall to help find someone.

Moreover, the Ancient One is very strong, if someone was simply lost then Ancient One would have been able to find them by himself. Asking for Heimdall’s help means that this ‘lost boy’ is still quite far away, which makes Odin think something more.

“Thank you, King Odin. By the way, your eldest son Thor has been doing quite well on the earth, that kid has potential, Odin, your approach this time was very correct.” After hearing Odin’s answer, Ancient One said with a smile. Finally, he also mentioned Thor, who was on the earth and talked about Thor’s situation at this time.

“Haha, is that right? Thor lacks the experience of ordinary people. This exile will also let him know the life of ordinary people.” Hearing Ancient One complimenting his son, Odin smiled and agreed.

Although the previous Thor’s strength was good, it was not enough for him to inherit Asgard like this. The Frost Giant incident is an opportunity for Odin to let Thor feel the experience. After this exile, Odin hopes to see a mature Thor. Of course, if Loki can meet the standard in Odin’s heart, then he will really be complete.

“The stability of the Nine Realms still needs Asgard to guard over it. I believe Thor will be able to take on this responsibility in the future.” Taking a sip of the tea on the table, Ancient One said calmly.

Now that Odin had agreed to help, Ancient One was not in a hurry now and chatted casually with Odin in this luxurious hall.

Anyway, Mirage Knight still has some strength, and there is still a trace of Ancient One’s magic mark on his body. Delaying such a moment will not put him in any more danger than he already is and Lin Rui should be able to deal with that.

“Yes~ He is the Prince who wants to inherit this responsibility, but...” Hearing Ancient One’s words, Odin sighed as if thinking of something.

Then, the two “Gods” of superb strength met each other, drinking tea or wine and chatted. In this universe, there are not many people who can have such a status as them.

After spending about an hour and a few drinks with Odin, Ancient One left the hall and headed towards Bifrost Observatory. Heimdall is a loyal warrior who has dedicated his life to Asgard, and he guards the Bifrost at all times to prevent foreign enemies from invading it.

When Ancient One appeared in the Bifrost Observatory, Heimdall was resting with his eyes closed. During this time, Asgard has been fighting against the Frost Giants and Dark Elves, and Heimdall has not had much time to rest.

Call!

When the Ancient One appeared in front of him, Heimdall silently opened his golden eyes. He looked at the Ancient One in front of him with respect in his eyes.

“Sorcerer Supreme. King Odin has told me the matter, now please tell me who I am looking for.” Heimdall, who had already received information from Odin, politely asked Ancient One.

“Well, this is the person I’m looking for.” Hearing Heimdall’s words, Ancient One didn’t talk nonsense as he nodded and waved to construct Lin Rui’s image with golden light in front of Heimdall.

In addition to his appearance, the image of Lin Rui constructed by Ancient One also has his appearance in the Phantom Suit. After all, the Ancient One doesn’t know what kind of uniform Lin Rui is wearing in the universe.

“Humm? Ok, I got it.” After carefully observing the two images constructed by Ancient One, Heimdall finally nodded seriously and replied.

“His position is in that direction but I cannot judge the distance between us. So I will now need your help to determine his location.” After Heimdall recorded Lin Rui’s appearance, Ancient One reached out and pointed out a direction in the sky above Bifrost to remind Heimdall.

“I see, it may take some time.” Heimdall agreed after looking at the direction Ancient One pointed out.

Then Heimdall closed his eyes again. A few seconds later, Heimdall’s closed eyes opened instantly, and there was a golden light within his eyes, and the place he was looking at was exactly where Ancient One had pointed out.

...

Huhu~

In the silence of the night, there was not even a bird chirping around. Lin Rui, who was sitting close to the pool and resting, suddenly felt a breeze blowing in from the forest, and then he heard movement from Deadpool who was lying on the side.

“Huh? Deadpool, are you alive?” Lin Rui opened his eyes and asked aloud when he noticed Deadpool’s movement.

Kaka~

“Hiss!~Ah!~What do you mean alive!? I didn’t die anyway!” Deadpool, who has recovered from his serious injuries, shouted angrily when he heard Lin Rui’s words.

“Oh, well this happens every time you die like this so I’m used to it.” Not carrying about Deadpool’s dissatisfaction tone, Lin Rui continued.

Phoo~

“What about that monster? Don’t say we both are in his stomach right now!” Turning over on the ground, Deadpool saw the darkness around him, and his funny character made him ask such a question.

“Yeah, we are grilling fire in that monster’s stomach right now!” Lin Rui replied faintly after flicking at the fire in front of Deadpool.

Brush!

“Don’t tell me, you got rid of that monster!?” Realizing that what he said was too stupid, Deadpool walked towards Lin Rui’s side and asked with a shocked look on his face.
