

Marvel 531

CHAPTER 531 SPACESHIP

Looking at Deadpool's incredible look, Lin Rui wanted to answer that he was indeed the one who got rid of that monster. However, Lin Rui finally shook his head.

"No, the big guy stopped chasing after us."

Shout!

"That's it! Then that's good!" Hearing Lin Rui's answer, Deadpool felt a little more balanced.

Deadpool was killed by that monster as soon as he met him. If Lin Rui could even deal with such a monster then where had his current strength reached?

However, if Deadpool knew that Lin Rui intends to wait until the day to go out to find the monsters to kill them to earn a large number of Reward points so that he could go back to Earth, I don't know what he will think.

"Well, that big guy is indeed very powerful. However, if we can't find other ways to return to the earth, I would still have to find it." Lin Rui can't really explain his System to Deadpool, so he can only explain in that simple sentence.

"Huh?! You would find it?! Didn't you plan to find the local civilization on this planet? By the way, is this the place where you found the Artificial building before?" Deadpool asked with some surprise on his face when he heard Lin Rui's words.

On such a primitive planet, Deadpool's force value has been suppressed to an extremely low level. Therefore, all he can do is rely on Mirage Knight in front of him. Therefore, if Lin Rui wants to do anything, Deadpool can only follow.

"Well, this small valley was Artificially constructed. However, the artificial traces here are also from a long time ago. I suspect that the Alien Civilization came to this planet many years ago but they left. Therefore, this planet may be a very primitive planet, and it is also possible that there would be no civilization that can help us leave here and return to Earth." Hearing Deadpool's doubts, Lin Rui replied faintly while looking at the fire in front of him.

As for why this valley prevents the monsters from setting foot inside of it, it is not something Lin Rui can figure out now.

"Damn! Then how do we return to Earth?! Although it is great to be the first Earthman to see an extraterrestrial planet! But I don't want to spend the rest of my life on such a deserted planet! I have a beautiful Girlfriend who is still waiting for me at home!" Hearing Lin Rui's answer, Deadpool shouted unacceptably.

Huhu!

Just when Lin Rui was thinking about how to explain the way he had for going back to the Earth to Deadpool, the gentle breeze that had been blowing before suddenly became a little bigger, and the flames on the fire in front of them became chaotic under the increasing wind.

“En?” Feeling the abnormal change in the blowing wind, Lin Rui looked up and glanced around with some doubts in his heart.

Huhu!

Just as Lin Rui looked upwards without seeing anything around, he saw a Spaceship flowing over the valley. In the stunned sight of Lin Rui and Deadpool, the Spaceship actually stopped above their heads. Needless to say, this Spaceship should have discovered Lin Rui and Deadpool in the valley.

Kaka!

When the Spaceship hovered over Lin Rui and Deadpool’s head, a few beams of white light shone from the Spaceship, which just shrouded the location of Lin Rui and Deadpool, and also covered this piece of land. The big valley was completely illuminated.

“W!...T!...Fuck!... That’s a Spaceship!!...” Standing in the middle of the light, Deadpool looked up at the Spaceship and shouted with a shocked look on his face. However, even though he was yelling, Deadpool still stood there and didn’t move. He didn’t know if it was because he was too nervous or if his legs refused to move.

“So it is... That is really a Spaceship! Is it from an indigenous civilization on this planet? If it is a peaceful civilization then we should be able to communicate. I hope it is not a violent civilization, otherwise, it would be dangerous.” Compared to Deadpool, Lin Rui was also very surprised. However, Lin Rui thought of a lot more at this moment.

Although for the people on earth, Aliens and Alien Civilization are really enough to be science fiction and scary. But for Lin Rui who has a better understanding of Marvel World, seeing Aliens will not shock him. Anyway, his friend Thor is also an alien.

Buzzing!

After emitting a few beams to illuminate the valley, the Spaceship hovering above Lin Rui and Deadpool slowly began to descend. It looks like it is about to land in this valley, and it seems that only this valley in this forest can allow this Spaceship to land safely.

“Ahhhh! It’s coming down! Should we run?!” Deadpool leaned close to Lin Rui and asked quietly as the Spaceship above his head was falling. Deadpool, who was shocked at first, was already a little calmer by this time, and he was also worried about what dangerous Alien life form would come out of this Spaceship.

“Is it even possible to run away from a Spaceship? Let’s just see what this thing...er...what does that alien want to do. Since it didn’t attack us the first time it found us, then at the least they are not cruel.” Lin Rui also replied in a low voice when he heard Deadpool’s words.

“Then... should we move?” Hearing Lin Rui’s answer, Deadpool looked at the Spaceship that had landed about ten meters above and asked. Because their location is just below Spaceship, if they don’t go then the Spaceship will crush them.

“Yeah, let’s do that.”

Brush!

With a nod, Lin Rui and Deadpool had instantly appeared on the edge of the Spaceship landing position. When avoiding the landing position of the Spaceship, Lin Rui and Deadpool have shown a speed far beyond ordinary people. They also want to let the Aliens in Spaceship know that the two of them can't be suppressed.

After all, judging from the size and appearance of this Spaceship, the Aliens inside will not be too large, nor will there be too many. If friction really occurs between the two sides, the more strength Lin Rui and Deadpool show, the better the Aliens would restrain themselves.

Huhu!

After Lin Rui and Deadpool avoided the Spaceship's landing position, the Spaceship quickly fell, and finally stopped by the water in the middle of the valley. Lin Rui and Deadpool have been staring at Spaceship after Spaceship stopped, and they can see a place that is obviously a hatch facing them.

Therefore, if the Aliens inside were to come out, they would be able to see them for the first time.

Pū Chih~huh!

Just as Lin Rui and Deadpool were staring at the position of the hatch, a sound suddenly came out from the Spaceship hatch. Then, the closed hatch quickly opened from bottom to top. In Lin Rui and Deadpool's concentrated gaze, a pair of hairy legs and a pair of normal human feet appeared first in their eyes.

Huhu!

With the hatch fully opened, Lin Rui and Deadpool had already seen the two guys standing behind the hatch.

CHAPTER 532

Huhu~

The breeze in the valley illuminated by the beams from the Spaceship was blowing, and the two Aliens standing in the hatch were also looking at the two guys outside at the same time when Lin Rui and Deadpool were watching them.

However, when they saw each other's appearance and figure clearly, the faces of the four people who looked at each other showed surprised expressions.

"That!... Is that a cat? It turns out that there are really cats in this Universe!!" Deadpool was the first to react as he pointed to the furry and armed animal standing outside the cabin door and shouting loudly.

"Cat?! What is that?" Rocket, who could understand English, asked in confusion when he saw the "Indigenous People" outside yelling at him. As he asked, Rocket looked at the Star-Lord beside him. Because instinct told Rocket that the Cat word is something that is recognized by Star-Lord.

"Pūchi! Hahaha! Cats! He called a Raccoon a Cat?!" However, after Rocket asked this question, Star-Lord, who was still a little stunned, suddenly reacted and laughed out loud while holding his belly.

“Haha! Cat! Rocket, he called you a cat! But now that I think about it, you really do look like a cat! A cat walking on two feet!” Seeing that Rocket next to him did not understand the words of the guy opposite to them, Star-Lord repeated those words. While explaining, Star-Lord did not forget to continue Deadpool’s ridicule.

Deadpool was simply surprised to see an Alien who looked like a cat, and Star-Lord was joking among friends.

“En?! Did he say that I’m a cat walking on two legs!?” After Star-Lord explained, Rocket understood what Deadpool had just said. Rocket can’t stand people saying that he is a cat, a dog, and many other things.

Kaka!

“You are dead meat!” The consequences of angering such a little guy are very serious as Rocket directly took out the modified gun on his back and aimed it at Deadpool and opened fire.

Pū Pū Pū!

In front of Star-Lord’s meaningful expressions and the shocked expressions of Lin Rui and Deadpool on the opposite side, Rocket’s attack instantly hit Deadpool.

Rocket, as a weapon master, will not accidentally shoot Lin Rui if he wants to fight Deadpool. Therefore, those few energy bullets all attacked Deadpool. However, how could Lin Rui let Deadpool bear such an attack?

Brush!

When Deadpool was staring at the attacks with astonishment, Lin Rui had already pulled out his Beheading Spirit Sword in an instant and swung it out towards the few energy bullets in front of him.

Huhu!

Rumble!

In the next moment, the energy bullets launched by Rocket exploded in mid-air under the interception of Lin Rui’s Sword Energy. However, Lin Rui’s Sword Energy continued to rush out towards the rear after rushing through the explosion area. Under Lin Rui’s control, the Sword Energy slowly dissipated before it hit Star-Lord and Rocket.

“Don’t speak indiscriminately in an unfamiliar environment!” After resolving Rocket’s attack, Lin Rui looked at Deadpool next to him and said angrily.

“I... it!... How do they even know what I’m talking about? Is English still the universal language of the universe?” Deadpool was surprised to hear Lin Rui’s words. Although Deadpool knew that he shouldn’t have shouted out loud, but how did the Alien know what he was talking about?

“Although English is not the universal language of the universe, it does not prevent others from being able to understand it! The development of civilization in this universe far exceeds your belief and imagination.

Would it be so strange for them to have a Universal Language Translator!" Hearing Deadpool's words, Lin Rui explained helplessly.

"Universal Language Translator!? Is there even such a thing? What should I do now? They will not treat us as enemies just because of what I said, right?" Deadpool asked in a low voice after hearing Lin Rui's explanation.

"This shouldn't be enough for them to see us as enemies... But you will stop talking later, let me communicate with them."

"Ok!"

Although Lin Rui was very surprised when he saw the person in front of him just now, but after the surprise, Lin Rui was praising and cursing his luck. Because, if Lin Rui didn't guess wrong, the person in front of him should be from the team he knew. If he is him then Lin Rui's chance to return to Earth lies with this person in front of him!

As Lin Rui was communicating with Deadpool in a low voice, Rocket and Star-Lord over there were equally surprised. Star-Lord is surprised because, in the beginning, he heard Deadpool yell out in English, which means that the two guys in front of him were from his home planet, Earth.

This makes Star-Lord feel very curious, has Earth's technology developed to this point in just two decades? This planet is far away from where the earth is!

Therefore, Star-Lord deliberately explained Deadpool's words to Rocket, just to anger Rocket and let him try to test the two guys who are suspected to be from the earth on the opposite side.

After Rocket attacked, Star-Lord was even more surprised to see the results. Although Lin Rui only used a sword in front of Rocket's attack, his attack method surprised Star-Lord very much. It didn't look like a technological weapon.

As for Rocket, he was also surprised. Although he was angry just now because Deadpool called him a cat, but the power of his attack was just intended to let Deadpool suffer a lot and not kill him. However, the guy standing next to Deadpool easily took care of his Energy Bullets. This attack method greatly attracted Rocket's attention.

So, after looking at Lin Rui and Deadpool again, Star-Lord decided to speak first.

"Hello! My name is Star-Lord from Guardian of the Galaxy, are you guys from the Earth?" Star-Lord asked with a smile on his face while he walked down from the hatch.

After Star-Lord walked out and spoke, Rocket also put away his weapon and walked behind him. Since he has already attacked just now, he won't make another move. Moreover, the other party does not look so easy to provoke.

Hearing Star-Lord's words, Lin Rui's eyes flashed under his mask, "Sure enough, I guessed right! He is the Star-Lord of the Guardian of the Galaxy!"

Seeing Star-Lord and Raccoon walking towards him, Lin Rui gave Deadpool a look, and then he also raised his foot and walked towards Star-Lord.

“It turns out to be the Star-Lord of the famous Guardian of the Galaxy. I am glad to meet you! I am Mirage Knight from Earth, and this is Deadpool. We are sorry for what he said just now.” Facing Star-Lord and Rocket, Lin Rui introduced himself and Deadpool calmly.

CHAPTER 533 FELLOW

Five minutes later, Lin Rui, Deadpool, Star-Lord, and Rocket were sitting next to Star-Lord’s Spaceship and chatting. Looking at their expressions, they should be talking well, and the atmosphere between them is okay.

“So many things have happened on the earth in the past two years! Speaking of it, I have been away from the earth for more than 20 years. Now that I hear you say that, I really want to go back to the earth to see it.” Sitting on the grass, Star-Lord spoke with some emotion in his voice.

Just now, after confirming that Lin Rui and Deadpool really came from the Earth, Star-Lord was very excited and he began to ask them about the current situation of the earth.

After a brief introduction by Lin Rui, Star-Lord, who has been wandering in the universe for so many years, has a feeling of longing for his home on earth. This is of course Lin Rui’s plan. As long as Star-Lord had such an idea in his mind, Lin Rui would be able to persuade him to send himself and Deadpool back.

“Well, the development of the earth is indeed very good now. However, the earth has been facing some recent dangers, whether external or internal. If you are willing to do something for your hometown, Star-Lord, I think the people on earth will appreciate you.” Now that Lin Rui has aroused the homesickness of Star-Lord, he continues to persuade him.

The plots of Star-Lord and Guardian of the Galaxy did not overlap with the earth in the early days of the Marvel Movieverse, but this does not hinder Lin Rui’s plan to bring the Star-Lord team on the Earth. After all, Star-Lord and his Guardian of the Galaxy also have a Protagonist aura.

In addition to the protagonist halo, the identity of Star-Lord himself is not that simple. Otherwise, he would not have been able to grasp the Power Stone with his bare hands and survive. Even Thanos needed the help of the Infinity Gauntlet to use the Infinity Stone.

“Although I really want to know what the earth has become now, but I have other things I need to do now.” Hearing Lin Rui’s words, Star-Lord answered with a frown.

Because Star-Lord and his adoptive father Yondu fell out with each other and he left Yondu’s pirate group. Now the Guardian of the Galaxy of Star-Lord has been fighting alone.

In addition to hiding from Yondu, they have been running around in the universe to pick up some mercenary missions. After all, their nature is still that of a Universe mercenary, how would they live if they do not take missions to earn money.

“Other things? Is it important? Maybe we can help.” Lin Rui felt that his chance of going back to Earth through Star-Lord had been reduced a lot after hearing Star-Lord say that he had something to do, and asked quickly.

“It’s just some housework. My current vacation time is squeezed out. In two days, we will set out to complete our next mercenary mission. Although we do not have a complete team, there are still many

more missions that we can complete. Also, we are not a big mercenary group so we need to earn what we can." Hearing Lin Rui's question, Star-Lord briefly explained his situation in two sentences.

While explaining, Star-Lord also complained about the Guardian of the Galaxy's current situation in the universe.

"So..." Hearing Star-Lord's explanation, Lin Rui didn't know how he should ask Star-Lord to send himself and Deadpool back to Earth.

"That, Star-Lord, can you send us back to Earth?" Just when Lin Rui was struggling, Deadpool, who had been holding back, finally couldn't hold back his words. Deadpool had been listening to Lin Rui's words just now and didn't say anything, but now he couldn't help it.

"Uh...send you guys back to Earth? Oh, yes, you were accidentally teleported here by a Space Portal! Speaking of which, the teleportation distance of that Space Portal is really far, the earth is really very, very far away from here." Hearing what Deadpool said, Star-Lord suddenly reacted.

However, as he talked, his thoughts shifted to the Space Portal that was used to bring Lin Rui and Deadpool here.

"Ahem!" Just as Star-Lord's thoughts drifted, Deadpool couldn't help coughing twice.

"Well, yes, we can send you back to Earth! But that is probably impossible for the time being. It will take a lot of time to get to the Earth from here as it would at least take two months for the light journey. But we are going to do the mission now and it may be a long time before our mission is over." Under Deadpool's cough, Star-Lord finally answered his question.

However, Star-Lord's answer did not make Deadpool and Lin Rui feel better. It will take two months for them to get home even if they start now, not to mention that Star-Lord has no time now. Who knows when they will have time, Lin Rui knows that Guardian of the Galaxy also has a lot of things they need to do.

If Lin Rui and the others are involved in a certain plot of the Guardian of the Galaxy while they are with Star-Lord, Lin Rui wonders if he can persist on the big stage of the universe.

"Then, is there anyone else who can send us to Earth? We can pay them some rewards. By the way, what do you use as rewards for missions now?" Since Star-Lord had declined, Lin Rui can only think of some other way. If anyone else is willing to send him and Deadpool back to Earth, Lin Rui doesn't mind giving them something.

"Even if some other people agree to send you back to earth, they would want more pay. The main reason is the distance between here and the earth, and the other is that the earth is a little more special. Generally, the Interstellar fleet will not pass by that planet.

However, if you really want to go back to Earth this way, I can drop you at Xandar, where you should be able to find someone who could send you back to Earth." Hearing what Lin Rui said, Star-Lord first shook his head slightly and then pointed out the option to Lin Rui.

After all, Guardian of the Galaxy rescued Xandar and eliminated Ronan not long ago. Xandar owes the Guardian of the Galaxy a favor, and it should be fine to help send two people to Earth.

“Huh? Xandar? This is also a feasible way, so I would ask you to drop us at Xandar.” Lin Rui also knows that Xandar is a pacifist planet, so he is more at ease.

“Haha, that’s okay. This time, we can take a little detour to drop you over on the way to complete our mission, and we would be there in a few days.” Star-Lord felt that there should be no problem as they are only going to Xandar.

“Thank you, Star-Lord, if you need our help, just say and if I can help, I will try my best to help. From now on, the Guardians of the Galaxy’s team is our friend.” After Star-Lord promised to help him, Lin Rui also spoke.

Although Lin Rui’s words don’t matter to Star-Lord, this is already the greatest sincerity Lin Rui can show him. Moreover, in the future, Star-Lord will find out how correct the current decision he made was.

“Haha, since you say we are friends, how can any friend not even know what the other person looks like?” Star-Lord smiled and asked when he heard Lin Rui’s words. From their meeting until now, Star-Lord has been very curious about what this person looks like.

Because Star-Lord’s detector could not penetrate Lin Rui’s mask, this aroused his interest even more.

CHAPTER 534 UNCOVER

Hearing Star-Lord’s words, not only Rocket who was sitting aside playing with the machine gun in his hand raised his head with interest, but even Deadpool next to Lin Rui looked at Lin Rui very curiously.

In fact, not only is the Star-Lord curious about the appearance of Mirage Knight but in the League of Defender, everyone except Spiderman and Dark Knight is curious about this super powerful, mysterious person identity who possesses various magical items.

Seeing that the three people around him were looking at him after Star-Lord said those words, Lin Rui felt helpless. Indeed, he said just now that he was friends with Star-Lord, so how can anyone who doesn’t even know how he looks call him a friend?

Although no one in League of Defender knows what he looks like except Spiderman and Dark Knight.

However, that was on earth, Lin Rui needed to protect his real identity, in order to prevent the previous Hydra incident from happening again.

As for now, he is facing the Guardian of the Galaxy wandering in the universe, what will happen even if they see his face? As for Deadpool next to him, Lin Rui also feels that there is nothing to worry about.

“In that case...” Lin Rui agreed with the three pairs of eyes in front of him. Then, his right hand was already on his face.

Phoo~

There was no sluggishness in his movements as Lin Rui directly took off the black mask on his face. Then, Deadpool, Star-Lord, and Rocket saw a young face appearing in front of their eyes.

“!... Damn!! Mirage Knight! So you look like this!” The moment he saw Lin Rui’s face, Deadpool’s reaction was the biggest, and he shouted out in shock.

At this time, Deadpool was shocked more severely than when he saw Star-Lord's Spaceship just now. After all, he had been guessing what a mysterious face was under Mirage Knight's mask. Now that the mystery was revealed, Deadpool was not disappointed, but the surprise was still indispensable.

Originally, Star-Lord and Rocket were a little surprised after Lin Rui unmasked himself and they saw him, but compared to Deadpool's shock, they seemed much calmer.

After all, having been in the universe for so many years, they have seen all kinds of people, and the appearance of a young man with some magical strength in front of them is not enough to surprise them. Moreover, the appearance of this young man is not so peculiar.

However, Deadpool's surprised expression startled Star-Lord and Rocket. Didn't this young man's companion ever know what he looked like before?

"So you are so young, are all the young people on earth like you now? However, I think that when I was your age, I also followed Yondu... uh... on a mission." Not getting concerned about why Deadpool doesn't know what the young man looks like, Star-Lord said with some emotion in his voice after seeing Lin Rui's face.

When Star-Lord's eight-year-old mother was in the late stage of cancer, Star-Lord was taken away from Earth by Yondu. Since then, Star-Lord has grown up with the Space pirates.

As an ordinary person from the earth, the growth history of Star-Lord has not been so smooth. So, if Lin Rui experienced so many amazing things at the age of seventeen, then the things that Star-Lord experienced after the age of eight are much more impactful than those experienced by Lin Rui.

"What kind of young people on earth are so great!? This guy...this guy! This guy is an anomaly! You still look so handsome and are so strong even though you are so young!" Hearing Star-Lord's words, Deadpool shouted while feeling dissatisfied in his heart.

It seems that Lin Rui's age and appearance have hit Deadpool's weak points, who is more than 30 years old and disfigured.

Lin Rui: "..."

Hearing Deadpool's words, Lin Rui could only respond with a helpless expression on his face. Anyway, he has taken off the mask now, so he can only listen to Deadpool complaining to him.

"By the way, how many days are you going to rest here this time?" After removing the mask, Lin Rui felt that the distance between him and Star-Lord and the others had decreased, so he asked.

Although Lin Rui knows that there are many other civilizations in the universe of this world, he has never been out on Earth before. What happened on the earth alone was enough for him. Now he finally left the earth accidentally and met Star-Lord of the Guardian of the Galaxy.

Of course, he wanted to know all kinds of strange things in these universes.

"Originally I was going to take a three-day rest, but now the situation has changed, maybe I will stay longer." Upon hearing Lin Rui's words, Star-Lord replied with a smile.

“En? What kind of situation would make you stay longer?” Lin Rui thought that three days was already enough, but Star-Lord said that he would stay longer, so he was more curious.

Moreover, according to the movie plot, the current Guardian of the Galaxy should have three more partners besides Star-Lord and Rocket. Lin Rui is also very curious about the other three people in Guardian of the Galaxy. However, he couldn't show that he knew the Guardian of the Galaxy for a long time. That would be too deliberate.

“It's a partner of ours. He is injured and needs to rest on this planet for a while. This primitive planet would help him in his recovery.” Rocket answered Lin Rui this time.

“Injured partner? That should be Groot.” Hearing Rocket's answer, Lin Rui silently thought in his heart.

“Since your injured partner can have a better Recovery on this planet, why doesn't he come out? Is his injury severe?” After hearing Rocket's words, Deadpool asked curiously.

“Rocket, you go and bring Groot out. I believe he will also like these two friends from my hometown.” Originally, Star-Lord did not intend to expose Groot to outsiders, but he was sure that both of them were trustworthy, so he no longer intended to let Groot hide in Spaceship.

“Okay, but don't talk nonsense while you wait! Otherwise, I won't just hit you with electric bombs this time.” Hearing Star-Lord's words, Rocket agreed. When he got up, Rocket also glared at Deadpool.

“Uh... don't worry, no matter what your partner looks like, I will treat them normally.” Seeing the cat-like figure staring at him, Deadpool replied with a smile.

Shout!

“Ah!~~~...” Just after Deadpool had finished saying this, Rocket, who had already walked out for two steps, suddenly turned around and raised the muzzle and fired a shot at Deadpool. Then, Deadpool was electrocuted with his mouth open. This time, Lin Rui didn't help Deadpool. Who told him to speak so much.

Call!

After knocking down Deadpool with a high-powered electric bomb, Rocket walked into the Spaceship to pick up Groot. With the power of the electric bomb that Rocket had shot just now, Deadpool would remain paralyzed for at least a few hours. At that time, Rocket's punishment for him will probably end.

“Uh~er~er~er~er~...” Deadpool, who was attacked by the Rocket wanted to reach out and take away the electric bomb from his neck, but his body was not listening to him right now, and his teeth trembled while his whole body convoluted.

Two minutes later, in front of Lin Rui's expectant gaze, Rocket appeared again from the Spaceship hatch. This time, instead of holding a machine gun in his hand, he was holding a potted plant carefully.

Chapter 535 Good Intention

Holding the potted plant in both hands, Rocket looked very careful. Although Groot is now resurrected, he is still just a small branch and he still needs to be taken care of. However, as a potted little Groot, there is no self-awareness to it.

After leaving Spaceship, he happily twisted his not-so-thick branches. It seems that the environment of this primitive planet is indeed very suitable for Little Groot's Recovery.

"Uh~ uh~ uh~ uh~ uh~...then~is~live~pots~potted plants!~" After seeing what Rocket was holding out, Deadpool relied on his powerful Recovery ability and he had already recovered some action and he still couldn't help but shout in surprise.

Boom!

However, when Deadpool stammered out this sentence, Lin Rui, who was next to him, had already slapped him and closed his mouth. Then, Lin Rui was also very surprised to observe the live branches in the pot that Rocket held.

Of course, Lin Rui knew that this moving branch was Groot, the tree man in Guardian of the Galaxy, but Lin Rui was still very surprised to see such a magical scene with his own eyes.

Phoo~

Rocket held little Groot and finally walked slowly towards Lin Rui and Star Lord's side. After placing the potted plant in his hand on the ground, Rocket glanced at Deadpool lying next to him and finally ignored him.

"This is our partner, he is a tree man from Flora Colossus Species, his name is..."

"I AM GROOT!" Just when the Star-Lord introduced little Groot to Lin Rui, little Groot who had been placed on the ground yelled out loudly. However, the little Groot yelled out in its own language and not in English, so Lin Rui did not know what it was yelling about.

"Hehe, he is introducing himself. His English name is Groot." After the little Groot finished shouting, Star-Lord followed and explained in English.

"Hello Groot, I am very glad to meet you." Hearing the introduction of Star-Lord, Lin Rui looked at the little Groot and greeted him with a smile on his face.

In Guardian of the Galaxy, Groot's character does not seem to have much power, but he is more popular than a protagonist like Star-Lord. Because Groot's cuteness and his extremely loyal character are the highlights of everyone's liking for him, not to mention that he has become so cute after getting smaller.

Phoo~

Just when Lin Rui greeted Groot with a smile on his face, little Groot seemed to understand what Lin Rui was talking about, and even stretched out one of his branches towards Lin Rui. The thin branches stretched out in front of Lin Rui, and finally stopped by Lin Rui.

"En? This is..." Noting little Groot's movements, Lin Rui looked at Star-Lord suspiciously.

"Haha, it seems that Groot likes you very much, he is asking for a handshake!" Star-Lord who had seen Groot's action was also a little dazed, but he quickly explained when he saw Lin Rui's expression.

However, although Star-Lord explained to Lin Rui this way, he himself was a little confused. Groot and its species are indeed a very kind race, but they don't get close to a stranger casually. Is there something

weird about this fellow in front of him? However, Groot did show kindness to him so he should not be suspicious.

“Haha, I also like Groot!” Hearing Star Lord’s explanation, Lin Rui smiled and stretched out his hand.

Then, the small branch that Groot stretched over was wrapped around the index finger of Lin Rui’s outstretched palm. After wrapping Lin Rui’s index finger a few times, Groot finally tapped Lin Rui’s palm with the tip of the branch.

After Groot’s branches touched him, Lin Rui suddenly had a special feeling in his heart, it was as if he felt the vague thoughts of a simple child. At the moment when Groot’s tree tip was in the palm of his hand, Lin Rui only felt that a coolness quickly spread from the palm of his hand to his whole body.

The exhaustion of having experienced ultra-long-distance teleportation and fighting monsters in the forest had disappeared at this point.

“Thank you, Groot.” Feeling the changes in his body, Lin Rui looked at the little Groot in front of him and thanked him sincerely.

“En? Did Groot established a Synesthesia with you!” Rocket Raccoon was a little surprised when Groot took the initiative to show kindness to Lin Rui. After noticing that Groot helped Lin Rui relieve his fatigue, he finally couldn’t help but speak.

Synesthesia is a way for a series of special lifeforms to share the feelings of other lifeforms. Groot’s species belong to this special kind of lifeforms who are capable of synaesthesia, but each synaesthesia consumes its own mental power that is not too strong.

Not to mention helping the other party to eliminate the negative state of the body during synesthesia. This is not an ordinary show of kindness.

“Synesthesia, what is that?” Lin Rui expressed his bewildered expression when he heard Rocket Raccoon’s words.

“Mirage Knight, are you really a complete terrestrial? Do you have the gene from Groot’s species or similar other genes?” When Lin Rui was confused, Star-Lord also asked with a surprised look on his face.

Little Groot is now growing up, and he already established Synesthesia for a stranger that he had met for the first time, which makes Star-Lord and Rocket feel a little bit confused.

Therefore, Star-Lord now doubts whether the fellow in front of him is really a complete earthling. Star-Lord himself is from the earth but isn’t he also an alien hybrid, so he still thinks that it is very possible that Lin Rui is also a hybrid.

“I’m really a complete earthling! And, would I even look like this after being mixed with Groot’s race? Not anyone can be with...” Lin Rui replied in shock when he heard Star Lord’s words. In the middle of speaking, Lin Rui suddenly stopped talking, almost telling the story of Star-Lord.

“That’s right, even if you only have a few genes of Groot’s race then you really won’t be like this anymore.” Hearing Lin Rui’s answer, Star-Lord carefully looked at Lin Rui up and down several times before seriously speaking.

“However, why does Groot have a sympathetic relationship with you? This is not normal!” Although Lin Rui does not have the gene of the tree people, Groot’s performance is also very strange.

“Groot, why did you do that? Don’t you know that doing so will slow down your recovery?” Getting no answer from Lin Rui, Rocket looked at Groot and asked seriously.

“I AM GROOT.”

Huhu~

Repeating his name again, the branches that Groot had wrapped around Lin Rui’s fingers slowly loosened. However, Groot did not retract the branch after releasing Lin Rui’s hand but stretched towards Lin Rui’s waist. Finally, this branch of Groot clearly pointed to the position of Lin Rui’s belt.

“I AM GROOT!” Little Groot exclaimed with excitement while pointing to the position of Lin Rui’s belt.

Chapter 536 Gift

Seeing little Groot yelling excitedly while pointing at Lin Rui’s belt, everyone present (except for Deadpool, who was pretending to be dead on the ground) was very confused. Looking at the look of little Groot, is there anything about Lin Rui that excites him?

“Groot, do you want Mirage Knight’s belt?” As Groot’s best partner, Rocket also pointed to Lin Rui’s belt and asked seriously.

“I AM GROOT! I AM GROOT!” However, Groot just kept repeating his name, unable to express what he wanted to express.

However, Groot pointed his branch to Lin Rui’s belt and did not retract it, but gradually approached. However, Groot did not touch Lin Rui’s belt, it seems that his target is not Lin Rui’s belt.

“En? Mirage Knight, is there something on your body, right in your belt?” Star-Lord asked Lin Rui when they were all puzzled by Groot’s performance.

“In the belt? Nothing...Uh! He won’t find it...” Hearing Star-Lord’s question, Lin Rui instinctively answered that there was nothing, but halfway through the answer, Lin Rui’s heart jumped.

In fact, the Phantom Suit weapons are in his belt, except for cold weapons such as a few daggers that are on his body. Lin Rui’s pocket space is at the waist belt, which is convenient for taking out what he wants.

Looking at the current situation, little Groot should have discovered Lin Rui’s portable space, and he is interested in the things in Lin Rui’s portable space.

“What did you find?” Star-Lord asked curiously when he heard Lin Rui’s words and saw Lin Rui’s expression change.

“I have a portable space in here to store my equipment, just inside the belt. He probably found that.” Lin Rui answered generously without intending to hide anything.

“Portable space to store equipment? In this belt?” Upon hearing Lin Rui’s answer, both Star-Lord and Rocket showed surprised expressions on their faces.

Although there are civilizations in the universe that have developed to a very high-tech level, Portable Storage Space has long existed. But Lin Rui has never left the earth, where would he get such high-tech equipment? This is also the reason why Star-Lord and Rocket have not been thinking in that direction because they do not have this kind of equipment themselves.

“Well, since Groot is interested in the things in my portable space, then I probably know what he is getting excited about.” Without paying attention to the surprised expression of Star-Lord and Rocket, Lin Rui knew what Groot was pointing in his pocket space, he probably guessed what Groot was excited about.

Because Lin Rui’s identity makes him often involved in dangerous situations, so after having a Portable Space, Lin Rui has been carrying some essential items with him, such as some powerful weapons and drugs, they all are placed in the Portable Space.

Of course, there are some special items exchanged from the system. The safest place for them to be in the Portable Space.

Then Lin Rui started to take things out of the Portable Space in front of Star-Lord and Rocket. Those weapons are definitely not what Groot needs, so Lin Rui directly took the special items he got from the system.

Buzzing~

Following a small Spatial Fluctuation, a small wooden box appeared in Lin Rui’s hand. After taking out the small wooden box, Lin Rui handed the wooden box directly to Groot.

Seeing Lin Rui take a wooden box out of thin air, and perceiving the Spatial Fluctuations, the surprises on Rocket and Star-Lord’s faces remained unchanged.

“This really is Portable Space equipment! Star-Lord, what kind of planet is your Earth? Did you home develop this kind of thing when you left it?” Not caring about Lin Rui, Rocket asked Star-Lord beside him with a strange expression on his face.

“Uh...I really don’t know anything about this. However, if the development of the earth has reached this point, then even if our mission is not done this time, I will personally send them home!” Star-Lord blinked, then suddenly spoke.

Rocket: “...”

When Rocket and Star-Lord were discussing, Lin Rui had already put the wooden box on the ground.

“Is this not it?” It turned out that when Lin Rui handed the wooden box to Groot, Groot just touched the wooden box and then ignored it. Then, Groot continued to point to the location of Lin Rui’s belt. It seems that what he is interested in is still in Lin Rui’s Portable Space.

“If it’s not Azure Spirit Fruit, is it this?” Seeing Groot’s movement, Lin Rui once again took out a small bottle made from unknown material from the Portable Space after putting down the wooden box.

Originally, according to Lin Rui’s idea, the most valuable thing in his Portable Space was the Azure Spirit Fruit that he just took out. That was the item he received as a System Reward after he completed the

Mainline Quest to eliminate Hydra, which was worth tens of thousands of Reward points in the System Shop.

Moreover, Azure Spirit Fruit is also considered a plant, Lin Rui felt that this thing should be useful for Groot. However, Groot showed no interest in it. Therefore, Lin Rui had to take out the Elven Holy Spring Water from his Portable Space.

Brush!

Just after Lin Rui took out the Elven Low-Level Holy Spring Water, the small branch of Groot that was swaying in front of Lin Rui instantly stretched out. However, in the end, Groot was still a little unsteady and did not directly roll up the bottle containing the Holy Spring Water.

Huhu!

“I AM GROOT!” However, Groot at this time was even more excited than before. The branches all over his body were wiggling excitedly, and he was even calling his name loudly.

“So you want this, I’ll give it to you as a gift.” Although the Elven Holy Spring Water is a little expensive for Lin Rui, it is completely fine to give Groot a bottle. This little fellow is too cute.

After speaking, Lin Rui passed the bottle directly to Groot’s twisted branch. Then, Groot just took up the little bottle. In front of Rocket and Star-Lord, Groot, who was very excited just now, was extra careful when he took the bottle.

“I AM GROOT!” After the Low-Level Holy Spring Water got in his hands, Groot excitedly called again.

Bang~

Then, little Groot opened the small bottle at once. In the next second, the branches curled up in the small bottle poured back, and all the water in the bottle was poured on Groot’s body before Star-Lord and Rocket could stop him.

Chapter 537 Change

Huhu~

After the bottle of Elven Holy Spring Water was poured on Little Groot, it was like a cup of water poured into the desert, and it was completely absorbed by Little Groot before it flowed into the pot.

At this time, Star-Lord and Rocket realized that they wanted to stop him. But it was too late, and little Groot had already drunk the bottle of water that they didn’t know anything about.

Call!

“Groot! How can you drink other people’s things so casually!?” Rocket shouted nervously while grabbing the main branch of Groot.

Little Groot is now at the most vulnerable time. They usually take care of him carefully, for fear that he will not grow up healthy. But now, facing a guy he only just knew, Groot directly drank the water he didn’t know the ingredients, how could it not worry Rocket and Star-Lord.

"I AM GROOT!" Little Groot, who was getting swayed by the Rocket, yelled loudly while swinging his branches, but he couldn't express anything.

"Relax, since Groot took the initiative to drink it, it means he knows that this thing is useful to him. And, I can guarantee that what he just drank will not cause him any harm." Seeing Rocket and Star-Lord's nervous expression, Lin Rui explained with a smile.

"Mirage Knight, can you guarantee it? This is not a joke." Although they felt that what Lin Rui said made sense, Star-Lord had to confirm it again.

"Yes, I promise!" Knowing that Star-Lord is really worried about Groot's safety, Lin Rui answered seriously.

Lin Rui is really not worried about what will happen to Groot. On the one hand, Groot chose the Low-Level Holy Spring Water. On the other hand, Elven Holy Spring Water itself is a good medicine to replenish vitality. It should be very suitable for the current Groot.

Sure enough, just after Lin Rui's guarantee was completed, a very obvious change occurred in Groot in front of them. As Groot completely absorbed the bottle of Elven Holy Spring Water, his dry branches quickly became tender. Moreover, little Groot quickly grew bigger in front of the surprised eyes of Rocket.

As it grows larger, new branches are constantly being drawn from the main branches of Groot, it's just like a tree that is going through its growth process within a few seconds.

Buzzing~

As the Little Groot grew up, more and more branches stretched out from him. On these branches, green leaves slowly grew out. Then, a burst of aura radiated from Groot's body. Feeling this pure aura of life, Lin Rui and others felt very comfortable.

Kaka~

Bang!

Finally, when little Groot had grown to a certain extent, the potted plant that had just held him suddenly cracked. Then, little Groot directly broke free from the shackles of the potted plant and stood on the ground. At this time, little Groot could already see his limbs in addition to the previous main branch.

Pū Pū!

"I AM GROOT!" Groot's feet intertwined with dozens of branches as he happily stepped on the ground a few times, and exclaimed excitedly.

"This?!... Groot, what the hell did you drink?" Seeing that Groot, which was just a potted plant, had grown to this point in ten seconds, Rocket couldn't believe it and shouted.

"I AM GROOT!" Seeing Rocket's shock, Groot shook his hands and replied.

Seeing the changes in Little Groot, Star-Lord was also very surprised. But compared to Rocket, Star-Lord had understood that the small bottle Groot had just drunk was definitely not some kind of growth

hormone. Star-Lord was very grateful that the fellow in front of him could give such a precious thing to Groot the first time he met.

“How could we not know that there is such a miraculous Auxin(Plant Harmon), it must be a special medicine. Thank you, Mirage Knight, it must have been precious!” As Groot was jumping on the ground excitedly, Star-Lord looked at Lin Rui and thanked him sincerely.

“Since this thing can help Little Groot then that’s fine. And, although the small bottle just now was really precious, it’s original purpose was to be used for recovering the vitality in the body, so that it can best reflect its value.” Hearing Star-Lord’s thanks, Lin Rui said with a smile.

Lin Rui felt that it was very worthwhile to be able to use a bottle of Elven Holy Spring Water to make Groot fall in love with him and make Guardian of the Galaxy owe him a favor.

If Groot had just chosen Azure Spirit Fruit that is worth tens of thousands of Reward Points then Lin Rui might have hesitated, but for the Low-Level Holy Spring Water which is only worth a few thousand Reward Points, that is not too much for Lin Rui now.

If Lin Rui didn’t know for the fact that these things are rare, he would have directly redeemed ten bottles of Low-Level Holy Spring Water from the System Shop so that the little Groot can grow to a complete body in a few minutes.

However, if he does that then Star-Lord will feel that Elven Holy Spring Water is very cheap, so they won’t be as grateful as they are now. Moreover, Lin Rui wanted to see more of Groot’s cute appearance when he was a child.

Lin Rui is also thankful that there is only such a bottle of Elf Low-Level Holy Spring Water in his pocket. If he had exchanged for a lot before then it would’ve been difficult to handle the current situation now.

“Recovering vitality?! No wonder Groot will have such a big change! Mirage Knight, even if you don’t tell us the value of this kind of thing, we know it. So, if you don’t mind, I’m willing to pay you Fifty Thousand Galaxy Federal Coins. As a reward.” When Lin Rui said that what Groot drank just now is vitality recovering drink, Rocket was very shocked at first, and then said seriously.

“This...” Lin Rui just wanted to refuse when he heard Rocket’s words, but was interrupted by a voice before he finished speaking.

“Ahhhhhh?”

Deadpool, who climbed over, immediately became interested when he heard Rocket say that they would be willing to pay them. Deadpool was originally a mercenary. Speaking of which, what Deadpool used to do on Earth is similar to what Star-Lord and the others do now in the universe.

“Fifty thousand Galaxy Federal Coins... have you seen this Spaceship? It’s probably worth Two Hundred Thousand Galaxy Federal Coins.” Not minding Deadpool’s sudden interruption, Rocket pointed to the Star-Lord Spaceship parked behind them and explained.

“Hey?! Why is my Spaceship worth Two Hundred Thousand?! I personally modified it a lot, it is at least worth twenty...ten thousand!” Rocket pointed at Star-Lord and looked towards Deadpool.

Chapter 538 Rejection

Call!

After hearing Rocket and Star-Lord, Deadpool stared at the Spaceship before him. Rocket had just said that he would give Mirage Knight 50,000 Galaxy Federal Coins, which is a quarter amount that is required to buy the Spaceship!

“Haha! Mirage Knight, if you sell a few more bottles of that kind of stuff, we can have our own Spaceship! Maybe we can fly back to Earth in our own Spaceship! Think about it, wouldn’t that be really cool?!” Looking up and down at the Spaceship worth 210,000 Galaxy Federal Coins, Deadpool then looked back at Lin Rui and said excitedly.

Pū!

However, when Deadpool looked back, his face became a guest to Lin Rui’s slap. Then, Deadpool was slapped aside by Lin Rui again and he pretended to be dead.

Although Lin Rui is also very excited about the 50,000 federal currency remuneration proposed by Rocket, compared to letting the Guardians of the Galaxy owe him a favor, the 50,000 Galaxy federal currency is certainly not something to boast about.

Moreover, why would Lin Rui spend his all-purpose Reward Points to redeem Elven Holy Spring Water and then sell it to buy Spaceship? If he is willing to spend Reward points, he can redeem a Spaceship directly from the System Shop. Not to mention that Lin Rui and Deadpool did not even know how to operate a Spaceship.

There are also a lot of reward points needed to redeem a complete Spaceship from the System Shop, which is not as cheap as the previous redemption design blueprint.

Lin Rui has not fully figured out the pricing of the item value in the System Shop until today. However, if what Rocket quoted to Star-Lord Spaceship just now, Lin Rui really feels that Star-Lord’s Spaceship is very cheap.

Because, a complete Spaceship is only worth four bottles of Elven Holy Spring Water, which is only Eight Thousand Reward Points. However, if he exchanges for a Spaceship like this from the System Shop, it would be impossible even with 100,000 Reward Points as it is worth more than ten times that value.

Moreover, Lin Rui handed over the blueprint of the complete E Grade Interstellar Warship to Tony. After Tony and SHIELD joined forces, the construction speed of E Grade Interstellar Warship has been accelerated a lot. Perhaps, by the time Lin Rui and Deadpool successfully return to Earth after two months of Interstellar voyage, the Earth would already have the finished Interstellar Warship in their arsenal. At that time, Lin Rui and others will have their own Spaceship in their hands, although it would be at the lowest level.

“Don’t listen to him. I like Groot very much. If I can help him, of course, I will help. As for compensation, didn’t you agree to send us to Xandar? The best reward we could get from you is to help us go home.” After putting Deadpool aside, Lin Rui looked at Star-Lord and Rocket and spoke with a smile on his face.

“Haha! Don’t worry, we will definitely send you to Xandar, and we will find someone to safely return you to Earth.” Originally, Rocket and Star-Lord were feeling some Phantom pain in his heart when he said

that he would give Lin Rui 50,000 Galaxy Federal Coins, so he quickly agreed to the alternative after Lin Rui refused.

Star-Lord received only one hundred thousand galaxy federal coins for one mission, and if they give out fifty thousand at once then he might have a heart attack. However, if Lin Rui does not refuse then Star-Lord is also willing to give it, because after all, Groot's growth is worth so much money.

"Well, then I will thank you in advance."

After such an episode, Lin Rui successfully established a relationship with Star-Lord, Rocket, and Groot. As for Deadpool, it's better to let him lie there.

Huhuhu~

Pū Pū!

While Lin Rui and the others were chatting, Groot, who had regrown his hands and feet, ran to the water pool, and then his feet became branches again as they plunged into the ground.

"I AM GROOT!" Groot, who took root in the ground, shouted happily. He seemed to be very satisfied with the environment here.

"It seems that Groot likes it here very much, so let's rest here for a few more days." Seeing Groot, Star-Lord said with a smile on his face.

"Well, I also detected that this area seemed a little weird when I was high in the sky, so I can now check it out during this time." Hearing Star-Lord's words, Rocket nodded and continued.

"Have you detected any weirdness in this area? I also found something weird early in the morning. Except for some man-made buildings in this valley, the beasts in the forest would not take a step in here. If it weren't for the fact that I wanted to go home quickly, I would have figured out the reason for it." Lin Rui said in a serious tone when he heard Rocket's words.

"No beasts in the forest would come in here? That's really weird. By the way, when we flew above the forest, we also scanned the forest conditions. However, I don't know if this planet itself is special or for some other reason as we didn't find too many beasts in this huge forest. Now that you have passed through part of the forest, can you tell us about the beasts you encountered?" Once the discussion was over, Rocket became very serious and he looked at Lin Rui while asking seriously.

Rocket and Star-Lord are very impressed by the fact that Lin Rui and Deadpool were able to reach this valley safely through the forest. However, according to Lin Rui's special abilities they have seen before, if the beasts in the forest were not powerful, it is normal for them to pass through.

"In terms of beasts, we did encounter a lot. Just before we entered this valley, there was a beast bigger than your Spaceship chasing us. In addition to that huge beast, there is another kind in the forest. A very special plant monster, it can use its roots and branches to attack its prey unexpectedly. As for other beasts, they should not be that hard to deal with with your strength. The only thing to pay attention to is these two large monsters." When it comes to Rocket, Lin Rui thought about it and introduced the more difficult monsters he had encountered before.

For Lin Rui, although Star-Lord has now promised to send him and Deadpool to Xandar, where he and Deadpool can commendar a Spaceship and go back to Earth. However, since there are Reward Points on this planet, Lin Rui will not give them up.

According to Lin Rui's thinking, if the B-Grade monster is eliminated, he would at least get Tens of Thousands of Reward Points. Therefore, now with the help of Guardians of the Galaxy, Lin Rui is bound to win these Reward Points.

"A monster bigger than my Spaceship!? How the hell did you run away from it?!" Originally, Star-Lord's attention was not on this conversation, but when Lin Rui introduced the two monsters, he was very surprised, and he turned around and asked. With such a huge monster, his speed will not be slow, nor will it allow Lin Rui and Deadpool to run away.

"Because my Special Ability allows me to fly for a short time. Just like this..." Seeing Star-Lord's surprised look, Lin Rui smiled and replied.

Phoo~

Then Lin Rui flew directly from the ground in front of the surprised expressions of Star-Lord and Rocket.

Chapter 539 Peeping

Seeing Lin Rui flying right in front of his eyes, the expression of shock appeared on Star-Lord and Rocket's faces. It seemed that they could not accept Lin Rui's magical ability for a while.

"En?" When Lin Rui was floating in the air, he suddenly felt a special feeling in his heart, it was as if someone was watching him from above.

Call!

The moment this feeling appeared in his heart, Lin Rui raised his head and looked up. However, in the vast night sky, there is nothing other than the sky full of stars. However, Lin Rui's feeling of being peeped still exists, and it is getting stronger and stronger.

"What's going on?!" Looking up and looking around the valley, Lin Rui finally felt that he was being watched, and the other person should be from the sky.

"Mirage Knight, what's the matter with you?" Just as Lin Rui was floating in the air and nervously looking for the inexplicable watcher, Deadpool, lying down below, found his strangeness and asked loudly.

Phoo~

With Deadpool's voice, Lin Rui's feeling of being watched by someone finally slowly disappeared.

"It disappeared!" The feeling of being peeped at disappeared just as soon as it had appeared and Lin Rui was feeling puzzled and worried.

Call!

Finally, Lin Rui fell to the ground. Looking at the three people with looks of confusion on their faces in front of him, Lin Rui didn't know how to explain what he had just encountered. After all, Deadpool should not have felt anything except themselves.

“What happened to you just now? It looks like you were looking for something.” After Lin Rui fell to the ground, Deadpool approached him and asked seriously.

“I just had a feeling that someone was looking at me, but that feeling disappeared, maybe it’s the monsters in the forest.” Not wanting Deadpool and the others to worry, Lin Rui simply explained.

“Really? Those guys seem to have been guarding outside!” Hearing Lin Rui’s answer, Deadpool didn’t think too much, because he really didn’t feel anything strange.

“Well, that should be the case.” The feeling of being watched has completely disappeared, but Lin Rui can’t really think that nothing happened.

Not to mention that Lin Rui was nervous because he felt that someone was watching him. Star-Lord and Rocket standing next to him have now recovered a lot from the surprise of seeing Lin Rui flying up.

Although they were very surprised that Lin Rui could fly, there are countless races in the universe that can also fly. Therefore, their worldview made them quickly accept this fact.

“Mirage Knight, I am more and more curious about you now! Earth, Star-Lord’s home planet, what kind of magical place is that?” Rocket, who was interested in Lin Rui’s attack methods before, spoke seriously after seeing Lin Rui fly and he also looked at Star-Lord beside him.

Compared with Lin Rui, who has many magical abilities in front of him, Star-Lord is relatively ordinary. They both came from the earth, but Star-Lord doesn’t seem to have any special skills. Perhaps, his physique is very good, but he doesn’t have any special skills.

“Huh? Rocket, why are you looking at me like this?!” Seeing Rocket looking up and down at him, Star-Lord seemed to feel the slightest contempt in his eyes.

“Oh, it’s nothing.” Rocket explained faintly after squinting his eyes.

“Earth, that is really a magical place. Star-Lord was too small when he left the earth, so he may not know some major events on the earth. However, it is also because of the magic of the earth that it suffers from dangers. And more.

Now my teammates on Earth are fighting the enemy, so I am in a rush to go back.” Lin Rui continued when he heard Rocket’s words.

“Mirage Knight, don’t worry, you will be able to return to the earth smoothly. After we complete our mission, I will go to the earth to have a look. At that time, I will need your help, after all, I have been away from the earth for so many years.” Seeing Lin Rui’s serious look, Star-Lord also said seriously.

“For sure!”

“So let’s rest for now. Groot seems to be asleep.” Star-Lord suggested after looking at Groot who ran to the pool to take a rest.

“Yep.....”

“Um, Star-Lord, can you show me your Spaceship? I am the only person on Earth who came to an Alien planet and encountered an alien civilization. I have to gain some knowledge before I go back. So I can

talk to my friends about what I have seen in the universe.” Just as Lin Rui was about to agree, Deadpool suddenly interrupted and asked.

“Haha, of course, that is also fine. If you want, you can rest in the Spaceship. Although my Spaceship is not big, it still has two cabins.” Upon hearing Deadpool’s request, Star-Lord agreed with a smile on his face.

“Thanks!” When Star-Lord said that he could sleep in the Spaceship, Deadpool agreed without hesitation.

“Let’s go, I will take you up there.”

Then, Star-Lord led Deadpool into the Spaceship as he saw the excitement of Deadpool. It would be impossible for him to get out without sleeping in it.

As for Lin Rui and Rocket, they continue to stay on the grass in the valley, Rocket rested on the place where Groot had taken roots. Lin Rui continued to sit cross-legged and soon fell into meditation.

“What the hell was going on? That kind of strong sense of being watched!” Lin Rui, who closed his eyes and meditated, was still thinking about what happened to him just now. The feeling of being watched over was really bad.

...

Just when Lin Rui met Star-Lord and others from the Guardians of the Galaxy, and then they had found their way back to Earth. Far away in the Observatory hall at the top of Bifrost in Asgard, Heimdall is regaining his attention.

As his line of sight withdrew, the golden light in Heimdall’s eyes quickly disappeared. However, Heimdall’s expression was a little weird at this time, it was as if he had discovered something special.

“Heimdall, did you find him?” The Ancient One who had been waiting next to him asked when he saw the changes in Heimdall’s expression.

“I have found him, Ancient One. And, when I found him, he also discovered me.” Heimdall answered truthfully when asked by Ancient One.

It turned out that when Lin Rui felt someone watching him on that primitive planet just now, Heimdall was observing him. No wonder he couldn’t find the source in his line of sight. No matter how keenly he looks, it would be impossible for him to find his observer.

Chapter 540 Uncomfortable

Upon hearing Heimdall’s words, Ancient One’s eyes flashed with a light. It seems that he was a little surprised to hear that Lin Rui could feel Heimdall’s gaze.

“Really? This kid does have some abilities, otherwise, he wouldn’t have been able to run that far. So, where is he now?” Ancient One asked after echoing a simple sentence.

“He is on a primitive planet very far from here. I already know the exact coordinates. However, Bifrost cannot descend on that primitive planet. If you want to pick him up, then Bifrost can only send you to a

nearby planet, and then you can pick him up through your Space Portal.” Heimdall replied after hearing Ancient One’s words.

Although Bifrost can be used to teleport someone over long distances, it is not reachable anywhere. Moreover, starting Bifrost once consumes a lot of energy.

“Let’s do that, send me there first, and then I will contact you to open Bifrost and send us back.” Ancient One said lightly without any objection.

“Okay, then please stand at that position.” While agreeing, Heimdall also stretched out his hand to let Ancient One walk to the position where Bifrost would teleport him away.

Da Da~

Nodding lightly, Ancient One has walked a few steps to the center of this hall.

Brush ~!

After Ancient One stood in the center of the hall, Heimdall held the long sword and inserted it in the Bifrost control center with both hands. As Heimdall’s hands pressed down hard, the long sword quickly inserted in. The moment this sword was inserted, a colorful light flashed in this hall.

Buzzing!

Brush!

As a dazzling light appeared and disappeared in the center of the hall, the Ancient One standing there had disappeared. After the teleportation was over, Heimdall pulled out the long sword. Then, he stayed quietly in this hall as before, waiting for the news of Ancient One.

...

Just when Lin Rui and Deadpool were accidentally teleported to a distant Alien planet by a Space Portal, what should happen on Earth did not stop because of their disappearance. Although Lin Rui and Deadpool only spent half a day on that planet, two days have passed on Earth.

In the past two days, Tony, who has teamed up with SHIELD and X-Men, made a full range of attacks on Killian and the mysterious Mandarin.

Booming~~

Just two days after the explosion that nearly destroyed half of New York in the suburbs of New York, a battle against Extremis fighters was taking place outside a medium-sized city in Central America. After teaming up with SHIELD and X-Men, Tony has been able to push Killian back step by step.

Just like Tony said before, Killian doesn’t know how big this world is. Just because you have some good technology in your hands doesn’t mean you can dominate the world all day long. In the past two days, Tony told Killian with facts that it was unrealistic.

Bang!

“Damn You, Tony Stark, why are you still alive!? Why!?” Killian who was in a small town next to the battlefield shouted with a gloomy expression on his face and he blasted the wall in front of him into a big hole.

The killing plan for Tony two days ago was perfect. For this reason, Killian even sacrificed more than a dozen (perfectly) transformed Extremis fighters under his control.

However, just when the explosion that was enough to swallow half of New York was about to destroy Tony, the entire explosion disappeared with the destroyed Stark Industries park.

So far, Killian doesn't know what happened. Not only Killian, except for a few people like Tony, people in the world are also very puzzled about the disappearance of the explosion.

“Also, those Mutants and SHIELD bastards have also teamed up with Tony! Damn it! My plan was perfect so what the hell happened?!”

The battle outside the city next door was about to end, and Killian could clearly feel the death of those Extremis fighters. However, now Killian doesn't know how to turn the situation over, and all his ace cards have been taken out. However, his opponent Tony Stark has a steady stream of back players.

Just as Tony promised in front of the whole world live broadcast, he is really eliminating Killian and Mandarin's power step by step. No, Mandarin didn't show up at all. Now it was Killian who was about to be eliminated.

Call!

“We can't go on like this anymore! Although the Extremis fighters are strong, but now being targeted like this, I will lose the whole war sooner or later.” Staring at the battlefield in the distance, Killian said to himself. He has been beaten in the past two days and Killian now has a plan to evade the edge.

Killian is not like Mandarin, he used to show up often outside. So once SHIELD uses the Insight System, they can quickly find him. If this war continues, Killian really has nowhere to hide.

Of course, after being found several times, Killian also discovered that the other party should have a special tracking method. Therefore, he has also found a way to deal with it.

Boom~

While Killian was hiding here thinking about what he should do next, the roar of the battlefield in the distance continued to spread. The mixed sounds made Killian unable to calm down and think, so he could only frown and walk out of the room. Killian decided that he would hide for a while and couldn't live like this any longer.

In fact, if Savin had succeeded in assassinating the president two days ago, Killian would still be able to deal with Tony. However, Savin's action also failed. The President is safe and sound. The Vice-President is now under investigation and it seems that he will soon fall.

This time, Killian's plan to rely on the powerful Extremis to dominate the United States and the world has suffered severe blows from the very beginning. Maybe he shouldn't have trouble Tony.

Huhu~

When Killian walked out of the room onto the street, his appearance had changed. As the most perfect Extremis warrior, Killian certainly has the ability to change his appearance, knowing that there is always surveillance to find him. With the help of Extremis, Killian can quickly change his appearance.

In this way, no matter how powerful the Insight System is, it would be impossible to find Killian quickly and accurately. Although Project Insight is not only looking for people through appearance, Killian's change is bound to greatly extend the time that took to discover him.

...

Not long after Killian changed his appearance and left the edge of the battlefield, the battle in the center quickly ended, and the explosion gradually weakened and finally disappeared.

Brush!

Flying down from mid-air, Tony was carefully searching for something through the battlefield scanned by the Iron Man Armor. However, in the end, he did not find what he wanted to find.

"Killian must have slipped ahead of time again!" Looking at the Extremis fighters that were completely destroyed, Tony spoke with an ugly expression on his face.

"JARVIS, can I extract active Extremis?" Tony asked JARVIS after he did not find Killian.

"Although we have tried our best to control the pace of the battle this time, the Extremis seems to die out quickly after the host dies. I haven't found a way to help delay this demise. Maybe this virus is a disposable item." Hearing Tony's question, JARVIS quickly replied.

After discovering the powerful strength of the Extremis warriors, Tony wanted to create something that would restrain this by studying Extremis. However, during this period of the battle, he had encountered Extremis fighters a lot, but he was not able to obtain any active Extremis.
