

Marvel 591

CHAPTER 591 RETURN 2

Looking at the unconscious figure of Tony Stark lying in the ward, Rogers outside the glass wall felt very uncomfortable. If he knew that Killian or Mandarin had such a determination to kill Tony then he wouldn't have let Tony risk his life like that.

Now, although the news of Iron Man's serious injury is still in the blockade stage, the people would soon begin to think that something is wrong when they don't see Iron Man or Tony Stark.

Moreover, Mandarin will definitely not let go of such a good opportunity to dampen the confidence of ordinary people all over the world who trust Iron Man to defend them from him.

Although with the cooperation of JARVIS and SHIELD's Intelligent System, they have been able to prevent the communication intrusion from Mandarin, he still has various means to pass the news that Iron Man has been seriously injured by him. Rogers is now worried about what to do next as the pressure is piling upon his head.

But they still have a chance to contain Mandarin before the global panic sets in because although Tony has been seriously injured this time, they have also caught an important person, that person is Maya Hansen who was almost killed by the explosion.

When Maya met with Tony yesterday, she didn't seem to know that Killian would really make several Extremis Fighters self-destruct at close range regardless of her own safety.

Had Maya not been injected with the almost perfect Extremis Serum then she would have died in this explosion. However, it was precisely because she was seriously injured by the explosion that Professor Charles was able to attack her mind when she was hiding in the corner and slowly recovering.

Professor Charles's powerful Psychic Abilities directly caused Maya to lose control of her body, and she was taken as a prisoner by Rogers.

Now, they are further digging for information in Maya's head, hoping to catch Mandarin before he can make his next move.

"Stark, this is what happens when you get too cocky! The other side just sacrificed a few Extremis Fighters to get you like this." With a deep sigh, Rogers looked at the pale Tony in the ward and whispered to himself.

Dī Dī Drops!

When Rogers was thinking about what else he could do to save Tony, a small communicator on his wrist suddenly emitted a sharp beep. It was outside Tony's hospital room, and Captain Rogers would not let anyone disturb him if there was nothing important.

Therefore, the news from this time must be very important. The most important thing he wants right now is to get information from Maya Hansen and a way to treat Tony, both of these situation needs to get resolved quickly.

Phoo~

“What is it?” Raising his hand to bring his wrist to his eyes, Rogers looked at the light screen displayed on his watch and asked.

“Captain! The missing Mirage Knight and Deadpool have appeared!” After Rogers opened his mouth to ask, the communications officer at the end of the light screen reported with an excited look on his face.

“What? Where are they now?!” Hearing the communications officer’s report, Rogers, who had just been in a relatively calm mood, suddenly became excited, and then asked again.

“They are in New York! They just showed up at the League of Defender base, and now they’ve made contact!” Without any delay, the communications officer quickly replied. Hearing these words, Captain Rogers replied back “Got it! I’ll contact him myself!”

Brush!

In the next moment, Rogers hung up on the communications officer’s call and then quickly tapped a few consecutive times on the light screen of the watch. Although the top priority is still Tony’s injury, Killian, and Mandarin, but the return of Mirage Knight has given Rogers some hope.

After all, the central figure in League of Defender has shown many unexplainable things.

What’s more, someone who can be trusted by Tony Stark so much can do something about the current situation. After Tony was injured, Daredevil said that if they found Mirage Knight then he might be able to help Tony.

Beep beep beep~

However, no one answered even after the phone rang for a few times. Then, Rogers’ eyes flashed, and taking a glance at Tony in the ward, he quickly walked out.

...

A few minutes ago, an area in the suburbs of New York was suddenly overcast with clouds, lightning and thunder appeared in the cloud, and then a beam of multi-colored light broke through the clouds and landed on the ground.

A few seconds later, the multi-colored light disappeared. After the multi-colored light beam disappeared, the clouds and thunder in the sky quickly disappeared. And a circular circle filled with ruins appeared on the ground, and three people appeared out of thin air in this circle.

Phoo~

“Ah! I finally returned to the earth! The earth I love!” Deadpool took a deep breath of the earth’s air and shouted with enjoyment on his face.

Although he experienced a trip to a different planet and almost died in the vast Universe, Deadpool’s unique psychology still made him completely accept such an encounter.

Moreover, the transportation through Bifrost also made Deadpool squill with enjoyment. What’s more, although they were only in Asgard’s Bifrost Guardian Hall for a while, it was enough for Deadpool to quietly see the magic and power of Asgard. For Deadpool, this is something he brags about to others!

“So this is how it feels to be teleported by Bifrost!” After experiencing Bifrost transportation twice in a row, Lin Rui was also in a good mood.

If it wasn't for the fact that Ancient One didn't have any intentions to stay in Asgard then Lin Rui would have really liked to see what Asgard was really like.

He just spent a few seconds with Deadpool to sneak a peek outside the Guardian Hall, although they only took a glimpse from the corner but that single glimpse was enough for Lin Rui to be shocked.

“This is the suburb of New York. You can go from here on your own. I should also leave. Mirage Knight, good luck.” After bringing Lin Rui and Deadpool back to Earth, Ancient One's operation ended perfectly, and he would not interfere with the rest.

“Thank you! Ancient One!” Looking at the Ancient One in front of him, Lin Rui thanked him from the bottom of his heart. The next moment, the figure of Ancient One quickly disappeared in front of Lin Rui and Deadpool.

“As expected of someone so powerful, he's got style! By the way, Mirage Knight, the experience of following you this time was too much science fiction and magic, I think I can write a book called: Handsome Deadpool and mysterious Mirage Knight's journey through the Universe! What do you think?” Seeing Ancient One leaving, Deadpool couldn't help feeling stricken, and finally suddenly thought of writing a book.

“Just write if you want to, but let's go back now. Everyone must have been very anxious, after all, we have been missing for two days.” Lin Rui said indifferently when he heard Deadpool's words. Then, he simply recognized the direction and rushed towards the center of New York.

“Well, my beautiful Girlfriend must have been very worried!” With a nod, Deadpool followed Lin Rui.

CHAPTER 592 LEARN

While Lin Rui and Deadpool were quickly making their way towards downtown New York, Jerry, who was located inside the League of Defender base, was resting at his computer desk.

These past few days, in addition to the people running around outside, Jerry was also very tired. In order to find the missing Mirage Knight and Deadpool, Jerry had not only unleashed several of his hacker buddies over the past few days but he also hadn't had a good night's rest in a long time.

However, no matter how many areas of network surveillance they hacked, they still found no sign of Mirage Knight and Deadpool. And, just yesterday, another piece of heavy news emerged, that is, Iron Man TonyStark was seriously injured and he was not out of danger.

This is undoubtedly a huge blow to Jerry and his team, as both League of Defender and Iron Man were hit hard when dealing with Killian, Mandarin, and their Extremis Fighters.

Dī Dī Drops~

Just as Jerry put his head down for a little while just after eating dinner, the computer in front of him suddenly ran out with a beep sound which frightened Jerry. After the prompt sounded, Jerry who was lying on his stomach was suddenly awakened.

After a second of confusion, Jerry turned on the computer excitedly. Because this tone was set specifically for Mirage Knight, and now it had rung, indicating that there is a message from Mirage Knight.

“Hello! Is it Mirage Knight?!!!” Jerry asked in a shaky voice when he clicked the call request that appeared on the computer.

“It’s me, Jerry.” After Jerry asked, Lin Rui’s calm reply came from the computer.

...

Brush!

In the skies above New York City, a Hoverboard flew by at maximum speed, with two oddly dressed people standing on it. As they were so blatantly flying through the middle of downtown, someone soon noticed the two people flying past in mid-air.

“Is that Mirage Knight?” After seeing the two people in the air, someone who knew Mirage Knight pointed curiously and asked.

“It seems to be, although Mirage Knight does not often appear in the daytime, but looking at the way he is dressed, it should be him. However, who is that guy behind him? I haven’t seen him and I haven’t seen anyone wearing that costume before, is he a new Vigilante?” After the man opened his mouth to ask, his friend next to him nodded in reply, but they were still puzzled by the guy standing behind Mirage Knight.

“Maybe he really is a new Vigilante, but don’t you think that the costume he is wearing looks similar to that of Mirage Knight? Maybe he is as powerful as Mirage Knight!”

“But where are they going in such a hurry?”

Not caring about the things that the underground crowd was talking about, Lin Rui had already speeded up the Hoverboard and soared all the way to League of Defender’s base.

As for Deadpool, who was standing behind the Hoverboard, he lost an opportunity to show his ‘face’ in front of the masses. Because his Deadpool suit was almost ruined back on the Alien Planet, he is now wearing a simple hero suit given to him by Lin Rui, which is really similar in style to what Lin Rui wore at the beginning.

Whew!

Lin Rui had already jumped down even before the Hoverboard had landed, and then his figure dashed into the base. After contacting Jerry just now, Lin Rui unexpectedly learned that he had left the earth for more than four days, which was twice the actual time that had passed on the Alien Planet.

Moreover, during the time he was away from Earth, Tony had actually made a risky appointment with Maya Hansen and ended up being injured by the Extremis fighters as they self-destructed, and he was still lying in the Intensive Care Unit. Therefore, Lin Rui is now very anxious to ask Jerry personally about what happened in the past few days.

Brush!

“Jerry, I’m back!” Just like a gust of wind, Lin Rui had appeared in front of Jerry.

“You are really back! Mirage Knight! We’ve been looking for you for so long, we’ve almost searched every corner of the world!” Seeing Mirage Knight appear in front of his eyes, Jerry excitedly rushed over and shouted.

‘Even if you really searched the entire Earth, you still wouldn’t have been able to find me, after all, I was not on the earth.’ Lin Rui thought silently in his heart when he heard Jerry’s words. Then, his thoughts turned to business.

“What the hell is going on, with the protection of the Iron Man Armor, how could Tony be seriously injured?!” Regardless of how Killian and the others are doing now, Lin Rui’s main concern now is Tony’s injury.

“In order to be able to meet Maya Hansen successfully, Mr. Stark agreed to meet her without wearing his Iron Man Armor. He said that he had a new type of protective armor and persuaded Captain Rogers to agree to his plan. However, we did not expect that Killian would not care about Maya Hansen’s safety who was also with Tony. Several Extremis Fighters directly self-destructed when Tony first arrived at the meeting place. By the time Captain Rogers and the others arrived to support him, Tony was already in the ruins and unconscious.” Hearing Lin Rui’s worried tone, Jerry quickly answered.

“This guy, when will his conceited character be changed!” Hearing Jerry’s answer, Lin Rui clenched his fists and cursed Tony in his mind.

Lin Rui certainly knows from where Tony’s confidence in meeting Maya Hansen without wearing his Iron Man Ar or came from, that is The Cloak that Lin Rui and Tony successfully developed before he left.

With the defensive power of The Cloak at the time, it would have been no problem for it to defend Tony from the Extremis fighters for a period of time, and it would have been enough to support Tony until Rogers and the others arrived.

However, he did not expect that Killian would directly let those Extremis fighters Self-Destruct at close range. With such a powerful explosion, no matter how good The Cloak’s defense is, it would have been impossible for it to protect Tony.

“Mirage Knight, I have sent the news that you are back. Everyone now knows that you are back.” Hearing Lin Rui’s conceited evaluation of Tony, Jerry raised an eyebrow and said.

“Well, when will SHIELD’s Quinjet arrive? I’m going to Washington to see Tony.” Lin Rui had already contacted his family on the way over. Although his family would have indeed worried for him this time as Iron Man was seriously injured but the news is still being blocked and his previous excuses can still be used.

Now, he was going to see how Tony is doing.

“It’s already on its way and will be here soon.” Upon hearing Lin Rui’s question, Jerry answered quickly.

“En, Jerry, you did a good job this time.” Seeing Jerry’s face and knowing that he must not have had a good rest recently, Lin Rui reached out and patted him on the shoulder and praised him.

“It’s okay! This is all I should do! But, Mirage Knight, do you really have a way to save Mr. Stark?”
Hearing Lin Rui’s compliment, Jerry’s face showed an excited look and then he asked the main question.

“This, I hope I can.”

CHAPTER 593 RESPONSE

Da Da Da~

It was only after Lin Rui and Jerry had chatted for a few minutes that a rush of footsteps came from outside the base. Then Deadpool rushed in in a hurry. Because Lin Rui had directly jumped down from the Hoverboard, Deadpool almost followed and lost control of the Hoverboard and hit the ground.

“Who are you?” Jerry asked suspiciously when he saw Deadpool rushing into the base suddenly. Deadpool was wearing the Low-Level Hero Suit given to him by Lin Rui at this time and Jerry didn’t recognize him without his signature Red Suit.

Brush!

Do you recognize me now?!” Deadpool took off his headgear when he heard Jerry’s words and asked back.

After this incident, Deadpool felt that he must make himself a unique set of impact-proof and tougher suits that would not be damaged by the harsh environment, just like Spiderman or Mirage Knight. Otherwise, who would recognize him if he is wearing different sets of Hero Suits after each fight!

“Uh... so it’s Deadpool! I’m glad to see you again, and we were all also very worried about you.” Jerry said embarrassingly after seeing that ugly and wrinkled face.

“You speak as if I don’t know who you guys are more concerned about? However, my experience this time is something that none of you had ever experienced, wait until you hear my travel stories!” Hearing Jerry’s words, Deadpool muttered in his heart in a small voice.

Dī Dī Drops!

Not long after Deadpool rushed into the base, there was another rising tone on Jerry’s computer.

Glancing at the computer, Jerry’s eyes lit up and he spoke, “Mirage Knight, the Quinjet sent out by Captain Rogers have arrived, it’s just outside the base.”

Boom~

After Jerry finished speaking, Lin Rui and Deadpool could already hear the roar of engines over the base. It seems that Rogers was also very anxious. Lin Rui only returned to the base for a minute or so, and the Quinjet had already arrived to pick him up.

“Well, then I will leave first.” With a nod, Lin Rui turned around and headed out of the base. As he turned around, Lin Rui also gave Deadpool a look.

“Uh I won’t be going, Vanessa is still waiting for me at home, I’ll take a trip home first to report my safety.” Seeing Lin Rui looking at himself, Deadpool waved his hand and said.

Brush!

After Deadpool indicated that he was not going, Lin Rui had disappeared after leaving a shadow in the same place. Looking at Lin Rui's slowly disappearing shadow, a single thought appeared in Deadpool and Jerry's heart and they thought with some emotion: Mirage Knight's strength has improved a lot again!

Compared to Jerry's emotion, Deadpool's feelings are more clear, after all, he was the one who was stranded with Lin Rui on the Primitive Planet for a few days and they have also encountered a variety of unexpected situations. Therefore, Deadpool is the one who clearly knows Mirage Knight's real strength.

Huhu~

When Lin Rui appeared outside the base, he saw Quinjet suspended more than ten meters in the air. At this time, the cabin of Quinjet opened in the direction of Lin Rui, and a strong and burly man was standing there. It turned out to be Steve Rogers, who actually came to pick up Lin Rui in person.

Brush!

In the next second, Lin Rui stepped down, and his figure directly flew into the Quinjet suspended in the air.

"Captain Rogers, it's nice to see you again." Appearing in front of Rogers, Lin Rui looked at him and greeted him.

"I'm also glad to see you again, Mirage Knight," Rogers said seriously after staring at Lin Rui for a few moments.

After a brief greeting, Lin Rui and Rogers didn't say anything. Lin Rui has told him everything he should know, and now he needs to see Tony as soon as possible. Therefore, the hatch quickly closed, and the power of the engine instantly increases.

Boom! Pū~

Within a few seconds, the Quinjet climbed from a position of tens of meters above the ground to a height of hundreds of meters, and then directly broke the sound barrier and flew back towards Washington.

When Lin Rui got on the Quinjet brought by Rogers himself and rushed towards Washington, there were others who put down what they were doing and also rushed towards Washington. After hearing the news of Mirage Knight's return, Peter, who was still in school, grabbed his school bag and rushed out of the classroom.

Peter was very worried these days, and now that Tony is seriously injured, it is impossible for him to stay in school after hearing this piece of news.

Brush!

After rushing out of the school, Peter tore open his jacket, and in the next second, he turned into a Spiderman and swung up the tall building. After swinging around several buildings, Peter landed on the top of a building.

Hum~

Not long after Peter appeared on the roof, a purple Space Portal suddenly appeared beside him, and then Blink and Iceman walked out of the Space Portal.

“Is Mirage Knight really back?” Seeing Spiderman who was already waiting for him, Iceman asked with some excitement.

“Eh, he’s on his way to Washington right now,” Peter replied quickly with a serious nod.

“Haha! I knew he would be fine!” Receiving Spiderman’s affirmative answer, Iceman shouted with a mental shake towards Blink beside him.

Hoo-hoo!

Just after Iceman and the others appeared, another figure quickly rushed towards their position in mid-air, it was Harry who was riding on his Hoverboard. His Friend had disappeared from the face of the Earth so he had to see Lin Rui in person.

“Everyone is here, let’s go!” Seeing that Harry has rushed over, Peter looked at Blink and said.

Hum~

Blink did not speak and just nodded. Then, another Space Portal appeared in front of them. Without the slightest hesitation, Peter had already walked in first, Iceman and Blink followed in, and then Harry rushed into the Space Portal on his Hoverboard.

After the four of them disappeared from the roof of this building, the Purple Space Portal quickly shrank and finally disappeared.

...

Buzzing~

When Mirage Knight returned and all the people who cared about him rushed to Washington, some very important things were going on in the underground base of X-Men Academy.

In the closed Cerebro Room, Professor Charles is wearing the Cerebro Helmet and he is using his telepathy ability. And he had only one goal this time, and that was Maya Hansen sitting in front of him.

Since catching Maya Hansen yesterday, Charles has conducted three Mind Walks on her, but they have not been very successful. It seems that while Extremis is transforming the human body, it also develops a part of the human brain, so that Maya, who is not a Psychic Mutant, also has the ability to resist Mind Invasion.

Nonetheless, Professor Charles continued to telepathically communicate with Maya, knowing that Maya was on the verge of not being able to hold on.

Whish~

Finally, under Charles’ continued strong Psychic Invasion, Maya’s defense was finally broken. Then, Charles quickly searched for information about Extremis, Killian, and Mandarin in Maya’s mind.

“This is!...” Professor Charles who finally saw the memories in Maya’s mind suddenly opened his eyes, he had already pulled his mind away from Maya’s as he already knew what he should know.

Then, Professor Charles controlled his wheelchair to turn around, he had important things to tell Captain Rogers.

CHAPTER 594 GUESS

(Gene Therapy Serum→ Recovery Serum)

Following Captain America, Lin Rui went all the way towards the Advanced Ward where Tony was. Standing outside the glass wall and looking at the pale-faced Tony in the ward, Lin Rui felt very uncomfortable. Lin Rui knew that if he hadn’t disappeared inexplicably, Tony might not have gone to see Maya and put his life in such danger.

Moreover, even if Tony had gone with this crazy plan then Lin Rui would have at least be able to guarantee Tony’s safety. The level of protection that Lin Rui gave Tony before was very low, and it couldn’t stop the power behind the Self-Destruct of the Extremis Fighters.

“How is his condition now? Has it gotten better?” Without immediately asking to go into the ward, Lin Rui looked at Rogers beside him and asked.

“The Physical trauma has been almost recovered, and the multiple fractures on his body would be quickly recovered with our technology. However, this time the Extremes Self-Destruction was at a close range, and the shock waves generated have caused various organs to get damaged in Stark’s body. He has suffered serious damage. We have given him Oscorp’s new Recovery Serum, but the effects haven’t been that great. I don’t know the reason for that. If he was sent to a general hospital then he would have been unable to survive. However, we can only maintain the status quo and can’t do anything to improve his condition.” Upon hearing Lin Rui’s question, Rogers answered seriously.

“Organ damage and even the Recovery Serum can’t treat it? Is there something special about the Extremis injury?” Lin Rui frowned when he heard Rogers’ answer.

If it was a simple explosion injury then with SHIELD’s current medical technology and Oscorp’s latest Recovery Serum, it would have done more than just left Tony on the edge of life and death. So, the reason that Tony has been unable to recover is probably because of Extremis.

“We also thought that but we didn’t detect any Extremis in Stark’s body.” Seemingly knowing what was going through Lin Rui’s mind, Rogers told the results of their previous examination as well.

“It’s not Extremis that’s the cause? Then what’s with this situation?” Hearing Rogers’ words, Lin Rui could not figure out for a moment what was the reason for Tony’s continued coma and inability to Recover.

“By the way, we were going to try to operate on Tony. However, he still has some very tiny shrapnel around his heart, and we haven’t found a Doctor who is competent enough to perform such an operation. After all, Tony’s body is very weak, and if he go under surgery then I don’t think he would” Rogers continued to add to the side.

The shrapnel around Tony's heart that had not been taken out still threatened his life at this time, perhaps, this was something that should have been expected long ago.

"The shrapnel around his heart? I have a personal recommendation for that. However, the first thing we need to do is to pull Mr. Stark back from such a dangerous situation, otherwise, doing the operation will be useless." Lin Rui replied after he heard Rogers' words.

"En? Do you really know a Surgeon capable of doing such an Operation!" Without doubting Lin Rui's words, Rogers said excitedly.

"Now, can I go in and see Mr. Stark? I want to judge his situation from a close range. Some things can't be seen outside." The consultation has been completed, and Lin Rui will now personally check Tony's situation.

"Okay!" Rogers agreed without hesitation.

Card~

Then, he had already opened the door to the room under comprehensive surveillance. After taking two deep breaths, Lin Rui walked in.

...

Two minutes later, Lin Rui, who had already examined Tony's body condition carefully, was still frowning. As Rogers said just now, Tony is now in the top medical environment of the earth, even if his current injuries are indeed very serious, but they should have shown some sign of improvement after all this time.

However, the expensive medical supplies that were fed into Tony's body did not seem to be working as they should and they are just keeping Tony from dying.

Moreover, Lin Rui has fed Tony a portion of Elven Holy Spring Water under Rogers' gaze. Even the Elven Holy Spring Water, which can quickly help in recovering vitality, didn't make Tony's condition better and it just made his situation more stable. It seems that the energies that should have used to heal Tony have disappeared somehow.

"Ineffective? Captain Rogers, is it possible for me to connect with JARVIS here?" With thoughts quickly turning in his mind, Lin Rui turned his head to look at Rogers beside him and asked.

"JARVIS? Yes." Although Rogers didn't know why Mirage Knight was looking for Stark's AI at this time, he still nodded.

"Mr. Mirage Knight, what can I do for you?" After Rogers finished answering, JARVIS's voice came from Ward's speaker.

"JARVIS, what happened to The Cloak after Mr. Stark was attacked?" Lin Rui asked directly after hearing JARVIS's voice.

Since the cause was not Extremis then it could be Venom as the inexplicable disappearance of those healing effects made Lin Rui think of that Alien Parasite, which also has Energy-Swallowing attributes.

Although Lin Rui had checked it once and found no signs of Venom remaining on Tony's body, he was still feeling a little uneasy. Maybe Venom had hidden something when they tested it last time?

"When the Extremis Fighters were self-destructing, The Cloak helped Mr. Stark withstand most of the damage and shock waves. Before The Cloak's control system was destroyed, The Cloak had been damaged by more than 95%. According to my calculations, The Cloak must have been completely destroyed in the subsequent explosion." Upon hearing Lin Rui's question, JARVIS quickly answered.

Hearing J.A.R.V.I.S.'s answer, a bright light flashed in Lin Rui's eyes. The Cloak's Control system before the destruction of The Cloak has been damaged by more than ninety-five percent. It is reasonable to say that it must have been completely vaporized by the explosion.

However, Tony still has a Low-Level protection charm given to him by Lin Rui. So, if Venom retracted into Tony's body surface after the control system was damaged, then it would still be partially preserved.

"In that case, then let me see if it's you or not!" Thinking of this possibility, a small bottle once again appeared in Lin Rui's hand out of thin air as he had exchanged a bottle of Elven Holy Spring Water from the System Shop.

Rogers, who was standing by, heard the conversation between Lin Rui and JARVIS. He made no movements to ask anything at this time. He also heard a brand new word just now, that is The Cloak.

From JARVIS and Mirage Knight's words, The Cloak should undoubtedly be a newly developed product by Tony, and it is also the reason why Tony had the confidence to meet Maya without his Iron Man Armor.

Since this kind of weapon can protect Tony from death even in the face of self-destruction of several Extremis fighters, then it is obvious that it is also a powerful weapon. Although Stark is only one person, he is indeed a very talented and capable scientist.

While Rogers was thinking about something, Lin Rui had already fed Tony the contents of the vial.

Chapter 595 Cause

Huh~

While Lin Rui fed Tony a new portion of Elven Holy Spring Water, he directly released his powerful Psychic Power that had already recovered. This time, Lin Rui wanted to understand how powerful the vitality of Elven Holy Spring Water had and how it is disappearing.

Buzzing~

Under Lin Rui's powerful Psychic Power scan, the Elven Holy Spring Water that entered through Tony's mouth quickly entered his body. Then, just as this Elven Holy Spring Water began to inject vitality into Tony's body, a special attraction suddenly came from behind Tony.

Then, most of Elven Holy Spring Water was attracted to it, and only a small part played its role in healing Tony's body.

“Ohh? There really is a problem!” Noting the attraction coming from Tony’s back, Lin Rui’s Psychic Power directly swept towards it.

In the next moment, Lin Rui saw an object that had merged with Tony’s back and it was this object that was attracting and absorbing the Elven Holy Spring Water.

The object that absorbed Elven Holy Spring Water was like the skin on Tony’s body. It was impossible to tell the difference in terms of color or size. However, when Lin Rui’s Psychic Power swept over, he discovered that it was not part of Tony.

“Surprisingly, it’s the remaining Venom!” Lin Rui whispered in his heart after seeing the piece of object that showed up under his Psychic Power scan and a harsh look flashed across his eyes.

It seems that in yesterday’s Extremis Fighters’ close range self-destruct, The Cloak itself under Tony’s control helped him to block most of the damage. But when The Cloak was destroyed, Venom’s own instincts awoke, and instead of sacrificing itself to protect Tony again, it chose to cling to Tony to preserve itself.

Moreover, after Tony was rescued, it also hid in Tony’s body constantly sucking the healing medicines that were injected inside Tony’s body to slowly recover itself.

As a Parasitic Cosmic Lifeform, whether it is the Recovery Serum or Elven Holy Spring Water, Venom is always willing to absorb them. Moreover, after absorbing a bit of Recovery Serum and the two bottles of Elven Holy Spring Water just now, Venom, who was also seriously injured, has recovered a lot.

If not for the fact that this ward is under close surveillance twenty-four hours a day and there are many powerful people guarding the outside, maybe Venom would have sneaked away.

“Now that I have found the reason, come out!” Determining that Venom was the one who was causing the trouble, the Psychic Power released by Lin Rui instantly coalesced together and pounced directly towards Venom’s location.

Although Lin Rui’s Psychic Power was not strong enough to shake any fixed object in reality, it was enough to deal with a lifeform like Venom.

However, when Lin Rui’s Psychic Power pounced on Venom, Venom seemed to notice and stopped absorbing Elven Holy Spring Water instantly, but instead quickly released a large amount of its own energy into Tony’s powerless body.

Buzzing~

As Venom released his own energy, a vague wave was also directly transmitted from Venom’s position to Tony’s head. Facing Lin Rui’s attack, Venom also quickly launched his own counterattack.

“Damn it!” Seemingly knowing what Venom intended to do, Lin Rui let out a low shout and directly extended his hands.

Boom! Boom!

The next moment, Tony who was still in a coma with serious injuries on his body, suddenly raised his hand and attacked Lin Rui beside the bed. However, Lin Rui was prepared and he easily blocked Tony's fist.

It turns out that Venom had just released his energy to instantly stimulate and strengthen Tony's weakened body functions. Then he took advantage of Tony's unconsciousness to control his subconscious mind and let him attack Lin Rui.

The next moment, Lin Rui blocked Tony's punch and grabbed Tony, who was still struggling, and then he realized that the Venom, which was under Tony's back, had moved to the bottom of Tony's neck.

"Still want to control Tony? No way!" With a low shout, Lin Rui grabbed Tony's arms and threw them upward. Then Tony was thrown from the hospital bed by Lin Rui, just revealing the condition of his back.

Brush!

In the next moment, an Azura light appeared and disappeared in the ward, Lin Rui had used the Beheading Spirit Sword in a very short time and had successfully cut off the Venom that was attached to Tony's body.

"Protect Tony!" When Tony started to fall from above the hospital bed, Lin Rui reminded Rogers who was a little dazed next to him, and then he quickly took a step outside.

Huh~

When Rogers heard Lin Rui's words and reached out to catch the falling Tony, Lin Rui had also quickly thrown a small object towards the corner of the room.

After Lin Rui threw the small object shot into the corner, a magical looking light instantly enveloped the corner. Then, a transparent and twisting object slowly appeared in the corner, it was Venom who was ready to slip away just now.

However, at this time, Venom couldn't break away from the control of his position and could only continue to twist in place.

"What's that thing? Why did it appear here?!" Rogers, who had already put Tony back into the hospital bed peacefully, turned his head and saw Venom's figure writhing in the corner, so he asked with an ugly expression on his face.

It was only a few seconds from when Lin Rui found Venom to when he attacked Venom, and Rogers only had time to reach out to catch Tony.

In Rogers' view, since Mirage Knight took the initiative to find the thing that seemed very disgusting, then he must be the culprit that caused Stark to fail to recover. But they didn't find any problems with such a rigorous inspection so Rogers felt that it was his negligence.

"That is an alien lifeform known as Venom. As for how it appeared here...because it was on Mr. Stark's body~" Lin Rui calmly explained after hearing Rogers' words.

"Alien lifeform?! It was on Stark's body?!" The expression on Rogers's face became even more ugly when he heard Lin Rui's answer.

Da Da Da ~ Da Da Da ~

Just as Rogers was about to go on to ask for some more details, there was a sudden rush of footsteps outside the ward.

When Lin Rui and Rogers turned their heads to look over because of the footsteps, they saw Spiderman rushing ahead of the front, followed by Iceman and others, who all rushed over-under Daredevil's leadership.

Because Rogers had also previously acquiesced to the joint status of SHIELD and League of Defender, there was a little hindrance to their appearance here.

"Mirage Knight!" Spiderman called out immediately after seeing Lin Rui in the ward.

Chapter 596 Consciousness

Seeing the friends rushing from outside the ward, Lin Rui was very moved. In addition to his great strength in this world, Lin Rui has also gained many trusted friends.

"I'm fine! Don't worry!" Lin Rui quickly replied loudly when Peter called his name.

"And, Mr. Stark is also out of danger." First, he gave Peter and the others a safe report of himself, and then Lin Rui told them that Tony Stark was also fine.

"Haha! I knew it! I knew that as long as you come back then everything would be fine!" Hearing Lin Rui's words, Iceman, who was standing outside the ward, said happily.

After knowing that Tony was also out of danger, Peter and the others were also silently relieved. The Iron Man is a very important symbol of the world, and the people here are very clear about what it means. So, Mirage Knight has returned and Iron Man was out of danger, which is indeed very good news.

However, because of the angle of vision, Peter and the others standing outside the ward can only see Tony on the bed, but not Venom who is twisting in the corner. So, their eyes were on Tony in the hospital bed, they wanted to see if what Mirage Knight said was true.

Huh~

Under everyone's gaze, Tony's fingers suddenly moved. Then Tony's closed eyes trembled slightly.

"It seems that Venom did a good thing in the end. If it hadn't strengthened Tony's body by its energy then he might not be able to wake up so quickly." Seeing the slight changes in Tony's body, Lin Rui silently thought.

Because Venom has left Tony's body, the efficient drugs that were originally injected into Tony's body and were absorbed by Venom were again given to Tony when Venom released the energy just now.

Therefore, Tony's body is now undergoing rapid self-recovery inside. Without Venom's interference, Tony's various organs are also rapidly recovering.

Huh!

Finally, under the nervous gaze of Lin Rui, Rogers Captain, and Peter outside the ward, Tony, who had been in a coma for a day, finally opened his eyes.

“Eh?”

“Welcome back, Mr. Stark.” As Tony opened his eyes to see Lin Rui in front of him and was about to speak, Lin Rui spoke up first.

“Congratulations, Stark, for coming back from the dead once again.” After Lin Rui finished, Rogers, who was standing next to him, looked at Tony, who was still a bit confused and said.

Huhu~

“How many days have I been in a coma?” Finally, after taking two deep breaths, Tony’s eyes finally became clear, so he calmly asked.

“Sir, you have been unconscious for a total of twenty-seven hours, thirteen minutes, and eight seconds.” After Tony asked that question, JARVIS’s voice answered him quickly.

“JARVIS, you are here too! But I’m not on my own turf, am I?” Hearing JARVIS’s voice, Tony asked with some surprise.

“This is the Washington SHIELD Headquarters. We brought you here after you were attacked and injured by the Self Destruct of those Extremis Fighter. You would have stayed unconscious if Mirage Knight hadn’t come back.” Hearing Tony’s question, Rogers replied indifferently.

“Mirage Knight, is it? It was you who saved me again?” Hearing Rogers said that it was Mirage Knight who saved him, Tony’s eyes shifted to Lin Rui’s figure and he asked in an inexplicable tone.

Because Tony knew that Mirage Knight in front of him was actually the kid who hadn’t even graduated from high school, Tony felt too strange that he has been saved by Lin Rui so many times. Just like the last time Tony was attacked. Without the protective charm Lin Rui gave him long ago, he might not have been able to come back.

“Mr. Stark, now you need to recover, and leave the dangerous thing to us.” Seeing the look on Tony’s face, Lin Rui said with a smile.

“Hey! Mr. Stark!” Just as Lin Rui and the other two were chatting in the ward, Peter outside finally couldn’t help shouting.

It was only after Peter called out that Tony noticed that there were so many people outside looking at him. It seemed that they were all worried about his safety.

It has been a long time since Tony’s parents died, but unexpectedly, there are still so many people who care about him. So Tony barely pulled out a smile to the outside of the ward, he wanted to express his gratitude.

Huhu~

But when Tony’s smile was only halfway out, his eyes suddenly fell into the corner of the ward, just to see the writhing Venom. Therefore, the originally reluctant smile just collapsed on his face.

Later, Lin Rui packed up Venom and gave Tony a bottle of Elven Holy Spring Water to speed up the recovery process. Because Killian's affair is not over yet, in order to deal with their subsequent counterattack, Iron Man must recover in the shortest possible time and appear in front of the people again.

...

Just when Lin Rui pulled Tony back from the edge of severe injury and death, and quickly brought him to his peak state. Captain Rogers also received two very urgent messages, both about the Extremis incident.

One was sent by Professor Charles, who had breached Maya Hansen's mental defenses to obtain a piece of very critical information. That is: the so-called Mandarin is just a puppet supported by someone else, the real master is someone else.

And the identity of the person behind the curtain is also scary enough as he is an important member of the World Security Council.

The other news came from SHIELD. After they blocked the news that Iron Man Tony Stark was seriously injured and dying for a whole day, Killian finally released this news that was enough to disturb the confidence of the people through other means.

Now, the news that Iron Man has been wiped out by Extremis Fighters is rapidly spreading out. Even though SHIELD tried to block it, the news was slowly letting everyone know that Iron Man has been defeated and maybe dying. For a time, the question about what happened to Iron Man is now the world's biggest concern.

"If I continued to remain unconscious this time then their plan would have really worked. Even if they can't cause us any substantial damage, the confidence of the public would have taken a great hit." Tony, who had already recovered, looked at the outside world's speculation about his current situation and said with some emotion.

From an "Ordinary" wealthy scientist to a Superhero that has enough influence on the world, Tony also knows what kind of influence his various actions will have on the outside world.

"Since they are so sure that you have been seriously injured, so why not let them see it? I think everyone will love that scene." Hearing Tony's words, Lin Rui, who was next to him, smiled and said.

"Hehe, why not?"

Chapter 597 Undercurrent

"What happened to Iron Man?"

"We need Iron Man! We need the truth!"

"Iron Man is seriously injured and dying? Is it true?!"

"What about SHIELD? What about the League of Defender? Captain America, Mirage Knight, can you give us some answers?"

The next day, after SHIELD had loosened some control over public opinion, a lot of news about Iron Man's disappearance and him being seriously injured appeared in various media.

Although because Iron Man's prestige is very high, coupled with some government guidance, these media also did not report too much. However, such a kind of half-covered news resonates more with ordinary people.

It seems that Killian and their plan seems to be a perfect success. Because, after the news that Iron Man Tony Stark was seriously injured and dying broke out, everyone's fear of Extremis Fighters became even stronger.

Even the powerful Iron Man could not deal with the enemy, so how could ordinary people like them resist. So, their first goal of using force to conquer the world was accomplished, and that was to make the world afraid of them.

Next, as long as there is no one else to stop them, they will definitely overthrow the regime of the first power on earth.

In a small town in the middle of the United States, far from both Washington and New York, Killian, who had arranged for the Extremis fighters to attack Tony, was hiding in the town and quietly waiting for the news about Iron Man to fester.

"Tony Stark, you were lucky enough that you didn't get blown up straight away! However, you must be worse than dead now. Without you, who would be willing to sacrifice themselves to block our constant stream of Extremis Fighters?" Looking at the various speculations on the Internet about Iron Man's current situation, Killian muttered to himself in a gloomy tone.

In order to ensure the effectiveness of the attack, Killian bypassed Mandarin and the people behind him and directly controlled his own Extremis Fighters to self-destruct at close range. In Killian's plan, even if he killed Maya Hansen while killing Tony then that would be worth it.

However, the result of the attack was not so satisfying for Killian. At least, Tony did not directly die and was rescued by the people who came behind him.

Although Killian felt that even if Tony didn't die, he was seriously injured by that attack and he wouldn't be able to make a complete recovery. Not unless he could get his hands on the Extremis Technology. If they use Extremis to transform Tony's body then he would still have a chance to recover normally.

"Huh! I really hope that those guys will use Extremis to heal Tony Stark in the end. In that case, he will become the biggest card in my hand. However, you would still have to come to me and beg if you want Extremis!" For Tony, Killian's hatred is not a little bit.

Dī Dī Drops!

While Killian was hiding in this small town watching the storm of news from the outside world, a communicator he had on hand suddenly rang out. Scanning the words displayed on the communicator, Killian's eyes flashed as he connected the communication.

"The pressure of public opinion is enough, we can start the next move." Without speaking any unnecessary nonsense, a sentence without emotion came from the other side of the communicator.

“Finally. I thought I would have to continue hiding again.” Killian said with a harsh expression flashing across his face when he heard the words opposite the communicator.

“Although there will be someone up there to interfere with SHIELD’s actions, however, Captain America not someone who could be taken lightly. Remember, what we need is the ever-expanding heartfelt panic of the general public, not great material destruction.” It seems that the person on the other side of the communicator could see Killian’s expression change, and reminded him twice more.

“I know. However, where would the fear factor be if there is no material destruction?” Hearing the other party’s words, Killian’s eyes flashed and then said.

“You only need to control this process by yourself. As long as you don’t make it too difficult for the people above then I don’t care what you do. Also, Mandarin is very unhappy with your sacrifice of Maya Hansen this time.” No longer asking Killian about his next actions, the guy on the communicator suddenly talked about Maya Hansen. It seems that Mandarin really cares about this girl.

“Haha, Unhappy!! What is his happiness got to do with me?! If it wasn’t for the people above then who would even care about him. He is just a puppet, does he really think that he has any power over me?” Hearing the words of the man on the communicator, Killian said with a face full of disdain.

If it wasn’t for Killian, who was not suitable to become a mysterious person behind the scenes because of his early years outside, why would the people on top find an old man with good acting skills to be their puppet?

Moreover, in order to make this puppet more realistic, Mandarin does have a lot of power on his hands, which is why he was able to give Killian a hard time.

“I won’t interfere with the conflict between you guys, as long as it doesn’t interfere with our big plan.” The man was also aware of Killian’s displeasure with Mandarin and said nothing more.

“Of course the plan will not be affected, don’t worry, no one else would be able to interfere this time, I will do what I have to do perfectly.” Speaking of their plans, Killian spoke with a fanatical expression on his face.

“Let’s hope so.” Ka~ Then, this covert communication ended.

After hanging up the communication, Killian simply packed up his things and walked out of this ordinary house. Since the people on top are going to start their big move, Killian does not need to hide in this town where there are not many cameras.

Starting today, Killian is going to let the world know without Iron Man’s protection, they are like the flowers in the greenhouse that could be easily destroyed by anyone. To continue to live safely, they will have to abide by the new order and survive by the rules set by Killian and co.

Killian believes that as long as their plan succeeds, in the near future, the whole earth will be theirs. Moreover, when Extremis completely covers the globe, the whole earth will be under their control.

On that day, the entire earth will be considered to have completed the true sense of unity, which is also the ultimate goal Killian and the others have been working hard for.

While Killian and the others were preparing to take action due to the fermentation of public opinion, a series of unexpected things happened inside SHIELD.

Since Captain Rogers took control of SHIELD, the World Security Council, which has not questioned SHIELD's Internal Affairs, suddenly attacked SHIELD as one of their board members directly accused Captain Rogers and asked him whether he was qualified to run SHIELD.

After all, how can an "Old Man" who had just been dug out of the ice take over a large organization with responsibilities covering the world?

Chapter 598 Prepration

Faced with the sudden outburst of the World Security Council, Captain Rogers did not have a single worry in his heart. Because, when he heard the information from Professor Charles that the people behind Killian and these Extremis Fighters were people in the World Security Council, he knew that there would be such a play.

So, when the World Security Council approached him, Rogers had already arranged a lot of things and he went to meet them without any worries in his heart.

If the World Security Council wants to deal with Captain America as it did with Fury then they are doomed to fail. After all, many things that Fury did in SHIELD did leave a lot of traces and doubts.

Moreover, the previous SHIELD was hidden in the dark. After Captain America appeared, SHIELD has been exposed to the public. Therefore, the prestige of Captain America is not something that Fury can compare to.

In addition, the World Security Council has paid a lot of money to kick Fury out of SHIELD. If they really want to kick out or hollow out Rogers as well this time then Captain America will show them that there are many things that are beyond their control.

With this incident, Rogers would be able to remove the entire World Security Council from the world in one fell swoop. Since one of them dared to threaten the globe with Extremis, Rogers didn't have to hold back any longer.

"Twelve cities, including Washington, New York, Los Angeles, and Chicago, have detected the presence of Extremis fighters. A new batch of Iron Man has been backed up out there and will strike these Extremis fighters with pinpoint accuracy when needed." The voice of JARVIS came out faintly from the temporary office of Washington.

And in this large office, Tony, who had completely recovered from his serious injuries, was standing behind a console operating something, and next to him were several familiar figures, among them were Mirage Knight and Spiderman.

This building in the center of Washington was also an asset of Stark Industries, and it happened to be used as their temporary meeting point at this time.

Because the news of Tony's complete recovery is still closed, in order to prevent the people in the World Security Council from knowing, there is still a person in Tony's ward lying there pretending to be unconscious.

In order to find Tony's stand-in, Captain Rogers also specially asked Professor Charles to send out a Mutant who could change shape, and that Mutant is disguised as Tony and he is lying in the ward. In this way, it would be impossible for even someone who knew Tony very well to see any difference from outside the ward.

"Did you find Killian?" Without caring too much about those Extremis Fighters hiding in the city, Tony stared at the light screen in front of him and asked indifferently.

Taking a trip to the edge of death this time, Tony had to thank Killian for giving him this rare opportunity. Therefore, Tony would also give him a big prize. Didn't Killian think that he was already dead or lying in bed waiting to die, then he would appear in front of him at the most critical time and watch the change in expression on Killian's face.

"I haven't found him yet. However, there are obviously many more Extremis Fighters in Washington than in other cities. Since the discovery of the first Extremis Fighter, now more than fifty have been detected, and the number continues to increase." Hearing Tony's words, JARVIS replied in an unchanged tone.

"Of course there is more here, I think they might still be thinking about occupying the White House!" Tony said disdainfully when he heard JARVIS's answer.

"Occupying the White House? That sounds interesting!" Lin Rui, who was sitting at the back of the room doing his own thing, heard Tony's words and muttered silently in his heart with a glint in his eye.

In Lin Rui's previous life, he had seen many movies in which there were evil forces occupying the White House. Among them, the middle-aged Magneto in the X-Men series once made a mess of the White House. If it weren't for Professor Charles then the White House would have become nothing more than the rubble.

Therefore, Lin Rui is really looking forward to it now. He wants to see those Extremis Fighters rushing to the White House.

"Mirage Knight, why do you think Killian and the others want to do this time? They are not going to bomb these twelve big cities, right?" Not noticing the change in Lin Rui's expression, Peter beside him asked curiously.

The bombing attack will definitely occur, after all, they only need to use one Extremis Fighter to cause some damage and we have seen a larger effect of that. Last time, if it wasn't for the Earth Sorcerers then half of New York would have been destroyed. However, we will not let them have a chance again this time. They are just people who are going to self-destruct. Do they really think that we can't do anything?" Hearing Peter's words, Lin Rui replied without any hesitation.

"That's right, they are sure that Mr. Stark is seriously injured and can't make a move. By then, they will not be particularly prepared for the appearance of Iron Man, plus we have the Avengers and X-Men with us, defeating these Extremis Fighters wouldn't be a problem at all." Hearing Lin Rui's answer, Peter also confidently said.

“That’s it. After we have defeated those Extremis Fighters, we will find Killian.” Lin Rui said. At this time, Lin Rui can already predict the situation of those Extremis Fighters, the appearance of Iron Man would be enough to establish the victory of this battle.

United with all the forces he could unite, Lin Rui felt that they would have no problem dealing with the Extremis Fighters. Moreover, Rogers has also been prepared for a long time, and that guy from the World Security Council who gave him trouble will not end up well.

Dī Dī Drops!

“Sir, I have found Killian, he is in Washington!” While Lin Rui and Peter were discussing in a low voice, JARVIS suddenly raised his volume to give out a prompt.

Brush!

“So he finally appeared!” Tony whispered as he watched Killian’s figure appearing on the light screen in front of him.

...

“The White House, what a magnificent building. However, the only way to cause the greatest panic is to blow you up! Now, all we need is infinite panic!” Standing on the square in front of the White House, Killian, wearing a duck-tongue hat, surveyed the White House not far away and thought silently in his heart.

Lin Rui did not know that Killian, who appeared in Washington, had actually made the White House his target. If Lin Rui knew that Killian was going to blow up the White House, he would have thought it was a great coincidence. However, Killian had now been discovered by JARVIS and his next plan was already destined to be failed.

“Then, let the game begin!” Staring at the White House ahead, Killian directly squeezed a small instrument in his hand.

Chapter 599 Unaware

As Killian squeezed the instrument in his hand, all the Extremis fighters in the twelve major cities across the United States began to move. This time, they wanted to let the whole world see the great terror brought by Extremis.

As for Killian, he was standing in front of the White House, and he wanted to see with his own eyes the effect of his masterpiece: that is, the fall of the White House.

In Killian’s mind-sense transformed by Extremis, a dozen Extremis Fighters mixed in the group of travelers visiting the White House had entered inside the White House by this time. After receiving Killian’s order, the surface of these Extremis’ bodies hidden underneath their clothes all gradually appeared with a fire-red glow.

Not long after, these Extremis fighters who passed the security check had two more Extremis lifeform bombs wrapped in a layer of black material. They actually split a part directly from the inside of the body to make a lifeform bomb. This method is really impossible to prevent.

Now, these Extremis Fighters in different areas of the White House are just looking for opportunities to throw these lifeform bombs. Then if they take advantage of the chaos to engage with the security in the White House then the defense of the White House will not have time to stop them.

After all, these dozen or so Extremis Fighters are already very strong under Killian, and they are also fighters who have been injected with the Perfect Extremis. Even if the White House has a strong defense, these Extremis fighters can also be transformed to fight.

Unless the White House has hidden hundreds of Iron Mans here, Killian is bound to demolish the White House today. However, just when Killian was waiting with a comfortable face for the first explosion of flame to come out from the White House, his heart suddenly jumped and a not-so-good feeling arose in his heart.

“Eh? So strange!” Those Extremis Fighters in his mind were still acting as planned, nothing unexpected had happened, but Killian felt a sense of anxiety.

“The people around?!” Finally, when Killian took off his sunglasses and scanned his surroundings, he was surprised to find the problem.

It turned out that all the tourists around him who had been coming and going in various directions had become sparse at this time. The tourists who had been crowded near the White House seemed to have been rushed hundreds of meters away, and this square just happened to become vacant.

Moreover, after carefully observing the surroundings, Killian can also see that the tourists who continue to stay outside the White House are not simple people. Especially those people who are very close to Killian, Killian can feel a threat to his life from them.

“Humppp! So I have been discovered? So what? You can’t stop me!” Confirming that he was surrounded, Killian snorted in his heart.

Buzzing!

In the next moment, Killian’s eyes gushed out with a fire-red light, and as soon as he landed on his feet, his entire body rushed in a direction.

In the direction that Killian had rushed over, there happened to be only one person wandering over there as if nothing was wrong. But when Killian suddenly rushed out, that person also obviously reacted as he stopped and turned his body slightly sideways to Killian’s side.

“Although I don’t know if you are from the Military or SHIELD, or if you are any so-called Hero but you have just wasted your life by coming here!” Killian roared as he looked at the single man with sunglasses blocking his way.

Boom!

Then, a flaming fist that was enlarged many times hit the man with sunglasses. Although Killian knew that this person must also have some strength, Killian, whose body has been completely transformed by Extremis, is even more powerful now.

The opponent will definitely be blasted into ash under his own fist. This is Killian’s confidence.

However, when Killian's fist was less than half a meter away from the sunglasses-wearing man, the sunglasses-wearing man finally made a move. The next moment, an alloy rod appeared in front of Killian's fist. It seemed that the sunglasses-wearing man wanted to use this alloy stick to block Killian's punch.

"Heh!" Seeing the alloy stick that stopped in front of him, the corner of Killian's mouth pulled out a cruel smile, and then he directly blasted towards the middle of the alloy stick.

Boom!

With a loud bang, a figure directly rose up in the air and flew backward. The sunglasses-wearing man, under Killian's punch, seems to have failed to resist.

However, Killian, who had blown away the sunglasses-wearing man, did not look much better. Because, just now, his original intention was to directly break the alloy stick in the direct hit and kill the man.

But just now his fist only bent the alloy stick which is far from breaking it. The sunglasses-wearing man also took advantage of the power of Killian's punch and pushed himself back, so he didn't hurt the man at all.

Whew~

So, when Killian looked in front of him, the sunglasses-wearing man just happened to flip in mid-air and then landed firmly on the ground. The Man took advantage of this and forcefully pulled the alloy stick in his hand towards both sides. In the next moment, two sharp alloy swords appeared in his hands.

"Be careful, he is not a guy you can deal with now, leave him to me!" Just after the sunglasses-wearing man pulled out the two swords, he suddenly shouted loudly.

It turned out that when Killian attacked the sunglasses-wearing man, the others around him also quickly began to surround him, and by this time had surrounded him. But, knowing Killian's strength, the sunglasses-wearing man would not let them go to their deaths.

In order to keep Killian from discovering their arrival in advance, they did not bring some obvious high-tech equipment with them. Otherwise, Killian alone would not have escaped unharmed under the siege of their special squad.

Brush!

Hearing the reminder, the team that had gathered around retreated without hesitation. Looking at their actions, it is obvious that they all are well-trained teams.

"Humph! You've got a lot of nerve! Even Iron Man was defeated by me so who the hell do you think you are?" Killian stared at him and asked with an angry smile when he heard the words of the sunglasses-wearing man.

"Me? I'm Daredevil. As for defeating Iron Man, do you really think that you defeated him?" Hearing Killian's question, the man in sunglasses replied lightly.

That's right, this man in sunglasses is Daredevil who rushed over with the SHIELD's team as soon as he got the news.

“Ohh? So you are Daredevil! A member of that League of Defender! Also, what do you mean by that?!” Hearing Daredevil’s answer, Killian exclaimed. Killian was only slightly surprised at Daredevil’s identity, but Killian was very shocked at what he said about Iron Man.

“What do you mean?”

Swipe!

In the next moment, Killian heard a burst of sound suddenly coming from behind him.

Chapter 600 Dies

Swipe!

When Killian turned his head with an extremely ugly expression, he saw that many Iron Mans were rapidly flying towards him. Faced with so many Iron Man, Killian felt desperate for the first time.

“No! This must be fake! Iron Man Tony Stark must be dead, these Iron Man are being controlled by someone else!” Killian shouted angrily, unable to believe the sight before him.

Phew! Bang!

When Killian stared at the Iron Man in the sky and shouted angrily, a red figure suddenly fell from among the Iron Man army, and then kicked Killian on his chest before he could react. This kick was so powerful that Killian was directly kicked out tens of meters away, and then scuffed a few meters on the grass before stopping.

Pū~

After kicking Killian away, the red figure also landed lightly on the ground. Then, Spiderman’s voice came out, “Haha! We’re here too!”

Just now, Peter and Harry flew over in the Iron Man army on their Hoverboard. Seeing Killian yelling on the ground, Peter jumped down and gave him a kick without saying a word.

“It doesn’t matter if these Iron Man are being controlled by Tony Stark or not, does it make any difference to you?” Daredevil who was standing next to him whispered to himself when he heard Killian’s words before he was kicked.

Daredevil certainly didn’t understand why Killian was behaving like that when he saw so many Iron Mans. He was not afraid of the mighty power represented by these Iron Mans. He just knew what the appearance of these Iron Mans meant, that is, Iron Man Tony Stark was not dead.

Perhaps, he is looking at himself among these Iron Man now. For Killian, TonyStark had become someone who he could not win against.

Boom!

“Impossible! Tony Stark must be dead! Even if there are so many Iron Mans, what can they do to me!?” Tumbling straight up from the grass, Killian shouted reluctantly as he was surrounded by Peter and others on all sides.

Buzzing~ Tear!

After Killian finished shouting these words, he suddenly opened his arms. Then, the normal size of Killian's whole body muscles instantly surged and soon burst through the fitted white suit. Just like the Hulk transformation, Killian has turned into a giant within seconds.

Moreover, Killian's body size after the transformation is quite a bit larger than Hulk. However, Hulk was green, while Killian's body was now covered with some crimson lines and his skin was an abnormal dark brown. And inside the body, a large amount of fire-red light shone out through the skin, that was the power of Extremis.

"Roar! Come on! I'll tear you all to pieces!" Killian, who had finished transforming, roared to the sky and then took an attacking stance.

It can be seen from the transformed Killian that he is very different from those Extremis Fighters who can also transform. Although other Extremis Fighters can also transform themselves, they are not humanoids.

They are all monsters of unknown species. Moreover, other Extremis transformations seem to have no rationality as human beings. Killian still maintains his own thoughts after transformation and he is only a little irritable.

"Wow! He transformed! Fortunately, I just came here to play around!" Peter, who was standing next to him, exaggeratedly shouted when he saw Killian's transformation.

"In this case, it seems that I can't deal with it." Although Daredevil couldn't see what Killian was like now, he could feel the upgrade of Killian's energy level and rage. Therefore, he also knew that Killian was no longer something he could deal with.

Brush!

When Killian was ready to fight, a red and blue Iron Man suddenly broke away from the Iron Man army in the sky and flew towards Killian. Then, in Killian's eyes that also became huge after his transformation, the Iron Man's helmet suddenly opened. Then Killian saw the face that made him hate the ground he was walking upon.

"What? Are you disappointed to see me? Or, are you surprised?" As the helmet opened, Tony's voice came out of it.

After seeing Tony's face that did not look like he was seriously injured at all, the shock in Killian's eyes could not be concealed at all. However, the next moment the shocked expression turned into a ferocious look. Surprisingly, he failed to kill this bastard last time but he will personally tear him up this time!

Brush!

In the next moment, Killian's thick legs stomped on the ground, and his entire figure turned into a crimson phantom as he rushed towards Tony who was not far away. As long as he is close, Killian is confident that he can tear Tony to pieces in a second.

Boom!

However, in the face of Killian's sneak attack, Tony didn't even hide. Just when Killian thought he could really kill Tony by himself this time, a beam of light with a diameter of four or five meters directly shot down from the mid-air, hitting Killian who was leaping towards Tony.

After Tony flew down, the many Iron Mans in mid-air began to work. They had already been preparing for a combined laser strike under JARVIS'S control. After Killian attacked, JARVIS calculation Killian's position with pinpoint accuracy and attacked him.

Boom Boom Boom!

Under the combined laser strikes of such great power, Killian, who had lunged in front of Tony, was blasted directly into the ground. However, Tony did not stop the continuous laser strikes. Because JARVIS was still detecting the energy source below with changing intensity.

Even under such laser strikes, Tony was still very surprised that the transformed Killian had been able to hold on until now. However, no surprise, when the Extremis in Killian's body is consumed, he will not be able to hold on.

"IKillian!How can I just die like this?!" Killian, who had already been pressed to a position more than ten meters underground by the laser strike, lowered his head and felt the laser beams that were constantly melting his flesh defenses and he cried out in anger.

The Recovery energy of the Extremis inside his body was about to fail to keep up with the speed of his body damage.

Buzzing~

Rumble!!

Two seconds later, a loud noise suddenly rang out from the ground which was penetrated by the laser beam for an unknown number of meters. Then, the entire square grass in front of the White House was turned over, and a powerful explosion broke out from the underground.

Phoo~

"Sir, the energy source is no longer detected, do you still need me to go down and check?" After the underground explosion, the laser beam had stopped, and then Tony heard the report from JARVIS.

"No need for that, I kind of watched him self-destruct with my own eyes." Tony, who had already seen Killian's self-destruct process through the scan, said faintly.

"Ok."

"Then, it's time to clean up the trash." Looking away from the ground, Lin Rui looked in the direction of the White House.
