

## Marvel 561

### Chapter 561 News

Hearing Lin Rui's words, Star-Lord didn't know what to say. If Deadpool hadn't offended Yondu as soon as he saw him then perhaps Star-Lord could still apologize to Yondu for everyone, and at best they would be locked up.

However, the current situation is that once they are caught, it would be impossible for Yondu to let Deadpool go. In order to protect Deadpool, Star-Lord couldn't help but plan several scenarios in which he can rush out.

Moreover, Star-Lord is always adventurous and he would dare to do Warp Flight inside the atmosphere which others dare not do it! After all, luck is also the main factor in a fight. Star-Lord's luck is still good and he is willing to bet his life on it. As for what they will encounter during the Warp Flight, that is no longer within Star-Lord's consideration.

"We have to find a way to escape now and we can't be caught. Otherwise, we won't be surviving today." Star-Lord could only scare Lin Rui so much in the end.

Hearing what Star-Lord said, although he didn't know why he insisted on running away, Lin Rui didn't ask anything anymore. However, he didn't want to take on such an unparalleled chance of survival with Star-Lord.

So, his thoughts have quickly wandered through the System Shop in his mind. Isn't Star-Lord's Spaceship engine damaged? Lin Rui will fix it to at least increase their chance of escape.

"This would probably work...Rocket, I..." Just when Lin Rui found a way to repair the Spaceship Engine in the System Shop and was about to let Rocket take him to repair the engine, something suddenly exploded outside the Spaceship which interrupted Lin Rui.

Boom~ Boom~ Boom!

After the first bomb exploded outside the Spaceship, there were countless successive attacks from the top down. The Energy Shield on the surface of the Spaceship was knocked out in an instant by 50% of its energy, and it looked like Yondu didn't intend to hold back.

Boom! Boom! Boom!

Dī Dī Drops!

"The energy of the Defensive Shield has dropped to 15%, we can still hold on for 0.5 seconds!"

Boom!

Just as the intelligent system Iris finished reminding, a shell penetrated the Defensive Energy Shield and hit Spaceship's flank. Then, an explosion exploded on the surface of the Spaceship, and the descending Spaceship suffered substantial damage again.

After the Defensive Shield was broken, Star-Lord had no way out. Looking at this situation, their Spaceship would be made into scrap iron by Yondu in a few seconds.

“Damn it! Rocket, detonate! We can only do this!” The Defensive Energy Shield was gone and Star-Lord shouted at Rocket.

Call!

In fact, even before Star-Lord has ordered, Rocket has put his bear-like paw towards the screen in front of him. When Star-Lord called out, Rocket’s paw just hit the screen.

Dī Di Drops~

After Rocket’s paw slapped on the screen, Lin Rui saw dozens of red dots lit up on the screen. In the next moment, these red dots flashed three times in succession, and then from a small dot to a red aperture.

“This is...” Not knowing that Star-Lord had left these backs on the valley side. Lin Rui looked at the proliferating red circles with some confusion.

“They intend to start the Defense System of the Ancient Ruins below and use the explosive ruins to create an opportunity to leave.” Seeing Lin Rui’s puzzled look, Deadpool explained the situation to him.

“Is that so? But, why do I have a bad feeling about this...” Lin Rui suddenly understood when he heard Deadpool’s explanation, and then thought silently in his heart.

Just over two minutes ago, when Lin Rui killed the Plant Monster, he vaguely discovered that the monster seemed to be connected to something protruding from the ground. Because, in the flesh-colored sphere, Lin Rui found something that shouldn’t be inside, that is, a piece of Artificial Created Powder.

However, Lin Rui didn’t have time to think about that. But now Deadpool had said that Star-Lord was going to open the underground ruins, he felt that something was wrong.

Lin Rui is guessing that the production of the Plant Monster is related to this Underground Ancient Ruin. So, Lin Rui didn’t know what would happen if they opened the ruins with violence.

If the things in this ruin are more dangerous than what they are facing now... However, Lin Rui only now knows what Star-Lord intends to do and they have already done it. He can’t stop it and he can only expect things to go better in his heart. He can only pray that the situation won’t develop as he is thinking.

Booming~

Although Star-Lord’s driving skills are already very good, under the attack of more than a dozen Starships, this modified Spaceship is almost unable to hold on.

However, putting their total attention on Star-Lord’s Spaceship, Yondu and the others did not notice the abnormal changes in that valley. Under the cover of high-altitude explosions, the ground vibrations and changes were inconspicuous.

Boom!

Finally, after suffering several attacks in a row, a laser beam penetrated the entire Spaceship and just wiped it from the corner where Deadpool was hiding.

“Ahhhhh!!!~ It hurts! It hurts! It hurts!” The laser passing by almost directly ablated Deadpool’s arm, and he rolled around and screamed while clutching his injured arm.

“It seems that the situation is really bad!” Lin Rui stared at the Starship that had already rushed in front and said solemnly.

Phoo~

“Bad!? You are right. We are about to crash! I don’t think luck is on our side this time!” Hearing Lin Rui’s words, Star-Lord driving the Spaceship shouted loudly.

Boom!

Just when Star-Lord finished roaring this sentence, another laser penetrated their Spaceship. If this continues, Star-Lord and the others would fall before the defensive system of the ruins below appears.

“Should I buy that thing?” When Star-Lord and the others were nervously trying to survive, Lin Rui frowned and thought silently in his heart.

The current situation is indeed very dangerous, even for Lin Rui. However, Lin Rui, who has saved up a lot of Reward Points still has a way to survive in this situation. However, that would cost a lot of Reward points, and Lin Rui didn’t want to do that until the last minute.

Dī Dī Dī Dī!

Just when Star-Lord’s Spaceship was crumbling in the air, the already silent alarm screamed frantically again. Because of the fierce fighting now, Star-Lord had ordered Iris to not raise any alarms. Therefore, the emergence of this alarm is definitely not a threat from Yondu.

“Iris! What’s going on?” Star-Lord yelled loudly.

“Found a powerful...no...not only powerful, it’s an Energy Fluctuation that has barely crossed the limit, coming from the Ancient Ruins below!” After Star-Lord shouted, Iris immediately answered him.

## **Chapter 562 Vestige Eruption**

Pū! Pū! Pū!

As soon as Iris shouted, light green Energy Shock Waves burst out from the valley below. As the energy waves rushed out of the ground, the originally quiet valley boiled in an instant, the ground cracked and numerous crisscrossed patterns appeared on the ground, and sporadic Energy Shock Waves flowed out from the cracks from time to time.

When the valley below was instantly riddled with invisible shock waves, Yondu’s Starship that had rushed to the front of the Star-Lord Spaceship finally noticed the abnormal changes below.

Star-Lord has been flying in the divided airspace above the valley because he needs to use the Defense System of the Ancient Ruins below to find a chance to escape.

At this time, both Star-Lord’s Spaceship and Yondu’s Starship had already come under the influence of Energy Shock Waves from the ruins below, and Star-Lord’s previous expectations at least seemed to be coming to fruition.

“This Ancient Ruin still has a perfect Defense Attack System!” Without hearing the undetectable limit of Energy Fluctuations alert reminded by Iris, Star-Lord drove the Spaceship while avoiding the upper point energy wave rushing up from below.

Brush!

Just as Star-Lord was dodging the various Energy Shock Waves, an invisible shock wave suddenly swept across from the left side of Star-Lord’s Spaceship.

Unlike other very obvious Energy Shock Waves, the Energy Fluctuations that rushed towards Star-Lord Spaceship into the sky were almost silent, at least Iris hadn’t noticed anything before the Shock Wave came into contact with the Spaceship.

Sii~

And just as this Invisible Shock Wave touched the Spaceship in the sky, a whole piece of Spaceship’s external component on the left side of Spaceship disappeared.

The position from where the component disappeared was as smooth as a mirror, it was as if it had been directly cut off by some high-energy cutting weapon leaving a smooth surface, and the missing part did not appear in the air.

Dī Dī Dī!

“Spaceship suffered irreparable damage! It is recommended to abandon the ship and escape!” After the part of Spaceship disappeared, Iris reacted and quickly warned.

This time the Invisible Shock Wave passed from the left side of the Spaceship, only taking away a piece of external alloy component, affecting the outer structure of Spaceship. What if next time it came to the middle of the Spaceship or directly through the cockpit?

If that happened then everyone inside will die an unknown death! Therefore, as an Intelligent System, Iris has made the most reliable proposal at the moment which is to abandon the Spaceship.

“Damn it! What the hell kind of attack that was? Moreover, even if we abandon the ship and escape now, there is no chance for us to escape from this area!” Star-Lord realized that it is getting more and more difficult to control the Spaceship after losing part of the outer structure, and he cursed out loud when he heard Iris’s solution.

Rumble!

Just as Star-Lord’s voice fell, a violent explosion suddenly rang above his head. It was not his Spaceship that was attacked, but the Spaceship above his, which was slightly larger than the Star-Lord’s Spaceship, and it directly exploded in the air.

“Is that... caused by the attack just now?!” Seeing the Spaceship fragments scattering over the sky after the Spaceship exploded, Star-Lord, who had not seen any survivors, muttered to himself with an ugly look on his face.

Even in such a dangerous situation, Star-Lord did not intend to actually kill anyone in the Ravagers. Although there are a lot of corrupt pirates in the current Ravagers, they are happier and free. They followed Yondu here and they died unexplainably which made Star-Lord feel some guilt.

"It seems that we did something that we shouldn't have!" Rocket, who also noticed the exploding Spaceship above, whispered.

Boom! Boom~ Boom~

With the explosion of the first Spaceship, Yondu, who was still following Star-Lord, also realized the unusualness of the area below.

"Quil~Quil~ You really gave me such a big surprise! It seems that there is a Ruin of a High-Level Civilization below us!" Hardly caring about the exploding Spaceship, Yondu stared at the valley and the fleeing Star-Lord's Spaceship and muttered to himself.

As an experienced pirate leader, Yondu quickly reacted to the unknown attack that broke out of the underground.

Yondu knows what kind of Pirates are on his ship and he also knows who among them are planning to replace him. He originally intended to find an opportunity to clean up the insiders after capturing Star-Lord but now that this underground ruin outbreak can help, it would save Yondu some time.

"Boss, what shall we do now? The others seem to have planned to retreat first as they can also see the Underground Ruin. To them, it is not important to catch Star-Lord and they plan to avoid these attacks. The Ruins' Counterattack will end in some time and then they plan to go on a treasure hunt." Hearing Yondu's self-talk, the Deputy who followed Yondu asked in a low voice.

"Well, let them go. As for the treasure hunt in the Ruin below...hehe, they would be lucky if they remain alive not to mention find any treasure with such an undetectable super-power attack ruins." Hearing the Deputy's words, Yondu replied with a blank look on his face.

If the Deputy could look into Yondu's eyes at this time then he would have noticed the harshness in Yondu's blue eyes.

"As for us, continue to chase after that Boy!" Finally, Yondu made a decision.

"Yes!" The Deputy drove Yondu's Spaceship towards Star-Lord again.

Behind Yondu's Spaceship, only three small Spaceships continued to follow him and the other Spaceships quickly avoided the Energy Shock Waves below and flew up to the sky. It seemed that they had to wait for the counterattack of the ruins to end before coming down to explore it.

Booming~

"Huh?! They seem to have begun to retreat! The plan was successful!" After a large number of Yondu's men retreated, the pressure on Star-Lord's side instantly decreased.

"Don't be so optimistic, that guy Yondu is still chasing us. Also, don't you think that the ruins below are getting weirder and weirder? Judging from the scope of the ruins we have detected before, its response is far beyond the scale it should be." Hearing Star-Lord's words, Rocket said seriously.

Brush!

Just as Rocket finished saying this, another Invisible Shock Wave rushed up from below the Spaceship. This time, Star-Lord's luck was not so good. The Invisible Shock Wave directly passed through the rear end of the Spaceship, taking the remaining sets of engines with it.

Dī Dī Dii!

"Warning! Warning! The Spaceship is about to crash! The Spaceship is about to crash!"

### **Chapter 563 Destroys**

Dī Dī Di!!

With the continuous sirens ringing inside the Spaceship, Star-Lord could no longer control the Spaceship whose engine was almost completely destroyed. Under the attack of countless Energy Shock Waves underground, Star-Lord's Spaceship is like a leaf in the sky, dodging countless laser beams and falling towards the ground with luck.

"That~~that~~that! Mirage Knight, what should we do now?!" Holding tightly to the thing fixed to the cabin wall beside him, Deadpool asked Lin Rui with a trembling face.

Now the Spaceship has been spinning uncontrollably in the middle of the sky and it would only take some time for it to fell into the forest. Seeing the Energy Shock Waves rising up into the sky like firecrackers, Deadpool is not only shaking but his heart is also trembling.

Seeing the power of that Invisible Shock Wave just now, as long as it reaches Deadpool, he will probably completely disappear from this Universe, and he won't be able to recover as even a single cell of his won't remain in this world.

Hearing Deadpool's words, Lin Rui, who stood steadily in the tumbling cabin, did not immediately answer.

His brows were tightly frowning. Lin Rui could have redeemed something from the System Shop to help them escape from Yondu's pursuit before Star-Lord triggered the Underground Ruin but now Lin Rui has no good way to get them out of this situation.

Lin Rui had a bad premonition in his heart when Star-Lord began to excavate the Underground Ruin, and now that the Ruin below has exploded with attacks far beyond their expectations, it is in line with Lin Rui's premonition. However, his hunch is more than that.

"If we can't escape later then just follow me and I will find a way to protect us." In the end, Lin Rui could only answer Deadpool like this.

The crash of Spaceship is only a matter of time. If the Spaceship only crashed then they would be fine. After all, there is no ordinary person in this Spaceship.

However, Lin Rui is worried about accidents like being hit by the Energy Shock Wave attack of the Underground Ruin. Even Lin Rui couldn't accurately predict when would that Invisible Energy Shock Wave attack would arrive.

Brush!

“Okay! I will follow you closely!” Hearing Lin Rui’s answer, Deadpool grabbed Lin Rui’s arm and agreed seriously.

Lin Rui: “...”

Huhu!

Lin Rui didn’t know if it was their luck or if it was because of the Protagonist Aura bonus but when the Spaceship lost control and fell, they did not encounter another Energy Shock Wave Attack.

As for Yondu, who is behind Star-Lord, he was attacked twice by them, but because the Starship Yondu piloted was huge, even if it was attacked twice, it did not hit the key points, and he continued to move towards Star-Lord.

Following Star-Lord’s falling trajectory, he was able to fly out of this dangerous area that he could no longer stay in.

Buzzing~

However, just when Star-Lord’s Spaceship flew obliquely out of the valley-centered Energy Shock Wave bursting area and was about to hit the ground, the cracks that were previously limited to about 500 meters around the valley spread out.

Looking at the spread of those cracks, the Underground Ruin seems to be expanding its scope. Or it may be possible that under the influence of continuous Energy Shock Waves, the underground ruins have also changed.

“Damn it! No way. This shouldn’t be possible!” Star-Lord couldn’t help screaming when he noticed the cracks that were spreading toward the surrounding forest.

Just now, they have felt that they have escaped the danger even if their Spaceship crashed, so they should be fine for the time being. They didn’t expect that the scope of the Ruin would expand so suddenly and now it looks like they have not escaped the danger.

As for the Yondu who is coming after him, Star-Lord no longer considered him much of a treat at this time.

Moreover, Star-Lord also knows that Yondu will study this Ruin first even if he catches himself as the reaction of this Underground Ruin is very violent.

Huh!

In addition to Star-Lord, Lin Rui also noticed this situation and he wasn’t planning to wait any longer. Pulling out the Beheading Spirit Sword from his waist, Lin Rui was about to split the cockpit with a sword.

“En?! Not good!!” However, just when Lin Rui was about to take action, he suddenly had a bad feeling in his heart and a feeling of extreme danger instantly filled Lin Rui’s mind.

Hum!

Without time to think, Lin Rui's empty left hand swept across his waist for an instant, and then quickly swiped towards the middle of the cockpit.

Shout!

Following Lin Rui's movement, a small Golden Ball had been thrown from his hand to the middle of the cockpit, just between him and Star-Lord.

Card~Boom! ~~

Just as Lin Rui threw the Golden Ball out, the cockpit that was still strong was instantly torn apart by an Invisible Energy Shock Wave attack. Then, the Invisible Shock Wave attack continued to shoot upwards, and its journey included Lin Rui and Star-Lord.

Buzz~Boom!

However, just as Deadpool's eyes widened and his pupils quickly enlarged due to the ablation of the cockpit, the Golden Ball thrown by Lin Rui suddenly expanded while releasing a dazzling golden light.

Then, within an instant, a huge pale Golden Ball appeared in the cockpit out of thin air, just covering Lin Rui, Deadpool, Star-Lord, Rocket, and Groot.

Boom!

At the same moment when the light Golden Ball suddenly appeared and enveloped the three people in the cockpit, the Energy Shock Wave Attack that had torn the cockpit had already hit it.

Before Star-Lord and others could react, the bottom of the pale Golden Ball had sunk directly under the attack of the Energy Shock Wave. It seemed that this Pale Golden Ball could not withstand the powerful attack of the Energy Shock Wave.

However, just as a desperate expression appeared on the faces of Star-Lord and others, they saw that the Pale Golden Ball with a huge arc at the bottom was still going strong without breaking.

After being pressed to the extreme, a burst of Golden Light flashed through the recessed part of the Pale Golden Ball, and then it began to shake violently.

Brush!

In the next moment, the place where the oppressed depression entered instantly rebounded. However, because the Energy Shock Wave was too powerful, the Golden Ball could not bounce back, so it could only bounce up quickly under the power of the Shock Wave.

Boom!

In this way, the Golden Ball directly pierced the upper cabin under the propulsion of the Energy Shock Wave from below, and flew out toward the high altitude!

"Wow!!! Ahhhhhhhh!" By this time, Deadpool's screams broke out from his throat.

...

Just when Star-Lord's Spaceship was hit by an Energy Shock Wave, Yondu, who had been following him, almost rushed towards him. But just as Yondu was about to rush to the rescue, a huge Golden Ball made out of light suddenly rushed out of the Spaceship that had fallen apart.

"What the hell is that?!"

#### **Chapter 564 Brave Pursues**

Dī Dī Dī!

In the cockpit of the Spaceship where Yondu was located, the Sirens had not stopped even after the attack from the Underground Ruin had passed. However, Yondu didn't care about the Energy Shock Waves that could penetrate his Spaceship at any time at this time as he instead stared at the midair ahead.

There, a Golden Ball was flying up high in the sky. In that Golden Ball, Yondu could vaguely see several figures.

"That's...what?..." Yondu spoke again but he didn't get any response.

"Bos...Boss! What's the matter?! Our Spaceship can't hold on any longer!" Because all of his attention was on the Spaceship, Yondu's Deputy did not see the scene outside.

Boom!

Just after the Deputy shouted this sentence, another light green shock wave penetrated their Spaceship. If this kind of attack is repeated twice, this Spaceship will also have the same ending as Star-Lord's Spaceship.

Brush!

"We will leave them alone for now, let's break out of the encirclement with the Crazy Wolf!" Yondu suddenly turned his head and said, seeming to have heard his Deputy's words.

The Crazy Wolf is a small Assault Spaceship equipped on Yondu's Spaceship, which is about the same size as Star-Lord's currently destroyed Spaceship. The current situation has left Yondu with no choice as his current Spaceship is too large.

Although it is large and has a high defense, it is almost impossible for it to hold on under such intensive attacks. Moreover, Yondu doesn't know how long Star-Lord can last in that Golden Ball of light.

"Yes! Boss!" Hearing Yondu's command, the Deputy replied loudly. In fact, he had long wanted to take the Crazy Wolf and quickly ran away.

...

Huhu!

Just when Yondu decided to abandon the large Spaceship and flee in the Crazy Wolf, Star-Lord and others were still being pushed up high by the Invisible Shock Wave.

However, from being in the middle of the Shock Wave to the edge now, the Golden Ball that enveloped Lin Rui and others was about to fall. Of course, Lin Rui has been waiting for that moment.

Call!

Finally, when the golden light of the Golden Ball had faded to the point where it was about to go out, it slowly slipped from the edge of the Energy Shock Wave.

Bo...

Just when the Golden Ball that had become transparent fell obliquely towards the ground, the entire Golden Ball was directly broken into fragments in the sky, and then the transparent fragments quickly disappeared.

Pū Pū!

After the Golden Ball shattered, Star-Lord and Rocket, who had been prepared for a long time, activated their individual flight system instantly and quickly stabilized their figure in the air. As for Lin Rui, he also took out the Hoverboard and stepped on it.

So, in the end, Deadpool was left alone and he grabbed Lin Rui's hand and shouting desperately.

"Wow! Ahh, ~~"

Call!

"Stop screaming, you won't die even if you fall!" Lin Rui said angrily as he reached out and pulled Deadpool onto the Hoverboard.

"Oh! That's true! But, I almost died just now!" Deadpool also relaxed a little after standing on the Hoverboard, but after hearing Lin Rui's answer, he jumped up and called.

Snapped!

"Now, we should be able to safely fly outside the danger zone unless our luck is really that bad and we again encounter some dangerous situation." Lin Rui said aloud.

"Really? If...Ahhh!" Hearing Lin Rui's words, Deadpool who wanted to say something was unable to speak as Lin Rui's hand tightly covered his mouth.

Lin Rui has recently learned about Deadpool's special ability in addition to his super Regenerative Ability, that is, his black unlucky mouth that is extremely accurate. If Deadpool is allowed to speak then their good luck will turn into bad luck.

Moreover, in order to protect the safety of Deadpool and others, Lin Rui just spent 15,000 Reward Points in the System Shop to exchange for the Golden Ball with Super Defensive Power.

"I have already spent almost 20,000 Reward points at this point. If this situation continues then I might really die!" Lin Rui thought with a feeling of pain in his heart as he covered Deadpool's mouth.

Just as Lin Rui took the Deadpool and flew quickly towards the safe area in the distance, Star-Lord and Rocket also followed. They held the little Groot on the left and right side, otherwise, it would fall.

Huhu!

“Star-Lord, don’t you think we have caused a big disaster?” Rocket who was flying on a small Jet behind him looked at Star-Lord next to him and asked with worry.

“Well, it seems to be...but, let’s run away now. As for what is under this Ruin, I don’t want to know.”

Neither Rocket nor Star-Lord had expected the situation to turn this way. Originally, they had thought that it was just a small Ancient Ruin, they couldn’t have guessed in a million year that this Small Rui would have such an astonishing attack power.

Even though Star-Lord was expecting a great reaction from the Ruin below, the reaction has exceeded his expectations by a long margin.

Judging from the Energy Shock Waves that have been ejected, the level of this Ancient Ruin has reached at least Level 3. In other words, the things contained in it may attract a powerful cosmic group that is even more powerful than the entity of Ravagers Pirates.

Of course, it cannot be ruled out that the rest of the Ruin is just filled with these scary energy shock waves. However, that probability is still relatively small.

Call!

Just as Star-Lord and the others flew towards the safe zone, a dark Spaceship suddenly rushed to their side, and it was Yondu who replaced his big Spaceship with the Crazy Wolf.

Seeing the Crazy Wolf Spaceship flying to his side, several black lines hung down on Star-Lord’s head. Of course, he knows who is in this Spaceship, but Star-Lord can’t hide under the current situation, otherwise, Yondu would definitely not let him out of a prison cell.

Shout!

However, just as Star-Lord was about to bite the bullet and be caught by Yondu, a laser attack was suddenly launched from the Crazy Wolf Spaceship. This laser attack passed Star-Lord’s surprised gaze and shot towards the position of Lin Rui and Deadpool behind them.

“No! Yondu wants to kill Deadpool!” At this moment, Star-Lord could only remember this information in his mind and he was unable to react.

At this moment, only Lin Rui could react. Although this Laser attack was aimed at Deadpool, Yondu was not as good as Rocket. Following the Laser’s trajectory, Lin Rui would also be included in this attack. Wandering in the universe for so many years, Yondu is not a softhearted person.

Brush!

The hand covering Deadpool’s mouth moved along, and Deadpool pushed Lin Rui away. Then, Lin Rui quickly turned sideways. In the next instant, the Laser shot from between Lin Rui and Deadpool, and the hot air penetrated by the laser slapped Lin Rui and Deadpool on the faces.

After feeling the high temperature in front of him, Lin Rui’s eyes flashed with a cold light, and then the mask that had disappeared on his face appeared again.

After putting on the mask, Lin Rui reached out and pulled Deadpool back, who had just been pushed out by him.

“Damn it!”

### **Chapter 565 Ties Up!**

Shout!

Deadpool was pulled back by Lin Rui and he firmly stood on the Hoverboard again, and then angrily looked at the direction from which the laser attack came from, which was the Spaceship. However, when Deadpool saw the muzzles of dozens of guns, he abruptly held back the words that were coming out of his mouth.

“Hey! Yondu! Aren’t you here for me? Why are you going after them?!” After Lin Rui and Deadpool avoided the first laser attack, Star-Lord finally reacted and shouted loudly.

“Huh! Do you think you can still escape? I’ll kill that ugly guy with no eyes before I come to you to settle our account!” After Star-Lord shouted, Yondu’s angry voice came from the Spaceship.

Then, several Cannons were aimed at Deadpool and Lin Rui. It seems that Yondu really does not intend to let Deadpool go. Seeing that the Spaceship was about to attack again, Deadpool could only stick to Lin Rui’s side.

“So Yondu was really this violent? And here I thought that we would be able to communicate and come to some arrangement.” Lin Rui, who also heard Yondu’s words, was a little surprised, but now there is no time for him to express his emotion.

Brush!

As Deadpool was hiding at his side, Lin Rui had already controlled the Hoverboard to fly behind Star-Lord. With the laser’s attack, unless Yondu kill Star-Lord, Lin Rui and the others would definitely survive.

Seeing Lin Rui flying over towards him, Star-Lord didn’t hide and kept standing in front of them. Of course, Star-Lord didn’t believe that Yondu, the guy who raised him up, would hurt him.

Sure enough, after Star-Lord blocked Lin Rui and the others behind him, the Crazy Wolf Spaceship did not attack. After the confrontation for two seconds, the exposed muzzles suddenly retracted. Then, Yondu’s slightly tired voice came out.

“Come in, I won’t do anything to you. We are not out of the danger zone yet, do you really want to die here?”

Card~

Following Yondu’s words, the Crazy Wolf Spaceship’s hatch quickly opened on Star-Lord’s side.

Hearing Yondu’s words, and seeing the hatch opened in front of them, Star-Lord and others stared at each other.

“Should we enter, or not?” Faced with the situation before him, Star-Lord couldn’t decide for a moment.

“Let’s go in! Why shouldn’t we! If we drag it any longer, we really won’t be able to get away! And, how many times have you been beaten around by Yondu, what are you afraid of now?” Faced with Star-Lord’s hesitation, Rocket was the first to express his opinion.

“Let’s go in, what he said just now seems to be serious.” Behind Rocket, Lin Rui also expressed his opinion.

Although Deadpool next to Lin Rui looked reluctant but seeing the Energy Shock Waves still erupting around him, he had no choice but to agree.

“Then, let’s go in!” Finally, Star-Lord agreed.

Huhu!

Then, Star-Lord and Rocket flew towards the wide-open hatch with Groot in between them, Lin Rui and Deadpool followed them closely.

Rumble!

Just when Lin Rui and the others had reached the hatch, a huge explosion exploded in the central area of the rear Ruins. It turned out that the Spaceship that was abandoned by Yondu finally disintegrated after being attacked by more than a dozen Energy Shock Waves.

Looking at the huge Spaceship behind them quickly turning into a piece of debris at high altitude, and then looking at the underground terrain where the forest and valley are completely invisible, Lin Rui and others were very afraid.

“What the hell is there in this Underground Ruin? Why is that dangerous feeling isn’t going away.” At the last moment before entering the cabin, Lin Rui thought silently while staring at the original valley.

...

“Boss, what should we do when Star-Lord and others come aboard? Should we tie them up?” Yondu’s Deputy asked while driving the Spaceship quickly to the outside of the safety zone.

“Tie them? Of course, you need to tie them up!” Yondu answered fiercely when he heard his Deputy’s words.

“However, we seem to be under-staffed right now...” Hearing Yondu’s answer, the Deputy murmured.

When the Underground Ruins broke out, Yondu continued to chase Star-Lord with two Spaceships. After the attack frequency rose again, the two Spaceships also quickly escaped. As for Yondu’s personal Spaceship, there were only a few robots and intelligent systems apart from this deputy.

Therefore, when Star-Lord and the others got on Yondu’s Spaceship, their staff was really at a disadvantage.

“What about the lack of manpower? Are you afraid that Quill would dare to attack us?!” Yondu asked with a straight face when he heard his Deputy’s whisper.

“Ahh! That’s not the case! How would that kid dare to do anything in front of Boss?.” Seeing Yondu’s appearance, the Deputy quickly agreed.

The Guardians of the Galaxy led by Star-Lord are very strong. However, the full Guardians of the Galaxy team isn't here. There are only two members, Star-Lord and Rocket. As for the small sapling, Groot is automatically ignored.

And Star-Lord was raised by Yondu from a young age, how could Yondu not know his every move. So the only threat is a Modified Raccoon? As for Deadpool and Lin Rui, Yondu did not take them seriously at this time.

Kaka~

After Yondu spoke with his Deputy, the cockpit door slowly opened. Then, Star-Lord and others walked in under the supervision of the two robots.

"Hello there! Long time no see, Boss Yondu!" As soon as he walked into the cockpit and saw Yondu, Star-Lord raised his hand and said hello with a smile on his face.

Just like Yondu, Star-Lord also knows Yondu's very well. Even with the strong reputation of the Guardian of the Galaxy in the universe, Star-Lord is still very afraid of Yondu. Not to mention that Star-Lord was already scared by Yondu since he was a child and Yondu's strength was enough for Star-Lord to be jealous.

One must not underestimate Yondu, except for his blue skin, he looks very ordinary, but he is a very rare Psychic Powered individual in the universe.

Because of his Psychic Power, Yondu is able to control a sharp arrow hidden in his waist by blowing a whistle. This arrow is Yondu's deadliest trick, and he has always relied on this trick to deter undisciplined pirates.

So, if Star-Lord really wants to fight Yondu, Yondu wouldn't mind letting Star-Lord taste the feeling of his body being passed by his arrow.

"Tie them up!" Ignoring Star-Lord's greeting, Yondu directly ordered the two robots after they entered.

Huhu!

After receiving Yondu's order, the two robots directly took out the alloy chains. Seeing the robot approaching him, Star-Lord had a helpless expression on his face.

Swipe!

However, just as Star-Lord reached out his hand, a strange noise suddenly rang beside him. When Star-Lord turned his head, he saw that Lin Rui's right hand had just been inserted back into his waist. It seems that he should have waved his right hand just now.

## **Chapter 566 Arrow**

Hula la~

Just when Star-Lord and the others looked at Lin Rui's side, the robot that was walking towards Lin Rui and Deadpool suddenly stopped. Then in front of Yondu and Star-Lord's surprised eyes, it fell apart into fragments, and the metal pieces and various broken wires were scattered on the ground.

“This is the first time have met, did you treat every guest like this?” After the robot got broken, Lin Rui looked at Yondu.

Although Lin Rui was quite tired from the fighting and escaping, his physical injury was completely recovered under the influence of Elven Holy Spring Water.

Although his Internal Energy reserve was not quite filled, Lin Rui doesn't think he will allow anyone to take him as their prisoner. Moreover, only by showing one's strength can you get the respect that you deserve. This is a common rule everywhere.

Sure enough, after hearing Lin Rui's words, Yondu's expression also converged. Just now, Yondu didn't even notice how the guy in front of him attacked. Although that robot wasn't an aggressive robot, it still had defensive power but it was dismembered in an instant.

“This guy...is he someone new on that Kid's team?” Looking at Lin Rui who was wearing a Phantom Suit, Yondu thought silently.

As a person with a protagonist aura, Star-Lord's process of forming the Guardian of the Galaxy is also filled with surprises and opportunities. Moreover, every member of the Guardian of the Galaxy is strong, and their areas of expertise are also different.

Just like Star-Lord who is responsible for being funny and has a high IQ, Rocket is responsible for technology and firepower, Groot is for team cuteness, Drax the Destroyer is for meat tank melee. As for Gamora, besides her pretty face, her combat powers are also very good.

And if Star-Lord really recruits Lin Rui into the Guardian of the Galaxy, then the strength of the Guardian of the Galaxy will instantly increase a lot. Moreover, Lin Rui is still a Psychic Power mutant in Star-Lord's eyes, which makes him even more powerful.

“That's right, we are the guests!” Just as Lin Rui was building up his aggressive and concave shape, Deadpool suddenly interrupted.

And because of Deadpool's sudden interruption, Lin Rui's momentum got finished. It was already hard for him to dominate the momentum when he met Yondu for the first time because of his one attack, and now, because of Deadpool's words, there is no effect at all.

“Haha, are you a guest? Then, that's how I treat my guests!” Sure enough, after hearing Deadpool's words, Yondu's eyes flashed with a fierce light as he answered.

Hush~~

After answering Deadpool's words, Yondu suddenly whistled. Then, in front of the extremely surprised expressions of both Star-Lord and Rocket, an arrow flew out from under Yondu's clothes.

As Yondu whistled, the arrow quickly flew around him a few times, then it aimed itself at Deadpool and shot it! In the face of Deadpool's repeated remarks, Yondu really wanted to show him his place. As for the promise of not hurting Lin Rui and Star-Lord, which pirate has ever stood up to his or her promise?

“Really!” Lin Rui sighed silently after seeing Yondu using his flying arrow.

Sometimes, things don't develop as one would think. If this is the case then Lin Rui can only face it. However, before Lin Rui decides to take any action, he wants to make Deadpool suffer a bit, otherwise, this guy's mouth would really cause their death.

Currently, they are still encountering things that Lin Rui can barely handle. But if something happens on their return journey back to Earth, Lin Rui can't guarantee anything.

Shout!

Therefore, Lin Rui had no intention of making a move when he saw the Flying Arrow turned into a golden light and pierced Deadpool's chest after circling a few times in the air.

Lin Rui is also betting that on the one hand, Yondu will not be a killer, on the other hand, he bet that Deadpool's regeneration is strong enough to withstand the attack of this flying arrow.

Pū chick!

Therefore, the Flying Arrow directly penetrated through Deadpool's chest as no one could stop it or didn't want to in Lin Rui's case. After bringing out a small amount of blood with it, the Flying Arrow flew back again and it slowly began to spin around Yondudu.

"What... The... Fuck!" After the Flying Arrow flew back to Yondu's side, Deadpool looked down at his chest with a look of disbelief on his face.

Plop!

Then, Deadpool's eyes fell down. Since acquiring his mutant ability, Deadpool seems to have died several times. Of course, if he did not meet Lin Rui and joined the League of Defender, perhaps his experience would not be like this.

"Huh! Did you really think that I would spare this fellow?!" Yondu said with a sharp look in his eyes when he reached out and touched the Flying Arrow flying beside him.

As a Pirate group leader who has been in the universe for so many years, Yondu had taken many lives and he had already lost count of the dead bodies.

Deadpool is just an ugly guy who was unknown and unfamiliar to him, if it wasn't for Star-Lord, Yondu wouldn't have let him keep living till now. Therefore, Yondu's arrow just penetrated Deadpool's heart as he wanted to kill this guy and nothing was stopping him.

After Deadpool fell to the ground, Lin Rui turned his head and glanced at him briefly, and then stopped paying attention to Deadpool. Because Lin Rui was half right.

Although Yondu did not keep his hands, Deadpool did not disappoint Lin Rui. After being pierced by Yondu's Flying Arrow, Deadpool looked dead, but Lin Rui could sense that he was still alive. He would just need some time to recover and he would continue to remain alive.

"So now, do you still think that you deserve to be treated as guests?" After taking care of Deadpool, Yondu asked Lin Rui, who was still calm.

Although the guy in front of him looked a little stronger, Yondu is still very confident in his Flying Arrow.

"It's just a bit faster." Seeing Yondu's proud look, Lin Rui said indifferently.

Siii!

"Yondu! Didn't you say that you wouldn't hurt them?!" Just when Lin Rui was calmly talking to Yondu, Star-Lord suddenly pushed away from the robot beside him and rushed forward two steps, and then shouted loudly at Yondu.

After Star-Lord and the others entered the cockpit, things developed unexpectedly. Star-Lord thought that there would be no trouble if he came by Yondu, but he did not expect that the two fellows around him would have problems.

Mirage Knight is strong and he also understood the current situation and Deadpool was really a pig teammate. But they were still teammates and both of them were from the same planet. Now, Deadpool was killed by Yondu and as Star-Lord watched his fellow human die tragically, he couldn't help but shout out loud.

"Quil, don't you know our principles as pirates after living with us for so many years?" Yondu asked indifferently when he saw Star-Lord's angry look.

## **Chapter 567 Must Return**

Brush!

"What pirate principle!? I am no longer a member of your pirate group! I have my own team, we are the space mercenary team: Guardian of the Galaxy!" Star-Lord spoke loudly while pointing the energy gun at Yondu in front of him.

"Huh! Do you really have the courage to shoot me? Come on then boy, go ahead!" Seeing Star-Lord's movements, Yondu spoke with a disdainful expression on his face.

Shh~

Then, Yondu whistled again before Star-Lord could shoot. With the sound of the whistle, the Flying Arrow that was still slowly circling around Yondu turned into a golden light and quickly rushed towards Star-Lord. Although Yondu wouldn't kill Star-Lord, he wouldn't mind torturing him a little.

"It seems that you have forgotten that I am here, so... Let me create some fresh memories." Seeing Yondu's attack on Star-Lord, Lin Rui thought silently in his heart.

Then, Lin Rui pulled out the Beheading Spirit Sword with his right hand from his waist in an instant. In the next moment, the people in the cockpit only saw two lights and shadows passing by them and then both lights burst out in a dazzling light. Then, the golden light quickly turned at an angle in front of Star-Lord and shot out.

Ding! ~~

Accompanied by the dazzling light, there was a sharp metal crash, and at the same time, the expression on Yondu's face changed instantly. Because, at that moment, he clearly felt that his Flying Arrow was blocked, and the Psychic Power shock wave that was fed back made Yondu frown slightly.

Shh~

With Yondu's next whistle, the Flying Arrow quickly flew back. Controlling the Flying Arrow to float in front of his eyes, Yondu carefully observed the situation of the Flying Arrow. Then, he was shocked to see a tiny scar on the Arrow. Although this scar was already recovering, it was completely beyond Yondu's expectation.

Brush!

After observing the situation of the Flying Arrow, Yondu raised his head and stared at the weird guy opposite to him. After seeing the sword in Lin Rui's hand, Yondu's eyes flashed and no one knew what he was thinking.

"En!? Mirage Knight, you actually blocked his Arrow!?" After Yondu summoned the Flying Arrow back to him, Star-Lord reacted and stared at Lin Rui with a shocked look on his face.

For as long as he can remember, Yondu's Flying Arrow has killed countless people. It can be said that most of Yondu's reputation is because of this Flying Arrow and it has never failed to do what Yondu wants it to do. And now that same Flying Arrow was blocked which caused Star-Lord to be surprised.

"Wait a minute! If you can block the Flying Arrow then why didn't you just..." After carefully observing the current situation on the field, Star-Lord suddenly felt that something was wrong. If Mirage Knight can block the Flying Arrow then why didn't he stop it when it was killing Deadpool just now?!!

"Why didn't I defend Deadpool?" When Star-Lord asked this question, Lin Rui spoke out to help him fill in the rest of the sentence.

"Yes!" Hearing Lin Rui's words, Star-Lord nodded seriously.

"Because that was not necessary." Lin Rui replied as he stretched out his foot and kicked Deadpool who was lying next to him in front of Star-Lord.

Pū Pū~

"Why are you still pretending to be dead? Don't you think that it is time for you to get up?" Lin Rui said after kicking Deadpool, who was still not responding.

Huhu~

Then, among the surprised expressions of Star-Lord, Rocket, and Yondu, Deadpool's body that was supposed to be dead moved twice. Then he slowly got up from the ground!

"Ahem! Mirage Knight, next time you can't pit your teammates like this! No, next time I won't get involved with your talk again! No, I will not go anywhere with you again! I will ask Spiderman to go with you!" Deadpool got up from the ground and clutched his chest. He coughed twice, then looked at Lin Rui and complained very helplessly.

"This!... How is it possible?!" Seeing the dead Deadpool get up, Yondu was the first to exclaim in disbelief.

“How can it be impossible? So, do you still think that you can just tie us up?” Lin Rui smiled and asked again when he saw that Yondu was finally recovering from his anger.

Yondu has already made a move, and it is a unique move. However, his tricks are ineffective against Lin Rui and Deadpool, so it is clear at this time who has the upper hand.

“Haha! Yondu! You finally hit an Iron Wall!” After hearing the dialogue between Lin Rui and Yondu, Rocket, who had been huddling aside without speaking, finally jumped out.

“Huh! Although I don’t need to tie you guys up, you also won’t be treated as a guest!” Knowing that he can’t deal with the two strange guys in front of him now, Yondu finally tried his best to make himself look tough.

“We don’t need it either, so, can we talk about it now?” Lin Rui asked after taking a glance at Deadpool beside him.

“What is there to talk about, even if I can’t deal with you now, do you really think that I would allow you to intervene in the matter between me and Quill?” Yondu said viciously when he heard Lin Rui’s words.

“Of course...”

“Not good! Boss! I just detected a violent lifeform reaction, right in the Underground Ruins!” Just when Lin Rui was about to say something, Yondu’s Deputy who had been driving the Spaceship suddenly shouted.

Rumble!

Just after the Deputy shouted, the relatively stable Spaceship that was flying just now swayed violently, and then slammed into the ground. Fortunately, the Spaceship has left the danger zone in the center just now, otherwise, it would have been dangerous.

“What’s the matter?! Lifeform reaction? Is there anything alive in this Ruin?!” Yondu stopped caring about what Lin Rui was going to talk about after hearing his Deputy’s words, and quickly walked towards the bridge and asked.

“I don’t know, our Spaceship system is out of control now!” After Yondu rushed over, the Deputy quickly pointed to the chaotic control screen and replied.

“How could this happen? Could it be because of the Ruin?” After manually controlling the Spaceship, Yondu found that there was really no response and he frowned.

Brush!

“I think that should be an answer to your question.” Just as Yondu continued to control the Spaceship, a figure rushed to the front, and then Lin Rui’s voice came out.

However, from Lin Rui’s voice, Deadpool could hear some tremors. Could it be that what Lin Rui saw made him afraid? Therefore, Deadpool quickly rushed to the edge of the glass in front of the Spaceship and looked outside. Of course, Star-Lord and others also followed.

“That’s... Oh My God! I want to go back to Earth!” After seeing the situation outside, Deadpool exaggeratedly covered his mouth and shouted.

## **Chapter 568**

Rumble! ~~

In front of the stunned eyes of Deadpool and others, the Underground Ruins that were constantly emitting Energy Shock Waves have gradually stopped the release of energy. However, on the devastated ground, a tentacle had come out and it was slowly squeezing out of the ground.

If it were just an ordinary tentacle, Deadpool would not be so surprised. The key is that the tentacle is not an ordinary tentacle. At this moment, the tentacle that had drilled out of the ground had reached a height of hundreds of meters and it is tens of meters wide.

“Fuck...what kind of monster is that?!” After Deadpool exclaimed, Star-Lord also shouted in shock.

Even with Star-Lord’s knowledge of this universe, monsters of such a huge size are hard to see.

Moreover, why is there a living being in this Underground Ruin?! If this monster was originally under the ruins then why didn’t Star-Lord and Rocket detect it?! And this is such a huge life form which means that its life response must not be weak. They can clearly perceive the powerful vitality of that tentacle.

Unlike Deadpool and Star-Lord’s shocked filled expression, the expression on Yondu’s face was different. After he had carefully observed the Underground Ruins and the position of the tentacle, the expression on his face looked ugly.

“Fuck...it’s that kind of situation!” Yondu silently cursed and thought to himself.

Huhu~

Just when Lin Rui and the others were shocked by the huge tentacle that had emerged from the Underground Ruins, the out-of-control Spaceship continued to crash into the forest. If nothing is done then the Spaceship will crash.

Card!

It was confirmed many times that the control system was out of control, and Yondu finally broke a push rod under the console.

Then, Lin Rui felt the Spaceship move in a different way as the cockpit that was originally connected to the Spaceship suddenly separated from the rest of the Spaceship, like a rescue capsule, and it separated from the main body of the Spaceship.

Boom!

After separating from the main body of the Spaceship, the propeller at the rear of the cockpit automatically ignited, and the huge thrust launched the cockpit away from the ruins.

This series of actions was done by an automatic system for the last escape of the Crazy Wolf Spaceship. Even if the main system loses control, the cockpit can still escape by itself.

Shout! Stab! Thud!

Boom~chichi~

After breaking dozens of big trees and rubbing down the flowers and plants along the way, the cockpit that had escaped the ruin area finally stopped in the forest.

Boom!

After the cockpit stopped with a loud noise, a big hole was broken open from the side of the cockpit. Then, Star-Lord and the others crawled out of the big hole. They were finally able to land on the ground after crashing two Spaceships, what Star-Lord and the others had experienced in just a few minutes was not easy at all.

“What should I do now?” Climbing out of the cockpit, Deadpool asked stupidly while looking at the guys around him.

Regardless of the conflict between Star-Lord and Yondu before, and no matter how Deadpool had offended Yondu just now, they are all like grasshoppers on a single rope(In a similar situation). The situation involving the Underground Ruins has already exceeded everyone’s expectations.

At this time, no one can guarantee their own safety. Now that they have fallen into the forest, they couldn’t see the changes in the center of the Underground Ruins because of the trees surrounding them, but they could feel from the vibration of the ground that the tentacle had obviously broken free from the ground.

Maybe the tentacle is just part of some abnormal monster.

“I don’t know, since that tentacle appeared, some commonly used technology items seem to be out of control, only some special things can continue to be used.” Hearing Deadpool’s words, Rocket checked the equipment on his body and spoke about his findings.

From the sudden loss of control of Spaceship just now, it can be deduced that the tentacle should have a certain special ability, an ability to suppress some technological products. Now, Rocket only has two modified guns that can be used normally, and his other powerful high-tech weapons are temporarily out of control.

While Rocket was talking, Yondu stood aside and looked up at the sky. However, when Star-Lord lifted his head, he knew what Yondu was looking at.

It turned out that the Spaceships drove by the members of the Ravagers Pirate group who hid high when the ruins broke out at the beginning also lost control at this time, and they were falling down one after another.

Huhu~

“They...” Star-Lord didn’t know what to say while looking at Yondu who wore an expressionless expression on his face.

Judging from the descending speed of those Spaceships, there won't be many people who would come out alive after landing on the ground. Of course, if this special suppression disappears, they can still survive.

"I think it's time for us to leave. Although I didn't know what would happen to the Ruins, I had a feeling that it was something bad." While Star-Lord and the others were looking at the fallen Spaceships in the sky, Lin Rui came over and said seriously.

Although Lin Rui has been wearing a mask, his expressions were not much better than that of Star-Lord after seeing the giant tentacle.

Especially when Lin Rui saw the tentacle and the sound of the system in his mind, Lin Rui decided to stay away from the Underground Ruins. Because the system in his mind prompts Lin Rui that an S-level lifeform had appeared after the tentacle appeared.

Lin Rui doesn't even know what it means for a monster to have an S-Class rating. Because when Lin Rui was on the earth, the system did not give a detailed level to the people he encountered, so he judged it roughly based on his own strength.

However, Lin Rui just ran out of Internal Energy and suffered a lot of injuries to defeat a Plantlife form that was a B-Grade lifeform. Above B-Grade there is B+, and then A-Grade. Therefore, Lin Rui is confident of his own strength and he will not provoke any S-Level lifeform. That is similar to giving an invitation to death to come and take them.

After hearing Lin Rui's words, Yondu turned his gaze back from the sky to look at him. Then, he spoke with an unusually serious expression on his face. "I may know what the Underground Ruins are, but we really should leave first."

Call!

After speaking, Yondu activated the individual flying equipment on his body and quickly rushed out to a position far from the ruins. Next to Yondu was his Deputy, and at this time, he was the only one who listened to Yondu's orders wholeheartedly.

"Hey! Yondudu, what do you know?!" Seeing Yondu flying away, Star-Lord shouted loudly from behind.

Boom! Boom! Boom!

Then, Star-Lord and Rocket also dragged Groot and chased after them. As for Lin Rui, of course, he rushed out while pulling Deadpool on the Hoverboard.

## **Chapter 569 Flee**

Shoo~shoo~shoo~

Several figures were quickly flying over the forest. Under the leadership of Yondu, Lin Rui and others all fled in the direction away from the ruins behind them. By some coincidence, the direction they fled was the location in which Lin Rui and Deadpool first arrived at.

Buzzing~

In the process of escaping, Lin Rui and the others could also feel the constant vibration from the Ruins behind them. Even if they didn't look back, Lin Rui and the others could guess that it was the giant tentacle moving around. With the size displayed by that tentacle, its strength is bound to be scary.

Rustle~

While flying fast above the forest, Lin Rui could also clearly sense the movement of various life forms in the forest below. At this time, whether it was the lifeform living underground, on the ground, or on the tree, all of them ran away like crazy, and the direction they were running as far away from the Ruins.

It seems that the tentacle that had appeared in the Ruins also scared the lifeform who had lived in this forest for their entire life.

But this is also a very normal situation, it is just like the animals on earth who would instinctively run away when a natural disaster occurs. The situation that appears on the Ruins is already a natural disaster for these insufficient lifeforms.

Moreover, because they were busy escaping out of the danger zone, these lifeforms didn't even bother to look at the prey flying above them. If it had been in the past, it would have been very dangerous to fly in this forest with an unknown amount of hidden lifeforms.

It was not that Lin Rui and Deadpool had never thought of flying over the forest yesterday, but they had to give up on that idea. Because in Lin Rui's perception, there are many lifeforms in the forest that specifically target prey flying over the forest, so they were careful and went straight through.

In this way, Lin Rui and his group rushed out of the forest quickly and peacefully together with the lifeforms of this planet.

Although Star-Lord wanted to know more about the tentacle that had appeared on the Underground Ruins from Yondu, Yondu had ignored him and continued to flee. Star-Lord couldn't help it, so he had to follow closely behind.

Boom~Boom~

When Lin Rui and the others were on their way, there was a rush of unusual footsteps from a few hundred meters away from their side. After hearing the familiar movement, Lin Rui and Deadpool both turned their heads and looked over, and then they saw a very familiar giant figure.

A few hundred meters away from them, the huge monster that looked like a combination of dinosaur and python was sprinting out of the forest with big strides. It has "Killed" Deadpool once and this Giant Monster has caused a lot of trouble for Lin Rui!

"Hehe, it seems that this guy is also scared, he is running away like us." After seeing the monster, Lin Rui said with a chuckle.

Seeing this monster again, Lin Rui felt that he was really connected with it. They had been fighting for a long time yesterday, and the monster kept driving them from the forest to the valley before stopping.

And not long ago, it also teamed up with the plant monster to deal with Lin Rui and the others. However, after Star-Lord fled into the valley, and Lin Rui broke out to destroy the plant monster, the

Giant Monster continued to hide away in the forest. Now, he was forced to run away like Lin Rui and the others.

“Wow! This guy sure knows how to run!” Deadpool, who saw the giant monster, said a little gloating, but seeing the monster running away, the expression on Deadpool’s face didn’t look very good. “From this point of view, The tentacle that appeared in the Ruins is really terrifying!”

“Of course the tentacle is terrifying. You can tell from its size. However, we should be fine as long as we stay away.” Lin Rui said comfortingly when he heard Deadpool’s words.

Although Lin Rui said so, he didn’t think it in his heart. Because the bad feeling in his heart has not disappeared. Moreover, as the tentacle in the Ruins appeared, the bad premonition in his heart became stronger and stronger.

According to what Lin Rui has experienced in the past, his hunch will eventually come true. Then, even if they keep running away, they will eventually be involved in what is about to happen.

“Yes! We just need to run far enough! We need to get out of this forest!” Hearing Lin Rui’s words, Deadpool said in agreement.

“But doesn’t that guy have wings? Why doesn’t it fly away with them? That would be a lot faster, right?” After worrying about the tentacle in the Ruins, Deadpool looked at the Giant Monster not far away and asked.

Lin Rui: “...”

“Perhaps, the use of its wings is limited.” This guy, how the hell does his mind work. He still has the time to worry about why the Monster is flying.

“Ohh?”

...

Booming~

Just when Lin Rui and others were fleeing, they didn’t see what happened in the center of the Ruins. A minute ago, when Lin Rui escaped from the cockpit of the crashed Spaceship and began to flee, the Spaceships of the Ravagers Pirate group in the sky fell down because of the large-scale loss of control of the system.

There were several Spaceships, who were very unlucky and directly fell towards the tentacle in the center of the ruin.

Phoo~

When those Spaceships were falling, the tentacle that was originally flat on the ground seemed to sense something and suddenly stood up from the ground.

The standing tentacle was nearly a kilometer long, and after a slight twist, the giant tentacle drew towards the fallen Spaceships. Although the giant tentacle looks very cumbersome, it’s speed is quite fast.

Ph~Boom! boom!

Like a rope protruding from the ground, the tentacle was accurately drawn on the two Spaceships. After two loud noises, the two Spaceships volleyed and exploded before they fell to the ground.

The debris of the Spaceships was flying in the sky, and the people inside should have no chance of surviving.

But the tentacle that exploded the two Spaceships did not stop, and it continued to wave towards the remaining two Spaceships. Even after the explosions of the two Spaceships at close range just now, no trace of scars was left on the tentacles.

Brush ~ bang! boom!

Unsurprisingly, when the tentacle waved again, the remaining two Spaceships were also gone. So far, the four unlucky Spaceships have been sacrificed directly in the air. As for those Spaceships that deviated from the ruins and fell out, even if they were not drawn by the tentacle, they would not end well.

Huhu~

The tentacle that exploded the four Spaceships lay on the ground again, and after a few twists, they stretched out in the other direction of the ruins.

## **Chapter 570 Seal**

Kaka~

As the Giant Tentacle that had destroyed four Spaceships slowly moved over the ruins, a huge opening opened once again in one of the corners of the Ruin floor that was already covered with cracks.

Rumbling~

After this huge opening appeared, there was a strange noise from inside.

Chi Chi ~ Phew!

Finally, after that underground strange sound was close enough, a new Giant Tentacle suddenly burst out of this crack. Squeezing the earth at the fissure, this newly emerged Tentacle was desperately trying to burrow out of the ground.

However, every time it drills upward, a layer of light green light always appears to envelop it, preventing it from drilling toward the ground. This layer of light green light looks like an energy shield, enveloping the giant Tentacle as if it was protecting it.

Hoo! Hoo!

However, the Tentacle does not seem to want any "Protection" and it kept drilling toward the ground, trying to break free of the pale green energy shield. In the giant Tentacle's continuous struggle to break free, the light green energy shield color is getting lighter and lighter.

And just before this newly appeared Tentacle had completely broken out of the ground, the previous free Tentacle had moved over.

Boo~

After that Tentacle came over, it just gently touched on that light green energy shield. Then, that energy shield directly shattered into a sky full of energy fragments and then quickly disappeared.

Boom!

The energy shield on the Tentacle's body disappeared, and the Tentacle that had just been blocked at the exit rushed out of the ground by several hundred meters at once.

Then, the speed at which it drilled out also slowed down and it was as if there was still something pulling it underground. However, as long as they are given enough time, the rest of the body in the underground would completely be able to slowly drill out.

Kaka~

Not long after this Tentacle appeared, another huge fissure appeared at another location in the ruins. Then, these two Tentacles quickly moved towards that side. In this way, in less than three minutes after the second giant Tentacle appeared, there were four more giant Tentacles on this ruin.

Each Tentacle differs in length according to the time it takes them to burrow out of the ground, but the shortest one quickly burrows out of the ground and reached a few hundred meters high.

If it weren't for the appearance of these Tentacles that affected the surrounding technological products, Yondu, and the others would have been able to see this scene from high up in the air and it would have been enough to impress and scare them.

Within the ruins that had been expanded to several kilometers in radius, there were a total of five giant Tentacles constantly twisting and turning. Some of these Tentacles are long and broken, but their thickness and appearance are the same.

And as more and more Tentacles appeared, the cracks in the ruins became larger and larger. Judging from the way these Tentacles have appeared here, it is likely that this underground area is filled with these Tentacles.

Buzzing~

It seems that because the giant Tentacles that were originally underground got to the ground, the underground structure of this area has undergone tremendous changes. As more and more of those cracks were made, the ruins had slowly begun to collapse.

The buried secret would be revealed when the entire Ruin collapsed completely. However, this may also produce a result that even Lin Rui was not expecting.

...

Brush! Brush! Brush!

As the tentacles in the center of the Ruins inside the forest became more and more numerous, Lin Rui and his group finally rushed out of the forest. Like the primitive forest natives on the ground, they quickly flew towards the prairie outside the forest.

At this time, Yondu who was flying in the front finally slowed down and fell towards a hillside on the grassland. Of course, Star-Lord followed closely behind and he was followed by Lin Rui, who also took Deadpool down the slope that they had been transported to when they landed on the planet.

Hoo-hoo~da-da~

After shutting down the thrusters behind him, Yondu steadily landed on the hill. Behind him, his Deputy, Star-Lord, and the others all quickly fell down.

As for the creatures that had run out of the forest with them, they did not climb up on this hill and they also continued to rush towards the depths of the grassland, not caring about these few guys on the valley.

“Yondu, what the hell do you know?!” Followed by Yondu landing on the hillside, Star-Lord asked loudly after catching up to him with a few steps.

After seeing the Tentacle appearing on Spaceship before, Yondu’s expression was different from theirs, and he also said some nonsense sentence, now Star-Lord certainly wanted to know everything Yondu knows about their current situation.

After all, the Tentacles that appeared in that Ruin was too scary, and they needed to be prepared for everything.

“What do I know? That Ruin was first discovered by you, and it was you who took the initiative to trigger the Ruin eruption, and now you’re asking me? I’d like to ask you something in return, aren’t you a self-proclaimed famous Mercenary Squad in the Universe? How come you couldn’t even figure out such a Ruin!” Hearing Star-Lord’s words, Yondu’s face slackened as he glared at him and asked loudly.

“We did find the Underground Ruins, but we have also explored them. There was obviously no lifeform reaction before!” Hearing Yondu’s words, Star-Lord retorted, but his tone was obviously weakened.

The current situation couldn’t be more obvious. If the Ruin was not triggered, then those Energy Shock Waves and Tentacles wouldn’t have appeared, and then Star-Lord and others’ current situation wouldn’t be so dangerous.

“Humph! That’s how arrogant you really are! You’re not even sure about the Ruins you find and it is because of me and your immense luck that we had made it this far.” Seeing Star-Lord’s stubborn look, Yondudu continued to berate him. At this time, Yondudu was already teaching Star-Lord as if he was his junior.

“Well, if you want to teach Star-Lord a lesson then you should put it on the back burner. What exactly is the situation of that Ruin, if you know it, then hurry up and say it.” Seeing that Yondu was still putting up a fight, Lin Rui, who was standing at the side, finally couldn’t help but speak up.

The bad feeling in his heart was getting stronger and stronger, the vibration coming from the forest was also getting stronger and stronger and he really didn't have time to watch the drama of Yondu teaching Star-Lord a lesson in front of him now.

Phoo~

After hearing Lin Rui's words, Yondu turned his head to look at him for a second. Then, his eyes turned to the direction of the Ruin in the forest. At this time, they could already see several giant Tentacles that had rushed out of the forest twisting in mid-air.

"Actually, this Ruin should be a kind of seal." Looking at the few writhing giant Tentacles in the forest, Yondu spoke in a serious tone.

"Seal Ruin?! You mean... these Tentacles were sealed here by the citizens who lived here many years ago!?" Upon hearing Yondu's words, Star-Lord suddenly asked again with a shocked look on his face.

"Yes, judging from the outbreak of the Ruin and the way the Tentacles appeared, there is a more than 80% chance of it being a Sealed Ruin." Staring at those tentacles above the forest, Yondudu replied again. However, this time Yondudu's tone was more certain.
