Chapter 81 Crisis Resolution

Ticking ~ Ticking ~ The damp and smelly underground drainage system is very uncomfortable, but Lin Rui and Peter can only endure it for now.

“Mirage Knight, over here!” With special biological instincts, Peter tracked Dr. Connors’ escape through the damp underground passage.

Close behind Peter, Lin Rui was thinking about how to make the antidote work. In the original scenario, the mutant Dr. Connors was exposed to powder or mist-like antidotes before withdrawing from the lizard state. Now that they can’t inject antidotes directly into Dr. Connor’s body, External use should be possible.

“Peter, just crush the antidote and throw it on him when you find that damn lizard!” Lin Rui, thinking of this, quickly told Peter.

“Is direct external contact okay? However, we can try it!” Peter obviously didn’t know if it would work, but that was the only way to save Dr. Connors.

“This way!”

.....

Hoo! Hoo!

In front of Peter and Lin Rui’s pursuit, Dr. Connors, who had just swollen suddenly and was in the process of regeneration, was walking step by step towards his secret laboratory. Every step, Dr. Connors’s mutant body loses some of his lizard shape and the effect of the gene serum is slowly disappearing. If Dr. Connors wants to maintain a strong lizard body, he has to continue injecting himself with more serum.

“They’re holding you back from completing your great plan! Stop you from saving those sinking souls! You’re going to tear them all up! Tear them to shreds!” On the way forward, the voice in Dr. Connors’s mind resounded again.

“Yes! I want to create a perfect world! A world without defects!” In the bewilderment of that voice in his mind, Dr. Connors had a strange yellow light in his eyes, and his pace accelerated again.

“Over there! I’ve sensed him!” Peter, who was chasing Dr. Connors all the way, finally sensed his exact location, shouted and rushed towards the said location.

Lin Rui followed, he had already sensed Dr. Connors’s position. And he seems to be getting stronger now.

When Peter and Lin Rui found Dr. Connors’s secret laboratory, he reinjected the gene serum and was putting the rest of the gene serum in place. He is going to take these serums around the city and let outsiders enjoy the “benefits” of intensified mutation just like him.

“Doctor! Don’t do anything wrong! The cross-species gene serum is a mistake, let’s solve it together!” Instantly standing in front of Dr. Connors, Peter wanted to persuade him to turn around.

“Mistake?! This is not a mistake! This is evolution! Human beings need such evolution!” Dr. Connors, who had already fallen into madness, would no longer listen to any persuasion. He was leaving with a box full of genetic serum on his back.

Seeing that his persuasion has failed, Peter had to use force again. Several spider threads shot out and stuck to Dr. Connors, dragging him away. Meanwhile, Lin Rui has appeared in front of Dr. Connors. The antidote in his hand was crushed instantly, and the blue serum was sprinkled on Lin Rui’s hand.

The next moment, Lin Rui waved his hand which was full of antidotes at Dr. Connors. A large piece of blue liquid flew quickly from Lin Rui’s hand towards the giant lizard. As long as these antidotes worked, Dr. Connors will not be a threat.

Kakaka!

Boom!

However, seeing Lin Rui appear in front of his eyes, Dr. Connors, pulled by spider silk, instantly breaks free from the shackles and dodges the antidote sprayed by Lin Rui with his foot. Now Lin Rui is known to have antidotes in his hands and Dr. Connors is not so foolish as to let them succeed in their plans. Avoiding the antidotes, Dr. Connors turned around and pulled his huge tail.

“Spiderman, I don’t have an antidote anymore! It’s up to you!” Avoiding Dr. Connors’ tail, Lin Rui shouted at Peter.

“Coming!”

Pop!

While saying that, Peter had come flying with the spider thread and the antidote in his hand had already been crushed, He just needs to throw it at Dr. Connors’ huge body.

“Watch this!” Using his flexibility to quickly approach the big lizard that was fleeing, Peter aimed at him and threw the antidote directly at his body.

The lizard’s tail, which was crawling fast over the passage, flicked violently and broke off directly from its root. The broken tail flicked back, blocking all the antidotes. Peter’s antidote sprayed on the truncated tail and soon the mutant lizard tail started to disintegrate and the mutation stopped. External use really worked!

The severed tail grew rapidly, and Dr. Connors once again escaped a crisis. However, because he had been watching Peter behind him, Lin Rui was able to rush towards him without him noticing.

The fist containing the bursting internal energy bombarded Dr. Connors directly. He could not let the lizard escape to the upper ground again to do something.

Faced with Lin Rui’s thumping fist, Dr. Connors waved his claw directly at him. Although Connors knows that the man in front of him is powerful and has a weird power, he has strengthened his power and increased it again.

Boom!

In the next moment, the small fist connected with the huge claw and a shock wave rushed from the intersection of the two, and a gust of wind blew in the underground passage.

Puff!

Feeling the strength of his body, Dr. Connors lifted one foot and kicked Lin Rui in front of him.

"I am perfect!" The guy who was stronger before and was very difficult to deal with can now be easily dealt with, Dr. Connors roared excitedly.

Da ~

Lin Rui, who was kicked out by Dr. Connors, turned over and landed on the ground. He is not going to admit defeat here.

"Lizard, have you forgotten something?" Standing up, Lin Rui raised his right hand and asked the excited Dr. Connors. On his raised hand, a layer of light blue liquid had not yet completely dissipated.

"What?!" Seeing the liquid on Lin Rui's right hand, Dr. Connors's mutant lizard pupil suddenly shrank.

Sneer~

Then a sound of muscle and skin melting came from Dr. Connors's mutant giant lizard claw, which had just matched Lin Rui's fist.

Sneer~

"No! No!~~" Looking at his rapidly shrinking right claw and melting mutated muscles, Dr. Connors shouted unwillingly.

As he retreated, Dr. Connors opened the box containing the mutant serum gene, Using this serum he could keep in a giant lizard state as long as he was injected again.

But just as Dr. Connors was eager to open the box, Peter had rushed behind him. With a wave of his hand, large patches of pale blue antidote had been sprayed on Dr. Connors, who was panicking to open the box. Peter didn't just make two antidotes last night. He made several as insurance.

Sneer~

As another antidote spilled onto him, Dr. Connors's rate of degeneration was instantly accelerated, his right hand had completely shed and disappeared and the grasping gene serum fell to the ground.

Sneer~

"No!~~" Under the action of antidote, Dr. Connors, the mutant, soon recovered to his normal appearance, and he knelt weakly and roared on the ground.

"Doctor, it's all over. It's wrong to use this gene serum. Now there's a chance to go back. Let's work together to develop a perfect gene serum." From the lab, he took an experimental coat and put it on Dr. Connors naked form. Peter squatted down beside him and carefully comforted him.

“Perfect? What is perfect?!” Sitting on the ground, Dr. Connors asked absently. As the body’s mutated genes were neutralized by antidotes, Dr. Connors’s thoughts slowly returned to normal and his tone gradually calmed down.

“Let’s look for it together.” Pulling aside the hood, Peter put his hand in front of Dr. Connors.

“Look for it together? Look for it together!” Looking at Peter’s sincere eyes, Dr. Connors slowly regained his initial passion for finding the perfect therapeutic gene serum.

!

Finally, Dr. Connors put his hand heavily on Peter’s, and Dr. Lizard’s crisis was finally solved.

Lin Rui, who watched all this, was quietly relieved. Although he knew that Dr. Lizard would not pose too many threats in the end, it is a good thing to be able to solve it so smoothly. At this point, however, Lin Rui’s attention was no longer on Dr. Connors, but on the underground passage.

In the battle just now, Lin Rui felt something in the dark. But because his attention has been focused on Dr. Connors, Lin Rui has not found the source of that feeling. Now that the battle is over and Lin Rui is looking for it again, the feeling is even weaker.

Dada~

Walking past Peter and Dr. Connors, Lin Rui walked slowly towards the corner of the underground passage, following his previous feeling.

“Mirage Knight?” Noticing Lin Rui’s movements, Peter, who was holding Dr. Connors on the ground, asked softly. But at this time, Lin Rui was so absorbed in grasping the previous feeling that he didn’t hear Peter’s voice.

Da Da~Slowly approaching the dark corner ahead, Lin Rui has pushed his Intermediate Insight Technique to its limit but he still could not find where that weird feeling came from before.

“Well? Did I imagine things?” Not feeling anything strange, Lin Rui could not help but suspect that he might have imagined things.

Buzz!

However, just before Lin Rui turned around, the Freya Charm he had been wearing on him was suddenly triggered by something, and suddenly a strong fluctuation occurred.

Jump!

Then, in Lin Rui’s astonished eyes, the Freya charm he had been wearing split directly from the middle. At the same time, Lin Rui could not feel any magic on the guardian charm, as if it had become a common handicraft.

“What’s the matter?” Lin Rui’s eyebrows wrinkled as he took the half-broken Freya’s talisman to his hand. As the guardian of magic item was destroyed inexplicably, Lin Rui suddenly had a bad feeling in his heart.

While Lin Rui frowned and wondered what was going on, he did not notice that a dark shadow, which was hard to see with the naked eye, slipped away from the shadow behind him and slowly headed towards Peter and Dr. Connors not far away. Finally, the dark shadow disappeared into Peter's shadow.

.....

Chapter 82 Hidden Quest

Hoo!

"Congratulations to the host for completing a hidden quest: Solving Dr. Lizard Crisis. This quest Reward: 5000 Reward points. The reward has been issued and you can check it carefully." Just after Lin Rui and Peter blocked Dr. Connors' crazy plan, a systematic voice suddenly sounded in his mind when he returned home. He unexpectedly completed a hidden quest.

"Ah! There is such a good thing!?" Lin Rui, who was suddenly given five thousand Reward points, was a bit confused.

"System, what's this hidden quest about? When I helped Tony defeat Obadiah before, I didn't complete any hidden quests? Lin Rui quickly calls the system when he failed to understand the mechanics of the hidden quest.

The system that hasn't appeared for a long time still appears in an instant at the call of Lin Rui and quickly floats to his consciousness.

"Hidden quests are quests that don't appear in the mainline quests, but they will always be there. Quests like those I issued to you before can also be considered as hidden quests." Without much nonsense, the system explained the hidden quest to Lin Rui faintly.

"As for why you finished the hidden quest this time and not the time when you helped Tony, it was because you didn't stop Obadiah last time, you just stunned him at the last moment. The damage caused by and to Obadiah is a foregone conclusion. So, naturally, there is nothing hidden quest." Aiming at Lin Rui's second problem, the system also gives an explanation.

"Oh, that's a good reason. After all, according to the original plot, Obadiah would have been blown up by the Arc Reactor at that time." With a nod, Lin Rui accepted the reason.

"It seems that if I want to get involved in the original plot in the future, it's better to solve it before it happens." Knowing how the hidden quest was accomplished, Lin Rui has made a plan to complete the hidden quest later.

"That idea is good, but you would not get the results you want every time you get involved in the original plot," Hearing Lin Rui's plan, the system gave a light reminder.

"Ohh~ do you mean something unexpected will happen?" Lin Rui's eyebrows jumped when he heard the system's reminder.

Buzz~

"This kind of things can only be understood by you. I can't tell you much. However, if you want to avoid some unexpected situations, you can improve your own strength. As long as you are strong enough,

even if there is something unexpected, it can be under your control and that will be no accident.” The light on the system’s body fluctuates as it answered Lin Rui question.

“OK, I know. After so many things, of course, I know that my own strength is the most important. However, I still envy Tony, those Iron Man Armors are really too good. Systems, can I still choose the path of technological growth?” After answering, Lin Rui also mentioned Tony’s Iron Man Armor and his vision of the road to technological growth.

“Yes! Anyway, it’s your choice.” Originally, Lin Rui had just asked the question casually and he didn’t expect the system to give a positive answer.

“Really!” After hearing the system’s answer, Lin Rui asked again excitedly.

“Of course, as long as you have enough Reward Points to exchange for those technological things, nothing is impossible. Aren’t there some blueprints in your hands for the design of E Grade Aerospace Warship? You can see how many reward points are needed for a complete blueprint design.’ Under Lin Rui’s inquiry, the system reminds him faintly of the blueprints.

Under the system’s reminder, Lin Rui quickly pulled out the complete blueprint of E Grade Aerospace Warship from the System Shop.

“Haha, it’s not very expensive, just 2,000 Reward points. With the original part in my hand, I can buy it at 1500 Reward points.” Seeing the price tag on the blueprint design, Lin Rui who was a little worried, relaxed.

This is an Aerospace warship design, although only at the lowest level, but for the current Earth, It is a technology that is ten years ahead of its peers. As long as Lin Rui has such a Warship in his hand, he will be a boss-level character.

“So, what are you going to build it with? It’s just a blueprint design. If you’re going to exchange directly from the system, I suggest you go and see the exchange price.” Seeing Lin Rui’s excitement, the system calmly reminded him.

“Er! ~ Let me see.” Lin Rui quickly pulled out a complete E Grade Aerospace Warship from the System Shop.

Soon, Lin Rui had a very sci-fi Aerospace warship in his mind, which looked like a shuttle and was dark and silver in color. However, after sweeping the price of the E Grade Sky Warship, Lin Rui fell into a long silence.

.....

Grub! ~

“Five... 50,000 Reward points...!” After swallowing his saliva, Lin Rui slowly reported the price of the warship, a figure he could not afford now.

“It’s not very expensive, I think the System Shop gave you a discount.” When Lin Rui was shocked, the system said quietly on the side.

“Hold on... this is the price after the discount?!” Lin Rui doesn’t want to say anything more for now.

A little refreshed, Lin Rui waved his hands quickly, and he pulled out all the items about technology products in System Shop.

“D-class Aerospace Warship design blueprint full version, worth 3,000 Reward points. A complete D-class Aerospace Warship exchange price: 100,000 Reward points!!”

“Class C..., five thousand Reward points. Complete... 200,000 Reward points!!”

“Class B..., 10,000 Reward points. Complete..., 500,000 Reward points!!!”

“Class A..., 50,000 Reward points. Complete..., One million Reward points!!!!”

“Ah! Why is it so expensive?!!” Just a simple sweep of the price of the Aerospace Warship, Lin Rui was ready to collapse. Moreover, this is just the price of a single Warship. If Lin Rui wants a Warship group, he feels that he can’t finish it in his life.

“What do you think? The last time you converted a laser gun, you spent 800 Reward points. Do you think technology products are so simple?” Seeing Lin Rui, who has been driven mad by these prices, the system said lightly. The laser gun mentioned in the system was the last thing that he used against the Level Four Mutant of the Frankenstein Family. After using it once, Lin Rui put it in the secret base and did not give it to Peter for research.

“This is no way to live! Who can afford these prices?!” Although the price of this ready-made product is certainly not cheap, To Lin Rui, they are still unacceptable.

“Don’t forget, this is the Marvel World. The local tycoon here relies on technology, and the variation is the main theme of this world. Do you think you are Tony Stark?” The system silently reminded Lin Rui. Sometimes it is difficult to get out of the dead-end once you get into the dead end. The system doesn’t want Lin Rui to get into it.

“The local tycoon relies on technology and the Variation is the main theme. Am I Tony Stark? Hey?! I didn’t think of it!” Hearing the obscure reminder of the system, Lin Rui suddenly thought of something.

“What do you think of?” The system asked, pretending not to know.

“Local Tycoon! Although I am not one but Tony is! Although the Reward point required to redeem a full aerospace Warship is too scary, the price of the blueprint is still within the acceptable range. If I redeem the complete blueprint and give it to Tony, with his financial support and his technical mind, it should be possible to make these Warships!” After a systematic reminder, Lin Rui figured it out.

“This is a good idea, but how do you guarantee that Tony won’t leave you alone after getting these blueprints?” the system then asked.

“Oh~ Yes, I don’t seem to have many bargaining chips right now. So, this thing needs to be well thought out.” Lin Rui thinks it seems unrealistic to think so much now. “But, System, did you know about this from long ago?”

“What?”

“Nothing.”

.....

Chapter 83 Blade

“According to our report, the giant lizard monster that appeared in New York a few days ago reappeared in Empire State High School in Queens of this city earlier today...”

According to witnesses at the scene, the lizard destroyed the school and injured many students...”

“By the time Police arrived at the scene and surrounded the school, the lizard monster had already disappeared. Let’s listen to the narrative of the witnesses on the scene.”

“I swear, I have never seen such a large lizard! It is like a dinosaur crossed over from the Jurassic World!!” A clearly frightened student said. It seems that this student has Influenced by crossed over novels.

“I think it has been mutated by radiation, New York’s chemical plants should be further managed!” This is an analysis of an environmental protection student.

“It must be a secret biological weapon of the government, I swear, I heard the lizard talking!” This is the guy who heard Dr. Connors call Peter’s name.

“Well, let’s interview some exciting students here.” Hearing all kinds of speculations about the lizard, the host turned the microphone to several students waving excitedly at one side.

“It’s Spiderman! He defeated the evil giant lizard!”

“And Mirage Knight! Mirage Knight and Spiderman teamed up! They both dealt with the big lizard!”

“Spiderman!Spiderman!”

“Mirage Knight! Mirage Knight!”

When the host handed the microphone over here, the students who had the privilege of seeing Peter and Lin Rui shouted enthusiastically in front of the camera. They look like Spiderman and Mirage Knight fans and no one knows where they were hiding during the battle.

“Oh... it seems that these are the fans of Spiderman and Mirage Knight. But is it true that the two New York Vigilante defeated the big lizard to save the people in the school?” The host didn’t expect a few of them to explode with such excitement. With such news, the host quickly took the microphone back and said.

.....

“Oh, these guys are really not afraid of death.” Lin Rui, who was watching the news on TV at home, laughed when he heard his classmates’fanaticism. He didn’t have time to pay attention to anyone beside him during the battle.

Buzz ~Buzz~

Just as Lin Rui watched the news on the TV, his cell phone on the table suddenly vibrated.

“Hey?”

“Well? Is there any news?”

“Okay, I’ll be right there!”

Lin Rui, who received the call, simply said a few words to the person at the other end of the line and hung up. Then Lin Rui picked up his backpack and rushed out of the room. Because today Dr. Connors went to Lin Rui School and caused such a big scene not to mention the damage. Their school had to take at least a few days off to redecorate. It just gave Lin Rui enough time to do his own thing.

.....

Half an hour later, Lin Rui, who hurried out, had arrived at their secret base. Here, Matt and Jack, whom he had not seen for several days were waiting.

What about Spiderman? You haven’t been hanging out lately?” Seeing Lin Rui coming alone, Jack suddenly asked.

“He has something to do. He’ll come when he’s done.” Going to his sofa and sitting down, Lin Rui explains briefly. Peter is now taking care of Dr. Connors, who has not yet fully recovered from the aftereffects of the gene serum and he will not be able to make it for a while. “Let’s start with your recent discoveries, and we will call Spiderman when it’s time to act.”

“Well, with Daredevil’s help, I managed to take complete control of Frankenstein Family, who had lost their leader and eradicate many of the family’s opponents. So these days we’ve been using Frankenstein Family’s channels to find information about Wilson’s forces and the Vampires. Finally, we got some important news.” With a nod, Jack began to tell Lin Rui about their recent achievements. When it comes to Daredevil’s help to Jack, his lawyer status has helped a lot.

“Well? What’s the important news? You didn’t say anything on the phone.” When he heard Jack, Lin Rui sat up straight on the sofa and asked seriously.

“It turns out that Wilson, whom you’ve been dealing with, is also doing business with the Vampires. Frankenstein Family and Vampire have worked together for more than 20 years, but Wilson’s gangsters don’t know how long they have worked with them. One of the last human trafficking deals you cracked down on should be between them and the Vampire forces, and one of the Vampires might be the one who attacks you secretly.” Soon Jack broke a piece of big news.

“Kingpin and Vampire are also doing business. This guy really does do everything!” Lin Rui had to sigh at Jack’s words.

“And after the last Vampire and Frankenstein Family deal was destroyed by you and the police, Wilson’s power seems to have been completely hidden, and for the time being nothing has been revealed. But there seems to be a big move on Vampire’s side, and the New York police are also secretly deploying their forces to guard against those foolish Vampires.” Jack kept revealing one news after another.

“New York police? Do they know that they are dealing with Vampires? Or are they just being used by the guys in Congress.” Hearing, Lin Rui suddenly interjected.

“I don’t think they know. They think they’re dealing with illegal Mafia families.” Shaking his head, Matt answered Lin Rui.

"I know that the guys in Congress won't announce this situation. They should also want to use the pressure of the police to make Vampires buy blood from them just like before. But they don't know that Vampires can't be satisfied with that now, Otherwise, they won't be able to form a business relationship with the Wilson and the Frankenstein Family for so many years." Frowning tightly, Lin Rui felt that this matter will likely to develop outside of their control.

"Yes, we also feel that this time Congress underestimated Vampire's determination to break away from their control and emerge completely in the eyes of ordinary people. So we're also looking for help from professionals, and we've got another piece of information." Jack apparently thought about it too, so they would be prepared in advance.

"Hmm? Professional? Who?" Lin Rui asked curiously as he heard Jack's word.

"Blade, a very powerful vampire hunter. He has been fighting Vampires his entire life and he is the number one enemy of Vampires."

"Oh, I remembered, it seems like there is such a person!" At the reminder of Jack, Lin Rui finally remembered the half-Vampire Half-human Vampire hunter. Although Lin Rui has watched the Blade series in his previous life, He had long forgotten the main plot and some characters of the movie. He only knows that this Blade is a very powerful Vampire hunter.

"Now that Vampires are on the verge of rioting, it is necessary to seek the help of professionals. So we found Blade, but he's not in very good condition now."

"What happened to him?" Since Blade is also a protagonist, he should not be dead or disabled.

"He was arrested by the police in Buffalo on charges of murder. However, we have investigated that this time he was caught in a trap that Vampires set against him. A guy pretended to be Vampire and was finally killed by Blade. On the other side, Vampires secretly recorded this kill and reported it to the police." Jack spoke of the news he had just heard.

"Why is every situation have to be so troublesome. So what do we do now, are we going to rob the prison?" First, he cursed his unluckiness and then he asked an important question.

"Looks like we have to. If we want to deal with Vampires, Blade's help is a must. And since Vampires designed for Blade to be caught, then he may not be safe with the police." Nodded, Jack affirmed the jailbreak plan.

"Ahh! It's really troublesome! Let's rob this prisoner! I don't want to leave any evidence. I don't want the police to think that we the Vigilantes are bad guys!" Lin Rui finally agreed to Jack's plan.

"Okay, so now we have to make a quick plan."

Then Lin Rui and others started planning their jailbreak inside the secret base. While Lin Rui was thinking about jailbreaking to save Blade, several Vampire hunters were also planning to rescue Blade from a secret organization in Buffalo.

.....

chapter 84 Rescue

At a police station in Buffalo, a disarmed Blade sat silently in the interrogation room. As a half-life struggler with Vampire, or a half-human and half-vampire hybrid, Blade's mission in life is to eradicate Vampires from the world. And this time he was framed by Vampire's design, Blade paid the price for his mistake as well as his resentment. Of course, he won't feel guilty about that ghost race.

So, faced with several FBI units surrounding him. Blade, who had a chance to escape, chose to surrender. He didn't want to fight against the ordinary police and didn't want them to get involved in his matter. Moreover, Even if he spoke the truth, no one would believe him. But he hasn't thought of a way out yet, and Blade, who has always liked to fight alone, has no backup. Especially after Whistler, his mentor died in a shootout with the FBI, Blade was really alone.

Bang!

Just after Blade sat in the interrogation room for most of the day, the closed door was pushed open and a uniformed beauty came in. Needless to say, the uniformed beauty was Vampire disguised as a policeman, who came to solve the big threat named Blade.

"Your plan was good." Looking at Vampire coming in, Blade said with a flat look.

"Blade, we could only deal with you in this way. You threaten us too much, but you won't be able to threaten us anymore." Moving silently to Blade, the woman Vampire leaned over the table and whispered.

"What? Did you not feel threatened until today? The corners of his mouth pulled out a smile and Blade mocked.

After years of fighting against Vampires, Blade, with his great strength and knowledge of Vampires, has put considerable pressure on the entire Vampire community. Especially now the Vampires are facing a huge turning point. They can't let Blade mess it.

One of them lifted Blade from the chair as the woman Vampire didn't want to talk any more nonsense. Her sharp teeth came out of her mouth, and the woman Vampire would bite Blade's neck the next moment.

Bang!

Rumble!

At this time, the police station gate that had been occupied by Vampire was suddenly blown up, and several figures quickly rushed in. boom! The next second, the interrogation room with Blade and the female Vampire in it was blasted open.

Puff!

"Ah ~" an arrow shot directly from the outside onto the woman Vampire who was shocked by the explosion and screamed. She turned into a cloud of ash directly in front of Blade's eyes.

Blade, who was still preparing to fight at the last minute, didn't seem to think that there would be such a change. He looked outside of the broken interrogation room silently, but he didn't have many worries in his eyes. Judging from the death of the female Vampire, the one who did it wouldn't be here to kill him and should be a Vampire Hunter like him, although he does not know any other vampire hunter.

Just as Blade was standing quietly in the corner, a figure appeared instantly beside him, a guy covered in a dark gray suit and mask. The next moment, the gray man's hand flashed over the chain on the Blade's hand and foot and they were broken.

Moving his hands and feet, Blade looked quietly at the fellow in front of him. He had never met a Vampire Hunter except him. Just as Blade was ready to ask who the man who had saved him was, several people rushed in from outside, headed by a somewhat handsome man.

"Who are you?" This is the question of the handsome man who rushed in.

"Who are you?" This is Blade.

"Wade?! What are you doing here?!" This is a confused Lin Rui.

.....

There was no perfect room in the nearly destroyed police station. Vampires, who had infiltrated the police station, was completely killed. Innocent police officers have fainted. The protagonists who caused the incident gathered in the interrogation room where the door was blown open. After the initial infatuated silence, everyone began to look at each other. The people in the interrogation room were clearly divided into three forces: Blade was apparently on one side; the unseen man who freed Blade was on the other, and then the heavily armed men who rushed in behind him were on the other.

"Wade? Who is that?"

"You are not together?"

"You are not Wade?"

After looking at each other, Blade, Lin Rui, and the fellow with the strange weapon in his hand asked again at the same time.

.....

"Well, let's sort it out. First of all, I'm Mirage Knight. I'm here to save Blade. I've heard that Vampires has recently made a big move, and Blade is in danger again. So I'm here to save you, and I want to deal with Vampire with you." Seeing how confused the scene was, Lin Rui quickly waved his hand and said. He had to make it clear why he was here and put aside the guy who looked like Wade. The first sentence is directed at "Wade" and the last one is directed at Blade.

"We are the Nightwalker team, specializing in hunting Vampires. We also came to save Blade. We got the news that Vampire's ancestor Dracula has been resurrected. We need the strongest Vampire hunter to join us in fighting him." After listening to Lin Rui, a woman who came with Wade Wilson lookalike explained why they were here.

Originally, they were a Vampire Hunter team that came to rescue Blade. However, they brought bad news with them. Dracula, the most powerful Vampire is resurrected, which was a great threat to the Vampire hunters, and good news for the Vampires. It seems that under the threat of Congress, Blade and some other forces, the Vampires have really been pushed to a certain level.

“Since you are all here to save me, I don’t need to introduce myself even if I want to. Well, I think we can find a place to have a good chat now.” Standing in the middle of Lin Rui and the Vampire Hunter Team, Blade calmly said.

“I think so too.” With a nod, Lin Rui agreed with Blade. After all, this is a police station. Maybe it’ll be surrounded by a lot of guys with weapons in a few minutes.

“Well, we’re not far from here. Let’s go to our place.” “Wade,” the handsome man who led the Vampire hunter, agreed with Blade and suggested that they go to the site of their team for discussion.

“I don’t really care about the location.” Blade said it indifferently. The only mentor he cared about in the world was dead, and his own base was exposed. It was just right to go to the Vampire Hunter Team base.

“I can, too, but I have two companions. Daredevil, Jack, come out.” Lin Rui also agreed with Hannibal’s suggestion, then shouted outside the door.

Then, in front of the amazed eyes of Blade and the Vampire Hunter team, Daredevil and Jack suddenly appeared beside Lin Rui. They’ve been following Lin Rui all the time, but they didn’t show up. It’s hard to find Daredevil, who is good at controlling his own breath when he hides, and Jack, a professional killer, of course, has his own set of concealment techniques.

“Let’s go now.” Noticing the surprise on Blade and “Wade” faces, Lin Rui reminded them faintly.

“Ohh, let’s go!” Suppressing his doubts, “Wade” led his team out the police station.

Then, the group of people who had made a big scene in the police station went out of the police station, leaving ash and the policemen who were innocently stunned on the ground.

.....

chapter 85 Dracula

Everyone quietly followed the Nightwalkers to their secret residence, It was different from what Lin Rui had expected. Their residence is actually a luxurious villa building, which is not too tall and visible compared with Lin Rui’s underground bunker!

“How do you bankroll this operation?” Walking on the solid wooden stairs of the villa, Blade asked a question that Lin Rui was also concerned about. Although Lin Rui is satisfied with their own base, the living environment here is obviously much better.

“I date a lot of older men!” Hannibal King, who walks beside Lin Rui, answered. The Nightwalker Team on the road has introduced itself. He’s not really Wade Wilson, but a real Vampire hunter: Hannibal King. Although he and Wade have the same handsome face and the same personality.

Lin Rui, Matt, Jack: “...”

Blade: “...”

Although Hannibal King’s answer should be a joke, with his face and body, he could get very rich by doing that if he wants to.

.....

Soon, Hannibal King took Lin Rui and others with him to the interior of their base and there they met with the rest of their team. It turned out that they were not the only Vampire hunters in charge of the battle, but they also have weapons experts and ultimate solution scientists as their backup technical forces.

Introducing the rest of the Nightwalker team, Abigail picked up an oddly-shaped metal product from the table. In front of Lin Rui's doubtful eyes, that ordinary metal piece suddenly began to change into something. The original short ends were rapidly extended, forming two curved angles, and the middle was also contracted and concave. Soon, a metal bow without strings appeared in Abigail's hands.

"..." Lin Rui looked at the metal bow with a little confusion marrying on his face.

Abigail held the metal bow, and Hannibal waited for Blade and Lin Rui to ask about its origin. However, what disappoints them is that neither Blade nor Lin Rui has any intentions to ask them anything, which is very embarrassing.

Buzz!

Apparently unable to stand the silence, Abigail moved her hand slightly with the metal bow in it. Then, a purple beam was instantly emitted from the two corners of the metal bow and finally converged into a bowstring in the middle.

.....

"The light beam in the middle is high-intensity polymerized ultraviolet light, which has a direct killing effect on Vampires." In order not to continue the cold field, Abigail had to explain.

"Oh! Its really is quite powerful! So these kinds of weapons are required to kill them. It's no wonder that the Vampire that I fought against before was cut by my sword and bombed by a missile and he shrugged it off." With the Vampire killing equipment in front of him, Lin Rui finally understood something.

In fact, the last time Lin Rui met Housley on Frankenstein Family's estate, he belonged to the Vampire elders. Ultraviolet weapons were not so lethal to him unless he was exposed to high-intensity ultraviolet radiation for a long time.

"Aren't you Vampire hunters? Don't you even know these kinds of stuff?" Recovering the metal bow, Abigail asked curiously.

"Vampire hunter? Of course, we are not. We only know that there are creatures like Vampires." After hearing Abigail, Lin Rui shook his head and replied. Of course, he is referring to him and Matt, Jack has known about Vampire before.

"But since we are already involved in this matter, we are certainly going to solve the problem named Vampire. Otherwise, they will bring great danger to the lives of ordinary people." Lin Rui continued.

"Then we have the same goal. However, since you have decided to eliminate Vampire, you must always know what methods can be used to kill them completely. Abigail nodded when she heard Lin Rui's words. Their battle with Vampires was at its most critical moment. It would certainly be best for them to have someone as strong as Lin Rui.

“Of course, I think we will learn very quickly.” Glancing at the equipment library of the Nightwalker squad, Lin Rui promised.

“Well, I’ll talk about the common sense of popular science Vampire later. You said in the police station that the most powerful of Vampire was resurrected. What’s that about?” As soon as Lin Rui and Abigail finished, Blade began to ask.

“Ok, we’re going to talk about that.” With a wave, Hannibal King took Blade to another room.

“We received news a few days ago that the Vampire family has awakened Dracula, a Vampire who has been sleeping for thousands of years. He is a very powerful Vampire and the weapon against those that Vampires can’t deal with at all. I think his awakening should be related to the recent great movements of the Vampires. Under the leadership of their Master Vampire, they will begin to occupy the world.” As he walked, Hannibal King shared with Lin Rui the information his team had received.

“Since this Vampire master is so powerful, how can we kill him?” This time it was Jack beside Lin Rui who asked the question.

“Although the general weapons are useless against him but everything has a solution, we have developed a solution that can kill Dracula. And, as long as this solution is injected into Dracula, the dissolved powder will destroy all the Vampire in the world.” Bringing Lin Rui to a room next door, Hannibal King said very proudly.

“So this Dracula is still the lifeblood of the entire Vampire race?!” Lin Rui was amused to hear Hannibal King’s words.

What ancestral Vampire has such a fatal weakness, If you die alone then you will take the entire race with you. Lin Rui did not ask Hannibal King how they knew that Dracula had been resurrected, nor how they could make such a solvent that would destroy the entire Vampire race. Anyway, this thing itself should be set inside, and Lin Rui is too lazy to ask.

~

“This is the ultimate weapon that can kill Dracula and then destroy the entire Vampire race.” Picking up a small glass bottle with a green solution from the table, Abigail introduced it to them.

“Ok, That is all good and well. But, do you have any plans? About dealing with this Dracula, do you know where he is?” Already knowing the situation of Vampires, Blade then asked. He has no other goals and he is currently thinking about completely destroying Vampire in this world.

“We have been tracking a familiar, they have been doing things for Vampire, and it should lead us to a breakthrough from here.” Putting the ultimate weapon down, Abigail continued.

“What are we waiting for?” Now that there’s a clue and hope to wipe out the vampires, Blade won’t waste any more time.

Turning around, Blade was heading for the former arsenal room. His weapons were gone by the time he was captured, and now he is going to take them from the Nightwalker Team.

“Of course we won’t waste our time. Isn’t that an analysis of the situation for you?” Following Blade back to the arsenal, Hannibal King said lightly.

Ignoring Hannibal King's whispers, Blade quickly armed himself. The chance to wipe out Vampire is at hand, and he won't wait another second. Even if that ultimate solution would destroy all Vampire including himself, he would not hesitate to kill Dracula. As a semi-Vampire Blade, he may also be affected by the ultimate solution.

"Well, we also need some equipment. Would you mind recommending it for us?" Seeing Blade skillfully arming himself, Lin Rui, who was hanging aside, suddenly spoke. Now that he knows his weapons can't deal with Vampire, Lin Rui, of course, wants the Nightwalker Team to give him some help.

"Well, come on. Let me tell you which weapons are suitable for you, and what are you good at using?" Hearing Lin Rui's words, Abigail took them to a row of arms racks and asked.

"The three of us are close combat fighters..."

In this way, Lin Rui's team and Blade's Nightwalker squad are rapidly arming themselves, and y will be dealing with the strongest Vampire.

And

They will be able to solve the problem named Vampires forever.

.....

Chapter 86 Confronting The Vampire Ancestor

Kaka!

Checking the silver bullets that he had just received and putting the silver short knives at his waist. Jack is ready. As for Lin Rui and Matt, they are equipped with a suitable silver long blade. Lin Rui has some smaller flying knives. He still doesn't like to use a gun.

"Mirage Knight, can Spiderman still be here?" The Vampire hunters were on their way but Peter still hasn't shown up so Daredevil had to ask Lin Rui. They need to pool all available resources to deal with various vampires and a big threat like Dracula.

"Well, he's already set out. But now he's stuck on the road and will only be able to arrive at night." Lin Rui also felt a little helpless, but Peter had tried to catch up.

"We don't have to wait for that little spider, we can solve this on our own," Jack answered while quickly waving the short knife in his hand.

"Don't worry, he'll show up." Of course, Lin Rui will not wait for Peter here, Spiderman will naturally appear where they are going.

Crack!

"OK! The goal of this operation is Dracula, the ancestor of Vampires. He is not your regular type Vampire. We don't know what his abilities are yet, so we need to pay more attention to him." Hannibal King stood in the middle of the room and clapped his hands. If Matt hadn't been able to see and Jack hadn't seen Wade, they would have felt strange right about now.

In response to Hannibal King, Blade slowly swung his sword, he can't wait.

“So, let’s go and find troubles with the haunted ghosts!” With a wave of his hand, Hannibal King has taken the lead out of their base.

Later, Blade and Lin Rui followed quickly. All the combatants left, leaving only a few weapons experts in the logistics and scientists who studied the ultimate solution to improve it more.

In fact, Lin Rui would like to tell them that the logistics personnel are also important and should be protected, but after all, he is only a temporarily member joining their team, and it is not good for him to intervene in the affairs of the Nightwalkers. So Lin Rui left Peter with the address of the Nightwalker base. On one hand, he asked Peter to come here to supplement his weapons against Vampires and on the other hand, he would be able to provide the logisticians in the area with protection for a period of time.

And where is our Spiderman when Lin Rui and his party follow the nightwalkers to find trouble with the?

Hundreds of cars were stuck to the ground on a bridge out of New York City. Peter, who had already boarded the bus out of town, was blocked on the bridge. He had just received a call from Lin Rui that they had already started to move and Peter didn’t want to be stuck down here.

“Excuse me! I’ll get off here!” After paying the bus fare for the journey, Peter pushed the door and got off.

“Hey! You can’t get off here!” Seeing his passengers get off from behind, the driver got worried and yelled. But Peter had already rushed out.

Peter, who got out of the bus glanced at the traffic jam ahead in the distance. A distance that he could not see the end of even with his mutated supervision.

“Never mind!” It’s no doubt unrealistic to walk the distance from the traffic jam. Peter frowned and whispered and rushed to the bridge.

At the next moment, in front of the horrified eyes of the driver and passengers stuck in the bridge, Peter had jumped out of the guardrail on the bridge and jumped down.

“Ah! ~ Somebody jumped off the bridge!”

“Somebody save him!!”

Just as the people who saw Peter jump off the bridge shouted and screamed, a figure quickly flew up from under the bridge and rushed ahead. It was Peter, who had completed his hero dressing, Since he can fly, why should he be blocked on the bridge?

“Ah! Spiderman?!”

“Spiderman!”

While the people on the bridge were shocked, Peter has swiftly swayed over a few hundred cars by swinging on the bridge using his spider threads and headed for the front.

“Mom! Look! Spiderman!” On a bus, a boy sitting near the window saw Spiderman passing by and shouted to his mother.

“Humm? Baby, what are you talking about?” The mother, who was bored with the news, turned around and asked. But when she looked out of the window, she could only see the transparent spider silk floating on the bridge.

“Ah, oh, here I am!”

.....

Bang!

Roughly broking into the building that the vampires have occupied, the Nightwalker and Blade killed their way in. Of course, for those who have turned into Vampires, Blade will not show them any mercy.

They went all the way to the top of the building towards the office they are targeting. However, they did not encounter any high-level vampires that they were expecting.

“I heard that you have been looking for me?” Standing behind a luxurious desk, a man who seemed to be no different from ordinary people glanced at the members of the Nightwalkers and Blade and he asked faintly.

Bang!

Without answering the seemingly handsome and harmless man, Blade raised his hand and shot him. His instincts were screaming and telling him that the man in front of him is a Vampire.

Pooh!

Crash~

The bullet quickly rubbed past the man and shot directly through the glass behind him and flew out. Large pieces of broken glass crashed down.

However, It wasn't because Blade missed, he just aimed at the man's head. Just a moment before the bullet hit him, the seemingly ordinary man dodged the bullet with a speed not possessed by any ordinary man.

“His evasion skills are superb!” Lin Rui, who has never appeared, muttered in the dark but in fact, he has long noticed the unusual atmosphere around this man.

“You are Dracula!” Seeing the guy in front of him dodge the bullet so easily, Abigail has already figured out who he is.

Da da da!

Then, without anybody saying anything, everyone had already pointed the gun at Dracula with tacit understanding. In an instant, more than a dozen silver bullets had been whistling towards Dracula standing behind the desk.

More than a dozen silver bullets blocked Dracula's escape and all dodgeable directions, but he didn't seem to need to dodge either. Faced with dozens of bullet, Dracula kicked at his feet, and the heavy desk in front of him flown up and created a barrier between him and the bullets.

Pop Pop...

In the next moment, more than a dozen bullets were blocked by the flying solid wooden table.

Boom!

The flying table had stopped their bullets but Blade and Jack continue to fire at it while slowly moving forward when suddenly the table was thrown towards them.

Rumble!

The table crashed on the marble floor and made a violent noise. Blade and Jack had avoided the table, and Blade had rushed past first.

Hannibal King and Abigail, of course, followed Blade with weapons, but suddenly several Vampires rushed in from outside the door, and with their teeth bared, they rushed towards the Nightwalkers' team. So both of them had to go back to dealing with the miscellaneous Vampires for the time being.

Blade and Jack rushed towards Dracula and pulled out their own melee weapons and began to fight Dracula, but the ancient vampire ancestor kept dodging their attacks and he was able to contend with both of them.

In an instant, Jack used his mutant abilities as he gripped his blade in both hands and waving it directly at Dracula, while Blade's long blade was also not polite as it cut directly towards Dracula's head. Although this is the first time that they have to cooperate with each other, they are strong enough to pose a great threat to Dracula.

Unexpectedly, Dracula just smiled and held out his hands in the face of the attack in front of him and at his head.

Ka ka!

The outstretched hands made a sound of bone fragmentation and skin explosion. The flesh-colored skin was broken, revealing the deep red skin inside, and the bones were broken again and again, because of the fierce growth. Dracula is turning his hands into two huge and terrifying claws at a very fast rate.

Two terrifying claws, one claw blocking Jack's blade and the other one lifting up and grabbing Blade's cutting long blade. Dracula's instantaneous metamorphosis directly defused a joint attack and he seemed to have gotten a lot of leeways.

The sharp silver blade cut Dracula's claws and only left a few insignificant scratches, which would not do him much harm, and Blade's long blade was tightly grasped in Dracula's hand and Blade could not pull his sword back.

Buzz~

"Is that all you can do?" Although his hands turned into two huge claws, Dracula's other parts of his body were the same as ordinary people. He looked at Blade and Jack and asked them indifferently, without paying any of them much attention.

While Dracula, Blade, and Jack were at a standstill, a few silver beams suddenly came from his side and from behind him! Lin Rui and Matt, who have been hiding until now, have finally made their move!

“Howl!” Faced with a sudden sneak attack, Dracula roared and his strength suddenly increased.

Huh!

The next moment Blade and Jack were thrown out by him.

Pop! The silver light that shone at him had arrived, but it was still blocked by Dracula’s hand.

However, he still could not dodge or block the knives that Matt had shot from behind him and stabbed him at his back.

.....

Chapter 87 By-pass

Matt, who had found the opportunity to stab the silver knife into Dracula’s body, did not stop to look and quickly retreated.

“Is it successful?!” Lin Rui, who threw the knife to make a chance for Matt, got out of the corner.

“No!” Matt, who was attacking, landed next to Lin Rui and answered quickly. The knife he had just stabbed felt blocked by something.

Sure enough, after Matt answered Lin Rui’s question, a crisp crack of metal came from Dracula’s position. Then Lin Rui saw that the knife that should have been inserted into Dracula had been broken into two and fell to the ground. Apparently, Dracula is not afraid of this traditional silver weapon that is deadly against any ordinary Vampire.

Dracula’s eyes glowed scarlet as he pulled out the half-length silver knife that had been inserted into his body and the changes in his hands spread rapidly to other parts of his body. Just then, Hannibal King, who had killed all the vampires that had converge on his position, suddenly rushed towards Dracula and shot him with a few shots. Since it’s no use stabbing him with a silver knife, Let’s try and see if bullets are powerful enough!

However, Hannibal King had apparently not learned his lesson from the previous scene where Dracula had easily avoided Blade’s bullet. In the instant he fired, Dracula had disappeared from where he was standing and the bullets could not even touch him.

“Er! ~” The next moment, the disappeared Dracula had appeared behind him and pinched Hannibal King’s neck with one hand, using him as a shield. Obviously, facing professional Vampire hunters, a powerful half-human half-Vampire hybrid like Blade, and Lin Rui and Matt, who are so good at using the weak links to attack him, even Dracula, the ancestor of Vampire, doesn’t want to fight a head-on battle.

“King!” Seeing Hannibal King being held by Dracula, Abigail cried out with concern.

“I didn’t expect the Vampire ancestor to take a hostage and use him as a shield.” Seeing that Hannibal King was caught, Lin Rui did not act rashly. However, he also had some other opinions about this Vampire ancestor.

Once their teammate was held hostage, Blade and others became passive as they could not ignore the safety of Hannibal King. Although he really wants to kill Dracula directly, Blade can't do anything at this moment.

"You are really strong. It's no wonder that my descendants woke me up. But do you really think that you can kill me? It's Impossible!" The claw clings to Hannibal King's neck, and Dracula roars fiercely.

"Ah! Why do these boss-level villains like to brag? Don't they know that their words will come back to bite them in their ass?" Hearing Dracula's words, Lin Rui silently muttered in his heart.

Just as Lin Rui was muttering in his heart, Dracula had pushed Hannibal King forward, and he jumped straight out of the broken window.

"King!" After Hannibal was pushed away, Abigail had already rushed over.

However, there is another person who rushed faster than her. It was Blade, he chased after Dracula and jumped out of the window.

Seeing this scene, Lin Rui's eyebrows jumped. They were at least dozens of stories high. Maybe it was because they were Vampires that they could ignore this little fact. If Spiderman was here, he could fly out with him to chase them but now Lin Rui could only give up.

"King! Are you all right?!" Holding on to Hannibal King, Abigail asked with concern.

"Huh! I am all right. This Dracula really is shameless bastard! The Vampire progenitor had to take me as a hostage and he ran away, if not... Hiss! It hurts so much!" Hannibal King, whose neck and chest had been torn open by Dracula, still did not have any breaks on his mouth, but the pain of the wound finally shut him up.

"Here, this should help you." Just as Hannibal King was groning, Lin Rui handed over a spray from the side.

"Thank you, but we are very skilled in these wounds and know how to deal with them." Instead of receiving Beginner Treatment Spray from Lin Rui, Abigail has taken out an emergency hemostatic bandage. Abigail still did not trust this guy whose face is covered and she had not seen his face even once, He is just a temporary teammate against Vampires.

"Uh..." Lin Rui was a little embarrassed when he heard Abigail's words.

"Hey, this is a piece of a gift given from their heart, how can you be so ignorant?" Just as Lin Rui was ready to take back his hand, Hannibal King suddenly reached out and stopped him, then took the Beginner Treatment Spray from his hand.

"King!" Seeing Hannibal King's movement, Abigail shouted helplessly.

"The drugs we use to treat Vampire's injuries are not necessarily effective against injuries inflicted by Dracula. Why not try this one... What's your name?" Holding onto Lin Rui's spray, Hannibal King asked him.

"Mirage Knight, you can call me Mirage Knight." Looking at Hannibal King who had a face similar to Wade's and they both have the same character, Lin Rui replied.

“Well! Mirage Knight! Your nickname sounds quite good. I think I need a nickname too.” Hearing Lin Rui’s answer, Hannibal King had continues to talk.

“Well, if you’re okay, I’ll go and see what’s going on over there with Blade.” Instead of talking nonsense with Hannibal King, Lin Rui got up and walked towards the window.

“Blade, Mirage Knight, I don’t want to call... What is it called?” Lin Rui is gone, and Hannibal King is still struggling with his nickname.

“How is it?” Did Blade catch up with Dracula? Walking to the window, Lin Rui asked Jack, who had been standing there all the time.

“No, Dracula didn’t seem to want to get entangled with all of us, so he ran away.” Shaking his head, Jack repeated what he had just seen. It was Blade who chased Dracula and jumped out of the building. They fought a few more rounds downstairs but Blade was defeated by Dracula and he ran away. Of course, Blade, who is half-human and half-Vampire, was not seriously injured.

“It can also be said that it is normal for Dracula as the Vampire progenitor to have such a powerful and abnormal strength.” This result was not unexpected to Lin Rui, who remembers how the sudden surge of defense and strength after his transformation had a profound impact on Lin Rui’s last encounter with Housley. As as the Vampire progenitor, Dracula’s metamorphosis control is not only more casual but also more powerful.

“What shall we do now? Dracula escaped and he already knows that we are going against him. He would certainly be on guard and he will make some plans for us.” Seeing Blade who is coming back up from downstairs, Jack asked beside Lin Rui. Although Jack knows that Lin Rui is much younger than him, his opinion is generally respected in the team. The young Vigilante seems to have a good head on his shoulders.

“I think this...”

“Don’t worry, we found this guy in the cubicle. Dracula just pretended to be this guy. He must have provided a lot of resources to the Vampires.” Just as Lin Rui was about to say something, Abigail had come over with a middle-aged man in a suit and shoes. Hannibal King has swayed behind like an innocent man with Lin Rui’s Beginner Treatment Spray in his hand.

“Can this guy help us find Dracula?” Seeing the man being pulled by Abigail, Lin Rui asked.

“Although this guy may not be able to help us find Dracula, he has always been closely linked with Vampire forces and will certainly be able to give me some important information.” The gun in her hand was directly against the man’s temple and Abigail said lightly.

“Are all the girls so violent now?” Seeing Abigail’s indifferent threat, Lin Rui whispered in Jack’s ear.

“How the hell would I know the answer to that, I have been preparing for my revenge for more than twenty years in my life, I don’t know what girls are like nowadays!” Shaking his head, Jack answered in silence. Lin Rui is asking the wrong person. Matt may be able to give out a normal answer to this question about girls. After all, although he is blind, he has several love interests in his life.

“I can hear you!” As Lin Rui and Jack discussed these things, Abigail suddenly shouted from the side.

Lin Rui, Jack: "..."

Then, when Blade returned, the Nightwalker Team had forced out an important message about Vampires from the man's mouth. They have a large livestock farm here in Buffalo City, and Lin Rui and others know what they are raising in this farm. So their next goal is the pasture. They want to rescue the innocent people whose lives are being controlled by Vampires.

As for Hannibal King, although he said he was all right, Abigail let him go back to his residence to rest. A teammate was sent to watch him and go back together. Abigail will go to the ranch with Blade, Lin Rui, and Daredevil. Jack also returned with Hannibal King, because Spiderman should have been there by this time.

In this way, the Vampire hunting team joined by two forces is divided into two directions, one team returns to the residence for rest while the other team continues to look for Dracula's traces.

Chapter 88 Farm And Sneak Attack

Under the threat of life, the high-level familiar who was captured by Abigail had to take Lin Rui and others to a remote factory on the outskirts of Buffalo. Before approaching the factory, Lin Rui had noticed several Vampires outside.

"Leave them to me." Seeing that Blade was ready to rush out, Abigail suddenly spoke. Hearing her words, Blade stopped.

Putting the familiar aside, Abigail pulled out a metal bow that had been obviously specially modified for her. The arrows were coated with silver and she shot three of them at the vampires!

Pooh! Pooh! Pooh!

Unsurprisingly, the three silver arrows directly hit the three Vampires at the gate of the factory building. They burned and instantly turned into grey ash without screaming. No matter how many times he sees it, Lin Rui always feels that Vampire's creature setting is amazing in this world. It's amazing that there is a race of people who are stronger and faster than normal people, but it's also amazing that they can be burned directly to ashes by such a thing as silver.

"Let's go." Retracting the bow, Abigail glances at the high-level familiar next to her and says faintly. Although he's almost useless now, Abigail won't let him go so easily.

Without a way out, the familiar had to follow behind Abigail and Lin Rui and walk towards the factory ahead. However, he already knew what was going on in the factory, and his legs were already soft.

~

Instead of letting Abigail, a tough beauty go ahead, Lin Rui and Blade walk ahead and open the door of the factory. When the heavy doors opened, the situation inside the factory was finally exposed to Lin Rui.

Ka ka ka!

Just glancing at the picture in the factory building, Lin Rui's hand was unconsciously pinched, his joints were blowing, and his whole body trembled slightly with anger. Although already psychologically

prepared, Lin Rui's anger burst instantly when he saw that humans were hung on rows of shelves as living blood donors.

"Mirage Knight, what's wrong with you?" Feeling the sudden change of Lin Rui's mood around him, Matt, who could not see the scene, asked.

"It's all right. Now I'm envious you can't see it." Looking back at Matt, Lin Rui silently suppressed his anger.

"Envious that I can't see? I can only sense a lot of faint breath in front of me, but I can't tell what it is. Mirage Knight, could you tell me what's going on here?" Although Lin Rui has tried to suppress his anger, Matt still feels it.

"Matt, these weak breaths that you can feel are actually people, countless almost dead people!" When he heard Matt's words, Lin Rui's anger was almost unstoppable.

"What?! Mirage Knight!? What are you talking about?!"

At this point, Lin Rui was not alone in his anger. In front of a few people who entered the factory, there were rows of shelves lined up neatly, not with other meat products, but with a seemingly dead human being. Everyone is hung on a pole, packed in plastic bags, with a blood vessel inserted in their wrists, and constantly pumping fresh blood from their bodies into the machine in the corner.

This huge factory is home to countless human beings, who provide fresh blood to Vampires! Most of the people who are used as living blood donors are homeless and people who nobody cares about, and many are civilians who got traded by smugglers to Vampires. They took these people and used drugs to turn them into braindead people. They had no other purpose except for breathing. In this way, Vampires can get a steady stream of fresh blood from these people.

When Lin Rui came in, the blood transfusions were still pumping blood from these people. The machines besides the factory would store the blood and the Vampires would come to collect it, just like harvesting food.

"Ah!! Don't kill me!"

Just as Lin Rui explained what he saw to Matt, Blade pulled out his pistol and pointed it at the head of the familiar who was currently hiding behind the door.

Pooh!

"Er!..." However, Before Blade could fire, the familiar who provided homeless people to the Vampire clan had fallen over with his hands covering his chest.

"This kind of person is a stain in the entire human race!" Retracting the hand that had just thrown the flying knife, Lin Rui didn't look at the guy who was killed by him. This is not the first time Lin Rui has killed someone, but because it made him feel that this person is not worthy of being alive. So, he killed him before Blade could shoot him.

"Let's destroy this place!" Now that Lin Rui has done what he wanted to do, Blade has come to the machines that were storing blood.

“What about all these people? Can’t we save them?!” Seeing Blade’s action, Lin Rui suddenly stopped in front of him and shouted. Although these machines are constantly drawing blood from those people, they are also maintaining their lives. If they choose to destroy these machines, then those who are still alive will only have one end: Death.

Mirage Knight, we can’t save them. These people have been made into braindead people, They can’t even feel anything, so it’s better for them if we destroy this place and put them out of their misery. Just as Lin Rui was trying to save them, Abigail came up to him and patted him on the shoulder to comfort him.

“There must be a way to save them!” Lin Rui shouted reluctantly as he couldn’t bear to see so many people die silently.

“Mirage Knight, don’t do that. Judging from my feelings, these people will not live for long. If that’s the case, they’ll be miserable until they die.” Knowing that Mirage Knight was upset, Matt persuaded him.

“Damn it!” Damn!!! These damn Vampires!!!! He also knows that death is the best option for these people but Lin Rui still can’t accept such an outcome. So Lin Rui turned all his anger into hatred for Vampire.

Lin Rui walked away from Blade, although he was not going to stop him from destroying the machines, he could not bear to watch him personally end the lives of so many innocent people.

Bang~Bang~Bang~ After a few shots, Blade had destroyed all the machines in the corner, and the pipes that took blood slowly stopped. Now, the people in transparent bags will die quickly. Fortunately, they would not feel much, because they are already in a vegetative state.

“Ohhh? There are still guys who are not afraid of death?” Just after Blade destroyed the machines, Lin Rui suddenly felt that a large number of Vampires rushing towards the building.

“It’s good that they come here voluntarily, I don’t have to find them to vent my anger!” With a low growl, Lin Rui disappeared from the factory, Blade and Daredevil also quickly rushed out as they also need to vent their anger.

Soon, there was a sound of fighting and screaming outside the factory building. A few minutes later, there were more than a dozen pieces of grey ash outside the factory building and the Vampires who had rushed over were completely destroyed in the hands of three angry people. Later, Blade and others returned to the Nightwalkers’ base with hatred for Dracula in their heart.

.....

While Blade and others went to Vampire ranch in the suburbs, Hannibal King and others returned to their city residence. Here, Hannibal King finally meets a fellow like himself, Spiderman, who has come all the way to here. They both have talkative personalities. It’s a perfect match.

Hearing that Mirage Knight had gone to Vampire site to fight them, Peter had planned to go and join him. But just as he was about to set out, Vampires attacked the site of the Nightwalker squad. Under the leadership of Dracula, Vampire’s team dealt a heavy blow to the Nightwalkers’ team. Although Jack and Spiderman are two powerful assistants in their team, they are not Dracula’s opponents either.

Finally, after a fierce battle, Dracula destroyed the Nightwalker Team base and killed all but Hannibal King and hit Peter and Jack so hard that they almost died. When he finally left, Dracula's Vampires took the injured Hannibal King away, possibly to try and force Blade's location out of him.

So when Blade and others returned to the Nightwalkers' squad location, they could only see a mess. In the shattered building, the bodies of the dead members of the Nightwalkers squad lie in a pool of blood, while Peter and Jack were not looking very well.

.....

Chapter 89 Rescue

"Spiderman! Jack! Are you all right?!" Rushing to the corner, Lin Rui is worried about the listless Peter and Jack.

"We're all right, just a little hurt. If Dr. Adam hadn't finally turned on the ultraviolet light in the whole room, those Vampires would not have given up." Waving his hand, Jack said he was okay. But everyone else was dead, and Hannibal King was taken.

"Spiderman, what about you?" Lin Rui is obviously more concerned with Peter than Jack.

"I'm fine, just that Vampire is was too strong! I can't defeat him, Everyone here is dead." Peter, who was also injured, was in a low mood. For the first time, he faced a vampire and he felt a sense of powerlessness in front of that Vampire.

"Don't worry, we will kill the Dracula! Now, you have to rest." Given them a bottle of Beginner Treatment Spray, Lin Rui has stood up and walked to the other side. Over there, Abigail was grieving on the body of her teammate.

"Abigail, I promise, I will take revenge for them!" Seeing the scene in front of him, Blade standing behind her said quietly.

Blade felt he had an inescapable responsibility for the casualties of the Nightwalkers team. The Nightwalkers were so deeply involved with Blade that Dracula retaliated by killing them all.

"I won't let him go either! King's still in their hands. We have to save him!" Putting down the dead teammates, Abigail said harshly.

"I'm sorry, Abigail. You can count on us to have your back!" Just as Abigail stood up, Lin Rui had come. Seeing what the Vampires had done, Lin Rui now had no other ideas but to wipe them all out from this world.

"Before we came back, they had found Dracula's hiding place. Now, let's save King!" Abigail said while wiping the tears from her face.

Then, armed with an ultimate biological weapon against vampires hidden by Adam, Abigail rushed out of the station, followed by Blade, Lin Rui, and Daredevil. Not long after they left Lin Rui, Spiderman, who had been lying in the corner, suddenly stood up.

"Where are you going?" Seeing Peter's action, Jack suddenly asked. He seemed to have guessed what Peter was going to do, but he didn't think that it was a good idea.

“Do you want to stay here and do nothing? I can’t stand it!” Standing on the ground for a while, Peter said seriously.

With the help of Beginner Treatment Spray and his own recovery speed, Peter is now almost Recovered. Faced with such a powerful Vampire, Spiderman will not be absent. He will be the backup for his teammates.

“But do you even know where they are going?” Jack certainly didn’t want to stay here safely, but Lin Rui didn’t tell them Dracula’s location when they left.

“I overheard it, do you want to go with me?” Spiderman is apparently prepared and he looked calmly at Jack.

“Forget it! If we die this time... I won’t have to explain anything to anyone!” Seeing Peter, Jack stood up helplessly. His injury was worse than Spidermen and he didn’t have Spiderman recovery speed so he could not recover much in such a short time, but he could not be a coward.

“Ok, let’s go!” Reaching towards Jack, Peter said seriously.

.....

Puff!

In one of Vampire’s secret hiding places, Hannibal King, who was caught by Dracula, was being locked in a secret room. Several Vampires were beating the bound Hannibal King. After all, as a little protagonist, Hannibal King won’t die so easily, but it’s normal for him to suffer a little.

Pooh!

Another kick landed on Hannibal King’s stomach, and he crouched low. The few Vampires who caught him were already becoming impatient with his mouth.

“Bah! That’s all you can do?” Hannibal King’s face was already bloodstained as he struggled to get up from the ground, but he still refused to shut up. If someone wants to shut him up, they probably would have to sew his mouth or kill him.

Bang!

In response to Hannibal King’s words, a punch landed on him, these Vampires would have already killed him if he didn’t have some important information.

“Shh! ~~ Did you feel it?” Hannibal King, who was punched again, suddenly shushed and then asked the three Vampires in front of him.

Vampires: “...”

“A special kind of silence graced the room! Do you know what this means?” Looking up at the vampires and just like watching fools, Hannibal King then asked himself and answered.

Vampires: “...”

“This represents... My teammates have come to save me! Right now!” Suddenly, Hannibal King looked up at the window above and shouted.

!

Hearing Hannibal King’s words, the three Vampires who were watching him also looked up. But after waiting for a few seconds, nothing happened. Most afraid of sudden silence, the Vampires looked at Hannibal King with sarcastic eyes.

“Uh...” Seemingly embarrassed, Hannibal King looked up stubbornly at the window glass above.

“Oh, where are the people who are coming to save you?” Seeming that the irony in her eyes was not obvious enough, a woman Vampire asked Hannibal King faintly.

Boom!

Crash!

And just as she was about to fill Hannibal King’s face with her sharp nails and create a few scars, the window glass above their heads suddenly broke and four figures jumped down quickly.

“Aha! You’re dead!” Hannibal King laughed and shouted when he saw the man coming down from the broken window above.

Bang! Bang! Bang!

This time, the actions seem to be in order to cooperate with his words, the three Vampire faces around him were distorted as they were directly burnt to ashes and dissipated. This is Blade and Abigail, who have not yet landed, and they killed the three Vampires with a few shots.

“King! How are you?” Falling in front of Hannibal King, Abigail asked anxiously. There are only two of them remained in the Nightwalker Team now and Abigail doesn’t want to lose him too.

“Cough! I am all right, how could I die in Vampire’s hands?” Coughing twice, Hannibal King shook his head and said that he was fine.

“Mirage Knight, thank you for your medicine. If it hadn’t been for that medicine you gave me before, I might not have persevered till now.” Standing up with Abigail’s help, Hannibal King thanked Lin Rui with rare earnestness. Because Hannibal King had used the Beginner treatment spray given by Lin Rui, which had been helping him heal wounds and it has not stopped working even when he was beaten, so that serum effect lasted for a long time.

“I was helping a teammate.” With a wave of his hand, Lin Rui can’t care about that little thing now.

“King, can you still go by yourself? We have to kill Dracula, you better find a safe place to hide.” Holding Hannibal King, Abigail then asked.

“Hey~ I’m fine, but I can’t help you in the next fight.” It was already so good that Hannibal King did not faint after being tortured for so long.

“No matter how many Vampires are around him, we won’t let him go today!” Squeezing the bow and arrow in her hand, Abigail said slowly.

Sweeping to the ultimate solution that Abigail had already placed on the arrow, Hannibal King did not say anything. Although he thought it was dangerous, it had to be done.

“But Dracula is not alone now. There seems to be a lot of high-level Vampires gathered here, you all should pay attention to safety!” Finally, Hannibal King reminded them.

“I Know!” With a promise, Abigail has helped Hannibal King into an empty room.

Giving Hannibal King a pistol and several silver bullets clips, Abigail and Blade have gone to find Dracula’s location. In fact, once inside the steel building, Blade had already sensed Dracula’s position. It seems that Vampire’s progenitor had a special connection with other Vampires, and Blade, as a half Vampire, also had that connection.

Following Blade, Daredevil quickly disappeared into the darkness. Abigail also separately sought out the perfect location from where she could shoot the ultimate solution from and Lin Rui went with Blade to where Dracula was.

!

Reaching Dracula’s position, Blade and Lin Rui have been surrounded by a large number of Vampires. Similarly, Vampires also found Abigail, who was going upstairs, and Daredevil, who was hiding in the dark, seemed to have not been discovered by them yet.

“Blade, you are also my descendant, Are you really going to fight me?” As Blade and Lin Rui took out their weapons, Dracula’s voice came from behind.

Chapter 90 Decisive Battle Against Vampires 1

Blade stepped forward to face Dracula. “If I had a choice, I would rather be a pure human being!”

“People always call us Vampires, but they just don’t get used to the fact that as a race, we are above them. It’s like their persecution of Mutants and other people. The reason is not that we are worried about our status being challenged. What our race wants to do is to help them see the reality. No matter how hard they try to erase our existence, we are a higher form than them!” Standing behind a group of Vampires, Dracula said as if he could see through the world.

This Dracula is not only strong but also has a good IQ.” Hearing Dracula’s words, Lin Rui, standing behind Blade, thought in silence. As a Vampire who has been sleeping for thousands of years, his ability to figure out and utilize the present world so quickly shows that he is very smart.

“So what if you are right? This has nothing to do with me! Even if the world is rotten again, they do not need Vampires to save it! The hatred between me and you can’t be dispelled in two sentences, so save your energy!” Faced with Dracula’s final announcement, Blade showed no sympathy. For Blade, a half-man and half-Vampire, who was trained as a Vampire hunter from an early age, the rest of the world had little to do with him. Blade will not think about anything else until the Vampires are completely removed from this world.

“It seems that we don’t have any room for negotiation between us.” Dracula shook his head and waved.

Huh! The Vampires surrounding Blade and Lin Rui has exposed their fangs and they are getting even crazier than before under the command of Vampire's ancestors.

"Leave them to me! Your job is to kill Dracula and this time you have to make the entire vampire race disappear from the face of the earth." Holding the short blade tightly in his hand, Lin Rui shouted to Blade in front of him. As a protagonist against Vampire, Lin Rui is confident that Blade will be able to defeat Dracula.

"Be careful!" No hesitation, Blade has rushed out.

Bang-bang-bang! Several shots were fired in succession to clear the obstacles on his way, and Blade had rushed directly into the rear towards Dracula, leaving Lin Rui alone to deal with dozens of red-eyed Vampires.

"Humph! Just a group of Vampires who thinks that they are better than everyone, You still use those primitive weapons, you should have been eliminated a long time ago!" Lin Rui's eyes calmly swept over the Vampires and he scorned.

"You are so dead!" Lin Rui stood motionless in the middle, and a Vampire, who was in front of him, jumped in front of him, his sharp claws waving towards his neck.

Puff!

Turning around, Lin Rui has a mass of ash behind him. Once it's done, Lin Rui is like a changed man. His flexible figure shuttles back and forth in the surroundings of the Vampires and the silver short blade in his hand flashes from time to time, each time the short blade will take away a Vampire's life. On this battlefield, new Vampires screams and disappears into a pile of ash.

A horizontal knife waved 180 degrees in front of Lin Rui and three Vampires who have rushed to Lin Rui were stopped and killed directly. Faced with these Vampires, which are just larger and faster than ordinary people, Lin Rui won't have much trouble dealing with them. In addition to Lin Rui's killing, Daredevil in the dark has already quietly begun harvesting Vampire's lives.

"Daredevil, you go and help Abigail, just leave everything here to me!" Looking at Daredevil, Lin Rui suddenly shouted. Abigail upstairs can deal with the general Vampires, but she has the ultimate solution on her body, and they can't afford to lose it to the Vampires.

"Ok!" With a promise, Daredevil had abandoned the Vampires which has surrounded him and ran upstairs.

As for Lin Rui, he is not satisfied with the lethality of the short blade in his hand. Originally, he held the long blade in both hands. He only held the short blade in his right hand and attacked the vampires with silver throwing knives with his left hand. Every turn he takes will result in a silver knife flying out, Lin Rui's internal energy with the power of a flying knife is enough to penetrate at least two Vampire's bodies. So when all the flying knives on Lin Rui were thrown out, there were not many vampires left to besiege him.

The short blade held in the right hand made a big arc and pointed to the ground. There was no trace of blood on it. The Vampires cut by the blade was directly turned into ash. The rest of Vampire dared not

jump on Lin Rui anymore. Even if they had the orders from Dracula, the fierceness of Lin Rui stirred up the fear of death in their hearts.

“Huh! Are you afraid at last?” Glancing coldly at Vampire, Lin Rui muttered in a low voice. Although these ordinary Vampires did not pose any threat to him, the crowd tactics still made him tired.

However, just as Lin Rui relaxed a little, the vampires around him suddenly dispersed as if they have given up on Lin Rui. However, Lin Rui knows that this is impossible. So when Lin Rui looked up and saw the figures coming behind the Vampires, he wasn't surprised at all.

“It seems that you are the elders.” Looking at a familiar figure coming up ahead, Lin Rui asked faintly.

“Mirage Knight, I didn't expect you to have grown stronger to this point now.” Answering Lin Rui is a familiar voice: Housley, the vampire elder who had fought Lin Rui last time in the manor house.

Housley was surrounded by two Vampire elders who apparently came to support Dracula. When Dracula, the progenitor of Vampires was in danger, their powerful elders could not ignore it. They also depended on Dracula's powerful power to expand Vampire's strength and gain more strength in the next war against mankind.

“One, two, three, three Vampire elders, are you going to come at me together?” Simply referring to Housley and the two people around him, Lin Rui asked indifferently.

Lin Rui's strength has improved a lot since he last fought with Housley. Moreover, last time because he didn't know Vampire's weakness, Lin Rui's internal energy and blade could hurt him, but they were not fatal.

Lin Rui, now a half-Vampire hunter, holds a silver short blade specially made by the Nightwalker Team. He also has several ultraviolet bombs on him, which are deadly to them. Lin Rui doesn't think he's going to be beaten by Housley this time. He's ready to take his revenge for the last time when he almost broke his hand.

“Anyway, we Vampires don't really care about one-on-one. I think you should have known it earlier.” Faced with Lin Rui's sarcastic remarks, Housley responded with the same light tone.

“So what are you waiting for? Come on!” The short blade slammed into Housley's direction, and Lin Rui shouted.

Kakaka~

As Lin Rui's provocative words fell, Housley's eyes became scarlet, his muscles swelled rapidly and his clothes burst quickly. Soon, three bloodthirsty monsters appeared in front of Lin Rui. Faced with the rising strength of Lin Rui, Housley chose to go with his full strength from the beginning.

“Howl!” With a roar, Housley and the other two vampire elders flew towards Lin Rui.

“I was afraid that you won't have the guts to come to me?!” In the face of the mad Vampire elders who rushed over, Lin Rui shouted again, and then directly threw out a few UV bombs that had been not used yet.

Puff! Puff! Puff! Three consecutive whispers, the ultraviolet bomb explosion developed by the Nightwalker squad sent a strong ultraviolet ray, killing all the ordinary Vampires that had not yet escaped. However, for the powerful Vampire elders, these UV bombs are less powerful.

“Howl!” Faced with the ultraviolet radiation from the close explosion, Housley and others just blocked their eyes with their hands and swooped again. Although their epidermis melts rapidly under ultraviolet radiation, their strong Recovery power completely counteracts these injuries.

“If you think that this was it then you have made a big mistake!” Already expecting these results from the UV bomb, Lin Rui waved his short blade in the face of the three monsters that had already rushed towards him.
