

## Marvel 661

### Chapter 661 News

While Lin Rui was receiving Recovery Serum and thinking about the recent events and gains, Tony and Peter were chatting next door to Recovery Serum. Of course, the topic they were chatting about was Lin Rui.

“Is it true what you said? Why do I feel that it’s a fantasy story out of a childrens book, Deadpool also a weird mind and a mouth of a sailor.” Sitting on the soft sofa, Tony took a sip of red wine while looking at Peter who was eating snacks across the table, and said indifferently.

Just now, Peter had fully told Tony what he had heard from Deadpool on his journey to another planet with Mirage Knight. Although Peter didn’t add anything to the story, what Deadpool told him was exaggerate enough, so it sounded like a fantasy story to Tony.

“It should be... true. Although Deadpool may have added some unnecessary details, he wouldn’t lie.” Hearing Tony’s words, Peter, who was delivering snacks to his mouth, stopped moving and thought a little bit before answering.

After all, Spiderman and Deadpool are the only ones who talk a lot in League of Defender, so although they have a difference in age, their personalities are really similar.

After Deadpool told Peter about his and Mirage Knight’s experience during the missing days, even though Peter felt amazed, he still chose to believe it. In Peter’s eyes, with Mirage Knight, any magical thing could happen.

“It’s unbelievable that they reached another planet through an unstable Space Portal but in light of the recent events, I can barely believe it. However, what ten-story tall dinosaur monster; and the tree that can control the entire forest, and he said that he encountered an Alien that was from the earth, as well as Cats, Treants, and blue-skinned people. Then that Ancient Relic, a huge Tentacle Monster, did he really think that everyone is a three-year-old child?” Faced with Peter’s explanation, Tony said with a bemused expression on his face.

The sudden appearance of a Space Portal that leads to God knows where is a little believable.

Although Tony and the others have not encountered a Space Portal that can directly teleport someone across the universe, it does not mean that it does not exist, especially when there is a thing called Space Infinity Stone that is still lost.

However, it wouldn’t be so easy to survive such long-distance teleportation and he is basing that on the time when Mirage Knight and Red Skull were swallowed by the Space Portal together and Red Skull died and Lin Rui only survived due to dumb luck.

And after the teleportation is over, they happen to be able to reach a planet that is very similar to the earth’s environment. This probability is too small, so small that it is almost impossible.

Judging from the universe currently observed by the Earth, only two planets similar to the Earth have been discovered. Moreover, there is no guarantee that the two planets still exist.

As for what happened after arriving on the primitive planet, Tony listened to it and treated it as a Fantasy story.

"Perhaps, Deadpool can choose to write a book, his skill of making up stories is quite good," Tony said after he finished the glass of red wine.

"Uh...Deadpool told me that he is really going to write this experience into a book. The name would be 'Deadpool and Mirage Knight's Magical Journey on Another Planet'." Hearing Tony's words, Peter was stunned and said after some time.

Tony: "..."

"Sir, all the eleven Extremis fighters captured have been frozen." Just when Tony was a little speechless, JARVIS's voice suddenly came over.

While Tony stayed in Washington with some of the Iron Man suits to handle the battle between the Mutants Brotherhood and Stryker, JARVIS arranged for the other Iron Man to return to the Stark base in New York with the captured Extremis warriors. In the meantime, JARVIS has also found a way to seal these Extremis fighters. That is to use the temperature below minus 20 degrees while administrating Gene Suppressor to weaken the effect of Extremis, and then you can freeze these Extremis warriors temporarily.

"Eh, just deal with it, I'll deal with them when I have time." Hearing JARVIS' words, Tony said with a flash in his eyes.

Tony is still interested in Extremis. Moreover, because Venom's ability to absorb lifeform energy has not disappeared with its evolution this time. Tony also suffered a small loss for this reason.

Therefore, in order to make better use of Venom or to control its energy absorption problem, Tony came up with Extremis. With the powerful energy displayed by Extremis, it can fully satisfy Venom's energy absorption rate.

Moreover, the energy provided by Extremis is just the lifeform energy, which is in line with Venom's requirements.

"Also, Captain Rogers just sent a message." After reporting on Extremis, JARVIS continued.

"En? What's it about?" Tony asked with some interest when he heard the news of Rogers.

"Captain Rogers is very concerned about Mirage Knight's situation, and he specifically asked about his Recovery situation. He also explained that if he will provide all the help he can in the form of complete Recovery Serum conditions."

"Heh~ Could it be that he thinks that my Recovery Serum condition is not as good as his SHIELD?" Hearing JARVIS's report, Tony said with a small smirk on his face.

"Sir, in fact, SHIELD's Recovery Serum conditions are indeed better than ours." Hearing Tony's words, JARVIS reminded truthfully.

Tony: "..."

“Anything else?” Not wanting to talk about this subject anymore, Tony continued to ask, anyway, Lin Rui won’t go to SHIELD.

“Also, Captain Rogers mentioned that Dr. Banner hopes to cooperate with you in some scientific research. For this, SHIELD can provide the largest scientific research environment and necessary technology.”

“Oh, this, I had expected it.” Tony was not surprised at all hearing JARVIS’s words.

How could Tony, who is also a genius fail to understand Dr. Banner’s thoughts? His coming back was not simply because of SHIELD. His own ambition and love for science were the biggest reasons why he was willing to come back.

And Tony is also willing to cooperate with such a genius who can understand him. Especially, now since Tony has a lot of projects to follow up and research, even if he adds the two assistants Lin Rui and Peter, he is completely busy.

Moreover, as the Iron Man, he also needs to appear from time to time in the outside world. Therefore, Tony also needs a teammate with considerable scientific research ability to help him.

“JARVIS, you will reply that Mirage Knight is here and he is recovering very well and we don’t need SHIELD’s help in that. Also, I’m happy about Dr. Banner’s invitation and will follow up with him.” Finally, Tony gave his reply.

“Yes, sir.” JARVIS agreed calmly after hearing Tony’s words.

Huh~

Da Da~

Just as Tony finished speaking with JARVIS over here, the door to their lounge was pushed open from the outside. Then, a person who Tony and Peter are very familiar with slowly walked in.

## **Chapter 662 Interrogation**

“Hey! What are you guys talking about? About me?” After pushing open the door, the person who walked in looked at Tony and Peter on the sofa and asked with a smile. Needless to say, the person who pushed the door in was Lin Rui, who was recovering just now.

“Jackson! Are you okay?!” Peter happily jumped up from the sofa and shouted when Lin Rui came in.

Whew!

Facing Peter who jumped over, Lin Rui opened his arms and gave him a big hug. Although Lin Rui’s body is not completely healed now, he will not refuse his friend’s hug.

“Ah! I’m sorry!” Seeing that Lin Rui, who was being hugged by him, frowned twice, Peter hurriedly let go of him and apologized nervously.

“It’s okay! I’m almost well enough, Mr. Stark’s Recovery Serum pod is working well. And there’s the latest type of Genetic Recovery Serum from Harry, I’ll be fully recovered after a few more days of rest.” Seeing Peter suddenly jump away, and then hearing his apology, Lin Rui waved his hand and smiled.

In fact, JARVIS still underestimated Lin Rui's own recovery capabilities. Originally, according to JARVIS's calculation, even with various Advanced Recovery Serums, Lin Rui would need three sessions to recover to the point of doing normal actions.

However, Lin Rui had already recovered most of his body's functions by the end of the first season. With his physique, he would be able to recover slowly on his own after resting for some days.

"That's great!" Peter was also very happy to know that Lin Rui was fine.

Then, Lin Rui and Peter walked towards Tony's side together. Seeing Tony's eyes on the sofa, Lin Rui knew that what was waiting for him was definitely not a good word.

"Humph! A few more days of rest and you're fully recovered? If you hadn't gone to fight Hulk then you wouldn't have needed to lie in the Recovery Serum chamber for so long, and you wouldn't have needed several days to recover from your injuries." Sure enough, Lin Rui had only just walked up to Tony when Tony's cold words came out.

Tony defended Mirage Knight in front of Captain Roger and Dr. Banner on the battlefield because he was worried about Lin Rui's injury, but he was still feeling a little angry.

Tony was particularly concerned about some of Mirage Knight's actions after he guessed that the real identity of Mirage Knight was Jackson Lin. No matter how strong Mirage Knight is, he's just a 17-year-old kid.

For Lin Rui and Peter, Tony always felt that he has a responsibility, as a guardian-like responsibility.

Therefore, he will not let anything harm Mirage Knight and Spiderman as long as it is within his power. This time Lin Rui's unplanned and sudden actions injured him, and Tony was very angry.

"Hey...Mr. Stark, your private Recovery Serum cabin is very good! It is very comfortable to lie in, and there is a private theater where you can watch movies and listen to music." Lin Rui smiled awkwardly as he saw the anger on Tony's face and he tried to divert the subject.

Whew!

Just as Lin Rui finished this sentence, Tony, who was sitting on the sofa, directly stood up.

"Don't try to change the subject! Tell me, if you were not just injured today, or if your injuries were serious. Have you ever thought about your family?! Have you ever thought about your friends?! Have you ever thought about me and everyone else who cares about you?!" Tony loudly and continuously asked as he took two steps forward and directly stood in front of Lin Rui.

Facing Tony's sudden questioning, Lin Rui unconsciously dodged his eyes. Although Lin Rui knew something in his heart, he couldn't refute Tony's concern for himself. Moreover, he was indeed wrong this time.

"That ..... why don't I go get some snacks first and come over." At the time when the atmosphere between Tony and Lin Rui was getting depression, Peter, who was standing beside Lin Rui, spoke in a small voice.

"No!"

“No!”

Tony said from the front while Lin Rui spoke from the back. Tony wants to educate the children, and of course, he has to take advantage of the opportunity to educate Peter.

Although Mirage Knight is very difficult to manage, Spiderman is also not a particularly obedient boy.

After Tony upgraded the Spiderman suit, Peter wanted to do some big things even more, and always picked some dangerous missions in the League of Defenders.

Therefore, Tony's words are directed at Lin Rui and they were also directed at Peter. So, Tony certainly wouldn't give Peter a chance to leave now.

As for Lin Rui not letting Peter leave, the reason is simple: To find a partner to accompany during this tongue lashing.

Lin Rui didn't intend to explain anything anyway and found someone to accompany him to accept Tony's anger. Based on Lin Rui's understanding of Tony, after Lin Rui apologized after Tony had finished scolding him, Tony's anger would almost disappear.

“Uh...well.” Scared by Tony and Lin Rui's unanimous refusal, Peter whispered helplessly.

“You still have the nerve to yell at Peter, ah? He's not better than you in any case, he's not home all day long, and I don't know what's wrong with you high school students nowadays?!” Seeing Lin Rui loudly reject Peter, Tony continued with a stern face.

Lin Rui: “...”.

‘I'll put up with it! Anyway, now that you are in a fit of anger, anything I say is wrong.’ Faced with Tony's continuous questioning, Lin Rui had to be silent in response.

“You go to dangerous places by yourself at any time, or you just go missing without leaving any news. Did you know...” Then Lin Rui stood there and received Tony's ten-minute ‘education’.

After the black lines on Lin Rui's head had hung by several layers, and the face of Peter beside him had changed many times, Tony's tone finally eased off.

“Cough cough...” Noting that Tony's tone slowed down, Lin Rui coughed twice at the right time, making his face slightly flushed.

Sure enough, after seeing Lin Rui's face, Tony finally stopped accusing him.

“If you are hurt, just bear it yourself, go and sit down!” Tony said with a stern face.

“Mr. Stark, thank you, I'm sorry to have worried you this time.” Lin Rui looked at Tony after he let go and said seriously. Lin Rui had already let Tony worry about him more than once, so he was truly grateful for Tony's concern for him.

“If you really don't want to worry me then don't do so many dangerous things in the future.” Hearing Lin Rui's words, Tony said helplessly.

In this regard, Lin Rui is also helpless, he is not an adventurous person himself. However, in such a dangerous Marvel World, coupled with the existence of the System, Lin Rui is slowly forced to become an adventurous person who wants to fight for his future.

“By the way, Peter told me just now, you left the Earth this time and reached a different planet in the universe when you were missing?” Tony, whose anger had almost disappeared, looked at Lin Rui who was already sitting on the sofa and asked.

“En? Oh... yes.”

### **Chapter 663 Account**

Then, Tony and Peter carefully asked Lin Rui, the missing party, what happened during his disappearance. Although Deadpool was also the missing party, Tony didn't believe the fantasy story that Deadpool said.

Under Tony and Peter's careful questioning, Lin Rui explained his experience on the Alien Planet over the past few days. When Lin Rui told them about his experience, the eyes of Tony and Peter sitting next to him were getting brighter by the second.

Although both Peter and Tony had heard Deadpool's version just now, what Lin Rui said was more real and more immersive, but it was also incredible.

“In this way, we took an ultra-long-distance Space Portal across the Star Field, first, we went to Asgard, and then returned to Earth.” After talking for almost an hour, Lin Rui finally told his experience and by this time Lin Rui's mouth was dry.

Huh~

Guru Guru~

Lin Rui, who had finished talking about his adventure, didn't bother Peter and Tony who were a little stunned next to him. He picked up the glass of red wine on the table and drank it in one gulp.

Although Lin Rui didn't like to drink red wine before, he drank a lot at Tony's place. Now he is used to the taste of red wine, and the more expensive it is, the better he will drink it. He doesn't know if it is a psychological effect.

“Hey!...” Seeing Lin Rui finishing his red wine in one sip, Tony just realized that he wanted to stop him, but it was still too late in the end.

“Wow!, Jackson, you had quite an exciting adventure! Alien Planet, the endless prairie and all of the thousands of years old primitive forest, as well as those strange beasts and monsters, I really don't know how you and Deadpool were able to come back.” After Tony spoke, Peter, who was a little surprised next to him, exclaimed and looked at Lin Rui with bright eyes.

“It's just like that, although the beasts and monsters in the primeval forest are many and strong, but I am not weak either.” Lin Rui spoke with a smile on his face after hearing Peter's words.

"Can you tell me more about the structure of that Ancient Relic? I'm curious what kind of technological civilization can trap that irresistible monster you mentioned." Lin Rui poured another glass of Red without worrying about anyone as Tony continued.

"Well, the situation at the time was really urgent. It's already quite nice that I survived. I didn't have time to observe what that Relic looked like!" Lin Rui replied helplessly when he heard Tony's words.

"What about those aliens? You just mentioned some Star-Lord, Rocket, and a Treeman named Groot. I'm very interested in them. Have you brought back their hair or branches?" Without the information of that ancient Relic, Tony wanted to ask if there was a body material of those aliens.

After all, Lin Rui can be regarded as the first person Tony knows from Earth that has come into contact with Aliens, and it was direct and normal communication. As Lin Rui said, he also became friends with those Aliens. What Tony didn't know was that Lin Rui didn't introduce the origin of Star-Lord, otherwise, he would be even more excited.

When he heard Tony's next question, Lin Rui's head directly hung down with several invisible black lines. How could he possibly pay attention to collect these things at that time, he was already too busy running for his life.

"No, but I have brought back some other things." First, Lin Rui shook his head and said that he had not brought back the things from those Aliens for Tony to study, and then Lin Rui added.

"En? What kind of stuff?" Although there was no material from those aliens for Tony to study, but if Lin Rui had really brought back something from that alien planet, then Tony would be very happy.

Hearing Tony's words, Lin Rui didn't immediately take out the things in his portable space, but just scanned the luxurious lounge where they are now.

"Let's just go to the lab, those things may not be suitable for here." Lin Rui spoke after sweeping the lounge.

Whew!

"Yes, let's go to the lab!" Seemingly reminded by Lin Rui, Tony directly stood up from the sofa and shouted.

"Um...Aren't we taking a break right now?" Peter, who was still immersed in the story looked at Tony who was standing next to him and muttered with some doubts on his face.

"What to mean taking a break? Do you have time to relax and chat now? We haven't even finished the previous experiment and you still want to be lazy?!" Although Peter spoke in a small voice but Tony still heard it and replied.

Brush! Brush!

"Got it!" After Tony finished speaking, a figure rushed out of the lounge, and then Peter's voice came back.

"This kid... let's go, too." No longer seeing Peter's shadow, Tony smiled a little and then said to Lin Rui.

“En.” Lin Rui agreed and although he was still injured, he still walked towards the underground laboratory with Tony.

Two minutes later, Lin Rui and the other two had arrived at Tony’s underground laboratory.

Because Tony now needs to experiment with things that have completely surpassed the original Arc Reactor and continuously upgrade his Iron Man Armors, he had expanded the layout of the laboratory by several times.

Now, the experimental area under the entire villa is many times larger than the ground upon which the villa is constructed.

Among them is a laboratory dedicated to upgrading the Iron Man Armors, and a safe room for Arc Reactor experiments.

Some lifeform research rooms have been added to the back, including those dedicated to Venom, and now there is also an ice-covered room dedicated to storing Extremis fighters.

As for Lin Rui, their laboratory is a brand-new lifeform laboratory with a lot of space, enough to do some complicated lifeform experiments.

“How is Venom doing now? It has been hiding its ability to absorb lifeform energy before, so it can be seen that its own consciousness has always been there.” Lin Rui asked casually without going inside the lab where Venom was stored.

“Heh~ it?” Hearing Lin Rui’s words, Tony gave a light chortle and then directly handed him a tablet.

After receiving the tablet, Lin Rui curiously looked at the screen displayed on it. Then, the expression on Lin Rui’s face became very odd again.

Because what was shown on the tablet was Venom’s current situation. In the laboratory where Venom is located, he is located in a very small super alloy box, and from time to time there are high temperatures, electric shocks, freezing appear to irritate it.

Lin Rui: “...”

Is this its punishment? Tony is really amazing! Seeing the constant twitching Venom being tortured in the video, Lin Rui thought silently in his heart.

### **Chapter 664 Calls**

In the following two days, Lin Rui, Tony, and Peter did not leave the underground laboratory. Because the things Lin Rui took out from the Pocket Space that he got from the Alien Planet were too amazing.

Except for Venom, who is being tortured in a box, this is the first time that Tony had seen so many real alien lifeform materials. Whether it’s plant or lifeform, Lin Rui brought some back.

Therefore, Peter, who had originally planned to go home after seeing Lin Rui’s condition, and Lin Rui, who had not fully recovered from his injuries, were caught by Tony and they started the experiments.

Because Tony forced Lin Rui and Peter to stay in the laboratory for two consecutive days to classify and analyze the Alien materials for the experiments, Lin Rui also missed many calls and messages.

Among them, JARVIS will directly help him in returning the family's phone calls. This is not the first time JARVIS has done this kind of thing.

Anyway, Lin Rui's family has long known that their son is following Tony Stark and he seemed to be more than just a simple intern.

As for other people, if JARVIS is unfamiliar with them then he would just put it aside. Therefore, someone who hasn't contacted Lin Rui won't be able to get in touch with him.

...

Boom!

Zillah! ~

In the suburbs of New York not far from Lin Rui's home, a violent noise suddenly came out in the backyard of a dog shelter, accompanied by a strange electric current.

"Damn it, Jackson! Where the hell are you?! Why aren't you answering your phone?" After retracting his fist that had just hit the wall, Thor spoke with a look of confusion on his face.

After Thor put his fist down, the solid wall in front of him had been left with a scorched black, it was obviously caused by a strong electric shock.

After living on Earth for such a long time, Thor, who had deeply experienced the life of ordinary people with the help of Lin Rui, had also changed a lot.

The arrogance of the former Prince of Asgard has been gradually worn out. Before, Thor would only care about himself but now he also cares about the people around him.

Therefore, the power that belonged to Thor gradually returned to him. Although Thor hasn't been able to call his hammer yet, he can clearly sense the position of the hammer, and this feeling has slowly increased over time.

Moreover, his strength is constantly increasing, and he is already able to use some of the power of thunder.

And since Thor saw a Bifrost landing in New York more than two days ago, he thought that someone from Asgard had come again.

No matter who it was, Thor was looking forward to meeting them. Because that would give him a chance to talk about the situation in Asgard. However, when Thor hurried to where Bifrost landed, the Bifrost had already disappeared.

After a fruitless search for Asgard's visitors, Thor contacts Lin Rui, who is the only one in the world who knows about him and Asgard. However, Thor couldn't get in touch with Lin Rui.

Two days passed, and now Thor doesn't know what happened to Lin Rui. Although Thor had previously known about the unique identity of his Earthbound friend, he also had no contact information for Mirage Knight.

And Thor didn't think about going to Lin Rui's house to find him. After all, he hadn't been introduced to his friend's family.

"When Extremis fighters attacked major cities two days ago, members of the League of Defenders also took action, but they didn't see Mirage Knight. The little spider showed up in front of the White House. Could it be that Jackson was somewhere else?" Thor thought as he looked at the wall in front of him.

Having lived on Earth for so long, Thor has almost completely integrated into the lives of normal people. Therefore, Thor also knows about some major events that are happening in the world.

Thor was also aware of the massive attacks on many major cities in the United States by Extremis fighters two days ago. From media reports, Thor also saw members of the League of Defenders taking action against these Extremis Fighters, but he did not see Mirage Knight, who Thor knows is Jackson.

"Why don't I just go over to Jackson's house? If someone from Asgard had indeed come here then I need to know who it is. If Loki is up to something then Jackson can help too. And if anything had happened to him, his family would at least have known about it." Thor, who couldn't get in touch with Lin Rui, was already worried about him, and not just because of the Bifrost.

"Let's just do it! I will go to Jackson's house after I get off work today, I hope his family knows what's wrong with him!" Finally, Thor decided to go to Lin Rui's house to find him.

However, just when Thor was about to turn around and go back to clean the kennel, he was suddenly taken aback. He looked at the crumbling wall that was hit by his punch and the expression on his face gradually turned ugly.

This backyard is normally a place for the dogs to play and relax, and if the wall falls down, the dogs would be hurt. So Thor had to fix the wall.

"It's going to cost another fortune!" Finally, Thor could only mutter helplessly.

...

Dī Dī Drops!

In the underground laboratory of Tony's luxury seaside villa in New York, Lin Rui, who was conducting a capital analysis for a foreign planet's plant organization, suddenly heard a reminder from the tablet.

This reminder sound indicates that there is news from Lin Rui's home, so Lin Rui temporarily put down the instrument in his hand, and then picked up the tablet.

Dī Dī Drops~

Seeing the flashing portrait on the tablet, the corners of Lin Rui's mouth slightly cocked. Then, Lin Rui walked away from the side of the lab table to a more well-lit place, also so that there was no other lab stuff behind him. Only then did Lin Rui tap on this video call from home.

"Hi! Dad, did you miss me again?" After tapping on the video call, Lin Rui looked at his father Lin Hai on the other end and greeted him with a smile on his face.

Ever since Lin Rui became Mirage Knight, he has been sneaking around at night, and now he is openly using Tony-Stark's name to "Wander" outside, and his family is used to it.

Anyway, with Tony-Stark's real-life guarantee for him, the family had no problem with it. After all, not everyone can be Tony-Stark's helper.

"Haha! Son, of course, I miss you, and your mother also misses you very much. When are you coming back this time? You've been doing experiments with high secrecy before, so mom and dad can't see you, haven't you finished yet?" Seeing his son in the phone, Lin Hai who was at home asked with a smile.

"Well, I don't know about that, but it's been a little easier these days. I can ask Mr. Stark if I can take a vacation." Lin Rui says with a smile when he heard his father's words.

"That's good, by the way, someone came to the house today and said that he was your friend."

"Who is it?" Lin Rui casually asked as he usually has good connections at school, so it's not surprising that someone went to his house to look for him.

Huh~

After Lin Rui finished asking, he saw his dad's cell phone view turn down. Then, a sturdy figure appeared in Lin Rui's line of sight.

## **Chapter 665 Visit**

Lin Rui froze a little after seeing the familiar sturdy figure in front of the camera.

"Son, he said that his name is Thor Odinson and he is your friend. He came here looking for you when he couldn't get in touch with you and was worried." After the burly figure appeared in the center of the video, Lin Rui's father said.

"Hello, Jackson." After Lin Rui's father finished speaking, the man in front of the camera also smiled and spoke.

"Thor?! How are you?" Looking at the figure in the tablet, Lin Rui calls out his name with some surprise.

Ever since Lin Rui had helped Thor find a job, he hadn't seen Thor that much. After all, Lin Rui did not know exactly how to let Thor regain his divine power, so apart from keeping in touch normally to understand Thor's life, the busy Lin Rui would not interfere too much with Thor's life on Earth.

However, seeing Thor's expression in the video, Lin Rui felt that he should be suppressing something. The smile that was shown looked so sincere, but Lin Rui, who knew Thor well, could see that it was a forced smile.

"Oh, since it's really your friend, then you guys can talk by yourselves, I'm going to make dinner." Hearing Lin Rui call out Thor's name on the phone, Lin Hai said and then gave the phone to Thor.

Da Da~

Then, Lin Rui heard the sound of distant footsteps. It seemed that his dad had really gone to make dinner.

"Hi! Thor, haven't seen you for a while, how are you doing?" Lin Rui asked with a smile looking at the face being pulled in across the video.

Although he didn't know why Thor wanted to find himself, but judging from his fading smile, it shouldn't be anything good.

"Me? Of course, I am doing well these days! And I am getting better and better!" Hearing Lin Rui's words, Thor replied with a cold face.

Zizi~

Then, Lin Rui saw that Thor's eyes slowly glowed with lightning, and several thin electric arcs popped out of his body. Obviously, Thor was expressing his dissatisfaction and anger.

"Um... if you have something to say then say it but don't blow up my house!" Lin Rui cried out in surprise when he saw that Thor was able to release some thunder.

Lin Rui still doesn't know how he had angered Thor, but Thor has now recovered a bit of his powers and Lin Rui can't let him mess around in his own home. As for the fact that Thor has fully recovered his powers, Lin Rui won't believe it.

If that was the case then Thor would probably have been picked up back to Asgard. After all, Asgard is now fighting Frost Giants and Dark Elves, and there is a lot of pressure on them.

The presence of a powerful warrior like Thor on the battlefield would be enough to affect a lot of things, and Odin won't waste it.

"Humph!" Thor coldly snorted when he heard Lin Rui's words, and then the electric arc in his eyes and body gradually disappeared.

Then, before Lin Rui could continue speaking, Thor secretly took a few quick deep breaths.

While it's true that Thor has already begun to recover his powers, he is still a long way from being able to use his full powers. Just now, Thor just forced some thunder to frighten Lin Rui. Now, he can't let Lin Rui see the difference, or his bluff would be seen.

"Okay, what's the matter? You came to my house so it must be something serious?" After two seconds of silence, Lin Rui asked Thor who was wearing a stern expression on his face on the other side of the video.

"If you could just pick up your phone then I wouldn't have come to your house?" Thor asked when he heard Lin Rui's words.

"Uh...My phone is broken. I just forgot to buy another one because there have been a lot of things recently." Lin Rui said with some embarrassment after he heard Thor's words.

Lin Rui's mobile phone broke down when he was on the Alien Planet, and he didn't buy a new one when he came back. Many people don't need a mobile phone to contact him anyway.

"Well, I was wrong in this matter. I should have bought a new one after my old phone broke. So, what is your urgent matter." Lin Rui apologized and then asked.

Hearing Lin Rui's question, Thor's eyes flashed as he spoke, "I saw the Bifrost appear two days ago, and it landed in the suburbs of New York, not far from where I work."

"I suspect that someone from Asgard is here. But after I went there, the Bifrost has disappeared and there was nothing. I am worried that Loki had come to mess with us again, so I want to ask for your help. Don't you have many friends? If Loki had come here then we need to stop him." After hearing Lin Rui's apology, Thor spoke about his matter.

After Thor finished speaking, he looked at Lin Rui in the video seriously, but when he saw Lin Rui, he seemed to be in a daze.

"Two days ago, Bifrost, in the suburbs of New York, not far from where Thor worked... Wouldn't it be the time when I came back..." Actually, Lin Rui was not in a daze, he was just thinking about what Thor had said. There seems to be some misunderstanding here.

"Thor, are you sure it was two days ago? It was about noon, and only one Bifrost appeared?" In order to ensure his own thoughts, Lin Rui ended his dazed state and looked at the opposite Tony seriously.

"Yeah, there was only one, did you see it?" Thor answered with excitement when he heard Lin Rui's question.

"Uh... if it was that time and only one Bifrost had appeared then I think I knew who came over." Lin Rui said with a weird look on his face in the face of Thor's question.

"You know? Who is it!? Was it Loki? Did he threaten you again?" Thor was even more excited when he heard Lin Rui's words.

Last time, Loki came to Earth to mock him for his situation, and he also caused the break-up between him and Jane and threatened Lin Rui, so this time Thor naturally thought that Loki had come again.

"If it is Loki then you should not be afraid, I would quickly regain my powers and hammer. When the time comes, I will go back to Asgard and teach him about the manners in which a brother should act!" Thor also comforted Lin Rui so that he wouldn't be afraid of Loki.

"Uh... it's not Loki, nor any other people from Asgard." Seeing Thor asking several questions in a row, Lin Rui continued to shook his head in embarrassment.

"Not anyone from Asgard? Who is it then?" Lin Rui's answer made Thor confused, who would it be if not someone from Asgard that came out of Bifrost.

Heimdall is in charge of Bifrost and he is Asgard's most loyal fighter, and it is absolutely impossible for him to betray Asgard and the Bifrost was not something that could be used casually, which is why Thor was surprised.

"Me, and two of my friends." Faced with Thor's question, Lin Rui answered with an awkward expression on his face.

## **Chapter 666 Protection**

"Mr. Stark, Peter, I'm leaving now!"

Card!

Seeing the figure disappearing from the door of the laboratory in a flash, Peter, who was still doing the experiment, was a little bewildered. Just now, Peter saw Lin Rui answer the phone, and then he told Tony that there was something at home and directly left.

“Mr. Stark, Jackson, what...” Lin Rui had already left, and Peter looked at Tony and asked curiously.

“I don’t know, maybe he has a girlfriend!” Tony didn’t know why Lin Rui left in a hurry and answered casually.

Anyway, these experiments are in a series, and it is impossible to get them all done in a short time. Even if Lin Rui leaves, it doesn’t matter much.

The big deal is to let him do more in the future. And now Lin Rui has finally recovered from his injuries and Tony can safely let him out. Otherwise, Tony wouldn’t let Lin Rui leave his sight.

“Girlfriend?! Jackson? No...” Hearing Tony’s answer, Peter muttered as his eyes widened.

“What are you whispering? If you finish the experiment in your hand then you can also go home, little spider.” Without hearing Peter whispering, Tony looked at him and reminded him.

“Forget it, I need to finish this as soon as possible, I want to go home too!” Of course, Peter, who hasn’t been home for two days, also wants to go home early, so he continues to do what he was doing. However, Peter is also thinking about Lin Rui’s possible girlfriend.

Boom~ Boom~ Boom~

While Peter and Tony continued to do their respective experiments in the underground laboratory, Lin Rui had already rushed out of Tony’s private garage in a Sports Car.

To go home, Lin Rui, who has already recovered will not transform into Mirage Knight and fly back. Driving Tony’s Iron Man Armor is certainly not appropriate, so driving a Sports car back is the fastest and low-key method.

Just now, after Lin Rui told Thor on the phone that Bifrost appeared two days ago because of him, Thor urged Lin Rui to come home and talk to him face to face.

After all, Thor has been banished to Earth for some time now and has missed Asgard for most of this time, except for the time when he was in a relationship with Jane Foster. So, after learning that Lin Rui had been to Asgard, Thor asked him to come back and make it clear.

Lin Rui, however, only transferred to Asgard for a while but did not see anything substantial from Asgard at all.

However, he didn’t want to stay in the lab with Tony and their experiments all the time, so he took advantage of this phone call from his father and asked Tony for leave to go home.

Anyway, Tony has a lot on his plate right now, and he wouldn’t pay any attention to this matter.

Huhu~

Driving Tony's luxury sports car on the beach highway, Lin Rui even opened the car shed to let the wind blow his hair up. Driving a sports car across the ground has a different feel than riding a hoverboard, or driving an Iron Man Armor or flying with his power. At least, Lin Rui feels good.

After all, Lin Rui used to be in battle whether he was flying on a Hoverboard, or driving an Iron Man Armor, or flying by himself. He was always on the way to battle, and there was no time to relax and appreciate the surrounding scenery.

But now sitting in a sports car with JARVIS to help with intelligent driving, Lin Rui can enjoy it easily for a while.

"Jarvis, it's a beautiful day!" With the lush woods on one side and the waves of the sea on the other, Lin Rui's mood has never been more relaxed.

"The current temperature outside is 26.7 degrees, the humidity is at 50 percent, and the weather is sunny with a little cloud cover, which is very nice indeed. "Hearing Lin Rui's words, Jarvis's voice came from the car.

Lin Rui: "...JARVIS, you don't need to be so formal."

"Okay, Mr. Jackson." Upon hearing Lin Rui's words, JARVIS replied calmly.

Lin Rui: "..."

Brush!

"Jarvis, say... The earth is so beautiful, why would anyone want to damage or even destroy it for their own selfish purposes?" The car runs out of the woods and Lin Rui can see the boundless sea in front of him and an idea suddenly came into his mind.

After Lin Rui asked the question, Jarvis did not respond as quickly as before. At this moment, Jarvis seemed to be seriously thinking about Lin Rui's question, while Lin Rui, who was looking at the sea in front of him, did not pay attention to Jarvis's thinking and just silently looked at the beautiful scenery of the earth.

"Mr. Jackson, people are complicated, and right now I don't know how to answer your question. But isn't all you have been doing is Guarding? Protecting your family, Protecting your friends, even protecting the earth. I think that no matter how many people in the world have bad intentions toward Earth, I believe that you and others like you will always be true to your faith in protecting this wonderful planet." Finally, after thinking about it for a dozen seconds, Jarvis replied in a slightly altered tone.

Huhu~

Hearing JARVIS's answer and feeling the breeze blowing on his face, Lin Rui's eyes slowly changed from sloppy to firm.

"Yes ~ even if you have been evolving, but how can you understand the complexity of human nature so quickly? But, as you said, no matter who wants to destroy this wonderful planet, they are my enemy! Guarding, that's what I should be fighting for!" At the same time when Lin Rui's eyes changed, he also spoke. And, by the end of the sentence, Lin Rui almost shouted recklessly.

“Jarvis, can you go any faster?” “Lin Rui asks Jarvis after he screamed and pressed the accelerator to the bottom, noticing that the car’s speed has not increased.

“As you wish, Mr. Jackson.”

Boom~Boom!

Brush!

The next moment, a light blue flame sprayed out from the rear end of the sports car. Then, the sports car driven by Lin Rui turned into a flash of silver lightning on the road at a speed close to the speed of sound.

...

Just when Lin Rui stayed in Tony’s laboratory for two days and went home because of a call from Thor. In the X-Men’s base camp, Professor Charles finally saw an unexpected guest: Magneto.

Da Da~

Stopping at the gate of X-Academy, Magneto looked at the school that had gone through many ups and downs.

Back then, this school was specially set up for young Mutants and it was built by Magneto and Professor Charles together. Now, Magneto is finally back here again even if he is here for different reasons.

Standing at the door for a while, Magneto slowly raised his hand and the closed iron door slowly opened.

Huh~

In the next moment, after almost a decade, Magneto finally stepped into this school again.

### **Chapter 667 Visit**

Da Da~

Walking on the lawn of the X-Academy, Magneto wearing simple casual clothes did not attract anyone’s attention.

Although Magneto’s name is quite famous among Mutants, there are very few real people who have seen his face. And today Erik didn’t come here to cause any trouble, the aura on his body was very peaceful and he looked like an ordinary old man.

Huh~

“Huh? Grandpa, what can I do for you?” Just when Magneto walked to the side of a small football field, a teenager suddenly approached him and curiously asked.

There are very few elderly people in the X-Academy, because this school is specially set up for young Mutants, and the teachers are also young Mutants.

Except for Professor Charles who is an old man, there really are no other old people here. Therefore, this child is a little curious about the strange old man who appeared in the school.

"Haha, it's nothing, I am just here for a visit," Magneto said with a smile as he looked at the kid in front of him.

"Would you like to visit our school? I can show you around because we don't have many outsiders in our school, so you may not be familiar with some places." Hearing what Magneto said, the little boy continued.

"No, I know your school very well. After all, I helped build it." Magneto said with a twinkle in his eyes when he heard the little boy's words.

The little boy's eyes almost popped out when he heard Magneto's words. He helped build the school, so he must be Professor Charles's friend. Moreover, the longer he watched Magneto, the more he realized that there was something familiar about the old man.

"Grandpa, have I seen you before?" So, the little boy continued while keeping an eye on Magneto.

"Oh, I don't think so. I haven't been back here for more than ten years and I just came back to see my old friend." Magneto replied with a smile after he heard the kid's words.

"No, I must have seen you! Where is it? Where is it? ... Ah! Are you..." Magneto's answer did not dispel the little boy's doubts, and he thought about it carefully with a frown. After thinking for a few seconds, he suddenly looked up into Magneto's face and cried out in surprise.

"SHH ~..." Seeing that the kid realized who he was, Magneto made a silent gesture and told him to keep quiet.

Call!

"Um!~..." Seeing Magneto's gesture, the Little Kid slammed his hand on his mouth. After years of hearing about Magneto, the little boy was very afraid of him. He was afraid that if he did not listen, this kind looking grandfather would wave his hand and kill him.

"Erik, you haven't been back in years and you tease a little kid as soon as you come back home?" Just as Magneto was talking to the boy, a soft voice came from behind him.

"Professor Charles! Upon hearing the sound, the kid yelled out and passed Magneto and ran straight to Charles who appeared at some point behind him.

Huh~

"Hello, Charles." Hearing the sound behind him, Magneto slowly turned around and spoke to the bald old man in the wheelchair.

"Hello, Erik." Professor Charles also greeted Erik from his wheelchair.

...

Da Da~

A few minutes later, Erik and Professor Charles “Walked” side by side through the inner corridors of the X-Men base under the X-Academy for the Young and Talented. A nostalgic look flickered in Erik’s eyes as he walked down the familiar corridor.

“It’s still the same as before.” Finally, Erik spoke slightly after turning a corner.

“Yes, the outside appearance has hardly changed, but the inside has changed a lot.” Professor calmly Charles said after he heard Eric’s words.

The X-Academy was built out of a converted estate owned by Professor Charles’s family. It was built decades ago when Professor Charles and Magneto formed the original X-Men to fight the Hellfire Mutants club. After the First World War, Erik and Professor Charles went their separate ways, and Erik hardly ever returned.

Over the years, the estate has survived many disasters and has been nearly destroyed several times. As Magneto just said, it’s the same as it was before, but the interior has been optimized for decades with a lot more stuff.

“I’m here this time, don’t you want to show me what’s changed? Charles.” Erik continued with a twinkle in his eyes.

“Yes, just like the house. It looks the same on the outside, but it has changed a great deal on the inside. It’s the same with X-Men. It’s not the same anymore.” Professor Charles replied in a deep tone after taking a look at Erik.

With that, Charles looks ahead. They’re at the door of a secret room. As Charles looks ahead, two beams of light shoot out from the center of the chamber door and stop right where Charles’s eyes are.

Brush~

“Welcome, Professor Charles.” After confirming the identity, an intelligent voice came out.

Card~

Then, the door in front of them automatically opened from the middle. Professor Charles controlled the wheelchair and entered slowly while Erik followed in without hesitation.

Kakaka~

Da Da~

After following Professor Charles into the secret room, Magneto showed a slightly surprised expression because of the scene in front of him. The entire secret room is very large.

The silver-white walls and floor make this secret room look rich in technology, and the modern machines placed in various positions make this secret room look extraordinarily Sci-Fi.

There are not many people in this secret room, about seven or eight. Except for the blue-haired beast, the others are obviously scientific researchers who are not very capable of mutation. At this time, they were walking back and forth around the machines, doing some operations that Magneto couldn’t understand.

There were not many people in the secret room, perhaps seven or eight. Except for the blue-haired beast, the others are obviously scientific researchers who don't have a fighting-based mutation.

At the same time, they were walking around the machines, doing things that Magneto couldn't understand.

"They...Charles, what are you doing? Where are the X-Men?" Erik asked suspiciously as he looked at these people who obviously didn't have much combat power.

## **Chapter 668 Change**

When Professor Charles heard Erik's words, he did not answer immediately. Instead, he continued on his way, with Erik following him. Professor Charles came to a slow halt in the middle of the vast secret room.

"They are X-Men's logistics department. As for the other X-Men, some are on vacation and some are still executing their missions." With a brief glance around, Professor Charles answered Erik's question lightly.

"Logistics? What do they do? Are you also working on a particular gene for Mutants?" When he heard Professor Charles's answer, Erik asked seriously with some anger in his eye.

Because of his childhood experience, Erik resented the practice of studying Mutants genes.

In Erik's opinion, Mutants are more advanced than the average person, they are better than the average person, and their genes are perfect, and if anyone wants to study the Mutants, then in Erik's view, it's either to beat them or to use them.

"Of course the logistics department is there to deal with all kinds of logistics because the X-Men don't have the time to deal with stuff like their weapons and equipment. "When questioned by Magneto, Professor Charles replies in a calm voice.

"As for whether I have studied the Mutants gene, what do you think?" Of course, at the back, Professor Charles looked at Erik and asked.

Charles certainly knew that Erik didn't like the idea of ??others studying the Mutants' genes, but the Mutants wanted to improve, and figuring out their particular genes would be very helpful in that.

Mutants with higher grade Mutations are more stable because of their genetically stable mutation, and they usually live their life similar to people.

But Mutants with a low-level mutation not only cannot control their abilities but their mutation may also bring difficulties to their lives. Therefore, studying the genes of Mutants can bring better help to these low-level Mutants.

What Professor Charles always wanted to do was not to let Mutants dominate the world, what he wanted to do was to let Mutants be able to live a normal life as most ordinary people do now.

And all Magneto needs is strong Mutants, in his view as long as Mutants are strong enough to unify the Earth, then all the problems about Mutants will be solved. But that's not going to happen.

“Equipment? You mean those things?” Not caring about Charles’s flat tone, Erik asked while pointing to a half-finished set of battle suits on a nearby workbench.

On the workbench that Erik pointed to, a black suit with dark silver lines as the main body was undergoing various tests. Obviously, this suit is the equipment of the X-Men.

“These are only a part of it. We are always improving. Through our cooperation with other forces in the world, we are also constantly developing. Otherwise, how do you think your Mutant Brotherhood lost so easily?” Seeing that Erik noticed the battle suit, Charles replied faintly while not forgetting to remind Erik that his Mutant Brotherhood members were in his hands at the end of the answer.

“Humph! So what if they lost? Everything is alright as long as I don’t lose!” Hearing Charles’ words, Magneto said with a cold snort.

However, although Erik still maintains his power as the leader of the Mutant Brotherhood, his heart has become unstable since just now.

From his previous battles in Washington to his choice to see these changes within the X-Men, Erik felt deeply that the Mutant Brotherhood was no match for the X-Men. In fact, if it weren’t for him being in the Mutant Brotherhood, it would be nothing more than a speck of dust in front of the X-Men.

“Indeed, you haven’t lost. But that’s only temporary, Erik. How many more years can you last?” Charles continued without denying Magneto’s words.

Charles has always cared for his old friend. However, the world is not something that they can stir at will.

Whether it is Magneto or Professor Charles, they are already old and their abilities have slowly begun to decline. What is the future of the Mutants on Earth as their backbone fades away?

“At least not less than you! Charles!” Hearing Charles’ question, Erik answered with a bright look in his eyes.

Seemingly knowing that it was impossible to convince Magneto with just his words, Professor Charles said nothing more. Then, the two friends continued to stroll casually in this chamber.

Dī Dī Drops~

Just as Charles was leading Erik around this logistical chamber, a red dot suddenly popped up on the screen of the workbench to the side, followed by a beeping sound.

Phew!

After that beep came out, a blue figure suddenly ran from another direction. Without bothering to look at Magneto, Hank was already operating on the workbench.

Da Da Da ~

“Didn’t you just talk about some mission?” Magneto asked Charles after seeing some data that was constantly changing on the screen.

The original intention of the X-Men was to protect the peace-loving Mutants on the earth. For this reason, they would often go out and deal with Mutants in various places, which Erik knew.

And now that the red light spot had appeared, Erik wondered if there were Mutants in that place who needed help.

“There is a mission, but it’s not what you think. Since we now have Allies, there are special emergencies that the X-Men can turn over to reliable Allies if we are too late.” Charles responds faintly to Erik’s question.

But Erik didn’t notice. The red blips that Professor Charles saw on the screen were special glints of light in his eyes, which clearly means that this is not a normal mission cue.

“All right, Charles, I know what you’re going to do. I’ve seen the changes in the X-Men. Would you be satisfied if I told you I was surprised by your changes?” Erik asked as he looked away from the light screen and looked at Charles.

“Was it an accident or was it a nice change?” “Charles asked earnestly while staring into Erik’s eyes.

Erik: “...”

“Let’s go out. There are other places I can show you. After all these years, you should have forgotten many places.” Knowing that Magneto wouldn’t answer, Professor Charles took control of the wheelchair and headed outside.

### **Chapter 669 Bringing To Light**

A few minutes later, Magneto has followed Professor Charles out of the X-Men Logistics room and back into the corridor.

However, at this time, Magneto was not as indifferent as to when he had first arrived. After he saw the X-Men change, Erik had a lot of ideas in his mind. But first, he wanted to accomplish what he had come for in the first place.

“Charles, you know what I came here for and now you have also shown me your so-called changes, shouldn’t you take me to see Pyro and the others?” Magneto said lightly while walking behind Charles.

“Of course I knew you had come to take them back, but don’t worry, they are all right now, and you will see them when you leave. But right now, we have a lot to talk about.” Hearing Erik’s words, Professor Charles calmly replied.

“What else is there to talk about? You know I wouldn’t agree with you so easily, much less join hands with you.” Not sure what else Charles was going to say, Erik stopped and asked.

Huh~

“I do not want your approval of what I am doing, only that facts prove it right. As for whether you are willing to join hands with me, it is not so important to me now. Don’t you see that I have as much strength as your Mutant Brotherhood?” Professor Charles said as moved on without stopping for Erik.

“Charles, I didn’t realize you had so much confidence now!” Erik thought to himself as he watched the familiar figure moving forward and then he also followed him.

“In addition to telling you about the changes and advancements in the X-Men, I have a matter of great interest to you.” Charles continued after Erik caught up with him.

“What is it?” Erik really doesn’t know what Charles has here that would interest him.

“What happened on the battlefield that day may not have been seen by others, but I did see it all.” Faced with Erik’s doubts, Charles said faintly.

Shout!

At this point, the harmonious atmosphere between Magneto and Professor Charles was suddenly broken as a powerful momentum burst out of Magneto. However, facing the sudden explosion of power next to him, Professor Charles continued his journey as if he was unaware of it.

“Charles, what did you see?” Erik asked deeply while staring at Charles.

The battle of the previous two days was full of accidents, but what Magneto was most concerned about was the presence of his childrens: Quicksilver and Scarlet Witch, although they didn’t recognize him as their father yet, Magneto won’t let anyone hurt them again.

That’s why Magneto reacted so badly when Charles said that he saw everything.

“The whole thing, you got hurt in the right arm by that Experimented Mutant...” As Charles answered, he glanced over at Magneto’s right shoulder, which had not yet fully recovered.

“What else?” Magneto asked after unconsciously moving his right arm.

“Also... the two Mutants who rescued you. I think you went to Stryker because of those two Mutants?” Finally, Charles spoke up.

Magneto: “ ...”

Although Magneto didn’t speak when he heard Charles mention the two Mutants who had saved him, Charles can tell from his expression that he’s really upset. Looks like Magneto was really after Stryker two days ago because of Quicksilver and Scarlet Witch.

“What do you want to say about the two young Mutants? Erik.” Seeing Magneto hasn’t said anything, Professor Charles asked again.

“What’s there to say? As you saw that day, they came out of the blue and just saved my life.” Erik responded to Charles’s question without a change in his expression.

“Quicksilver, and... Scarlet Witch, is this their nickname?” Seeing that Erik still wanted to conceal things from him, Professor Charles directly called out their name.

“You..... How do you know that? Did you know that from the beginning?!” Magneto asked him with a sharp light in his eyes as Charles uttered his childrens nicknames.

If Charles knew Erik had a family of children from a long time ago and kept it a secret then Magneto won't forgive him. After all, Erik had lost so much in his early years and he won't forgive his old friend if he was unwilling to give him some goodness in life.

Seeing Erik's sudden change, the corners of Charles' lips curled up slightly, "Do you think I really care that much about your private life? I only learned that you have this pair of children not long ago."

"Then why didn't you tell me?" Magneto knew that Charles didn't need to lie to him so he went on to ask.

"Why would I tell you? So that you could find them? Do you know where they were before? What they have done? I think they left after saving you that day because they didn't want to recognize you as a father, right?" Hearing Erik's words, Charles kept asking rhetorical questions.

"You!... I'm their father and they will recognize me as such sooner or later!" Erik said forcefully when Charles saw through his situation with Quicksilver and Scarlet Witch.

"Forget it, if you keep thinking like this then maybe I should let you slowly go after them." Not caring about Erik's tough attitude, Charles said faintly

"What? Do you know where they are now?" Erik suddenly stopped in front of Charles and asked with excitement.

"Although I don't know their exact location, I know where they probably are. I've been keeping an eye on those two high-mutant twins ever since I knew they were your childrens. However, you don't know what your daughter is capable of, even I cannot pinpoint their location." Charles continued after seeing that Erik has taken the bait.

"Haha! Of course! They are my childrens, how could they be ordinary Mutants?!" Although Charles said that he only has a general location, Erik was happy. To keep Top-Level Mutants like Charles out, Quicksilver and Scarlet Witch are clearly quite strong.

"So, where are they now?" Erik stared at Charles and asked seriously.

However, when Erik finished asking this sentence, Charles looked at him as if he was a fool.

## **Chapter 670 Magic Cube News**

An hour later, a dark-faced Magneto emerged from the X-Academy. Behind him, there are four people following behind him in silence.

Apparently, these four are the same members of the Mutant Brotherhood, including Pyro, who were taken away two days ago by the X-Men. As Charles said, the X-Men didn't do anything to them, and it's just that they looked a little haggard and didn't have any injuries.

"Pyro, what did Professor X talk to the Boss about? Why does he look like that?" As he walked out of the school with his head down, the mutant nicknamed Fortress leaned close to Pyro and asked in a low voice.

Hearing Fortress's words, Pyro didn't even bother to roll his eyes at this stupid question. How the hell should he know what Magneto and Professor Charles talked about? He was also locked in a secret room together with the other?

"Hey! Why aren't you talking?" Fortress asked again as he saw Pyro ignoring him.

Because Fortress's mutant ability is physical, his physical fitness is much stronger than that of Pyro and others, so after being locked up for two days, his situation is better than the others.

However, he doesn't know that Pyro can't even move his mouth at this point, let alone think about such a fruitless question.

Brush!

Just when Pyro was getting annoyed by Fortress's questions, a piece of iron flew from the front, which turned into a metal mask and before he could react, the metal mask had already covered Fortress's face.

"Woo..." His whole face was covered and Fortress whose mouth was sealed hummed helplessly and didn't move.

It seemed that Magneto, who was walking in front, couldn't bear this behavior and directly sealed his mouth.

"Let's just go back! Are you not ashamed enough?" Magneto said in a serious tone as he glanced back at the dejected people.

Then, Magneto and others got into the car of the Mutants Brotherhood at the gate of the X-Academy and quickly disappeared on the road.

As Magneto and his people drove away, a man was watching them from the window on the third floor of the X-Academy.

"Professor, why did you just let them leave like this? Magneto didn't promise you anything." As the man at the window watched Magneto and others drift away, Robert's voice came from behind him.

It was Professor Charles who was sitting by the window watching Magneto and the others leave, and Iceman obviously also knew the purpose of Magneto's coming this time and what Charles had talked with him.

But until Magneto left with the guys from the Mutants Brotherhood, he hadn't shown any definite attitude.

Magneto does not say whether he will be joining forces with the X-Men for the future of all Mutants or changing the Mutants Brotherhood's style.

And Professor Charles has shown a lot of sincerity, at least he finally told Magneto where Quicksilver and Scarlet Witch might be now.

"Robert, there are some things that can't be rushed. I can see that it was hard for Erik to hear me and he now knows that he has childrens so he will definitely change." Hearing Iceman's words, Charles retracted his gaze from the window and said.

"I hope so. Magneto is not necessarily someone who takes his children so seriously." Iceman says helplessly when he heard Professor Charles's words.

"No, I believe in him." Unlike Iceman's disapproval of Magneto, Professor Charles has great confidence in him.

"Right! Professor, Hank said just now that he had discovered the Magic Cube that had mysteriously disappeared!" Without saying more about Magneto, Iceman said with a flash of excitement in his eyes.

"Huh, I already know. Our people found Spatial Fluctuations from the Magic Cube in Siberia, and it is very likely that they will find it this time." Charles' eyes gradually became solemn when he heard Iceman's words.

Iceman and other X-Men only know that Magic Cube is a magical item that can exert Space Energy, but they don't know that the energy actually comes from the Space Infinity Stone. However, an item that can control the aspect of Space is enough to interest everyone.

When SHIELD teamed up with Iron Man, League of Defenders, and X-Men to completely wipe out Hydra, Lin Rui and Red Skull were swallowed by the Space Portal opened by the Magic Cube.

That was the time when the Magic Cube was lost during the space teleportation.

In the days that followed, SHIELD, Tony, and X-Men did not give up looking for the Magic Cube. Now that a few months have passed, there is finally some news of it.

Although they have only discovered some spatial fluctuations, the Magic Cube's Spatial fluctuations are unique. Since there is a discovery, it is very likely that they would find it.

"Then...Professor, should I tell Mirage Knight this news?" Since it is very likely that Magic Cube will be found this time, Iceman asked a somewhat sensitive question.

Although X-Men are now allied with Shield and League of Defenders, there is only one Magic Cube, and whoever gets it will gain everything. Even if Iceman considers Mirage Knight a friend, this is the sort of thing that needs to be asked.

"Robert, the Magic Cube is not as uncomplicated as you think, it's not something we can control alone. So let others know and the very first priority is to find it as soon as possible." Charles laughed when he heard Iceman's words.

The Magic Cube, which is the Space Infinity Stone. According to what Mirage Knight had told them before, this is the treasure in the universe, and the meaning it represents is beyond everyone's imagination.

The appearance of the Magic Cube on the earth is not a good thing, after all, it will attract many unknown threats from the universe.

"Oh, okay!" Although he didn't understand Charles's words, Robert was relieved as he also didn't want to hide it.

"Well, you can go and have a look if you have nothing to do. Well, the environment in Siberia should suit you well."

“Got it, professor!”

...

Huhu~chichi~

In the community where Lin Rui’s home is located, a silver sports car parked steadily outside Lin Rui’s courtyard after several cool drifting. Lin Rui finally arrived home after enjoying the pleasure brought by galloping the car all the way.

“Hey! It’s Jackson!” The silver sports car was so eye-catching that Lin Rui’s neighbor, Mike, saw it and yelled.

“Hi! Uncle Mike!” Lin Rui also smiled and waved hello when he saw Uncle Mike.
