

Marvel 91

Chapter 91 Decisive Battle Against Vampires 2

Hoo!

“Oh!” I don’t know why but the Vampires look more like werewolves with all that hair covering their body and while he was thinking about that, Housley has taken the lead to rush towards Lin Rui.

The sharp claws descended intending to cut Lin Rui’s whole body directly from top to bottom, but it was blocked by Lin Rui’s horizontal blade chop. At the same time, two other monsters have rushed over from the side, with their claws quickly stabbing at Lin Rui.

“Get the fuck out off my way!” Faced with a three-sided pincer attack, Lin Rui gave a low cry and suddenly burst out with all his powers and used his short blade to block Housley’s claws.

Bang! The sharp light of the blade cuts directly between Housley’s two claws. The huge force cuts Housley’s long claws in an instant. Then the light of the blade cuts Housley’s chest and shoots him out.

Instantly repelling Housley, the attack from the vampires on both sides has arrived and Lin Rui has been able to feel the sharp claws close to his waist and abdomen area. The charm shield on Lin Rui cannot take a full-scale attack by an Elder Vampire. This is the reason why Lin Rui got injured in the last battle against Housley. Therefore, Lin Rui quickly turned his body in a full circle after attacking Housley.

At the same time as he turned around in a circle, Lin Rui’s silver knife just separated the sharp claws that had been attached to him. Under the restraint of silver, the claws were scalded like they were burned, and the thrust of the claws shrank a little. However, Lin Rui did not completely block the attacks from those claws, and a few long nails struck him.

Puff!

Lin Rui quickly turned backward and broke away from the circle of the three Vampire elders. Glancing at the ripped holes in his waist, Lin Rui’s eyes flashed. The skin inside has also been scratched, but it is not serious and at most, it is a minor injury.

However, Lin Rui underestimated the strength of these three Vampire Elders. After their transformation, their resistance to ultraviolet light and silver increased a lot and Lin Rui’s own internal energy did not cause enough damage to them.

“I can only wait for Blade to make a breakthrough. I hope Abigail can do it sooner.” Seeing Housley and other two Elder vampire rushing towards him again, Lin Rui thought silently as he raised his short blade again.

!

Just as Lin Rui was about to fall into a bitter battle again, a few white spider silks were shot in from outside the battlefield, and the three monsters were instantly netted inside.

“Rip!!” Stuck in a cobweb, Housley and other two elder vampires all screamed and instantly tried to remove the cobweb. However, their skin has been corroded as the webs seem to be covered with silver powder.

When Lin Rui turned around with some amazement on his face, Spiderman just fell to his side. "Ah! What kind of monsters are they?!" Peter shouted in horror at the sight of Housley and the other two monsters who had broken away from the cobweb.

"These monsters are Vampire elders and they are very strong. Right, didn't I ask you to rest at the base?" Explaining to Peter, Lin Rui looked at him and asked. Of course, Lin Rui was very happy inside.

"How can I let you deal with these disgusting monsters alone?" Patting Lin Rui on his shoulder, Peter said in a matter of fact tone.

"Of course, I won't let you face this alone." Just after Peter finished, Jack's voice passed from behind.

"Jack, you..." Lin Rui, who knows Jack's injuries, is a little worried, but more touched.

"I am all right. I can still deal with a few ordinary Vampires, you can take these three monsters!" With that, Jack had already backed away quickly. Housley, who ripped the cobweb apart, had rushed over again and Jack knew very well that he would be a burdened if he stayed here.

"Ah-ah! I'll take one and you'll take the other two!" In the face of the coming monster, Peter shouted and shot the cobweb.

"You are very good at the division of labor!" With a smile on the corner of his mouth, Lin Rui has rushed out with his blade.

"Disgusting monster!" Once again, a Vampire was caught in the cobweb and Peter put a spider thread in his hand that connected to the thread that trapped the vampire and he was going to throw the monster out.

"Ah-hey?!..." But Peter wasn't able to pull and the transformed Vampire elder could keep up with Spiderman's power. Of course, it hasn't been long before Peter became Spiderman and his powers are still growing.

Kakaka~

Just as Peter struggled with the Vampire monster, it had ripped off the cobwebs again and the silver powder on them made him uncomfortable.

"Hey! Look at it!" As he didn't have enough strength, Peter had to use his flexibility. As he shouted, Peter had rushed to his opponent with spider silk. He kicked Vampire in the face and almost broke his teeth.

"Howl... ~ "

Puff! Just as he was roaring, Peter had shut the vampire's mouth with his spider thread and the roar was choked back.

"What the hell do you think you are going to do after screaming so loudly? Are you trying to frighten me?" Peter rushed over again as he smashed the vampire's mouth.

Bang! "You're scary enough with that ugly face. You don't need to open your mouth and scream on top of that!" Landing another foot in the chest of the Vampire monster, Peter shouted.

The retreating step stops stiffly and the Vampire monster pulls off the cobweb on his face. The red rays in his eyes are getting deeper and deeper. No one knows whether it's because of Peter's attack or because of his mouth gun skills.

"Roar!....."

Puff!

"I told you not to do that!" Another spider web sealed the mouth of the Elder Vampire and Peter ran toward him.

However, the Vampire elder was not a fool. He shook his claw forward as Peter kicked him over. Puff! A spider threaded out and Peter pulled the claw away. Then, using the momentum of the claws, Peter jumped on the head of the Vampire Elder.

"Haha! Look at this!" Not knowing from where but Peter pulled out two ultraviolet bombs and threw them directly into the face of the Vampire Elder. Then he shot several cobwebs and the ultraviolet bombs were sealed to the face of the Vampire Elder.

The Vampire elder, who had just torn the cobweb off his face, saw two ultraviolet bombs coming, followed by several cobwebs.

Puff! The next moment, the ultraviolet bomb was sealed in his face. Bang-bang-bang-bang-bang-next second, the ultraviolet bomb on the face of Vampire elder has exploded.

"Ah!" The claws pulled by Peter's spider silk pulled it apart instantly. Elder Vampire covered his head and roared loudly.

"Oh! That must have hurt! " Watching the Vampire Elder scream wildly while covering his head, Peter hides aside and mutters.

Two ultraviolet bombs were blown up close to each other and the key point was that they blew up on the head, which even the Vampire elder could not bear. The intense ultraviolet rays corroded his whole head, leaving only a few horrible bones around his neck. It seems that the Vampire elder will not recover for some time.

"Huh! That's one down!" Peter breathed a sigh of relief when he saw the situation of the Vampire Elder. The next moment, he had rushed to a nearby battlefield where Lin Rui was still entangled with two Vampire elders.

.....

Boom!

In another part of the steel building, the completely transformed Dracula has been pressing Blade for a long time. If it wasn't for Blade's strength and some of the protagonist aura, he would have died long ago and died in a manner that he wouldn't be any more dead.

"Blade! You can't beat me!" The huge claws strangled Blade to death and Dracula shouted fiercely.

Siii!

Just then, a quick arrow shot from behind Dracula. With Daredevil's help, Abigail finally got rid of those Vampires and found the opportunity to shoot the arrow at Dracula, which contained the ultimate solution.

However, although the arrow was very unexpected and very fast, Dracula found it and took the arrow as soon as he turned. The next moment, the arrow was thrown to the ground with disdain.

Meanwhile, as Dracula turned around, Blade, who was pinched by him, suddenly pulled out a silver knife from his waist and cut it on Dracula's claw in an instant. With his arm injured, Dracula unconsciously released his hand and threw Blade down.

"You are..." Dracula wanted to swear that he was strong, but Blade had already snatched the arrow from the ground and stabbed him with it in the next second.

.....

Chapter 92

Sneer~

As Blade inserted the ultimate solution into Dracula's body, the ultimate solution dissolved into his body quickly and started to destroy it. Soon, the maniacal Dracula shrank rapidly and before Blade's eyes, he turned back to the seemingly ordinary human.

Dracula fell back straight and felt the passing of his life from his body. Dracula's face flashed with a trace of surprise, but it does not matter anymore.

"Blade, it seems you've found a way to deal with me. But do you really think that the world would be better without Vampires?" The destruction caused by the final solution continues, and Dracula has little time left.

Blade did not reply as he looked at Dracula, whose body was beginning to crumble slowly. He did not know how to answer. Blade, of course, knows that Vampires are not the only threat in the world. Sometimes human problems are more serious than external threats. But since he is a vampire hunter, he has to do his job well.

"Oh, I think you already know the answer..." Seeing that Blade had not answered, Dracula finished his last sentence with a chuckle.

Then his body began to crumble and collapse in all directions, and soon grey ash flew around him.

Shhh~

Like a spark, the ultimate solution turns the remains of Dracula, the Vampire Progenitor into poison for all the Vampires around the world, spreading rapidly to the outside world. The first to come into contact with these Vampire poison cells was half-human and half-Vampire Blade, but the poison that had a lethal effect on Vampires did not seem to have any effect on him. Blade lay there without feeling anything, which may be related to half of his normal human genes.

However, those ordinary Vampires were not as lucky as Blade. The Vampires, who were previously defeated by Daredevil and Abigail without direct killing, screamed and turned into gray ash and the gray ash that Vampires turned into also became a deadly poison for their family.

So as more and more Vampires are killed by the final solution, more and more poison is dispersed. As long as Vampire exists in the world, they will disappear from it sooner or later, just like their ancestors did, unless they always hide in places where the poison can not reach them.

.....

“Hey! Bloodsucking monster! What else can you do besides shouting and jumping?!” While flying around in the steel buildings, Peter attracted the hatred of a Vampire elder in a circle.

As for Lin Rui, he is now singling out Housley. Last time he fought Housley, Lin Rui was totally under pressure. Today, Lin Rui, whose strength has risen again, has no fear of facing the totally transformed Housley, whose powerful body already has several large wounds courtesy of Lin Rui’s short blade. In terms of simple fighting power, Lin Rui has been able to suppress Housley and he is not weaker than him at this time. So, the current battle situation is exactly the opposite of what it was a month ago. Housley was totally overwhelmed by Lin Rui.

A sweep opened Housley’s claws and Lin Rui instantly sneaked towards his chest. He tightly clasped the short blade, turned around and stabbed him behind his back. Housley was thoroughly overwhelmed by Lin Rui the next moment. As the battle continued, Housley’s transformation slowly diminished, and Lin Rui finally took the absolute upper hand and gave him a lethal blow.

Avoiding Housley’s next counterattack, Lin Rui loosened his hands and jumped out, leaving only the silver knife in Housley’s chest. Under the restraint of silver, Housley’s body began to decline unrecoverably. Soon, his transformed body shrank back to its usual shape.

“Er!...” Kneeling on his knees, Housley looked down unbelievably at the silver knife with the handle stuck out of his chest.

Siii~

The next moment, Housley, like other ordinary Vampires, became ash.

Seeing Housley finally die, Lin Rui turned to Peter, where there was also a difficult elder Vampire. But the battle over there seemed to be over, and Peter was flying toward him in mid-air.

“Hey! Mirage Knight! What happened just now? That guy turned into grey ash, it was terrifying.” Peter falls down behind Lin Rui and asks doubtfully.

Just now, as Peter was running around with the Vampire elder on his ass, a pulverized powder drifted past him and the monster behind him screamed and turned to dust.

When he heard Peter’s words, Lin Rui turned and looked around. Some of the ordinary Vampires that were still on the ground have been quickly turned into gray ash under the effect of the ultimate solution and more Vampire poison have drifted away from the steel building.

“It seems that Blade has finally succeeded.” Knowing that this is the ultimate solution effect, Lin Rui finally relaxed.

“Successful? You mean he killed Dracula, the Vampire progenitor?” Peter was seriously injured by Dracula before, and of course, he was very excited after hearing Lin Rui’s words.

“Yes, Dracula should have died. At this moment, Vampires around the world should begin disappearing soon.” With a nod, Lin Rui saw Jack running from behind.

“Come on, let’s go and see how Daredevil and Blade are doing?” When Jack came, Lin Rui picked up the silver knife on the ground and said lightly. This is very pure silver, although not particularly valuable but it killed a lot of Vampire and a Vampire elder, it is quite a memorable item.

A few minutes later, the remaining two fighters of the Nightwalker team: Abigail and Hannibal King; the most powerful Vampire hunter: Blade; and Lin Rui’s team who came to help all gathered together.

Although the expression on each person’s face is very tired but their posture and mannerism are very relaxed, the crisis of the Vampires is completely solved under their joint efforts. Ordinary people in the world may never know how close they were to danger because there are so many people who are willing to take responsibility to guard their safe lives.

“Blade, do you have any plans for the future?” Seven people who fought side by side stood together and Lin Rui spoke first. Blade who has fought against Vampire all his life had his lifelong goal fulfilled, it is easy to lose the direction of life.

“Plan? I don’t have any other plans for the time being, except to get rid of the remaining vampires. Shaking his head, Blade’s face showed no other expression.

“What about you? Will the Nightwalker team continue to exist?” Blade’s answer was entirely unexpected by Lin Rui, who then looked at two of the Nightwalkers.

“We? There are only two of us left in the Nightwalker Team. Maybe we will find a quiet place to live and stay away from the troubles of these big cities. These years, we have not lived like a normal person.” Hearing Lin Rui’s words, Abigail calmly supported Hannibal King. In her eyes, besides calm, there was guilt for her dead teammates, they have lost many close friends during these years, fighting against the Vampires.

“Hey! If you have nothing to do in the future, you can come to us! We will welcome the teammates who have fought side by side with us. However, if you do decide to come to us then don’t wear a mask when you arrive!” Standing straight with the help of Abigail, Hannibal King smiled and held out his hand to Lin Rui.

“Don’t worry, we’ll go and visit you should the opportunity arise.” Putting his hand in Hannibal King’s, Lin Rui assured.

“Me too!” Daredevil then put his hand up.

“And me.” This is Jack.

“Of course there is me! I really like you, King!” This is Peter, he feels that he and Hannibal King are very similar to each other.

Finally, Blade put his hand on it. He didn’t say anything, but his expression had already expressed everything.

"Friends, I am very glad to have met you." Holding tightly in the center of the fist, Hannibal King said earnestly.

"So are we!"

Chapter 93 Quest Summary And Impact

"Mainline quest: Fight against the dark forces under New York and defend New York's security.

Completion: 100/100. Now issuing the quest reward, please check.

"Congratulations to the host to complete the hidden quest: to destroy the Vampire family hidden in the dark, completely eliminate the threat of Vampires. Reward point: 10,000."

"Wow!!" Hearing the cold reminder of the system coming from his mind, Lin Rui, lying in bed, jumped up with a shout.

"Jackson!!~" Lin Rui's shouting of excitement apparently irked his mother downstairs.

Lin Rui, who was shouted at by his mother, lay on the bed and covered his head with a pillow, which suppressed the excitement. After more than two months of fighting, Lin Rui finally completed the mainline quest. Moreover, he completed a hidden quest again, and in a flash, he has been awarded 10,000 Reward points, which almost knocked Lin Rui out. Excitingly rolling around in bed, Lin Rui thought quickly to his mind. He wanted to see what kind of Rewards he got from this quest.

Lin Rui first looked at the changes in his Reward points. For two months, Lin Rui has been fighting Jeston Gang and Kingpin's forces. Besides upgrading his skills, he has also built the secret base, which he has used a lot of Reward points. But he completed a quest to save Ben Parker released by the system, and a hidden quest to stop Dr. Connors, so his Reward Point had some leftovers. But certainly not much, but now Lin Rui's heart is in full bloom as he flies around behind his Reward Points.

"32,560 Reward Point! They are mine!! They are really mine!" After carefully counting the current reward points, Lin Rui only felt that he had become a local tyrant.

Tens of thousands of Reward points, which can already be converted into many high-level things in System Shop, are beyond the imagination of the hundreds of reward points that Lin Rui had before. Like Lin Rui's Heaven's Origin Heart Law, which now requires 5,000 Reward points for the middle book, he couldn't change for it before, but now it's more than enough.

"There are three items as a reward!" It took a long time to suppress the ecstasy in his heart, and Lin Rui turned his eyes to the three scattered light-colored items floating in the middle of his sea of ??consciousness. Lin Rui is no stranger to these things. Before he finished a quest, there would be a reward item, but he doesn't know what reward item he has gotten.

"A quarter of E Grade Space Warship designed blueprint. Well, it matches the last reward, and this will saves me a little Reward Points. After scanning the first item, Lin Rui muttered as she read the words on it.

"A level D Level training card. Okay? The training time is increased to one hour each time, and the remaining time can be saved to the next time. It seems that this kind of thing is just like the present

product. The more advanced it is, the more humanized it is.” Soon, Lin Rui accepted the second item, which he was familiar with.

“Nine Layers Thunder Blade (pseudo). A copy of the divine tool Nine Layers Thunder Blade is a class C weapon. It contains certain power of thunder, and can transform many kinds of energy into the power of thunder and lightning, and enhance the power of an attack.” The last reward item is a seemingly ordinary style long blade.

Although this blade is similar to the Flowing Flame Blade style used by Lin Rui, its introduction is quite powerful, and it is still only a copy of the divine tool. Although it is a copy, the grade has reached the C-level standard. The Flowing Flame Blade used by Lin Rui before was just an E Grade item. This blade has directly improved its standard by a large margin.

“Wow! It looks awesome!” Holding the false Nine Layers Thunder Blade in his hand and feeling the thunderstorm power contained in it. Lin Rui’s eyes lit up. With such a C-class weapon in hand, Lin Rui feels that he has at least doubled his strength.

“Aha! Everything has been going smoothly recently!” Looking at the mainline quest rewards again, Lin Rui was lying in bed laughing and talking to himself.

Defeating the Jeston Gang, the Frankenstein Family is now slowly starting to wash away from the underworld under the control of Jack. The Vampire forces he encountered in his quest were also killed by him in conjunction with the Blade and the Nightwalker squad from the ancestors to the small miscellaneous soldiers. Kingpin did not do anything this whole time. Lin Rui hasn’t felt so relaxed for a long time and he even got an A in the final exams he just finished.

“In other words, I can also study my summer plan now!” It suddenly occurred to Lin Rui, who was relaxed in bed.

.....

Just as Lin Rui was happy to have completed a mainline quest and an additional hidden quest and thought about a vacation trip, some other people, including some of the big guys in Congress and the New York Police were having a bad time.

After realizing that Vampire’s forces were no longer satisfied with the constraints of Congress and were ready to expand their powers, self-sufficient vampires were ready to invade the ordinary world, some of the big guys in Congress had entered a state of emergency. On one hand, senior officials were sent to continue their talks with Vampire forces. On the other hand, New York police were arranged to put pressure on Vampire forces in all aspects.

However, the effect of the peace talks was obviously not very good. The Vampires who revived Dracula will no longer be following Congress. They need a massive riot to let the whole world know that they exist. So Congress can only increase the police force and some special forces to monitor the Vampire forces and use force to suppress them when necessary. This was the reason that Dr. Connors was able to make such a big fuss about without having much police force to catch him. He had to rely on Spiderman to help him. On the other hand, Spiderman was allowed to crack down on all kinds of criminal activities in New York City. After all, when the police were not strong enough, they would no longer care about a Vigilante.

Some of the big names in Congress believe that as long as Vampire realizes that their power is insignificant for today's humans, they will continue to cooperate with Congress as before. Large sums of money are provided annually without the need to report to the IRS, and they continue to provide the necessary blood sources. And the top officials in Congress know that some people are also fighting against the Vampires, those who are hidden by their mask and fight in the night. They are happy to see others helping them in putting pressure on the Vampire forces, which is more conducive to restore their relationship with the Vampire forces.

However, they apparently underestimated Blade and Lin Rui's team's ability to do things. Nor do they know about the resurgence of Dracula, the Vampire's progenitor, whose information asymmetry has left them with passive prevention plans, rather than proactive ones like Lin Rui. So, after Blade killed Dracula and completely wiped out the entire Vampire clan in the world, the big guys in Congress were left stunned.

So many police forces and special forces were called in to monitor the Vampire forces for so many days. In the end, those guys just burned out and turned into grey ash out of thin air. The police, who were only responsible for monitoring and suppressing the riots, did not know what they were facing, but the way those guys were burned to ashes in the air gave them a great visual impact. The policemen who witnessed these scenes suspected that they were mad, or that the world was mad. Congress had to withdraw all the arrangements and provide psychological counseling to police officers who saw the horror.

At this point, the Vampire clan is completely extinct. Congress's wishful thinking collapsed and Vampire did not riot but they were completely destroyed. In this effect, Congress expended a lot of manpower and money to achieve was completely destroyed. Without the financial support of Vampire forces, the future life of the big boys would be very difficult. In particular, some research institutes that need secrecy and money can no longer continue, including Colonel Stryker, who is keen to study Mutants.

"Damn it! Why did they suddenly give away the approved funds!? In his office, Stryker punched the table in front of him and asked the Secretary aloud.

"It seems that some sponsors have suddenly failed to provide funds." The secretary can only answer like this, this is the official response.

"No matter, it doesn't matter if the funds are not enough. Those Mutants won't mind themselves being experimenting on in a more hostile environment." The money is gone and Stryker is just a little less profligate. Those experiments don't require more money, but more Mutants.

"Experiments No. x-28..."

"I don't want anything to interrupt my plan."

"Yes!"

.....

Chapter 94 Vacation

"Wow, oh! This is Monaco! One of the richest countries in the world! I can't believe we're here now!" Just out of the airport, Peter started screaming when he stepped on Monaco's land.

“Hey! Peter, don’t exaggerate! And thank Harry for coming here to watch Monaco’s world-class Formula One final.” Coming out with his luggage behind Peter, Lin Rui said with a laugh.

“Of course! Thank you, Harry! Long live the Tuhao!” Embraced the sunshine in Monaco, Peter turned to Harry and shouted.

“It’s nothing, just a few tickets sent to me by a client. And there’s a meeting of high-tech companies in Monaco recently, and I was supposed to come here anyway.” Clapping Peter on the shoulder, Harry said with a smile.

“That’s what you said, but instead of bringing your girlfriend, you came with us. Are things between Gwen and you...” Coming up to Harry, Lin Rui asked.

“Hey! I gave Gwen to you. If you guys already broke up, I will shoot you!” Hearing Lin Rui, Peter joked. It was no secret that Harry and Gwen were together. Peter did not get jealous but instead, he blessed them.

“Oh, Gwen and I are fine. She just doesn’t want to come to a car racing competition. You know, girls don’t like what we like. Under the attack of Lin Rui and Peter, Harry explained helplessly. “All right! Our car is here. Let’s go. I’ve booked you a five-star hotel! “

“Yay!”

As Lin Rui, Peter and Harry travel abroad for the first time during their vacation, Harry is on a business trip with a friend. Knowing that both Peter and Lin Rui were interested in Formula Racing, he purposely got some tickets, and everything about how a client gave him the tickets was an excuse.

The high-tech corporate meeting that Harry said will be held after the Formula One final, and Stark Industries will also participate. As for whether Tony will appear or not, no one knows. However, according to Tony’s recent developments, it is very possible that he will not participate in the meeting, but he will definitely see the Formula One final. But Tony didn’t know that his high-profile schedule had already made a plan for him.

.....

On the first day of his arrival in Monaco, under the arrangement of Harry, Lin Rui and Peter had a good taste of the unique scenery and humanities of this country famous for tourism. In the evening, Lin Rui and others did not return to the hotel until midnight. The Formula Racing Final is tomorrow, and Harry’s meeting is behind the Formula Racing Final and he doesn’t have to worry about delaying it.

The sleeping night passed quickly. Formula racing finals arrived soon. Lin Rui entered the race early and was the first one near the track. It seemed that Harry’s “client” was very interested. Instead of staying in the grand lobby above the grandstand with other influential figures, Harry sat with only two bodyguards and Lin Rui, who was sitting nearest to the track.

“Oh!” Harry, Jackson, who do you think will be the champion in this game? I think Ryan from Switzerland is the most promising candidate. He was the biggest black horse last season. Now he is at his peak! Waving the flag in his hand, Peter asked excitedly to Lin Rui and Harry beside him.

"I don't know any racing drivers, but I think that blue car might run faster." Shaking his head, Lin Rui casually pointed to a blue car in the preparation area. Although he liked watching these exciting games, he didn't have a thorough understanding of them. It wasn't him driving in the car anyway so why would he even care.

"Ah, you said the car was driven by Hornes from France. He hasn't achieved any good results in major competitions for three consecutive years. He seems to have entered the finals this time." Seeing the direction Lin Rui pointed, Peter said to him.

"As you say, this fellow Hornes is sure not to win the championship?" Lin Rui asked indifferently when he heard Peter's science popularization.

"Hey! Maybe there will be a miracle." Peter smiled, but apparently, there was no hope that Hornes would win the championship.

"Then let's wait and see! Harry, what do you think? Who will win the championship?" Seeing Harry's gaze drifting toward the stands, Lin Rui suddenly asked.

"Me? I think the man Peter said was very good, Ryan, wasn't he? There are a lot of his fans in the game." His line of sight turned back to the game and Harry said faintly.

In fact, Harry was thinking about some people in the grand lobby above the bleachers. For example, Tony, who was drinking in the lobby at the moment and there were many other executives from big companies from various countries. Although Harry can meet them at the meeting tomorrow and the day after tomorrow, this occasion is obviously more casual.

"Harry, Is there something you need to do? If you feel embarrassed to leave us here, then I can tell you, we don't mind at all." Apparently feeling something, Lin Rui said with a smile.

"Yeah! You will also take part in the eyes of the surrounding girls here! And you have a girlfriend so get out!" Peter also shouted.

"Well, I'll go first. I'll come when the game starts." Since neither Lin Rui nor Peter cared, Harry got up and was ready to leave.

"Well, don't forget to bring us some food and drinks when you come back."

"Ok!"

Then Harry left the front seat under the protection of two bodyguards. Just as Harry left the auditorium and headed up to the luxury lobby, Tony, who had been in the lobby, disappeared.

"Where is Tony?" As soon as she turned around, she couldn't see anyone and Pepper asked Happy helplessly.

"Mr. Stark said he wants to go down and experience the excitement of the race in a car and told me not to follow him." Happy replied to Pepper's inquiry in a very innocent manner.

"What?!" Pepper was almost scared to death when she heard that. Formula racing is still very dangerous. If something happens to Tony, it will cause a disaster.

“Hurry up! We’re going to stop him!”

“It’s too late, Miss Pepper, the game is about to begin.” Seeing Pepper’s anxious look, Happy pointed to the live screen in the hall and reluctantly reminded her.

Pepper: “...”

“Now I can only pray that Tony won’t mess up!”

.....

“Hey! What happened over there? Why did they suddenly change drivers? Who’s that guy? Oh, That’s...” Peter, who had been watching the race, saw the change in the starting point of the runway with his supervision and then exclaimed as if he had seen something unbelievable.

“Mr. Tony Stark.” Lin Rui then said the name after Peter. Lin Rui also remembered this event when he saw Tony.

In Monaco’s racing finale, Anton Ivan, the son of Ivan Vanke who was a partner of Howard Stark and cocreated the Arc Reactor, came to kill Tony because his father died and he almost succeeded in killing him on the track. Just after Lin Rui discovered Tony, the big screen above the track also showed Tony entering the car. Obviously, the organizers also wanted Tony to be a hot spot to attract viewers.

“Ah! This was supposed to be a good vacation trip, how can it involved this kind of thing!?” Seeing Tony enter the car instead of the real driver, Lin Rui covers his head and thinks helplessly.

“Mr. Stark wants to race! This is a piece of big news!” Not noticing that Lin Rui had an as strong vision as himself, Peter was even more excited to see Tony.

“Ah! Wait till the fight starts. See if I can help Tony secretly, at least to reduce civilian casualties.” Recalling the thoughts about Ivan in the mind, Lin Rui can only do so much now.

This is Monaco. He can’t suddenly change into Mirage Knight. Vigilante from the United States appears in the formula racing auditorium of other countries, he will be found out soon.

Toot! Toot! Toot!

Buzz! Buzz! Buzz!

Soon after the race began, more than a dozen racing cars, including Tony’s, rushed out of the starting point with a roaring engine.

Chapter 95 Racetrack Accident

Boom! Boom! Boom!

On the track, various cars are chasing after each other at a speed of 150mph. Lin Rui can’t see where Tony is. Only live footage on the big screen above the stadium can be seen. The organizer knows that Tony has replaced the original racer on the stadium, so there are several scenes dedicated to running after Tony’s car, which also gives Lin Rui a better perspective.

“Wow! Mr. Stark is doing a good job! He is already in third place!” Waving the small flag in his hand, Peter now doesn’t care where Ryan is, and his eyes are always chasing Tony’s car.

“Yes, Mr. Stark really is driving very well.” Lin Rui’s gaze swept across the track to find Ivan’s figure, and his mouth responded faintly.

“Hey! How is the race going?” Just as Lin Rui and Peter were both watching Tony Stark, Harry finally came back. He also had a lot of food and drinks in his hand.

“Mr. Stark has rushed to third place. He’s driving really hard!” Taking the food Harry handed over, Peter answered without turning his eyes.

“Mr. Stark? Tony Stark?” Hearing Peter’s words, Harry asked in surprise as he had apparently not noticed the previous broadcast on the big screen.

“Well, it’s Tony Stark. He’s in Horns’ car right now, It seems that the rich man is now looking for a different stimulus.” After sweeping the audience again, Lin Rui turned back and explained to Harry.

“Really? No wonder I saw Miss Pepper angry when I was up there. It seems that Mr. Stark ran down on his own.” Thinking about Pepper’s face in the luxury hall above, Harry said with a smile.

“Well, That’s just usual Tony Stark, he and unexpected things go hand in hand. Ah! Found it!” He nodded and Lin Rui, who looked at the runway, suddenly shouted. Then he got up from his seat.

“What did you find?” Seeing Lin Rui suddenly stand up, Peter and Harry asked curiously.

“Ah! What is going on? We are seeing a man suddenly walking into the live race track. This is really dangerous! Who on earth is he? What does he want to do?!” Before Lin Rui explained to them, the live footage had released the guy Lin Rui had seen, and the host was holding the microphone and shouting loudly.

At this point, the big screen shows a man in staff clothes striding into the arena, and continue to walk towards the runway, without any intention of stopping. No doubt, this is Ivan Vanko, Anton Vanko’s son.

“What the hell? What does he want? This is the racing track! Does he want to commit suicide?” Harry and Peter were surprised to see the picture displayed on the big screen.

“Harry, Peter, get out of here!” Seeing Ivan coming towards them step by step, Lin Rui suddenly shouted. Although Ivan and Tony’s next battle was on the field. But there will be chaos in the audience, maybe there will be stampedes, and leaving now is the best choice.

“Uh-why? Jackson? Is it because of that guy?” Hearing Lin Rui’s words, Peter asked doubtfully. His spider-sense has not issued any warnings yet and he does not think there will be any danger.

“It’s too late...” Seeing two whips popping out of Ivan’s hand, Lin Rui knew that they were too late now.

Soon after, Ivan, who had reached the center of the track, started his Arc Reactor on his chest and the two whips he held were instantly entangled in high-intensity electricity. As he stepped forward, his clothes burned quickly, revealing his equipment, a simple armed combat suit that used the same energy as Tony Stark’s Iron Man Armor.

“That guy!” It was when Ivan began to charge the whip in his hand that Peter in the audience finally sensed danger.

“Get out of here! That guy is dangerous!” Peter shouted as he saw that the whips held by Ivan had been fully charged. Peter regretted not listening to Lin Rui, and now the guy has already waved the whip in his hand.

Boom ~ bang ~ bang ~

Holding two whips with strong electric light in his hand, Ivan stood calmly in the middle of the track. In front of him, the car that had been around the lap had already rushed over. At the forefront are a few cars that are being lapped, and they are desperately trying to stop being second. However, just before their turn, they suddenly saw a person blocking their way and standing at the center of the track and even if they applied brakes now, there’s no way the car will stop.

Boom!

“Oh! No!”

“Oh My God!!

Just as the first car crashed into Ivan in the middle of the track, a cry of alarm came from the audience, all of them worried about the guy who was about to be hit. Of course, their fears are superfluous. Because Ivan had flung his whip out.

As if it had been cut by a huge laser sword, the car split in two and rolled past Ivan. Rumble~

“Ah!”

“What is that?!”

The guy who everyone was worried about has become more dangerous and the audience has become scared.

Boom ~ bang ~ bang ~

Then, the second car ran towards him! Crack! Another whip came out and the same fate was repeated to the car. The cut car rolled to the side of the track and finally hit the wire fence.

Bang!

Many of the scattered car parts flew towards the audience and now the audience who wanted to see the excitement can no longer sit down. They all screamed and ran towards the exit. They didn’t know where the accident would go, but they can’t risk their lives by sitting here.

“Oh! Tony!... Happy! Take me there quickly! Go to the track!” Above the stands, Pepper, who has been watching the game, saw this scene on the screen and became scared, and quickly called Happy to bring her to the race track.

“Yes!” Then Happy drove Pepper to the track. As long as Iron Man Armor can be given to Tony, then his safety can be guaranteed.

“Sir, this way!” As Lin Rui and Peter reminded him, Harry, escorted by bodyguards, was far from the front seat. But before they got out of their seats, there was chaos around them.

“Where’s Jackson!?” Protected in the middle by bodyguards, Harry suddenly noticed that Lin Rui, who had been following them, had disappeared, and cried out in fear.

“I’ll go back to him!” After glancing around without seeing Lin Rui, Peter shouted and rushed back into the crowd.

“Peter!... Go back and help him!” Seeing Peter disappear, Harry became more anxious and shouted at the bodyguards around him.

“Sir, the most important thing now is to send you out. It’s too dangerous here!” Without listening to Harry, the two bodyguards pushed the crowd ahead and took Harry out quickly.

“Jackson! Where are you?!” Walking fast through the chaotic crowd, Peter shouted Lin Rui’s name and used his spider-sense to determine Lin Rui’s location. But the spider-sense could not determine Lin Rui’s position in such confusion. Peter could only squeeze in front of the bleacher step by step.

Just as Peter was running back to find Lin Rui, the said person was hiding behind the fence and staring at Ivan’s every move. Lin Rui is wondering if he needs to solve the problem now. To his surprise, Lin Rui found that he only needs a knife to disable Ivan.

“Jackson!” Just as Lin Rui decided to take the shot, Peter suddenly shouted behind him.

Upon hearing Peter’s voice, Lin Rui quietly closed the knife in his hand.

.....

Chapter 96 Help

“Mr. Stark!” Peter, who ran after Lin Rui to the side of the race, saw what was happening on the race field, and he cried out in fear.

Boom ~ Boom ~ Tony’s car had already turned the corner and rushed towards Ivan.

Although Lin Rui knows that Tony would be okay but the current situation still seems very dangerous. Lin Rui, who is standing outside the guardrail, is very conflicted as to whether he should help or not.

In front of Tony’s car, Ivan waved his whip vigorously. Tony’s car, which could not escape, was cut in half like the car in front of him. The car rolled over several times and fell to the ground. Tony was pressed underneath the half car.

Standing WITH Lin Rui outside the guardrail. Peter was getting worried as Ivan was already dragging his whip slowly toward Tony.

“No, I’m going to help Mr. Stark!” Seeing Tony in danger, Peter, who had rushed to the guardrail, could not help saying.

Tony Stark is actually Peter’s idol. He can’t watch him getting killed by a terrorist. However, Peter is not wearing his Spiderman’s suit now, although there are spider launchers hidden in his wrists and it will be

easy to rescue someone but the risk of exposure is high. But in order to save Tony, it's acceptable to risk this perceived danger.

"Well! Let's go together!" Lin Rui said after having guessed what Peter was going to do. After that, Lin Rui has already begun to remove the guardrail. The guardrail in front of him was already weak after being hit by car parts. With Lin Rui's strength, he could rip a big hole in it.

"Jackson!" Seeing Lin Rui drill through a broken fence, Peter screamed in worry. Later, he rushed after Jackson.

Crack! Crack! With a long whip in his hand, Ivan pulled twice on the ground. Ivan was close to Tony's overturned car, and Tony had not yet broken free from it.

Bang!

Just as Ivan was close enough to raise his whip again towards Tony's car, a car part suddenly hit him on the head and interrupted his movements.

"Hey! The guy with the whips!" Lin Rui, who had already rushed to the track and shouted behind Ivan, the car part that just hit Ivan was obviously thrown by him.

Ivan frowned and turned around when he was hit on the head by something inexplicable and heard the screaming behind him. Then he saw two young men standing in the middle of the chaotic scene without any fear, holding iron sticks that they picked up from god knows where.

"Hey! It's you! Surrender right now or we will beat you until your own mother won't recognize you!" With an iron stick in his hand, Lin Rui shouted loudly at Ivan. He was delaying for time and Tony had slowly climbed out of the car.

"Are you two brain dead?!" Ivan has already caused a lot of casualties on the scene and he won't stay his hand to spare two young men who don't know the meaning of fear. With a low cry, Ivan waved his whip.

"Jackson! Be careful!" Peter, standing beside Lin Rui, started to move just as the whip was swinging. He threw the iron stick in his hand at Ivan and in the next moment, he had rushed towards Lin Rui.

Although Lin Rui can certainly avoid this whip, he still let Peter throw him aside. The moment they fell aside, the whip had been pulled to the ground. A deep black crack appeared on the professional racing track with a snap.

A whip forced Lin Rui and Peter away and Ivan turned again, this time he did not hesitate and the next whip has been pumped in the Tony car's driver position.

Bang!

The already damaged car was once again hit hard, and the car was cut directly under Ivan's whip. However, Tony, who should have been pressed below, has disappeared. It seems that Tony has climbed out when Lin Rui attracted the attention of Ivan.

"Jackson! Are you okay?" Helping Lin Rui up from the ground, Peter asked anxiously.

"I'm fine, Did Mr. Stark escaped?" Waving his hands to show that he was okay, Lin Rui looked ahead and asked.

Bang!

The answer to Lin Rui question was a muffled noise. Tony, who climbed out of the car, lifted a piece of iron directly from the ground and smashed it behind Ivan. Ivan, who was attacked by him, staggered a step, but his simple armor helped him prevent most of the damage.

Turning around quickly, Ivan's whip had been thrown out, but Tony nimbly avoided it. After making his Iron Man Armor, Tony has begun to focus on his own combat training, and now he is at least more flexible than before and it is quite easy for him to avoid a few whip attacks. But after seeing the familiar Arc Reactor on Ivan's armored chest, Tony's face changed.

"Mr. Stark! Be careful!" Just as Tony was staring at Arc Reactor in Ivan's chest, a whip had been thrown.

Bang!

At the last minute, Tony narrowly escaped the whip but was blown out by the car exploding next to him. Falling down on the track, Tony also noticed Lin Rui, who had just reminded him and Peter beside him.

"Jackson?! What are you doing here!?" Tony screamed as he got up from the ground.

"Mr. Stark, this is not the time to discuss this!" Rushing towards Tony, Lin Rui and Peter helped him get away from Ivan quickly.

However, they had not yet run out a few steps and Ivan's whip had come after them, instantly scaring the ground in front of them and stopped them.

"What now? You came in empty-handed to save me?!" Looking back at Ivan, Tony couldn't help but say something sarcastic.

Hearing Tony's words, Lin Rui and Peter were speechless. If it weren't for the fear that their identities would be exposed, Ivan would not be a problem for either of them.

Boom! Boom!

Bang!

Just as Tony and the other two continued to flee, the attacks behind them suddenly stopped. It turned out that Happy finally drove over and hit Ivan directly on the guardrail, temporarily relieving them of danger.

"Ah-ah! I hit him! I hit him!" Ivan was pushed against the guardrail by a throttle, and Happy shouted nervously.

Sneer~

Ivan on the guardrail was not seriously injured because of his simple armor protection. The whip in his hand was waving in front of Happy's eyes, but he could not play any role because of the angle he is stuck at.

“Ah!” Although the whip did not hit him, Happy was frightened and backed out shouting. The tragedies of the previous racing cars were behind him, and he didn’t want to be cut in half by the whip himself.

“Tony! What the hell were you thinking?!” After Happy reversed the car, Pepper shouted at Tony from the car. Obviously, she was not satisfied with the fact that he had come down to participate in the car without permission, especially now that he has encountered this kind of thing.

“Happy! What are you doing! Hit him! Then hit him again! Pepper, throw the box at me, hurry up!” Without paying attention to Pepper’s complaint, Tony shouted loudly.

“Ah!” Hearing Tony’s words, Happy stepped on the throttle again and hit Ivan again.

Boom ~ bang~

Reversing the car again, Happy performed Tony’s words very well. However, Ivan’s whip has almost removed Tony’s luxury car. In the midst of chaos, Pepper finally threw out Tony’s suitcase.

The strongbox was thrown at Tony’s feet without hesitation and Tony stepped on it.

Kakaka~

As Tony’s foot stepped on the box, the square box changed rapidly, and complex steel components quickly covered it along Tony’s foot. Soon Tony was protected by a complete set of Iron Man Armor.

Wearing Iron Man Armor, Tony kicked the car carrying Pepper and Happy aside, away from Ivan.

“Jackson! Get away from here with your little friend! Leave the rest to me!” Ivan, who had just been hit by Happy for several times, came over and Tony turned to Lin Rui, who was still standing behind him and shouted.

“All right! Mr. Stark!” Knowing that Tony would be fine with his armor, Lin Rui agreed and went away with Peter.

Pepper and Jackson have also gone away. Tony raises his right hand directly to Ivan. The repulser cannon is charging fast. He wants to defeat this guy quickly with one shot.

.....

Chapter 97 Tony’s Cranky Thoughts

Bang! Bang!

“Miss Pepper, are you okay?!” Tony and Ivan in front of him were fighting vigorously, and Lin Rui helped Miss Pepper comfortably hide in the back.

“I’m okay, just Tony...” Shaking her head, Pepper is worried about Tony. That fellow’s whip seemed so strong that Tony’s armor could hardly withstand it.

“Don’t worry, Mr. Stark will be fine.” Ivan’s Arc Reactor is real, but his armor is too simple for him to be Tony’s opponent.

“Well, I hope so!” Pepper could only pray like that. She vowed that Tony would never be allowed to do these kinds of things again.

“Hey! Miss Pepper, I am Peter Parker, a friend of Jackson.” To ease Pepper’s nervousness, Peter smiled and reached out and introduced himself.

“Well, hello, nice to meet you.” Although the meeting was less formal on this occasion, Pepper politely reached out and shook Peter’s hand.

Just as Lin Rui and several of them were hiding around chatting, the battle over at Tony was almost over. Tony, dressed in the improved Iron Man Armor, grabbed Ivan’s whip and blindsided him with several punches and hit him on the shoulder at the last punch causing Ivan to fell to the ground and at the same time, Tony ripped the Arc Reactor out of Ivan’s chest.

After Tony defeated Ivan, the police arrived late and dragged Ivan off the ground quickly. Nevertheless, Ivan who was being dragged away by the police stared at Tony.

“You lost! Hahaha! You lost! Stark!” This is what Ivan finally yelled at Tony.

Kaka ~ Crush!

The Iron Man Armor was severely damaged, Tony watched Ivan being taken away and finally crushed the Arc Reactor in his hand.

“Tony! Are you okay?!” Pepper rushed over after she determined that the danger had passed.

“No problem, Pepper. But obviously our security needs to be strengthened, and this fellow is so impartial that he rushes in front of me.” Shaking his head, Tony has put down the Iron Man Armor’s mask, he is completely fine except for a little scratch.

“It’s not my fault! It was you who took part in the racing race without authorization!! Pepper shouted angrily at Tony’s words.

“Okay! Ok! This is over! So, Jackson, how are you here? And who is your little friend.” Tony had turned his attention to Lin Rui, who was beside him and Peter, who had an excited face.

“Hey! Mr. Stark! I am...”

“Jackson! Peter! Are you all right?!” Just as Peter was ready to answer excitedly, Harry suddenly ran up from behind and shouted in fear.

Because of the car race events, the high-tech enterprise meetings that should have been held was canceled as the bosses of big companies did not want to hold the meeting at such a dangerous time. And Lin Rui’s first vacation trip soon ended, thanks to Ivan.

.....

“When people find out that God bleeds, they stop believing in him. When there is blood in the water, sharks are attracted. Actually, I just sit here and watch you being swallowed up by the world.”

“Where did you see me swallowed up by the world? Prison? Don’t worry, I’ll give you a bar of soap.”

“Hey! Tony, I want to tell you before you leave. Palladium Poisoning, it’s going to be very painful to die.”

Tony, who had already reached the door, stopped after hearing this, and finally pushed the door away.

.....

Back in the United States, the Monaco attack continued to escalate. A guy who nobody knew came out and could fight against Tony's Iron Man Armor with a seemingly simple armor, which gave the entire US military and government a big scare. In particular, Tony's recent statement was self-sufficient. No one would be able to make a decent Iron Man Armor for at least 20 years. This technology belongs to him. However, this Monaco incident is like a slap on Tony's face.

"Tony, they want to take away your Iron Man Armor. They don't want to talk to you anymore! You said that no one will be able to master this technology for at least twenty years, but someone did it yesterday, and it's not a theory. Tony, you don't have to save the world on your own, you don't have to." In Tony's basement, Rhodes stood in front of Tony, questioning and persuading him.

"Most people misunderstand me, but I know what I'm doing." In the face of Rhodes' questioning, Tony can only make a weak and powerless explanation.

Tony, who has experienced the trauma of war, sincerely wants to contribute to world peace, which is why he has been reluctant to hand over the Iron Man Armor. But things don't always follow Tony's ideas. Tony's blood is full of Palladium Poisoning and he does not have many days to live now. It's too late for him to do anything for the world, so Tony's mind is getting confused.

Just as the U.S. military continued to put pressure on Tony because of Monaco and Tony was troubled by Palladium Poisoning, something happened to the prison where Ivan was detained. An attack led to the robbery of Ivan and the officers who escorted him. And it was Stark Industries' competitor, Hammer Industries, who robbed Ivan.

As a rival company of Stark Industries, Hammer Industries received more military orders from the military because Tony closed down Stark Industries' weapons department, but Hammer Industries suffered because of the appearance of the Miniature Arc Reactor and the Iron Man Armor. Hammer Industries has also been researching new types of individual armor, but there has been little progress due to problems with energy and control systems.

However, the emergence of Ivan gave Justin Hammer, the owner of Hammer Industries, an opportunity to interrupt Tony's monopoly of Arc Reactor and Iron Man Armor. So, using some means, Justin Hammer brought Ivan to his own hands. After meeting Ivan's requirements, Hammer Industries began to make its own unmanned Iron Man Regiment in secret. Justin Hammer will rely on these unmanned Iron Man Regiments to let the world know that Iron Man is not the only one, he can have an entire army of them.

But Justin Hammer doesn't know how much Ivan hates Tony. He's using Ivan to make Iron Man Regiment. But Ivan is using his resources to make weapons to get his revenge for himself.

In this way, without Tony's slightest awareness, a huge conspiracy against him is brewing in the dark. It will be a terrible battle between Iron Man Armors when it breaks out.

But even if Tony knows, maybe he won't do anything. As Ivan had told him before, Palladium Poisoning's death is very painful. Why would Tony accelerate his death? However, Tony's inner sense of guardianship and responsibility for the civilian population will never let him ignore Ivan. Tony, who was alone in the villa, felt the pain coming from him and thought a lot in his heart.

“Guardianship and responsibility? Can’t the world really be without me? Lying on the sofa, Tony muttered with an empty glass in his hand.

“Iron Man? Superhero? A dying Superhero? I can’t even save myself. How can I save others.”

“Guardian, responsibility, hero? Maybe the two guys can.” During his cranky thoughts, Tony suddenly remembered the day when Mirage Knight and Daredevil helped him in defeating Obadiah’s. Aren’t they all Vigilante in New York? They are also silently guarding the safety of ordinary people, and they regard the safety of ordinary people as their responsibility.

“J.A.R.V.I.S.”

“Yes, sir.”

“Can you contact Mirage Knight or Daredevil?”

“I try my best, sir.”

.....

chapter 98 Tony’s Party

On an outdoor basketball court in Queens, Lin Rui is playing with several of his friends, including Tom, who hasn’t played with them for a long time. Although Lin Rui always feels that Tom seems to have something to hide from him, he has no intention of digging out. Since he is a good friend, a certain amount of trust is necessary.

“Wow! Another three-pointer!” After the basketball crossed a beautiful parabola and went into the basket, the audience around shouted again, which was Peter’s fifth consecutive three-point shot.

For the physically fortified Peter, basketball is no longer a challenging sport. He can throw the ball in the basket with his eyes closed. Nevertheless, he liked the cheers of the people around him. Compared with Peter’s high-profile showing, Lin Rui, who can also shoot innumerable three-point goals with his eyes closed, is quite ordinary. He doesn’t like to show off as much as Peter.

It’s Tom. He doesn’t know if he has really improved his basketball skills or what else. Except for Peter, he scored the most points in the game. And as Peter scored three-point shots one after another, Tom followed him and threw several three-point shots, which made people’s eyes shine.

Soon, a friendly game between friends was over, and the final score was not very different. At the end of the game, it almost became a match between Peter and Tom, and almost everyone else was extras. From this game, Lin Rui suddenly found that Tom’s physical fitness seems to have improved a lot, much better than that of an average person.

“Hey! Tom, do you have any plans for your vacation? I may go to New Mexico later. Would you like to come with me?” Sitting in a resting seat next to the basketball court, Lin Rui asked Tom, who came over.

“Go out and play? My basketball team is going to train during the holidays, so I don’t have time to go out and play. Hearing Lin Rui’s invitation, Tom’s eyes drifted and he finally refused.

“Oh, yeah? Since you want to train, let’s do it next time.” Lin Rui seemed to have already guessed Tom’s answer and accepted it with a smile.

“Are you going to New Mexico? Why didn’t you tell me?” Just as Lin Rui was talking to Tom, Peter suddenly sat down.

“And here you refuse me too? We just came back from Monaco. Will Doctor Connors let you go on playing? Don’t you want to do the experiments?” Lin Rui asked faintly at Peter’s words.

“Uh... It seems so! It seems that I can’t go out with you this time.” When he remembered that his experiment with Dr. Connors had not been successful, Peter dismissed the idea of going out to play.

Buzz~

Just as Lin Rui and Peter were chatting on the basketball court, his cell phone on the side suddenly shook. Glancing at the display on his mobile phone, Lin Rui had some surprises, and then he picked up the phone and clicked on the message.

“At 7 o’clock tonight, Iron Man’s party. Location: My seaside villa, from Iron ManTony Stark.” This is the content of this message, it turned out to be a party that Tony invited Lin Rui to attend.

Although after Tony became Iron Man, Lin Rui also contacted him from time to time in the past to increase the completeness of the mainline quest. But recently Tony seems to have little contact with Lin Rui. He’s busy showing off his armor around New York and promoting the peace he brings. Every day there’s news about Tony Stark and Iron Man in the newspapers. Especially after the Monaco incident, Tony seems to have become more and more popular everywhere.

“What is it?” Seeing that Lin Rui’s expression was a bit weird, Peter asked curiously.

“Humm~ Nothing, greetings from a friend.” Putting the phone away, Lin Rui replied faintly.

“Really? What is her name? By the way, what steps have Harry and Gwen taken now?

Lin Rui: “...”

Tony’s invitation, to go or not? There should be many beautiful girls there.

.....

After returning home from the basketball court, Lin Rui took a shower and drove out in his car. Yes, it’s his car. After his sixteenth birthday, Lin Rui finally got his driver’s license and earned some money from his own work on The Daily Bugle, so he asked his father to help him buy a second-hand jeep. Although the car is not very good but it is also Lin Rui’s first car, Lin Rui is still very careful in maintaining it and he will drive this to his vacation point.

So when Lin Rui drove the old jeep to Tony’s seaside villa, it contrasted sharply with dozens of luxury cars parked at the door, like an old uncle in the middle of a group of beautiful women in bikinis. So Lin Rui consciously parked it in the corner.

Before entering the villa, Lin Rui heard loud music coming from the villa. It seemed like a really happy party. Without seeing any security guards at the door or Happy, Lin Rui went straight in.

“Ah oh!”

“Oh!”

“Iron Man! Iron Man!”

As soon as he entered the villa, Lin Rui frowned. The sound insulation effect of Tony villa was so good that only one-tenth of the sound heard outside was less than that inside. Originally Lin Rui had a more sensitive hearing, and it was a bit hard to accept such loud music all at once.

After adapting slightly to the music in the lower hall, Lin Rui was dazzled by crazy-eyed girls. The hall was crowded with nearly a hundred girls who participated in the party, all of whom were super-beautiful women. Lin Rui seemed to see several stars and famous models. Of course, this is Tony’s party. Would he invite some rough men?

Bypassing the crazy ladies holding their glasses, Lin Rui quickly squeezed in front of the hall. Fortunately, these girls are crazy about Tony on the stage, and no one will be interested in Lin Rui, a seemingly immature little boy. Finally, with some skill, Lin Rui finally squeezed into the front of the hall, and he finally saw Tony. However, he did not seem to be in such a normal situation at this time.

Tony, one of the few men in the whole party, was standing on the steps in his Iron Man Armor, twisting with the music and holding a cocktail in his hand. As for Happy, he stood helplessly in the corner of the stage and looked at Tony. He dared not interfere in Tony’s affairs.

“It’s really crazy enough, the life of the local tyrants is different!” Glancing at Tony, who was hitting the stage, Lin Rui had some helpless thoughts.

Then Lin Rui walked towards Happy. He wanted to inquire about the purpose of Tony’s party. Doesn’t he know that this would make Miss Pepper very unhappy? They should be in an official relationship now. Tony hasn’t attracted bees and butterflies for a long time now. What is happening today?

“Hey! Happy, I haven’t seen you for some time!” Lin Rui shouted loudly at Happy on the edge of the stage, and only then could he guarantee that Happy could hear his own words.

“Hey! Jackson, I didn’t expect Tony to invite you too.” Seeing Lin Rui, Happy shouted loudly. It seems that Tony’s party was held suddenly.

“Well, I suddenly got a message from Mr. Stark this afternoon. What’s wrong with him? Where is Miss Pepper?” With a nod, Lin Rui continued to shout.

“I don’t know! Mr. Stark seems to have changed a bit recently. I don’t know what happened to him. As for Miss Pepper, she is now the CEO of Stark Industries. Mr. Stark threw all his work to her. She is very busy.” Happy gave Lin Rui a simple explanation in a loud voice.

Hearing Happy’s words, Lin Rui’s eyebrows suddenly jumped. He seemed to have forgotten something important. After thinking about it for a while, Lin Rui finally remembered what he had forgotten. Arc Reactor! Palladium Poisoning! In Iron Man’s original plot, Tony has been indulging himself because of Palladium Poisoning. The thing that kept him alive was now slowly killing him, and Tony couldn’t stop it.

Chapter 99 Crazy Tony

Bang!

“Wow!”

“Oh!”

“Iron Man! Iron Man!!!

The cries of the girls on the stage became more and more exciting, and Tony on the stage became more and more crazy, twisting and twisting with the music. At that moment, Miss Pepper came to the party and she went directly to Tony and persuaded him to end the party. But how can a drunk Tony listen to Pepper? As he echoed Pepper, he handed her the microphone and went to the center of the stage.

Lin Rui doesn't know whether it was accidental or deliberate but Tony suddenly opened the weapon system on his Iron Man Armor and fired a gun at the landing glass next to him. Pepper, standing beside Tony, was shocked. She didn't expect Tony to be so crazy. The gun made all the girls present crazy and they shouted to see the real power of the Iron Man Armor.

“Ah! Come On, throw it!” Pointing to a woman with a bottle under the stage, Tony had raised his arm.

“Ha!” The woman laughed and threw the bottle up.

Bang!

Tony pushed the atmosphere of the scene to a climax again when a palm repulsor directly smashed the bottle. It seemed that it was not enough to break a bottle. Tony fired again and broke a chandelier in the hall. At last, Pepper, standing beside Tony, couldn't take this anymore. She turned and left the stage with a beautiful woman, Miss Natasha, Miss Pepper's new secretary.

“We can't let Tony go on like this. It's going to be a mess!” As Tony became more and more uncontrollable, Lin Rui and Happy went up to the stage to persuade Tony.

“I'm only gonna say this once, Get out!” However, before Lin Rui could act, someone had already rushed onto the stage. No, it's another guy in Iron Man Armor. The voice belongs to Lieutenant Colonel Rhodes, who apparently received an invitation from Tony. Like Pepper, Rhodes wasn't able to stop Tony so he went to the basement to wear an Iron Man Armor to stop Tony from acting out.

With Rhodes' serious face and serious tone, the whole party suddenly quieted down. The DJ also stopped the music, which made Tony very upset.

“Don't stop the music.” Walking up to the DJ, Tony doesn't care about the current situation.

“Oh~”

“Tony! Are you out of your mind? I want you to take off the Iron Man Armor!” Just as Tony continued to twist with the music, Rhodes rushed over and grabbed him from behind.

Bang!

However, Tony obviously won't listen to Rhodes. The mask was lowered and the Iron Man-suit ejector was instantly activated and the two men hugged together broke through the glass behind them and flew out.

“Wow!”

“Iron Man! Iron Man!”

As the fight between Tony and Rhodes continued, the excited girls thought it was a show and continued to shout. However, they will soon find that they are wrong.

“Happy, I think you should evacuate the people here.” Reminding Happy, Lin Rui ran towards the basement.

Seeing Tony and Rhodes fighting, Lin Rui certainly can't sit idly by. But in the case that his Mirage Knight identity cannot be exposed, using Tony's Iron Man Armor is now the best choice.

.....

In Tony's luxury villa, the red Iron Man and the silver Iron Man are fighting with each other with some awkward movements. Tony is drunk, while Rhodes is not very familiar with the operation of Iron Man Armor. However, although the fight was ugly, the girls were still shouting wildly with their glasses on their hands.

However, as time went on, this comic battle slowly changed. When the battle between the two has begun to escalate, the cheering girls around finally became aware of the dangers.

Bang!

Tony hit Rhodes again, but he missed him and almost shot a girl in front of him.

“Ah! Danger!”

“Ah! Run!”

“Go!”

The lively girls finally woke up, this is not a show, but a battle that can threaten their lives.

“Tony! Stop it! You're crazy!” In an instant, he rushed to Tony's face and Rhodes grabbed him and shouted.

“Rhodes! We're fighting!” Without paying attention to Rhodes, Tony bent his knee and flew Rhodes to the top. Since he doesn't have much time left, why doesn't he just do what he wants? After seeing Ivan, this is Tony's present state of mind.

Bang!

Rhodes, who was headed by Tony, rushed back quickly and knocked Tony down with one punch. Since Tony doesn't want to wake up, he'll wake him up!

Bang bang!

Pressing Tony, Rhodes punched him on his helmet. Rhodes was also chilled by the madness of his best friend.

Just as Rhodes was pressing Tony, his fist was suddenly caught.

“Enough! Tony will be seriously injured if this goes on!” Grabbing Rhodes’ fist was Lin Rui, who came back from the basement wearing an Iron Man Armor. He felt that the lesson was enough. He didn’t want to let anything go wrong with the relationship between Rhodes and Tony. If Rhodes knew about Tony, he might understand him.

Stopped by Lin Rui, Rhodes looked at Tony, who was lying on the ground with no resistance, and finally stood up.

“Tony, you disappoint me!” With that, Rhodes was ready to leave with Tony’s Iron Man Armor.

The military has been wrangling with Tony for a long time under the pressure of the people and has not been able to reach a consensus. Rhodes is now about to break the deadlock, although he does not know how serious the consequences of this move will be.

However, just as Rhodes was ready to launch the Iron Man Armor’s jet system, Lin Rui appeared in front of him.

“Lieutenant Colonel Rhodes, Iron Man Armor belongs to Mr. Stark, you have no right to take it.” Knowing what happens when Rhodes takes away the Iron Man Armor, Lin Rui certainly can’t let him just leave.

“Jackson, are you going to stop me? I’m helping Tony!” Seeing Lin Rui standing in front of him, Rhodes asked uncomfortably.

“I don’t know if you are helping Tony, but I can’t let you take away the Iron Man Armor. This is Tony’s private property, I think it would be better if you take it off.” In the face of Rhodes’ questioning, Lin Rui looks humble as he speaks, but he will not allow Rhodes to take away the Iron Man Armor.

“What if I insist on taking it?” Faced with Jackson’s toughness, Rhodes asked in a low voice.

“Then I can only do this.” Raising his right hand, Lin Rui Iron Man Armor’s energy gun is gathering energy quickly. “Rest assured, Lieutenant Colonel Rhodes, I’m not drunk, I’m sure I won’t miss it.”

Rhodes: “...”

Finally, Rhodes failed to take Iron Man Armor away. Although he did not know why Lin Rui was so determined to stop him, he could not take away the Iron Man Armor at the risk of a firefight.

After Rhodes took off Iron Man Armor and left angrily, Happy followed the escaped guests. So when Tony awoke slowly from the collapsed stage, there was only Lin Rui in front of him. Others don’t know what Tony is experiencing. They don’t understand Tony’s weird and crazy behavior, but Lin Rui knows, so he can’t leave Tony alone.

Chapter 100 Toxin Release

It took Tony more than an hour to wake up slowly.

“Hey! Jackson, haven’t you left yet? Squinting his eyes, Tony felt uncomfortable and confused. But at least he could see Lin Rui in front of him.

“Well, everybody else is gone. I can’t leave you lying like that.” Smiling, Lin Rui, squatting beside Tony and said calmly.

“Oh, the mess this time is really big.” Glancing around, Tony said indifferently. The original luxurious hall has become unrecognizable because his guns destroyed almost every inch of it, this is all money ah!

“Get up, Mr. Stark. What you need most now is rest, not continued use of Iron Man Armor.” Helping Tony up from the ground, Lin Rui quietly persuaded. Palladium has always been in Arc Reactor, but Tony’s constant use of Iron Man Armor speeds up Palladium’s entry into his body and accelerates his death.

With the help of Lin Rui, Tony took off the Iron Man Armor and was supported to the sofa by Lin Rui.

“Hey~ Why didn’t you leave. Seeing me like this now, aren’t you disappointed? Even if I used to be your idol, now the idol image has been destroyed.” Leaning on the sofa, Tony looked at Lin Rui who poured him a glass of water in front of him and asked curiously. Even Pepper and Rhodes have left. Why does this young man decide to stay here to take care of him?

“Mr. Stark, you knew I had no idols. As for me, I didn’t leave, just because I regard you as my friend. And now that my friend is ill, I have to help and take care of him.” Handing the water cup to Tony, Lin Rui answered with a smile.

“Ha-ha, friend? It turns out that you value your friends so much. But why do you think I’m sick? And not really just mad?” After receiving the water from Lin Rui, Tony smiled and asked. He did not tell anyone about Palladium Poisoning so how did Lin Rui perceive his illness.

“Tony, you have the smartest brain in the world. If you’re crazy, the world will lose a great scientist. And don’t you know how bad you look right now?” As he spoke, Lin Rui held a mirror in front of Tony.

Tony’s frequent use of the Iron Man Armor caused the Palladium to infiltrated his body at a faster rate and the degree of poisoning was already high. Dark purple streaks, which were originally visible only on the chest, are now spreading to his neck, where Tony’s blood levels of Palladium Poisoning may have exceeded 30 percent.

Sweeping his pale face in the mirror, Tony waved away the mirror. He doesn’t need anybody’s warning and comfort now, because nobody can save him.

“Mr. Stark, take a rest after drinking this glass of water. I’m sure you’ll get better slowly.” Putting the mirror away, Lin Rui said calmly.

“Well, I really don’t need someone to stay.” Seeing that Lin Rui didn’t seem to leave without watching him drink the water, Tony finally took a sip and drank it all. Having been drinking for so long, there’s a real shortage of water in his body.

“Well, it’s time you left. I’ll ask Happy to take you back. Uh, ~Happy may have gone too... After drinking the water, Tony wanted to send him home. Halfway through, however, he realized that Happy should have left too.

“Don’t worry, Mr. Stark, I drove over. But thank you all the same.” Taking a blanket for Tony, Lin Rui said with a smile. “Well, Mr. Stark, I’ll go back.”

Watching Lin Rui turn around and leave, Tony wraps up his blanket and finally falls asleep. He didn't know that the water he had just drunk was playing its part by circulating around his body. Soon, the frightening streaks that spread from Tony's chest slowly shrank back and disappeared.

.....

"Spend 1,000 Reward points to exchange the remaining blueprints of E Grade Aerospace Warship, confirm it or not."

"Confirm."

Back home, Lin Rui redeemed the complete E Grade Aerospace Warship design blueprint from the System Shop. Now that Lin Rui has planned to let Tony make these Warships, it's easy to convert them now, because Lin Rui is rich now in terms of reward points.

"If I'm going to hand Tony these Aerospace warship design, I have to make sure Tony and I are on the same side. Now S.H.I.E.L.D. is a problem. It seems that Mirage Knight has to get involved." Looking at the complex blueprint in his mind, Lin Rui thought to himself.

The current S.H.I.E.L.D. is almost under the control of Hydra. Except for a few agents who are loyal to Nick Fury, the whole S.H.I.E.L.D. is a big fire pit. Lin Rui doesn't want to have too much contact with them. Even if he wants to deal with S.H.I.E.L.D., he has to wait until the remaining forces of Hydra are removed. However, this is not something that can be done in a short time. So, Lin Rui didn't want Nick Fury to simply recruit Tony.

"But, what excuse should I use to find Tony? The last time I helped him defeat Obadiah, it seemed that Tony couldn't fully believe what I said. It was a bit annoying!" Lin Rui wanted to use Mirage Knight's identity to tell Tony that he had to look for his dad's things in S.H.I.E.L.D. for the new elements to replace Palladium, but could not find any good excuses.

"Forget it! It's no big deal. I'll go straight to him and tell him, 'It's his problem if he believes it or not!'" After thinking about it for a long time, Lin Rui didn't think of any good way. Finally, he simply didn't think of it. Sometimes it's better to be simple and direct.

Just as Lin Rui was worrying about how to find an excuse to meet Tony as Mirage Knight, he didn't know that Tony was looking for him and Daredevil. Knowing that he was dying, Tony wanted to find someone who could share his responsibilities and shoulder the burden of protecting civilians.

.....

Not to mention that Lin Rui is upset about Tony's affairs. Tony, who had a hangover night, has slowly woken up from the sofa. However, when Tony woke up, he noticed that his body was somewhat different. Tony's pain from Palladium Poisoning, which had afflicted him for nearly a month, suddenly disappeared. If Tony hadn't felt the cold Arc Reactor on his chest, he would have thought he was dead.

"J.A.R.V.I.S! Open the window!" Feeling abnormal, Tony suddenly shouted.

"Yes, sir." The ever-present J.A.R.V.I.S. quickly opened the window behind Tony, and the morning sun shone in.

Tony immediately jumped up from the sofa and walked to the window in a few steps, then pulled his shirt off to reveal the position of the Arc Reactor in his chest. There, the dark purple stripes, which were supposed to be all over his skin, have disappeared as if they had never appeared before.

“This is!... What happened?!” Tony could not believe it when he saw the change in his chest. He reached out and touched it twice. It seemed that the toxins were really gone.

Instead of standing at the window and admiring his chest too much, Tony rushed to the workbench, where he had an instrument for measuring Palladium levels in his body. Tony waited nervously for the test results.

“Blood Palladium content: 0.7 percent, safe range.”
