

Marvel 611

CHAPTER 611 MUTANT FIGHT 1

Boom!

Kaka Kaka!

As Tony sent his unexpected encounter to the others, the battle still continued below. Even if both sides fighting below had discovered the Iron Man army suspended high in the sky, they had no intention of stopping.

So, under the super destructive power of several Level 4 Mutants, the entire area was quickly demolished into rubble, revealing Stryker's original hidden underground base.

Da Da Da!

In the underground base that has almost completely collapsed, Stryker is under the protection of a team fleeing towards the safety zone outside.

This time, Magneto's sneak attack on Stryker was carefully prepared, and Stryker was completely caught off guard. Therefore, as an ordinary person, Stryker can only find a safe place to hide for now.

As the leader of the military's secret research Mutants department, Stryker still has some methods to protect himself, otherwise, he wouldn't be alive after so many years.

Although Magneto attacked them with the main members of the Mutants Brotherhood and took them by surprise this time, there are still some very strong Mutants around him who can deal with Magneto.

Moreover, compared to Magneto relying on his own strength to make his subordinates loyal to him, Stryker's methods are more straightforward. He directly controls his own Mutants from a spiritual level.

The reason why Stryker hates Mutants so much is also related to his previous experience. When Stryker was young, his beloved wife died in the hands of a Mutant. He then went to fight Mutants, but when Stryker's son was ten years old, he suddenly discovered that his son was also a Mutant.

For this reason, he once sent his son to the Xavier School, hoping that his son can be transformed back into a normal person there. However, when Stryker learned that Mutants could not be "Cured", he took his son back. Moreover, he has done experiments on Mutant starting with his own son since then.

Because Stryker's son's mutation ability level is very high, and it has reached Level 4 or higher, and it is still a very rare mental mutation ability. Therefore, Stryker did a lot of experiments on his own son's ability and controlled a lot of Mutants.

It can be said that without Stryker's Son, he would not have been able to build such a big secret department that dared to compete with the Mutants Brotherhood and X-Men.

With so many years of development, Stryker has done more and more experiments on Mutants, and there are also many unbelievable experimental results. Like an experiment conducted by Stryker many years ago, there was an accident and the test product finally escaped, and it has not been captured yet.

The test subject was Logan the Wolverine. Now, no one knew what Stryker had secretly made. Even some big guys in the military don't know what Stryker, who is caught in his own crazy obsession, is doing. Maybe he has some very dangerous experimental results in his hands.

"Huh! Magneto! Did you really think that it would be so easy to kill me!" Hidden in the secret passage of the underground base to the edge of the battlefield, Stryker looked back at the completely destroyed underground base and thought fiercely in his heart.

Over the years, Stryker and X-Men and the Mutants Brotherhood have also fought many times, winning and losing against each other. However, he hadn't been hit directly before like today. Moreover, up until now, Stryker didn't know why Magneto had come to attack him, he didn't seem to have messed with the Mutants Brotherhood recently.

"Number three! Any word back from the military?" Without retreating any further, Stryker looked at the team protecting him around him and asked aloud.

"Major General Stryker, no word back from the military side yet." Hearing Stryker's words, the Number three quickly replied.

"No reply yet, do they want to stand on the shore and watch the show?" Hearing Number three's answer, Stryker raised his eyebrows and thought silently in his heart.

One of the main reasons for Stryker to currently have this much power is inseparable from the strong support of the Military. Therefore, when such things happen, the US military will definitely choose to help Stryker. After all, Stryker's research is carried out under their tacit approval of the code. Moreover, Stryker's research results can also bring a lot of benefits to the military. For so many years, because of Stryker's research on Mutants, the number of secretly enhanced soldiers that the military has on the inside is very large.

Buzzing~

Boom!

Just when Stryker was a little puzzled because he hadn't received a response from the Military, another familiar energy fluctuation came from the side of the ruins in front of him. Then, an invisible shockwave swept right through the ruins and rushed towards Stryker and the others.

"Number Five!" Seeing the rubble instantly turn into powder under the shockwave's attack, Stryker shouted a code name.

Brush!

After Stryker finished shouting, a big bald man rushed out quickly from his team and stopped right in front of that shockwave. Then, facing the powerful shockwave, this bald man quickly raised his hand and drew a circle in front of him.

Buzzing!

The next moment, a translucent energy light curtain quickly spread out from the Bald Man's hands, and before the shock wave arrived, it had enveloped Stryker and others behind him.

Call!

Stryker, hiding in the translucent light curtain, did not have any trace of panic on his face. It seemed that he was very confident in this defensive ability. Therefore, when the shock wave swept over, the translucent light only shook violently a few times and then remained stable.

The shock wave that almost abolished Tony's large number of Iron Man Armors before was blocked by a single person. If Tony knew about it then he would have cursed out loud.

"Since there is no response from the military, then I will make my own decision! Isn't it the Mutants Brotherhood, and today I have five people here with me, so I won't be taken down so easily!" After suffering another attack from the Mutants Brotherhood, Stryker is no longer going to hide in here.

"Number one! Connect everyone and prepare to counter-attack!" With a decision in his mind, Stryker looked at the several figures that had already appeared at the end of the ruins and angrily gave the order.

Buzz~

After Stryker gave this order, a girl who had been standing beside Stryker suddenly closed her eyes. Then, a powerful mental wave came out from her and quickly enveloped Stryker's squad.

After the girl connected all of the team together through Psychic Power, a young man in a white suit took two steps forward and then looked at the five figures above the ruins.

Boom~ Boom!

In the next moment, two piercing red rays burst out from this youth's eyes and shot directly at the five figures in front of them.

CHAPTER 612 MUTANT WAR 2

Boom! Boom!

The two piercing red beams of light quickly fused into one beam on their way to flight, making the power they could exert even more powerful.

"I'll do it!" Faced with Stryker's counterattack, one of the Mutants on Magneto's five-member team, a big man with a sturdy build rushed to the front with a loud cry.

The man was naked on the top, and he carried metal arm guards on both arms. A body of thick muscle shows that he would have been quite strong even if he was not a Mutant and for him to be able to jump out at this time shows that his ability cannot be underestimated.

This man crossed his arms in front of his body to take upon the red beam of light which was strong enough to penetrate three Iron Man Armors without encountering any resistance.

"Ha!" After a loud shout, the red light beam had already rushed over.

Boom~ Boom~ Boom~

When the red beam of light impacted on the big man, the big man who should have been directly destroyed into slag surprisingly blocked the powerful beam of light. The red beam of light that attacked straight ahead was like a stream that had encountered a huge rock that suddenly appeared in the middle of its way, just blocking its flow.

In front of the big man's crossed arms, the energy of the red light kept squeezing out from both sides. However, they couldn't really break through the big man's flesh defense.

Kaka!

Finally, after the big man's legs have been submerged in the ground almost twenty centimeters, the beam attack also finally ended. Putting down his arms, the big man looked at his arm guards, which were already half-broken, and directly tore them off. With his physical body defense, these arm guards are already dispensable.

"Shock Girl, Pyro, it's time for you to take action!" Magneto, who was suspended in the air, ordered.

"Okay! I could hardly hold myself back! I'm not really satisfied with long-range attacks. What I like more is to feel the pleasure of putting someone down at a close range." Hearing Magneto's words, the Shockwave Girl standing beside him smiled and said.

Brush!

In the next moment, the Shock Girl turned into a phantom, and after circling around Pyro for a while, she rushed in the direction of the Stryker team on the opposite side.

When the Shockwave Girl rushed over, Pyro's figure had also disappeared, and it was obvious that he was taken by the Shockwave Girl. If the Shockwave Girl's skills are considered to be long-range, then Pyro would be a medium-range fighter and his fire can't burn the opponent at a large distance.

And when the Shockwave Girl rushed to the opposite side with Pyro, there were only three people left on the ruins. Except for Magneto and the Defensive guy who had already taken action, there was only one young man who looked a little thin.

"White Devil, can you break through the opponent's Psychics Defense?" Magneto asked the thin young man beside him as he flew forward after sending the Shockwave girl and Pyro.

If the opponent did not have Psychics Mutants with them in the attack just now, Magneto would have been able to lock on Stryker's position and destroyed him in one fell swoop.

And now, it is precisely because of the existence of the opponent's Psychics Class Mutant that although Magneto is stronger, he cannot break the opponent's combined strength.

"No way, although the other party's Psychic Power is a little worse than mine, but if they are simply defending then there is nothing I can do." Hearing Magneto's words, the young man nicknamed White Devil replied calmly.

"However, if we can destroy their positions and make each of them stand far away from each other then maybe I will be able to disintegrate this defense of their." After answering Magneto's question, the young man then added another sentence.

Magneto's eyes flashed when he heard these words and then, he suddenly opened his arms.

Huh~

In the next moment, Magneto, who was originally suspended about a meter from the ground, suddenly flew up high in the air. As a High-Class Mutant who can control magnetic substances, Magneto's ability to fly is not unusual, not to mention that there are so many metallic substances under this ruin.

In this way, within a few seconds, Magneto had flown to a position of more than fifty meters in the air. Looking condescendingly at the location where Stryker and his team were, Magneto slowly stretched out his hand forward.

...

Dī Dī Dī Dī!

"Sir, a violent Magnetic Reaction has been detected, I suggest leaving this area immediately!" Just when Magneto on the ground flew into the air and began his attack, Tony, who had already hidden at a high altitude suddenly became nervous after he heard JARVIS.

Zi Zi Zi~

"It seems that Magneto is planning to attack!" Tony, who has been watching the live broadcast from high altitude saw Magneto flying into the air. Tony said inexplicably after hearing JARVIS's reminder.

After all, this is a guy who can control Magnetic Substances and can control the local Magnetic Field of the Earth under his full-powered strikes, the Magnetic Field of this area has become unstable.

Then it also means that some high-tech products are likely to lose their effectiveness in this area, which includes Tony's Iron Man Armor. And even though the Iron Man Armor will not lose its full capacity, but its normal functions would be affected.

"In that case, let's get out of here. Also, order all the other Iron Man to retreat and leave ten units on standby. Anyway, I don't think we will be that useful in this kind of battle." Feeling the Iron Man Armor getting affected by the magnetic field, Tony said after thinking about it.

"Okay, sir." Jarvis agreed upon hearing Tony's words.

Swipe it!

Then, JARVIS controlled all the other Iron Man Armors high in the sky and flew back towards New York.

At the same time, Tony is also flying towards the location away from the center of the battlefield, he does not want to become a lump of iron at a high altitude, after all, he had just gotten out of one deadly situation, he doesn't plan to enter another.

Dī Dī~

"Sir, Spatial Energy Fluctuations have been detected." Just as Tony was making a strategic retreat, JARVIS's voice came out again.

“Huh, Spatial Energy Fluctuates? Where?!” Hearing JARVIS’s words, Tony stopped in the sky and then hurriedly asked.

Since becoming Iron Man, Tony has seen a lot of things. The Space Teleportation that he had never dared to imagine before is no longer strange for him.

However, Tony knew that there were three kinds of Space Energy Fluctuations. One is the previously lost Space Energy of Magic Cube, one is the variant ability of that beautiful girl in X-Men, and the other is the Magic Space Portal that the Earth’s Sorcerers uses.

“Wait? Two different Spatial Energy Fluctuations have appeared, the locations are here and here.” After reporting the previous message, JARVIS seemed to have found something else, and then it had projected two locations in front of Tony’s eyes.

“This is...X-Men and... Sorcerers!”

Chapter 613 Support

In the JARVIS scan video, two different Spatial Gates appear at two locations not too far apart at the edge of the ruins below. One is a Purple Space Portal created by X-Men Blink’s signature Mutant ability, and the other is a Golden Magic Portal unique to the Sorcerers.

“Eh, how come there’s only one person there and only one person over there.” After seeing the people who came out of those two spatial gates, Tony muttered with some surprise.

Originally Tony thought that many people could come out from the two familiar Space Portal when he saw them, but instead, he only saw two people walk out.

“Sir, that’s Mr. Iceman from X-Men and Mr. Jack from League of Defender.” While Tony was wondering, JARVIS had already scanned the identities of the two people who came out of the Space Portal.

“Jack from the League of Defender?! How did he come through the Magic Portal? Could it be that he is also a Sorcerer?!” Hearing the report from JARVIS, Tony shouted in surprise.

Of course, Tony knew Icemen as they have met. Iceman was also outside Tony’s ward when he woke up. As for Jack of the League of Defender, Tony is really unfamiliar with this person. Now that JARVIS had said that the guy in the gray robe was Jack, Tony was of course very surprised.

While Tony was surprised by the two people on the ground, the Space Portal behind Jack and Iceman had quickly disappeared. Blink has to go back to X Academy to pick up other X-Men, and Jack has no other Sorcerers to support him.

“Surprisingly, only two of them really came, it seems that the others will take a while to arrive.” Seeing that the two Portals had disappeared, Tony, who was hiding high in the air, already knew Iceman’s situation.

“Sir, do we still have to retreat?” Their allies have appeared on the battlefield, and JARVIS opened his mouth and asked Tony if they would continue to retreat.

“En...how long till Jackson and Rogers arrive?” Tony thought about it after hearing JARVIS’s words.

“Jackson will arrive here in ten minutes and Captain Rogers has arrived. And the X-Men, they will arrive in about five minutes.” Faced with Tony’s question, JARVIS quickly answered.

“En? They’re here!” Hearing JARVIS’s answer, Tony quickly turned his head and looked in the other direction.

Boom Boom Boom!

When Tony looked over, several Quinjets had already rushed over.

“Then why are we retreating like this? As powerful as Magneto is, I don’t believe he can handle so many of us!” Seeing that Rogers had arrived with SHIELD’s support, Tony said loudly.

“Go! Let’s go down and join Iceman and that Jack!”

Shout!

Then, Tony, who was about to leave the battlefield, swooped down with dozens of Iron Mans.

...

“Eh? Is there a fight here already? How come I don’t see anyone else?” While Tony was still flying high in the sky, Jack, who had received the news directly from New York Sanctum, looked at the ruins in front of him with some confusion.

The message Lin Rui asked Jerry to send was for all members of League of Defender to arrive at this location as soon as possible, but Lin Rui couldn’t have expected that Jack, who had been learning magic in New York Sanctum would be the first to arrive.

“There’s someone over there!” After looking around for a few moments, Jack finally saw a figure running fast on the ruins.

Bang!

In the next moment, Jack pushed the ground with his feet and quickly rushed over there. As someone whose Mutant Ability allows him to strengthen his physical body, even if Jack has not learned magic, his strength should not be underestimated. Therefore, when he turned into a phantom and rushed over, the person over there quickly noticed him.

“En?! An Enemy?” Iceman, who was running fast on the ruins, saw the figure rushing over not far away, and raised a hand.

Whew!

When Iceman raised his hand, a piece of ice mist was created out of thin air, and then the ice mist instantly condensed into Ice Spikes. Iceman waved his hand and these ice spikes quickly shot towards the dark shadow.

“Eh?! ” Jack, who didn’t know what the other party was, had automatically classified the other party as an enemy after seeing those Ice Spikes, so he also launched a direct counterattack.

Buzzing ~ Brush!

Jack quickly made some seals with his hands, and then a Golden Shield appeared in his hands. At the same time as the Golden Shield appeared, a Golden Arrow of Light appeared in the air and quickly blasted towards Iceman.

Bang Bang Bang!

Just as Jack raised the Golden Shield, the Ice Spikes slammed into it. The seemingly illusory Golden Shield blocked all Ice Spikes, and the hard Ice Spikes shattered in front of Jack.

And when Jack blocked the Ice Spike attack, his Golden Light Arrow had already shot in front of Iceman. Facing this Golden Arrow, Iceman waved his hand as a cloud of white cold air rushed over. With Iceman's strength, he is confident that he can contain the opponent's attack instantly.

Brush!

However, to Iceman's surprise, the Golden Arrow of Light penetrated his own defensive measure and continued to shoot towards him. At this time, Iceman had to turn his whole body into an Ice Crystal State and his figure disappeared in place in the next moment.

Boom!

After Iceman turned into Ice Crystal State and disappeared from his original place, the Golden Light Arrow just shot down and blasted a big crater directly at the location where Iceman was originally located.

"What an amazing Energy Attack, even my domain may not be able to block it." Iceman, who had just avoided Jack's attack, appeared in another location. Looking at the large crater in the ruins on the spot he was previously standing upon, Iceman frowned and muttered in his heart.

Brush!

Brush!

In the next moment, Iceman and Jack looked at each other and then charged towards each other again. Seemingly, they both regarded each other as a formidable enemy. In the course of the duel, a white cold air gushed out from Iceman's body and pounced on Jack, while a Golden Light also blasted from Jack's body and rushed towards Iceman.

Buzzing!

And just as Iceman and Jack's attacks were about to come into contact, a thick white laser beam suddenly shot down from mid-air, just in the middle of Jack and Iceman, and also in the middle of that cold air and golden light. The next moment, these three different attacks collided on this ruin.

Rumble!

The three different energy attacks collided with each other and produced a huge explosion, Iceman, whose whole body turned into ice crystals, was directly sent flying by the instantaneous shock wave, while the huge shield that just appeared in front of Jack also shook in the shockwave of the explosion.

Huhu~

As the energy of the explosion continued to be released and this area gradually calmed down. However, when Jack and Iceman looked forward again, they found that there were many familiar figures above the ruins.

Chapter 614 Sets Out

Huhu~

When the smoke dissipated, Jack and Iceman saw dozens of Iron Man suspended above their heads. As for the laser attack that came in just now, it was these Iron Mans that sent it out.

Card~

After Jack and the others saw Iron Man in midair, the bottom Iron Man mask suddenly opened, revealing Tony's helpless face inside.

"En?! Mr. Stark! Why are you stopping me?!"

"Stark, what do you mean by this?... Hey!? You!?..."

After seeing Tony, Jack and Iceman shouted in confusion at the same time. However, halfway through shouting, they both looked at each other with great surprise. Because, from each other's words, it seems that they both know Tony Stark and they should be in the same group.

Whew!

"I say, why are you two fighting without getting anything clear?!" While Jack and Iceman were looking at each other in confusion, Tony had already flown down from mid-air.

In fact, Jack and Iceman couldn't be blamed for not recognizing each other. Iceman and Jack have never met before.

Although Iceman knows that there is a Mutant in the League of Defender, he is not familiar with him. And Jack also knew that there was a very powerful Ice-type Mutant in X-Men, but he had never seen him either. What's more, Jack didn't use his Mutant Ability just now.

"Mr. Stark, is he our ally? However, why didn't I know that we still have such a strong person among our rank?" Hearing Tony's words, Iceman, who had already lifted himself from the ice crystal state, asked curiously.

And after Tony fell from mid-air, Jack and Iceman, who were still some distance away, have come closer to talk with Tony. After seeing Iceman up close, and then noting the process of lifting his Ice Crystal State, Jack's eyes flashed, and he seemed to have thought of something.

"Of course he is with us. He is a member of the League of Defender. I thought you guys knew each other!" Tony explained helplessly when he heard Iceman's words.

"A member of the League of Defender?! I really don't remember him!" Hearing Tony's answer, Jack looked at Jack very surprised and said.

"You are the Iceman of X-Men!" Jack said suddenly when Iceman was looking at him.

As a Mutant, Jack obviously knows about X-Men. If it wasn't for his preconceived idea at the beginning that Iceman would be the enemy, and if it wasn't for the fact that Iceman attacked first, Jack might have been able to recognize him.

"En? Do you know me? Are you really a member of the League of Defender? Are you a new member?" Hearing Jack calling out his nickname, Iceman looked at him in surprise and asked.

"No, I am..."

"Okay, you guys can talk about this later when you have time, we have very urgent things to do now!" Seeing that Jack and Iceman have the momentum to chat up on the spot, Tony who saw the Quinjet was beginning to land not far away waved his hand to interrupt them.

"Uh...that's right! I'm here this time to prevent Mutants from becoming public enemies of the world again." Jack hurriedly responded when he heard Tony's words.

Hearing Jack's words, Iceman looked at him a few more times, because the ability that Jack showed just now was not like that of Mutants at all. If an ordinary person cares about Mutants so much then Iceman has a high degree of favorability towards him.

Huhu~

Just after Tony fell down to resolve the misunderstanding between Jack and Iceman, the Quinjet led by Rogers also quickly landed to this rubble. Under the gaze of Tony and the other two, Rogers rushed out of the Quinjet with a team of twenty-three agents.

"Is this the first batch of support? It still feels a bit insufficient!" After taking a look at the Heavily Armed Soldiers around Rogers, Tony frowned tightly and whispered in his heart.

Because one of the opponents they would be facing this time is Magneto, who can completely restrain his Armor. Tony had already lowered the estimate of his strength to a very low level.

Therefore, their strength division is actually mainly dependent on the League of Defender, X-Men, and SHIELD.

However, looking at SHIELD now, it looked like Rogers was unable to come up with more people. And only Iceman came from the X-Men, and only Jack came from the League of Defender, although Jack's current strength surprised Tony.

"Jackson will not arrive for another ten minutes, and my ultimate weapon needs time to prepare. If that's the case, then the only good thing we can expect for now is the strength of the X-Men." After briefly calculating the strength of his side, Tony quickly came to a conclusion.

"Iceman, you guys" So, while Rogers was still running this way, Tony was already ready to ask Iceman how long they had before X-Men support would come.

Buzzing~

Just before Tony could finish his sentence, a Purple Space Portal that had appeared before suddenly appeared beside Iceman. Then, a Tall Metallic Robust Man pushed a wheelchair and walked out of the Space Portal first. In this wheelchair sat a bald, kind-eyed old man.

Needless to say, the robust man and the bald old man are obviously Colossus and Professor Charles. And behind Professor Charles and Colossus, a silver-haired Storm and a full-body blue-skinned guy came out. The last one to walk out of the Portal was Blink. After Blink walked out, this huge Space Portal slowly dissipated.

At this point, the X-Men team led by Professor Charles himself has been fully assembled. This time they are also the absolute Main Members in X-Men, namely Professor Charles, Iceman, Storm, Colossus, Beast, and Blink.

Although there are still some members of the X-Men, but the rest are either not strong enough, or not suitable for combat, they would not be very useful even if they come here. However, even if only these six people came this time, if they wanted to, they have enough power to cause endless restlessness in the whole planet.

“Professor Charles, we meet again.” Tony greeted Professor Charles respectfully when he saw him approaching in a wheelchair.

“Hello, Mr. Stark, we meet again. Hello, Captain Rogers.” Professor Charles turned his head slightly and said to his side after saying hello to Tony.

Huh~

“Hello, Professor Charles.” After Charles called Rogers’ name, Rogers also rushed over with SHIELD’s special team.

“Then, let’s not waste time. I know Erik is serious this time. If he doesn’t get what he wants then he will really destroy this city.” After the people around finally gathered, Professor Charles, who was located in the center, said lightly.

Huhu!

Hearing Professor Charles’ words, Tony and the others did not have any comments. Then, these people quickly divided into several small teams and rushed to the position where the violent explosions were constantly emitting.

Chapter 615 Mutant War 3

When Professor Charles and Captain Rogers arrived and set off, the Mutants Brotherhood led by Magneto had already begun to fight Stryker.

Huh!

Call!

Pyro, who was brought to Stryker by Shockwave, just appeared in front of them, and a firelight appeared from his hand, sweeping towards Stryker’s position on the opposite side.

Stryker and his team are equally strong as they are and Pyro is not likely to hold back his powers. Although Pyro has not yet figured out why Magneto is so serious about attacking Stryker this time. But they were already enemies and Pyro was happy to have the opportunity to attack him.

As a Level 4 Mutant, Pyro had also been at the Xavier Academy, and he was also good friends with Iceman. However, because his philosophy for Mutants is more compatible with Magneto, he later joined the Mutants Brotherhood.

Compared to Iceman who is a Level 5 Mutant and can produce ice out of thin air, Pyro needs a spark to create a large flame. Moreover, Pyro's flames are still worse than Iceman's Ice. However, as a Level 4 Mutant, Pyro's attack power is already very strong, otherwise, he would not be a core member of the Mutant Brotherhood.

Hum~

When the flames of Pyro swept past, a translucent light curtain appeared in front of Stryker and his team again, it was the same light curtain that had blocked the Shockwave girl's attack just now.

As soon as this light curtain appeared, a large flame had already pounced on it. Although Pyro's flame attack could not destroy this defense but this light curtain could not withstand the transmission of the high temperature of the flame.

If they decide to keep defending like this then Pyro would be able to cook them all with the heat of his flame.

So, when Pyro's flames were about to completely envelop Stryker and the others, two red beams came out of the flames, aiming at Pyro who was unleashing the flames outside.

Boom!

When the two red light beams penetrated the flame, Pyro suddenly noticed it, so with a wave of his right hand, a massive fire shaped like a dragon rushed at the red light beam. The next moment, the two attacks collided in mid-air, and the violent energy collision caused the temperature of this space to rise rapidly.

Huhu! Boom!

After confronting the two red beams for a few seconds, Pyro seemed a bit unable to withstand it. The right hand that he swung out trembled slightly and the expression in his eyes became more and more fierce.

Therefore, Pyro had already retracted his flames that attacked Stryker and his team and he focused all of his attention on the red beam in front of him. In this way, he steadily blocked the opponent's counterattack.

Hum!

And when Pyro was fighting against the guy in Stryker's team who could emit Red Lasers, a strong mental shock suddenly hit Pyro's head.

"Ah!" His Mind was suddenly attacked, and Pyro, who was in the middle of a full-force strike, couldn't help but shout out.

Boom!

In the next moment, the flames in his hand dissipated a lot because of the mental attack. The red beam on the opposite side directly smashed Pyro's flames, and then directly slammed into Pyro's chest.

Just when he was about to be hit by this red light beam, the Shockwave girl who had just left to pick up the others suddenly appeared behind him, and then pulled Pyro and disappeared from this place.

Rumble!

After suddenly disappearing in place, the red beam that lost its target blasted a large crater into the ground again before fading away.

"You're a little slow this time!" Pyro, who was saved by the Shockwave Girl, swept a glance at the large crater in the ground in front of him and looked at the Shockwave Girl beside him, gasping for breath and speaking at the same time.

"Take care of yourself, the Psychics Mutant on their side is not easy to deal with either. However, I have brought the Fortress and Phantom Dream, now the other side will not be able to use their Psychics attack on us so easily." Hearing Pyro's words, the Shockwave Girl said indifferently.

"Eh, what about the boss?" Hearing Shockwave Girl's words, Iceman nodded and then asked.

The Fortress is the big guy who can block the kind of beam attack just now with his bare hands. His Mutant ability is extremely strong physical power, which can be seen from the fact that he blocked the beam attack by himself.

Fantasy Dream is a more mysterious one in the Mutants Brotherhood, he is a Psychic Mutant, and his ability is also very strong. At least, Fantasy Dream can help Magneto block Cerebro and stop Professor Charles from tracking them.

"Boss? He's there." Hearing the sudden question about Magneto's whereabouts, the Shockwave Girl looked up and pointed out a direction.

Brush!

Following the direction of Shockwave Girl's finger, Pyro suddenly looked up. In the next second, he saw Magneto suspended in mid-air like a superman. Then, the hovering Magneto slowly raised his right hand, and looking in the direction of his right hand, he seemed to be pointing at their side.

"Hey! The Boss is pointing at our side!" After seeing Magneto's movements, Pyro said in surprise.

"That's right, so, we'd better run first! I did not expect the Boss to attack like this!" The Shockwave Girl who also saw Magneto's movement was also very surprised, and then, her hand pulled Pyro once again.

Brush!

The next moment, the Shockwave Girl pulled Pyro away from the place again. This time they ran away from Stryker and his team.

Buzzing~Boom~

And not long after Pyro and Shockwave Girl's departure, Magneto's outstretched right hand suddenly clenched. Then, as if he was pulling something upward, his clenched fist slowly lifted up.

Kakaka!

As Magneto's right fist continued to rise in midair, the location of the Stryker and his team suddenly seemed to have an earthquake, and huge cracks were created on the ground. Then, the underground structure in this area continued to collapse, and countless metal objects hidden on the ground were all lifted out.

"No Good! Quickly take me out of here! Number four!" Feeling the continuous vibration from the ground, the expression on Stryker's face changed and he hurriedly shouted.

Brush!

After Stryker yelled these words, a man in a white suit instantly appeared in front of him. As a department that specializes in Mutants, the abilities of these Mutants that Stryker have around him are different and they are all very useful.

Just like the Defense of No. 5, the Attack of No. 2, and the Mental Defense and Attack of No. 1, and now the Teleportation Ability of No. 4 which can play an important role in any battle.

Brush!

After No. 4 appeared in front of Stryker, he reached out and grabbed his arm. In the next moment, the two of them were about to disappear.

Boom!

However, just when No. 4 was about to take Stryker and leave, they revealed themselves again not far away. And looking at Stryker and Number Four's expressions, they seemed to have been stopped by something.

Chapter 616 Mutant War 4

Da Da~

Getting interrupted from their teleportation, Stryker took several steps before standing still.

"Magnetic Field Barrier!" Stryker called out with an ugly expression on his face while Number Four was expressionless.

As a Top Level 5 Mutant, Magneto has the strongest destructive power. Manipulating the Magnetic field allows Magneto to have enough strength anywhere on the earth.

As it is now, Magneto used the Magnetic Field to trap Stryker and Number Four who wanted to escape. The teleportation of Number Four is not the same as Blink's Space Teleportation. He cannot directly pass through the Magnetic Field Barrier in front of him.

"Damn it! If I can't break the Magnetic Field Barrier then I would be at Magneto's mercy!" Seeing that they were trapped by Magneto, and the place covered by the Magnetic Field Barrier had already started a major earthquake.

Stryker muttered in his heart as he saw this scene. He turned his head and looked at the Mutants who had been transformed by himself.

“Number One! Is there a way to affect Magneto?” Stryker asked hopelessly after wandering his eyes on Number One.

“No, Magneto has been wearing his helmet.” Hearing Stryker’s question, Number One answered quickly. Although his Psychic Power can pass through the Magnetic Field Barrier without hindrance, there was no way for him to affect Magneto as long as he is wearing that Helmet.

“Then, I can only sacrifice No.6!” Hearing No.1’s answer, Stryker made a quick decision in his heart.

Since Stryker has been enemies with the Mutants Brotherhood for so many years, he still knows a lot about Magneto’s methods, and he has been looking for ways to crack this kind of Magnetic Field Barrier for some time now.

And he now has a Mutant test subject with the ability to break the current situation, but the price is relatively high, but Stryker can still afford it.

“No. 6, blow up this Magnetic Field Barrier!” Stryker, who had already made a decision, shouted quickly.

Shout!

After he gave the order, a young man who was originally standing in the team quickly ran out and came directly to the edge of the Magnetic Field Barrier. Then he put his hands on the Magnetic Field.

Buzzing~

In the next moment, a special energy wave converged toward his hands from all over the body of the Number Six. Soon, the originally normal hands were distorted by a red light. When No. 6’s hands gathered enough energy, his eyes widened.

Boom!

With a loud bang, Number Six’s hands that were attached to the Magnetic Field Boundary directly burst open, and his entire body was shaken by the explosion as he flew backward.

However, at this time, no one cared about his situation. At the moment of the explosion on the side of Number Six, Stryker has signaled Number Four to take him away.

Boom~

At the same time as Number Six’s hands burst open, the special energy shock wave passed along the magnetic boundary. In the next moment, the originally indestructible magnetic field boundary was actually

Broken.

Brush!

The moment the Magnetic Field Boundary was broken, Stryker and No. 4 had already disappeared. At this dangerous time, Stryker would sacrifice anyone for his own safety. Moreover, in Stryker’s eyes, these transformed Mutants of his were not even human beings, they are just his experiments.

Brush!

When Number Four and Stryker reappeared, they were already far away from where they were just now. Even if Magneto continued to strike at them now, Stryker was prepared and would not allow himself to be trapped by the magnetic field boundary again.

After the Magnetic Field Barrier was broken, Magneto didn't give up, and the earth that had been surging was completely overturned after Stryker left.

Large pieces of rubble and some metal substances rushed out of the ground under the control of the magnetic field and they directly rushed towards Stryker's location. Perhaps this would be the disaster scene at the end of the world.

Under Magneto's shot, those transformed Mutants left in place by Stryker stood together, and Number Fifth consciously released his own protective barrier.

However, under the effect of the Magnetic Field, his protective barrier didn't seem to be as effective. If they didn't have any other support then this would soon be taken care of by Magneto alone.

Boom~

As the ground tumbled more and more violently, Stryker had to keep letting Number Four teleport himself away from the place with him. However, because the teleportation distance of No. 4 is not too far, Magneto floating in the air can always take them into the attack range after they reappear.

Therefore, after Stryker teleported several times, the earthquake caused by Magneto had affected a large enough area. Not only this area, but people living in downtown Washington can feel the vibration from here.

It can be said that if Stryker was not surrounded by these modified Mutants then he would have been wiped out by anyone in the Mutant Brotherhood today not to mention Magneto.

As a big boss, Magneto also has such strength. When Stryker gave Magneto trouble in the past, he had taken advantage of the civil war between Magneto and X-Men.

Moreover, the previous Magneto was more impulsive and easily tricked. But now, Magneto is older and even though he is older, his strength is still there, so it would not be too much trouble for him if he wants to deal with Stryker.

Magneto took Pyro and others and they hid in Washington for so many days, just to make sure that Stryker won't have much resistance here. And now, Magneto has finally done it. As long as he catches Stryker, he can force him to answer the questions he has.

Rumble!

"Damn, why hasn't the military responded yet?! This is Washington! Do they want to stand by and watch Magneto cause a massive earthquake in Washington?!! "Dodging between the constantly churning earth, Stryker could not stand it anymore and cursed out loud.

To Stryker's surprise, although Magneto attacked himself less than ten minutes ago. But this is Washington, even if the Military's response is slow, there should have been a large number of troops over here by this time.

Although Magneto is strong, but the Military has a special team to deal with Mutants. But until now, Stryker has not seen any military support.

In fact, it is not that the Military is unwilling to support him. It's just that after they contacted SHIELD, Captain Rogers was playing the waiting game with them, so their support was delayed.

Captain Rogers didn't want to make this incident too big, and he also wanted to hear about Stryker's research and the experiments he has done upon Mutants. So, although they came over this time to keep the incident from getting too big, but they may not help Stryker.

Chapter 617 Mutant War 5

Boom! Boom! Boom!

Under Magneto's successive blows, the modified Mutants team, which had been temporarily abandoned by Stryker, was almost unable to hold on.

Even if the defensive boundary of No. 5 is very strong, it can no longer hold on under such power. And the other members of this Mutant team are not strong in defense, and a simple attack can't free them from their current situation.

Boom!

Another stream of debris rushed out from the ground, directly piercing the Number 5 defensive layer. At this time, the light curtain that had protected them so much was already riddled with holes.

However, as Mutants fighters transformed by Stryker, this squad of people facing such a predicament just leaned tightly together and did not seem to have much fear. However, except for one person, that is Number One.

"Number 2! Aren't you going to make a move yet!?" Finally, getting tired of not getting any support, No. 1 finally could not help shouting loudly to the No. 2 beside him who had not spoken or made any move.

Obviously, as a Psychics Mutant, No.2 will obviously not follow Stryker's words completely like everyone else. It's just that he doesn't know what happened to Number 1, why is he in such a desperate situation, he wanted Number 1 to go all out before he made his move.

"Me? What can I do? Anyway, it's not like I was asked to make a move." Hearing No. 1's rant, No. 2, who had been so calm, opened his eyes to look at him and asked rhetorically.

"Do you really think you're going to end up any better if we get wiped out here by Magneto! Don't forget, you're just a modified experiment too!" Hearing No.2's indifferent words, No.1 shouted angrily.

"Transformation experimental body! I'm not like you guys!" It seemed that No.1's words had hurt No.2, and his eyes instantly flashed red and roared.

"Then show us your strengths. Show us that you are different from us! Get us out of the current situation, if we can sneak attack Magneto then maybe Stryker can reduce his control over you!" Number 1 continued after successfully angering No.2.

“Humph! You just want to live! However, I am also happy to show others my strength. What Mutants Brotherhood, what X-Men, what Magneto, what Professor X, they are nothing in front of me!” Faced with No. 1’s provocations, No. 2 obviously no longer intended to remain silent.

“Then, I’ll wait!”

Call!

Under Number One’s provocation, Number Two was finally ready to take action and his figure instantly disappeared from his original location and when he reappeared, he has already come outside the Number Five Defensive Shield. It turns out that Number Two also has the ability to teleport!

Rumble!

Facing the constant attacks from outside the Defensive Shield, No.2’s body received many wounds in an instant. However, these wounds are recovering quickly.

The speed of his self-recovery is even with the speed of the damage, which allows No. 2 to hold on under these powerful attacks. It seems that in addition to Teleportation, No. 2 also has a self-recovery capability.

“Dodge!” Although the attacks around him could not cause deeper damage to himself, but Number Two obviously did not want to be attacked endlessly like this, so he shouted loudly with red light coming out of his eyes.

Snapped!

After hearing No. 2’s words, No. 1, who was hiding in the defense barrier near No. 5, quickly put his hand on No. 5’s shoulder. Then, a powerful Psychic fluctuation zapped into Number Five’s head.

“Ahhhhh!

With No.1’s Phycsic stimulation of No. 5, the originally shaky Defense Barrier actually solidified a lot in a flash.

The holes that had been penetrated were also repaired, protecting No. 1 and the Mutant team again.

However, this time, the strengthening of the Defense Barrier did come at the expense of Number Five, and it was still a big question whether he would still be able to recover from this afterward.

Boom! Rumble!

At the moment when No. 5 received the Psychic fluctuation of No. 1 to strengthen the Defensive Barrier again, a violent Energy Fluctuation was transmitted from in front of them, which was the position where No. 2 was just now. It turned out that he had already attacked at the same time as he had reminded them.

Against the gusts of wind and debris that were causing damage all around them, No. 2’s hands were quickly raised to his chest, and then he put them in front of his chest.

The seemingly simple action produced an incomparably huge energy shockwave, and as the first shockwave passed through, it had already cleared the space around Number Two that was disturbed by Magneto, so one can imagine how powerful No. Two's strike was.

But this is not enough, because Magneto's attack coverage is too big, they still can't escape just by shaking this single area. Therefore, No. 2 separated his hands again, and the next moment, he clapped his hands on his chest again.

Boom! ~Boom! ~Boom! ~

After three consecutive strikes like this, the superimposed energy shockwave swept a large area with Number Two as the center. And, the shockwave continued to spread outward, pressuring Magneto's attacks.

"Let's go!" Although No. 2 also attacked the Defensive Barrier where No. 1 was when he cleared the surroundings, No. 2 still took care of them a bit. Although, when this space was cleared, No. 1 shouted and he was already rushing to the outside first.

As No. 1 fled, the others quickly followed him. When Stryker is not there, this small team of Mutants are at the command of No. 1, after all, No. 1 also has the ability to control them well.

Just like that, after Number 2 helped them clear Magneto's attack, this squad of modified Mutants belonging to Stryker quickly retreated towards the outside of the battlefield.

Brush!

Without caring whether they had escaped or not, Number 2, who had suppressed Magneto's attack with a single move, had looked up into the mid-air the next moment, where Magneto was located. And when the No. 2 looked at Magneto, Magneto also happened to turn his head to look over.

...

A minute ago, when Captain Rogers and the others had just arrived at the position where Magneto and Stryker were fighting, they were blocked by Magneto's attack.

Magneto has pushed Stryker in a desperate situation, and the Teleporting ability of No.4 seems to be reaching its limit. When Number 4 can no longer teleport then Magneto would be able to squeeze Stryker like a chicken.

However, when Magneto finally seized the opportunity to kill No.4 who was exhausted and could no longer teleport quickly and trap Stryker, he suddenly sensed violent energy fluctuations coming from two locations on the battlefield he controlled, one from the inside and one from the outside.

Huh~

In the next moment, Magneto saw a powerful energy shockwave sweeping a large area out of the area he controlled. When Magneto's eyesight thus turned, he saw a man standing on the ground also looking at himself.

Chapter 618 Mutant War 6

Brush!

After seeing that person's eyes, Magneto felt like being stared at by a lone wolf with no feelings. At this moment, Magneto seemed to feel as if the other party was treating him as prey.

"Who is he?" Magneto muttered softly as he looked at the Number 2 on the ground as soon as this unpleasant feeling emerged in his heart.

Brush!

However, just as Magneto suppressed the uncomfortable feeling in his heart and was about to wave his hand to destroy this guy who made him feel this way, the guy surprisingly disappeared.

"What?!" Seeing No. 2 disappear, Magneto's heart jumped slightly, then he seemed to sense something and looked to his right.

Brush!

Sure enough, when Magneto looked over, Number 2 that had been just on the ground had already appeared on his right side. However, because Magneto is surrounded by a Magnetic Field, Number 2 can not directly teleport in to attack him.

"It seems that you are also a reformer under Stryker! However, although you are much stronger than the others, you still don't look enough!" Squinted and looked at the number two that appeared not far away from him, Magneto said faintly. Speaking of.

"It seems that you are also one of the Mutants transformed by Stryker! However, although you are stronger than the others, but you are still not good enough to stand against me!" Magneto said indifferently.

From the fact that No. 2 broke his control over the area just now, coupled with the scenario where he teleported to his location, Magneto has guessed that he must be one of Stryker's new modified Mutants.

But how could Magneto be afraid of him? As long as his Magnetic Field is not broken, even Professor Charles won't be able to invade his mind with his helmet. Under such circumstances, only a few people know what price it will cost them to defeat Magneto.

Facing Magneto, an unexplained expression flashed in the eyes of Number 2 who was standing on his right. The next moment, No. 2's body shook and another No. 2 appeared from behind him. Finally, No.2 revealed his third Mutant ability: Cloning!

Swipe!

After splitting into a clone, the two quickly became four, and the four instantly became eight. After Magneto blinked twice in surprise, his Magnetic Field was already surrounded by eight clones. Being stared at by eight identical cold eyes, it was a little uncomfortable even for Magneto.

"Huh! So you can clone yourself. Can you break through my Magnetic Field?!" Magneto said disdainfully when he saw eight Number 2 staring at him tightly.

Brush! Brush!

The next moment, Magneto waved his hand, and eight torrents of small metal fragments pierced the eight clones that surrounded him. Magneto is not a soft-hearted person. If the opponent dares to attack him then he will not hold back.

Pū Pū!

When Magneto controlled that metal torrent to attack Number 2's clones, some of them instantly dodged, some directly jumped up to dodge.

For a while, Magneto was really unable to exterminate these eight flexible people. However, Number 2 also seemed unable to do much damage to Magneto. Moreover, he was unable to save Stryker who was trapped by Magneto on the ground.

Boom! Boom!

Under Magneto's attacks, the eight clones that could not evade were smashed hard against Magneto's Magnetic Field Barrier.

However, when Magneto was not paying attention, the two Number 2 who was badly injured and had smashed on his Magnetic Barrier instantly had a red glow in their eyes, followed by a red glow on their bodies and hands.

Moreover, the hands of these two No. 2s were tightly pressed against Magneto's Magnetic Field. As these two Number 2 hands became redder and redder, a strange energy fluctuation finally caught Magneto's attention.

"Not good!" Magneto, who was still dealing with the remaining six of No. 2s quickly turned his head and looked over after feeling the energy fluctuation, but it was too late by this time.

Boom! Boom! Rumble!

After two consecutive explosions, a violent explosion suddenly occurred at Magneto's location in mid-air. In a burst of red light, Magneto's Magnetic Field Barrier was broken!

It turned out that the red energy released by No. 2 just now was the kind of blasting energy that Stryker had let No. 6 sacrifice himself before. It seems that No. 2 is indeed a modified Mutant who has the ability to challenge Magneto.

"Bastard!" When the Magnetic Field Barrier was broken, Magneto's roar suddenly came from the center of the explosion.

Dang!!!

Pū!

In the next moment, a crisp metallic impact sound came out at the center of the explosion. Along with the impact was a shockwave that dispersed the red light that enveloped the area, revealing the situation inside.

Call!

After the red light completely dissipated, the situation in mid-air also became clear. There were originally Eight No. 2s clones and only three of them were still teleporting around Magneto in the air.

It seems that in Magneto's roar, five No. 2s Clones were directly destroyed. However, Magneto's chest and back also had a footprint and a fist mark upon them.

Obviously, at the moment when the magnetic field barrier was broken, Magneto was also hit by Number Two's attack. At this time, the space within a five-meter radius centered on Magneto was trembling slightly.

The remaining three No. 2s also happened to be outside of this area, and they seemed to have escaped from Magneto's attack.

"You!...damn it!" Although Magneto had already exploded and released his absolute domain attack at the moment the magnetic field barrier was broken but he still gave No. 2 a chance to hit him and that guy took it.

Although it's just a punch and a kick, Magneto hasn't really experienced the feeling of being kicked on his body in a long time. This feeling is still very bad. Although Magneto's strength is undoubtedly strong, he is already old.

Although his body is much better than an ordinary old man, he is inferior to a young man. After being kicked and punched by Number Two, he was still a little injured. So, this time, Magneto is really angry.

Whew!

Staring deadly at Number 2, who was still surrounding himself and looking for an opportunity to attack, Magneto directly expanded the range of his domain outward.

He wanted to envelop No. 2 into his own field, in his absolute field, even if the instantaneous movement is impossible to be used. Moreover, Magneto will be able to control even the metallic elements in Number Two's body, and he will personally destroy this guy who dares to injure himself.

Swipe!

However, apparently having just tasted the power of Magneto's full power strike, as soon as they saw Magneto expand the range of his domain, the three No. 2s instantly disappeared at the same time.

When Number 2 reappeared, only one of the three number twos was left. Obviously, this kind of split variant ability either has a time limit or an energy limit, otherwise, Number 2 would not have let two helpers go unused.

"Do you think you can run away now!" Seeing No. 2 teleports away from his absolute domain, Magneto let out a low roar and suddenly raised an arm. After Magneto raised his arm, he squeezed his open palm.

Buzz!

At the next moment, Number Two, who was still teleporting around Magneto, only felt that the space around him seemed to quickly become thicker, and it became more and more difficult for him to teleport.

“Not good!” Finally, after two teleports, the expression on No.2’s face changed a lot, and he found that he could no longer teleport.

Using the Absolute Domain to strengthen his control over the Magnetic Field, Magneto changed the physical rules of this space, and also abolished the teleporting ability of No.2.

“Humph! Now let me see you run away!”

Chapter 619 Grasped

The outstretched right hand squeezed tightly in the direction of Number 2, as if squeezing an ant through the air, Magneto eyes ruthlessly looked at Number 2, whose body was controlled by him in mid-air. With Magneto’s right-hand grip, Number 2’s body continued to emanate the sound of bones breaking.

Magneto has lived for so long and he has experienced countless battles, and the Mutants he has seen are countless, but this is the first time that he has seen a person like No. 2 with so many Mutant abilities in his body.

Although Number 2 is obviously Stryker’s Experimented Mutant, this Experiment has already threatened Magneto’s life. Although Number 2 has many Mutant abilities, Magneto can still deal with him. But if this guy possessed any more Mutant Abilities then Magneto would have found it hard to deal with him.

Card!

After taking two more looks at Number 2, Magneto’s right hand shook, and Number 2’s neck was broken by him. Then, Magneto threw the body straight away like a piece of garbage.

Call~Pū!

Falling weakly from mid-air, No. 2’s body finally hit the ground heavily. Number 2, who was just thinking of fighting a few hundred rounds with Magneto could only crane his neck on the ground at this time, his lifeless eyes looking at the stones on the ground.

“Now, it’s your turn, Stryker.” After taking care of that guy, Magneto’s attention shifted to Stryker.

However, when Magneto’s gaze shifted to Stryker’s location, he saw that he was no longer where he previously was. It seemed that while Magneto was entangled by Number Two, Stryker was wisely looking for a chance to escape.

However, he did not run too far. Magneto, who was flying in the air, just raised his gaze again and saw Stryker who was running away not far from here.

Stryker, who was fleeing, did not forget to summon Number 1 who had been hiding away. Although Number 1 knew that he might be killed by Magneto when he turns back, the control in his mind made it impossible for him to disobey any of Stryker’s orders.

“Do you think you can run away now?” Magneto’s mouth curled slightly as he watched Stryker running away, and then he stretched out his hand toward Stryker.

Boom!

The next moment, the Magnetic Field around Stryker, who was about to get out, suddenly changed drastically. As the expression on Stryker's face changed, he was already picked up by Magneto. Although there were attacks on the one side to prevent Magneto from taking Stryker, their attacks obviously couldn't stop Magneto.

Huhu!

Stryker, who was caught in the air by Magneto, struggled like a chicken, but he couldn't break free of Magneto's control. In the end, he could only be brought up in front of Magneto with a sullen expression on his face. Staring at Magneto close at hand, Stryker tried to make himself look stronger.

"Stryker, did you ever think you would end up like this one day?" Grabbing Stryker, Magneto stared at him and asked in a calm tone.

"Magneto, there have always been conflicts between us. However, I still don't understand. What is the cause of your actions this time?" After getting caught by Magneto, Stryker asked his question.

"Humph! We do have a lot of conflicts between us! However, this time I came to find you not because of those things. Rather, I got a message the other day, more than a decade ago, did you capture a pair of twin Mutants in the small town of New Jersey?!" Not wanting to talk any more nonsense with Stryker, Magneto directly asked his question.

Why did Magneto risk being caught by the military as he came after Stryker? It's because he learned that he has a pair of children living in this world. Magneto, who has suffered from childhood, lost his lover and children when he was young.

Now that he knows that he still has a son and daughter alive in this world, he will find them even if he abandons everything. However, the development of the situation today is not bad, at least he has taken Stryker in his hands.

As for those X-Men who had rushed over from behind, Magneto didn't plan to pester them too much. He only needs to ask about the whereabouts of his children this time, and then kill Stryker.

Although Magneto was also curious about why the military cooperating with Stryker hadn't taken any action until now, he didn't care about that much anymore as he was about to get the information he needs.

"En? Twin Mutants? You are asking..." Stryker was stunned when he heard Magneto's question and then he seemed to think of something.

"You know! Where are they now?!" Seeing Stryker's expression, Magneto couldn't help squeezing his right hand and asked.

Squeak, Squeak~

"Cough! You are so nervous... how could that be... Who are these twins?" Stryker's squeezed skeletal muscles spread out from the sudden tightening of his body, but he could see from Magneto's emotional changes that something has happened.

“You!... Tell me where they are now?!” Not wanting Stryker to know that the twins were his childrens, Magneto could only keep using his tone to coerce Stryker. However, at this time, Stryker whose entire body was in Magneto’s hands was in no hurry at all.

“Haha~ Cough! Haha, ~ Cough! Haha, Haha~ Cough! I was wondering why an ordinary person would end up producing such High-Level Mutants, but it turns out that they were your Childrens! No wonder! Haha!” Coughing out a few mouthfuls of blood foam, Stryker unceremoniously poked directly through Magneto’s hidden secrets.

In the beginning, Stryker secretly collected various young Mutants in order to control them from an early age and to better allow him to experiment with some Mutant abilities.

However, although Quicksilver and Scarlet Witch were small at first. But as they got older, Stryker found that he couldn’t control them well.

Therefore, before the brother and sister could threaten him, Stryker had already packaged them and sent them to a Special Force that cooperated with him. From then on, Stryker didn’t care about what happened to the siblings.

In Stryker’s view, the pair of siblings should be dead after so many years. He didn’t think that the pair of siblings he had given up would have such an origin, they turned out to be Magneto’s children. If the Stryker at that time knew the news then he would definitely not give up on Quicksilver and Scarlet Witch.

As Magneto wouldn’t have been able to move against him if he had those two cards in his hand.

Huhu~

As Stryker looked at Magneto with some complacency, the force Magneto put on him continued to grow. However, Stryker did not have a single worry about it.

“Hehe, now that I know the relationship between the twins and you, do you think I will still be afraid that you will kill me?” Stryker said lightly after letting Magneto keep hurting him.

Chapter 620

Call!

“Do you really think I won’t just kill you?!” Magneto said with a cold light in his eyes when he heard Stryker’s words.

Although his main goal was Stryker, the person who captured his children was not Stryker, he was just the person in charge. Magneto also wanted to get the most accurate information about his childrens from Stryker.

If Stryker really didn’t intend to tell him or intend to use this to blackmail him, then Magneto wouldn’t really mind killing him, he can just look for his childrens later by getting the information out of the people who kidnapped them.

But Magneto doesn’t want to do that unless it is absolutely necessary as no one except Stryker knew the whereabouts of his children.

“Uh... stop joking! You want to know the whereabouts of your children and I am the only person who could tell you that!” Seeing the cold light in Magneto’s eyes, Stryker’s heart jumped as he shouted.

Although he has Magneto’s weakness in his hand, he can’t guarantee that Magneto will not kill him out of anger. After all, Stryker also knew that this secret was indeed not only known to him.

“Oh? Why do I suddenly feel that you aren’t that important anymore, what should I do with you then?” Magneto said inexplicably when he saw Stryker’s expression change.

“You!.....”

Call!

Just when Stryker wanted to say something, Magneto suddenly waved his hand behind him. Under Magneto’s control, a large metal plate made of countless metal materials blocked his head.

Boom!

After the huge metal plate blocked the top of Magneto’s head, a blue-colored thunder light just smashed off and hit the metal plate. It was Storm who had attacked Magneto from a high altitude.

“X-Men, are you really going to intervene in my affairs this time?” Without looking at the Storm flying above him, Magneto looked at a certain spot on the ground and said to himself.

When Magneto looked at the ground, someone there also cast their gaze in the air, and happened to look at Magneto, it was Professor Charles who was sitting in a wheelchair. After Magneto caught Stryker, Professor Charles finally arrived in this location.

“Erik...” Sitting in the wheelchair, Professor Charles had mixed feelings in his heart as he raised his head and looked at Magneto in mid-air.

Professor Charles is still not sure what Magneto wants with Stryker and why did he attack him at this time, but he can still guess something.

However, Professor Charles couldn’t tell Magneto even if he knew the whereabouts of Quicksilver and Scarlet Witch.

With the strength of Quicksilver and Scarlet Witch, if they recognize their father and join the Mutants Brotherhood, then Magneto’s strength will instantly increase and it will increase by too much, and the balance of Mutants on Earth will be broken. This is not something that Professor Charles wants to see.

Huhu~

After Storm’s first sneak attack was blocked by Magneto, she didn’t make any more attempts. Now that Magneto is prepared, her attack won’t cause him any harm.

Moreover, her mission this time was not to fight Magneto. Therefore, Storm and Magneto, who was flying in the air slowly dropped to the ground. Of course, Magneto is still carrying Stryker.

Brush!

Da da!

After Magneto carried Stryker to the ground, Pyro, the Shockwave Woman, and the other two core members of the Mutants brotherhood quickly stood beside Magneto.

Opposite to them, Professor Charles stood with his X-Men while Rogers and the others also stopped by them. Tony still took his dozens of Iron Mans into the air to stand behind the X-Men, but he hid behind and was some distance away from Magneto.

...

On the ground, which had been reduced to rubble in successive battles, five members of the Mutants Brotherhood stood on one side, and on the other side were the X-Men and SHIELD's Special Squad, which outnumbered them by several times, and Tony's Iron Man brigade.

In terms of numbers, Magneto's side is at an absolute disadvantage, but it may not be so if they really fight. No one wanted to see Magneto bursting out with all of his strength. Only Professor Charles here knew how strong Magneto is and he also knew what Magneto could do if he put his mind to it.

Hoo-hoo~

The breeze blew over the ruins, raising a sandy wind.

"Charles, I haven't seen you for some days. Did you find some helpers?" Looking through the familiar X-Men, Magneto asked as he saw Captain Rogers and Iron Man standing next to Professor Charles.

Hearing Magneto's words, Professor Charles spoke with a calm expression on his face, "Erik, the World has changed, and this world is no longer the one we are familiar with. Therefore, we don't have to insist on some things anymore."

"Hehe, there are some things that we don't need to insist on? Are you saying that you insist on forcing the Mutants to submit to them? Yes, what you have done these years may have somewhat weakened the difference between Mutants and ordinary people. But is it really effective? Humans won't tolerate us. We would only be able to live in this world only if we have the absolute right to speak for ourselves!" Hearing Professor Charles's words, Magneto suddenly shouted angrily.

Pū!

Then Magneto threw Stryker to the ground.

"Just like this kind of person, his hatred for Mutants will never go away! What he did to Mutants can't be forgiven either!" Pointing at Stryker, who was lying on the ground, unable to move, Magneto shouted at Charles.

"Erik, I'm not defending people like him. I just want to say that now we have better choices. The world is already very tolerant of all kinds of things, as long as we..."

"As long as we what? As long as we cater to these ordinary people? Charles, you still haven't changed a bit from before!" This time, Magneto interrupted before Professor Charles could finish speaking.

Professor Charles felt helpless when he heard Magneto's words. He wanted to tell Magneto that he had changed. He was really using a way he hadn't tried before to help the Mutants get their place in this world. However, Magneto obviously wouldn't listen to him.

“Professor Charles, what should we do now? I can’t hold back the Military anymore. Their team will be there within a minute. If there is a fight then I would be ordered to attack the Mutants Brotherhood first.” Just when Magneto and Professor Charles were talking to each other, Captain Rogers, who was standing next to Professor Charles, suddenly spoke up.

It was not easy for Rogers to use SHIELD to put them such a long time. If it hadn’t been for the fight that had just happened in front of the White House, the Military would have never been held for such a long time.

But now, after receiving continuous news from Stryker and getting no clear reply from Rogers, the Military finally made a move. Don’t think that the Military only has ordinary Soldiers. For these kinds of special situations, the team coming from the Military is obviously not simple.

“In that case, let us handle the Mutant Brotherhood, we cannot allow Magneto to take Stryker!” Professor Charles’ eyes flashed when he heard Rogers’ words.

Brush!

As soon as Professor Charles’s voice fell, a figure had appeared on the side of the Mutants Brotherhood, and the target was Stryker who was lying on the ground!
